

Desert Dan
says

See where th' Ruskies had their election day. T' make it easy fer th' voters, th' ballots were marked ahead o' time.

A New Yorker has proposed a world development corp. t' help th' poorer nations. It might work if they plow back all th' profits.

Not everyone with a green thumb is a good gardener—some are just careless painters.

Boast not too loudly of your open mind, lest you be judged as having holes in your head.

Santa Fe Freight Run Setting New Record

Fresno, Calif.—Santa Fe Railway has established a freight train schedule between Chicago and Kansas City and California the fastest in American railroad history by one full day.

President Ernest S. Marsh and Fred G. Gurley, chief executive officer and chairman of the board, said the running time of the new schedule is 77 hours. It became effective March 12. The schedule formerly was 101 hours.

The new schedule applies to carload freight from connections and industrial districts.

On February 17, Santa Fe announced a one day speed-up in delivery, four working days of the week, on merchandise traffic only. Marsh and Gurley made the announcement at Fresno en route to Richmond from Chicago and Kansas City on a record-breaking freight train consisting of 103 cars. Four diesel units, manufacturing 6,000 horsepower, hauled the train, weighing 4,700 tons.

The run from Chicago to Fresno was made in 72 hours.

Plans Underway for Annual Scouting Exposition in Roswell

Pete Myers, district scout executive for the Rio Hondo District, Boy Scouts of America, announced recently that plans are under way for the annual Scouting Exposition to be held at the Eastern New Mexico fairgrounds April 18-19.

The annual exposition is an opportunity for all Cub Scout packs, Boy Scout troops, and Explorer Scout units to demonstrate their skills and achievements to the public.

Each unit will have a booth for giving live demonstrations of their subject. Scouting skills and monthly program themes such as exploring Alaska, puppets, knot-tying, pioneering, will be presented by the boys.

Trophies will be given to the Cub Scout, Boy Scout, and Explorer Scout who sells the most tickets in the Rio Hondo District. Each boy who sells ten tickets will be awarded an attractive neckerchief slide made in the shape of the State of New Mexico.

All units are urged to send their subject choice in immediately to assure getting a booth, since booth space is limited.

Sixth Annual High School Science Fair

Socorro — The sixth annual New Mexico high school science fair will be held April 12 on the campus of the New Mexico Institute of Mining and Technology.

This fair, open to students in the 7th through 12th grade levels, will exhibit work done in the natural sciences as well as physics, chemistry, and mathematics.

Entry blanks and instructions have been sent to the science teachers and mathematics teachers as well as principals of all schools throughout the State.

SECOND ANNUAL STATE-WIDE PHYSICS TEST

Socorro — The second annual state-wide high school physics test will be administered on April 23. The New Mexico Institute of Mining and Technology is planning to administer the test and do the scoring.

The test will be similar to the one used last year, but of different form. It will be given only to those students who are currently enrolled in the regular high school physics course.

The deadline for registration for this examination is April 1.

Truck Accident Survey By Highway Dept.

Questionnaires go in the mail this week to a sample group of truck owners who are included in the State Highway Department's survey of the direct costs of truck accidents.

The truck study is the second phase of the road department's Economic Costs of Motor-Vehicle Accidents Study. The first part of the study dealt with the direct costs of passenger-car accidents.

The questionnaires mailed this week go to truck owners whose names were drawn from the motor-vehicle registration files for 1936, the year under consideration in the survey.

A study will be made of 6,162 trucks of various types, including panel and pickup trucks which are frequently used as passenger cars in New Mexico. The number of persons actually contacted during the survey will be much higher, however, because of changes in ownership of trucks during the year.

No individual driver's record will be affected, as all information obtained in the survey is confidential and will be used for statistical purposes only. Highway officials have emphasized that in cases in which company-owned trucks were involved, the company's safety record will not be affected.

Questionnaires will be mailed to owners of all heavy trucks and half of the panels and pickups in property-damage-only accidents.

Highway officials stress that a high percentage of returns of the mailed questionnaires is important to the accuracy of the survey and will considerably reduce the cost of follow-up interviews.

GRIST & GRITS

By OLIN MILLER
(Copyright 1933)

"Number of Unemployed Exceeds Five Million."—Headline. This isn't so serious as it sounds, as there are always about a million people looking for jobs wherever they know they can't be found.

Many had been hoping that the strike in the garment industry would last until the "sack" dress became unattractive.

"The Seaboard Air Line Railroad will cut the price of its round-trip fares from Atlanta to Norfolk by 15% on March 15,"—New Item. This action no doubt caused all other railroad officials to exclaim, "That's a h— of a way to run a railroad!"

Quite some centuries ago a clan of cave-men who had developed the bow-and-arrow were objecting strenuously to the actions of another clan, that didn't have this weapon, in amassing rockpiles in throwing distance of them.

It makes no sense that prices jump
When we are in a business slump.

Husbands who are confined to the doghouse a great deal of the time would be well conditioned and also probably willing to make a trip to the moon.

The thing that ruins more days than anything else is having to get up early and go to work.

