The election campaign just closed was a credit to all the candidates...

There were 39 write-ins for various offices...

The Lincoln County Farm & Livestock Bureau...

One thing that makes the Farm Bureau strong...

The 20 resolutions adopted deal with real live problems...

Several reasons are advanced by those who favor Alamogordo...

1. The SP wants to unload the utility as fast as it can.

2. There is more water in the Bonito System than Carrizozo can possibly use.

3. Its maintenance would be too great a burden for the community to bear.

In answer, Southern Pacific understandably wants to get out from under the utility business.

As to the amount of water in the Bonito System...

Figures are cited to show the amount of money the railroad has lost operating the water system.

Another factor that has operated recently to make the system expensive has been that it has been based on the theory that the water is scarce...

Sgt. Logan Henstey, of Red Canyon Camp, a passenger in the car, suffered a fractured right pelvis and is in Carrizozo Hospital.

Bashlor, with a compound concussion of the head, was given police patrol escort all the way to the Texas New. There the Shaw Mortuary ambulance was met by El Paso police for the run to the hospital.

Patrolman Apodaca blamed the accident on excessive speed.

Soldier Critically Injured at Red Hill

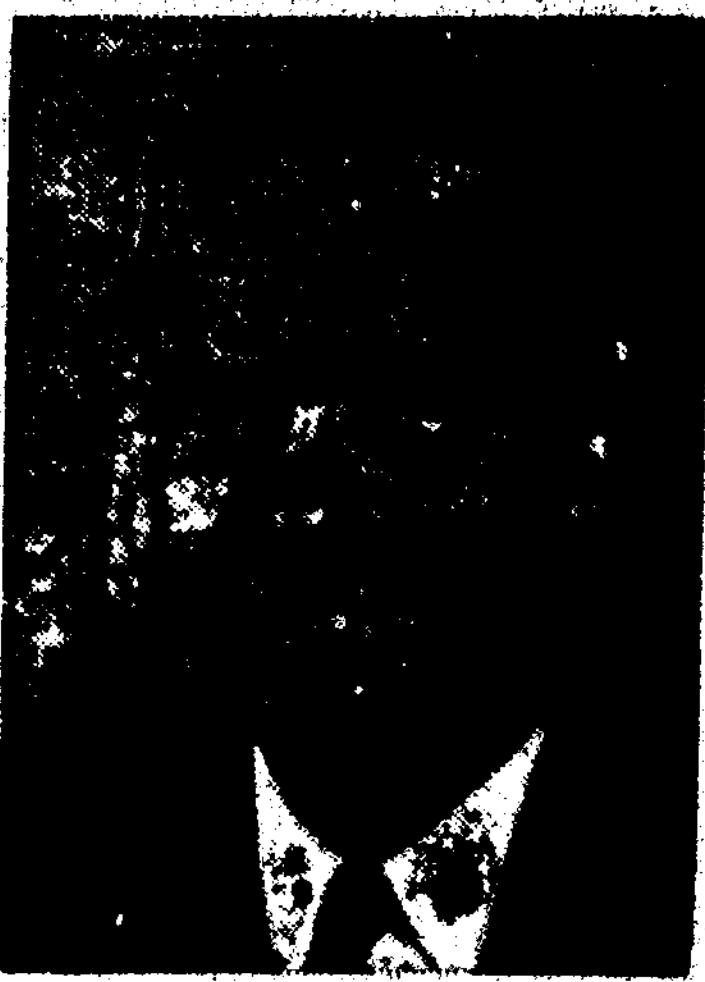

Cpl. Tom Russell Bashlor, 22, U. S. A., is reported to be in critical condition in Wm. Beaumont Hospital in El Paso, where he was taken following a car accident on Red Hill, west of Carrizozo Monday afternoon.

Bashlor was driving west on 380 when his car failed to negotiate a curve, plunged 100 feet through the air into the canyon and rolled end over end for a distance of 200 feet.

The driver was thrown out of the car into a pile of boulders, according to State Patrolman Eddie Apodaca who investigated.

Sgt. Logan Henstey, of Red Canyon Camp, a passenger in the car, suffered a fractured right pelvis and is in Carrizozo Hospital.

Bashlor, with a compound concussion of the head, was given police patrol escort all the way to the Texas New. There the Shaw Mortuary ambulance was met by El Paso police for the run to the hospital.

COUNTY RETURNS MOST OFFICIALS

Lincoln County voters returned most of its incumbent officials to office in Tuesday's election.

The one exception was Probate Judge John Mackey, Republican, who was defeated by Democrat Bryan Hendricks, in a close race. The margin between the two was only 40 votes.

In another close contest, Alfonso Soto won the Commissioner post, District 1, by a margin of 74 votes over his Democratic opponent, Fred McTeigue.

L. S. (Heavy) Drake, Republican, seeking his second term as State Representative, lost to S. M. (Sally) Ortiz, Democrat, in a race that was not finally decided until the last ballot box was in.

When the Hondo vote was tallied, Ortiz led Drake by an even 50 votes.

The Hondo precinct also decided the close contests for Commissioner District 1 and Probate Judge.

County officials elected to serve another two years were: Commissioners George Fuchs and Charles A. Jones; James E. Harcrow, County Clerk; S. E. Grelsen, Treasurer; Lloyd Vigil, Assessor, and William Glen Bradley.

The four top names on the Republican side of the ballot received majorities, Edwin L. Mechem leading the list with slightly over 300 votes more than his opponent, Clinton P. Anderson. Alvin Stockton for governor led John F. Simms Jr. by 40 votes—1359 to 1319.

The rest of the way on the state ticket it was Democratic except for Charles Battiste with an 18-vote plurality over Joe M. Montoya, and A. S. Walter who defeated Melvin E. Tays, Democrat, 158 votes for State Representative, 30th district.

Richard H. Robinson, Democratic candidate for Attorney General, led the victorious state candidates with a vote total of 1445, against his opponent Edward J. Apodaca, who received 1179.

In the Guadalupe Mountains check stations will be located at Corona and Mountainair.

Sarge's Drive-in Cafe To Open in November

Sarge's Drive-In Cafe is expected to be opened around the 15th of this month, according to Sgt. T. D. Ingle, proprietor. The 30x30 concrete block building is under construction by Frank Vega for L. M. Huffman, who will lease it to Sgt. Ingle.

