

Bullet wound fatal to County hunter

The deer season in Lincoln County was less than a day old when a hunter was fatally shot on the Zane Leslie Ranch, about 15 miles northwest of Capitan.

The victim was Layvon Arrington, 25, of Roswell. He had been hunting with two companions, Stan Howey and Ernest Orrell. They had separated to hunt.

Arrington was shot in the stomach under his left ribs. The bullet lodged in his body.

Roy Barbee, hunting with a party from Portales, heard a yell and investigated. He located Arrington, then summoned more help. A Mr. Fullerton of the party went into Capitan and notified Game Department officials. Mrs. Sid Goodie called the sheriff's office in Carrizozo.

Around 4:30, Sheriff S. M. Ortiz, State Patrolman James Clayton and Deputy Sheriffs Hopy Gutierrez and Libe Mirabal left for the scene of the accident.

Arrington is believed to have died soon after he was shot. The Shaw Mortuary took the body to Mason Funeral Home in Roswell. The victim is married and was affiliated with the Valley Building & Supply Co.

His own gun, a model 760 Remington, .30.0 calibre, was fully loaded with a shell in the barrel and the safety was on.

The accident occurred in rough and hazy terrain.

A coroner's jury in Capitan, held Wednesday evening, determined Arrington's death resulted from a gunshot wound by a person or persons unknown.

Sheriff Ortiz said Wednesday morning the investigation is continuing to find out where the fatal bullet came from.

Injunction restrains moving gas tank

A permanent injunction was issued this week by District Judge W. T. Scoggin, restraining the City Gas Company of Carrizozo from moving its bulk propane storage to a location two blocks west of its present site.

Plaintiff in the action was Salomon Sanchez, a property owner whose residence is across the street from the proposed re-location site. His attorney was Albert Rivera.

The court granted the permanent injunction by stipulation of both parties. No damages were found and costs were assessed against the defendant.

The City Gas Co. was represented by Attorney John J. Wilkinson and the Town of Carrizozo by H. Elfred Jones.

Attorney John Thompson entered his appearance in open court in behalf of the plaintiff.

Johnson Stearns, Carrizozo town clerk, was one witness. He read the minutes of board meetings where representatives of the gas company met with the board members.

Two real estate men, John W. Harkoy and Lewis Farris, testified as to the present value of Mr. Sanchez's property and gave their opinions on how the property value would be affected by the proximity of a bulk gas storage plant.

Mr. Sanchez testified as to the extent he had been damaged.

Doll Roy testified that he was acting in behalf of the company in making arrangements for the transfer.

The News was informed this week that the City Gas Company had expended in excess of \$3,000 in building cement pits at the proposed re-location site and that there were no immediate plans to move the plant to any other site.

Carrizozo Grizzlies fail in bid for State C football championship

By BILL HARMAN

The Carrizozo Grizzlies, king of the 2C football conference, found the going rough in Albuquerque last Saturday when they met the Menaul school in the class C conference playoffs.

The final score was Menaul Panthers 33, Carrizozo Grizzlies 7.

The Panthers took the lead early in the first quarter when Gil Gonzales carried the pigskin across and Dan Sandoval kicked the extra point.

The second score came on the first play in the second period, Dan Sandoval making the run. The try for point failed.

Four plays later Johnny Romero intercepted a pass tossed by Bob Crenshaw and ran it back for the third TD. The extra point made the score 20 to 0.

Later Abanon Madrid passed to Simon Gutierrez who ran 45 yards for Menaul's final score in the first half. A conversion brought their total to 27.

Carrizozo's touchdown came near the end of the first half when Wayland Hill plunged over from the 4-yard line and Dan Ortiz booted the PAT. The half time score was 27 to 7.

Menaul's only touchdown in the second half came when Madrid passed to Gonzales who galloped across, bringing their score to 33. The Grizzlies held them for the rest of the game.

The Albuquerque Journal chose Bob Crenshaw and Benny Herrera as offensive and defensive, respectively, as the outstanding players of the game.