A business executive says in a magazine article that he's going broke on a salary of \$25,000 a year. If he'd have his salary reduced to about \$10,000 a year, he could meet expenses and save some money, too.

"If a pig bites off another pig's tail, it's because he's bored," says a wine expert. Maybe so, but we had always assumed that when a pig bit off another pig's tail he (the biter) was hungry, angry or in a whimsical mood.

Today's Informative Item: No matter how fast a bird flies, he never sweats.

Old timers remember when the small town goosips went into a state of shock when a daring girl defied custom and rode horseback, saddle-legged.

"The onion belongs to the lily family."—Newspaper filler. H-h-m-m. It must be an in-law.

"With few exceptions, man can do anything he can imagine," says a scientist. As man has done many things in recent years that constitute a threat to civilization, it is suggested that he let his imagination rest for a spell.

It's much easier for a person to believe in the Darwinian theory if his neighbors have liberal assortments of children.

"Man knows virtually nothing about the human brain," says a Kansas Univ. professor. Why single out the human brain? Man knows virtually nothing about anything.

LINCOLN COUNTY IN BYGONE YEARS

20 Years Ago
(From the files of the Lincoln County News, March 18, 1936)

Mrs. F. H. Hall and daughter Mary Elizabeth spent the week end in Hagerman with friends.

Lewis Thomas, grade school teacher, went to Mountainair to referee a basketball game.

Mr. and Mrs. C. A. Snow and two younger children went to El Paso.

Mrs. F. A. English and son Don spent some time in El Paso on a pleasure trip.

Mrs. E. T. Collier left for Pasadena, Calif., to accompany Mr. Collier home.

Mr. and Mrs. Hugh Cathy were business visitors in Carrizozo.

A meeting of the Methodist Missionary Society was held at the home of Mrs. M. U. Finley.

Mr. and Mrs. S. O. Sproules were in Hot Springs taking the baths.

Mr. and Mrs. Albert Scharf and Mrs. Nelly Kelly went to Roswell and spent the day.

Brack Sloan was in town from his ranch.

40 Years Ago

(From the files of the Carrizozo News, March 22, 1918)

A large number of Lincoln County Stockmen went to Roswell to attend the Cattleman's convention.

The young son of Mr. and Mrs. J. B. French was 9 years old and celebrated his birthday in true boy fashion.

Mrs. H. S. Fairbanks left for San Antonio, as her brother was soon to leave for the Army.

The local chapter of the Red Cross received a letter from headquarters in Denver thanking them for boxes of clothing.

William and Francis Blanchard were here from Macho, trying to get a rifle range established.

Dr. M. A. Grissom lost his suit case between Carrizozo and Alamo, and was offering a reward for its return.

Preceded by a heavy bombardment with gas shells and high velocity shells, the Germans launched masses of troops in a spring offensive. British lines were pierced at Scarpe and Vendeuil.

An overnight visitor to Carrizozo spread his bedroll on the depot platform and evidently enjoyed his sleep as he was around town the following day as chipper as you please.

Red Cross First Aid Textbook Available

The new revised American Red Cross First Aid Textbook climbed into the "best seller" class during March when the number of copies sold since it was published last September went above the 1,250,000 mark.

The text is primarily designed for use in classes taught by Red Cross instructors. Use of the new publication has resulted in shortening the standard Red Cross first aid course from 18 to 10 hours.

In New Mexico, a total of 4,685 persons received Red Cross first aid training and certificates during 1935. At present, there are 396 authorized Red Cross first aid instructors living in the state. Since 1923, 17,942 persons have taken first aid courses in New Mexico.

Copies of the book are available to all Red Cross chapter offices at a nominal cost to cover printing—75 cents for paperback copies and one dollar for clothbound.

Livestock Numbers Decrease in This State

The numbers of livestock on farms in the United States dropped during 1935 but the value per head increased. The two exceptions were sheep, which increased 1% in numbers, and turkeys, which decreased approximately 50 cents per head in value.

This downturn in numbers will mean higher prices to consumers for meat during the next few years, predicts extension economist C. R. Keaton at New Mexico A&M College.

Numbers of livestock in New Mexico followed somewhat the same trend as in the U. S., the economist said. The number of cattle and calves on farms totalled 1,058,000, a decrease of 5% from January 1, 1935. The value per head was \$110, an increase of \$38.

The number of cows and heifers in New Mexico, two years old and older, kept for milk was 50,000, a 4% drop. The value per head was \$150, an increase of \$15.

The number of sheep and lambs was 1,208,000, an increase of 2%. The average value per head was \$20.20, an increase of \$6.

The number of hogs and pigs on farms January of this year

was 35,000, a decrease of 12%. Value per head was \$25, an increase of \$5.40.

The number of horses and mules was 59,000, a decrease of 5%. The average value per head was \$69, an increase of \$13.

The number of chickens totalled 742,000, a decrease of 5%. The value per head was \$1.20, an increase of 10 cents over the previous year.

The number of turkeys on farms was 6,000, a decrease of 1,000 from the previous year. The value per head was \$4.50, a decrease of 40 cents.

