17th Farm Census **Begins in October**

CARRIZOZO, NEW MEXICO,

And Carrizozo Outlook

The Bureau of the Census will start getting agricultural information in October through the 17th, for the nation-wide farm census. The big count of crops, acres, equipment and the like is taken each five years.

Each of the nation's 4,600,000 farms and ranches will be visited by one of the 30,000 census takers now being lined up for this job. Each enumerator will be a local resident and each will be required

to take a qualifying test for the job. He or she will also get 12 hours of special training and swear to keep all census information confidential. The Act of Congress providing

for the census prohibits making the census information for an individual farmers or farm available to any tax or investigative agency. the county agent explains. Many facts and figures will be

needed for accurate reporting and county agents urge growers to start assembling records now. Three kinds of information will be needed for an accurate picture of the current form situation and the changes which have been taking These include a count of farm

resources — crop acres, livestock

amount of products harvested and sold. The third type of information will relate to such selected jactivities as days worked off the 9th Infantry. A 1955 graduate of farm, amount of fertilizer and time Carrizozo High School, he entered used, and the cost of farm labor. custom work, feed, gasoline and oil. About two weeks before the form census gets under way in an area, the post office will distribute the questionnaire to each box holder on rural routes and in rural post offices. Farmers will be asked to fill out the forms and give them to the local census taker when he

Can You Stop In Time?

It takes more than the distance between goal posts on a 20 years of age have a worse a car traveling, at 60 miles per hour under the best driving conditions, 4-H Club members point out. At 60 mph. a car travels 88 feet per second. There's not much "time" to come to a dead stop woon approaching a tractor or other slow-moving farm

"Highway gafety is everyone's responsibility," 4-H leaders declare, and during the summer when traffic is at its peak the obligation becomes greater. The devastating fact that three out of four traffic fatalities occur in rural areas makes the 4-H Safety program the "number one crop" for nearly a million conscientious club members.

Statistics reveal that there are

football field (100 yards) to stop' safety record than older drivers. So each 4-H boy and girl enrolled in the safety project is encouraged to become a "self- : policing committee of one."
These 4-H ers make certain that the family car, truck, and trac-tor are in safe operating condition at all times. For the past 15 years the 4-H

It is also true that drivers under

Safety program has been wasported nationally by General Motors, which among other things provides incentive awards for top ranking club members in each state. The awards consist of \$400 college scholarships, allexpense paid trips to the National 4-H Club Congress in Chicago, medals of hunor, and plaques. The program is under the direction of the Cooperative more teen-age drivers on the Extension Service, United States highways today than ever before. Department of Agriculture.

Revival Services to Start at Baptist Church Wed Eddie Abeyta

The Corona Baptist Church, engaged in a revival September 27 to October 4, will hear the preaching of Rev. Ed C. Terry. Now pas-toring the mission of the First Jesus Abeyta of Cedarvale, are to Baptist Church in Las Cruces, Rev. Terry is doing a very fine work

He was formerly pastor of the Green Tree Baptist Church in Ruidoso Downs in Lincoln County. He was respected and loved by all who knew him in that area.

Ed, as he is affectionately known by his friends, hails from Abilene, Texas. He finished Hardin-Simmons University with a B. A. degree and completed his B. D. work at Southwestern Baptist Theological Seminary in Fort Worth in 1957. From there he came back to New Mexico, where he calls the town of Hatch "home."

Too Much Luxury, Says Soviet Press

Low-Cost U.S. Home at Moscow Show Is Expected to Dazzle Doubting Russians

"Splitnik," the American-built home the Russian press says is "too luxurious" for the average American working man, will go on display July 25 in Moscow at the American. National Exhibition.

The 3-bedroom, ranch-style house, which would sell in this country, for \$11,000 to \$13,000 without land, is being built by All-State Properties, Inc., of Floral Park, N. Y., on Long laland.

Dubbed "Splitnik" because the Moscow model will be split by a wide central corridor to ac-

m wide central corridor to accommodate the expected crowds of Soyiet citizens, the compact house provides a total living area of 1,144 square feet with kitchen, living room, dining plately insulated with mineral weel, and has a roof of white and one-half baths.

Here is a medel of the house which will be shown to the American National Exhibition this summer. This medel in Command, N. Y., would sell for \$14,400 on agraries are landscaped lot it has an all-electric kitches, is compared to the house which will be shown to the Australia and the American National Exhibition this summer. This medel of the house which will be shown to the Australia and the Au

Built on a concrete slab, the house has wide window areas, and a low-pitched root of white suphalt shingles, Although this smart, white roof may seem "too invurious" to the Soviets, suphalt shingles are in use on most American homes today, providing the "luxury of long-lasting protection from all kinds of weather, as well as the beauty of color and texture at low on the sun on the sun of the s
