

Bus to Take Folk Dancers to Nashville

With one more local scheduled appearance, that in Budozo on April 30, Superintendent Montes has made arrangements with the New Mexico Transportation Company of Roswell for a chartered bus to transport 24 dancers to the National Folk Festival in Nashville, Tennessee.

The bus is scheduled to leave Hondo at 6 a.m. Saturday, May 2, and will arrive in Breckenridge, Texas, that afternoon for an evening presentation of the dances which will be exhibited during three evenings of performances in Nashville on May 6, 7, and 8.

Sunday night, May 3, will be spent in Vicksburg, Miss., with a scheduled stop in Montgomery, Ala., the following evening.

The night of May 5 will be spent in Rome, Ga., before driving into Nashville for their opening appearance the evening of May 6.

The first dance that evening will honor Mrs. Buford Ellington, the first lady of the state of Tennessee. The dancers have also been asked to give a dance of welcome to the State of Alaska, which will be represented along with 25 to 30 other states in the national festival.

The group will leave Nashville Saturday, May 9, with a stop that evening in Little Rock, Ark., where another performance is being scheduled. The night of May 10 will be spent in Oklahoma City, and the dancers are scheduled to arrive in Hondo on the evening of May 11, ready to report to classes the following morning.

Every effort is being made to raise the necessary funds for this trip. All attempts to receive financial aid from some source in New Mexico, have failed. A word of thanks and appreciation to the hundreds of people who have supported the local appearances, the Alamogordo Library Association, the Roswell Ave. Maria Center, the Artesia PTA, the Budozo Legion Post and American Legion Auxiliary, and all individuals, wherever they reside, who have contributed so generously to our solicitation for donations.

Additional donations are solicited for this group of student dancers, and it is felt confident that through efforts of individuals and organizations the Hondo fiesta dancers will soon have the necessary funds for the 3000-mile round trip to Nashville.

The group is expected to be the highlight of the festival and will undoubtedly capture the hearts of their audiences wherever they perform. If any New Mexico town or organization has any advertising materials, souvenirs, or other items of interest to the inhabitants of these neighboring states, contact Superintendent Montes at Hondo, and the group will see that these materials are distributed en route to Nashville, as well as at the festival there.

WILL HARRISON'S Inside the Capital

Santa Fe, April 22—An item that LaMar Bailey of Lincoln county was figuring on running for Demo nomination for governor next year if he could get a pardon for a federal felony rap in time to qualify brought in a dozen reports on Bailey's exploits and escapades.

The 42-year-old Bailey described himself as "something of an outlaw" when announcing his gubernatorial ambitions but emphasized that he had been convicted only once and that on a "legal technicality" in a Texas bankruptcy case. His moral integrity is unassailed, he said.

SHOOT AT COOK IN GALLUP FUSS

Bailey talked frankly to reporters of having been in shooting scrapes and courts all over the country. That was fairly well confirmed in the days following the publication of the article about his wanting to be governor.

From Gallup came a report of Bailey taking a pot shot at a cook in a night club with a .30-30 rifle, from Capitan a report of shooting the hat off a man in a bar, from Albuquerque a report of shooting a man in the leg.

An Albuquerque resident called to tell of an embezzlement trial regarding money Bailey had solicited from a lawyer to finance a treasure hunt and didn't deliver the treasure. Of that one Bailey said:

"They had a mighty tight case on me but they tried it in Lincoln county and I was acquitted."

A last name of Dexter read of Bailey and his aides occupying an expensive suite in the Santa Fe La Fonda and called from Albuquerque to tell that one of the aides had borrowed a hundred, apparently to finance the expensive suite.

WHAT MERE UP TO HIS PALE WOODS?

Bailey is an oil operator, drives a new Cadillac, has a family of eight in Capitan and has acquired a reputation on Bank Street.

WORK UNDER WAY ON NEW THORIUM MILL AT CAPITAN

UPPER LEFT — Forms for foundation of the fine ore bin. UPPER RIGHT—Foundation for coarse ore bin. LOWER LEFT—Foundation for coarse ore bin. Construction has started on the new thorium processing mill, located a half mile east of Capitan, New Mexico. Work is progressing satisfactorily with the completion of foundations for the 200-ton capacity coarse ore bin. Most of the steel beams and the timbers are in place on the foundations and excavating for the crushers and the conveyors is nearly completed.

By MARGARET RENCH

In an interview with Lee Downey, president of the New Mexico Thorium Corporation, it was learned that this new thorium processing mill will be the only mill of its type located in the southwest.

The process to be used in extracting the thorium and the other rare minerals from ore located in this vicinity is patented by the New Mexico Thorium Corporation and is the result of several years of experiments in extracting rare earths by Mr. Downey, A. J. Weising, a leading thorium expert, Thomas Dutch, one of the nation's top chemists, and others of the corporation.

The completion date for the construction of this mill is scheduled for July this year. It is so designed that by adding to each section of the mill the total milling capacity can be increased several times over the initial fifty tons of thorium ore processed per day.

The mill proper will consist of rod mills for grinding the ore, rakes and bowl classifiers and a series of wooden tanks for mixing the ore with chemical reagents to aid in extraction of rare earths, plus the ore driers. The end result will be a finished product not a concentrate.

Aubrey Duncan is in charge of construction and at present there are seven men employed on the construction. The Denver Equipment Company of Denver, Colo., has designed and constructed the milling equipment and their staff of engineers drafted the blue prints and designed the flow system for the mill according to the New Mexico Thorium Corporation's specifications.

This thorium mill will be semi-automatic in operation, requiring approximately three men for each shift, and in all probability it will require about fifteen full time employees to mine, transport and mill the ore bodies located near here.

This operation, which has been in the planning and experimental stage since early in 1954, is finally becoming a reality and will materially aid the economy of Capitan.

BASKETBALL GAME PITS BLOOMER BELLES AGAINST MAL PAIS BEASTS

It's all set up for this Friday night—the sporting event of the season—a basketball game between the Bloomer Belles and the Beasts of the Mal Pais, otherwise dubbed the "Pinching Six".

The ladies will meet the Lions Club—all for a good cause—the 1959 county cancer fund.

The game will start promptly at 7:30 this Friday evening in the Carrizozo High School gymnasium with prices within the reach of all—50 cents for adults, 25 cents for school children and infants free.

The Bloomer Girls have sharpened for the contest with two practices and another scheduled for Thursday night. The Beasts have shied away from practice on advice of their coach who doesn't want to go into the game with a bunch of cripples.

Coch Edgings was pessimistic when asked what chances the Beasts had against the Belles.

"They're certain to be in better shape," he said, "but we'll play 'em close and try to get the rebounds, figners' they'll miss a few shots."

Their lineup will include a number of star performers of past years, and many reserves. On the roster are Double Dribbler Reid, Limpy Burch, Stretch Posey, High Pockets Covey, Jet Power Hendricks, After Burner Baker, Hook Voca, Slim (Sally) Ortiz, Gumbler Clayton, Tex Shafer, Sparky May, Switchboard Edgings, captain, Man-to-man Mervin Smoot and Teevee Ferrara.

