

RAMBLIN' AROUND

BY PAUL PARKER

If you counted the number of tosses made, the donkeys came out way ahead in last Thursday's donkey basketball game.

Another event that was highly profitable for the March of Dimes and provided an interesting evening's entertainment was the ham dinner, parcel post auction and jitney dance given Saturday at the I. O. O. F. Hall by Coalora Rehcek Lodge.

Dean Cooper, a grandson of Mrs. Frank Richards, has been honored by being chosen to play in the all-State band concert Friday night at AEM College in Las Cruces.

Cpl. R. J. Padilla arrived in Carrizozo last week, once more a civilian, after 14 months overseas duty in Korea.

Cpl. Padilla left Incheon, Korea, December 31 on an Army transport. He had no regret at leaving Korea, which he describes as a rough country with severe winters and hot, humid summers.

It might have been possible for an artist to have captured the beauty of the sunsets we have been having the past week, but it would have taken more than one canvas to have pictured all the color, as the hue changed in just a few minutes from orange to deep red.

In reply to a request from a number of readers, Nat Campbell recently reprinted in his column in the El Paso Times a poem entitled "The Lost Sheep."

"Twas a sheep, not a lamb, that went astray In the parable Jesus told; A grown-up sheep that had gone astray From the 'Ninety and Nine' of old.

Out on the hillside, out in the cold; 'Twas a sheep the Shepherd sought. And back to the fold, safe to the flock, 'Twas a sheep the Shepherd brought.

And why for the sheep should we earnestly long, And earnestly hope and pray? Because there is danger, if they go wrong, They will lead the lambs astray. The lambs will follow the sheep, you know, Wherever the sheep may stray. When the sheep go wrong it won't be long Till the lambs are as wrong as they.

Seeks Re-election for Third District Judge

Previous to his judgeship, the court officer had served 6 years as district attorney for the Third Judicial area, during which he tried about every conceivable kind of civil and criminal case required by that office.

ADVISORY GROUP FORMED IN COUNTY TO COUNSEL YOUTH

In an effort to meet the juvenile problems head on and also to give youngsters who need help the benefit of sympathetic adult advice, W. T. Scoggin, judge of the Third Judicial district has formed advisory boards in Lincoln, Otero and Dona Ana counties.

The advisory board for Lincoln County, as announced on Monday, follows: James E. Harrow, chairman; L. Parker of Corona, Albert Kimbrell of Hondo, Mrs. Ophelia Salas of Lincoln, Ralph Petty of Carrizozo, J. Howard Morris of Ruidoso and Edward B. Choate of Capitan.

The advisory board, which will work on community levels, has been set up to encourage community recreation projects, and help to rehabilitate juveniles who have come under the control of juvenile authorities.

Outlining the objectives of committee members on the advisory boards, Judge Scoggin said they would strive to teach youth respect for (1) Home, (2) God, (3) Law and (4) Self.

Through this approach, he said, juvenile problems may be eliminated before they become serious.

BLOCKING IRON ORE AT CUSTOM MINES

The Nine Mining Company of Ardmore, Oklahoma, and Texas are presently engaged in blocking iron ore at the Custom Mines on the Strickland Ranch, 24 miles southeast of Corona.

Extent of the mine is from 20 to 60 feet in width and over 10,000 feet in length. The iron ore recovery is reported to be from a vertical vein running from the surface to 60 feet in depth. In 32 cars of iron ore shipped from the Custom Mines to date, run of pit is said to average 52.6%.

The property has been leased by the contractors from Frank S. Hall of Vaughn. Some diesel equipment is being used in exploration and development.

Mr. Hall told the News this week that Lincoln County has a potential source of wealth in its tremendous known deposits of commercial grade gypsum.

"The deposits are large enough," he said, "to supply the requirements of the nation for a hundred years."

Lions Have Brooms for Sale This Week End

Starting Friday the Carrizozo Lions Club embarks on its third project to help the March of Dimes. The first two projects were basketball games which gave the Club a good start on its stated goal of raising \$500 for this worthy cause.

Friday and Saturday members of the Club will sell brooms, mops and door mats, proceeds from which will be divided equally between the March of Dimes and the New Mexico School for the Blind.

Two fine purposes will be served with the sale of each broom or mop or door mat—aid will go to the National Foundation fighting polio and a return will be made to the New Mexico Industries of the Blind which they will pay wages to blind personnel and buy raw materials.

