RAMBLING AROUND

By PAUL BAKER

The Capitán Chamber of Commerce and assisting organizations and individuals deserve a lot of credit for a successful Achievement Day, which many say is the best to date. The exhibit of livestock was the largest in the past three years and other displays were equally good. Something new was added, an excellent exhibit of range grasses by Conservationist S. H. Fuchs. The policy of free admission to the grounds worked out satisfactorily, as expenses were met by a bingo game run by Farm & Livestock Bureau members.

Archie Fuchs asks the News to express the thanks of the Capitán Chamber of Commerce to everyone who helped, including Farm Bureau men and women, and the wives of Chamber of Commerce members, all exhibitors, school personnel, County Agent Ralph Dunlap, and the County Commissioners who donated the Queen's necklace, members of the 4-H clubs, the judges, Queen contestants and last, but not least, Mary Werner, for putting on the flower show.

A revised booklet centered around the Old Lincoln County Courthouse, is just off the press. It has been prepared by John Boylan, custodian of the Old Courthouse and carries the information most sought for by visitors to the Museum. An excellent photograph of the Courthouse as it looks today is printed on the cover. A map shows Lincoln County when the town of Lincoln was its county seat. In 1890 Lincoln County contained over 27,000 square miles and was the largest county in the United States with an area greater than that of Connecticut, Delaware, Massachusetts, Rhode Island and Vermont combined. A great deal of information is packed into the booklet, including a resume of events that led to the Lincoln County War, the role played by Billy the Kid and others; also brief descriptions of Fort Stanton and White Oaks. A map of Lincoln Town on the back cover shows both present buildings and the site of historic structures no longer standing.

A rivalry of long standing will flare up again Friday night when the Tigers of Capitán meet the Grizzlies of Carrizozo. The Tigers have been chewing the Grizzlies pretty regularly through the years, but last fall the bars turned the tables. Can they do it again? We'll have to wait until Friday night to see. There are more Grizzlies in the hills this year than Tigers, and they are also somewhat better. But you never can tell about these Tigers. They're pretty tricky, and as their head trainer (Coach Darling) says, there will be only eleven of each side on the field at one time. Head Man Willis isn't too discouraged about the prospect, as he has his trained Grizzlies performing up to expectations.

Plans are going forward for the annual meeting of the Lincoln County Farm and Livestock Bureau to be held in Carrizozo Saturday, Oct. 15. Arrangements have been made to entertain the children of attending members at a picture show in the Lyric Theatre during the afternoon. An invitation has been extended Dr. Roger Corbett, new president of A and M college to address the meeting.

There are seven mistakes of life that many of us make," said a famous writer, and then he gave the following list:

1. The delusion that individual advancement is made by crushing others down.
2. The tendency to worry about things that cannot be changed or corrected.
3. Insisting that a thing is impossible because we ourselves cannot accomplish it.
4. Refusing to set aside trivial preferences in order that important things may be accomplished.
5. Neglecting the development and refinement of the mind by not acquiring the habit of reading.
6. Attempting to compel other persons to believe and live as we do.
7. The failure to establish the habit of saving money.

Grizzlies, Tigers Tangle in Carrizozo In Season's Opener

The Carrizozo Grizzlies and the Capitán Tigers will kick off their 1955 football season this Friday evening when they resume one of New Mexico High School's oldest gridiron feuds on the Grizzly field at 7:30.

The Grizzlies, long owners of the underdog role against the Capitán eleven in gridiron wars will try to stretch their win to two over the Tigers, whom they conquered 12 to 6 last year. Experienced depth in their squads seems to be the main source of worry for both of the rival coaches. Capitán has the smallest squad in number than for several years.

A roster of the two teams will be found on page five of this issue of the News.

Although some have installed his club as a two-touchdown favorite, Coach Ken Willis of the Grizzlies refused to venture a prediction on this year's clash, stating only: "This will be a real test for us and I'm looking for a full evening of football for both clubs."

Coach Duane Darling's comments on the game were: "We are few and inexperienced. The boys are working hard, but only time will tell."

The Capitán Tigers will come to the game attired in new jerseys—a gift to the team by the Seniors of 1955.

Copeland graduated from Capitán High School in 1942 and went into the Army the same year and served until 1945. In 1950 he received his engineering degree from New Mexico A&M and went with the State Highway Department.

Clocks Installed on Carrizozo Street Lights

Electric clocks have been installed recently on light poles in Carrizozo, improving the street lighting. The lights are now automatically turned off and on at daylight and dusk.

The grading of unpaved streets in town has almost been completed and pavement has been patched in many places.

