

RAMBLIN' AROUND

By PAUL BAKER

John W. House calls our attention to a new mining law known as Public Law 366, an act passed by the 83d Congress and signed by President Eisenhower. The new law, known as the "Multiple Mineral Development Law" went into effect August 12, 1954. This law is of particular concern to persons interested in uranium.

Mr. House points out that there is considerable difference of opinion about the wording of the act and its effect on established mining claims. He suggests that all who have claims familiarize themselves with the import of the new bill. It was printed in its entirety in a bulletin issued by the California State Division of Mines ("Mineral Information Service," Vol. 7, No. 10, Division of Mines, Ferry Bldg., San Francisco 11, Calif.)

In the above Bulletin, Clair M. Senior, attorney of Salt Lake City, Utah, reviewed the new mining law. He stated, in part: "... Under the new Multiple Use Bill, the owner of any mining claim located subsequent to December 31, 1952 and prior to February 10, 1954 on lands covered by a Mineral Leasing Act filing or known to be valuable for a Mineral Leasing Act mineral must post and record within 120 days from August 13, 1954 (that is, on or before December 11, 1954), an amended notice of location stating that the notice is filed pursuant to the provisions of the Act and for the purpose of obtaining its benefits. Where the owner of the claim has filed a uranium lease application, or holds a uranium lease, the owner must within that 120-day period, if he desires to rely on his mining location, also file a withdrawal of the application or release with the Atomic Energy Commission and must record the withdrawal or release..."

In two days of hunting, Geo. Wandell of Nogal didn't succeed in his quest for a buck, but he found other kinds of wild life in his walk this week up the west side of Carrizo Mountain. He saw, at quite a distance, a small deer fighting off two coyotes, while an eagle soaring above was watching the contest. Not far from this place, Mr. Wandell said he almost ran into a diamondback rattler that was hissing in a bush. Before he located the warning rattle, he was within two feet of the snake. He shot the reptile and brought it into Carrizozo. The rattler was five feet long, eight inches in circumference and had 11 rattles.

A humorous incident grew out of last Friday's session of the town trustees when bids were opened for drilling a municipal water well. The bid of Perry Bros. was considerably less than two other firms bidding and was also quite a bit below the estimate of W. F. Turney, engineer. After the trustees awarded the contract to Perry Bros., Mr. Turney said to George Perry: "I'll buy you a cup of coffee," to which the contractor replied: "The last time I had a free cup of coffee it cost me a few hundred dollars." Joking aside, Mr. Perry said his bid was low because he knows the land he will drill on and has equipment nearby to start the work.

In its December issue, Friends magazine has a picture of the button collection of Mrs. A. F. Roselle of Carrizozo. Friends magazine has national circulation and is distributed locally by the City Garage. Below a picture of Mrs. Roselle's collection of buttons, the magazine captioned: "Buttons, buttons, Mrs. A. F. Roselle has the buttons—more than 30,000 of them. She started to collect them 15 years ago when she became interested in their history and in their many shapes and colors. Mrs. Roselle's buttons line the walls of her store in Carrizozo, New Mexico."

The sheriff's office was notified this week that a bull elk had mistakenly been shot for a deer on the Lovelace Ranch in the Jcarillas. The hunter is reported to have dressed out his kill, notified the authorities, and the meat has been turned over to the Corona schools. The members of the Carrizozo Woman's Club wish to thank Mayor Marvin H. Roberts and all the members of the Fire Department for the use of the fire house to sell election day snacks. Otto Esham, of Prehm's Department Store reports there was a nice turnout for the merchant tailor from Chicago, in spite of the fact that many people were out hunting.

Mrs. Catherine Hemphill is assisting part time at the City Hall in Carrizozo.

Ben Roberts of Corona was a Carrizozo business visitor Wednesday.

Va.; Capt. Anthony F. Felth, pilot (hidden), Chester, Pa. Others on extreme right are not crew members. —Photo courtesy United Press Soundphoto.

Carrizozo Schools Give Program Thursday at 7

In observance of American Education Week, the Carrizozo schools will present a program and open house Thursday, Nov. 11 at 7 p.m. Afterward the three buildings will have exhibits which everyone is invited to see. The program will be as follows: Band number, Leon White, director. Singing of America. Origin of American Education Week, by Patty Sargent. Remarks, by Keno Ortiz. Reading, "Teacher's Pet," by Sharon Fulkerson. Remarks by L. Z. Manire, S.H.T., "Prospective Teacher," by Julie Robinson and Harry Rickerson. Remarks, by R. G. Firman. Invitations to Visit Schools—High School, Leland Jolly; Grade School, Ida Sue Shrum. American Education Week is sponsored by the American Legion, P.T.A. and National Education Association.

BARNEY TRUJILLO

Son of Mr. and Mrs. Jesus Trujillo of Carrizozo, who is undergoing basic military training at the Antiaircraft Artillery Replacement Training Center at Fort Bliss. Before further assignment, Trujillo will spend eight weeks in learning how to be a basic soldier.

N. M. Fleeces Win At Kansas City Show

A New Mexico fleeces has won the reserve grand champion ribbon at the American Royal Livestock Show held recently in Kansas City, Ivan Watson, extension animal husbandman at New Mexico A&M College announces. The fleeces was exhibited by the Slaughter Ranch of Pecos. Six other entries by New Mexico wool producers also received high placings in the national show. A fleeces exhibited by B. A. and M. L. Watson of Roswell won a second place ribbon in the Territory Fine Wool division. Third and fourth place ribbons in the same division were taken by George Casabon of Hope and Norman Gross of Caprock. The Slaughter Ranch fleeces ranked first in the one-half blood territory division of the show.

HUNTER SHOTS SELF WHILE IN BED

According to the State Game Department, the first casualty of the big-game season this year occurred before the hunter was even out of bed. An Army sergeant camping near Capitan woke up at 7:15 on the morning of November 6 and reached under the bed for his rifle. It was loaded and discharged. The hunter was hospitalized, though not in serious condition. Other self-inflicted injuries have been reported to the Game Department. John C. Ehmke, of Alamogordo, hunting at White Sands, was shot and killed while dragging his deer. The one responsible for the shooting has not been identified.

George Fry, 35, a hunter, of Gamero was shot in the leg Sunday afternoon and bled to death before he could be taken to a hospital. Fry and his son, Billy, 16, were hunting 60 miles from Springerville, Ariz. Jesse Bowman of Raton was wounded in the shoulder when a .22 rifle he was cleaning discharged. C. W. Morgan and Carl Dahl, both of Albuquerque, were hunting casualties. Morgan, who was hunting near Cuba, tripped on a rock, fell and shot himself in the forearm. Dahl shot himself in the foot while hunting near Socorro. None of the last three was seriously injured.

County Hunters Check Out Around 2500 Deer

A total of 352 head of game had been checked out of the Carrizozo checking station up to 2 a.m. Wednesday morning. Of these 193 were does, 123 bucks, 6 buck fawns, 5 doe fawns, 45 spikes and 2 bear. The bear were brought in by Charlie Hodges and Jimmy Lucero Jr. Both hunters got their bear on Pecos Mountain within 50 yards of each other. Three other bear are reported to have been killed in that vicinity. On Wednesday a total of 1222 deer had been checked out at the Hondo station and early in the week 875 at Corona. Manuel Chavez, in charge of the Carrizozo station, said a total of 490 hunters had checked in. None had killed a turkey and said "none were in sight." Mr. Chavez is being assisted in his round-the-clock checking duty by Andy Padilla and Manny Blass.

Educator to Address Capitan Woman's Club

Agnes Clark, program chairman of the Capitan Woman's Club, announces that the club will hold its regular meeting in the High School Library on Tuesday evening, Nov. 16, beginning at 8 o'clock. Charles H. Woods, field secretary for the New Mexico Education Association, will be guest speaker. The Capitan teachers are to be special guests for the evening. Hostesses for the meeting will be the Misses Leroy McKnight, Duane Darling, Ralph Barber, Billy Preece and Fred Pfingsten.

SGT. ROBT. E. BERRY SAFE IN JAPAN

"AM AT YOKOTA AIR BASE IN JAPAN AND AM OKAY." This brief telegram came on Tuesday to Mrs. R. E. Berry of Carrizozo from her son, Sgt. Robt. E. Berry, who was a crew member of the B-29 shot down Sunday by Red jets off Hokkaido Island, Japan. Sgt. Berry, who was home in September to attend funeral services for his father had returned to Japan for a second time and was serving as a radio operator on the U. S. bomber when it was shot down. All 11 members of the crew parachuted to safety, but one was killed in the descent. The incident has further heightened tension between the United States and Russia and has caused speculation that the Army may send fighter escorts along with planes flying near Russian territory. Anxious relatives who awaited further word of Robert's safety, in addition to his mother, were his brother and two sisters in Carrizozo, Benjamin Berry, Mrs. Earlene Tubbs and Miss Era Berry; also a sister in Albuquerque, Mrs. Margaret Schoonover.

Hondo PTA Panel Discusses Youth Ideals

"Ideals Our Youth Should Live By" was the topic of a one-hour panel discussion November 9 at the PTA meeting in Hondo. John A. Hamilton was moderator. The panel was described as "an endeavor to help the youth of the Hondo Valley in these days of emotional stress and turmoil." The following roles were portrayed in the discussion: parent by Mrs. Dick Fresquez; teacher, Carl P. Radcliff; police, Don Smith; politician, R. C. Nunez; preacher, O. L. Oldham; youth, Fritz Bowers; homemaker, Mrs. Hazel Arthur; businessman, Ernest McDaniel.

Rare Earth Firm Leases Helm and French Mine

The United States Rare Earth, Inc., has leased the mine and mill formerly known as the Helm and French mine and Tiers Minerals, from the Corona corporation. Headquarters are in Corona. W. M. Helm is remaining with the company. Clark Grey of Ohio is here overseeing some repair work, preparatory to beginning work at the mine and mill. Lee Stone and Jim Burlew, a chemist, from Topeka, Kan., are camping at the mill site and are setting up a laboratory.

4-H Award Dinner Friday at Hondo

The annual 4-H award night will be held at Hondo High School, Friday, Nov. 12, starting at 7:30 p.m. At this time pins will be given out to all 4-H members completing the 1954 year. L. S. Kurtz, State 4-H leader, will give a short talk on 4-H Club work. Gabriel Chavez, IFYE delegate, who has recently returned home from an extended visit to South America, will give an illustrated talk about his trip.

NEWS IN BRIEF

TAME BULL SHOT AS HUNTING SEASON OPENS

What is believed to be an act of malice was responsible for the death of a bull at the Fort Stanton Dairy. The animal, a Brown Swiss bull, was found dead in its pen at the dairy Saturday morning, shot through the heart by a .22 caliber bullet. The Sheriff's office is investigating.

STATE PATROLMAN INJURED

Eddie Apodaca, State Highway patrolman, was hospitalized in Socorro this week, following a three-car accident Tuesday on Highway 350. Patrolman Apodaca suffered chest injuries. He was returning to Carrizozo from a special assignment in the San Andreas mountains.

SHERIFF'S CAR IN MISHAP ON WHITE OAKS ROAD

Sheriff Wm. Glenn Bradley's car was damaged Wednesday night on the White Oaks road. The sheriff was driving back to Highway 54 in answer to a call when his car skidded on a turn and struck the railroad ramp where the road crosses the Southern Pacific tracks. The front wheels of the car straddled the railroad rail and stayed there for eight minutes while Bob Means made a fast trip to the scene with his tow car.