The cafe, which is located on Highway 54 at 13th and E sts., in Carrizozo is set back to allow parking for carhop service. The proprietor states that shrimp and chicken in basket will be one of the cafe's featured items.

HUNTING SEASON OPENS NOV. 6

Robert H. Stewart, district biologist and Marlon Embrey, district game warden with the New Mexico Dept. of Game and Fish, have jointly released information regarding the big game season in the Sacramento, Gallinas, San Andres and Guadalupe Mountains.

They call attention of hunters to the fact that each may take one deer of either sex in areas 14, 18, 19, 20, 21, 26 and 27. Bucks, antlerless deer and spike bucks must be tagged immediately after being killed.

All antlerless deer, including does, fawns and spike bucks must receive an additional tag at a checking station. All untagged deer will be confiscated.

Hunting hours are from sunrise to sunset November 6 to 13, inclusive. No deer hunting is permitted in the above areas after November 13.

CHECKING STATIONS

Checking stations will be at the following localities in the Sacramento Mountains: 1. Junction of Highways 54 and 83. 2. About five miles east of Hope on Highway 83. 3. Seven miles north of Highway 83 on Highway 13. 4. Hondo. 5. Capitán. 6. Carrizozo. 7. Pine Lodge. In the Gallinas Mountains checking stations will be located at Corona and Mountainair.

In the Guadalupe Mountains check stations will be located at 1. Rocky Arroyo at the junction of Highways 255 and 137 (El Paso-Gap road). 2. Dark Canyon near the Newman Ranch. 3. About 5 miles east of the Stevens Ranch headquarters on the El Paso Gap-Plymouth road. Check station No. 2 in the Sacramento Mountains and check stations 2 and 8 in the Guadalupe Mountains will operate through Nov. 9 only, and hunters checking out of the areas after the 9th should plan to check through other stations.

The checking stations for the east side of the San Andreas on the White Sands Proving Grounds, will be located at the junction of Highway 52 and the Fole Line road. This checking station, along with the ones on the west side at Organ, Jornada del Muerto Experiment Station, Rincon and Engle will open at 4 a.m., on November 6.

Successful or not, all hunters are requested to check out of the check station nearest them.

Hunters are urged to observe strict safety precautions and to respect the rights and property of the ranchers.

SCHOOLS TO HAVE "OPEN HOUSE"

The Carrizozo public schools have planned a full program in observance of American Education Week, beginning Monday, Nov. 8. Every day that school is in session visitors will be cordially welcomed to the schools.

Supt. R. G. Firman stated this week. "School personnel," he said, "will be happy to guide visitors around the buildings and the grounds and they will be welcomed to classes and to share in the lunch room program."

Tuesday night the Carrizozo PTA has planned a program of special interest on "Juvenile Delinquency" with State Police Captain E. A. Tafuya presiding. One feature will be a panel discussion by Dr. Stermer of the Governor's Committee on Youth, and Kenneth Barnhill, district probation officer, entering into the discussion.

Wednesday morning the First Grade classes will be on exhibition in person in the store windows of the Big Jo Lumber Co. and the Carrizozo Hardware Co.

The driver training classes of the high school plan to set up their equipment and invite the motoring public to test their skill.

Thursday night will commence with "Open House," and a short assembly program in the auditorium of the old grade school building. Following the various classrooms and departments of the school will be open to the public. Teachers will be on hand to talk with parents and friends and pupils will serve as guides.

On behalf of the faculty and board of trustees of the Carrizozo schools, Supt. Firman urges the people of Carrizozo to visit their schools and view the progress being made in the education of their children.

MAYOR ROBERTS DISCUSSES BONITO WATER CONTRACT

By MARVIN H. ROBERTS Mayor of Carrizozo

Carrizozo now owns a water right. Here's how it came about. We got our water now and have for some years, from the Southern Pacific Railroad, under a license contract at a cost of 50c per thousand gallons. Since our water comes to us under a revocable contract, the Southern Pacific has no legal obligation to furnish any water. Morally, the Southern Pacific does have some responsibility, which they have fulfilled by making us a party to the transfer of Bonito water rights.

Some months ago, the Town Council of Carrizozo entered into negotiations with the City of Alamogordo (who was then in the process of buying the Bonito System), to obtain an assured water supply for Carrizozo. These negotiations would have guaranteed Carrizozo 100,000 gallons per day, at a cost of 20c per thousand gallons. Later the Southern Pacific indicated a willingness to transfer an absolute water right of 115,000 gallons per day. We therefore agreed to the transfer and to pay 20c per thousand gallons as our share in the maintenance cost of the pipeline. Under this transfer, Carrizozo becomes part owner of the Bonito water right, and is included in all the plans for the disposition of that water. The opportunity afforded us to

HOW LINCOLN COUNTY VOTED

Table showing election results for Lincoln County, listing precincts and candidates with their respective vote counts.

WILL HARRISON'S Inside the Capital

SANTA FE, Nov. 3.—One cent out of every three that you pay in sales tax is not turned into the state, according to a high official in the Bureau of Revenue.

There is plenty of law requiring merchants and professional people to collect and pay a 2% tax on their gross business, with interest and penalties on delinquency but beyond that there is no punitive measure for those who collect the tax and put it in their pockets.

Pedro Ortiz y Pino, long-time finance officer of the bureau, estimated that the state was falling to get in 35% of the sales tax. In money that means about \$3,750,000 a year, enough to clear up all the money shortages the state is facing.

Ortiz backed up his estimate with a newly worked out compilation of tax-remitting firms which showed that 10,000 out of 22,000 firms making returns are paying on a basis that indicates their business is marginal or money losing.

For instance almost a third of all those making returns claim that they have a gross volume of business of less than \$250 a month. A retail merchant taking in \$250 a month would do well to have \$50 left over for rent, salaries, lights and all the expenses of doing business.

ADD YOUR TAXES TO THEIR PROFIT

The situation indicates that thousands are collecting the sales tax from customers and adding it to their profits. There have been many cases uncovered in the past in which merchants were found to be collecting the tax on all sales but at the end of the month remitting the 2% payment on only what they considered their profit.

Others have arbitrarily exempted certain items, such as liquor, from their sales tax payments. Ortiz said the condition is the result of two factors:

First, a long standing practice in the Bureau of Revenue of not auditing the books of any but the larger tax payers, and second, political pressure against moving in on thousands of small business firms.

