The second annual exhibition of work by Lincoln County artists at the Old Lincoln County Courthouse was well attended on opening day Sunday. The exhibits are on display in the old courtroom and connecting hallway and will be there for viewing through November 27. Fourteen county artists are taking part in the showing this year and Lincoln County is very proud of both the quantity and quality of their work. Mr. and Mrs. John Boylan are to be commended for their time and effort in making arrangements for the exhibits.

The Carrizozo Lions Club, running true to form, is looking around for ways to reinvest its extra cash in the community. The Club, through the cooperation of the public, raised considerable money at its Chuckwagon Supper this fall. At a board of directors meeting Tuesday noon in the Yucca Grill, several projects were discussed and action was taken on one—the annual Christmas party for the kiddies. The party will be held this year at 2 P.M., Thursday, December 22. Eight hundred gift bags were filled by the Lions last year and distributed by Santa Claus at the outdoor party. The same number will be provided this year. The Lions at their last meeting voted to contribute at least \$100 toward the purchase of window drapes for the high school auditorium.

The Club will make some money on a deer rifle that is to be given away November 16. The gun is a 30.06 semi-automatic Remington and is a beauty. It is on display at the Yucca bar. By the way, is there a little deer waiting for you up in the hills? The next several days will tell the story... News-hawk said he heard a good one the other day about a fellow in Texas who told a friend he was going to get married again. "Why, you can't do that!" his friend said, "You're already married." "Not me," was the reply: "I got the kind of license that expires in two years." (Question: What kind of a license did he get—hunting or fishing?)

The three hens found in the schoolhouse this morning of Halloween belonged to none other than Clyde Smith. Those slick chicks don't know it, but they had a narrow escape down at the sheriff's office. They would have tasted no good with tender dumplings... The following was not a Halloween prank. When Sheriff Bradley was returning to Carrizozo late Tuesday night from Hondo he received a report over the car radio that a motorist arrived in Truth or Consequences minus the jeep he had been towing. He reported it was lost "somewhere between Carrizozo and T or C." The next morning Sheriff Bradley was notified the jeep had been located, a mile north of T or C.

Looks like Santa Claus and his workers have been putting in long hours getting ready for Christmas. One window at the Carrizozo Hardware is filled with toys to gladden the heart of any youngster. A hunter's display in another window might give Dad some ideas about taking Friday off to try his luck... All three of Carrizozo's Hardware stores will be open all day Friday, but will be closed all day Saturday... Rain or shine, daylight and dark, the U. S. mail service must go on. When the power was off around dusk Wednesday, Roy Harman could be dimly seen sorting the mail by candlelight... By the way, Christmas is only a little over a month away. There is a large poster on display under the postoffice bulletin board reminding us to "Shop and Mail Early." That will make it possible for our postal service to deliver the gifts we mail our loved ones in time to reach them by Christmas day. Postmaster Kelt urges everyone to mail packages early and wrap them carefully so that they can be delivered in good condition.

Editor, News: As we have been old timers of Lincoln County we still enjoy news from there. However, we only get parts of what goes on within that Land of Enchantment through correspondence. In North Dakota the crops usually yield better than in New Mexico due to higher percentage in rainfall. But the State of New Mexico is hard to beat for a good all-year climate. We still love it. So please send us a year's subscription to L. P. Hall, Trotter, North Dakota.

Gov. John F. Simms has proclaimed November 1 to December 15 as the dates for a statewide Meat Poster Contest, sponsored by the New Mexico Farm and Livestock Bureau. Shown with him are Mrs. Linda Lambert of Mesquite, chairman of the Farm Bureau's Meat Promotion Committee. The contest is open to all New Mexico school children from the first through the twelfth grades.

Top Prize in Meat Contest Will Be A&M Scholarship

A \$200 scholarship to New Mexico A&M College will be given to the New Mexico school boy or girl who develops the winning poster in the state Meat Promotion Contest in November and December. Mrs. Linda Lambert, Mesquite, state chairman, has announced. Objectives of the poster contest are threefold: to promote the consumption of meat (beef, pork, lamb and veal) among children and teenagers; to inform more people about the nutritional value of meat in the diet; and to improve the appreciation of the economic value of the meat industry in New Mexico. Mrs. Lambert said.

New Mexico school teachers will provide students with entry blanks, instructions, and other contest material. Only junior and high school winners will be eligible to compete for the state scholarship award.

Prize-winning contestants in each school will receive one meat meal of their choice for the entire family.

First-prize winners in each school room or grade will receive blue ribbons.

Teachers of each first-prize winner in each school will receive a meat meal of their choice for the entire family.

All first, second, and third place posters will be displayed in the stores January 1.

The contest, which launches the meat promotion program in New Mexico, will run from November 1 to December 15, 1955, Mrs. Lambert stated.