Josephus Daniels took office as Secretary of the Navy March 5, 1913.

New brand of flavor!
Rancho pecan toffee ice cream

Price's Meadow Gold

We've created a truly new flavor... Rancho Pecan Toffee. We've taken cherry pieces of toffee candy, mixed them together with chunks of pecan nuts and then, came Price's Meadow Gold Ice Cream. Pick up a carton of Price's Meadow Gold Rancho Pecan Toffee Ice Cream at your favorite store today. Better yet, make it now. You'll find the "idea" in your family will make one package go a long way!

PRICE'S CREAMERIES, INC.

GETTING TO KNOW NEW MEXICO

Wherever you are, at home or away, enjoy beer, the light, bright beverage of moderation.

New Mexico became a State in the Union in 1912, with the capital located in Santa Fe. New Mexico's capital is the newest in the United States, and it is the only one featuring Territorial Style architecture, which blends in so beautifully with the surrounding city of Santa Fe. On the right is a wonderful view of the old and new sections of the city. At the left is the new wing, built in the same style.

Get to know, and enjoy, New Mexico!

Don't Litter... Keep New Mexico Beautiful

ALTO BRIEFS CAPITAN

By KILEEN LINDAMOOD

The Ludoso pipeline has been connected to the Eagle Creek pipeline near the store. There's covering up yet to be done and installation of a meter is under way.

The Stanley Hightowers went to El Paso last week, where he will take up his new assignment at Fort Bliss.

Bonnie McEuen was in Hobbs the last week end competing in the Women's State Bowling Tournament.

W. H. Adkison was up from El Paso the past week end checking on his stock after the big snowstorm.

When the George Dingwalls went to Carrizozo last Monday the doctor put him in the hospital for observation and rest. Friday he was released and went to the Alan Johnsons for a few days.

Mrs. Charlie Peebles came home from the Ludoso Hospital last Thursday. She had spent a week there recuperating from two fractured ribs and a cut on her head, the result of a Jeep accident at their Little Creek Ranch.

After three days of sunshine, a gentle rain started washing away the dirty snow on Sunday.

Homemakers Collegé At New Mexico A&M Set For June 2-5

New Mexico A&M's second Homemakers Collegé, featuring the latest practical and scientific progress in modern home-making, is set for June 2-5.

The theme for this year's collegé will be "Looking Ahead with New Mexico Families."

Enrollees in the 1953 collegé may choose their program from several major subject matter areas such as home management and home furnishings, clothing and textiles, foods and nutrition, public affairs, family life, landscape gardening and successful meetings.

To balance out their curriculum, homemakers may select elective subjects such as photography, rocks and lapidary, floral design, crafts, western folk songs, New Mexico pottery, locating and framing pictures, and book reviews.

Hondo High Girls In Pillsbury Bake Off

The home economics girls of the Hondo High School participated in the Pillsbury Bake Off Program on Tuesday, March 11, under the direction of Mrs. Hazel Arthurs, the instructor in home economics.

Ribbons were awarded to students as follows. The three outstanding baked products from the school were by Magdalena Sanchez, first for cookies; Helen Maer, second for orange cake

By MARGARET RENCH

Mrs. Henrietta Belknap To Make Home in East

Hollis Cummins motored to El Paso last Thursday, taking Mrs. Henrietta Belknap, her son Carol and Mrs. Gussie Tittsworth with him.

Mrs. Belknap and Carol spent the night at the Hilton Hotel, then left by plane for New York where Mrs. Belknap will reside in a private home where she will have a good home and care for the rest of her life.

She will be where her son and family can visit her often. After she is nicely settled, Mr. Belknap will go on to his home in Riversdale, Conn.

"Knappy" has made her home in Capitán for over fifty years, therefore she is a part of us and will be greatly missed, though we can shower her with letters and she in turn will write us. She is dearly loved by everyone. She will celebrate her 86th birthday on June 30.

Mr. and Mrs. J. E. Gavi and children from California are visiting his mother, Isabelle Gavi, for two weeks. He has been in the Service overseas for several years, though he has returned now and will be at home in California.

Tommy Gierhart has gone to Norman, Okla., to enter aviation school. He is in the Navy and was on furlough visiting his parents here, Mr. and Mrs. Vernon Gierhart.

Rev. Reynolds' wife has undergone major surgery at Texarkana. We wish her a speedy recovery.

Lewis Cummins plans to leave for California to visit Teddy, then bring him back to spend his Easter vacation in Capitán.

and Christina Gonzales third for chocolate cake.

Other students receiving recognition were Evangeline Montes, first and Olympia Herrera second for sponge cakes. In the butter cake participation, Bertha Herrera, first, Lydia Chavez, second, and Olivia Polaco, third. Margie Scallio received second for Boston cream pie.

Ramona Salas second for chocolate cake, and Aurora Romero second for spice cake. Lorena Romero was awarded first for filled cookies, and Beatrice Herrera first for oatmeal cookies.

In the pie division, first for Rita Gomez, pineapple cream pie, and Betty Silva for cherry cream pie.

The judges were Mrs. Ruby Douglas, Mrs. Benito Silva and Mrs. Carl P. Radcliff.