The bureau officials, who served many years with Democratic administrations as well as with the current Republican regime, think the full tax could be collected if the bureau operated without political considerations.

NEW RESTRICTIONS ON NEW GOVERNOR

The new governor and his crowd who take over January 1 are going to have some restrictions on them that are not in the law books. There have been some changes made at the statehouse in the last four or five years that the public wants to keep.

We can envision a public uprising if, for instance, there is any relaxation of the control of state automobiles and their reversion to becoming the family vehicles of statehouse workers; if there is any slip-back in purchasing policy to the old practice of rigging specifications to favor certain dealers or boldly tearing up the bids of politically unfriendly vendors; if there is any let-up in the strict enforcement of anti-gambling laws, a reform that was inaugurated

**LETTER ASKS
CLARIFICATION ON
BONITO WATER**

(In a letter addressed to Attorney Daniel R. Brenton, George A. Shipley, attorney of Alamogordo, asks clarification on the amount of water Carrizozo is to receive if Alamogordo takes over the Bonito system. A copy of Mr. Shipley's letter to Mr. Brenton follows.—Ed.)

Dear Mr. Brenton:

I have read with a great deal of interest the article submitted by you and appearing in the Lincoln County News of October 22, 1954.

Especially interesting to me, and I am sure to the water users in the vicinity of Carrizozo, is the statement made and repeated by you in this article with reference to the 115,000 gallons per day of water allotted to Carrizozo, in which you say:

"If this quantity of water is not sufficient for the Town of Carrizozo, the City of Alamogordo has agreed to enter into a contract with the town authorities to provide it with such additional water as it may wish from the Bonito System"

"The City of Alamogordo has

likewise agreed to enter into a supplemental contract with the town for such additional water as it may be able to use."

If these two statements made by you are correct, then there is no controversy in my opinion with the people of Carrizozo under the Bonito water transfer.

I have a copy of the escrow agreement between the Southern Pacific Company and the City of Alamogordo, et al, before me at this time and the provisions which you refer to are not incorporated in that agreement and I am surprised that the attorneys representing the Town of Carrizozo did not have the provisions incorporated in the agreement before recommending that it be signed.

If your statements are true, this controversy can be settled in a matter of a few minutes by having your statements reduced to writing and signed by the responsible persons so that the Town of Carrizozo is protected in its future needs for water. If the statements made by you are not true and are not authorized by the City of Alamogordo and the Southern Pacific Company, then the people of Carrizozo have been misled by your article.

The people with whom I am associated in this matter in Carrizozo and that vicinity only want to protect themselves and their property by providing water for their immediate necessities and for future development and a contract with the responsible parties embodying the provisions in your statements quoted above would certainly furnish that protection.

I am sending a copy of this letter to the Board of Trustees of the City of Alamogordo and request that they inform me as to whether or not your statements quoted above were authorized.

I am also sending a copy of this letter to the authorities of the Town of Carrizozo and would like to hear from them as to whether or not the propositions quoted by you above were submitted to them at the time this matter was under discussion. I am likewise sending a copy of this letter to Mr. Forest Sanders, Attorney of Las Cruces, for his information.

DESERT DAN SAYS:

Saw quite a few folks at the election Tuesday that I hadn't seen for a long time. Sure is great to see people take the trouble to come out and vote. Some of 'em were smilin' and others looked pretty serious when they finished votin'. Y' never can tell for sure 'bout elections. Maybe when th' returns are all in, they'll feel jist the opposite.

**What's new with Chevrolet?
everything!**

Wonderful new Glide-Ride Front Suspension
Now spherical joints flex freely to cushion all road shocks. New exclusive Anti-Dive Braking Control, assures "heads up" stops.

Even Air Conditioning, if you wish
Air is heated or cooled by a single unit that fits compactly into the front of the car. Requires no trunk space! (V8 models only.) And that's only one of the wonderful extra-cost options you can get!

Great new V8—two new 6's
New "Turbo-Fire V8" delivers 162 h.p. with an ultra-high compression ratio of 8 to 1. You can choose from two new 6's, too—the new "Blue-Flame 136" with Powerglide (optional at extra cost) and the new "Blue-Flame 123."

Easier steering, stopping, clutching
The new Chevrolet steers with ball-bearing ease, thanks to new friction-cutting Ball-Race Steering. New Swing-Type Pedals pivot at the top.

A ventilating system that really works
Chevrolet's new High-Level Ventilating System takes in cleaner air at hood-high level—away from road heat, fumes and dust.

Three drives, including Overdrive
There's Powerglide teamed with the new V8 or the new "Blue-Flame 136." New Overdrive teamed with the new V8 or the new "Blue-Flame 123." (Powerglide and Overdrive are extra-cost options.) New standard transmission, too!

And look what you see from the driver's seat
Chevrolet's new Sweep-Sight Windshield curves around to vertical corner pillars, giving you a wide, full view. And you can see all four fenders from the driver's seat!

And Chevrolet's got that long, low "let's go" look
It's a show car from the word go! Longer looking—and lots lower. There's plenty of glamor inside, too—plus more room for hats, hips and shoulders!

Chevrolet and General Motors have started something—a whole new age of low-cost motoring—by taking a whole new look at the low-cost car. Here are new ideas, young ideas... and some of tomorrow's ideas, too! And they're all rolled up in the most glamorous package that ever wore anything like a Chevrolet price tag!

This is the car that began with a great idea—the idea that a low-priced car could be built that would have the style, the performance, the comfort and convenience features, and the fine quality "feel" of high-priced cars.

This is the car that only the world's leading car builders—Chevrolet and General Motors—could have built. The Motoramic Chevrolet! Come in and see how the Motoramic Chevrolet for '55 is far more than a new model. It's more, even, than a completely new car. It's a whole new idea about cars!

LIONS SUPPORT GIRL SCOUTS

Lions Clubs are the sponsors of more than 650 Girl Scout Troops in the United States. The Boys and Girls Committees of the Lions Clubs last year completed more than 24,000 individual community projects to help the youth of their respective communities. Of these activities a large percentage was in direct support of Scouting programs. The Lions now sponsor more Girl Scout Troops than any other organization in the world.