Utilities Manager Weik has also made additions to the transmission lines.

Mr. and Mrs. Vincent Bell were Alamogordo visitors last Sunday.

Toastmasters to Hold District Meeting in Carrizozo Saturday

District 23 of Toastmasters International will hold a District Council meeting in Carrizozo on Saturday, Sept. 10, at the Woman's Club.

A luncheon will be served for all Toastmasters making reservations. The meeting will be held from 2 to 4:30 p.m.

This Council meeting is a quarterly event which all District officers, as well as two representatives from each Toastmasters Club in the District are expected to attend.

District 23 includes most of New Mexico, as well as El Paso, Texas. The northernmost club is at Los Alamos. The quarterly meeting is being held in Carrizozo because it is the most central point in the District.

It is hoped that there will be some visitors at this meeting from Carrizozo and vicinity. While there is no Toastmasters Club at Carrizozo at present, the District will welcome inquiries regarding the formation of a Club from any men who are interested in "Public Speaking."

The Carrizozo Girl Scouts, under the direction of Mrs. Truman A. Spencer Jr. are furnishing a number for the entertainment of the visiting Toastmasters.

Mrs. Joe Gallegos Injured in Car Wreck

Mrs. Joe M. Gallegos of Capitán was injured Monday evening when a pickup she was riding in was wrecked just east of the summit of Indian Divide.

The accident was investigated by Deputy Sheriff Albert Vega and Officer Clyde Atwood. They reported that the pickup, driven by Mrs. Gallegos' husband, failed to negotiate the curve near the old Camp Meeting road turnoff. Mrs. Gallegos suffered bruises and injury to a leg when the pickup went off the highway into an arroyo, striking a culvert. An operation was performed on her knee Tuesday at Carrizozo Hospital.

The place is the city park in Carrizozo. Serving starts at 6:30 in the evening.

Lewis Farris is head cook and his camp grub never fails to please. The way he cooks "Son-of-a-Gun" tickles the palate and famous French chefs would probably pay plenty for the recipe—if they could get it.

On the menu are barbecued beef, red frijoles, sour-dough biscuits (u-m-m), son-of-a-gun, and plenty of camp coffee. All you can eat for the pre-war price of one dollar.

Games and entertainment will follow the supper.

Writer Finds Material At Old Court House

A collection of old photographs at the Old Lincoln County Courthouse Museum, begun by former Gov. George Curry, and known as the Curry Collection, was of invaluable help recently to the official historian of the famous Rough Riders.

Chris Emmett, author of the book "Shanghai Pearce" and other books on Southwestern figures, has been commissioned to do a pictorial history of the Rough Riders; and while searching through records at the Museum of New Mexico Library, he read of the Curry Collection of photographs.

He was very much pleased to find at the Lincoln Museum, 18 photographs of Rough Riders, and scenes from reunions and encampments, which he had been looking for some time. The photos had been collected by Governor Curry while he was State Historian in residence at the Old Courthouse, and have been kept in the Museum's archives even though they do not all relate to the history of Old Lincoln County.

The photos will be copied by Mr. Emmett and returned to the Museum.

Total attendance for the year thus far has now reached 19,727, showing an increase of 5,100 over the same period last year.

A third conservation project on the Upper Hondo watershed is now being planned.

IN STATE'S BACKFIELD

Wally Ferguson of Capitán is one of 12 lettermen turning out for football practice at New Mexico A and M College. He has played every spot in the backfield and is a hard runner and good passer.

Ancho School Closed Due to Low Attendance

In a special meeting, Friday afternoon, the Carrizozo School Board voted unanimously to close the school at Ancho and to bring the children and teacher into Carrizozo.

It added the proviso that in case of a reasonable increase in the school population at Ancho the board would reconsider its action.

The Ancho district was consolidated with the Carrizozo district by action of the State Board of Education in 1952.

Ancho's school population has been dropping steadily for a number of years. In 1953-54 there were 22 children enrolled at Ancho and only 16 children in 1954-55. On opening day last week eight children reported to the school.

"This is not only well below the legal minimum for rural schools," Supt. R. G. Firman states, "but it was believed that it would eventually be in the best interests of the children to move them to a larger school with wider opportunities."

A number of parents and residents of Ancho met Monday with Mr. Firman and members of the school board to discuss the school situation.

Mrs. Shown has been assigned to the Carrizozo Junior High School instead of to the Ancho School.

Record Enrollment At Hondo Schools

With an enrollment of 112 in the high school and 225 in the grade schools, the Hondo Valley Schools continue to show an increase in enrollment.