FRUIT GROWERS MEETING NOVEMBER 15 IN HONDO

A meeting of the White Mountain Fruit Growers Association is to be held at the packing shed Monday, Nov. 15, starting at 7:30 p.m. The business includes payment on shed and machinery and to plan for the coming year.

CONSERVATION PROGRAM MEETING IN CARRIZOZO

A meeting on the agricultural conservation program will be held in the Court House in Carrizozo November 18, starting at 7:30 p.m. The conservation program and payments for 1955 will be discussed. Everyone is invited to attend.

COURT HOUSE NEWS

WRITE-INS PUT TWO IN HONORARY OFFICES

Two county honorary offices—those of superintendent of schools and surveyor were filled by write-in votes at the recent election. Fred Sweet received 11 write-in votes for county superintendent of schools and Fred Riley, restaurant operator of Ruidoso, received six write-ins for county surveyor. Both men will receive certificates of election to their posts which pay \$1 a year.

COUNTY COMMISSIONERS

At their recent meeting the Commissioners canvassed the votes of the November 2 election. They also turned over to County Treasurer S. E. Greisen for collection the County tax roll of \$386,076.02 for the tax year of 1954. The Commissioners meet again December 6.

DISTRICT COURT

Convences November 22.

TOWN TRUSTEES LET CONTRACT FOR WATER WELL

The Perry Bros., well drillers of Glencoe, have been awarded the contract by the town of Carrizozo to drill a water well on a 40-acre tract south of town. The Perry Bros. bid of \$4,741.50 was the lowest of three opened at a meeting of the Town Trustees last Friday afternoon. The meeting was also attended by W. F. Turney, consulting engineer, who prepared the specifications.

Bids were submitted by the Earl P. Doty Co. of Garden City, Kansas, \$3,324; the Howard Sheets Co. of Albuquerque for \$3,725.50 and Perry Bros., for \$4,741.50. The engineer's estimate was \$4,833.

The trustees accepted the low bid upon the recommendation of Engineer Turney, who stated the bidder was "experienced and well qualified."

The specifications included 60 feet of 16-in. casing, 200 feet of 10-in. casing, 40 feet of perforating, 15 feet of gravel in well, development of the well and test pumping.

Mr. Perry, who was present at the meeting, stated that work would start within two weeks. The contractor was requested to furnish the town with a sample of the well water before the well was cased. Mr. Turney said the sample will be okay.

The town has secured a water right to a 40-acre tract of State-owned land south of Carrizozo. Mr. Turney stated that part of the land could be used for a large tank for storing surplus Bonito water for summer usage.

The moving of a water storage tank that the town has purchased from the Southern Pacific will depend on the outcome of the well drilling.

Present at the meeting were Mayor Marvin H. Roberts, Trustee Clifton P. Zumwalt, Juan Martinez, A. P. Simon Jr. and R. L. Sherrill, also Utilities Manager H. G. Welk and City Clerk Mrs. W. H. Rickerson.

County Artists Exhibit Paintings at Lincoln

The current exhibit of paintings and drawings by Lincoln County artists at the Old Lincoln County Courthouse Museum in Lincoln, shows a variety of subjects and styles. Twenty-eight works, depicting scenes of Lincoln County, still life arrangements, a self portrait, and set designs for plays, comprise the first all-Lincoln County exhibit to be shown at the Museum. Represented in the show are: Henriette Wyeth, Peter Hurd, John Meigs of San Patricio; Dan Kuslanovich of Fort Stanton; Donald Anderson of Alto; Helen Pior of Green Tree; Mrs. M. Wood of Ruidoso; Opa Teague of Capitan; Cleo Duggan and Jack Stevens of Carrizozo; Ora Pfingsten of Hondo and Philippe de Koster, Annie Ramey and John Boylan of Lincoln.

SEE BIG FEMIN IN BIG MAJORITY

Biggest peril before Simms and the hordes of other Democrats going to the statehouse is that they might mistake the huge vote they were given as a license to ignore their responsibilities. The vote they got was really something. It was the first time that Torrance County voted for a Democratic candidate for governor since 1936; the first time for Santa Fe since 1938. Simms' majority was two times as large as any previous New Mexico governor ever received for a first-term sweep. In the Edo landside sweep in not only Edo Mechem's Dona Ana county but Stockton's Colfax where some had thought he would get most all the votes. It rivaled the sweep of 1936, FDP's second term election, when the Republicans elected only two state representatives and one senator, all from Taos. (The senator had come troubled staying in after it developed that he had been convicted of a federal felony and never pardoned.) The outcome of the election was known within an hour after the polls closed and the first small returns were in from the voting machines in Santa Fe, Colfax and Dona Ana. The upset of the election, aside

LOUISIANA HAYRIDERS COMING

The Louisiana Hayriders from Shreveport, La., will give a one-night show and dance in Carrizozo next Tuesday at Miller's Hall.

WILL HARRISON'S Inside the Capital

SANTA FE, Nov. 10—Johnny Simms should enjoy his great election day triumph while he can. It won't be so pleasant after January 1.

Then he must decide on turning his back on old guard Democratic politicians who gave him notable help in getting the unopposed nomination for governor at the Albuquerque convention, or backing up on his repeated promises not to recognize this group in his administration.

He must choose between cutting back on welfare department spending, giving the 40,000 clients less money or reducing their numbers, or call on the people to pay higher taxes.

He must clamp down on school spending or clamp down on thousands of little business people who apparently have been paying less sales tax than they should.

He must weigh the value of recommendations on one side to keep the efficient people of the present administration or from the other side that demands they be turned out.

FIGHTS PROMISED IN LEGISLATURE

The spectacular Democratic sweep that included 51 of the 55 house seats (they already had 22 of the 31 senate seats) is by no means a promise of a placid legislative session.

Ripping the air in prospect on the control of utilities, the expected movement for higher taxes, a development plan to outlaw trading stamps, a movement to curb used car dealers from selling new cars, reapportionment of the membership of the legislature.

The prospects for the next governor are such that they may make Republican Alvin Stockton enjoy the next two years on his ranch. Simms is going in with a program for increased spending and activity at a time that the money is falling off and the demands for bigger appropriations are growing louder. The newest demand is for a big and stepped-up public health program, inaugurated by no less than the national commander of the American Legion, Seaborn Collins of Las Cruces.

SEE BIG FEMIN IN BIG MAJORITY

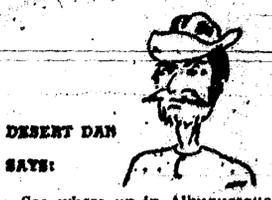

Biggest peril before Simms and the hordes of other Democrats going to the statehouse is that they might mistake the huge vote they were given as a license to ignore their responsibilities.

The vote they got was really something. It was the first time that Torrance County voted for a Democratic candidate for governor since 1936; the first time for Santa Fe since 1938. Simms' majority was two times as large as any previous New Mexico governor ever received for a first-term sweep. In the Edo landside sweep in not only Edo Mechem's Dona Ana county but Stockton's Colfax where some had thought he would get most all the votes. It rivaled the sweep of 1936, FDP's second term election, when the Republicans elected only two state representatives and one senator, all from Taos. (The senator had come troubled staying in after it developed that he had been convicted of a federal felony and never pardoned.) Above is the new 408 h.p. industrial type diesel engine recently installed at the mill of the New Mexico Copper Corporation in Carrizozo. C. E. Degner, president of the corporation, and Ralph M. Powers, installing engineer, stand in front of the power-generating unit. The 2-cycle engine which generates 250 k.w. at 1200 r.p.m. was purchased from the National Metal and Steel Corp., Terminal Island, Calif. The diesel will furnish electric power for the mill machinery. Operation was scheduled to begin this week in charge of Raymond C. Heath, metallurgical Copper, lead, silver, fluorapatite and wolframite will be recovered by flotation process. In a separate process, bastnaesite, a rare earth oxide, will be recovered by gravitation process.

See where up in Albuquerque they're already stringin' th' Xmas decorations on th' streets. If this keeps up, one Xmas will meet t'other around the 4th of July. Even now a lot o' folks have a hard time paying fer last year's presents afore it's time to buy new ones.

1955 Boys' State Returns to Socorro

Socorro, N. M., November 9.—For the third consecutive year Boys' State will return again next June to the campus of the New Mexico Institute of Mining and Technology, in Socorro, it was announced today by James B. Delamater, one of the directors of the project. The week of June 5-12 has been selected for the 1955 session.

New Mexico Boys' State, Inc., is a citizenship training project sponsored by The American Legion Department of New Mexico. Its purpose is to educate the youth of New Mexico in the duties, privileges, responsibilities, and rights of American citizenship. The program rests on the assumption that one can best "learn to do" by doing.

About 230 boys attended the session last June.

Participation in Boys' State is restricted to young men who have completed the third year in high school, and who have demonstrated exceptional leadership qualifications. Nominations are made by high school principals throughout the state, ensuring wide geographical representation.

Delamater is head of the department of physical education at NMIMT. He has been associated with the Boys' State program for four years.

Capitan Honor Society Initiates Three

At the program for P. T. A. on November 9th, the Capitan National Honor Society Chapter initiated three new members, Anna Montoya, Steve Yarbrough, and Mick Guck.

Wanda Guthrie opened the meeting, welcoming the parents, teachers and initiates. Then the other members of the organization explained the precepts of the National Honor Society as follows: Arthur Salas—Character, Tom Guck—Scholarship, Dolores Zamora—Leadership, Will Rogers—Service, Arthur Salas—the meaning of the National Honor Society Emblem, the Keystone and Torch.

Mr. Clark presented their certificates and Arthur Salas, Dolores Zamora and Tom Guck presented the club colors to the new members.

TRAFFIC TIPS

By The TRAFFIC COP

This week let's talk about Stop Signs.

Many people read "Stop" as "Slow" when it is painted on a traffic sign. There seems to be many ways to stop for a stop sign.

First there is the Flying Stop. The vehicle operator screams up to the stop sign at about thirty and when he is even with the sign he applies the brakes and slides to a stop in the center of the intersection. Lord help the man who is following this car if he doesn't know the stop sign is there.

Then there is the Sneaky Stop. This fellow coasts up to the stop sign looks both ways to see if there is a cop around, if he does not see one he lets out the clutch and gives it the gun.

The third type of stop is the Shifting Stop. This boy pulls up to the stop sign, slows to about five miles per; shifts into second and takes off. The more legal type shift all the way into low before taking off.

Now let me tell you why the law says a vehicle will come to a full and complete stop (this means the wheels have ceased to turn). Have you ever pulled up to a stop sign, looked both ways, then pulled out into the intersection and have another vehicle nearly hit you from your left? This is because the human eye does not focus fast enough. When you look to the right and see a clear road, then glance to the left your eye is still seeing what was to your right and will not register what is actually to the left for a second or two. This is time enough for you to pull out in front of an oncoming vehicle if you make any of the three types of stops listed in the above paragraph.

Well now that you know WHY, let's not be too tough on the poor cop when he cites you into court for running a stop sign. He knows what can happen and often does. A closing thought for this week. Watch your stop signs, because we will be watching them, for sure.

INTEREST MOUNTS IN WATERSHED PROTECTION

Continued mounting interest in upstream watershed protection is apparent in the many applications by local groups for aid in the cooperative projects authorized by the Watershed Protection and Flood Prevention Act signed Aug. 4 by President Eisenhower.

Arrangements are being made, at both the federal and state levels, to expedite and simplify procedures for getting the watershed improvement job started. Governors of about one-fourth of the states have already designated agencies to handle applications, the County Agent, Ralph Dunlap says, and formal application blanks for use by local watershed groups will soon be available in all states.