Talent Show and Enchilada Supper

The Home Economics department of the Hondo High School is planning an enchilada supper and talent show on March 26. Price, \$1.

Muddy Roads Delay Movement of Logs

Several logging families were transferred to Dattil; also some machinery. They will work in Dattil when the weather permits. We have a full crew waiting here to resume work in the Capitán Mountains as soon as it is possible for them to get to their work.

At the present time they have lots of logs ready to take out, but the trucks bog down in the mud.

Rain and Snow Add to Moisture Total

Sunday afternoon at 3 o'clock it started to rain and continued for six hours, giving us a half inch. Monday afternoon there was more rain and two inches of wet snow in a short time. It is almost possible to get about off the highway. The northside school bus did not get in until 9:30 Monday morning.

The school furnace was in working order and school was on usual schedule Monday morning due to the faithful men who worked Sunday to make repairs. The children seemed to be having a happy time going to school in the snow.

Mr. and Mrs. Manuel Miller are on their jobs at Fort Stanton again after three weeks' vacation in California. They came through a terrible flood there on their return and wondered at times if they would ever get out. They enjoyed their visit but were glad to get home safely to cozy and peaceful surroundings.

Mr. and Mrs. Hunt Hobbs returned from Roswell last Sunday where Hunt has been in the hospital. At this time he is doing just grand, though he is still confined to home. We are happy to have you with us again, Hunt, and to know that you are gaining your health so rapidly.

Mrs. Gussie Tittsworth returned home last Monday from El Paso where she spent four days. She went to Tinnie on the bus, then was accompanied home by Mrs. Frank Tittsworth. Mrs. Tittsworth also visited her sister, Mrs. Travis Werner.

Mrs. Irma Lobb was called to Oklahoma City by the death of her brother's wife, which occurred suddenly last week. Her son, Boy Jean, who is employed in Belen, took her, and they were away three days. Mrs. Lobb said lilacs and tulips were blooming and the lawn was green.

Mr. and Mrs. Dyer Forbus motored to El Paso for Irene's checkup at her doctor's last week end. They returned during the heavy snowstorm. Mrs. Forbus, Mrs. Forbus's mother, took care of their two daughters during their absence.

On Sunday Mr. and Mrs. Dyer Forbus and two daughters visited Mr. and Mrs. Vance Benton at their ranch home. They saw threatening clouds so they started home early but got caught in the drenching rain-storm.

Clarence Gehring has been home with his mother, Mrs. Daisy Gehring, for a few weeks.

Wallie Ferguson was home from State College over last week end, with his mother, Mrs. Louise Ferguson.

Mrs. Raiston, of the logging company, was called to Farmington by the death of her uncle. Her son went with her.

Mrs. L. B. Morgan of the Merchant Ranch is vacationing in California.

Mr. and Mrs. Lewis Cummins this week sold their home place on Fourth street to Mr. and Mrs. Grady Wallace.

New Mexico 4-H Girl Named Nat'l Winner In Story Contest

Miss Lois Jennan Kuhnley, seventeen-year-old 4-H'er of Moriarty, N. M., has been named one of the ten winners (five boys and five girls) of the 1953 "Time of Your Life" story contest. She will receive a 19-jewel wrist watch from the contest donor, the Elgin National Watch Company, Elgin, Ill.

The "Time of Your Life" story contest was open to all delegates (about 1200) who attended the National 4-H Club Congress last December in Chicago. Its object was to encourage delegates to share with the folks at home some of the inspiration and excitement of the congress.

Miss Kuhnley was state winner in the 1953 dress revue and received her expense-paid trip to Chicago from the Simplicity Pattern Company of New York. She was one of the 23 delegates to make the trip from New Mexico.

She is the daughter of Mr. and Mrs. F. K. Kuhnley, and is a member of the Moriarty 4-H club in Terrell County. Miss Kuhnley has completed seven years of 4-H project work in home economics.

NOGAL NEWS

By ROSALIE DUNLAP

Marvin 'Dick' Peacock, Sr. who underwent major surgery a couple of weeks ago in El Paso, is now in Tucumcari. He and Mrs. Peacock are staying with their son, Marvin Peacock Jr. and family.

Homer McDaniel is now in Flagstaff, Ariz., after spending a short time in the veterans hospital in Phoenix.

It is so nice to have the Ralph Forsythes back with us. Charlotte is doing fine.

Their son, Jack and family of Ft. Collins, Colo., have been visiting them this week. Their little son, Randy, is a very cute little boy.

Jack is majoring in entomology at the Colorado State University at Ft. Collins.

Lois Dunlap missed three days of school last week with a cold.

On the sick list this week is Lewis Greer.

The Melvin Fries have heard from Earl Bragg who is stationed at Lackland A.F.B., Texas.

He seems to like the Service and it appears to agree with him. He reported he had gained 20 pounds. He had been on a field trip recently, with warlike conditions. Gunfire overhead, tripping land mines, etc.

Joyce Means was in the hospital a few days last week with the intestinal flu.