The prospects of 26 graduates in 1956 forecasts the largest graduation class in the history of the school, and if the trend of the present high school enrollment continues, an additional instructor will be added next year.

This will bring the instructional staff to a total of ten in the high school, and eleven in the grade schools.

Eloy Torres has purchased a larger bus for his route covering Storm Lane.

Departmental Work in Grades—Running ahead of the building operations of the new gymnasium and grade school, which are not scheduled for completion until mid-October, departmental instruction has already gone into operation in the Pica, Tinnie, and Hondo Grade Schools, from the fourth through the eighth. Barton Pavey is the director of music in the grades and has charge of social studies. Other departmental instructors were announced in an earlier news article.

All of these require 18 units for graduation, 15 of which must be solid subjects. (Non-solid subjects are those such as physical education, band, chorus, or orchestra.) Future plans for curriculum development on the college preparatory level include the addition of another foreign language and additional courses in mathematics and science.

CHAVEZ DAMNS SIMMS WITH PAINT PRAISE

SANTA FE, Sept. 7.—Sen Dennis Chavez said he thought Gov. John Simms should have another term, but he wasn't very enthusiastic about it.

In the same statement he slammed the governor's big truck law, and called for defeat of the Simms-backed utility control amendment.

He even suggested the possibility that Simms might not seek another term and that he might get beat if he is nominated.

"I still think Johnny will probably run for a second term next year," he said, "and I think every governor is entitled to a second term."

"However," he added, "the way the stands right now the Democrats are going to have a difficult time electing a governor regardless of who is nominated."

FACTIONAL BREAK LONG EXPECTED

The Chavez statements looked like the long expected break between the Chavez Democrats and those of the state administration. The senator's attack on the big truck law and the anti-Pickett utility amendment is no less than an attack on the governor.

The reason cited by Chavez for opposing the amendment, the possibility that it might sometime lead to depriving people of the right to elect corporation commissioners, seems a frail basis for one big Democratic faction breaking with another.

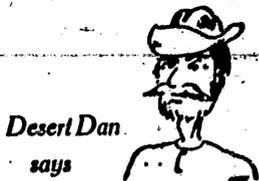

If Chavez is successful in defeating the amendment (and his chances seem good) its major effect is likely to be stepped up political harassment of the governor rather than protection of the sap citizen's right to vote.

MESSAGE FROM HEAVEN FOR INGRAM PICKETT

If the amendment loses Corporation Commissioner Ingram Pickett is likely to interpret the result as a directive from Heaven to get in the race for governor against Simms in next spring's

The Taxpayers Association of New Mexico was formed at Santa Fe with H. J. Hagerman of Roswell as its first president.

There was a wedding at the residence of Nicolas Maes at Jack's Peak. The bride was his niece and the bridegroom Granville Richardson of Arabela, son of the late Andrew Richardson.

The Burnett boys at Jack's Peak finished cutting a fine crop of cane.

The girls of the sewing class at Carrizozo High School offered to hem free of charge any towels, dust cloths or other articles.

Oaks White wrote a long letter to the editor setting forth the wonders of a shipment of household furniture that arrived from relatives in the east. One article that puzzled "Oaks" no end was what seemed to be a feed trough with a mirror on it. But a neighbor, who was up on parlor furniture said "Why, hol, you d—n fool! That's a hall tree!" Oaks said he guessed he was right, but he never saw a hall tree grown anywhere.

Motor Vehicle Responsibility Law In Effect Oct. 1

Santa Fe—Plans are now being completed for prompt and firm enforcement of New Mexico's Motor Vehicle Safety Responsibility Law, which was enacted by the last session of the Legislature and becomes effective October 1. Motor Vehicle Commissioner Tony Lucero reported this week.

Under the new law, motor vehicle owners and operators who are involved in accidents resulting in death or injury to a person, or property damage in excess of \$100, must file within 60 days proof of their ability to meet damage claims up to \$11,000 or suffer automatic suspension of both their permit to operate or right to registration of a motor vehicle in New Mexico.

The proof-of-security requirement applies to the owners of all cars involved in the accident regardless of fault. The operator of each motor vehicle involved must file a complete report of the accident with the Division of Motor Vehicles in Santa Fe within five days and the owners and operators have 60 days thereafter in which to furnish the Commissioner with legally acceptable proof of ability to pay for the damage they caused.