In the meantime, local organizations may obtain information on how to initiate watershed programs from the Upper Hondo Soil Conservation district, the state headquarters of the Soil Conservation Service and the Agricultural Extension Service in each state.

Applications for federal assistance in small watershed protection and flood prevention must be approved by the governor of the state, or the agency designated by him, and then by the Soil Conservation Service, acting for the Secretary of Agriculture, Engineering, and watershed planning units of the Soil Conservation Service are now training technicians to help the people with their watershed problems. These technicians make up field parties that will be stationed in the different states as needed. They will make the investigations and studies required for the work programs to be recommended after the watershed association's application has been approved.

The act specifies that the watersheds must not exceed 250,000 acres. But two or more adjacent watersheds totaling more than 250,000 acres can be combined for treatment, if they are parts of a large watershed and if the local sponsoring organization so desires.

Single structures (dams) are limited to a total water storage capacity of 5000 acre feet, and irrigation and drainage facilities must benefit more than a single farm to merit federal assistance under the act. Storage for municipal water supplies may be included as part of a watershed work plan, but construction above those necessary for flood prevention must be paid from non-federal funds.

Civil Service Jobs Open on Guam

White Sands Proving Ground, N. M.—Lt. Lawrence M. White, Industrial Relations Officer for the U.S. Naval Ordnance Missile Test Facility, has been advised of a number of Civil Service positions with the Navy Department in Guam, the Philippine Islands and Hawaii. Positions range from GS-3, at \$2950, to GS-12, at \$7040 per year plus 25 percent Territorial Post Differential.

The sole position open for women is that of Payroll Clerk, GS-3. The position requires one year of Navy experience in time, leave and payroll duties.

Male positions include Auditor, GS-9; Construction Superintendent, GS-11; Electronics Engineer (Wire Communications), GS-11; Valuation Engineer, GS-9; and Mechanical Engineer, GS-12.

Openings for skilled labor include Cable Splicer, \$2.65 per hour; Central Office Repairman, \$2.74 per hour; and Liquid Fuel Gager, \$2.33 per hour.

All position requirements are based on experience and applicable educational background.

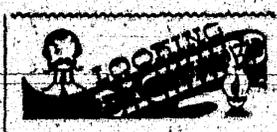

Dependents may accompany employees when suitable housing is available. Applicants accepted must sign a conditions of employment and transportation agreement. Minimum duty tours in Guam are 36 months; 24 months in Hawaii and the Philippines. The Navy provides transportation to and from foreign ports of duty.

Passports, obtained from the State Department for a fee of approximately one dollar, are required for employees traveling to Guam, the Marianas, and other islands west of Hawaii.

Applicants must submit completed Federal Employment Forms (Standard Form 57). Full names and addresses of all previous employers must be included. Applications should be mailed to:

Twelfth Naval District, Navy Overseas Employment Office, (Pacific), 45 Hyde St., (Civic Center), San Francisco 2, Calif.

The western diamondback rattler probably kills more people than any other United States snake, says the National Geographic Society. Over the world, almost 40,000 persons die of snakebite each year. Burma has the highest rate, 124 persons annually per 100,000 population.

LINCOLN COUNTY IN BYGONE YEARS

20 Years Ago
(From the files of the Lincoln County News, Nov. 9, 1934).

A headline in two-inch type announced that "Roosevelt's New Deal Wins." Other election news announced the following winners: Clyde Tingley for governor; Carl Hatch, U. S. Senator; John J. Dempsey, Congress; A. S. McCamant, County Sheriff; Mrs. Ola C. Jones, County Superintendent of schools; Louis J. Adams, treasurer; L. H. Dow assessor; Ernest Key clerk; Mamiel Corona probate judge; L. P. Hall state representative, and the following commissioners, Melvin Franks, T. E. Kelley and Hilario Gomez.

Work was expected to start soon on the new high school building at Lon.

The Titworth Company in Capitan advertised it would give away three prizes as Christmas gifts: a cedar chest, a lounge chair or a kitchen cabinet, plus a \$10 bill.

A net profit of around \$250 was reported from the eighth annual fair and track meet held in Carrizozo in October. The fair committee thanked all who helped, especially the ladies who served the lunches, and G. A. Titworth, Wilbur Coe, Fred Pfingsten, Jesse May, Ola C. Jones and Bert Pfingsten for donating apples for the lunches.

In Carrizozo to vote were Judge A. H. Rudolph, George Strauss of Tucuman and railroad men Henry Hoffman and Frank Abel.

Miss Mary Virginia Bourne of Nogal and R. J. Clarke of Capitan, were married in Carrizozo by Rev. L. D. Jordan.

40 Years Ago

(From the files of the Carrizozo News, Nov. 13, 1914).

The Democrats won 285 seats in the House of Representatives, Republicans 233, in Tuesday's election.

A hunting party to the Mogollons composed of H. S. Campbell, Carlton Campbell, S. L. Squier and J. B. Baird returned with four deer.

Stadelle Chavez, 30, of Willard was killed in a coal mine accident at White Oaks. A falling slab struck him while he was at work.

The dwelling of Mr. and Mrs. W. B. Leggett was burned to the ground by a fire that broke out in the kitchen around 1 o'clock in the morning.

Turkey entered the European conflict and was reported to be holding off the Russians in initial fighting.

Edward R. Kelley was preparing to build a residence on Alamogordo avenue in Carrizozo.

H. B. Miller of Phoenix, driving a Pope-Hartford, won the El Paso to Phoenix auto race. He made the 533 miles in 24 hours, 36 minutes. John Hutchins of Alamogordo, driving a Buick, was second, 52 minutes behind the winner. The Johnson Bros. of Carrizozo, had trouble with their car and had to drop out of the race.

4-H Achievement Day, November 13

Poultry raising, a 4-H project popular with both boys and girls, is portrayed in this reproduction of the 1955 National 4-H Calendar painting as one of many 4-H programs. Because 4-H Club work is so varied, it holds wide appeal for young people between the ages of 10 and 21. Through their 4-H projects, club members know the pride of personal ownership. At the same time they learn important lessons of responsibility. On National 4-H Achievement Day, November 13, 4-H boys and girls will receive congratulations for their outstanding accomplishments.

BANK FACTS FOR YOU

HOW OUR BANK SERVES HOME-BUYERS

We make loans to help local people purchase homes. Rates are low — as low as experience has shown to be sound (for the BORROWER, as well as for the lender.) Repayment is in installments, adjusted closely to the individual borrower's circumstances and needs.

Our economical, sound, convenient financing arrangements make home-buying a pleasure — and lead to full ownership within a definite time. If you have chosen your next home, come in for details of the mortgage plan that so many local people find so thoroughly satisfactory.

Flite-Fuel

FOR YOUR CAR—the only gasoline to which is added the super aviation fuel component Di-isopropyl.

Di-isopropyl and HF Alkylate are two fuel components so valuable to smooth motor performance that until recently they were restricted by government order for use exclusively in high performance aircraft gasoline. But now authorities have removed the restrictions and these powerful components can be used in fuel for your car.

Flite-Fuel brings you more power, higher anti-knock, longer mileage. You also benefit from the clean burning qualities for which Phillips 66 Gasoline is famous. Get Flite-Fuel at stations where you see the orange and black Phillips 66 Shield.

NEW OIL CAN REDUCE WEAR 40%
Compared to ordinary motor oils, new Trop-Arco All-Weather Motor Oil can double engine life. It can cut oil consumption 15% to 45%. It keeps pistons cleaner. It extends gasoline mileage. Get new Trop-Arco Motor Oil for your around engine protection.

San Juan Fruit Growers Organize for Marketing

Fruit growers of San Juan County recently organized a new fruit company which will handle the grading, packing, and marketing of their apples and peaches in 1955. C. R. Keaton, extension economist in fruit and vegetable marketing at New Mexico A&M College announced this week.

The new company, patterned after the White Mountain Fruit Growers Association in the Hondo Valley, will be incorporated under the state laws with an authorized capital stock of \$100,000. At least 60% of this stock will be owned by fruit growers, 40% or less will be owned by non-fruit growers. Membership on the board of directors will be limited to fruit growers.

At an organization meeting held in Aztec, Oct. 21, Omer Tucker, Farmington, was named chairman of the board of directors. C. C. Culppeper of Farmington was elected vice-chairman; Burrell Crawford of Bloomfield, secretary and treasurer. Gene McDonald of Farmington and Charles Hutton of Bloomfield are board members.

"Hondo Valley fruit growers estimate that they have already received \$1 per bushel more on an average for all the apples grown in the Valley since they set up their consolidated grading, packing and shipping operations," Keaton said. "San Juan Valley fruit growers should receive a comparable increase in the price of their fruit after their new organization begins operation."

Austin A. Albert, county extension agent of Aztec, has been assisting San Juan County fruit growers in organizing the new fruit company. Albert, former Lincoln County extension agent, also helped organize the White Mountain Fruit Growers Ass'n.

Business Meeting at Ranchmen's Camp

Ralph Hall has called a special business meeting of the Ranchmen's Camp Meeting committees to be held Tuesday, Nov. 16 at the Nogal Mesa grounds. Everyone is urged to attend. Bring a picnic lunch and come about 10:30 a.m. (Better bring a warm jacket.)

One of the chief items of business to be discussed is the purchase of chairs for the camp. Donations of \$3.50 a chair may be made to Mrs. Henry Peebles or Mrs. Gil Peters of Nogal.

Honor Society to Meet Again December 6

At the regular meeting of the Capitán PTA, the Capitán National Honor Society held its formal initiation ceremony. The sponsor is Mrs. Ruby Yarbrough. Hosts were Mrs. S. M. Cozzens, Mr. and Mrs. Julian Herrera and Mr. and Mrs. Duane Darling.

The next meeting is to be held December 6 and will be under the direction of Owen Bennett and feature the High School Band and Chorus. Hosts will be Ed Choate, Mr. and Mrs. Ed Guck and Mr. and Mrs. Roy LaMay.

Pink and Blue Shower Honors Mrs. Paul Jones

A pink and blue shower was held for Mrs. Paul Jones of Nogal at the Capitán Ranger Station. Guests included Mrs. Leota Wilderling and Miss Dottie Wilderling of Muleshoe, Texas; Mrs. Irene Lindsay, Chloé Peters, Opal Peters, Leota Pflingsten, Agnes Jones, Lucille Jones, Della Harcrow, Lyda Peebles, Mrs. Floyd Skinner, D. O. Jones, Pope and Fred Swetnam.

Dance Saturday At VFW Home

A dance will be given Saturday night, Nov. 13, at the VFW Home in Capitán. Music will be by Sambo Kendall and Sons. Everyone is invited. Come and have a good time.

TULAROSA TO MEET KIRTLAND FOR TITLE

The Tularosa Wildcats took a big hurdle toward the State Class C championship last Friday night, defeating Melrose 28 to 15 in a game in Tularosa. The Wildcats met Kirtland in Tularosa Saturday for the State C crown. Kirtland downed Melrose last week 41 to 16 in the other C class semi-final game.

Tularosa penetrated the Melrose for two first-quarter touchdowns last Friday. Gerald Marr counted twice, going eight yards around end for the first one and striding through tackle for 38 yards on the second.

Mike Velarde ran 20 yards for the third Tularosa TD in the second quarter. Johnny Marrujo tallied the final score in the 4th period. Max Salcido kicked all four tries for point.

Melrose scored first in the 2d period on a pass Eugene Lay to Jerry Wade in the end zone. A safety gave Melrose two additional points before the half ended. Wade scored for Melrose in the third period and Paul Chavez kicked the extra point.