Man to Face Judge for Failure to Pay Fine

Fredrico Jaramillo was picked up in Albuquerque Monday by Sheriff Wm. Glen Bradley and returned to Carrizozo. A bench warrant was issued for Jaramillo's arrest to answer a complaint charging failure to pay court costs of \$500.

He was convicted in district court in Carrizozo in July for larceny of a sheep, placed on three years' probation and ordered to pay \$50 a month on the above fine. Jaramillo failed to make a payment.

He will appear before Judge W. T. Scoggin in District Court in Alamogordo this Thursday.

New Hondo Gym To Be Dedicated on Thursday, Nov. 17

The people of the entire area are cordially invited to attend the dedication ceremonies at the new Hondo Valley gymnasium November 17 at 7 P.M.

Under the guidance and leadership of Superintendent Fernin S. Montes, Principal John A. Hamilton, and board members Frank Titworth, Mrs. A. N. Kimbrell, Orlando Lucero, John Cooper and Sergio Montes, one of the finest of schools and gymnasiums in the entire area has been constructed.

Special invitations to attend have been sent to Kern Smith, of Carlsbad, architect; R. D. Erhard of Clovis, contractor; State Superintendent of Education, Georgia Lusk and O. J. Holder, educational budget auditor.

Replacing the usual guest speaker, three people who have been at some time closely connected with the Hondo Valley Schools have been invited to speak briefly at the dedication ceremonies.

They are J. W. Wilferth, first superintendent of the Hondo School, who served during the early twenties when the high school consisted only of the fifth grade, and Mrs. Azella T. Insaal and Mrs. Wilbur Coe, both former school superintendents.

All former board members and teachers who have served at any time in any of the Hondo, San Patricio, Arabela, Tinnie, and Pecos districts are extended a special invitation to be present at the ceremonies.

After the dedication, each teacher and other employees will be in their respective rooms to greet the patrons and friends as they look over the building. Refreshments will be furnished by the PTA and served by the cafeteria personnel.

During the dedication program, the Hondo School Band will furnish the music.

New Mexico Fleeces Rate at Wool Shows

Five Lincoln County fleeces were among the ten New Mexico fleeces exhibited in wool shows at the American Royal Livestock Exposition, Kansas City, Mo., and the Pacific International Livestock Exposition, Portland, Ore., recently. They have received high placings. Ivan Watson, extension animal husbandman at New Mexico A&M College announces.

A fine wool ewe fleece shown by T. J. Sutherland, Ruidoso rancher, was named grand champion of the American Royal Livestock Exposition Show. Fleeces entered in Territory Classes of the same show by six other New Mexico wool producers placed as follows:

Fine wool: A. D. Jones Estate, Tatum, second place; Flying H Ranch, third place.

One-half blood class: J. F. Sutherland Estate, Roswell, first place; Slaughter Ranch, Pecos, second place.

Three-eighths blood class: J. F. McKnight, Pecos, first.

Breed class: New Mexico A&M College, second in Corralito.

Three fleeces entered in the Portland International Livestock Exposition placed as follows:

Fine wool: J. E. Coats, Roswell, second place; J. E. Skeen, Pecos, fifth place.

Three-eighths blood class: Taylor-Holman Ranch, Maljamar, third place.

All fleeces entered in the Portland Show — breed, range, and farm fleeces — competed by grade classes, Watson said.

Fruit Packing Ended At the Hondo Shed

Fruit packing and shipping from the White Mountain Fruit-growers' plant in Hondo, has ended for the year and H. E. Baxter, operator, has returned to his home and business interests in Tampa, Fla., and Greenville, North Carolina.

Approximately 28,000 bushels of apples were shipped by the Association this year, slightly less than the pack last year. The quality was not quite as good due to the number of hail gulls. However, worm damage was less than last year because of a good spraying program by the growers.

Prices received by the growers were about the same as in 1954. The \$6.50 market held up until September 21.

About 20 growers used the shed this year. Mr. Baxter has been given a 5-year contract and will return late next summer to prepare for the fall pack.

An innovation he introduced this year was a new field crate that growers found to be superior to anything they had used before. The box holds a full bushel for delivery to the shed and its edges are smooth, giving protection to the fruit. The growers used 1200 of the boxes this year.

Hunting Season Opens Nov. 11

Hunting restrictions on the Fort Bliss firing range were back to an "as you were" status this week when Army Secretary Bruerick asked that there be no hunting in the range by military personnel. It ended, at least for the time being, a week-long controversy between the New Mexico Game Department and Fort Bliss authorities over license requirements.

Sunrise Friday at 6:30 is the official starting time for the general big game season in New Mexico which runs from November 11 through November 20. Hunting is permitted from sunrise to sunset, which on opening day will be at 5 p.m.

"The bag limit is one deer, one bear, one turkey. Does may be taken only in designated areas. Game must be tagged immediately when killed. A resident license costs \$5; non-resident, \$30.25.

In many cases, the hunter must have permission from the landowner or lessee to hunt over his land.