For the Bloomer Belles it will be Alvin Green, and Jackie Spencer, co-captains; Marian Schlitz, Margaret Shrum, Florence Grubb, Betty Ray, Georgia Harkey, Elizabeth Lineweigh, Fumie Ruth Rickerson, Debbie Lown, Ella Sidwell, Fern Dunn, Janie Warden, Frances Warner, Helen Nowell, Jane Shafer, Margaret Stearns, LaVena Murdock and Barbara Jeanne Brannan.

The game will be played by women's rules with three forwards

Ho, hum-m and Yawns and Tired Blood? Podner, it's a sure sign of Spring Fever!

Well, the children are off to school; guess I'll have another cup of coffee while I decide what all I must get done today.

Let's see now, that back room sure needs a good cleaning and straightening around. I'll do that first. Then I just have to get these cupboards cleaned. Should get that all done by lunch time. Then I'll get those leaves raked out of the flower beds. . . . It's almost time for my gladiolas and dahlias to be coming up. Then I'll give that back yard a good cleaning. . . . should get through early enough to get my shopping done before starting dinner.

M-m-m-m-m. Guess I'll have another cup of coffee before I get started. Jeopard! Before I get too busy I'd better phone Auntie and see how her back is.

Well, my goodness! There's Mary out working in her flower garden! Guess I'll go out and see her if she needs those halfback seeds.

Well, we'll see about it tomorrow. I'll get started early and get it all done. . . . yawn, yawn.

Officials Visit Carrizozo On Saline Water Tour

Four officials were in Carrizozo last Friday afternoon in connection with the government's plan to locate a saline water treatment plant in the Southwest. Carrizozo was one of the communities in New Mexico considered as a possible site for the plant.

Mayor Wayne C. Withers and Utilities Manager Dan Luera took the officials to the town's water well, located on a 40-acre tract south of town.

One problem, the officials noted, would be the necessity of a long pipeline to the Mal Pais to dispose of the residue from the treatment plant.

Included in the party were W. W. Rinne, engineer, from Washington; J. C. Yates, chief of the technical division of the State Engineer's office and a representative of the New Mexico District of Ground Water Branch, U. S. Geological Survey.

Carrizozo Asked to Transfer Gas Franchise

Carrizozo town officials have had two meetings recently in connection with the requested transfer of its gas franchise by the Tularosa Basin Gas Co. to the Arrow Gas Co. of Roswell.

A 20-year franchise was granted the Tularosa Basin Gas Company about 4 1/2 years ago, at which time they purchased the town's gas distribution system.

At a meeting late Tuesday afternoon the board withheld approval of the transfer, pending further negotiation on removal of the bulk storage plant alongside Highway 54 to a new location.

The deal between the Tularosa Basin Gas Company and the Arrow Gas Co. is still being negotiated, Manager Doll Ray said this week.

Town Cooperates in Civil Defense Alert

Reporting on the results of last Friday's civil defense alert in Carrizozo, Vernon Petty, civil defense director, said local cooperation was good.

When the fire siren signaled the bomb drop, county officials went into the courthouse basement.

Town officials temporarily set up for business at the locker plant. The sheriff's office, mounted patrol, State police and city police halted traffic into town on the two main highways and released the motorists at five-minute intervals.

Father Dennis assisted with his short wave radio, relaying messages to Santa Fe. The Santa Rita school children moved into an inner room of the school.

Business houses and the telephone company cooperated by explaining the purpose of the alert to all who had any questions about it.

The Carrizozo public schools were closed for the day, due to the teachers' convention.

J. E. Barbour of Norman, Okla., is currently visiting in Lincoln County. A former resident, with Mrs. Barbour, in Budozo, they plan to relocate in Budozo in the near future.

Blossom Festival At Hondo Saturday

Saturday morning will be the latest date for casting "votes" for Miss Opal McBrayer, Carrizozo's candidate for Queen of the Apple Blossom Festival.

Votes are 1 cent each and the money has been deposited in jars in many business houses. The Carrizozo Woman's Club, which is sponsoring Miss McBrayer, will collect the jars at noon Saturday and count the votes.

The Apple Blossom Festival, a yearly event of the Tres Valles Garden Club begins at 8 o'clock Saturday evening, April 25, in Hondo.

Other lovely participants for the title of Queen of the Apple Blossom, in addition to Miss McBrayer, are Rose Marie Houck of Capitan; Ella Ruth Jackson of Budozo and Josephine Salcido of Hondo.

Apple trees are blossoming along the highways leading to Hondo and a cordial welcome is extended to all to see the Festival.

Entertainment will be by Cadet Captain Robert Farrell of New Mexico Military Institute and his talented group.

Mr. and Mrs. Kenneth Schoenecke and children were in Denver this week attending the Electrical Home Show where the latest in modern electrical improvements were on display. The Schoeneckes also visited his father, Charles Schoenecke.

The club will elect new officers at its next regular meeting.

Club members will make a house to house canvass in the near future, selling high grade light bulbs in assorted sizes. The money earned will go for civic uses.

The club voted to take a \$20 space in the band boosters program; also to sponsor a baseball team in the Little League.

Guests present at the meeting were Lt. Will Parsons of North Ocala Peak, and Fred McDonald who spoke on the objectives of summer Little League baseball.

The Fall term jurors were discharged as of April 13.

Ramblin' Around Lincoln County

(Ed Note: The author of the following articles on Lincoln County has asked that his name remain anonymous.)

REALLY GREAT MEN LIVED IN LINCOLN COUNTY

Yes, I was born in Lincoln county and I knew some of the great men of the era. Being born in Lincoln county carried with it tremendous privileges and some responsibilities. Because I was familiar with this area, I was privileged to know some of the outstanding men of the Old West.

I knew Pat Garrett, George Curry, John W. Poe, Capt. Joseph C. Lea, Smith Lea, Frank Lea, W. M. "Billy" Atkinson, Frank and George Coe, W. C. McDonald, Edward A. Cahoon, James F. Hinkle, John J. Hewitt, Dillard Hiram Wyatt, John C. Peck, James Madison Hervey.

Herbert J. Hagerman, Fred Higgins, Claude Hobbs, C. D. Bonney, Albert Hannay, Joe and Nathan Jaifa, Oliver M. Lee, George W. Fritchard, Harry Jaifa, Louis O. Fuller, James J. Hagerman, Eugene Manlove, Rhodés, J. C. "Charlie" Gilbert, J. Phelps and Tom White, William H. Pope, Colin Neblett, Charles L. and Richard F. Ballard.

Edward C. Giesert, Andrew Jackson Welter, Harry Thorne, Lyman A. Sanders, Sr., F. P. "Neighbor" Gayle, Col. D. C. Pearson, C. C. Hill, James V. Tully, Paul and Will Mayer, B. J. Bonnell and Albert Bacon Fall, Burton C. "Cap" Mossman, Jimmie Farrell, James Sutherland, Martin Chaves, Farrar Frank Gressett, Will C. Lawrence, C. B. Eddy, The Wingfield, William A. Hawkins, Tom Fricmore and a host of others who might well have been named.