Selective Service Sets Dates for College Qualification Tests

Brigadier General John P. McFarland, State Director of Selective Service today announced that the Selective Service College Qualification Test for the 1954-55 school year will be held on Thursday, Dec. 9, 1954 and Thursday, April 21, 1955.

Applicants for the College Qualification Test should submit their applications at the earliest possible date, as applications for the test on December 9, 1954, must be postmarked not later than midnight, Nov. 23, 1954, and those for the test on April 21, 1955, must be postmarked not later than midnight, March 7, 1955.

State Headquarters of Selective Service said they could not emphasize too strongly that students eligible to take these Selective Service College Qualification Tests should afford themselves of this opportunity, as the criteria for consideration for deferment as a student at the present time are either a score of 70 or better on the Selective Service College Qualification test, or class standing among the male members in the upper half of the freshman class, upper two-thirds of the sophomore class, or upper three-fourths of the junior class. Seniors accepted for admission to a graduate school satisfy the criteria if they are among the upper half of the male members of their senior class or if they make a score of 75 or better.

These criteria are guides for the local boards. The local boards are not under compulsion to follow them, but any local board classification is subject to appeal. The appeal must be filed in writing with the local board within ten days of the date the local board mails the notice of 1-A classification.

To be eligible to take the Selective Service College Qualification Test an applicant on the testing date (1) must be a Selective Service Registrant who intends to request deferment as a student; (2) must be satisfactorily pursuing a full-time college course, undergraduate or graduate, leading to a degree; (3) must not previously have taken the test.

A student may obtain an application for such tests from any Selective Service Local Board. It is not necessary to obtain the application from the student's own local board.

HALLOWEEN FESTIVITIES

Mmes. Elizabeth McVeigh and Hazel Hayes entertained their Sunday School classes at a Halloween party Friday night.

Nineteen little guests participated in the fun, noise and games. Refreshments of candy, doughnuts and punch were served.

The Carrizozo Country Club was the setting for a costume party Sunday night, with Ralph Petty Jr. as host.

The prize for the most original costume went to Vivian Sandoval, who came as "Aunt Femina."

About forty guests were present, including adults, Mr. and Mrs. Ralph Petty, Mr. and Mrs. Vernon Petty, Mr. and Mrs. R. G. Firman and Mrs. Roy Richard.

The David Williams entertained twenty young folks at their home Saturday night.

Highlighting the evening was a scavenger hunt and dancing. Refreshments were served later in the evening.

Mr. and Mrs. Oseo Noyes were recent business visitors to Albuquerque.

HALLOWEEN PARTIES AT FORT STANTON

A big Halloween party for all children patients was held in the school house at the Ft. Stanton Medical Center on Friday afternoon, Oct. 29. Games were played, general merriment had and refreshments served.

It was a pleasure to watch these happy youngsters enjoying themselves and to notice the amazing recovery they have made at Fort Stanton.

There was also an exhibit of art work by the children, under the able guidance of Mrs. Hattie Lacy. The exhibit was judged by the artist, Dan Kuslanovich, who selected the three best works in two divisions represented. He expressed great surprise at the versatility and the imagination of these youngsters.

The school house was Halloween-decorated by the children. Prizes were given for the best free-hand drawing to Frank James, Darrel Manygoats, Geo. Manygoats and Victoria Harvey.

Prizes were given for the funniest Halloween mask. The winners were Frank James, Mary Jerry and Roy Begay.

Assisting with the serving of refreshments were nurses Kelso, Wiley and Kuslanovich; nurses aides Padilla, Flatley and Sharp and Social Worker Kittell. The party was sponsored by the medical director, Dr. James J. Barfield and Mrs. Hattie Lacy, school teacher.

It may be said that the children's party was a success primarily because of Dr. Barfield's methods of treatment which have produced spectacular results in the recovery of their health and Mrs. Lacy's ability to do a fine job of teaching these children not only the three R's but also various games and how to play and be happy and enjoy the classes and their stay at Fort Stanton.

On Saturday evening the hospital gave a big party for the adult patients in the nicely decorated Seaman's Social Club at

FARM BUREAU RESOLUTIONS

(At their annual meeting recently in Capitan, members of the Lincoln County Farm and Livestock Bureau adopted a number of resolutions on local, state and national issues. Several of the resolutions were printed in last week's News. The rest are as follows):

Be it resolved that the Lincoln County Farm and Livestock Bureau is a non-political and non-partisan organization in all political matters.

Whereas, Lincoln County is sparsely populated, and there are no markets in the county for much of the produce, be it resolved that the Lincoln County Farm and Livestock Bureau Board of Directors study the possibility of a Lincoln County Marketing Association.

Be it resolved that the terms of office of the Soil Conservation Service districts' elected officials be staggered so that at no time could there be an entirely new and inexperienced board of directors coming into office.

Be it resolved that the Bureau supports the water control resolutions proposed by the New Mexico Farm and Livestock Bureau State Water Board.

Be it resolved that the new social security laws passed by the last Congress be carefully examined and studied for revision with regard to coverage extended to agricultural management and labor.

Be it resolved that the Lincoln County Farm & Livestock Bureau believes that the trend toward more government control in all fields must be checked. This relates especially to the competition of the government with private enterprises, where a government was established for the betterment of the country, but is continued by the project officials in order to perpetuate government jobs which have ceased to be necessary.

We recommend that the New Mexico Farm and Livestock Bureau back a V. E. program in New Mexico. This program should be simplified so that the only concern is the fact that garbage is boiled for a set length of time disregarding the manner and way of cooking it.

Because of increased marketing of utility and commercial cows, and decrease in price, it is highly recommended that an all-out beef purchase program be initiated where forced marketing is apparent.

Since the present drought feed program is not adequate to maintain basic herds, it is recommended that corn, wheat, small grains and other such feeds as the Commodity Credit Corporation might have, be made available at 50% of government loan.

We recommend that the application and certification for

emergency feed program be changed to read "Without the assistance applied for under the Emergency Feed Program I will be unable to economically maintain my basic foundation herd operation which I have been conducting for _____ number of years".

Instead of the present "Without the assistance applied for under the Emergency Feed Program I will be unable to maintain my basic foundation herd and to continue the livestock operation which I have been conducting for _____ years."