Fred O. Patton, director of public relations for the State Game Department, states that game generally is in good condition as the result of good forage resulting from the late summer rains. "With the exception of the southeastern area closed to deer hunters, a man can pretty well stay in his own section of the state and find good hunting," he said.

JAIL SENTENCE SUSPENDED

Gilston Charles Crook appeared before District Judge W. T. Scoggin this week for sentencing on a 1952 traffic charge which he evaded by leaving the state. Crook was given a 90-day suspended jail sentence with the provision he repay the \$250 bond that was forfeited.

District Court convenes Wednesday, Nov. 23.

Public Roads Must Be Open, Rules District Attorney

District Attorney C. C. Chase, in a letter to Sheriff W. G. Bradley this week, said it had come to his attention that "various landowners in Lincoln County are obstructing public roads by placing locks on gates on said roads to prevent hunters from using these roads."

The district attorney defined public roads and their use in the following communication:

"Please be advised that a public road is any road used by more than one person which is not located exclusively on privately held or owned land, which provides a means of ingress and egress to property owned by or under the control of some person or persons claiming exclusive right to use such road, and which has been in continuous use by more than one person for a period of one year. A locked gate placed on such a road constitutes an obstruction under the laws of this State."

"A landowner may prohibit hunters from hunting on patented or state leased land owned and controlled by him, but he may not obstruct a road through such land if that road leads to other land not under his control. In order for the landowner to prohibit hunting on the aforementioned owned or leased land, he must have previously complied with existing laws. Federal lands, that is forest reserves, etc., are not subject to posting under any circumstances."

"If any instances of locked gates are brought to your attention, please contact the person responsible for placing the lock on the gate and request its removal. If such request is refused, remove the lock by whatever means is necessary and file a complaint against the responsible party as provided in Section 53-6-2, New Mexico Statutes 1953 Annotated. This statute provided a penalty of not more than \$50 fine or imprisonment of not more than 30 days.

County Storm Causes One Traffic Casualty

Strong winds and blowing dust preceded a light snowfall general over most of Lincoln County Monday night. The temperature skidded from the 60's to 22 above Tuesday morning.

Some motorists had difficulty getting over Indian Divide. Joe Vega, road foreman for the Highway Department, reported he assisted about a dozen drivers whose cars were stalled or had slipped on the ice and gone into a ditch. One of these was a large truck.

One death was attributed to the storm. Marge Elizabeth Cox, 35, of Carlsbad was killed when a car she was riding in was struck by a bus that skidded on slick pavement a mile east of Green Tree on Monday.

James Moseley, 49, of Carlsbad, driver of the passenger car, was severely injured, as was Mrs. Cox's 11-year-old son. The bus belonged to the New Mexico Transportation Co. The driver was not injured.

AG REGENT DEFENDS PRESIDENT'S \$18,000

SANTA FE, Nov. 9 — Aggie President Roger Corbett's \$18,000 job was described as more arduous than U President Tom Popejoy's \$19,000 job in a high level hearing at the capitol on the cost of college presidents.

The next development in the cost of brains is likely to come in an increase of the \$17,000 rate for John Dale Russell, secretary and chancellor of the state board of educational finance, who by law is supposed to draw salary commensurate with that of college presidents in the state.

His pay was set at \$17,000, some \$3000 above Popejoy's rate at the time, because Popejoy was furnished a house and he was not.

(Popejoy's house, incidentally, is being reopened, following a \$40,000-plus remodeling job including a \$17,000 breakfast nook. The university rented another house for the president during the remodeling at \$240 a month. The president escaped much of the inconvenience of the temporary quarters by touring in Europe during the remodeling period.)

If Russell is to keep pace and not lose face it will require a salary for him around \$21,000 a year.

HEAVIER WORK IN AGGIE JOB

State Sen. Jess Richardson of Dona Ana, president of the Aggie Board of Regents, said that although the Las Cruces school has less than half the Albuquerque school enrollment the duties of the president of the smaller school are more demanding.

The agriculture extension work, a defense contract with the federal government and the special demands of a land grant college are piled on top of the normal academic program at the college. Richardson told the state board of finance in defending the pay jump for Corbett from \$12,000 to \$18,000.

The regents chairman said that his board was forced to find a strong administrator after two years of disension in the college faculty which had forced much of the president's prerogatives upon the board members—"Farmers," he said, "who were not qualified to make such decisions."

"Although many were considered for the presidency," Richardson said, "the final decision lay between only two men. The Highlands board wouldn't let us have one so we took the other." (The Highlands reference was apparently to Tom Donnelly, president of the Las Vegas school.)

CAMPUS RESIDENCE NO PLACE FOR BRIDE

Richardson deplored the housing facilities for the Aggie president. The residence, he said, was built in 1908 at a cost of only a few thousand dollars. It is presently without furniture in several rooms and Dr. Corbett is expected to be married soon, he said.