Here was an illustrious and wholesome group who have crossed life's stage and who in the crossing have played many parts. They were men of steel. They had to be, otherwise they would not have been able to survive in this new and untried country, which demanded the best of all men who came to push back a last frontier. They were builders of railroads, planters of orchards, statesmen, politicians, farmers and ranchers, and bankers, but they were all builders in a new land. They built on solid foundations, and even today many monuments rise toward the sky in their memory. They left the world, and especially Lincoln county a better place in which to live.

These sturdy pioneers were essentially men of vision. . . they believed in the future of the great southwest. They were men who knew there was "gold in them thar hills"; they knew that water would make the prairie bloom as the rose.

They were men who blazed a new trail, overcoming all obstacles. Many had the satisfaction of enjoying the fruits of their labor, while others were called to a "round-up in the sky" far before their time. Beside each of these sturdy pioneers stood a noble woman, a pioneer mother who always kept her face turned to the sunrise regardless of what the situation might be.

They are gone. . . these strong and sturdy men that I knew. On the stage of time they played their many parts well. They have left an undying record on the history of Lincoln county and New Mexico. Their achievements have been recorded in granite, and somewhere beyond the stars, where the camp fires are still burning and the cowboys are still singing their songs they are certainly carrying on.

I was born in Lincoln county and I was privileged to know these men. I shall know their like no more.

Cactus Plants May Have Medicinal Properties

Chemists are finding that "soapy" agents in yucca, prickly pear cactus and other desert plants are useful in researches aimed at controlling arthritis, cancer, diabetes, and mental disorders. Southwest Research Institute suggests that a new industry may be built up in the cultivation of these plants for their medical value. We have seen uranium and oil enrich New Mexico lands once believed to be valueless. Perhaps medicine some day will provide a market for cactus—U.S. Sen. Clinton P. Anderson.

Hondo Delegates to Attend State PTA Meet

On April 23, 24, and 25, Mrs. Joe McKnight, president; Mrs. Fred Torrez, vice president, and Mrs. R. C. Nunez, secretary of the Hondo PTA will go as delegates to Las Cruces to attend the New Mexico Congress of Parents and Teachers. Making the trip also will be Mrs. Wilbur McKnight.

The meeting will be a constructive one—the need to develop more effective PTA action in each community. In the plans are seven "Subject matter workshops" and four "How-to-workshops" designed to inform all those attending about effective work in the PTA.

In addition the convention will have the distinguished speakers, Dr. William G. Hallister, chairman of the Committee on Mental Health of the National Congress of Parents and Teachers, and Dr. Kenneth McFarland, education consultant and guest lecturer for General Motors.

Mrs. J. McKnight Heads Hondo PTA for 1959-60

In an impressive ceremony conducted by Mrs. Carl P. Hadcliff, the Hondo PTA officers for the 1959-60 year were installed.

Serving for the second consecutive year are Mrs. Joe McKnight, president and Mrs. R. C. Nunez, secretary; Principal John Hamilton, parliamentarian, and Mrs. John Hamilton, historian. Newly chosen officers are Mrs. Fred Torrez, vice president and McKinley McTelque, treasurer. Each was presented with a white carnation.

Among the business matters decided upon was the sponsorship of a girl to Girls' State. In the room count, Mrs. Gurule's second grade received the traveling picture. Because of the absence of past presidents, Mrs. Frank Peters and Mrs. George Sienros, the presentation of past president pins by Mrs. Wilbur McKnight was delayed. A total of \$323 in the treasury was reported by Mrs. Ernest Booky, treasurer.

Mrs. McKnight made the following announcement of committees for the year: Program, Elma Torrez, chairman, Mrs. Ed Nelson, and Mrs. Dick Fresquez; membership, Ben Sanchez, chairman, Fred Torrez, Mr. and Mrs. Dick Kimbrell, Mrs. Leo Joiner; finance, Amanda Torrez, chairman, Mrs. George Butta, Mrs. Vicente Gomez, Mrs. Waldo Nunez; magazine, Mrs. Glen Bradley, chairman, Mrs. Albert Gomez, Mrs. George Sienros; hospitality, Mrs. Albert Kimbrell, chairman, Mr. and Mrs. F. S. Montes; student council, Dauri Chavez.

At the close of the business session, those present at the meeting visited the shop where they enjoyed an exhibition of shop work done under the direction of the instructor, Albert Gomez. Among the items on display were a cedar chest by Monroy Montoya, a gun rack by Reyno Montes, advanced mechanical drawings by Ernest Howlson, several coffee tables, and a variety of small articles. The new equipment on display included a hand saw, table sander, portable belt sander, new work table, and an electric drill.

At the social hour cake and coffee were served by hostesses Mrs. Judd McKnight, Mrs. Albert Kimbrell, Mrs. Joyce Harrington, and Mrs. Darr Sales.

Mrs. McKnight announced that on April 26 there will be a meeting of all committee chairmen at the high school. Since this is for the purpose of planning the program for next year, she urged all chairmen to be present.

Tularosa Rotary Receives Charter

Friday night, April 17, the Tularosa Rotarians received their charter. Tularosa is the 42nd club in district 552 (Carrizozo being 43rd). There are 135 Rotary districts in the United States and Canada.

The program began with a smorgasbord dinner. Call to order was by Walter Wade, special representative of the district governor. The group then sang "God Bless America" and the invocation was by Billie Holder.

Welcome to all visiting Rotarians was by Harry Powell of the Tularosa Chamber of Commerce. Singing was led by Irvin Menger. Special entertainment was by the Alkali Quartet of Alamogordo.

The induction into Rotary was by Harry Ditzler, former president of the Alamogordo Rotary Club. He spoke on his trip to France and of other Rotary Clubs in the State (there are almost half a million Rotarians now across the nation).

L. A. "Andy" Hendrix, governor of District 552, addressed the Rotarians. His speech was on just how he feels about the Rotary, and it was very good. Presentation of the charter was also by Governor Hendrix. The charter was signed by Cliff Randall, George Means and Mr. Hendrix.

Acceptance of charter and response was by Herman Mayberry, president of the Tularosa Club. He then introduced the members of the Tularosa Club, and they were given their Rotary pins.

President Mayberry received a lovely diamond pin.

The Rotary bell and gavel was presented to the Tularosa Club by the Alamogordo Club.

The meeting ended with the group singing "Auld Lang Syne."

Officers and directors of the Tularosa Rotary Club are: President, Herman Mayberry; vice-president, Delfin Davalos; secretary, Emil Wohlgenuth; sergeant-at-arms, Wally Massey; directors, Lyle Danko, Bill Rich and Frank Thompson.

Ramey Smith of Alamogordo won \$100 and Alfredo (Tin) Olivarez won \$50 prizes at the Legion hall Saturday, April 18. Bob Seaman, who sold 150 tickets won an award of \$10 offered by the Post; Saul Cordero received \$5 for selling 150 tickets.

Births

At Tularosa Clinic this week:

To Mr. and Mrs. Walter Henley, a girl, weighing 8 lbs., 1 oz., on April 15, 1959.

To Mr. and Mrs. Charles Smith, a boy, weighing 6 lbs., 3 oz., on April 17, 1959.

To Mr. and Mrs. Arthur Sheppard, a girl, weighing 7 lbs., on April 21, 1959.