Whereas, the P. M. A. election as held this year was confusing to the people and the convention basis was not satisfactory to the majority of the people, as they did not know the delegate choice in the County Committee, be it resolved that a mass meeting for the nomination of County Committee members, be held 30 days prior to the election and that these people that are selected in the nominating meeting be voted on directly by all land owners and tenants and also that all land owners and tenants be eligible to hold office regardless of his participation in raising a government supported commodity or his participation in the A. C. P.

Disregarding committee members or personalities, we recommend that all present authorized communist hunting groups have the same power they now hold and that Congress appropriate sufficient funds to keep them functioning properly.

Be it recommended that a long term low interest disaster loan be initiated for use by all phases of agriculture whether this disaster be drought, freeze, hail or others, regardless of the size of the area affected or the amount invested.

House Suits Any Lot

This three-bedroom ranch home suits either a level or sloping lot. It is Plan AB193N, American Builder magazine, 78 West Monroe St., Chicago 3, Ill.

The plan as shown is for a sloping lot, with the rear basement wall exposed. The large basement is devoted to recreation. On a level lot, the ditto window can be changed to a French door for access to a back porch or patio.

American Builder notes that the stone facing on the front "enriches the exterior". The overhead wood panel garage door and the shutters are painted a cool green to contrast with the pale green sidewalls and pastel gray asphalt shingle roof specified by the architect.

Two picture windows meet at a corner of the living room. The front view is shown in top photo. Smaller photo shows the rear.

fireplace has a facing of Roman brick.

The area of the house is 1,355 square feet, a figure useful in estimating construction costs.

Expand Old House for More Space

Building an addition to an existing house is one of the most practical ways to remodel. Furthermore, it's a way that suits countless dwellings whose chief shortcoming is that they're too small.

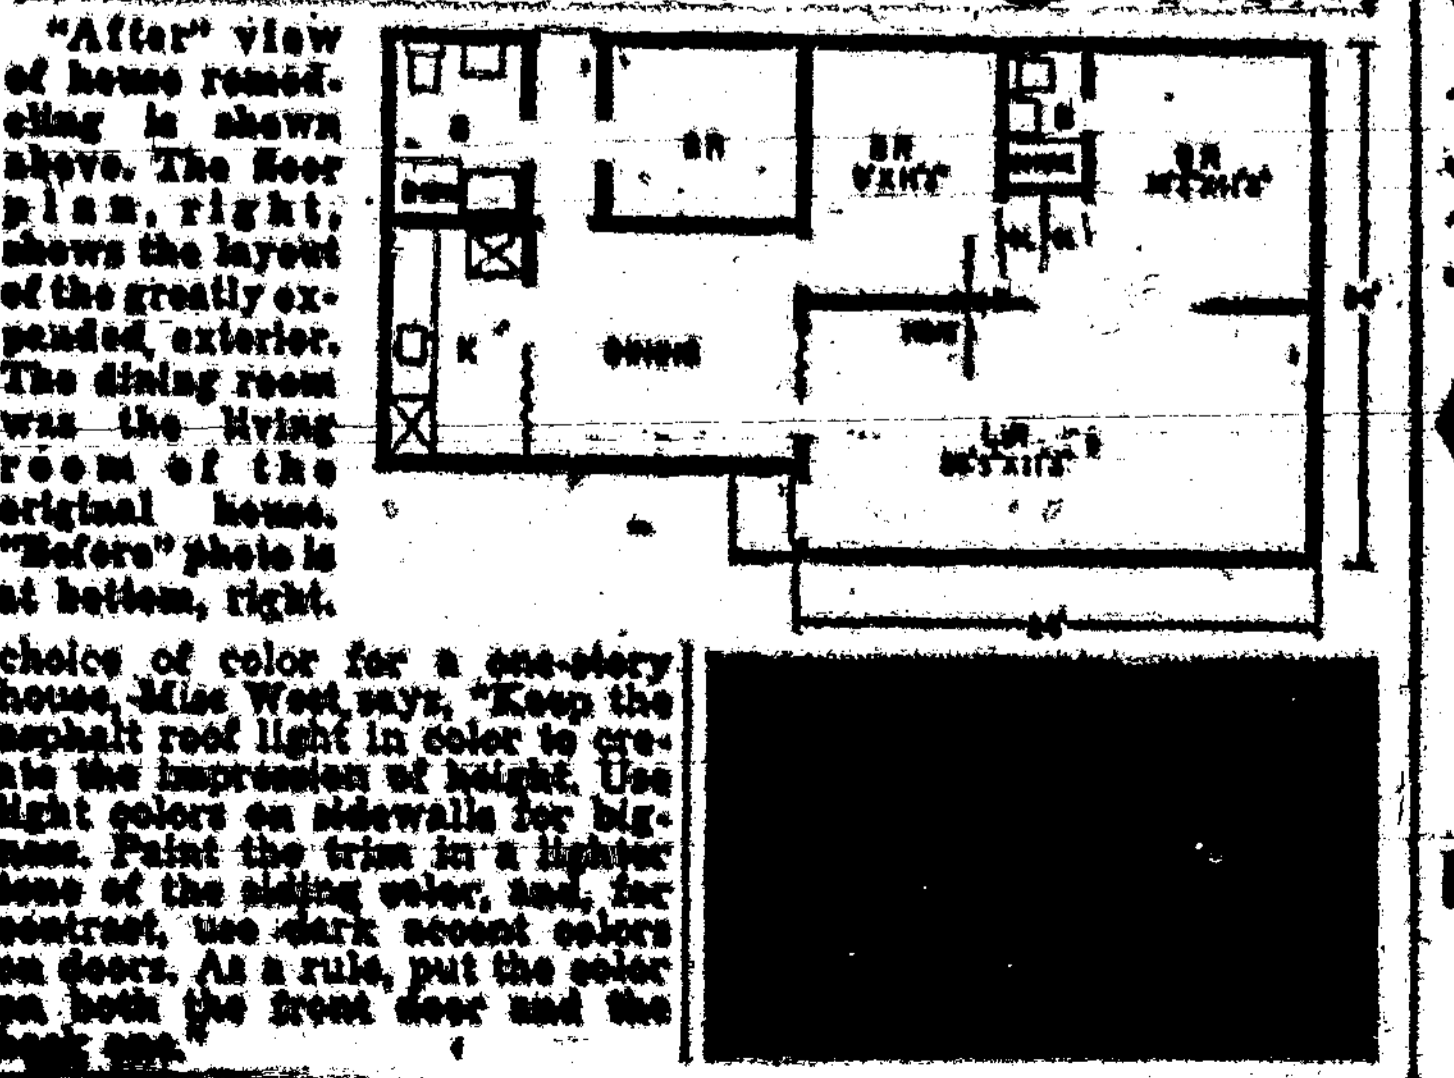

Now it's done is demonstrated by the house shown here. The original house, which measured only about 30 by 30 feet, was more than doubled in size by a 24-by-24-foot addition. The family continued to live in the original house while work was being done.