"Since this is a firm law," Commissioner Lucero said, "the state, through the Division of Motor Vehicles, is preparing well in advance to acquaint the public with the law's provisions. We shall inform all motor vehicle owners and operators what the law requires of them, the automatic penalties it exacts for failure to meet those requirements, and the several means it affords motorists to protect the public against unjustifiable loss and themselves against loss of their privileges to register or operate a motor vehicle.

"In order to accomplish this purpose, we have enlisted the cooperation of the newspapers, radio stations, gasoline distributors and gasoline stations of the state. Beginning this week and continuing throughout the month of September, we shall conduct an informational program that is unusual prior to the enforcement of a new statute but necessary in view of the effect the Safety Responsibility Law can have upon so many people."

"Through the press, at frequent intervals, we shall explain important features of the law in the news columns. The radio stations have agreed to convey similar information through short but informative spot announcements. And through the gasoline stations we shall distribute a small official leaflet which will explain briefly all of the major facts that motorists particularly should know before they begin to operate under the new law on October 1."

Lucero urged that motor vehicle owners and operators ask at gasoline stations for a copy of the free official leaflet.

"If your station does not happen to have one, write to the Division of Motor Vehicles in Santa Fe and it will be mailed to you," he said. Lucero added, "the new law even applies if you are involved in an accident in certain other states, and to motorists from other states having such a law if they have an accident in New Mexico."

Gem and Mineral Show at State Fair

Albuquerque (Special)—After ten years as a non-competitive exhibitor at New Mexico State Fairs, the Albuquerque Gem and Mineral club, under the leadership of Dean Wise, president, will come into its own when the 1955 Fair opens September 24 through October 2. This organization of nearly 200 rockhounds plus "pebblepups" will sponsor a competitive show featuring collections, lapidary work and metalcraft. In cooperation with the Albuquerque Rockhounds, the club plans a show that will attract even more visitors than last year.

Among the dozen categories to be judged are those for single crystals, crystal groups, cabinet specimens, thumbnail specimens, cabochons, polished slabs, faceted stones, jewelry and two listings for junior members under high school age.

Entries are limited to residents of New Mexico. The Hobby Department will be open to receive exhibits between 9 a.m., September 20, and 8 p.m., September 21.

BOARD TO EXAMINE AGGIE MAN'S PAY

SANTA FE, Aug. 31 — Gov. John Simms said this week that he was confident the state board of finance would look into the situation in which Roger Corbett, the new president of A&M College, drew \$6750 in salary before reporting for work.

The governor expressed no opinion in the case, confining his statement to noting that the board had manifested interest in the remuneration of college presidents and that he was sure the members would be also interested in the circumstances of the A&M case.

Corbett was employed to take over July 1 and his salary was authorized at \$1500 a month to begin April 1, an early start to enable him to acquaint himself with the institution and its operation. He finally went to work August 15. Contributing to the delayed start was illness this summer which necessitated two operations. President Branson of Aggies continued at his post at \$1000 a month until Corbett took over.

PEN TELEVISION AND REPUBLICANS

Among items contributing to the \$2-million jump in the cost of the new \$3 million state prison was a recently conceived scheme to wire the pen for future television service for the prisoners. It cost \$4900 . . . Governor Simms and his man Dick Everett work most every Sunday at the governor's office. It's the best day, they say, to get anything done. That probably won't be true any longer now that it's out that they may be cornered at the capitol on the Sabbath.

Some prominent Gallup Democrats are privately plugging for their neighbor, Indian Commissioner Glen Emmons, for Republican nomination for governor next year . . . Alva Simpson, the former welfare director and now president of a uranium company, has had offers of support for the nomination from leaders in the group that backed Alvin Stockton in his futile run last year . . . Ed Hartman, the comptroller under the Republicans, also sounded like a candidate when he got out that proposal on meeting the welfare problem. He wanted to run last year . . . Carter Wald of the Belen News Bulletin is taking over publication of the Torrance County News. It will be handled from his Belen office.

DISGUISED COPS FACE A FEEL

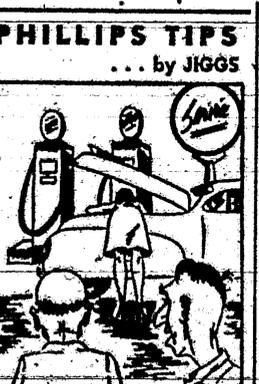

Use of unmarked police cars in the traffic crack-down involve peril to the officers using them. A citizen has written a state attorney: "What would you do if you were driving on a lonely road at night with your family and were forced to stop by a passenger car with a Montana license? Wouldn't you be within your rights if you drew a pistol and protected your property and family?" The attorney admitted that he probably would.