FELIX MILLER

Felix Lafayette ("Pop") Miller will celebrate his 77th birthday on April 26.

Mr. Miller was born in Stevens County, Texas, in 1882. He was named for a close friend of his father's, the Marquis de Lafayette, a citizen of France, who was a citizen of the United States by an act of Congress.

As a very young boy Mr. Miller learned to be a top notch cowboy, riding in cattle drives with his father from Texas north.

Mr. Miller came to this country while still a young man. He was, in succession, range foreman of the Flying H, the V 4 V, the Bar Cross and the Diamond A. He was at one time employed as town marshal of Cutter, N. M., and later served for five years as brand inspector for the Cattle Sanitary board at Albuquerque.

He married Miss Mae Gillmore at Ruidoso in 1915 and moved to Tularosa in 1916, where they have resided ever since.

In 1942 at the age of 60 Mr. Miller went to work in the woodmill at what was then the Alamogordo Army Air Base. It is now Misallo Air Development Center. He worked there for about three years, but finally decided to retire and take it easy. I think he deserves a rest, don't you?

Mr. Miller has a wonderful sense of humor and can really tell some interesting "tales." He is still spry for his age and in good health, although rather spoiled, so Mrs. Miller tells me. She has told some real good ones (as she says) on him.

One I enjoyed very much was about a hair cut. It seems Mrs. Miller has always been his barber and one morning at 2 o'clock Mr. Miller woke her and asked if it would be too much trouble for her to cut his hair. She cut his hair.

Another morning at 1 o'clock he got her up to cook bacon and eggs for him. Mrs. Miller enjoys telling these little tales on him and certainly enjoys spoiling him. She says "There never was and never will be another man like him." I certainly agree, don't you? Drop in and visit "Pop" and Mrs. Miller some time. They would love to see you and you will enjoy every minute of the visit and be anxious to return again, and again.

Carolyn Pierson Is "Maid of Cotton"

The second Maid of Cotton Contest and Fashion Show on Saturday, April 18, was a big success. Any who missed seeing the lovely girls, beautiful clothes and the very beautiful scenery really missed something. Approximately two hundred attended.

"MAID OF COTTON"

First place winner and new Otara "Maid of Cotton" was Miss Carolyn Pierson of Tularosa. Second place, Miss Martha Zabriski, and Miss Pat Alderson and Miss Beth Livingston tied for third.

Miss Pierson was crowned by last year's "Maid of Cotton"—lovely Mrs. Sipes, the former Ruth Kelly, and Dwight Bookout presented her a beautiful bouquet of red roses, compliments of the Farm Bureau. The beautiful and clever crown was made by Mrs. Adrian Walker.

Judges for the show were Dr. Phil Leyendecker, assistant dean of agriculture, New Mexico State University; Jim Cole, economist at N. M. S. U.; Shiri Brunell of Alamogordo, a former national contestant for "Maid of Cotton," and Cecil Harpell, associate agriculture editor for the extension service at New Mexico State University.

G. V. Clayton opened the show with a welcome to all present and a big thank you to all the business men who fitted the models and contestants; to the Beta Sigma Phi, and two of our teachers, Robert Tinnell and John Turner for the long hours and hard work they spent on the beautiful scenery.

Mr. Clayton also thanked the Extension Club for the lovely corsages they made and presented to each lady attending the show; the Farm Bureau ladies for the delicious punch and cookies served, and to the Tularosa school for the use of the gym. He then introduced Mrs. Dan King, who was commentator for the fashion show.

The models were Marilyn Thomas, Jeri Ann Bounds, Mary Viola Sartin, Jane Nelson, Lucy Beth Posey, Linda Hardin, Edna Kathleen Phillips, and Pat Gould; also the contestants for Maid of Cotton: Beth Livingston, Pat Alderson, Martha Zabriski, Carolyn Ann Pierson, Margaret Lowry (the latter was ill and unable to attend.) These girls all did an outstanding job.

While the judges were making their difficult decision, punch and cookies were served to all present from a beautifully decorated table, by Mrs. Dink Meyers, Mrs. Leon Nowell, Mrs. Adrian Walker and Mrs. Bill Ramsey.

Reserve Exhibit Space Now

Dan Love is chairman of the craft show for the Rose Festival and would like for anyone who has anything they would like to exhibit to please call him, or call JU 5-2598.

There is to be an art exhibit, crafts exhibit and flower show—all in the high school gymnasium.

Mrs. Lyle Bishop

Installed PTA President

Mrs. Lyle Bishop was installed president of the P.T.A. Thursday night at the regular meeting of the organization.

The meeting was held in the school cafeteria dining room where a delicious dinner was served by cafeteria personnel to a number of P.T.A. members before the meeting.

W. E. Marr, district director, was installing officer. Other new officers are E. K. Kennedy, vice president; Mrs. Harry Clifford, secretary, and Mrs. Denzel Davis, treasurer.

The ceremony was brief but very fitting, as each new officer promised to make the welfare of our children their first consideration.

Miss Ella Fanning presented Nathan McNelly, superintendent of schools, who gave a brief but extremely interesting and informative resume of this school year.

He also related a few highlights of his trip to Hot Springs, Ark., last week where he attended the Southwestern regional conference on administrative leadership.

One of the speakers, Dr. Brown, from a county school system in Wisconsin, brought out two points during his talk on human relations and the importance of getting along. He pointed out:

"No man carries a heavier burden than the man who has a chip on his shoulder."

"The smallest package in the world is a man wrapped up in himself."

Mr. McNelly named some of the things accomplished in Tularosa

91st Annual Fiesta Commemorates Famed Battle of Round Mountain

The 91st annual Fiesta in honor of the pledge to Saint Francis, made just before the battle of Round Mountain on April 17, 1868, will be held May 2 and 3.

Approximately 25 men of Tularosa left to fight this battle. Only five or six of them had horses as the Indians had killed almost all of the horses brought in by the early settlers.

The "La Promesa Solemne" (The Solemn Promise) that the men made to St. Francis was—if spared in this battle—they would build a church in his honor and remain faithful forever, both they and their children.

It was considered that St. Francis aided them to victory, hence we celebrate again—the Fiesta—commemorating the pledge to St. Francis.

The Fiesta this year will follow the pattern which has been considered traditional in Tularosa—longer than the average life lasts.

Are the Tularosans lying up to their vov? Let us peek into the goings-on:

There are to be several new additions this year. "Las Chianepacas" (a Mexican folkloric dance performed by young ladies) is a dance that originated in Chianepas, Mexico. "Las Chianepacas" imitates the gay colors of Nature's flowers, by hand-painted dresses in various flowery designs.

The ten young Tularosa girls who will dance Las Chianepacas are making all efforts possible regarding authenticity of dress and dance. The Chianepacas is one of the most colorful Mexican folk dances.

Also, exhausting attempts are being made to revive "La Danza." This is a religious dance and is the same dance performed by the Tularosans the evening of April 17, 1868.

Another dance to be performed will be the "El Jarabe Tapatio" (Mexican hat dance). The Jarabe Tapatio originated in Jalisco, Mexico. We can't leave out the elite of all Hispanic dances—El Tango; then the "El Paso Doble," and last but not least "Las Cuadrillas."