The floor plan shows the room layout after remodeling. The new right-hand section, including living room, two bedrooms, and bathroom, is new. The original house is retained as the wing containing the kitchen, dining room, small bedroom, and second bathroom.

Planning of this modernization was undertaken by A. E. Campen, Peoria, Ill., with exterior color design by Beatrice West, New York color consultant.

Aside from changes in the color of the old house, always advisable for harmony with new construction, major exterior alterations were putting back the eaves and rakes for a more pleasing roof line and installation of new ponderosa pine window units.

Miss West gave a choice of two color schemes, each keyed to the roof as the dominant exterior color. One scheme calls for a pastel blue-gray asphalt shingle roof, light blue siding, blue-white trim, and midnight blue as an accent color on the doors. The other has a warm aspen roof, stream-silver siding, off-white trim, and chestnut accents.

**NEW BOOK TELLS
ABOUT HISTORIC
YUMA CROSSING**

To coincide with the one-hundredth anniversary of the founding of Yuma, Ariz., a new Southwestern history book is being released by the University of New Mexico Press in Albuquerque. "Yuma Crossing" by Douglas D. Martin, had its publishing premiere at Yuma on October 29.

Douglas Martin, twice winner of Pulitzer Prize honors, is head of the Department of Journalism at the University of Arizona. He was formerly managing editor of the Detroit Free Press.

Until a couple of generations ago, the only "safe" ford of the Colorado River was at Yuma Crossing, and all major traffic between California and the remainder of the Southwest flowed through this point. In the Gold Rush year, 1849, 90,000 persons forded Yuma Crossing.

Martin's book tells what happened at "the most important historical spot in Arizona" from 1540, when a Spanish sea captain sailed up the Colorado, until 1877, when rails spanned the treacherous river.

Before mission founder Padre Kino visited the Yuma Indians in 1700, Spaniards believed California was an island. Earlier explorers had been told that California was "ruled by a giant whose male subjects were bald-headed." The crossing became vital to the Spanish mission and colonization program, and led to fierce battles with Indians.

During the Mexican War and the American frontier days which followed, Yuma was of considerable military and commercial importance. A ferry was operating by 1850, and ferrymen were said to make as much as \$20,000 a month.

In 1857 the Army decided that a ship was needed to supply Ft. Yuma. At great trouble and expense, a steamboat was built in Philadelphia, shipped "knocked down" to Arizona, and assembled and set afloat by a smart young lieutenant named Joseph Ives. In the years to come, not less than 17 river boats were to operate on the Colorado. Today the river is not navigable.