In other games last week end Ft. Sumner defeated the Class A Lovington team 13 to 12; Roswell won from Los Alamos 25 to 21 and Alamogordo put over six touchdowns to win from Western High of Silver City by a score of 39 to 0.

Lincoln County News Friday, November 12, 1954

Mr. and Mrs. M. S. Chavez, accompanied by Mr. and Mrs. Johnnie Rosan, all of Citrus Heights, Calif., are in Lincoln County for a week's visit. Mr. Chavez formerly worked at Fort Stanton. Mrs. Rosan, the former Nora Chavez, became a bride on July 3. Her husband is employed by the Southern Pacific at Roseville, Calif.

Don Roberts will enter Western Texas Barber College at Amarillo December 1 for a six months' course. Later he plans to enroll in the college of engineering at the University of New Mexico.

C. A. Snow of Carrizozo and Bob White of Aztec were two of the numerous successful deer hunters.

Food Mart Manager John Tilch, Mrs. Tilch, and family, spent Armistice Day in El Paso.

Mr. and Mrs. Floyd Smith and children of Las Cruces were in Carrizozo from Friday until Tuesday, visiting relatives and friends.

Mrs. Carrie Baot, who has been in Carrizozo with her mother, Mrs. Anna Roberts, during her illness, has returned to her home in Douglas, Ariz.

Mr. and Mrs. Pete O'Rear were in Carrizozo over the week end, visiting the Tom O'Rear family and hunting.

Mr. and Mrs. Hiram Ortega and family of Roswell spent four days in Carrizozo, visiting their relatives, Mr. and Mrs. Ralph Lopez and family and Mr. and Mrs. Vick Loper and family. Mrs. Ortega is the youngest sister of Vick and Ralph Lopez. While here they also went deer hunting.

Sabino Vidaurri has purchased a new 1955 Chevrolet from the City Garage.

Mr. and Mrs. Vincent Bell motored to Roswell Sunday to visit their daughter, Joy Dawn Bell.

A number of officials of the Texas Gas Corp. were guests during the hunting season of Col. and Mrs. Russell M. Higgins at their Rancho Riochuelo. They were William N. Bonner, secretary and general counsel; John S. Buvens, manager land department; William E. Shettle, manager pipe line department; Paul Bearden, manager mfg. department; Roger McKillip, manager aviation department; John T. Ashford, vice-president in charge of operations and A. Carl Gladden, treasurer. Following a two-day conference with Mr. Higgins, the men moved to the hunting lodge in the Tortallita Canyon.

4-H Clubs Offer Opportunities for Practical Education

An opportunity for practical education, character training and good fellowship. That's what the 4-H Club program means to members in Lincoln County and throughout the nation. County Agent Ralph Dunlap stated this week. "As National 4-H Achievement Day, Nov. 13, draws nearer," he said, "Lincoln County 4-H Clubs are hoping to enroll more members than ever before. Boys and girls between the ages of 10 and 21 may get information about 4-H Clubs by contacting their local leaders or their county extension office."

Projects open to 4-H Club members include such fields as livestock production and crop production, home economics and general projects like junior leadership, home beautification, tractor maintenance and soil conservation.

Livestock projects are popular with boys and girls alike, the County Agent said. Members learn to raise and care for beef and dairy cattle, sheep, poultry, pigs and rabbits. Crop production offers opportunities for work with crops projects, gardens and fruits. Home economics projects give members a chance to develop skills in bread baking and food preparation, clothing, food preservation and home improvement.

In many counties, the boys have given the girls strong competition in bread baking and food preparation.

Four 4-Club members can participate in local, county, district and state demonstration and judging contests and exhibit at local achievement days, county and state fairs. Many 4-H Clubs participate in safety, citizenship, health, recreation and conservation activities, all of which provide excellent leadership training. Mr. Dunlap concluded.

FORD OFFERS '55 FAIRLANE SERIES

Ford will introduce an entirely new line — the high-styled Fairlane series — as the leader of its four lines of 1955 passenger cars to be shown in 6400 dealers' showrooms across the nation on Friday.

Modern styling inspired by Ford's new Thunderbird personal car distinguishes the new Fords. Retaining definite characteristics which have won Ford's style leadership, the 1955 Fords also have a wrap-around windshield and a new, lower silhouette. The Crown Victoria — a new model — is the first Ford sedan under five feet in over-all height.

Ford, which offered the first V-8 engine in the low price field in 1932 and has built 14 million V-8s since, introduces for the first time three new engines:

A high compression Y-block V-8 engine of 272 cubic inch displacement and an 8.5 to 1 compression ratio.

A powerful V-block V-8 engine of 272 cubic inch displacement and a 7.6 to 1 compression ratio.

An improved 6 cylinder I-block engine of 223 cubic inch displacement and a 7.5 to 1 compression ratio.

Dual exhausts, which provide extra power, are standard on all Fairlane V-8 and station wagon models.

Ford's new high compression engine available only with Fordomatic transmission in the Fairlane series, has a four-barrel carburetor with automatic choke and special intake manifold; special vacuum controlled distributor; high compression cylinder heads and high capacity radiator, Ford's popular V-8 and 6 cylinder engines are available with any of the 16 models for 1955.

In addition to the two Crown

Victorias, the Fairlane series include the Sunliner convertible, the Victoria, the four-door Town Sedan and the two-door Club Sedan.

Ford, which produces 47 percent of all station wagons sold, has expanded its station wagon series for 1955 to include five models with all steel bodies — one more than in 1954. They include the eight-passenger Country Squire, with side moldings of wood grained glass fibre; an eight-passenger Country Sedan; a six-passenger Country Sedan; a Custom Ranch Wagon and a Ranch Wagon.

This year Ford's Customline series includes Fordor and Tudor Sedans. The chrome molding along the sides of the Customline models, provides clean, classic lines and serves as a "bumper" to protect the finish when a car door opens in the next parking space.

Ford's lowest priced series includes three models: the new Tudor Business Sedan, the Tudor Sedan and the Fordor Sedan.

NEW FEATURES

New features of the 1955 Ford include: Improved Fordomatic transmission which gives the driver a choice of much faster gear-away from stoplights, when desired, without manual shifting. By pressing the accelerator to the floor, the driver gets an automatic low-gear start which puts him 40 feet ahead of last year's model when he reaches 35 mph. Overdrive and regular transmission also are optional on the new Fords.

A new integrated air conditioning and heating system competitively priced will be introduced by Ford early in 1955. The Ford unit will combine a fresh air heater with air conditioner and will be of the "front-end" type with all components forward of the passenger compartment. The unit will be placed in

the regular heater control dial on the instrument panel. The unit will be adaptable to station wagons and convertibles.

Larger brakes on all models with 25 percent more braking surface on station wagons, provide greater stopping ability and 50 percent longer life.

"Turbo-action" 18mm spark plugs, another Ford first, burn off carbon deposits because of their larger diameter and greater heat range. This keeps spark plugs clean up to three times longer than conventional plugs and greatly reduces fouling at low speeds.

New this year is an illuminated Fordomatic driver selector mounted in the instrument panel and easily visible to the driver. The speedometer, mounted above the panel, has a transparent hood for daylight illumination. The instrument panel has round dials for heat and temperature controls, radio and clock.

Ford's new, lower silhouette is the result of a redesigned frame which has made possible a reduction in overall height of all models. For example, the Crown Victoria models have an overall height of only 58.2 in. Sedans are reduced 1.3 inches under the 1954 models without loss of headroom.

A greatly improved "ride" and easier handling result from an entirely new chassis, new shock absorber valving, spring improvements and new "angle poised" ball joint suspension which Ford introduced last year.

The ball joint front suspension has been further improved by tilting the horizontal axis of the suspension 3 degrees so the wheels roll over the bumps more easily, lessening road shock.

New tubeless tires, first introduced in the low-priced field by Ford in 1954, are again standard equipment and offer greater

190 MODELS IN '55 FORD TRUCKS

Twenty-four series, including 190 models of 1955 Ford trucks ranging from 30-ton tandem-axle "Big Jobs" down to F-100 pickups, all designed to make money for operators on every hauling job, will be introduced by Ford dealers throughout the country Friday (Nov. 12).

L. D. Crusoe, Ford Motor Company vice president and general manager of Ford Division, in announcing the new truck models, said:

"A truck should be bought with the same consideration for low cost operation as any machine tool. Actually a truck is a capital goods item and when we design them, we think of them that way. All of our new trucks have greater durability, more gas economy and lower maintenance expense built into them."

Ford's five truck engines, built exclusively for the truck lines include 8½ and V-8 engines. Three engines have increased horsepower and compressor ratios.

The '55 models have now larger parking lights and larger shield-shaped tail lights adaptable to class "A" turn signals. They are manufactured in five lines and 24 series which include: nine conventional series, six cab forward series, four school chassis series, two tandem series, two parcel delivery chassis series and a new Courier custom delivery truck styled like the 1955 Ford passenger cars. GVW ratings run from 4,000 to 40,000 lbs. and GCW ratings to 60,000 lbs. There are 15 wheel-base lengths for custom-built bodies from 5½ to 19 ft. long.

safety because they retain air longer after a puncture.

Ford's longer, lower body style and wrap-around windshield, available on all models, is shown above in the Fairlane four-door sedan. The '55 Fords are available with Y-Block V-8 or I-Block Six power, and Fairlane models have dual exhaust as standard equipment. They will be introduced by Ford dealers November 12.

Almost half of all station wagons sold this year were Fords, and Ford Division has expanded its series to five models for 1955, with the eight-passenger Country Squire (shown above) as the leader. The new station wagons combine passenger car comfort and styling and for extra performance all V-8 engine station wagons will come with dual exhausts.

The world's greatest builder of V-8's presents THE TOTALLY NEW '55 FORD!

New FAIRLANE Series... The new Club Sedan, like all six models in Ford's new Fairlane Series, features the new wrap-around windshield, new luxurious interiors and wide choice of stunningly new, single and two-tone exterior colors.

Longest, Lowest, Roomiest...most Powerful ever built!

New CUSTOMLINE Series... The Tudor Sedan (above) and Fordor offer a wide selection of new color and upholstery combinations. Like all '55 Fords, they have a new wide grille, new vertical headlights and standard, extra-wide pillar-panels for better visibility.

We invite you to see for yourself. And we tell you in advance you'll be amazed. For this new Ford is totally new—outside, inside, and in thrillingly different performance.

The long, low lines of the Thunderbird were its styling inspiration. Inside, you'll be greeted by rich, roomy luxury... by fabrics never before offered in a motorcar.

Mighty engines, mightier than in any Ford before—supply its exciting power. And each of Ford's three new engines offers the safe, split-second response of Trigger-Torque Power.

Your ride will be up to 16% smoother. Best of all, you'll find your kind of car, for there are 16 body styles in four fresh new lines.

When you come in, don't be surprised if you tell yourself: why look further—why delay—you just can't buy better than Ford.

New STATION WAGON Series... The new 8-passenger, 10-seat Country Sedan (above) is one of five new 40-in. all-steel bodies. There's also an 8-passenger Country Sedan, an 8-passenger Country Squire and a 5-passenger Ranch Wagon and Custom Ranch Wagon.

New MAHLINE Series... Each of the three Mahline models offers the same engineering advancements, the same powerful economy and clean lines that distinguish all '55 Fords. Fordor Sedan is illustrated above.