Something else new will be "Las Mananitas" (Morning greetings). This will be sung for the first time in the history of the St. Francis de Paula Fiesta, on Sunday morning, May 3.

The statue of the Patron Saint will be carried outside the church, near the entrance. All the singers and musicians will then surround the statue and greet him on his feast-day. The melody and accompaniment will be carried entirely by string instruments throughout "Las Mananitas."

Each patron saint, honored by Las Mananitas, has a different set of lyrics. Las Mananitas for St. Francis de Paula first thank God and ask His blessing. Verses that follow describe the charity of St. Francis, the confidence the first Tularosans placed in him, their victory in battle and finally "La Promesa Solemne."

After the Morning Greetings, the statue will be carried into the church.

The lyrics of Las Mananitas (de San Francisco de Paula) were composed partly by a long-time resident of Tularosa, Mrs. Simona Serna Candelario.

We mustn't overlook the "Los Yuncasos (Shooting the Armbils),

during the current school year—the guidance and counseling program, opening of the new elementary school, and the cafeteria—to name a few.

Some of the statistics quoted should be very important to every one in Tularosa. At the end of the 1955-56 school year the enrollment was 638. At the beginning of the 1958-59 school year the enrollment had jumped to 856 and at the present time is 909. Next year the enrollment in September is expected to be close to 1000.

"Our schools are growing," Mr. McNelly said, "and we must see that the requirements of our children are met if they are to get the education to which they are entitled."

The P.T.A. will have a float in the Rose Festival parade on May 16 and all members are asked to volunteer their services to help with this project.

along with firing of a shotgun during the St. Francis de Paula Fiesta. It is a custom that probably has the oldest tradition.

And so St. Francis de Paula will be honored by the Tularosans with many loud explosions for this year's Fiesta May 2 and 3.

Lighted Cross to Signalize Coming of Fiesta Days

Simon Paz, Knight Captain Keeper of the Cross, has the responsibility of seeing that the cross on Round Mountain is prepared for the ushering in of Fiesta week.

Mr. Paz and his fellow knights and ladies of the Holy Crown will assemble at the cottonwoods just east of the bridge on Tularosa Creek Sunday, April 26, for a picnic. The men will climb the mountain to the cross, paint it, test the lights and prepare it to be lighted each night for the week before Fiesta.

Meanwhile the ladies will prepare food and after the men return down the mountain, there is feasting, dancing and fun till far into the night. The lighting of the cross each night is the responsibility of the Keeper of the Cross—a job that he faithfully and diligently carries out.

Costumes for the Fiesta

Mr. and Mrs. Frutoso Marrojo and Mr. and Mrs. Rudy Guerra made a trip to Juarez Sunday to get some costumes for the Fiesta which takes place May 2 and 3.

The Fiesta promises to be an outstanding event and there are a lot of people working very hard to make it a success.

We will have more information next week about the Fiesta.

Writing in The New York Times Magazine, Kingsley David describes the increase in the earth's population as an "explosion." Sixteen years from now, it is estimated, the earth will contain a billion more people—and in 41 years nearly four billion more.

Boy Scout Pageant May 5 at School House

The Boy Scout pageant will be held at the school house at 7:30 p.m. There will be musical numbers, etc. The Woman's Club will sell pies and cake. Admission is adults 50 cents, children 10 cents and all proceeds go to buy our baby bear (Smokena) a cage.

The Woman's Club convention was held in Alamogordo last week. Attending from here were Mrs. Pat Flatley (three days), Mrs. Bill Hill on Tuesday, Mrs. Angelina Province on Wednesday, Mrs. Stratton and Mrs. Hugh Calhoun attended Tuesday night. All had a grand time.

There was a fire in the ceiling at the Ramon Padilla home last Wednesday which seemed to have started from an overheated stove. Damage was small due to the quick thinking of the ones at home. The fire department was called and soon all was under control without serious damage.

Mr. and Mrs. Bob Evans (the former Olivia Vigil of Alamogordo) are visiting her mother, Mrs. Frances Vigil, and family for several days. They have been visiting his mother, Mrs. Thelma Evans, in Chauncey, Ga.

Clean up Campaign Still in Full Swing

The clean up campaign is going on in full swing. Mrs. Daisy Gehring has torn down and taken away old sheds—still lots to do but she is working at it. The Blinn have done the same thing at the former Ackerman place on First street. All through town you can see them coming down and that looks good. Mr. Huntsinger still has men working on his property, the old Mother Julian place. Mr. Crusoe will be here very soon to start to work on his lots. All of us are just going to keep on and soon we are going to have the cleanest town ever. Let's all pull together on this.

Harry Lambert of DeLeon, Tex., returned to Capitán after several months' absence and expects to make his home here as soon as he can buy a lot to build a home. He will make his home at the Mountain Home Motel until that time. Welcome home, Harry.

Mr. and Mrs. B. C. Knight of Lompasas, Texas, spent a week with their daughter, (Mr. and Mrs. Grady Wallace).

The Albuquerque baseball team played the Fort Stanton team at Fort Stanton last Sunday for the entertainment of the patients. There will be many such games this summer.

Mrs. McGuffin went to Roswell last Friday to spend the week end with her mother.

Smookey Dance at Legion Hall Saturday

A Smookey dance will be held at the American Legion Hall Saturday, April 25. There will be good music for all ages. Remember if you like to dance, now is the time, as your presence helps give the funds for building the Smookey Bear Museum a boost and we truly need funds to get it completed. Do help us and enjoy yourself while you are doing it. We hope to meet you at the dance and bring your friends.

Dee Hickman donated \$20 to the museum and Arvel Posey of Carrizozo donated five sacks of rich mortar for same. Thanks a million to you both, we do appreciate it.

We had hoped to start construction on the roof Tuesday but rain and snow held things at a standstill. We do appreciate this moisture and hope for more. Things will hum when it does clear.

Vandalism with BB Guns Should be Stopped

We have some boys here (or someone) who need correction. Last Saturday when Mr. and Mrs. Bert Manning were gone for two hours some one shot with a BB gun through their front door and broke the glass, then went in and did damage there with the gun; then shot out the street light near them. The Mannings live on the Robert Leslie place. When it was vacant culprits shot through the ceiling etc., requiring repairs to the roof. This all may be fun to them but it is damaging others' property. Let's put a stop to this.

Mrs. M. C. Sweatt

Mrs. M. C. Sweatt, sister of Mrs. Mac Thorp, died at 5 p.m. Friday, April 17, in her home in Lovington, after a long illness.

She was laid to rest Saturday afternoon beside her husband in the Lovington cemetery.

Survivors are her six children, Cecil Sweatt of Denver City, Tex.; Clara Wilcox, Norco, Calif.; Fay Fort of Tatum; Robert Sweatt of Houston; Mildred Leverett of Hobbs; and Reba Nell Bengo of Lovington. Also by 19 grandchildren and two great-grandchildren; her mother, Mrs. Martha Brewer, of O'Donnell, Texas, and four brothers and two sisters.

Mrs. Juanita Calderon and two children are going to spend the summer with her parents, Mr. and Mrs. Manuel Benavides, at Lincoln. Mr. Calderon brought his family last Friday, returning to his duties in Goodyear, Ariz. It is in the 90's there now.