Finance Board Members Pim Carr and William Salmon indicated displeasure with the salary increases for the U and Aggie presidents but did not press their questioning of the affable Aggie regent. He and Carr are colleagues in the state senate.

Richardson said that with the exception of 67 days during which he was seriously ill with peritonitis Corbett served the college in the east during the period from April 1, when his salary started, and August 15 when he took over at Las Cruces. The work, he said, was directed toward scholarships, grants and publicity.

OUR CLINT PLAYS A WAITING GAME

State politics took a second look this week at what they had at first thought was a lively campaign by Sen. Clinton Anderson for nomination for vice president. Our Clint had said all along that he was not working for the place and his denials gained substance when it was noted that he had been turning down invitations to address farm groups in the politically potent middle west. Anderson's position is apparently one of standing by and being available for the place if it is decided to term him with Adlai Stevenson in the Democratic convention. Anderson and Gov. John Simms have already gone on the hook in favor of Adlai for president.

BOARD PRAISES CLAYTON ECONOMY

Clayton, the state board of finance agrees, is a city different. The Union County town had a request before the board to purchase... (Continued on Back Page)

IT'S THE HUMIDITY — Inside the house—probably, that has damaged outside paint. In cooking, washing clothes, and so on, large quantities of water vapor are released into the air. This vapor—rain—passes through walls that water cannot; and when it condenses, upon reaching the cold exterior surface of a house, it makes paint blister and peel. This passage of water vapor—and hence further deterioration of outside paint—can be largely prevented by having interior walls covered with two coats of a latex base paint or three coats of oil paint.

Kennecott's Earnings Up in First 9 Months

New York—Kennecott Copper Corporation today reported net income of \$7.58 per share for the first nine months of 1955 compared with \$5.36 for the same period of 1954.

Income per share during the third quarter of this year was \$1.53, compared with \$1.47 for the third quarter of last year. C. R. Cox, Kennecott president, told stockholders in the company's quarterly report.

Labor stoppages in the third quarter of both years and substantial flood damage losses in this year's quarter exerted an unfavorable effect on earnings, he said. In his letter to stockholders Mr. Cox said earnings in the fourth quarter should be substantially greater than in the corresponding period of 1954.

Net income for the first nine months of this year, the report shows, was \$81,989,463. For the same period last year, total net income was \$57,973,802. Net income for the third quarter of 1955 was \$16,558,995.

Major Frankie stated that Ray earned this promotion "because of his knowledge of his job and devotion to duty" and that "if he continues his Air Force career with the same effort he has shown in the past he will continue to advance to higher positions of rank and responsibility."

May Start Mining Near Orogrande

The Alamogordo News reports that the Anaconda Copper Co. may be preparing for big scale mining operations in the Jarilla mountain range near Orogrande, 30 miles south of Alamogordo.

It was stated that A. L. Culver had sold 20 mining claims in the area to the Anaconda Company which has had a surveying party in the Jarillas for 90 days, and marked spots for drilling.

Oro in the Orogrande country is said to be of a complex nature, containing copper, gold, germanium, molybdenum, lithium and other radioactive minerals. Iron, sulphur, zinc, lead, silver, nickel and cobalt are also present.

Other mine owners in the Jarillas include Jim Caldwell and associates of Orogrande, Joe Moffett of Alamogordo and H. Arnold and Joe Burnett of El Paso, and the Colorado Fuel & Iron Company.

There has been little mining activity in the Jarillas for a number of years.

WHAT'S A COLLEGE EDUCATION WORTH?

The true benefits of college cannot be measured quantitatively, but dollar-wise they can be. About one third who attended high school now earn \$5000 or over. More than half of all who went to college are earning that much. Between the ages of 35 and 44, the peak of earning power, 75% of college graduates earn \$5000 or more while only 48% of high school graduates do as well.—Changing Times

NOTE ON THE FOUNTAIN CASE

The F.K. Bar Ranch, the home of the Cadya on the Lower Pecos Creek in the Sacramento Mountains, was always open to any stranger.

One night when it was raining hard, a man and his wife, who apparently had been turned away elsewhere, found haven in the Cady home.

The man did not come to the table for breakfast until the others had finished eating. He drank only coffee for breakfast.

His actions made a memorable impression on Mrs. Rachel Floyd of Truth or Consequences, then a small child.

She remembers the man sitting at the head of the table, his eyes closed, his elbow on the table with his forehead in his hand, a cup of coffee in front of him.

Only Mrs. Floyd, her Mother, and the wife of the stranger, a nervous woman, who seemed always in dread of something, were in the kitchen. The man sat there apparently oblivious of their presence.

And then, as if he could no longer help himself, he groaned and said:

"I can hear him crying yet. I can hear the boy crying yet."

With a child's curiosity, Mrs. Floyd asked who the stranger was talking about, and her Mother shook her out of the kitchen. As she was leaving, the stranger's wife laid her hand on his shoulder and quickly the man sat up very straight.

"Your coffee is getting cold," his wife said timidly.