Mrs. Molly Frye and Mrs. Pearl Stearns attended the concert given by the A&M College band in Carrizozo Tuesday.

Beverly Witham is in part-time employment at the Lincoln County Agency (Citizens State Bank of Vaughn).

The wet snow and rain we have been having has been wonderful. No measurements have been kept, but there surely has been over a foot of snow, plus rain.

If we don't have too much wind this spring the country will be beautiful. No doubt a lot of wild flowers that haven't bloomed for years will dot the countryside.

Travel on the Nogal Mesa has been virtually impossible except by jeep with chains.

Ben Pfingsten has been down once in the last two weeks, but is fine and has plenty of fuel and food.

Floy Skinner has gotten stuck various times with his jeep with chains on the Mesa when he went up to feed his cattle.

Monday Mr. and Mrs. Clarence Shaw tried to go to Ruidoso by way of the Mesa but got stuck.

Ralph Dunlap and Floy Skinner pulled them out and they came on back to Nogal and proceeded to Tinnie and Glencoe.

Mr. and Mrs. Clarence Shaw and Miss Lois Jasper were dinner guests of the Dunlaps Monday.

Mr. and Mrs. Ralph Dunlap and family, Mrs. Sam Cox and Mrs. Irene Lindsay were business callers in Roswell Tuesday.

The Dunlaps took their son Wayne and Mrs. Lindsay and a group of children from Lincoln County for their yearly Crippled Children's clinic checkup.

Mr. and Mrs. Sam Cox visited Mr. and Mrs. Dick Cox and David in Las Cruces Sunday.

A REPORT FROM WASHINGTON

By DENNIS CHAVEZ
United States Senator

The Senate this week is considering a new program of GI housing to act as a brace to the national economy. In May of 1956, I warned the Senate Committee against allowing the veterans housing program to expire in 1957, as it did, because we were going to leave about half of the veterans in New Mexico without any housing advantages and we would be tinkering with skilled construction workers who made up about 25% of the New Mexico labor force. I think my warning came true.

Incidentally, for those of you having trouble finding mortgage financing in small communities, the Voluntary Home Mortgage Credit Program may be the answer to your problem, as it has been for over 30,000 persons who have obtained some \$284,000,000 in mortgage money over the nation. This program was established by the Congress to put prospective home buyers and builders in small communities in touch with lenders who have funds available for Government insured loans. Except for Albuquerque and Santa Fe, the entire State of New Mexico is eligible for assistance. There have been 390 families in the State secure financing this way. You can write for further information to C. J. Hermann, Executive Secretary, VHMCP, 1114 Commerce Street, Dallas, Texas, and he will help out.

Senator Richard Russell of Georgia, who ranks just above me on the Senate Appropriations Committee and is in the number two position is chairman of the Appropriations subcommittee on the Department of Agriculture, is going to try to do something about getting a livestock reporter for New Mexico. At my request, Dick has directed the Department to come before the subcommittee with the necessary information so that we on that subcommittee can vote on the matter. A price reporter has long been desired by New Mexico farm and ranch people.

ABOUT PEOPLE

Bill Nickels flew to Gallup and returned Sunday morning. He encountered strong winds coming back ahead of the storm.

Mr. and Mrs. Wm. Gallacher are going to Safford, Ariz., over the week end to be with Mrs. Gallacher's mother, Mrs. Elizabeth Grey, on her 87th birthday.

Mrs. R. E. Lemon was a business visitor in El Paso last Thursday, returning Friday.

Trinity Methodist Church News

By Rev. ROBT. DITTERLINE

You are cordially invited to attend the various services of our church. Our doors are opened to everyone, regardless of race, color or creed.

The theme for the morning Worship Service on Sunday will be "The Gospel of the Bruised Reed and the Smoking." Please read the entire 42nd chapter of Isaiah. Choir rehearsal will be at 4 p.m. All who wish to sing in the choir, please be present. The Junior Fellowship and the Senior MYF will meet at 5:30 p.m. The evening service will be at 7.

Meeting next week: Wednesday afternoon - Circle No. 1 of the WSCS at 2:30 p.m. Wednesday evening at 7:30 p.m., the Divine Circle of the WSCS. Thursday evening at 7 p.m. meeting of the cabinet of the Methodist men.

Next week, Monday through Thursday, Rev. Ditterline will be the evangelist for the preaching mission at the Aldersgate Methodist Church in Roswell. Pray that we might have a successful meeting in the name of Christ and that souls might be won to Christ and His Kingdom.

"Conflict Within: The measure of success that we have in mastering ourselves will determine, to a large degree, our ability to live happily with others. The person who cannot get along with anybody is invariably at war with himself. His impatience, his uncontrolled temper, his domineering ways are all projections of his own inner conflict." (John S. Bonnell in No Escape from Life)

Find the strength for your life and peace for your inner self. Worship God in His house each Sunday. See you in church Sunday.

that Mexico's mines might operate. I have been friendly towards Mexico all the years, but I want the tariff increased on these metals. Yet you would be surprised how many persons in New Mexico can ignore the plight of our own people and write me strong letters demanding to know how I feel on the reduced tariffs proposals.