The New Mexico Industries for the Blind is a division of the New Mexico School for the Visually Handicapped of Alamogordo, formerly known as the New Mexico School for the Blind, and the training centers for the Industries are located at the Adult Training Centers of Alamogordo and Albuquerque.

Members of the Lions Club will make a canvas of Carrizozo Friday evening. Or brooms may be purchased downtown the following Saturday, Jan. 30.

This promises to be a big treat for all of the small fry and their parents, too.

It's the big musical stage show of the year direct from New York and Hollywood. See and hear the Rabbits sing, dance and go through many comical scenes that will tickle the funny bone of every child in town. This is a positive must, if you like fun, music and dance. It's under the auspices of the Carrizozo PTA. The evening performance starts at 7:30.

Peter Rabbit, that mischievous little creature, gets into a load of trouble with old farmer McGregor. Come and see how the story ends. It's different, it's bigger and better than any stage show ever produced for the smaller small fry. Don't miss this one.

It's a cracker-jack of a musical comedy, set to lively music, lots of comedy to make you laugh and laugh.

Capitan Polio Benefit

It Will Take More Dimes to Win in '54

The 12-months of 1954 may well become epic in the National Foundation for Infantile Paralysis' 16-year battle against polio.

From the nation's leading laboratories and universities, aided by March of Dimes grants have come:

1. Experimental polio vaccine—the value of which may become much clearer in 1954.
 2. Gamma globulin—the blood fraction that can protect temporarily against polio paralysis.
- Scientists, supported by the March of Dimes developed the use of gamma globulin for polio. More than five million dollars in March of Dimes funds were spent to provide gamma globulin for the national stockpile. The development of polio vaccine will take great amounts of March of Dimes funds.
- But even as these developments appear, polio's epidemic impact is increasing. In 1953, more March of Dimes funds were spent for patient care than ever before... there were more patients needing help than ever before.

IT WILL TAKE MORE IN '54. DIMES CARDS IN THE MAIL

March of Dimes cards—\$55 of them—were mailed early in January to citizens of Lincoln County. To date, Mrs. J. P. Turner states, 89 cards have been returned, totaling \$326.40.

Mrs. Turner wishes to thank everyone who is working hard for this campaign. "So many are doing so much," she says, "that Lincoln County is certain to have a good showing. Let's all get the cards in and support the last events for the March of Dimes. We must have more this year for prevention of this disease."

Numerous county-wide events to date have made substantial contributions toward the polio fund, among them, the Ancho Square Dance, the Rebecca's dinner, parcel-post-auction and dance and several basketball games. A March of Dimes benefit dance is to be given Saturday at White Oaks.

Former H. S. Principal To Speak at Church

Larry Stockton will be the guest speaker Sunday morning at the Carrizozo Methodist Church 11 o'clock morning service. He was formerly high school principal here.

In announcing Sunday morning's service, Rev. C. E. Burch, pastor, said "Mr. Stockton needs no introduction to the people of Carrizozo. They hold him in high esteem for his efficient service in the school and his Christian influence in our community."

"I count it a great privilege," Rev. Burch said, "to have Mr. Stockton come and speak to us, and I know his many friends will want to hear him. You have a cordial invitation."

A potluck supper will be held at the church Tuesday, Feb. 2. The supper are held the first Tuesday of every month. Servicemen are cordially invited to attend as guests of the church people.

179 Births in County Recorded in 1953

A total of 179 births occurred in Lincoln County in 1953, according to figures released last week by the State Department of Public Health, through Jas. R. Scott, district health officer. Deaths reported numbered 63, four of which were infants or children under one year of age. Three deaths resulted from accidents other than motor vehicle, with 11 motor vehicle deaths; one death was from tuberculosis; one from dysentery, one from epidemic meningitis, one from poliomyelitis, four deaths from cancer, one from pneumonia and one from diarrhea. These figures, Mr. Scott states, may be revised if birth and death certificates are filed late for 1953.

1 Out of 3 Over 65 in State Gets Assistance

SANTA FE, Jan. 22.—One out of every three persons in New Mexico over 65 years of age received monthly Old Age Assistance checks from the State Department of Public Welfare, according to the Taxpayers Association of New Mexico. The recipients of this assistance include 1,129 aging Indians and 11,474 non-Indians. In total, they constitute over one-third of all New Mexicans on the rolls of the Welfare Department, according to the latest announced figures. Their monthly checks average almost \$42 each, the average for non-Indians being slightly over that amount and for Indians being somewhat under \$37 a month, on the basis of individual circumstances in all instances.