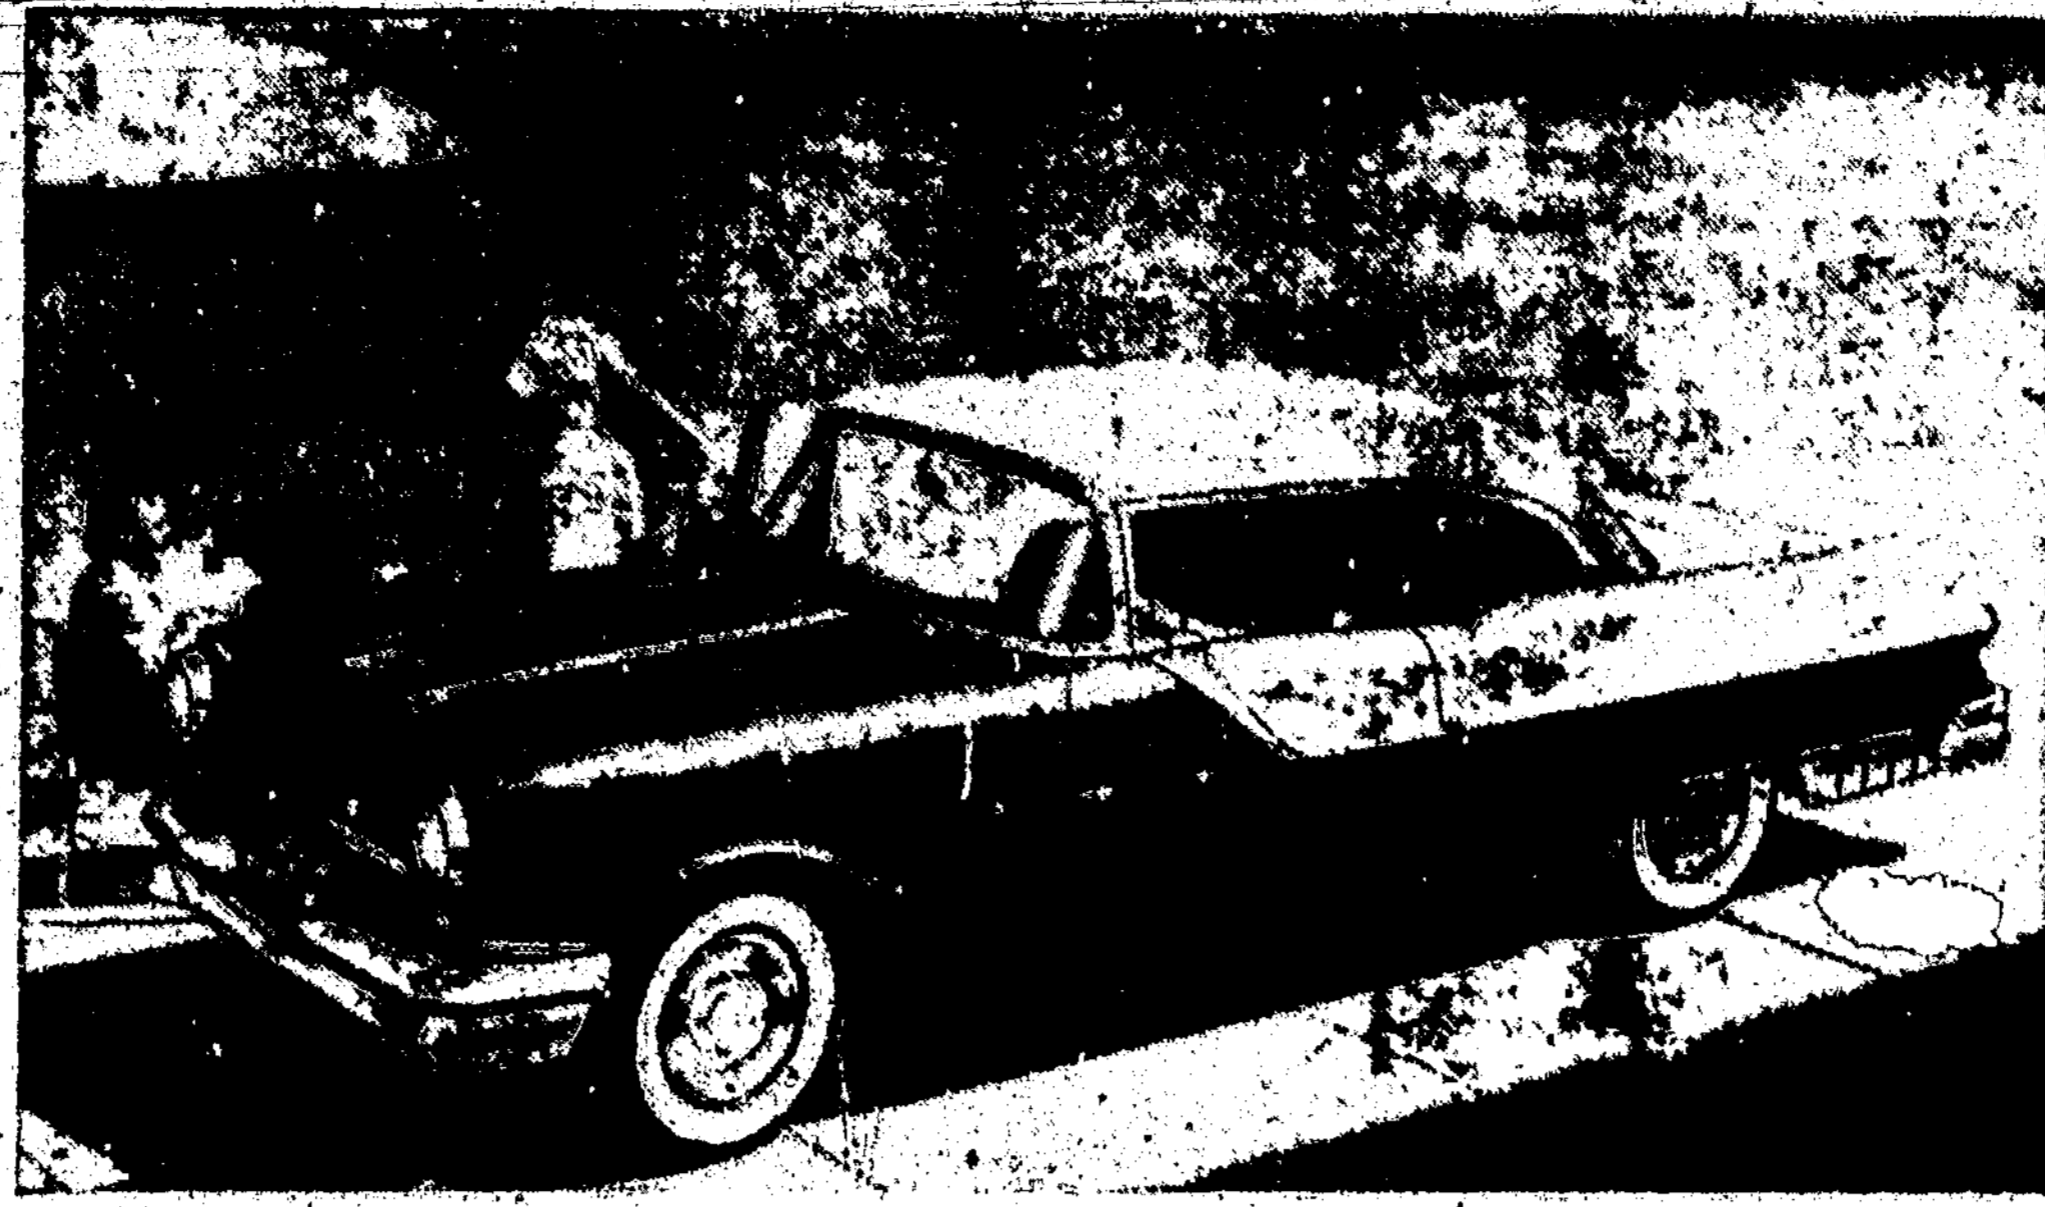

Martin was a guest of honor during the three-day Centennial Celebration at Yuma on Oct. 29, 30 and 31.

"Tombstone's Epitaph," Douglas Martin's previous book, was released in 1951 during a civic celebration at Tombstone, Ariz. This volume told the story of the "Epitaph," an outspoken pioneer newspaper, in "the town too tough to die."

Two-Billionth Pounds of Copper Mark Reached by Hurley Smelter Cast within an anonymous ingot bar which has now gone to market is the two-billionth pound of copper to be produced by the Hurley, N. M., smelter of Kennecott Copper Corporation's Chino Mines Division.

Savings Bonds Purchases in Lincoln County Zoom to \$182,998 Residents of Lincoln County invested \$182,968.70 in U. S. Savings Bonds, Series E and H, during the first nine months of 1954. S. E. Griesen, County chairman, has announced. In 1953, the total for the same period was \$47,021.25.

1955 Pontiac Star Chief Custom Catalina

"Vogue" two-toning and new panoramic body styling enhance the long sleek look of the all new 1955 Pontiac Star Chief Custom Catalina. Powered with Pontiac's new 180 h.p. Strato-Streak V-8 overhead valve engine, the very popular Catalina is offered in Star Chief Custom and Chieftain-870 models.