Grandmother Maryfield has been very ill at home, needing 24 hours attention. She is a little better at this time.

Teensters Union No. 1

By FAN REID

Hi! That Senior play was really swell, wasn't it? I think all who acted and helped really did a good job. I know I was just laughing constantly. It was the funniest thing I've seen in ages.

I read a cute story the other day. It seems as if Bob Smith was always in trouble. Now he was really in a fix. It was one week before report card examination and Bob didn't know a thing. Every night for the past five weeks he had stayed out late and done anything that he wanted to. At the time he thought he was having the time of his life, but now he wasn't so sure.

Maybe in the next week he could study good and hard; but now he was afraid of being called a coward if he called off all of his dates. Finally he decided that study was the only possibility since his parents were going to see his report cards, too.

He was worried for fear that Sally would be unhappy with his decision. Sally was the prettiest girl in school and his steady date. She was quite put out about not getting to go to the Wednesday afternoon dance, but she didn't let on too much.

Bob began to study like he had never studied before and when the end of the week came his grades showed his extra effort. As it turned out, he was in good with his parents, Sally was very proud of him, and he became eligible for the varsity basketball team. He found out before it was too late that working hard in school really paid off.

Too bad I didn't read that story last week. It would have just about fit in with report cards!

Speaking of stories, I would appreciate any interesting little stories or jokes you happen to read and would like to share with the Teensters—and, please, sign your name.

Now, how about a letter? Dear Pam: We are fifteen and very much in love. Our parents won't let us marry and we are too young to elope. What should we do?—Desperate.

Dear Desperate: You may be in love, and then again, you may not. I think it would be a good idea to wait a few years to find out. If you read my column last week you might have read "advice to teenagers" by Meg. I think it

is wonderful advice. Date others and wait a few years and you will be much happier (at least the chances for happiness will be greater)—Pam.

Those of us who worked on the cancer drive, going from door to door, would like to thank all of you for your contributions and for your courtesy to us.

You know there is going to be a big basketball game this Friday (the 24th) between the Lions Club "Cats" and the Carrizozo "Bloomer Girls." It should really be wild. See ya there. This is a must!

Hope you have all met my two big brothers who are staying with us now. Chaz is in the 10th grade and Phil is in the ninth. I haven't seen them since last June and they seem to have grown a foot (in height, not an appendage). Anyhow, welcome to Carrizozo, brothers! If a sister's welcome means anything—you have it!

Gosh! I almost forgot to answer a letter that came in too late for the edition last week, so I'd better get it in this week.

Dear Pam: I hope you can solve this one. I have been going with a boy I like very much. I also have a girl friend who is always trying to take my boy friends away. She is a very loyal girl but I am beginning to dislike her a lot. I am afraid she will now try to take this new boy away. What should I do to keep her from stealing my boy friend? I do not think I should consider her my friend any more. Please tell me what you think. Loyo ya, "Desperate."

Dear "Desperate": I guess there's no boy livin' who isn't a sucker for that "come-hither" look. You can't hang blinders on the boys—and as long as a female is a female there's going to be "come hither" looks! That's nature—and who am I to want to change nature? However, I agree with you that this girl-friend of yours may be loyal (although I don't quite understand why you regard her as such) still there is no excuse for making a play for every boy you go with. She is either (1) trying to hurt you; (2) build up her own ego; (3) prove something to the world; or else, using you as a "decoy." My suggestion would be to "drop her like a hot potato" (in a nice way, of course.) All is fair in love or war—they say, but there's no use keeping the enemy right in the trenches with you! Give her the "gate" and I mean "pronto." Good huntin'!—Pam.

Write your comments, gang. Send in your problems—I've got two big brothers to go to for advice now!—Love, Pam.

News Notes from Along the Bonito

By LOUISE RUNNELS

Those Jal folks are getting things done in Bear Canyon. They have a real water system that everyone will appreciate. Yes sir, hot and cold running water. With a winch truck they put a 60-barrel tank on a hillside where there's a tunnel and spring and piped the water into the tank. From the tank the water is piped 750 feet to their two-story summer cabin, with a bath upstairs and downstairs. Last week Spencer Ely and several boys from Jal, Arvel and Robert Runnells, Jim Byler and Billy Faulkner worked getting the place just about finished. Jim Byler cooked for the boys. They added three rooms and different stairs.

Now Arvel Runnels will have water, too, from this supply. His cabin is nearby. The water is going into the tank at the rate of three gallons a minute and the boys expect that more will be running soon.

All these boys have worked hard and made some long hauls and drives to get their cabin ready for vacationing this summer. What's disheartening is folks like these spending money in our community and county, then our Governor votes a bill permitting stocking of fish in Bonito Lake by the Game Department. All the Jal folks like to fish and bring many fishing friends here, but they are only a few of the disappointed people.

Ruth Ely and two sons Steve and Mike came from Jal Friday night to take daddy Spence home. They spent the week end in the "Jal Dudes" cabin at Bear Canyon. Spence is a little behind on his mail, after having been on the Bonito boat two weeks. Mr. Ely also patented and manufactures the "Ely Gas, Oil and Water Separator" there at Jal.

Eula Corder of Angus went to Corpus Christi this week to drive her parents, Mr. and Mrs. M. E. Littleton home. She will return by plane or bus—the one having best connections.

Mr. and Mrs. Corder have received five letters from senators and representatives in answer to their letters asking for Red Canyon Missile Base to be left there. These letters said they were doing all possible to keep the base—at least they answer so why not let's try to get Governor Burroughs to help stock Bonito Dam with fish and for Pete's sake help with the old hotel remodeling in Lincoln town. Both issues seem a must for our "Playground of the Southwest."

The cancer drive tea at Angus community building was real nice.

Ladies came from several miles around to help make it a success. Mr. and Mrs. Weldon Millsap and daughter from Lovington spent the week end with Mr. and Mrs. Earnie Hayes. Kathy, the little daughter will stay a week with her grandparents.

Mr. and Mrs. L. V. Stone were in their cabin over the week end.

Mr. and Mrs. Bob Devers had relatives over the week end from Midland, Texas.

H. R. "Mac" McAlmon, and his daughter, Mrs. Stuart Hutson, husband and children were in their cabin on the Bonito over the week end. They plan to do some remodeling soon. They live in El Paso.

Budro Morris spent the week end with Mr. and Mrs. Lois Morris and Wilson Purcella. He was on the Bonito Sunday with Wilson.

Ross Coe who works at Orogrande, on road construction was on the Bonito Sunday, and visited Mr. and Mrs. Lloyd Coe on their farm near Ruidoso—better known as "Grind Stone Mesa" — or the "Old Wingfield Dairy." It is a beautiful place — what with all the cleaning up and garden spots with rows already made and sticks at the ends labeled — "beans, corn, onions, carrots, and lettuce" — to visit them makes one just real anxious to get going with a garden.

Mr. and Mrs. Paul Schriener from Carlsbad were in their cabin over the week end. They had friends, Dr. and Mrs. Abbott from Carlsbad and the Alexanders from Ruidoso as visitors on Sunday.