S. P. Engines to Toot Like in Old Days

Southern Pacific's steamliners and diesel locomotives are typical of modern railroading, but President D. J. Russell says the railroad will stay with the melodious sounds of the "old steam locomotive whistle." All of the railroad's new main line diesels are coming equipped with a five-tone air horn that imitates as closely as possible the long familiar and popular "whoooo whoooo, whooooo" of the steam locomotives they are replacing, Russell said. The single-tone whistle installed on the first of the company's diesels is being heard less and less on SP lines. As fast as that type of warning device requires replacement, it gives way to the new horn that blends five tones into one harmonious chord, it was explained.

BERLIN MAKES COMEBACK FROM WAR'S DESTRUCTION

WASHINGTON, D. C. — When the Big Four Foreign Ministers Council convenes in Berlin in late January, diplomats will find a city that is still only a sprawling skeleton of its former mighty self. They will also find surprising recovery from war's devastation. In West Berlin industrial production has reached almost 70 per cent of the 1936 level. Over 11,000 homes have been built and 16,000 repaired. Another 11,000 dwellings are going up. From the more than 70 million tons of rubble that clogged the streets, Berliners have constructed new office buildings, apartments, hotels, playgrounds and swimming pools. Most heavily bombed of all German cities, Berlin was 40 per cent destroyed during World War II. The National Geographic Society says. The city provided more strategic bombing targets than Munich, Leipzig, Cologne, Hanover and Mannheim combined. Heaps of shattered masonry, steel and glass were piled 30 feet high. Thousands of buildings were left burned-out shells. Berlin today is deep in the Soviet zone of Germany. The eastern half of the city is occupied by the Russians, the western half by American, British and French authorities. There have been frequent conflicts over the city's economical and political administration.

Andrew McBrayer has returned to Hecarilla from White Oaks where he had been employed at the mines. M. C. Porter & Co. have purchased the business of Gross-Kelly & Co. at Corona. At the Commercial Club meeting, plans were made to raise funds to keep the street lamps trimmed and burning. Len Branum, the Coyote Canyon ranchman, was a Carrizozo victor. In connection with his Oscara general store he buys pelts, sells dry goods, groceries, runs a first-class hotel and feed corral and operates Uncle Sam's postoffice. Macing of shrubs, with taller species in the rear graduated down to low-growing plants in front creates a delightful effect, says the American Association of Nurserymen, especially when they flower at different times.

Incidence of Polio in State Much Less in '53

New Mexico's record for incidence of polio was vastly improved at the end of 1953, compared to the year previous. According to figures released by the State Department of Public Health for December 31, 1953, a total of 108 were affected by this crippling disease, compared to 502 in 1952. The approach to further curtailing the disease is to be made this year by wider use of a preventive vaccine. The purpose of the foundation planting at the base of the home is to tie the home pleasingly to the surrounding landscape.

U. S. Govt. Heavy Buyer from N. M. Firms

ALBUQUERQUE, Jan. 27.—New Mexico firms furnished the U. S. Government with supplies and equipment valued at more than \$3,500,000 on unclassified Federal contracts during 1953, it appears from figures just compiled here. Most such contracts, said Field Office Supervisor Harry B. Nunn of the U. S. department of labor's wage and hour and public contracts division, called for items related to national defense. While figures for December are not available as yet, the total for the first 11 months of 1953 included 104 contracts valued at \$3,042,000. Such contracts do not include those withheld for security purposes, nor those involving construction projects. Under the terms of the Walsh-Healey Public Contracts Act, all Federal contracts for \$10,000 or more for supplies and equipment are referred to the Labor Department which is directed to inspect the contracting plants for compliance with the wage, health, safety and other provisions of the law. Items supplied by New Mexico during 1953 reflect the varied nature of the state, its industries and resources. They include such diverse commodities as cotton products, gasoline, lumber and industrial equipment. Comparable 11-month totals for 1952 were 116 such contracts valued at \$4,473,000. In cold climates deciduous trees will shed their leaves to let in the winter sun. Coniferous evergreens should be planted elsewhere on the property to provide attractive green growth in the winter months, an evergreen hedge being particularly desirable.