After the strangers had gone, Mrs. Floyd asked her Mother why the man acted so strangely. She remembers that her Mother told her that the man had been suspected of taking part in the slaying of Col. A. J. Fountain and his 9-year-old son, Henry. It was said that the man acted that way often.

(Col. Fountain and his son disappeared in 1896 while returning to Las Cruces after attending a court term in Lincoln County. No trace of their bodies ever was found.)

The Young Preacher

E. B. Candelaria of Placitas did his first preaching in 1902 at La Joya Spanish Methodist Mission while he was a student at Albuquerque College, a training school for Spanish Methodist mission workers.

At least once a month, sometimes oftener, he traveled by train from Albuquerque to La Joya, and was rowed across the Rio Grande to the mission on the west side of the river. There were between 40 and 50 families in the area, most of whom attended the mission services. Some of the older ones among the congregation said: "You are too young, how can you preach to us?"

"But," Candelaria said jokingly, "I was a good singer and they enjoyed my singing."

The young preacher had to stay overnight at La Joya. He could not spend the night in the railroad station, for the agent opened the station only when trains arrived. Candelaria spent many Sunday nights in the company of hoboes along the railroad. They looked at him curiously because he was the only well-dressed one among them. He explained to them that he was a preacher, and the hoboes never molested him. Later, he stayed overnight with members of the mission.

Dr. Thomas Howard, who had been a Civil War chaplain, was president of the mission school in Albuquerque. Candelaria finished his studies there in 1903.

After two years of student preaching at La Joya, Candelaria received an appointment to a mission in Cananã in Sonora State, Mexico. From Cananã he came to the Garfield mission for one year, and after that he went to a mission in Tucson. Then he served in Dona Ana, Socorro, Hillsboro, Clyde and San Marcial and Deming. After serving in Deming mission for some time, it became necessary for him to return home to take care of farming interests. He has lived for many years in Placitas, a small community just outside Hatch on the Deming road.

Dinner Party Honored Miss Beatrice Meany

Mrs. Pearl Pruitt and Mr. and Mrs. Cab Pruitt entertained with a dinner party October 20, at which time the engagement of Miss Beatrice Meany to Charles Pruitt was announced. Dinner guests were Mr. and Mrs. Don Murphy, Mr. and Mrs. Julian Herrera, Mr. and Mrs. Godfrey Anderson, Mr. and Mrs. John Garcia of Lincoln, Orvas Truelove of Fort Stanton, Mrs. Macie Edmondson, Mrs. Oleta Cloud, Mrs. Warren Gaston, Boney Zamora and Rudy Chavez.

The bride-elect is the daughter of the late James Meany of Garden, Mass., and Mrs. Doris Meany of Long Beach, California and Garden, Mass. Miss Meany is a graduate of Garden High School and of St. Vincent's Hospital and College of Nursing at Worcester, Mass. She has been at the St. Mary's Hospital staff on Long Beach seven years. She met Mr. Pruitt there on his Navy duty in Long Beach.

Mr. Pruitt was educated at Hondo and St. Michael's high schools in New Mexico and St. Thomas College of Minneapolis, Minn. He spent four years on the staff of St. Mary's Hospital in Minneapolis and of late has been with the Department of Public Welfare at Fort Stanton. On Sunday Mr. and Mrs. Don Murphy gave a breakfast for Miss Meany.

Mr. and Mrs. Luther McInnes and Barbara Diane are spending this winter at the ranch with his mother, Mrs. Annie McInnes.

Mrs. Louise Ferguson was a Carrizozo visitor last Saturday. Walter May of Nogal was a business visitor Saturday. He is working at Grants.

Round Table Club

The Round Table Club met at the home of Mrs. Lon Merchant, with eight members and two guests present. Guests were Mrs. Merchant's two daughters, Mrs. Marie Edgar and daughter Willa Marie, and Mrs. Grady Eldridge. The two members unable to attend were Mrs. Ethel Howard and Frances Shaw, also Kittle Black and Gussie Titworth. They had a delicious roast turkey dinner. After dinner the meeting was called to order by the president, Mrs. Corrine Provine. All answered the roll call, therefore no one had to give a dime, which is the custom. After the business meeting the president acted as program chairman. They played two guessing games. All reported a very good time. I failed to mention that Margaret Ann Murphy was another one of the guests.

First I would like to apologize for a bit of news that somehow was missed this past week. When one's heart ached as did Mrs. Shorty McCarty's it surely must have hurt her more because I failed to mention that her daughter, Mrs. Bill Franks of Arlington, Texas, was hurt by a car hitting her car, throwing her out and dragging her. She is getting well at this writing. It happened three weeks ago. She still is bruised and sore and is having much difficulty becoming active. We hope that she gets strong fast.

The Mountain Valley Motel tells us that they have received notice that they have been approved by the AAA and expect to have their sign soon and so glad for you.