EXCLUSIVE TRIGGER-TORQUE POWER IN 3 MIGHTY ENGINES

1. 162-h.p. Y-Block V-8
2. 162-h.p. Y-Block Special V-8
3. 128-h.p. I-Block Six

(1) The new 162-h.p. Y-Block V-8 has a higher (7.6 to 1) compression ratio, greater displacement. And, like all '55 Ford engines, it has Ford's famous deep-block build... short-stroke design.

(2) The new 162-h.p. Y-Block Special V-8 (offered in combination with Speed-Torque Fordomatic on Fairlane and Station Wagon models) features 4-barrel carburetion, dual exhausts and extra-high (8.5 to 1) compression ratio.

(3) The new 128-h.p. I-Block Six has a new higher (7.5 to 1) compression ratio. It's the most advanced six-cylinder power plant in the industry.

ALL WITH TRADITIONAL FORD ECONOMY.

- PLUS ALL THESE OTHER BRAND-NEW WORTH-MORE FEATURES
- ★ New Speed-Trigger Fordomatic Drive
 - ★ New Turbo-Action Spark Plug
 - ★ New 80% Larger Brakes
 - ★ New Tubeless Tires
 - ★ New Angle-Poised Ball-Joint Suspension (Standard on Club Sedan)

The weaving of Harris tweed is entirely a cottage industry, says the National Geographic Society. To meet standards set by the Harris Tweed Association, the cloth must be made from pure virgin wool produced in Scotland, spun, dyed and finished in the Outer Hebrides and hand-woven by the islanders at their own homes.

Pickpockets often drop rifled wallets in mailboxes to avoid being caught with the evidence. An average of 80 such wallets a day reach New York City post offices, says the National Geographic Society. When identification papers are available, they are returned to their rightful owners.

House Spacious, Cost Low

Spaciousness and an open plan at low cost are featured in this Plan No. AB192N of American Builder magazine, 78 West Monroe St., Chicago 3, Ill.

With garage and porch, the house boasts 1,850 square feet of floor area. It has been built in Toledo, Ohio, for less than \$10 a square foot, including lot and landscaping. The price in other areas would depend upon material costs and wage rates.

American Builder attributes the low cost to "engineered techniques" and the use of standardized parts and panels that require almost no sawing on the job. When the Scholz Construction Corp. built the house in Toledo, there was so little wrap lumber left, "it could be carried away in a bushel basket," the magazine says.

"The distinctive architectural feature of this model is the floor-to-ceiling glass walls on two sides of the activity room (marked 'A.R.' on the floor plan) and one wall of the living room," American Builder explains. "These rooms are arranged to give the impression of one large area, yet with sufficient separation for other types of activity."

The combined living room-activity room-dining room area is given even greater spaciousness by an exposed-beam "cathedral" ceiling that follows the pitch of the roof.

(Detailed building plans are available from American Builder Magazine, 78 West Monroe St., Chicago 3, Ill. Refer to Plan No. AB192N.)

AIR-CONDITIONING CLEANER
Air-conditioned homes need less scrubbing, says American Builder magazine, because paint and wallpaper stay clean longer.

Ford's 24 series of 1955 trucks, with 190 models extending from the tandem axle "Big Job" (shown above) to pickups, are designed to make money for operators on every hauling job. The new models, with improved engines and chassis, and more comfortable full foam rubber seats in custom cabs, will be introduced at Ford dealers' showrooms November 12.

The law offices of Brenton and Boyce are being remodeled into two full size offices and a reception room. The work is being done by Charley Martin and Wes Russell of Ruidoso.

The world's largest incandescent light bulb (75,000 watts) is 171,400 times brighter than Thomas A. Edison's first commercially practical lamp developed in 1879.

Old House Better Than Ever

Remodeling can do more than make an old house just as good as new. Modern building materials and construction techniques, says American Builder magazine, will often make an old dwelling better than it was when new.

As a test, the magazine followed an Illinois couple in a top-to-bottom remodeling of their century-old farmhouse. Although it was outmoded in both plan and appearance, the house was structurally sound, making remodeling a feasible undertaking.

A new asphalt shingle roof and new siding helped turn this old farmhouse (bottom) into the good-as-new modern homeshown at top.

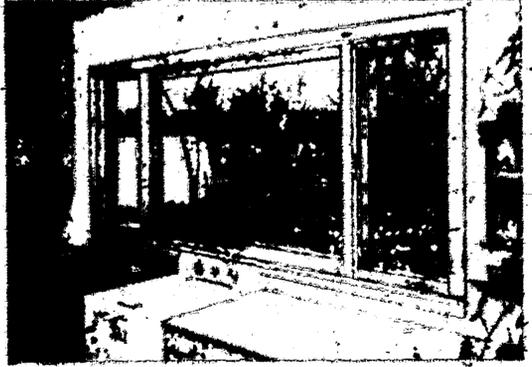

The couple expanded the middle section of the house by moving the front wall forward and taking out the old bay window. The rest above this section was raised, improving the proportions of the entire building. Plywood was used extensively.

removing the old roof and retaining its insulation value. In this case, the 109-year-old roof deck needed reinforcing.

Old roof shingles were removed and structural plywood laid down as a base for new colorful, fire-resistant asphalt shingles. Usually, asphalt shingles can be applied on top of the old roof material, eliminating the expense of double lining.

More space was gained, American Builder says, by extending part of the second story out beyond the first floor of the house. The interior was modernized to gain wall space, as well as linen, bathroom, and clothes closets. The first-floor bathroom was enlarged and made directly accessible to the rest of the house.

A View, Ventilation Too

A beautiful view and all the fresh air she needs make a housewife's day more pleasant in a charming modern kitchen. The panoramic view window unit combines a large fixed sash picture window in the center with casements that open out on either side for full ventilation. The natural warmth of the wood windows and cabinets, protected by a clear varnish, adds to the cheerful mood of the kitchen.

Rest Period for Ewes Helps Lamb Crop

Want to step up the size of your lamb crop next spring? Many growers of range sheep in New Mexico have found that a rest period of a month or six weeks between lamb marketing and breeding season allows the ewes to pick up flesh. This extra weight will pay off more lambs the following spring. The lamb crop will also be dropped in a shorter time and will be more uniform in size.

The condition of the range feed from two weeks to a month before breeding season will influence the heat period in the ewes and their rate of conception. If there is some green feed during this period and through the first two or three weeks of the breeding period, the heat period in ewes will be more normal than if they are on a dry range with little or no green feed. If the range has a good supply of browse, it furnishes the needed nutrients to promote gain and body weight and tends to flush the ewes.

Some growers have also found it beneficial to feed the ram herd one to two pounds of oats and 1/4 to 1/2 pound of wheat bran for a two week period before the breeding season.

Lambs Susceptible to Soremouth Disease

Be on the lookout for soremouth disease in sheep, especially in lambs ready for weaning. Lambs are especially susceptible to the disease because of the rough, dry feed at this

time of year, but older sheep may also be affected unless they have built up an immunity through previous exposure.

Sore-mouth disease, technically called "Contagious ecthyma," has been known to infest corrals, feed, and range for a considerable time and, when introduced into a herd, will spread quickly. The first symptom is small red spots on the lips. These spots become pustules and, after breaking, form scabs.

The disease is easily and cheaply controlled by vaccination. Vaccination should be carried out before weaning or when shipping feeder lambs. Buyers prefer feeder lambs that have been vaccinated and will often pay more for them.

Annual vaccination of known infected flocks will practically eliminate the disease within a few years.

ACP Shares Cost On Cover Crops

Cost sharing is one of the tools provided by the U. S. Department of Agriculture to aid farmers and ranchers in the establishment of a permanent sod cover as a means of conserving soil and water.

Where such practice is urgently needed to check erosion and restore the productivity of the land, farmers and ranchers may request cost sharing under provisions of the 1955 agricultural conservation program. Such requests are to be made through the local County Agricultural Stabilization and Conservation office.

In the initial establishment of a sod cover, cost sharing is provided on seed, and commercial fertilizers where they are neces-

sary, as well as the cost of preparing the seedbed. Under the 1955 program, Package Practice, the practice may be started in 1955 and finished the next year.

In general, ACP will provide about half the "out of pocket" cost involved in obtaining a good vegetative cover, to be eligible for cost sharing, however, the farmer or rancher must first make a request for it. Then, if approved, the practice must be carried out in accordance with established standards.

Technical advice on appropriate land use and suggestions on adapted varieties of grass and legumes will be provided by the Soil Conservation Service and Extension agents and specialists. Information about cost sharing under ACP is available at the county ASC office, or from the county extension agent.

USDA to Help Ranchers Improve Pastures

Establishment of a new research project to help ranchers improve their pastures in the arid and subhumid regions of the West, from New Mexico to North Dakota, is announced by the U. S. Department of Agriculture.

In making the announcement at the recent annual Ranch Day at Las Cruces, Dr. A. H. Moseman, director of crops research for the Department's Agricultural Research Service, said: "A major part of this research effort will be devoted to investigations of range reseeding, fertilization, and management formerly conducted by the U. S. Forest Service. These studies became the responsibility of the Agricultural Research Service as a result of the recent USDA reorganization."

Dr. R. E. Wagner of the Field Crops Research ranch, ARS, has been named leader of the new project, with headquarters at the Department's Plant Industry Sta-

Make Sure Livestock Scales Are Accurate

The livestock marketing season in New Mexico is at hand. An accurate scale is the best guide and safeguard to profits for the livestock producer. Weighing all livestock when sold and making certain the scales used are in good condition will pay off.

Poor maintenance of the scale owned by a rancher or farmer may limit profits from purchases or sales. Scales called "precision" tools require care and occasional adjustments and repair to give perfect performance. This holds true for "community" scales, whether they are owned by auction yards, elevators or others.

Community scales are everywhere, Beltsville, Md. A. C. Hull, formerly of the Forest Service, has been appointed ARS regional coordinator of range reseeding and fertilization phases of the project. He maintains headquarters at the Utah Agricultural Experiment Station, Logan, Utah.

Dr. Wagner has been engaged in pasture establishment and management research for USDA at Beltsville since 1945. His most recent post was an assistant to M. A. Hein, project leader for pasture and range research in the humid region. Before coming to Beltsville, Dr. Wagner was assigned to Fort Hays Branch Experiment Station, Hays, Kans., where he was concerned primarily with cooperative State-Federal range investigations.

Mr. Hull has had wide experience in range reseeding research. In addition to his regional coordinating and supervisory responsibilities he is in direct charge of certain USDA pasture and range studies in northern Utah, southern Idaho, and western Wyoming.

body's problem. Don't expect someone to provide free weighing service. It costs money to keep scales in good repair. Share in these costs.

The usual handy man can make repairs to the platform scale, rack and pit of the livestock scale. Adjustment and repair on the scale mechanism should be done by a scale engineer. Frequent scale testing is important in insuring accurate weights. Before using a scale, check its balance and make certain counterbalance devices are set right. It's a good idea to weigh a man or an object of known weight two or three times to make certain the scale repeats the same weight.

The following suggestions are made to the farmer and rancher using a scale to determine "pay load."

See that the scale has a correct state inspector's seal of approval. Inspect scale platform to make sure it moves freely. Remove all material such as rocks or dirt, metal objects or manure which may result in binding. Observe the weighing from the time scales are balanced until livestock or other produce is weighed. Be sure the scale ticket is printed while the beam poise is in the position where the scales come to a balance.