HIGHWAY HELP SHAKING AGAIN

The help in the highway department has a NEW LINE of the shakes after last week's meeting of the commission that saw Materials Engineer Chick Johnson and his assistant, Hardy Swayze, abruptly fired for their accusations against Operations Engineer Ira Miller, the No. 2 man in the department.

dar of Santa Fe; Democrats who had qualified support of Republican Gid Hatfield of Deming. The results of the August meeting gave a new look to the department. It indicated that the controlling majority is through with compromise and arguing and is taking control with a hard hand; that Miller, the operation engineer, is the dominant figure in the department and Larry Wilson, the "chief engineer," merely the holder of the title; that Commissioner Ralph Jones, Albuquerque Republican, has been banished from influence, and Chairman Tony Helmann, Mosquero Democrat, is left dangling outside the majority.

Best hope for moderation in the new control is Hatfield who is as conservative as McKinley is impulsive. Hatfield holds the vote that gives the group control and is by no means committed to go along on everything the other two propose.

Overlooked in the excitement of last week was a directive to the chief engineer to prepare a report on the condition of department equipment which is expected to lead to big-scale purchases of road machinery. That is likely to be the subject of the next hassle.

PICKETT FEARS LAST HOUR SLAM

Comptroller Commissioner Ingram Pickett is fearful that his campaign against the utilities amendment, No. 6, will be slapped with an adverse attorney general's ruling at the last hour. Pickett has been arguing, with some substance, that the use of the word "selected" in the amendment means that the commissioners of the future could not be "elected." He cites

a theory of law which holds that designation of one method, excludes all others, and that commissioners of the future would be "selected" rather than "elected." Attorney General Dick Robinson says he hasn't been asked to rule on the question and plans to say nothing about it. However if he should get a late request he would be obliged to state his opinion; and it is known that the thinking in his staff is "stay to Pickett's opinion. It looks like all amendments might be beaten unless there is a surge of support for them in the remaining three weeks."

YARN ABOUT SIMMS PROVOKES COMMENT

That piece in the Albuquerque Journal the other day about reports from Socorro and Dona Ana that Governor Simms is planning to surrender the office and run for Congress next year was unfounded and illogical but it has certainly provoked a lot of comment and speculation.

"DO - IT - YOURSELF" is a healthy vogue. More power to resourceful Americans! Just one caution: When it comes to SPECIALIZED work on your HOUSE, have a care. You've a big investment in your home. SMUGGLERS TRAIL

About 50 years ago the community of Rodey, seven miles southeast of Hatch, was known as the first supply point in the United States for smugglers and outlaws traveling by Smugglers Trail.

Pete Pender, Hatch area resident for about 40 years, has heard the story from older old-timers than himself. As Pender recalls, Rodey still was used as a supply and stopover point until about 1930.

Up this trail, which entered the United States at Smugglers Gap in the Las Cruces area, smugglers brought many Chinese whose destination was San Francisco and other West Coast points. Lesser numbers of Greeks also came this way, so the story goes. And north and south on the trail smugglers and outlaws ran stolen horses.

The trail was said to have run from Mexico to Canada. At Rodey the trail crossed the Rio Grande near the Santa Fe Railway and went up Johnson Canyon. The trail also passed through Apache Canyon, a draw that comes in from the east near Caballo Dam, on the way to Las Palomas, another reported supply point. (Las Palomas is seven miles south of Truth or Consequences.)

In the Albuquerque area the trail came in on the east side of the Rio Grande, near Isleta. The Chinese, so the story goes, were brought into Albuquerque and from there eventually were smuggled to the West Coast.

Of necessity, the trail followed a route along which there were springs.

If you have a good eye for dim trails, you can still drive over Smugglers Trail in a jeep from Rodey to Apache Canyon, Pender says.

Comet Chapter Has

First Fall Meeting

Comet Chapter Order of the Eastern Star held its first fall meeting Thursday night, Sept. 1, at the Masonic Temple. Mrs. Leona Brown, worthy matron, and Jack Shaw, worthy patron, presided.

Mrs. Ruby Yarbrough and her daughter, Miss Annetta Yarbrough, both of Capitlan, were initiated into the Order.

Mrs. Zoe Glassmire, Lawrence, Kansas, a past matron of Comet Chapter was a special guest. She was presented with a small remembrance of her visit by the worthy matron.

The Chapter was also most happy to have W. C. Hendren and Mrs. Mattie Kelley present.

Mrs. Jeannette Lemon read a most interesting paper on Dr. Rob Morris, founder of the Order of the Eastern Star, whose birthday was August 31. She also read his famous poem, "The Level and the Square."

