**State's Rehabilitation
 Program for Alcoholics**
 A large percentage of New
 Mexico's alcoholics remain sober
 wage-earners after being treated
 under the state's rehabilitation
 program, a year-end sample sur-
 vey conducted by the New Mex-
 ico Commission on Alcoholism
 indicates, according to Arthur
 Stine, executive director of the
 Commission.
 Basis of the study was an in-
 ventory taken on the 165 alco-
 holics from Santa Fe County who
 were treated at rehabilitation
 centers or received treatment
 and counseling on an out-patient
 basis, during the twenty-seven
 and a half months, ending De-
 cember 31, 1954.
 The survey showed that of this
 number, 75.75% are now sober
 and 59% are gainfully employed.
 Housewives and mothers made
 up an additional 9.7%. The so-
 briety of 12.73% is unknown and
 17.37% of the former patients are

unemployed, 1.2% of the ex-pa-
 tients have died.
 More than 2000 persons have
 received medical treatment and
 counseling through the Commis-
 sion's rehabilitation centers and
 offices since the New Mexico
 program was placed in operation
 in mid-1952. Treatment centers
 are operated at Turquoise Lodge
 in Albuquerque and Pecos Valley
 Lodge in Roswell.

**Dept. of Commerce
 Compiling Census on
 Business Activities**

Report forms of the 1954 Cen-
 sus of Business are being mailed
 to New Mexico retail, wholesale
 and service businesses, theaters
 and other amusement places, hot-
 tels and tourist courts, early in
 January by the Bureau of the
 Census, Dept. of Commerce. The
 report forms are adapted to the
 various kinds of business and
 smaller firms need answer only a
 minimum of basic inquiries.
 Nation-wide information col-
 lected in the census is confiden-
 tial, and will be used by the Bu-
 reau of Census in compiling new
 statistics on business activities
 for the nation, states and small-
 er areas for the first time since
 the results of the 1948 Census of
 Business were published.

Selected figures for New Mex-
 ico from the 1948 Census of Busi-
 ness follow:
RETAIL TRADE—1948—
 No. of Stores..... 7822
 Sales for the Year.....\$477,553,000
 Payroll for the Year..... 43,338,000

Report forms of the 1954 Cen-
 sus of Manufactures are also
 being mailed to all New Mexico
 manufacturers. The last census
 in 1947 showed 432 manufactur-
 ing establishments in New Mex-
 ico with value added by manu-
 facture of \$35.4 million, an av-
 erage of 7590 employees for the
 year, and salaries and wages of
 \$18.2 million.
 Also receiving questionnaires
 will be New Mexico mines, quar-
 ries and oil and gas establish-
 ments—the first complete can-
 vass of these industries since
 1939.

40 Years Ago
 (From the files of the Carri-
 zozo News, January 2, 1915.)

The Carrizozo News this date
 published a 14-page "Booster
 Edition" for Lincoln County.
 The advantages of the county
 are such, it was stated, "that we
 believe Lincoln County is des-
 tined to become world-famous as
 a summer and health resort."
 By reason of the perfect adapta-
 bility of the soil and climate,
 and the development of water
 for irrigation purposes, Lincoln
 County is also sure to become
 famous for its fruit, especially
 apples, as well as for the pro-
 duction of general agricultural
 crops.

Weather observations taken at
 Fort Stanton for 28 years, re-
 vealed the following facts on the
 climate:

Annual mean temperature, 62°
 Highest temperature, 95°
 Lowest temperature, 20°
 Annual snowfall (ave.) 22.3 in.
 Annual precipitation, 17 in.
 Ave. no. of clear and partly
 cloudy days, per year, 313.
 Ave. date Spring frost, May 6
 Ave. date Autumn frost, Oct. 5
 Ave. hourly wind velocity, 3.6
 miles.

Information about Lincoln
 County towns was given in the
 following writeups:

Capitan—Population about
 200. Terminus of the El Paso &
 SW. Railway. Site of the Lincoln
 County High School. Shipping
 point for fruit from the Buldoso
 and Hondo Valleys. Stock rais-
 ing section north of Capitan. It
 was originally a coal camp. Rich
 iron ore deposits nearby.

Oscura—Population about 150.
 With rich farming lands sur-
 rounding, Oscura was described
 as being only in its infancy and a
 "coming" town. An excellent
 quality of apples was being
 raised in the area.

Corona—In the heart of one of
 the best sheep and cattle rais-
 ing sections in New Mexico, its
 business establishments includ-
 ed two first-class general stores,
 a bank, two real estate offices,
 a billiard parlor, blacksmith
 shop, two hotels and an amuse-
 ment hall. Corona's public
 school, a substantial stone struc-
 ture, cost \$10,000.

White Oaks—One of the first
 American settlements in Lincoln
 County. Discovery of gold in
 Baxter Gulch started a rush of
 prospectors. Ore mills were
 erected as millions of dollars of
 gold poured from the Old Abe
 and North and South Homestead
 mines. Coal is also found in
 abundance near town. With an
 elevation of 6500 feet and a de-
 lightful climate, White Oaks was
 described as having had a "bril-
 liant past and with a still more
 brilliant future."

Lincoln—Its settlement began
 in the year 1855—the same year
 that Ft. Stanton was established
 by the government to control
 the Mesquiteros and White Moun-
 tain Apache Indians. The for-
 mer county seat, Lincoln made
 history as the focal point of the
 Lincoln County War. But today,
 "so favorable and harmonious
 are the conditions, that tourists
 and visitors come from all parts
 of the nation to enjoy Lincoln's
 health-giving and invigorating
 climate."

Carrizozo—As business times
 numbered Foxworth & Galbraith,
 lumber; Deany & Osborn, real
 estate; Carrizozo Eating House;
 Campbell's Saloon; Patty & Ad-
 ams, meat market; The Ex-
 change Bank; Carrizozo Trading
 ware; W. J. Doering, lights; Kel-
 ley & Sons, furniture; Ziegler
 Bros., general merchandise; Rol-
 land Bros., drug store.

The population of Carrizozo
 was 1200. At an altitude of 5328
 feet, its climate was said to be
 "breathing world famous."
 "Carrizozo is not a boom town
 and never has been. It repre-
 sents a steady growth and will
 continue to grow steadily and
 surely."
