Walter Hubbard, manager of New Mexico Boys' Ranch, was a guest speaker at the October meeting of the Carrizozo Woman's club last Friday afternoon. He gave an interesting and enlightening talk about the activities at the Ranch.

Speaker Describes N. M. Boys' Ranch Mr. Hubbard said the Boys' Ranch is situated at La Joya on the east bank of the Rio Grande in Northern Socorro County, 17 miles south of Belen. The ranch is comprised of approximately 800 acres of irrigable land and 2000 acres of range land.

Speaker Describes N. M. Boys' Ranch Mr. Hubbard went on to say that in this physical setup the boys are trained in ranching, farm work and other vocational fields to develop individual aptitudes and talents.

Speaker Describes N. M. Boys' Ranch Mr. Hubbard stressed the fact that New Mexico Boys' Ranch is badly in need of funds to carry on this fine work and pointed out that the citizens of New Mexico should first make donations to their own Boys' Ranch before contributing to institutions in other states.

"A MISUNDERSTANDING that could have been avoided" is the theme of this true story. One morning, a lady we know entered a store where she had long been a good customer, a bill from the store in her hand. "I've already paid this bill once," she told a clerk, with obvious annoyance. The clerk took her message and the bill to the store manager, who consulted his books. "We have no record of payment," said the manager at last. "Perhaps the lady has a receipt . . . ?" She hadn't. Politely but firm-

ly, customer and manager each insisted that the other must be mistaken. Neither, though, had clear-cut proof. It became increasingly apparent that however the matter was finally settled someone would not be completely satisfied. An unfortunate situation—that need never arise, had the lady been in the habit of paying all her bills with checks. Then, if she had paid the bill, as she believed, she would have had a receipt—her cancelled check.

Bob Boling Given "Chuck Box Shower"

Bob Boling, telephone manager, was called from his home Thursday. He went over to the phone office expecting to find trouble somewhere along the line. Instead, he was pleasantly surprised with a "chuck box shower," given by 13 employees of the Carrizozo exchange.

Bob, an ardent sportsman, had just received a "30"x36"x16" chuck-box, made by Cab-Callo-way. When he opened it at the party it was filled with pots, pans, dishes and other gear necessary for camp cooking. On top was a cake decorated with the words, "Happy-Hunting."

Bob has a membership in the Cimarron Rifle & Pistol Club, a 150-member sportsman's organization. The club has as its hunting grounds 550,000 acres in Colfax County. During the hunting season members set up camps in various parts of the range. Four or five members patrol the grounds during the hunting season. Deer and wild turkeys are plentiful and the sportsmen rarely go home empty-handed.

The successful farmer is the one who puts the plan in planting.

New Book Describes Oklahoma Territory

"SIX-GUN AND SILVER STAR" By Glenn Shirley. University of New Mexico Press, Albuquerque, 1955. \$4.50. By Bennett Foster, well-known novelist and "Saturday Evening Post" writer.

"Six-Gun and Silver Star" is the story of early-day law enforcement in Oklahoma Territory. Beginning at the time President Cleveland signed the bill opening the land to settlement, Glenn Shirley clearly depicts conditions as they were, telling what happened and why it happened.

The name of famous outlaws stud the tale as do those of the equally famous men who tracked them down, caught them, jailed them, or killed them. The Daitons, the Doolin gang, the Casays, the Jennings, the Wyatt and Black outlaws, are all present and so are U. S. Marshal Evert Dumas Nix and his men, Frank Canton, Charles Colcord, Steve Burke, Jim Masterson, and the famous "Three Guardsmen," Bill Tilghman, Chris Madsen and Heck Thomas.

Mr. Shirley uses admirable restraint in telling a story that would readily lend itself to the wildest sort of "dime novel" treatment and has searched through much source material, winnowing the wheat from the chaff. As an historian—and he is a good one—he must have been tempted often to stray from his theme, but he sticks to it and develops it in entirety. Also, he does what many historians fail to accomplish: his characters emerge as real people who think and act in a manner readily understandable to the reader.

"Six-Gun and Silver Star" was preceded by "Toughest of Them All," another book by Mr. Shirley. It is to be hoped that the author will continue to explore the rich field of Oklahoma history and that other books will follow.

Both books belong on the shelf of any Southwestern library.

Belligerent nations were paying from \$167 to \$200 each and there were not enough horses to meet the demand.

The New Mexico Educational Association was to meet in Albuquerque the first three days of Thanksgiving week.

"Uncle" Tom Henley of Nogal was visiting in Carrizozo for a couple of days.

Operation was under way at the Willow Springs coal mine owned by Mrs. Harriet McIvers.

Don H. Bigler, editor of the Capitan Mountaineer, was a business visitor in Carrizozo.

John H. Phillips was in from his ranch at the Cottonwoods. He returned with a load of metal roofing for his residence being built of adobe.

W. L. Gumm was packing and shipping apples from his Hondo ranch.

School Draws Line On Married Students

The Carrizozo School Board, at its regular monthly meeting last Thursday night, voted unanimously to bar married students, other than Veterans, from continuing their studies in the public schools.