Beautiful flowers for the initiatory ceremony and the dining room tables were furnished by Mrs. Fronie Ramey, Frances Shaw and Gene Parker.

Refreshments of cake and coffee were served following the meeting by Mrs. Ramey, Shaw and Gene Parker.

At the October meeting past matrons and past patrons will be honored and the 45th anniversary of the Chapter will be observed.

The following items are from the Folklore Archives of New Mexico Highlands University, Las Vegas.

THE DEVIL AT THE DANCE

My mother told me that this story happened in Santa Fe. People were going to a certain dance hall every night. Finally, one night a real good-looking man went into the hall and took out a real pretty girl to dance; when they were dancing an old lady noticed his feet and they were like rooster's legs. She made the sign of the Cross and terrible noises were heard. The man disappeared, the dance hall moved from the place and the hall was deserted. (M. Trujillo)

News from the EPNG Compressor Station

The Fred Whitmyres had an enjoyable Labor Day week end. They took his nephew to Lubbock, and met his brother and wife, Mr. and Mrs. Ralph Whitmyre, who had come to Lubbock, also, from Dallas, to get Ricky. Ricky has been visiting the Fred Whitmyres for three weeks while his dad was looking for a laboratory-technician job, which he found near Corpus Christi, Texas.

Mrs. Fred Whitmyre brought her cousin's child home with them — Barbara Morehead, to keep indefinitely. Barbara is almost 5 years old.

C. L. DeLoe's brother and wife, Mr. and Mrs. Frank DeLoe, of Wichita Falls, Texas, have been here for a visit.

Champ Turner Jr. is here this week after working in Farmington all summer.

FRIJOLES

4 red chili pods
2 tablespoons of lard

1 cup of split beans
1 head garlic

The bean shell and the pods of pepper may be omitted, if less elegant frijoles are desired. But you are advised to try both ways of preparing them. Pick over carefully, including whole beans. Wash them and soak in cold water overnight. In the morning drain and wring with boiling water, add ham shank and chili pods. Boil until beans are tender. When tender drain water off into a basin and keep hot. To the drained beans, add the lard, stirring hard till the lard melts and incidentally crumbling but not soaking the beans; add salt and pour water back into the beans. Boil at least 15 minutes after this treatment.

NOTE: Peppers and meat may be omitted but not the lard!

What a pleasure it was to be driving home from the store late Saturday afternoon as the last load of highway was put on Highway 37 to complete the paving project. To say it was a joy to drive from Ruidoso to the top of Peters Hill on a paved road, is expressing it mildly. After driving over that dirt road for years the new pavement is a dream come true. There are still several things to be done before the highway is fully completed but right now it is mighty fine for those of us who live on it.

Taxpayers' Ass'n Urges Support of Four Amendments

On September 20, 1955, an election will be held to vote on six constitutional amendments proposed by the Twenty-second Legislature to modernize the Constitution. Four of these amendments are of particular interest to members of the Taxpayers Association, because it is believed that their adoption will facilitate better public administration in the State. Number 1 has to do with legislative reapportionment; Number 2 provides for absentee voting, and both are outside the range of the Association's activities.

AMENDMENT No. 1

The Constitution was amended in 1949 to provide that the State Highway Commission was to consist of five members, appointed from five designated highway districts, for overlapping terms of six years. The Governor cannot remove the Commissioners, except for "in-

competence, neglect of duty, or malfeasance in office," and a hearing must be held before the Supreme Court.

The 1949 amendment also provides that the Commission, "shall have complete charge of all matters pertaining to the expenditure of State funds for the construction, improvement and maintenance of the public roads and bridges."

This provision completely removed the highway department from any fiscal or budgetary control by the elected representatives of the people.

The feeling was prevalent in 1949 that New Mexico's road program had suffered from political meddling and in the heat of the reaction the proposed amendment was more stringent than even its sponsors realized. The amendment gave control of \$28 million a year to five men that were completely independent of the usual fiscal controls placed in the elected Legislature and Governor.

The proposed amendment seeks to impose upon the department the same requirements as to budgeting and accounting that other departments observe, by providing that the department shall have charge of expenditures of highway funds, "subject to such regulations as may hereafter be provided by law."

The proposed amendment also deletes the following sentence from the Constitution: "It shall have charge of all matters pertaining to highway employees." This deletion was made so that if the Legislature ever provided for a State Merit System, it could be extended to cover the highway department.

The Department will still be independent in matters of policy "relating to the design, construction, location and maintenance of State highways," and the Commissioners are protected from political intimidation and capricious removal.