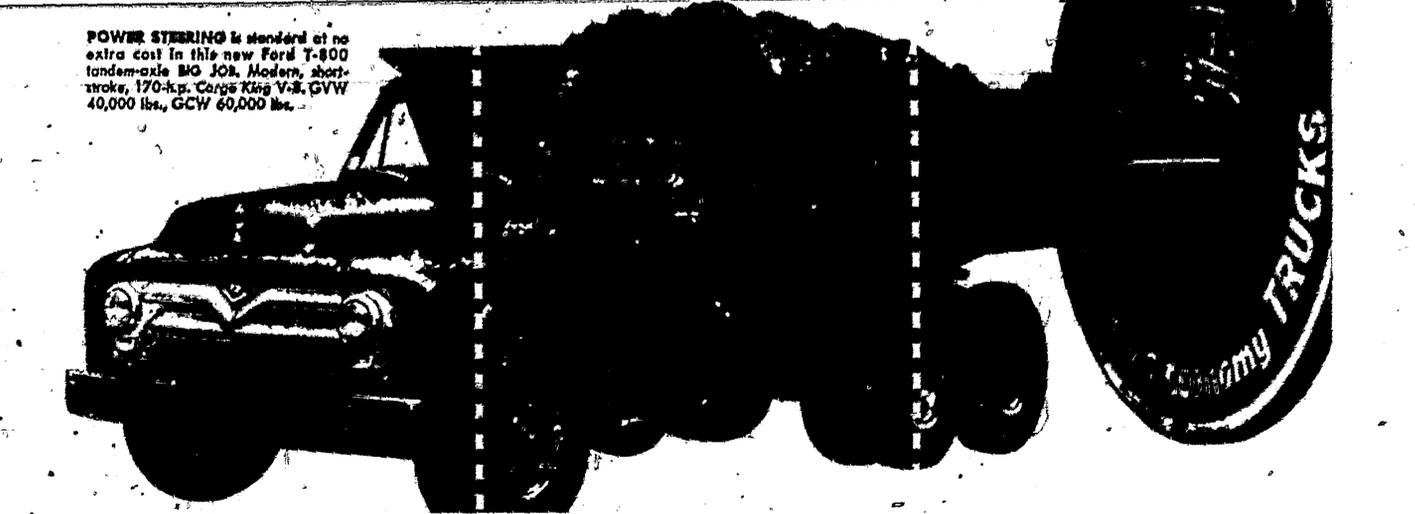

For servicing the scales, it is recommended contacting the company representative for the make of the scales.

An old Iranian folk tale holds that the world is perched between the horns of a cow, and when the cow becomes tired and shakes her head the earth quakes.

Wood, unlike metal, does not appreciably expand or contract with changing temperatures.

Announcing new FORD TRUCKS for '55... the Money Makers!

Money-making **POWER!** Important longer-life engine advancements! The only full line of proved, modern short-stroke engines in any trucks! New work-saving, money-saving **CONVENIENCE!** New money-making **CAPACITIES!** New reasons why Ford Trucks are gaining new buyers faster than any other trucks!

NEW savings in all three areas! TRIPLE ECONOMY!

- 1 Money-Making power saves gas!**
ONLY FORD gives you the gas-saving efficiency of proved, modern short-stroke design for every engine! Ford's ultra-modern, overhead-valve engines—four V-8's and one six—cut piston travel, cut internal friction, save gas. And new engineering in valves, heads, crankshafts, electrical systems and cooling, results in still greater durability!
- 2 Money-Making convenience saves work!**
FORD'S Driverized Cab sets new comfort standards for '55! New full foam-rubber seat and seat back in the Custom Cab*. Work-savers—like smoother Fordomatic* with new faster starting, low-gear "step-down" for all light duty series... Power Brakes* even for half-tonners... Power Steering* for most Big Jobs—make driving easier.
- 3 Money-Making capacity saves trips!**
NEW axle capacities and new springs, coupled with Ford's high-payload construction, make Ford Trucks better load carriers than ever. Ford's new 1/2-ton Pickup, for example, has one of the biggest payload capacities of any Pickup: 1,718 lbs. Ford gives you top payload capacities in over 190 models, ranging up to 80,000-lb. GCW tandem-axle giants.

NEW Payload Champ of the Pickup! New Ford F-100 6 1/2-ft. Pickup, GVW 5,000 lbs., now takes payloads up to 1,718 lbs. 132-hp. V-8 or 118-hp. Six-cylinder.

NEW Higher power and compression in all light and heavy duty series Ford Trucks! New C-800 Cab Forward, GVW 16,000 lbs. Cables of two proven V-8's.

See the 1955 Money Makers Today!
LINCOLN COUNTY MOTORS

PLYMOUTH ADDS 8-CYL. TO '55 LINE

To be on display next Wednesday at the Shafer Motor Co. is the all-new 1955 Plymouth with its greater horsepower. The new Dodge is also to be on display at the Carrizozo firm's showroom.

Plymouth is powering its new cars with the most modern engines yet developed for passenger cars, says Robert Anderson, Plymouth chief engineer.

The 1955 engines are a 117-horsepower PowerFlow six, a 157-hp. Hy-Fire V-8 and a 167-hp. Hy-Fire V-8. The latter engine also is available with a special power package. It consists of a four-barrel carburetor and special intake manifold, which increases its horsepower to 177.

All engines are available on all three of Plymouth's '55 lines — Belvedere, Savoy and Plaza. All are available with PowerFlite fully automatic transmissions or with Plymouth's Synchro-Silent three-speed, manual shift transmissions. Overdrive is available with 3-speed transmissions.

Plymouth Hy-Fire V-8s have a compression ratio of 7.6 to 1. They have a new type combustion chamber, called polysphere because of the positioning of the exhaust valve seat in a polygonal section of the chamber. This arrangement permits better engine breathing, less loss of heat energy and more power from fuel than conventional designs.

With overhead valves, hydraulic valve lifters are used in all Hy-Fire V-8s with or without PowerFlite automatic transmission. Hydraulic valve lifters permit exceptionally smooth and quiet engine operation. They also contribute to the high efficiency of the Hy-Fire V-8, Anderson says.

The 157-hp. Hy-Fire has a bore of 3.41 in. and a stroke of 3.25 in. The 167-hp. Hy-Fire has the same stroke, but a 3.563 bore.

Plymouth's PowerFlow Six now has a 7.4 to 1 compression ratio, compared to the previous

New Bigger Plymouth

Plymouth's completely new 1955 cars are lower, wider and more than 10 inches longer than previous models. With either a PowerFlow Six or Hy-Fire V-8 engine, they are the most powerful cars Plymouth has ever built. They are available with a full range of automatic and power-assist devices, including electric window lifts and power front seat adjustment. Pictured here is the Belvedere 4-door sedan.

Flair Styling Featured on 1955 Dodge

The flair-styled 1955 Dodge features a dashing hood ornament, projected headlight hoods, "New Horizon" swept-around windshield, cut back doors, fared wheel openings and streamlined rear deck. This four-door sedan in the Custom Royal series has a Super Red Ram V-8 engine of 183 horsepower. Two-tone paint treatment accents the lowered roof line, sloping hood, and twin-jet taillight section.

ratio of 7.2 to 1. It develops 117-horsepower at 3600 revolutions per minute and 194 foot pounds

of torque at 1600 rpm. It has a new all-aluminum carburetor with integral automatic choke

incorporating a heat retainer plate to match choke operation to engine temperature.

1955 DODGE MAKES DEBUT

DETROIT — The 1955 Dodge passenger car line, an advanced concept in automotive body design, will be introduced next week in dealers' showrooms across the nation.

William C. Newberg, Dodge president, explained that car stylists have blended aircraft sleekness and power into a "design of refreshing beauty."

He revealed that Dodge engineers have incorporated over 100 structural and mechanical innovations in the longer, lower and wider 1955 line. He said all four-door sedans have a distinct touch of hardtop styling.

Offering three series — the new and luxurious Custom Royal, the richly appointed Royal and the classic Coronet — the '55 Dodge has a built-in look of action, resulting from its swept-back design.

Performance to bear out the air-slicing swiftness in styling is provided by a wide choice of engines — the "Get-Away Six" developing 123 hp., the all-new Red Ram V-8 rated 175-horsepower, the Super Red Ram V-8 at 183 horsepower, and the super-powered Super Red Ram V-8 at 193 horsepower.

Newberg announced another automotive first for Dodge in the introduction of three-tone combinations on Dodge Lancer hardtop and convertible models. These multiple-tone paints accent the flair styling and permit exciting new combinations in exterior color design.

From front to rear the 1955 Dodge conveys an impression of classic, clean-lined simplicity. A feeling of streamlined flight is embodied in the car from the twin-opening grille to the twin-jet taillights.

All 14 models have an increased wheelbase of 120 inches. Overall length is increased by as much as 16 inches on some models, but the cars appear even more lengthy due to Dodge's flair styling.

Moving from the massive chrome grille is a dashing V-type hood ornament, accenting the low, sweeping hood and fast line of the front fenders. Chrome hoods over the headlights further emphasize the impression of forward motion.

"New Horizon" windshields wrap around at both top and bottom of the glass for improved and safer vision. The windshield provides cockpit-like visibility for driver and front seat passenger.

The "tumble-home" or inward slant of the car's sides above the belt line, creates an appearance of low, road-hugging massiveness. Doors, too, are new and different — perily cut back, but wider for easy entry.

Novel treatment of fared rear wheel openings provides speed-enhancing usable trunk space by two cubic feet to 37.6 cubic feet, with spare tire.

Inside, the 1955 Dodge control panel can be compared to an airplane pilot's flight control panel. Dials are placed in a row before the driver and clustered under an "eyebrow" to reduce glare. The wider interior is flair-fashioned, in harmonious color

STUDY OF LAND NECESSARY FOR RIGHT IRRIGATION

By M. J. MAKER
State Soil Scientist
State Conservation Service

"Irrigation would be much easier to plan, if we could see below the soil surface and note what is taking place there; how fast the water moves downward; how far it goes; where it goes; what happens when it reaches a hard soil layer; how fast and far it moves sideways from the furrow; how it is stored in the soil; and many other underground water movements which together make for success or failure of an irrigation plan."

It of course is not possible for the irrigator to see, or follow the movement of water through the soil. He will, however, have the answer to many of these questions, if he understands and knows the type of soil. Learning the facts about the soil, is therefore the first step in taking care of it, and in planning an irrigation system. It is, of course, possible to learn such facts entirely by the trial and error method, but this requires many trials and much digging to find results.

Soil survey information of one type or another is now available for a considerable part of the irrigated land in New Mexico. Farmers in Soil Conservation Districts can, of course, obtain soil surveys of their farms through their Districts.

Many farmers today therefore, know the kind of soils or land that they are working with. They know not only the soil types on their farms, but the major characteristics of each type and the importance of these characteristics. In other words, they know the good points and weak points of the soil on their farms. They know that some of their soils are deep and have good water-holding capacities. They know that on these shallower soils, they must make use of frequent and light irrigations. They know that some of their soils have a very favorable structure and consequently take water well, while others do not. They know that for soils with unstable structure, they have to plan their irrigation layouts so that they get adequate penetration because such soils take water very slowly.