C. F. Torn of the Lindsey Chemical Company of Chicago was a guest at the Mountain Valley Motel one day last week. He was investigating the possibilities of thorium mining in the Capitan Mountains. His company is the only one in the United States authorized by the Government to buy thorium.

Mrs. Adna Sellers and Mrs. C. M. Belknap drove to Alamogordo to spend the past week end, returning Sunday.

Mrs. Cora Hale returned to her daughter's home in San Gabriel, Calif., on Wednesday, due to health conditions. It was sad to see her go, as she loved the people, our town and the climate so much but she had no other choice, as she had to have care and be with someone. She is 80 years old. Stay happy, we are wishing you the best.

The Rusty Anchor Bar is giving away a gun to some lucky

winner next Saturday. They have been doing this for several years during the hunting season. Truly, there is always a very happy winner.

Don McClung is in San Francisco, Calif., on business. His family remains here for a longer visit with her parents, the Lewis Cummings, and family.

Mr. and Mrs. N. M. Tohill brought her parents, the Monroe Howards, home after they had spent a week with them. The Howards reported a very good time. The Tohills spent the night with her sister and husband, Mr. and Mrs. Holmes.

Mr. and Mrs. Ramon Padilla have moved to Alhambra, Calif. They will both have work. Her daughter, Mrs. Leo Morgan, drove them through.

Uncle Billy Ferguson went to the hospital in Carrizozo Friday. He is reported doing nicely at this time and expects to be home soon.

Are we having winter? I'll say. It arrived, with full impact, with a strong cold north wind, soon followed by snow. We do appreciate it.

Michael Bandle is home from the hospital and is feeling much better.

Mrs. C. W. Haley had the flu this past week.

Mrs. Ray Provine and children Freddie and Judie went to the homecoming in Lubbock, Texas of Texas Tech. Ray was unable to go with her as these water leaks are continuous things. He worked on two new leaks this week.

C. W. Haley, who has been working at the Tobe Foster Ranch for the last month and a half, saw two beautiful deer as he was coming in tonight. They were tame and studied him at close range, then crossed the road a time or two as if in wonderment. They will feel differently after this coming Friday when the shooting starts. We are expecting many hunters. Most of the available rooms in town have been reserved. Certainly is lots of activity during the entire hunting season.

Manuel Gavi of Kirtland Field in Albuquerque visited his mother, Isabel Gavi, last week end. C. A. Marson of the Busy Bee community, was a Capitan visitor Saturday.

Mr. and Mrs. Bowen have returned to the Mountain Valley Motel for several days in the interest of their mining property surrounding her.

Mr. and Mrs. Manuel Lopez of Corona, formerly of here, where Mrs. Irene Stewart Lopez lived while her husband was a patient at Fort Stanton

for three years, lost their little daughter, Marce, on Sunday, Sept. 18. She was laid to rest in the Corona cemetery. Marce was one of twin daughters. She was taken ill about 2 1/2 months ago and was in the hospital at Vaughn for 30 days.

Mr. and Mrs. Jack Shaw and children of Fort Stanton, went to Tularosa this past week end to see her father, Jeff Gardenhire, who has been very sick. I understand they are going to bring him home with them.

Miss B. Meany and Charles Pruitt were coffee guests of Mrs. Macie Edmondson on Saturday afternoon.

Mrs. Macie Edmondson spent Monday and Tuesday in Alamogordo with her daughter, Mrs. Dixie Sparks.

Be sure to remember the Silver Tea and Bazaar at the City Hall December 3. The proceeds will fill Christmas bags for the children.

Teddy Cummins is landing in Los Angeles by plane from Anchorage, Alaska, on the 10th. He will attend homecoming at the college in Pasadena, and expects to arrive in Capitan on the 14th. After a month's furlough he is going to drive his car back to Alaska.

Mr. and Mrs. A. W. Luck drove to El Paso to visit their son William and his family. They brought their daughter-in-law, Diana, and baby, to visit her parents, Mr. and Mrs. Herbert Smith, in Ruidoso for a while.

The Capitan 4-H Club held its first meeting November 1 at the

home of Mrs. Marie Walker. New officers were elected: President, Penny McKnight; vice president, Joe Lee Smith; secretary and treasurer, Loreta Jones; reporter, Mary Ann McKnight; song and recreation leader, Jimmy Kerr.

Mrs. Elsie Pruitt reports that she furnished transportation for the Girl Scout Troop 1 and that Boney Zamora furnished transportation for Boy Scout Troop 55, who went on a joint outing thru Devils Canyon to Fox Cave. After refreshments there they continued to Ruidoso to a matinee to see "Apache Woman." They went to Hondo to eat, then home, after an enjoyable day.

One Rock Isn't Enough

A piece of Chino's ore displayed at the recent State Fair contained something like three dollars worth of copper. If an individual, using ordinary tools, tried to mine and process this rock, he wouldn't recover enough copper to pay for his time.