This House Puts Beauty Into a Cost-Saving Rectangle

Employing the principle that a simple rectangular design produces the most house for the money, Designer Donald Scholz has here produced a house that's as beautiful as it is economical.

Here's the achievement—four bedrooms, two generous baths, all rooms of good size, and long, low sweeping exterior graciousness. Shutters, planter boxes, exterior siding variations, and a columned porch with arch design more than compensate for the simplicity of the home's four straight walls.

As interesting indoors as out, the house has a private L-shape sleeping area and a compact kitchen-dining-living area. The kitchen work space, also L-shape, shows how the designer utilizes this shape to gain utmost convenience with minimum interior-partitioning costs. All rooms are in line, with hall space kept well within "efficiency" limitations.

Definite planning has grouped all plumbing—two baths, laundry, utility, and kitchen—into one compact service area which shares plumbing lines. In an alternate basement plan, a staircase replaces the utility room, and both baths are the same size. Space for family living, with beauty and economy, are all present in this well-planned home. The secret—Designer Don Scholz' adept handling of a shape that's easiest to build, but most difficult to glamorize—the simple rectangle.

Floor area of the house is 1192 sq. ft. Get further free information on this house by writing: Don Scholz Design Associates, Dept. 106, 2001 N. Westwood, Toledo 7, Ohio.

POWER OF THE PRESS
A leading association of retailers recently held a convention. And one of the highlights developed, according to an Editor & Publisher account, is that "Newspapers remain tops among retailers—as the prime implement for moving goods."

That speaks well for the power, prestige and durability of the press, in this era when all manner of media are scrapping for a share in the advertising dollar. The printed word, in regularly-issued periodicals, has not lost its magic.

The USS Essex rounded the Cape of Good Hope March 28, 1800, becoming the first U. S. warship ever to do so.

I have always argued that there is a necessity to go forward with public works of the type of the Navajo Dam, new postal facilities, and related projects as a means of improving the national resources. Some day I would hope we would elect a "home-grown" President whose personal dedication and campaign is natural resources (both people as well as animals, vegetables and mineral categories) rather than an exclusive global viewpoint. I predict you are going to be hearing a lot more about public works within the coming weeks. I wouldn't want you to believe it would harken back to the days of WPA, FERA, and so forth, but it will be public works of a sound nature.

It is my opinion that New Mexico, except for the mining areas around Silver City, has fewer trouble spots from the standpoint of unemployment than most states. It is a shame that United States foreign policy has to be such that we kill off our own lead and zinc mines so

Activities of the Carrizozo FHA

By SELMA TEAGUE

Miss Dicks, our State-supervisor, visited our department Friday afternoon during Sixth period class. She was well pleased with the progress the girls were making.

Our principal, Mr. Merkel, showed us a film Friday afternoon during fifth period class about the U. S. Navy. Everyone enjoyed the film.

Clara Nell Burns, Mary Alice King, Belle O'Rear, Wadene Montgomery, Jean McGuire and Julie Robinson helped the PTA serve dinner on St. Patrick's eve to a large crowd of people. The PTA extend their thanks to them for their services. The girls did an excellent job.

Mrs. Teague served all the Home Ec girls strawberry punch Monday.

We are busy preparing our Home Ec notebooks and studying how to dress attractively and have that well-groomed look.

Mr. Wagner, the Junior Class sponsor, asked some of the Home Ec girls to serve at the Junior-Senior banquet.

Girls who volunteered to serve are Helen Vega, Arsenia Delgado, Christine Jones, Patsy Chavez, Dolores Lopez, Dolores Zamora, Eppie Baca and Tillie Pacheco.

The following women have visited our department lately: Mmes. Joyce McCollum, Mary Johnson, Hazel English, Annie Withers and Dorothy Curran. We appreciate their visits very much.

Superintendent R. G. Firman, visited our department Thursday afternoon. He informed us about Miss Dicks' impending visit.

Our elementary principal, J. T. Clegg, has invited the entire student body to a program Wednesday given by the elementary folk dancing group and a film that is to follow. We appreciate this invitation and hope to return the invitation soon.

'Tween Us Teens

By MARY (Ginger) NICKELS

Hi! Have you seen Glenda Sue King since she got home from college? She said that her roommates at Denver U. read "Tween Us Teens." They are: Linda Abbott from California, Alice Severson from Minnesota; Helen Pearson, Missouri; Carol Koehler and Elizabeth Blair, Montana. How about that?

Guess what? The Rainbow girls initiated two new sisters Wednesday night, Margaret Withers and Catherine Ladd. We sure are glad to have them with us, too!

You know, teachers are really a remarkable lot, aren't they? The other day I was reading an editorial written by James Colegrove, editor of the Raton Daily Range, called "What Is a Teacher?" It went like this:

"What is a teacher?"

"A teacher is a human, but can't act like one.

"To the kids, he is a little bit of mom, pop, nurse, slave driver and pal. To the mother, he is an inexpensive babysitter, an idiot, or a genius.

"He is a person often criticized and seldom praised.