Mr. and Mrs. Richard Thomason Albert Thomason's parents, who live in Amarillo in the winter time are spending two weeks in Mr. and Mrs. Albert Thomason's cabin here on the Bonito. The elder Thomasons have a summer cabin at Tres Ritos, N.M., up near Las Vegas, but say it's a little chilly there yet to begin the summer season. We are glad to have them in Bonito City.

It has rained enough so far to help the grass and settle the dust, for which we are thankful—need more rain though, before the Forest Service closes the roads because of fire—that's all we need now after Governor Burroughs vetoed out fishing.

Jim Byler received his hospital call to Albuquerque. He is to report the 29th of April at 8 p.m.

On April 30, approximately 450 8 1/2 to 10 inch trout were planted in Nogal Lake. It has been stocked three times now. Recently a load of 250 3-inch fish and then a load of approximately 1800 good size fish.

A Sermonette

By HAROLD C. ELY

There is no substitute for some things. There are many substitutes for food and beverages, some of them good but many are not just like the real thing. Some have even tried to substitute real U. S. currency with counterfeit money, but found it didn't work for Uncle Sam wouldn't go for that.

Turning to permanent and more important things we find many who are trying to substitute God's plans and will with their own ideas and philosophies. As depending on their own good works to get them to Heaven, instead of by faith in Christ and His atoning work on Calvary.

The scriptures say plainly that you must be born again or you will never get to the place the Lord is preparing for them that love Him. Please read the third chapter of the Gospel of John carefully. Then if we believe, God rather than men's ideas we would say there is no substitute for the Lord's way to Heaven.

Another thing that many today are trying to substitute, is the church. Again the Bible is very emphatic on this point in declaring that everything in this world will some day be destroyed but the Word of God and the true Church. (When we speak of the true church we mean all born again ones regardless of denominational affiliation).

The organism called the church which was founded by the Lord Jesus Christ cannot be substituted.

March Showed Increase in Gran Quivira Visitors

Visitation to Gran Quivira National Monument during the first quarter of this year increased 36%, according to Channing T. Howell, superintendent. The month of March shows an increase of 121% over the same month last year.

There is no admission charge to visit the archeological area, which is located on State Highway 10, between Carrizozo and Mountainair.

with any group of any people of any time of any place. If we use anything to take the place of the church we know that we are in something not permanent.

May we not try to use any substitute for anything that God has ordained, but accept Christ and His word joyfully.

DIAMOND DUST

By J. S. C.

In a loosely played and erratic seven inning baseball game on the Fort Stanton diamond last Sunday afternoon, Albuquerque defeated the local team by a score of 15 to 10. The game was called in the bottom of the 7th inning by agreement of both managers, because the game had dragged and it was getting very late. Both parties took into consideration the distance the Duke City boys had to make on the return trip.

There was plenty of running, hitting and errors by both sides, but no fielding gems besides a nice running catch made by Bennie Dalton of Fort Stanton in left center. The boys as a whole dropped easy pop flys in the infield and booted the ball around.

Fort Stanton collected 9 singles, 2 two-baggers and a homerun; that was before they passed a ruling that a player hitting over the field barriers, would be allowed only two bases. There would have been several homeruns, but for this ruling. Either field from home plate can't be much more than 200 feet. Stanton made five errors in one inning, the 2nd, and everytime one or two men scored.

Albuquerque had 13 hits and drew three base walks, and made four errors afield.

Batteries were: Fort Stanton, Gutierrez, Aldaz and Meraz. Albuquerque: Chavez, Maes, and Gonzalez.

Umpire: Home plate, Henderson; bases, Little.

The Fort made seven errors in all. Our boys were all pretty good

Gerald Marr First In Bull Riding at Intercollegiate Rodeo

The inter-collegiate rodeo at New Mexico State University drew several people from the Tularosa area over the past week end.

Gerald Marr won first in the bull riding event, with a total of 185 points. He was second in the first go-around of the calf roping. The N. M. S. U. team was second on total points, with Sul Ross of Alpine, Texas, first.

All teams put on as good a show as one could see, even by professional performers.

Mr. and Mrs. H. E. Marr of Tularosa and Mr. and Mrs. Tom Babers of San Patricio went over Friday night and returned after the last performance Sunday.

The next rodeo will be at Hardin Simmons University, Abilene, Tex., May 23, 24 and 25.

on the offensive. Joe Montana played flawless ball both at bat and afield.

There was a big crowd for the game, and each and everyone of them must take into consideration that this was the initial contest and also that the weather hampered the boys in their efforts to put on a better exhibition. The wind was blowing chilly and it made it miserable both for the players as well as the spectators.

Don't get discouraged, boys. Warm enough days will be here soon, and we know you have the material to really put on some exciting and thrilling games in the future. We at the Fort are 100% behind you, and offer our backing in anyway possible. Don't let the poor showing of Sunday get the best of you and get you on the downgrade. Take for instance the big boys, as most of you probably saw on TV last Saturday. The Yankees and Red Sox made a race-track out of Fenway Park in Boston, when the score was 16 to 5, in favor of the former. Also the Indians and Orioles ran up a score of 13 to 4.

Next Sunday we will have either Mesalero or Carrizozo as a foe on the local diamond. Let's hope the weather is nice and warm.

Come out one and all and root for the home team.

The boys will concentrate and try to improve in their fielding this week so as to avoid a repetition of last Sunday.

Mr. and Mrs. Peterson of Las Cruces were pleasant visitors in Ancho last week. They were here on business, Mr. Peterson being state inspector for gas installations. However, they met several friends at the store unexpectedly and stayed for a short visit.

Miss Barbara Funkhouser of Las Cruces was a guest of the Tommy Knights several days last week. She was driving a brand new Volkswagon and was enjoying her trip.

Ralph Dunlap, our county agent, accompanied by Prof. Flint of New Mexico State University, were in this vicinity last week, checking on poisonous weeds.

Mr. and Mrs. Fred Lopez of Moenri, Ariz., were week end guests of Mrs. Lopez's parents, Mr. and Mrs. Salomon Aragan. Their daughter, Viola Palomarez, and little son Nat Jr., went back to Moenri with them for an extended stay.

Mrs. John Dale and daughters visited the Price Millers on Sunday. Mrs. Miller returned to Alamogordo with them for a checkup with her doctor. The injured knee is much improved.

Fred Strawbridge, son Ben and grandson Freddie Skaggs of Tularosa, were Ancho visitors Sunday. Mr. Strawbridge is an old timer having lived here many years before moving to Tularosa.

Mr. and Mrs. Pete Straley and little daughter Tawanna were El Paso visitors over the week end. They were guests of Mrs. Straley's sister and family, the Verne Styles.

Mr. and Mrs. Walton Wilson and son Alton were business visitors in Las Cruces Saturday. On Sunday they met Mr. and Mrs. John A. Hightower's sons, Gary and Bill, in El Paso, where they attended one of Juarez's famed bullfights.

Mr. and Mrs. B. W. Wilson were notified Monday the 20th of the arrival of a little daughter, born to Mr. and Mrs. John Wilson of Lovington. Mrs. Wilson left immediately to be with the family for a ten-day period.