Favorable consideration of the amendment is recommended as a matter of good public administration.

AMENDMENTS No. 4 AND 5

At the present time the Constitution provides that the "penitentiary at Santa Fe, the Miners' Hospital of New Mexico at Raton, the New Mexico Insane Asylum at Las Vegas, and the New Mexico Reform School at Springer," shall each be under the control of a five member board. The boards to be appointed for terms of four years by the Governor, with the consent of the Senate.

The proposed Constitutional Amendments 4 and 5 delete re-

ferences to the governing boards and simply provide that:

"Each of said institutions shall be under such control and management as may be provided by law."

These amendments are in line with recommendations of the "Little Hoover Committee," which reported that the independent status of various institutions led to confusion as to responsibilities, overlapping and lack of integration of functions.

This proposed change in the Constitution is necessary to permit reorganization of health, penal and correctional functions of the State, as deemed necessary by the Legislature to promote more efficient operation.

Amendments 4 and 5 are identical except that five changes the names of some of the institutions. They are not in conflict, either one, or both, can be passed without affecting the other.

Corona Ground Observer Corps

The Corona Volunteer Fire Department recently agreed to sponsor a Ground Observer Corps Post at Corona. What progress has been made? Who or how many have volunteered as Plane Spotters?

Phillip Wilson, Corona's Post Supervisor, a native of Ohio, says he has seen the Ground Observer Corps at work in his home state.

New Mexico is one of the last States to organize a Defense Filter Center. Throughout New Mexico approximately 10,000 people will be needed to operate the proposed 200 observation posts.

How can you help defend America as a member of the ground observer corps? What is the Ground Observer Corps?

The ground observer corps is the civilian component of the U. S. Air Force. Its function is to help the Air Force in its vast and complex job of guarding against surprise air attack—and thus help discourage such attack. Why does the Air Force need me? Responsible government officials, both military and civilian, have pointed out a serious weakness in our air defense system. There is only one way to correct this weakness now.

STATE GAME DEPARTMENT

HUNTING AREA ENLARGED

An additional area on White Sands Proving Ground will be open this year to 1000 hunters for deer of either sex in a three-day special season, October 15 through 17. This is the Ocuero Mountains area north of Mockingbird Gap. Boundaries and location of check stations will be published shortly.

Campsites will be available within the area, and hunters will be admitted from noon, October 14, when the check stations open. Licenses must be validated at the check stations, with special military stamp.

Applications are available now from license vendors. They must be returned to the Santa Fe office of the Department of Game and Fish by September

19, 10 a.m. If there are more applications than available licenses, public drawings will be held. The \$2 tag fee, to be enclosed in the application envelope, will be returned to unsuccessful applicants.

Other areas of White Sands Proving Ground have been opened during the past three regular hunting seasons, and will be again be open, with necessary security limitations. The Ocuero Mountains area, open this year for the first time in several years, will be limited only by the military mission and hunter-safety considerations.

The cooperation of White Sands Proving Ground military authorities is greatly appreciated by the Department, since prime hunting country is involved.

AIN'T SCIENCE WONDERFUL!

Six mallard duck eggs were hatched out in three days under an electric light, after having been found in Los Alamos by a

local resident. The ducklings were then turned by the Department of Game and Fish to members of the Los Alamos Game Patrol. When last seen they were finding their way about Ashley Pond without benefit of a mother's swimming instructions.

STORY ON THE UPPER PECOS

"The Upper Pecos" is the title of a very pleasant article, beautifully illustrated, in the August issue of FORD TIMES. Mention of the fish hatchery (Lisboa Springs) is welcome publicity for the Department of Game and Fish.

Unfortunately, the author was slightly misinformed about the fish. The hatchery does not raise pan fish, and it does not raise steelhead trout, which is a variety of rainbow. The New Mexico cutthroat trout was left out of the article altogether, although it is present in the Pecos and is in fact the official fish of New Mexico.

The Department is always glad to supply writers with correct information on game and fish in New Mexico. An inquiry at headquarters is all it takes to get the facts straight.

Stockmen Recommend Revising Mining Laws

Senator Clinton P. Anderson will appear as the principal speaker at the Third Quarterly meeting of the New Mexico Cattle Growers' Association in Raton, September 8 and 9 which is expected to attract some six hundred ranchers from throughout the state. "We have invited Senator Anderson to review current legislation now pending in Congress which is of vital interest to the land and livestock industry of New Mexico," said Sherwood Culbertson, Lordsburg, president.