"He is a professional, highly trained and lowly paid.

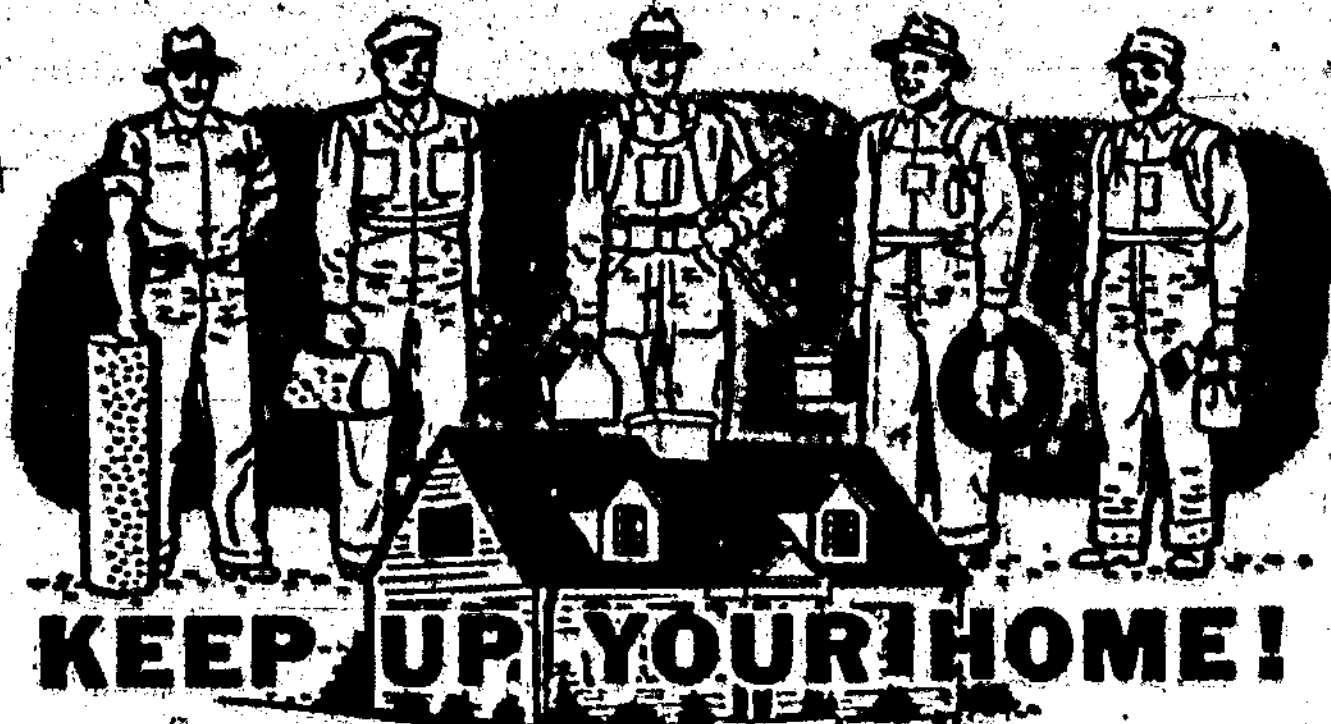

"He must have knowledge of atoms, jet planes, space ships, hot rods, and jacks. And he must teach Latin to those who know only Pop talk.

"He is a teacher and a molder of minds eight hours a day; then turns student for the evenings and summers.

"He takes all of our knowledges and transplants these learnings into the minds of our children."

This is part of the description of teachers and I think they deserve a salute! They're real great until you get an "F" then they're "square" from the word "go." They're your buddy and pal 'til your parents see the report card. That's teachers, bless 'em.

Watch our new satellite. —Ginger

KEEP UP YOUR HOME!

How Much Have You Invested in Your Home?

Your savings? Your family's comfort and security? Yes, all of these and more, much more! Your home is an expression of your confidence in yourself and your future. It establishes you as a good solid member of your community. It is your headquarters — the center of your happiness and your life's activities!

Protect and Increase This Great Investment

Obey that urge to make the house you live in spic and span, clean and fresh for Spring! Order fresh, new paint. Give your home a thorough cleaning, inside and out. Add new color to rooms, to furniture. Plan and plant a finer garden. . . IT'S TIME TO GET BUSY!

HOME OWNERS QUESTION BOX

Q—Our old roof is in pretty bad shape and we're afraid it might start to leak at any time. But a neighbor said we'll have to wait for warmer weather to have a new roof put on. Is this true?

A—Your neighbor is wrong. A new roof of asphalt shingles can be applied successfully at any time. In fact, cold weather actually is a good time to re-roof, since the work schedules of most roofing contractors aren't as heavy as they are in other seasons.

Q—My brother-in-law says our house doesn't need insulation because it has brick veneer walls. I disagree with him because the walls seem to be cold on the inside. Who's right?

A—You are. Brick veneer or any other type of masonry does not prevent much heat loss. You can test this yourself by placing your hand on a concrete or cinder block basement wall in winter. It will be cold, no matter how warm the basement is. In fact, tests have shown that a 3-inch thickness of mineral wool insulation will stop more heat than nearly 6 feet of solid brick.