VITAL SITE
Modern Berlin spreads over 341 square miles of flat, open plain on the Spruce River, a hundred miles from the Baltic Sea. Its site has been a natural crossroad in both trade and conquest since medieval times. In the early days it was an outpost of the militant religious order of the Teutonic Knights in campaigns to subjugate and convert the Slavs. Later, as the capital of Brandenburg, Berlin was the nucleus of the expanding power of the Hohenzollern family. Still later, Berlin became the capital of Prussia, and in 1871 it joined the front ranks of international cities as the government seat of the newly formed German Empire. It soon grew into the nation's industrial and commercial center, as well as the hub of transport lines by air, highway, rail, river and canal.

STATE GAME DEPARTMENT NEWSLETTER

BIRD PRODUCTION TOPS THE RECORD

Guy Newton at the state game farm reports that production of birds this year surpassed all previous records. A total of 11,250 includes about 7,000 pheasants, 1,300 chukar partridges, and the remainder scaled, Gambel's and bobwhite quail. Over 1,000 full-grown pheasant cocks were released just before the start of the season.

It appears from returns of banded pheasants taken during the season, that this procedure was justified. It is planned to experiment further to determine whether such releases could be made on a larger scale. Holding-pen facilities at present, however, are inadequate to hold all birds for release until just before the seasons.

ANTELOPE TRANSPLANTING

Twelve head of antelope were successfully trapped on the Fisher ranch near White Lakes and released on the Caja del Rio Grande. The trapping operations have been moved to the Roswell area for the present.

SPORTSMEN HELP IN WINTER TURKEY FEEDING

So far this winter severe weather has not hurt wildlife in New Mexico. Drawing from past experience, however, and knowing that natural food for game in the wooded northern counties is extremely scarce, the Game Commission has taken action toward insuring that wild turkeys especially will survive the critical months in good condition. Numerous sportsmen's organizations in the northern counties also realize that the great bird needs help in any winter, and they are doing an exemplary and extensive job of supplemental feeding in the woodlands. This is a far-sighted humane effort wherever conducted. To those who do not know the feelings of true sportsmen, it may seem surprising that men who avidly hunted the bird in the fall now turn about to become the turkey's benefactors.

HE WAS A TOUGH OLD CUSTOMER

Probably one of the toughest ducks ever to grace a hunter's dinner table was a male black duck shot recently in the Munson marshes in the eastern upper peninsula of Michigan. The duck, bearing a federal leg band, was shot by Alphonse Lelievre of Sault Ste. Marie early this season. It had been captured there as an adult in 1940 and banded at the time. Game men say it is unusual that a duck should survive 13 years or more under any conditions.

LESSONS FROM THE BIBLE

THE STORY OF JACOB

By REV. J. M. KERR
Pastor First Baptist Church
Carrizozo

A recent book on World War II in the Mediterranean area gives the secret of the success of General Sir Bernard Montgomery as his determination not to be attacked, but to be himself the attacker. The author tells of the newly arrived general, in his swift survey of the field conditions. Coming across a group of British soldiers busily digging trenches behind El Alamein, at the time when the British 8th Army was on its knees. "What are you doing?" he brusquely asked. "Building defenses, Sir," replied one of the men. "Then stop it!" Montgomery ordered.

"You will never need them." It is a secret of success, also, in Christian warfare. A person who keeps looking at his difficulties and weaknesses and examining his inner life needs, will be kept doing so by the shrewd working of the crafty foes with whom we have to deal. The way of victory is to don the whole armor of God and to realize it is sufficient to keep the heart in the midst of conflict; then, using the shield of faith to ward off the enemies' accusations, and the sword of the spirit to assail his positions, to move forward with praise and thanksgivings to the appropriation of the fullness and the holiness of Jesus. A positive Christian life based on the truth of the word of God cannot be overthrown.

When Paul said: "I am crucified with Christ," he also said: "Nevertheless I live." When he said he was living, he also said: "But Christ liveth in me." When he said he was living in the flesh he also said: "By the faith of the Son of God." Here is the secret of the victory over self, it is Christ's self instead of our own self. It is a new self instead of an old self.

This is not possible for us alone. Christianity is not merely a better human life; it depends on us to the extent that we follow and deny and yield and surrender. Paul said: "I can do all things through Christ which strengthen me." And He strengthens us through the Holy Spirit. When the Holy Spirit controls and commands there will be the fruit of the spirit instead of the works of the flesh. The fruit of the spirit is "love, joy, peace, long suffering, gentleness, goodness, faith, meekness and temperance."