Mass production techniques, however, have turned this low-grade ore into a valuable New Mexico resource. By employing 2,500 New Mexicans to operate millions of dollars worth of machinery, Kennecott can handle enough ore to make the operation worthwhile—even though Chino's average ore contains less than 18 pounds of copper per ton! In doing so, Kennecott has developed an industry whose supply purchases, payrolls and tax payments have materially contributed to the prosperity of all of New Mexico.

Women Said to Be "Safest Drivers"

The safest drivers in America will increase to almost twice their number within the next 10 years.

So says Miss Betty Skelton, Dodge test driver, who refers to the growing horde of women behind the wheel, currently 25,000,000 strong and expected to reach 47,000,000 by 1965.

"And these women," says Betty, "are the safest drivers in America."

Betty can rattle off some pretty impressive statistics to prove her point about the safety record of the one-third of our licensed drivers who are women.

"They have only one-tenth of all the accidents," says Betty, who is the only woman test driver in the automotive industry and something of a champion of the reputation of the much-maligned American woman driver.

She goes on to explain that surveys have revealed that men drive from two to four times as many miles as women. Still,

If you're thinking of entering a big prize contest, here are the statistics on your chances of winning. Twenty to 50% of the entries are discarded at the onset for failure to observe the rules. As many as 20% are dropped at the preliminary judging for ratings on originality, aptness and sincerity. Of those entries still remaining, most are eliminated by a rating chart. The George Dingwalls returned Tuesday from a visit to El Paso.

The Charlie Martins are driving a new Pontiac.

Roy Woodridge of Albuquerque was an Alto visitor Monday.

R. Jack Stewart of El Paso stopped for a visit at the store last Tuesday. He was on a business trip and timed it so he could spend the night at their summer home at Eagle Creek Lodge. He and Mrs. Stewart recently returned from a trip to Biloxi, Miss., where they had

gone to visit their son, Jack, who is stationed in the Air Corps there. Was nice to know that Jack was doing fine and likes the work he's doing for Uncle Sam.

Mr. and Mrs. Tommie Crawford and sons Gary and Jerry have moved to Dulce, N. M. He is employed by the J. W. Jones Construction Co. and has gone there on a job for the company. Pat Suggs has also gone to Dulce for the same company and the same work as Mr. Crawford. They were the last to leave Alto on the Highway 37 project so now the road is really finished.

The Basil Ryans of El Paso came up to their summer home at Eagle Creek Lodge on Sunday. It's nice to report that Mrs. Ryan looks fine again.

Mr. and Mrs. R. N. Neal and her father, Rev. Jensen of El Paso came to the hills over the

week end to enjoy the fall colors. The Neals have a summer home at Eagle Creek and wanted to take one last look before winter arrives.

Blair Tinney and Clem Kerr of Tularosa were visitors in Alto on Sunday.

The George Dingwalls had the following from Carrizozo for a Sunday visit: Mr. and Mrs. Alan Johnson, Mrs. Edith Crawford and Mrs. Fannie Girard.

Rev. William Holmes of Ruidoso and J. F. Landers of Ruidoso and Dennison, Texas, were visitors around Alto on Monday.

Mrs. Thomas was presented a zip-out key case with the O.E.S. emblem as a remembrance of the occasion. Mrs. Leona Brown, worthy matron and Jack Shaw, worthy patron presided.

Following the meeting refreshments of assorted sandwiches and relishes, dates and coffee were served in the dining room.

The tables were attractively decorated with garden flowers, fern and berries.

STATE GAME DEPARTMENT

BLUEWATER TREATED
Eight million fish have been removed from Bluewater Lake, after treatment of its waters and 15 miles of streams leading into it. About 200 of those fish were trout, the largest 14 inches. One hundred of the fish were bass; the remainder were carp, suckers, chubs, yellow perch, making about 25,000 pounds total fish removed.

It was a three-day operation involving about 20 men of the Department of Game and Fish and a dozen local volunteer sportsmen. The concessionaire, Max Jones, furnished boats and gasoline as an accommodation. Trout will be planted as soon as feasible. The surface area of the lake at this time is 190 acres and maximum depth is 11 feet.

ASK THE OWNER
"In a poll conducted over the state last year, it was found that only 5% of the farmers queried said 'Absolutely no hunting on my place,' while 76% said 'It's OK to hunt, but ask me first.'"
It would be pleasant to report that New Mexico was the state in which this idyllic situation existed, but it happens to be Iowa. Such statistics are not available in New Mexico, so far as is known in the Department of Game and Fish. The sportsmen's organizations of New Mexico might profitably conduct a poll of this nature, as a logical step in reducing friction between landowner and sportsman.

HUNTS SUCCESSFUL
In the Oscura Mountain area of White Sands Proving Ground, where 635 hunters took 232 deer from October 15 through October 17, there was a slight preponderance of bucks taken. The Department of Game and Fish congratulates hunters on care of their meat. Although the weather was warm, no loss of meat has been reported.