Q—How can I make caulking around a bathtub last longer?

A—Paint it with enamel the same color as the walls or tile above the tub. The waterproofing action of the enamel will give the caulking compound longer life.

Q—How can plastic tile be cut to fit around fixtures?

A—A coping saw works best for intricate cuts in plastic tile.

Q—Is there a remedy for chalking plaster walls? We can't get wallpaper to stick.

A—Coat the wall with a half and half mixture of shellac and alcohol. This seals the plaster with a waterproof surface and the wallpaper will stay in place.

Q—How can I repair large cracks in a plaster ceiling?

A—It's not practical to attempt to fill the cracks, since the new plaster needs more support. Remove plaster on each side of the crack to a distance of about 6 inches. Place a strip of metal lath in the clearing, nail it to the old lath, and fill the opening with new plaster. Do this in thin layers, permitting each layer to dry slightly before adding a new one.

Q—Is a prime coat always necessary on new wood?

A—With rare exceptions, the type of wood, too, determines the kind of prime coat you need. If the wood is porous, the priming coat should contain enough oil to fill the pores. Resinous woods need priming coats with a high turpentine content to dissolve the resins and open the pores.

Q—What's the correct height from the floor for a wall socket?

A—Twelve to 18 inches in most rooms. A 48-inch height is recommended in kitchens, laundries, and workshops.

Q—How do I keep curtain rods and metal venetian blinds from rusting?

A—Wax them. The rods will slide easier, and the blinds will collect less dust.

Q—Can a broken ladder rung be repaired?

A—Cut the rung off flush with the inside of the rails. Make two blocks of hardwood, drilling holes in them the same diameter as the new rung. Fit the rung tightly into the two blocks, and bolt or nail the whole assembly securely to the inside of the rails.

Reading, Mass., Chronicle: . . . legislation had to pass the house and the senate and be signed by the governor to enable women and children employed in Massachusetts industries to accept a ½ hour lunch period instead of being required to take ¾ of an hour. The change was sought because where the men had a ½ hour lunch period and the women a ¾ hour lunch period, the women lost opportunities to share rides with other workers in car pools. This law regulating the length of women's lunch hours is an example of the kind of paternalistic laws that clutter up the books . . .

ANGHO

Mrs. L. L. Roby and Miss Barbara Funkhouser of Las Cruces were week end guests of the Tom Knights.

Mr. and Mrs. Tom Barnett and Gail Lynn of Las Cruces and Mr. and Mrs. Al Copeland and Debbie Ann of Portales were week end guests of Mrs. John Straley. They were here for a visit with their brother Cope who is home from the Army for a short stay. He will return to Ft. Carson, Colo., on Wednesday of this week.

"Gnat" Gnatkowski and sons Peter and Mel were in Tularosa Friday to visit the Jim Halls.

Mr. Christensen, S. P. agent at Tularosa was a week end guest of the Gnatkowskis at the Jack's Peak ranch.

Mrs. Betty Shrecengost, lovely representative of the Farm Bureau, was an Ancho visitor last Tuesday.

Orris Smith and Mac Bengel were in from their ranches east of Ancho last Thursday. They report much snow and rain and bad road conditions but no complaints about same.

The executive committee of the Women's Auxiliary met with Mrs. Vernelle Hightower last Thursday. The meeting was very instructively led by Vernelle.

At the close of the three hour

STATE GAME DEPARTMENT

LAND USE MEETINGS

The first of the annual meetings of Game Department personnel with land-use agencies will take place March 28 at Silver City.

Representatives of the Apache, Gila and Colorado National Forests, Bureau of Land Management and State Land Office will meet with personnel of the Department of Game and Fish.

SCHOOL FOR LICENSE VENDORS

Distribution of hunting and fishing licenses will be made at schools set up for the instruction of license vendors. Area supervisors and district conservation officers of the Department of Game and Fish will conduct these schools in their own areas. Subjects to be covered in the

meeting Mrs. Hightower served hot spiced tea and cinnamon twists.

The recent moisture is appreciated by the people of the community.

Mr. and Mrs. Leo Straley visited Mrs. Vernelle Hightower last Thursday. The meeting was very better since his hospitalization in Santa Fe.

school sessions are the proper manner of getting exact information and filling out the license form; the need to make monthly reports to the Department; and discussion of Department regulations, to enable vendors to answer sportsmen's inquiries.

Sessions were scheduled for Wednesday, March 19 in the Roswell and Las Cruces, area offices of the Department, and during the week of March 25 in the northwestern part of the state including Albuquerque, Farmington, Gallup and Chama. It is hoped in this way to establish better coordination between the Department and the vendors, with the ultimate end of giving better service to sportsmen.

TROUT PLANTINGS

During the period February 17-23 the Department of Game and Fish planted nearly 337,800 rainbow trout. About 65,000 of these were 7½ to 9 in. These included trout that had been raised by the Department for planting from fingerlings at the Hot Springs hatchery of the Fish and Wildlife Service.