FISH PLANTING BIG ITEM

Rainbow trout, 60,437 of them, totalling 11,493 pounds, were planted last month by the Red River hatchery of the New Mexico Department of Game and Fish. The greater part of these plantings was in waters open to fishing, and almost all of them in legal size fish.

The open-water plantings, (all legal size fish) were as follows:

In the Rio Grande from San Juan to the Hondo bridge, 29,065; 4,800 in the Bernalillo-Riverside drain and 2,900 below the Alamogordo dam.

The only planting of fish under legal size was made in the lower Hondo, which is closed water. These were 3/4-inch rainbows, 5012 of them.

Eyed brown trout eggs to the number of 1,500,000 from Plymouth-Rock Trout Company, Plymouth, Mass., were distributed last month among the five trout hatcheries of the State Game Department. Brood fish held at the Park View Hatchery are expected to produce a total of over 2 million eyed rainbow eggs. A million of these eyed eggs have already been distributed and are in the process of hatching.

In the fiscal year which ends June 30, 1954, about 6 million eyed trout eggs will have been received and hatched in the five trout hatcheries located at Pecos, Park View, Questa, Seven Springs and Glenwood. Of this number 1 1/2 million brown and 1/2 million cutthroat will be planted as fry and a large number of the rainbow will also be planted as fry or fingerling, the remainder to be kept in rearing ponds and raised to legal size. THEY WILL CALL ON YOU

Members of the CARRIZOZO LIONS CLUB will shake a city-wide canvas of Carrizozo Friday evening, January 30th. They're all friendly fellows, taking time out from their regular work. They want you to answer the knock on your door in the same friendly spirit. If you are not contacted, or are not at home at the time of their call, you can buy your broom downtown Saturday morning January 30th. And all our friends in the country are invited to take part, too! Come to Carrizozo Saturday morning and buy a broom from the Lions on Twelfth Street.

The biggest project of the Lions Club right now is to aid the March of Dimes and the Blind. The brooms to be sold in Carrizozo Friday evening and Saturday morning are bought directly from the ADULT TRAINING CENTER OF THE NEW MEXICO SCHOOL FOR THE BLIND. When you buy this merchandise you will be aiding the drive for funds to continue the battle against polio and creating more employment for the blind.

NEW RACING PLANT BECOMES A WORRY

Promoters of the big horse race plant down in Dona Ana county on the outskirts of El Paso, must get the thing under construction this month or lose their permit. The state racing commission set the deadline at its October meeting. Meanwhile El Paso civic groups have been viewing with distaste the proposition of what they consider a New Mexico ulcer being shouldered up against them. El Paso Lions are the latest to get on record against the race track and its pari-mutuel betting.

The promoters have already forfeited about \$6,000 to the state for the reservation of racing dates at \$50 a day which were not used during the past three years. They had posted \$18,500 for date reservations which they could not fulfill because of no plant. The deal which originally started with a group of New Mexico racing enthusiasts has been taken over almost entirely by Doc Frank P. Miller of Riverside, Calif., and his associates.

The bangtail plant for the El Paso trade is becoming increasingly unpopular with politicians and horse people also. The political group fears it may develop trouble for them and the horse crowd fears that such trouble might jeopardize the state's pari-mutuel law which has survived so far without any serious threats. It may be that this public opinion reached the racing commission when they recently voted to set a deadline for the construction of the plant.

LEA COUNTY DRYS PLOTTING ELECTION

Lea County dries were apparently not impressed by the big wet vote earlier this month in the Otero County local option election and are now plotting a local option election of their own. A Lovington printing plant recently completed work on petitions for calling the election and the temperance group is expected to get under way soon seeking signers for the election call.

The Lea County challenge of John Barleycorn may be more serious than that in Otero, according to the omens of the September special election when there was a question of legalizing sale of liquor to Indians.

In that election, Curry County voted against liquor for Indians 919 to 277 and then a little while later consistently voted against liquor for anybody in the effort to open up Clovis, the Curry county seat.

Otero County in the special election voted 876 for sale of liquor to Indians and consistently voted in favor of continuing liquor sales in the county in the local option election earlier this month.

Lea County voted 723 against legalizing the sale of liquor to Indians and 343 for giving them the stuff, thus indicating a dry sentiment that might be dangerous to the liquor industry if a local option election is called in the county.

on or before March 22nd, 1954, judgment will be rendered therein against you by default. Attorney for plaintiffs and his address is H. Alfred Jones, Box 415, Carrizozo, New Mexico.

WITNESS my hand and seal of said Court on this 27th day of January, 1954.