Mr. and Mrs. E. H. Jarnagin made another trip to Artesia over the week end and Mr. and Mrs. Cecil Jones and children also made a week end trip north.

The Ancho FWO had its regular monthly meeting Wednesday at the home of Mrs. Lee Straley. The president, Mrs. J. A. Hightower, opened the meeting with a prayer. Mrs. Tarleton Bond gave a very good devotional.

With Mrs. B. A. Hightower and Mrs. Howard Hatkey as leaders the interesting study on the Middle East was concluded. Over a period of four months all learned a great deal about the Middle East. The next study will be "Ever Widening Circles."

Fifteen members were present. The gracious hostess, Mrs. Lee Straley, assisted by Mrs. George Straley, served refreshments of tuna salad and Ritz crackers, topped with assorted cheese spreads, cake, coffee and punch.

Clovis. Comparable totals for the same period a year earlier are 51,188 head and 59,681 head respectively.

Shipments to the Clovis auction during March this year totaled 16,814 head compared with 13,354 head in March 1958. The three-month total this year is 41,858 head, 14% more than during January through March 1958.

Insecticides Harmful When Fruit Trees Are in Bloom

If an insecticide is applied to fruit trees when they are in bloom it will do more harm than good. Insecticides should be applied after most of the flower petals have fallen but never during the bloom period.

The reason—to protect bees and other pollinators. Honey bees and native bees are the best friends that apple growers have. We need all the bees that we can get in our orchards.

Bees or some type of artificial pollination is essential in apple orchards. There must be cross-pollination of most apple varieties before they will set a full crop of fruit. There are several other ways to pollinate apple blooms, but none of them are as effective or as inexpensive as using honey bees.

It takes five hard-working colonies of bees to pollinate an acre of apple trees. By that standard, we're mighty short on bees. Do everything in your power to protect the ones we have.

Here are a few simple rules that all fruit growers should follow to protect pollinators:

Don't spray fruit trees with any insecticide until 85% or more of the petals have fallen from the blooms.

Don't spray your orchard when weeds or cover crops are in bloom.

Cut your cover crop and weeds before you spray to destroy all plants in bloom. This also aids in insect control if sprays are applied soon after cutting.

Don't spray when insecticides will drift onto neighboring crops or weedy areas that are in bloom.

Cut or disc weeds that are in bloom in and around your orchard to reduce competition that may keep bees and other pollen collecting insects from working on your apple blooms.

Get to know the bee keepers in your area. Let them know that you want to protect and encourage their bees in your orchard.

Chemical Thinning Gets An Apple Crop Every Year

Researchers have found that some chemical thinners not only take off excess fruit but also stimulate fruit formation, on apples, for the next year.

The two chemicals that boosted bud formation were Naphthalene Acetic Acid and Naphthyl-acetamide. Add one pint of Tween 20 per 100 gallons of water to increase absorption and you can reduce the NAA concentration. The chemical thinner can be applied up to three weeks after full bloom.

Questions and Answers About The Great Plains Program

University Park, N. M.—The Agricultural Extension Service of New Mexico State University has published a circular, "Questions and Answers about the Great Plains Conservation Program."

New Mexico counties in the Great Plains area are Colfax, Union, Mora, Harding, Santa Fe, San Miguel, Guay, Guadalupe, Torrance, DeBaca, Roosevelt, Socorro, Lincoln, Chavez, Eddy and Lea.

Circular 236 may be obtained by writing to the Department of Information, Box 757, New Mexico State University, Park, N. M., or at local county agents' offices or Soil Conservation District offices in the Plains area.

FROZEN FOODS ARE "IN THE BAG"

It's all "in the bag" this year, in the frozen foods industry at least. Frozen foods packaged in polyester bags that look like cellophane can be successfully boiled in their wrappings. The new bags will take a temperature switched from below zero to about 240 degrees Fahrenheit without change.

This provides several advantages. You can cook the food in water without removing the bag. The new container is especially suitable for dishes containing gravy and sauces. Or you can cook several packages of frozen food in the same pan of boiling water without mixing so much as an odor. Other uses are still being explored.

More than a million commercially frozen polyester-wrapped packages are expected to be available this year. But using them for home freezing presents problems, because it's essential to exclude all air possible to keep the food bag from floating in the pan of boiling water.

CENSUS TO RECORD CHANGES ON FARM

What's been happening on the farm in the past five years?

The Bureau of the Census will start getting the answer to this question in October through the 17th nationwide farm census.

The big count of crops, acres, equipment and the like will start right after harvest this fall. Every one of the nation's 4,600,000 farms and ranches will be visited by one of the 30,000 census takers now being lined up for this job.

Each enumerator will be a local resident and will be required to take a qualifying test for the job. He will also get 12 hours of special training and swear to keep all census information confidential.

The act of Congress providing for the census prohibits making census information for an individual farmer or farm available to any tax or investigation agency.

Since many facts and figures will be needed for accurate reporting, farmers are urged to start assembling records now. Three kinds of information will be needed for an accurate picture of the current farm situation and changes which have been taking place.

The facts to be recorded will include a count of farm resources—crop acres, livestock numbers, etc.—and the kind and amount of products harvested and sold. The third type of information will relate to such selected activities as days

Why Gamble?

Yes, why gamble... when there's no chance of winning? That's the kind of gambling you're involved in when you drive your car beyond the recommended period without having the oil changed.

Although you may use the very best motor oil, such as Phillips 66 Trop-Artic, there comes a time when the accumulation of impurities in the oil reduces its efficiency.

That's why lubrication experts say: the best motor protection is to use the best motor oil, and change it every 1,000 miles under average around-town driving conditions.

Be sure to let your Phillips 66 Dealer change oil for you on schedule.

Letters to the Editor

Editor, News:

Enclosed are letters I have received from Washington in regard to Red Canyon. I thought they might be of interest to you. The letter to Washington was written by me, not by Father Dennis, as you stated.—H. Clay Dennis, Fontana, Calif.

(The letters follow):

Mr. H. Clay Dennis
8551 Wheeler Ave.
Apt. No. 1
Fontana, California

Dear Mr. Dennis:

I am seriously concerned with the problem that has come to Carrizozo with the closing of Red Canyon Missile Base.

Recently I met with Mr. Stearns and three others on the Red Canyon problem. With me there was a representative from the Army and we are all trying to save the Red Canyon Missile Base from being transferred.

I am—Sincerely, Dennis Chavez, U. S. Senator.

Dear Mr. Dennis:

I want to thank you for your letter of March 30 and please be assured that I have been doing everything I possibly can toward alleviating the situation caused by the Red Canyon and Oscura change of plans. I have been working in concert with our entire delegation, with a number of folks from Carrizozo including the editor of the newspaper and with officials in the Department of Defense. Only hope that between all of us we can come up with a solution—most certainly we will keep trying.

With my kind regards, I remain—Sincerely yours, Joseph M. Montoya.

School days are the happiest days of your life—if your children are old enough to attend.

Mr. and Mrs. W. W. Gallacher and Mr. and Mrs. Louis Huffman are on a fishing trip this week at Lake Angostura, Mexico. Walt Mercer is in charge of Mr. Huffman's business while he is away.

Marvin H. Roberts was an Alamogordo business visitor on Wednesday.