I do not wish to imply we know all of the soil characteristics, or the significance of each. There are still numerous things about the soil that we do not know. In fact, we have just started accumulating information about our soil. The things, however, that are well known, should be understood and used by all of us. By so doing, we will be on the road towards good irrigation and

blends. Easily-cleaned Corda-grain is combined with exclusive double-patterned Jacquard seat cloths. Door panels are dramatically decorated with two-tone color designs and chrome, complementing the new Dodge upholstery and trim.

water conservation. We know that soils differ. Strange as it may seem, they differ in practically all respects. No 2 soils have the same physical, or chemical makeup and so on down the list of characteristics. Before planning an irrigation layout, what are some of the soil facts that we must know? **SOIL-DEPTH IS FACTOR** First of all, it is well to find out the depth of soil, if caliche, gypsum, gravel, or some other limiting layer is nearer the surface than 10 to 12 inches, it is probably best not to use this shallow soil for irrigation. In any case, it is wise to know the (Continued on back page)

Watch

for the newest new car in the low-price 3

PLYMOUTH '55 HERE ON WEDNESDAY

(November 17)

This year of all years, look at all 3 low-price cars before you buy! If you do, we're sure you won't settle for anything less than the Plymouth '55 for your next car! It'll be in our showroom Wednesday; all new from roof to road, and packed with new values for you.

New styling makes the Plymouth '55 lower, wider, 10 inches longer. There's new power; with new V-8 and 6 engines! New size makes it as

roomy as most high-price cars. There's a new chassis with a new, box-girder frame. New power driving aids, including PowerFlite no-clutch driving.

Plan now to see the Plymouth '55 in our showroom next Wednesday. Come early or late—you'll find a cordial welcome and a demonstration drive in the newest new car in the low-price 3—the Plymouth '55.

PowerFlite and all power driving aids optional at extra cost

TORTUGA INDIANS READY FOR FIESTA

Las Cruces—The little Indian village of Tortuga on the outskirts of this city is already preparing for their Saint's Day and Fiesta, December 11 and 12. It is all in honor of the Virgin of Guadalupe and the long remembered Mexican legend of Juan Diego to whom the Virgin is said to have appeared in a vision centuries ago.

Ceremonies start with a colorful procession of villagers carrying the image of their Saint from her private shrine at the village to the church where she will remain until New Year's Day.

Visitors will find interesting the simple daily life of these least known of New Mexico's Indians and there is much to see and experience in the surrounding Mesilla Valley so rich in history of the early days. But it is the famed native pilgrimage up Tortuga Mountain that is the highlight of the occasion.

With the coming of evening long lines of intent Indians begin their march up the rugged slopes. They appear as patient pilgrims, pursuing the path of the Penitents, carrying various burdens or flailing themselves with cruel thorny whips. Reaching Tortuga's crest they will return down the mountain bringing crosses and crowns, made from the leaves of zotal plants, to present to their patroness, Saint.

Soon bonfires spring up like magic in the streets, luminarias twinkle from the roof-tops and the familiar hollow of big drums call returning warriors to the dancing. Hilarity and feasting follow and the presentation of the ancient play Los Matachines.

Mousetraps and hedgehops are weapons used to throw projectiles ahead of Navy ships.

Octopus, cooked in its own ink, is a Portuguese delicacy.

STATE OF NEW MEXICO COUNTY OF LINCOLN IN THE DISTRICT COURT

MALE S. SIMMONS, Plaintiff,

vs.

GREGORITA M. LUCERO, Defendant,

Implicated with the following named defendant, against whom substituted service is hereby sought to be obtained, to-wit:

Unknown heirs of the following named deceased persons;

J. H. JUMP, also known as John Jump,

NORA E. JUMP, also known as N. E. Jump,

CRES MARES,

ROSITA MARES NUNEZ,

DAVID C. KER,

J. D. BOUNTREE,

All unknown claimants of interest in the premises adverse to the Estate of the plaintiff,

Defendants.

NOTICE OF PENDENCY OF SUIT

THE STATE OF NEW MEXICO TO:

Each of the above named defendants, against whom substituted service is hereby sought to be obtained, GREETING:

You and each of you are hereby notified that the above named Plaintiff has filed its Complaint against you in the above numbered and entitled case and Court.

The general object of said suit is to quiet Plaintiff's title to the real estate described in the Complaint, situate in Lincoln County, New Mexico, and being:

The old school property located at Coyote, New Mexico, being in the NE¹/₄SW¹/₄ of Section 5, Twp. 6 S., Rge. 11 E., N.M.P.M., more particularly described as follows:

Starting at the Southwest corner of Section 5, Twp. 6 S., Rge. 11 E., thence N. 45° 02' E., a distance of 2178.7 feet to the point of beginning of the tract of land to be described; thence S. 80° 47' E., a distance of 264.3 feet; thence N. 11° 02' E., a distance of 175.4 feet; thence N. 79° 23' W., a distance of 262.3 feet; thence S. 10° 36' W., a distance of 209.1 feet to the point of beginning.

Together with all improvements thereon.

against the adverse claims of you and each of you, and anyone claiming by, under or through you, and to forever bar and estop you from having or claiming any lien upon, or right or title to said real estate.

Unless you enter your appearance in said cause on or before the 10th day of December, 1954, judgment will be rendered in said cause against you and each of you by default.

Plaintiff's Attorneys are BRENTON & BOYCE, Carrizozo, New Mexico.

GIVEN under my hand and the seal of the Third Judicial District Court of the State of New Mexico, this 22nd day of October, 1954.

JAMES EARL HARCROW, (D.C. SEAL) District Court Clerk, Deputy, Pub. Oct. 22—Nov. 12, 1954.

STATE OF NEW MEXICO COUNTY OF LINCOLN IN THE DISTRICT COURT

ALBERT ZIEGLER, Plaintiff,

vs.

PAUL MAYER, J. R. McCRACKEN, LINCOLN COUNTY BOARD OF EDUCATION, a defunct public organization; THE UNKNOWN HEIRS and Successors in Interest, however remote, and their unknown heirs, devisees or assigns of LINCOLN COUNTY BOARD OF EDUCATION, a defunct public organization; ALL UNKNOWN CLAIMANTS OF INTEREST IN THE PREMISES ADVERSE TO THE ESTATE OF THE PLAINTIFF,

Women's Extension Club Elects Officers

The Corona Women's Extension Club met Thursday, Nov. 4, at the Corona recreation room, with club president, Mrs. Nina Winniford, in charge. Officers for the coming year were elected as follows:

President—Juanita Sultemeyer
Vice-President—Kathy Crow
Secretary—Lucille Turner
Treasurer—Ollie Dee Wade
Parliamentarian—Nina Winniford

A beautiful display of Christmas gifts, wrappings and decorations were shown by Mrs. Winniford, Mrs. Johnnie Bond, Mrs. Kathy Crow and Mrs. Pallie Dlashman. The tables were decorated with a holiday theme. A covered dish lunch was served at the noon hour.

Guests were Mrs. Dunlap and Mrs. Johnson Stearns of Vaughn. Also Mrs. Lamb, Mrs. J. O. Wilson, Mrs. C. O. Eford and Mrs. Fred Whitmyre of Corona.

About twenty-five members were present. Hostesses were Miss Donnie Franks, Mrs. Lyman Strickland and Mrs. Jack Davidson.

The next meeting will be the annual Christmas party, with Mrs. Gladys Burgess, Mrs. Sarita Atkinson, Mrs. Juanita Sultemeyer and Mrs. Dixie Lewis in charge. Everyone is invited.

The Presbyterial leaders of the Rio Grande Presbytery were in Corona November 3 for a workshop at the Presbyterian Church. Grants, Albuquerque, Ancho and Corona were represented at the meeting. At noon a luncheon was served at the Community recreation room.

Mr. and Mrs. I. H. Burgess had as their guests last week their son and daughter-in-law, Mr. and Mrs. Fred Burgess and two daughters from Floyd, N. M.; also their daughter, Mrs. Juanita Quesenberry and her four daughters from Roswell.

C. E. Davis has rented the former Wesley King place north of the Roberts Mercantile, and is reported to be putting in a truck relay station for a dry ice firm. We'll have more details later.

Week end guests at the Jack Davidson Ranch this past week were Joe Hill of Alamogordo and Martin Mays, Fred Wardwell, Allen Davidson and son, Allen Jr., all of Albuquerque.

Cardinal Hoopmen Win Two from Hondo

The scores in the basketball games with Hondo at Corona last week were:

A Team—Hondo 36, Corona 44.
B Team—Hondo 29, Corona 45.
Eddie Abeyta was high point man of the game.

Fat Huey, was high scorer in the B game.

Neil Metcalf, from the Sebastian Diesel Equipment Co., of Joplin, Mo., is in Corona moving the local REA light plant equipment to Unionville, Mo., where it will be used in the city light plant.

Mrs. Susie Slack, Punch Porter, Max Evans and son Bobby visited with the Floyd Proctor family over the week end.

Mr. and Mrs. Rufino Romero announce the birth of their fifth child—a daughter, born on October 30.

John W. Grimes of Clovis checked in the first deer at Corona Saturday morning, November 6—a spike buck. Charley Elbert Wade checked in the second one—a doe. Around 705 does and bucks were reported checked in at Corona at 4 p.m., Tuesday. Grimes shot his deer on the Chadwick ranch.

PP/8 Myron Yancy and EM/3 Byron Yancy were discharged from the Navy November 7 and are back home. The twin brothers plan to stay in Corona and work for their brother, Bee Yancy.

News from the EPNG Compressor Station

Visitors in the Fred Whitmyre home this week included Mr. and Mrs. H. L. Smith and Mr. and Mrs. Ray Smith of Dallas, Texas; also Mr. and Mrs. J. H. Blackwell of Jal.

Mr. and Mrs. John Stewart and girls of Jal, and Mr. and Mrs. C. A. Hamby and daughter, Delores, of Jal have been visiting the Pete McMurrys. Mr. Stewart is an uncle, and the Hambys are the parents of Mrs. McMurry.

Mr. and Mrs. Ocoo Noyes were surprised by a visit from his sister and her husband, Mr. and Mrs. Earl Bush of Sedan, N. M.

Mrs. A. C. Karger Sr. returned to her home in Flagstaff after spending two weeks at the Art Karger home.

Guests in the Carl Buttrill home this week included his sister and family, Mr. and Mrs. Alford Langford, and children Jovita, Melba Dene, Archer Dow and Della Vern, of Roswell; a brother and family, Mr. and Mrs. Leonard Buttrill and children Franette, James and Gary; and Mr. Higgins and boys of Roswell; G. A. Langford and friends; Mr. and Mrs. Dan Kretschmar of Oil Center and Mr. and Mrs. Gene Hendricks of Jal.

Ralph Gibbons got his buck in Arizona and is home. Mrs. Gibbons and daughters returned from El Paso the last of the week.

Several in camp have killed their deer, but others are still out hunting. Next week we will give a list of the lucky ones.

Walter Buttrill is out of school with a sore throat. He was taken to the doctor in Carrizozo on Tuesday.

Corona Schools Give Evening of Music

An evening of music was presented November 8 by the Corona Band and Girls' Glee Club, interspersed with numbers by the band were special selections by Elsie DeVaney, Kathy Thomson and Betty Ann Bond, Rand Perkins and Lloyd Burson, Inita Carnell and Woody Dame, Jan Eford, Blanche Reeves, Helen Kay Atkinson and Wanda Thomson.

Following intermission, numbers were given by the Junior Sextette, Senior Sextette and by the combined axtettes. Joanne Atkinson was accompanist and Suzanne Kurman director.

Mr. and Mrs. Floyd Buell from Fort Sumner are on two weeks' vacation and are visiting and hunting this week at Corona. Buell is county road maintenance man for DeBaca County.

"Hillbilly Wedding"—a three-act comedy, will be presented by the Corona High School Juniors on Saturday, Nov. 30. The play is under the direction of Richard Kurman.

ANCHO BRIEFS

Louis and Ramon Montano helped move our teacher, Mrs. Margaret Shown, to Ancho over the week end.