The long season in the northeastern part of the State is proving quite successful, as evidenced by vendors' calls for more tags, and by the report cards coming in from hunters. Some landowners are charging trespass fee and some are not; but are are requiring hunters to obtain permission before hunting. Special deer tags are available at Costilla, Questa, Red River, Eagle Nest, Ute Park, Cimarron, Raton and Vermejo Park license vendors.

DEER PROSPECTS
Deer hunting should be mighty good in New Mexico this year, with an estimated total of 210,000 deer. To hold the herds

at a static population would require a harvest of 52,500 deer, since the normal expected increase would be 25% of the total.
It is foreseeable that if the number of hunters does not increase, there will be areas for the taking of two deer in the not distant future. This is not the ideal answer, as other states' experience confirms. Most hunters are not meat hunters; they are out for the sport. There, good game management must depend on getting more hunters into the field.

WATERFOWL SEASON OPENS
Migratory waterfowl season opened November 2. Shooting hours are half hour before sunrise, to sunset. The area is statewide. Bag and possession limits. Wilson's snipe 8, geese 5, coots 10, rails, gallinules, soras 15 each. Ducks 5 a day, 10 in possession. Limitation on geese: white-fronted or Canada goose or subspecies, not over two aggregate per day.

GMC Truck Sales Higher Than in 1954
Pontiac, Mich. - More GMC trucks were sold in the first nine and a half months of this year than during all of 1954, according to R. C. Woodhouse, general truck sales manager for GMC Truck and Coach Division.
Mr. Woodhouse said GMC's domestic sales from January to mid-October reached 69,276 units, compared with 67,626 for the entire 12-month period last year.
"This achievement gains added significance when it is understood that new model GMC's did not reach dealers in volume quantities until May of this year and GMC was about 5,000 units behind last year's sales during the first four months," Mr. Woodhouse explained.

Due to the excessive expense of Trading Stamps and in an effort to use money spent on Trading Stamps to better serve you with more merchandise at competitive prices, effective December first, 1955 we will no longer give Green Stamps. This decision was reached after a two year trial in which we found that such cost was in excess of benefits received and was not practical for our type operation, in which we strive to serve our customers with the merchandise they need in the area where they need it at the lowest possible price based on a high inventory, low volume business. All accounts paid in full before December 1 will receive green stamps.

Aircraft Effect for '56 Dodge

Unique high-sweep rear fender tail fins lend an aircraft-like effect to the new Dodge cars for 1956. They, with the twin-jet taillights immediately establish this car's identity. Framed with a gleaming band of chrome, the taillight area boasts a unity of design seldom achieved in automotive styling. On Custom Royal models, the taillight and back-up light are housed in slotted chrome bezels. At night, light from the taillight shines through the slots, aiding in side visibility. On the deck lid, a new crest serves as identification and is similar to the one used in the front. Reflecting the treatment given the front end, a slim "V" on V-8-equipped models is placed directly below the crest. Dual chrome exhausts, as shown, are standard on all Custom Royal V-8 models.

McKnight, Hondo Valley; Mrs. Mario Walker and LeRoy McKnight, El Capitan; George (Mutt) Shanker and Mrs. Betty Walker, Corona club.

Colored slides of the past year's activities were shown to the group. A recreation period was held for the group after the regular program.

During a discussion session the group showed interest in livestock judging. A larger number of county get-togethers, as well as more help with the project work.

Public Must Provide Money for Schools

Bayard, N. M. — A threefold obligation must be met by the taxpayers, professional school people and the general public if our schools are to succeed in doing the work expected of them. W. H. Goodrich told a group attending dedication ceremonies at the new Cobro High School there Saturday night.

Goodrich, general manager of Kennecott Copper Corporation's Chino Mines Division in Santa Rita and Hurley, said the taxpayers have an obligation to provide money for schools when they are needed; the school professionals must operate the schools to the best interests of everyone, and the general public must support school activities and show an interest in the work being done.

The new school building, completed this fall at a cost of nearly \$1,000,000, replaces Hurley High School which, Goodrich told the group Saturday, Nov. 5, was first established as a mining camp school to serve the children of Kennecott employees.

At first, he said, the company felt an obligation to do more than the average taxpayer since the school was serving families of company employees. Now, he said, the firm feels that it should assume the role of taxpayer and leave the roles of landlord and "maintenance man" to others. This, he said, is being done despite the fact that it will cost the industry more in the form of taxes.

HINTZ WRIST SLAPPED ON INSURANCE DEAL

Governor Simms last week slapped the wrist of Welfare Director Murray Hintz for attempting to transfer the insurance on the state TB san at Socorro from three Republican agents to three Democrats. It would have cost about \$1500 in extra premiums. Hintz had already ordered the change and had passed out a press release claiming that the change would save the state a lot of money when the governor's office interceded and told him stop it.

The change would have swapped the policies on the welfare department institution from agencies owned by Republicans.