**GENERAL MOTORS
UNVEILS '55 CARS
IN CARRIZOZO**

On display at the City Garage in Carrizozo are the new 1955 Chevrolet and Pontiac. The new cars went on display last Friday and over the week end hundreds of people had been in to see them.

An 8-cylinder Bel Air 4-door Chevrolet sedan is on display; also a Star Chief Pontiac eight. Chevrolet offers its first V8 engine in 35 years. The "Turbo-Fire V8," with its 162 horsepower is declared to be "far more precisely built and efficient in performance than others in its class."

Higher horsepower ratings and new quietness and smoothness are claimed for the new "Blue Flame" sixes.

Pontiac's 1955 model cars feature a new Strato-Streak V8 engine. The powerful 180 horsepower engine has overhead valves, an 8:1 compression ratio and 287.2 cu. in. displacement, a basically advanced engine.

PRICES LOWER ON 2 MODELS
Of the new 1955 Pontiac, R. M. Critchfield, vice president of General Motors and general manager of the Pontiac Division, says: "The 109 new features built into the 1955 models represent Pontiac's long established policy of building greater dollar value into every new car while maintaining prices well within the reach of the American buying public."

The list prices have been lowered on two Catalina Pontiac models and raised moderately on other models.

On the two Catalina models, available in the Star Chief and 870 series, which are expected to represent 40% of total production, list prices were reduced \$51. Prices on the completely redesigned station wagon were increased \$24. All other models which also feature the 180 horsepower Strato-Streak V8 engine and panoramic styling were increased \$53.

Chevrolet's new "motoramic"

incorporates, among other features, integrated body and frame design, front and rear suspensions revamped, increased safety through greater visibility, optional overdrive, more electrical power, "dry air" ventilation and tubeless tires for increased safety.

In tubeless tires the casing remains the same, but instead of an inner tube, interior surfaces are coated with a butyl "skin" for sealing. Blowouts are resisted and deflation slower with punctures.

Most distinguishing mark of the new Chevrolet bodies is their low-slung silhouette and vertical windshield pillars. Broad, flat hood and trunk lids are approximately 3 1/2 inches lower than last year while the high, straight crown of the fenders enhances an impression of fleetness and agility. The design gives the cars the appearance of much greater length, although wheelbases remain unchanged.

A result of years of research and hundreds of thousands of miles of severe testing, the valve-in-head V8 carries a compression ratio of 8 to 1 and a displacement of 265 cu. inches. The engine is exceedingly compact with a bore of 3.75 and a stroke of 3 inches.

Although Chevrolet has had V8s under experiment since it tried out this design in 1917-19, the "Turbo-Fire V8" entails basic re-design in the last three years. Engineers sought the compactness of a short crankshaft with the power of large displacement.

Services in Corona for Mrs. Bejida S. Mares

Mrs. Bejida S. Mares, a resident of Corona for 34 years, passed away at Vaughn at the home of her daughter, Mrs. Maggie Romero, early Monday morning, Oct. 25.

Funeral services were held at the Corona Catholic Church at 10 o'clock Tuesday, Oct. 26. Burial was in the Corona cemetery.

Mrs. Mares' husband, Cres Mares, passed away several years ago.

The Mares family homesteaded at Corona about the year 1920 and have lived on their land since that time. Their place is across the railroad tracks and mostly within the city limits at the northeast side of town.

Mrs. Mares is survived by two daughters, Mrs. Maggie Romero of Vaughn and Miss Gregorita Mares of Albuquerque; also by three sons, Santiago Mares of Las Cruces, and Antonio and Essequiel Mares of Corona, and a nephew, Eloy Nunez of Vaughn.

Mr. and Mrs. Pete Porter have a new son, Bobby Gene, born on Friday, Oct. 29, at the Carrizozo Hospital. Mrs. Porter is the former Miss Helen Minor.

Mrs. L. K. Merrill's brother and sister-in-law, Mr. and Mrs. Jimmy Rose of Kerrville, Texas, were here visiting several days last week.

Mike Nalda Jr. is home from Ft. Bliss on a 12-day furlough.

Mr. and Mrs. Clarence Roper and son of Tatum are visiting Mr. and Mrs. John Ingram this week. Mr. and Mrs. Paul Hamilton are also guests in the Ingram home this week end. Mr. and Mrs. Sherman Ingram also plan to be here this week end.

CARD OF THANKS

In appreciation for the good attendance and help given by our many friends, and the people of Corona, in our recent bereavement of our beloved mother, we wish to extend the most sincere thanks.

BONITO WATER

more than double our water supply and to obtain, free of charge, an absolute water right of 115,000 gallons daily, worth more than \$50,000, seemed too good to miss.

Your council conducted considerable research into the resources of Bonito Dam before entering into the agreement. We found that Bonito Reservoir backs up some 12 million gallons of water. The Southern Pacific has used its 5 second feet of water (approximately 3 million gallons per day) consistently since they bought the water right. We concluded there was plenty of water for everyone connected with the Bonito System.

Recently, some reports have reached me that some residents of Carrizozo, on the advice of Mr. George Shipley, Alamogordo attorney, were dissatisfied with the council's action on Bonito water; since, Mr. Shipley said that Carrizozo has always owned a right in Bonito water. Until the recent negotiations, we have never had a right to do anything more than buy our water from the Southern Pacific. So that there will be no misunderstanding on the part of anyone which would jeopardize all our work, here are the facts:

The Southern Pacific has agreed to transfer to Carrizozo a water right amounting to 115,000 gallons per day. The U. S. Air Force plans to build the pipeline from Bonito through Carrizozo to Alamogordo and Holloman. We have agreed to pay 20¢ per thousand gallons as our share of the cost of bringing the water from Bonito to Carrizozo. It should be obvious that even though we own a water right, we would never be able to raise sufficient funds to maintain the dam and pipeline on our own.

Plans have progressed to the point where an application to the State Engineer has been made to approve the transfer of our water right from the Southern Pacific. The Air Force has budgeted for the construction of the pipeline. I have talked with Mr. J. T. Foley, installation engineer for Holloman, and have been assured by him that Carrizozo would be taken care of in the event additional water is needed by us.

Your council has worked with the Air Force and the City of Alamogordo in making the water agreement for the common good. Insofar as Carrizozo is concerned, the question to be resolved by you, the people, is simply this: Is it better to join