Mr. and Mrs. Paul Wahl of Las Cruces visited their daughter, Mrs. Howard Harkey, and family, over the week end.

Mr. and Mrs. John Wilson and children of Lovington visited John's folks, the Barney Wilsons, over the week end and went home with a nice buck deer.

Other hunting parties over the week end were Mr. and Mrs. Barney Roper of Fort Sumner, who visited the Clyde Stone-mans, and Jack Pruitt and sons, Tularosa, who hunted with John Allen and Bryan Hightower.

Jo Ann Straley was home from ENMU at Fortales and bagged a deer.

Mr. and Mrs. Ben Smith and children of Cubero visited Myrtle's folks, Mr. and Mrs. Red Hobbs, and also went hunting.

Mr. and Mrs. Bill Nunn and niece, Mr. and Mrs. Shag Hale of Eunice are back for a visit at the Coyote pump station, over the hunting season. Mr. Nunn is working on a ranch out from Eunice.

Mr. and Mrs. L. Y. Jackson and children from El Paso visited Sally's mother, Jackie Silvers, over the week end.

In connection with National Education Week, Supt. R. G. Firman drove the school activity bus to Ancho and picked up the Ancho school children so they could visit each school room in Carrizozo on Tuesday.

Richard Harkey, son of Mr. and Mrs. E. I. Harkey, was home over the week end and got his deer. Richard is working out of El Paso for the Southern Pacific.

Pfc. James P. Nunn of the Marine Corps is home on 30-day leave from his base at San Diego, Calif., visiting his parents, Mr. and Mrs. Bill Nunn.

EITHER-SEX DEER SEASON

According to the State Game Department, there has been a good deal of misunderstanding about the either-sex deer season in Areas I and II under Regulation 333, as shown on the Big Game Hunting Proclamation. The season closes on Saturday, Nov. 13 at sundown, 4:58 p.m.

Area I is bounded by US Highway 285, the Texas line, US Highway 54, NM Highway 10 and US Highway 60.

Area II is on and adjacent to the west side of White Sands Proving Ground.

Areas I and II are indicated on the Proclamation by vertical blue lines overlaid with diagonal red lines.

ABOUT PEOPLE

Mrs. Edna Laramie, clerk of the County Selective Service Board, will be on a tour of duty in Alamogordo November 17 and 30 and December 1.

A district meeting of the American Legion Auxiliary is to be held in Ruidoso Saturday, November 13.

Mrs. Marian Schlarb, president of the Carrizozo PTA, attended a district PTA meeting in Tularosa on Wednesday.

Mr. and Mrs. Geo. L. Zimmerman and Mr. and Mrs. Charles A. Jones attended the wedding in Roswell Saturday, Nov. 6, of Constance Jean Hendricks, who became the bride of William Brainerd. Mrs. Hendricks is a niece of Mrs. Cleo Duggar of the Diamond Peak Ranch. The wedding took place at St. Joseph's Catholic Church.

S. C. Snow of Alamogordo was hunting in the Carrizozo vicinity Tuesday and stopped in town for a visit.

50th Anniversary for Christmas TB Seals

Christmas Seal letters to residents of Lincoln County are now in preparation and will be in the mail November 15. Dr. J. P. Turner, president of the Lincoln County Tuberculosis Association, announced this week.

"I know everyone has been looking forward to their first look at the new 50th anniversary Christmas Seals they will use in many decorative ways to brighten the holiday season, but I want to emphasize the importance of the letter in which they will be asked to buy Christmas Seals," he said.

Pointing out that the people of this area can rightfully pride themselves on the progress made in tuberculosis control through their support of the tuberculosis association and health department programs, Dr. Turner emphasized, however, that TB is a long way from defeat.

"In our letter to the people of this community we are laying the facts on the line. We want them to know what this disease is costing the community, how widespread it is, and how tragically it affects many Lincoln County families. We want to tell them frankly what their TB association is doing about these problems; we want people to know what they are paying for when they buy Christmas Seals."

Last year, Lincoln County citizens gave \$457.98 to support the work of the TB association. Fifty-nine per-cent of that sum stays in the county.

Final Rites in El Paso for Mrs. Fanny Dennis

Funeral services were held in El Paso Monday for Mrs. Fanny Dennis, 63, of 8523 Mt. Tibet rd., who passed away the previous Friday in an El Paso Hospital.

Dr. D. W. McElroy officiated at the service and burial was in Evergreen Cemetery.

Pallbearers were G. R. Reichelt, D. L. Morrison, J. D. Jacobs, Syc Ramsdale, Elmo Springer and Jeff Brown.

Mrs. Dennis lived in Carrizozo for several years. Her son, W. C. Dean, was a graduate of Carrizozo High School. Mr. and Mrs. Reed Sherrill of Fort Stanton and Mrs. Julia Sherrill of Carrizozo attended the funeral services in El Paso.

CPL. TOM R. BASHLOR

Cpl. Tom R. Bashlor, who was critically injured in a traffic accident on Red Hill west of Carrizozo Monday of last week, died Saturday in William Beaumont Army Hospital in El Paso. Suffering a severe brain concussion, Cpl. Bashlor was rushed in the show ambulance to the El Paso hospital. He was a member of Bat. C, 1st Guided Missile Group. His home was Richmond Hill, Georgia.

Captain Schools Pupils Drink More Milk

The Captain schools have been participating in the special milk program since November 1. L. W. Clark, superintendent of the Captain schools, states that under this program the grade school students are served milk during the afternoon recess, in addition to their regular noon-day serving.

High School students may have all they can drink at the noon hour. The Federal Government will reimburse the school at the rate of 4 cents per serving. Since the cost delivered in Captain is 6 cents per half pint, each student pays two cents per serving.

Mr. Clark says that this special program has increased the milk consumption in the Captain schools almost 100%.

Hunter Draws Fine for Leaving Camp Fire

A careless hunter who had allowed his warming fire to escape and threaten National Forest land, was arrested last Sunday morning by Paul A. Jones, fire guard on the Ruidoso Ranger District.

The offense occurred in Tortilla Canyon west of Nogal. The hunter was William Earl Evans of Mesilla Park, N. M. He readily admitted the offense and was subsequently fined the minimum of \$10 and costs by Justice of the Peace Warren Gaston of Captain.

Fred R. Swetnam is district ranger of the Lincoln National Forest. Fire Guard Jones is a resident of Nogal.

Annual Spanish Dinner By St. Rita Ladies

A treat is in store for those folks of Carrizozo and neighboring communities when St. Rita's Altar Society serves its annual Spanish dinner, to be held Saturday evening, November 13, at the Woman's Club in Carrizozo.

The dinner, so well received in the past, will feature a menu of enchiladas, tacos, rellenos, and other delectable dishes. Mrs. S. M. Ortiz, chairman of the dinner committee, cordially invites the public to "come and sample this year's menu."

Serving will begin at 5 p.m., and continue until all are served. For those who prefer, take-home dinners are available. Adult plates are \$1 and children's plates 50 cents.

The ladies serving on the committee with Mrs. Ortiz are Mrs. R. G. Firman, Mrs. Paul Ortiz, Mrs. Tina Lopez and Mrs. Louise Chavez. Mrs. Leon White is in charge of publicity.

Tickets for the dinner may be had from any of the above ladies or at Petty's Dept. Store, Rolland's Drug Store, Ortiz Service Station or at Vidaurri's Store. Also dinners may be purchased that night at the Woman's Club.

Party on 6th Birthday For Willa Marie Edgar

A delightful birthday party was held at the ranch home of Marie and Bill Edgar, in honor of their daughter, Willa Marie, on her sixth birthday.

The spacious living and dining room were gaily decorated for Halloween, with balloons, witches, black cats, pumpkins and all sorts of favors.

Refreshments of cake, ice cream, sandwiches, and coffee and Cokes were served to the following: Nancy and Martha Sutherland, Freddie and Judy Provine, Pam and Zona Hall, Chris Kathy and Winkle Bancroft, Alma and Johnny Walker, Judy Bess, Bill and Bob Bird, Ronnie Eldridge, Darla Jean and Barbara Forbus, Willa Marie Edgar, Mrs. Jim Howard and daughter, Mrs. Eva Sutherland; Mr. and Mrs. Ray Provine, Mrs. Jackie Bancroft, Mrs. Marie Walker, Mr. and Mrs. Buster Bird, Mrs. Grady Eldridge, Mr. and Mrs. Dyer Forbus, Mr. and Mrs. Lon Merchant and Mr. and Mrs. Bill Edgar.

Former Carrizozo Girl Weds in Albuquerque

San Jose Church in Albuquerque was the scene of the marriage Saturday, Nov. 6, of Miss Virginia St. John, daughter of Lell St. John of El Paso and Mrs. Henry Espinosa of Albuquerque, and Gilbert Benavidez, son of Mr. and Mrs. Demas Benavidez.

The bride lived in Carrizozo for a number of years and attended school here while her father was in the employ of the Southern Pacific.

MARRIAGE LICENSES

Lupita Candelaria, 22, Carrizozo and Charles Brewer, 22, of Perry, Iowa.

Donna Booker, 20, of Captain, and Frank Marr, 22, of Carrizozo. Julia C. Allen, 68, of Ruidoso and G. W. Walters, 71, of Osoyoos, B. C., Canada.

Winnie Mae Gonzalez, 18, of San Patricio, and Teofilo Salas, 24, of Hondo.

Brookie C. Hendricks, 43, of El Paso, and Claude E. Cunningham, 46, of Carlsbad.

INSIDE CAPITAL

from the margin of Demo victory was Gov. Ed Mechum's failure to make a closer run for senator, Corporation Commissioner Ingram's top place in the voting makes him a state figure to be reckoned with.

WOULD LIKE CONTROL OF ROADS, COLLEGES

The rise of the vote has caused talk among some top-level Democrats for urging all board, and commission members to give Simms their resignations on January 1 and thus give him an opportunity to employ the full mandate of the voters. This would include highway commissioners and regents of the colleges who cannot be removed arbitrarily by the governor. Chief cause of the discussion is the highway commission and that is understandable. It would be a strange bunch of politicians who didn't want to get their hands on the highway department. The other hot spot is the board of regents of the University of New Mexico, because (no kidding) of the poor quality of the 1954 football team. They want a board that will shake President Tom Popejoy off his program for de-emphasis of athletics. The scheme, if successful, would appear to violate the intention of the 1940 constitutional amendment for putting the colleges and highway department beyond political caprice. Members of all the state boards of boards may be removed at will by the governor.

REPUBLICANS LOSE MORE THAN CANDIDATES

only defeated the candidates but also turned out the crowd of youngsters brought in to run the party by Alvin Stockton. Probably the only Republicans who got any consolation out of the voting results were the bunch who had been toppled from control and now will probably return to their old places in time for the next election when Ike is expected to be a candidate and the party's chances will be brighter. Among them — Harry Robins, Phil Hubbell, Bob Bots, Maurice Miera, Jack Cline and others who supported Holm Bursam against Stockton for nomination for governor. Bursam, incidentally, tried to help Stockton and his son was the head of a Stockton-for-governor club at

the A&M College. So did some of the others but they weren't given much encouragement. Republicans closed their headquarters rather seriously in debt, while Democrats, after enjoying the richest campaign ever, wound up with headquarters open and money in the bank.

KNOW YOUR LAND
depth to the caliche or other material as it will determine the depth of root and moisture penetration. In moderately deep soils, 20 to 36 inches, satisfactory results from irrigation can be expected. However, a deep soil, three feet or more, is most desirable, providing it has a good texture. (Concluded next week)