Consultation with Mr. Watson and Mr. Firman convinced the board that this measure, although perhaps occasionally causing a hardship, would be in the interest of the school as a whole.

Mr. Firman also reported on a number of cases of vandalism that have been appearing on school property, particularly the playground and in the vicinity of the elementary school.

Police authorities are looking for the culprits and to prevent any more damage.

The Board also consulted with Mr. Watson and Mr. Devitt as to the advisability of the present exemption system of the high school and junior high school. They reported that it has been highly successful in its main objective, that of keeping up attendance, while not harming scholarship.

More Donations for School Lunches

Mr. and Mrs. Bryce Duggar have donated a beef to the school lunch program. This will be delivered the week of November 1. Truman Spencer Jr. has also earmarked a beef for the same purpose. These gifts have made possible an adequate lunch program for the pupils.

Residents Bought \$1,556 Bonds in Sept.

Residents of Lincoln County invested \$1,556.25 in Series E and H, U. S. Savings Bonds during September, according to reports received by S. E. Greisen, County Bond Chairman.

The Chairman has been informed by the State Office that, toward a quota of \$16,000 for the year, the County is credited with \$98,065.25, or 81% in the first 75% of the year.

HOMES ALONG THE BONITO

When Mrs. Maggie Esby and her brother, Elbert Brown, of Carrizozo, were young they lived in a two-story, double-log house on a farm near Bonito City. The farmers' houses along Bonito Creek were built of hewn logs, and the double-log was fairly common.

Timber was readily available along the creek and that may have accounted for the double-log style. It was so called because the front and back parts of the house were connected by a roofed areaway, which was a cool place to sit in the summer. The back part of their home was used for bedrooms. The house was well heated in winter, for it had a big fireplace in the living room, a wood range in the kitchen, and a little heater in one bedroom upstairs.

The inside walls of the Brown house were covered with canvas. Walls of some of the other houses along the Bonito were left plain.

The Brown's parents moved into the house in 1896. At that time there were 40 and 50-acre farms up and down the Bonito, irrigated by ditches the farmers dug. All the farmers made their own living, and raised large families, Brown said.

Bonito City, now covered by Bonito Dam, was just a road with buildings on both sides in

1896, as Brown remembers. He was six years old then.

On the north side of the road lived the Pfingsten family; Joe Beckman; a German prospector, Consbrock who had a horse named Bismarck; a Mr. Hubber who ran the store and postoffice; and the Mayberry family. On the south side were the Martin May home and the schoolhouse. The buildings were log and lumber.

Although the community had no church or regular minister, religion was very much a part of its life. Circuit-riding preachers conducted services in the schoolhouse, and when camp meetings were held they lasted for a week. Religious services sometimes were held in homes when there was neither a visiting circuit rider nor a camp meeting.

Despite the fact that one of the most atrocious crimes in New Mexico was committed in Bonito City—the murder of the Mayberry family by a boarder—the town was never a wild frontier community. There wasn't a saloon in town. Intoxication was frowned upon, and drinking at the fish fries and July 4 picnics along the Bonito wasn't tolerated.

Names on the Bonito

Late in the 1890s there were farmers on the Bonito named Hunter, Ketchum, Skimmer, Hyde and Tanner, Elbert Brown re-

Pvt. Joseph Herrera to Take Part in Exercise

Fort Hood—Pvt. Joseph Herrera, son of Mrs. Aurora G. Herrera of Carrizozo is scheduled to participate in Exercise Sage Brush, the largest joint Army-Air Force maneuver since World War II.

The two-month exercise will be held in Louisiana starting in November. Some 110,000 Army troops will take part, testing the latest concept of atomic, bacteriological, chemical and electronic warfare.

Private Herrera, an ammunition supply handler with the 85th Ordnance Battalion's 575th Ordnance Company, is regularly stationed at Fort Hood, Texas. He entered the Army in February of this year and completed basic training at Fort Carson, Colorado.

Herrera is a former employe of Roswell Grain Company.

Freezing Advised To Preserve Cakes

Don't blame the freezer if your favorite cake goes bad after a short period in the deep freezer. Although freezing is recommended as a convenient way to preserve cakes, which are among the most perishable of baked products, freezing experts recommend that cake recipes be used which are especially developed for freezing.

Oregon State College experimenters found that the kind of fat used affects flavor, moisture and freshness of cakes baked or frozen. Frozen chocolate cakes containing some butter are superior to those made with lard or vegetable shortening alone. Most satisfactory was a combination of butter-vegetable shortening.

Baked cakes may be frozen in aluminum or paper baking pans then closely wrapped with moisture-vapor-proof wrapping or aluminum foil or they may be removed from pans and wrapped. So that it won't be crushed in the freezer, the cake may be put in a box. For tighter wrapping, the cake can be removed from pan and put on flat metal surface. Then put the cake and pan into a plastic freezer bag or box to freeze. The frozen cake can be tightly wrapped in aluminum foil or other vapor-moisture-proof wrap. Store at 0°F.

Tests showed that chocolate should not be stored longer than four months at zero degrees F.