Others on the program include: W. C. Crew, president, Denver Union Stockyards Co.; F. E. Mollin, executive secretary, American National Cattlemen's Association, Denver; Leon H. Harms, manager, New Mexico State Fair; Wesley Izzard, publisher, Amarillo Daily News; R. H. Burghart, president, Colorado Cattlemen's Association, Colorado Springs and Arthur Noble, district attorney at Taos.

"While we are opposed to a special session of the New Mexico State Legislature because of the high cost involved and the apparent ability of the State to handle the current welfare crisis with current funds available," Culbertson said if a special session is called the association would consider recommending that current state mining laws be changed.

"Public and state lands which the livestock industry has spent the past twenty years rehabilitating by proper conservation measures and controlled grazing are now being ripped open and destroyed by prospectors and mining claims which require the drilling of ten-foot shafts on mining locations," Culbertson said. "We believe it is possible to adopt state legislation which would prevent this destruction of surface lands now being caused by the hundreds of uranium seekers."

Other state problems which will receive attention of the association during the Raton meeting involve the "Big Truck" controversy. "Our traffic and transportation committee has been studying this problem for the past several months," Culbertson said. Proposed constitutional amendments will also be considered.

primary. Approval of the amendment would bar him from running without resigning his six-year term on the commission. And Chavez' punch at the big truck law was about as personal as possible without calling names. Slimms publicly supported the legislation and is in the truck business himself. Chavez said that he would act in Congress to knock out the higher weight limits authorized by the last legislature by withholding federal road money unless the limits are reduced.

SEAT CHAICON ADDED TO AG HOPEFULS

Senator Chavez' suggestion that Rep. Mat Chacon, president of the state organization of Young Democrats and majority floor leader in the house, as a candidate for attorney general adds another to the growing list of aspirants for that job.

Also eyeing the Democratic nomination for the job that Dick Robinson will be vacating are Frank Zinn of Santa Fe, former assistant AG and son of the former supreme court justice who lost the nomination in 1952 by 164 votes; Peter Gallagher of Albuquerque who is already running; Fred Standley of Clovis, the chief assistant under Robinson; John Joe Wilkinson of Portales, the acting state Democratic chairman and favorite of some of the administration leaders for the job. A couple of others in the less eager classification are Rep. Mack Easley of Hobbs and District Attorney Tom Foy of Bayard.

COLD WATER FALLS ON CONGRESS RACE

The announcement by Rep. John J. Dempsey that he would be a candidate for reelection to Congress and statements by friends of Rep. Tony Fernandez that he would also go again have watered down the prospects for a big scramble for those \$22,000-a-year jobs.

There had been speculation that one or both of the veteran congressmen would quit. Dempsey had told privately that he was considering retirement after the present term and Fernandez said it publicly at a political gathering in Albuquerque last winter. (That was before the congressmen raised their pay 50 per cent this year.)

The anticipated vacancy had attracted State Sen. Calvin Horn of Albuquerque into the field, had tempted State Sen. Jose Richardson of Dona Ana, and lots of others.

Now with both representatives running for sure the only opposer they seem to have for sure at this time is Attorney General Dick Robinson. He hasn't made a public declaration but he has

The bride-elect's sister, Gay, registered the guests. The honoree received many lovely gifts. Mrs. Helen Nowell of Carrizozo, mother of the groom-elect was among the guests present.

ACHIEVEMENT DAY

A contest that drew a good deal of attention at Achievement Day was a grass guessing exhibit by Soil Conservationist S. H. Fuchs. Twenty-two varieties of range grasses were on display and fair visitors were asked to see how many they could identify. Of the adults who looked over the grasses, three made perfect guesses. They were Fred Pflingsten, LaMorne Peters and Ed Gook. Among the junior guessers, Penny McKnight and Walter Jones tied for first place, with young McKnight winning the tie-breaker.

The anticipated vacancy had attracted State Sen. Calvin Horn of Albuquerque into the field, had tempted State Sen. Jose Richardson of Dona Ana, and lots of others.

Now with both representatives running for sure the only opposer they seem to have for sure at this time is Attorney General Dick Robinson. He hasn't made a public declaration but he has

been publicly campaigning. A dark-horse possibility to challenge the old-timers is Lt. Gov. Joe Montoya. Congress has been his ambition since he came up to the legislature in 1937 a youngster a few days short of 21 years of age and in that time he has developed a remarkably effective political ability.

THANKS TO ALL -

I wish to thank our friends and customers in Lincoln County for their courtesy and cooperation during the years of my connection with the Keith Gas Company. I am sure that Mr. Heald will have the same pleasant association.