But the Carrizozo student body feels that the whole Grizzly team and their coaches, Mr. Laabs and Mr. Bode, deserve congratulations for a fine football season.

Score by quarters:
Menaul 7 20 0 0—33
Carrizozo 0 7 0 0—7

By WILLIAM S. WALLACE
Historian
New Mexico Highlands University

Luellen B. Maxwell was one of New Mexico's richest ranchers. At the peak of his career in the late 1860's and early 70's his lands covered most of northeastern New Mexico and part of southern Colorado.

As is frequently the case with free-spenders Maxwell's career rapidly declined when he started converting his holdings into cash. The St. Louis Globe-Democrat gave the following account of the final years of Maxwell's life in an 1893 issue of that paper:

"Great sums of money slipped through the Duke's fingers. He played at cards, but it was for amusement rather than for gain. His favorite games were poker and old sledge, but he did not play with gamblers. It might be supposed that a man so careless in money matters would be reckless in his stakes. Here was where one of the peculiarities of the Duke came in.

"No matter what the limit or who the players were" Maxwell would insist on the strictest accounting of the game. He exacted to the penny while the game was in progress. The next day, if applied to for a loan, he would hand out perhaps five times what his opponent had lost the night before.

"The time came when Maxwell could no longer maintain the pace of a New Mexican Duke. Settlers were crowding in and encroaching on the great estate. Capitalists saw the opportunity for a profitable deal. The far-reaching Escobedo and Miranda grant, when Maxwell set up his dukedom, was magnificent in its measurement, but the land was worth very little.

"Maxwell had acquired the interests of other heirs. Toward the end he went in for mining. Gold, silver and copper were found on the grant. His interests in the mine are said to have yielded this Duke \$20,000 a week at one time. But he wanted still greater returns. He joined in a scheme with lesser lords of the land of grants to wash out the placers in the Moreno Valley with water from the melted snows from the Old Baldy Range. A ditch, big enough to carry a river was dug 40 miles through mountains and plains. And when it was finished there was no snow left for that season.

"Then came the tempest telling the Duke how much more comfortable he would be if he turned his dukedom into cash and 'lived on the interest of his money.' Maxwell balked. He parted with all his interest, except a homestead, for \$650,000. The homestead he sold a little later for \$125,000, receiving \$75,000 in cash. And when he gathered his belongings and followers to move out it was like a caravan taking the road.

"The men who bought out Maxwell went to London and sold the title to the great block of land 50 miles across and 50 miles long for \$5,000,000. And the English buyers went across and took in Dutch investors at Amsterdam on a basis of \$10,000,000.

"Maxwell went to New York to close the deal. He received credit for \$75,000. As he started to leave the bank, the cashier asked:

"Mr. Maxwell, would you like some of this currency for immediate use?"

"Yes," said the Duke, turning back. "I believe I would."

"How much will you take with you?" asked the official.

"You may give me \$50,000," was the reply.

"The cashier looked at the Duke a moment and then handed out the packages of bills. Maxwell stuffed

GOVERNOR MAKING APPOINTMENT RECORD

Santa Fe, Nov. 11.—Gov. John Burroughs is making a record in appointing people to important elective posts.

In less than 11 months in office the Portales Democrat has—

Named Irvin Moise to the supreme court in the place of Dan Sadler who resigned;

Named Hilton Dickson attorney general in the place of Frank Zinn who was also appointed by the governor to a new judgeship in McKinley county;

Picked Sam Z. Montoya for district judge in Santa Fe following the election of District Judge David Carmody to the supreme court.

STRANGER FAILS UP FOR POST

Governor Burroughs has the resignation of Corporation Commissioner Jim Lamb and is expected to name G. Y. Falls of Albuquerque to the place.

Supreme Court Justice Eugene Lujan has indicated that he will resign in a few months and the governor is expected to fill that one on considerations other than his personal feelings.

SIX APPOINTMENTS ARE IMPERSONAL

No other governor in modern times has filled so many places by appointment as those filled as soon to be filled by Governor Burroughs.

And there may be another record here.

Of the six major appointments made and coming, none looks like the personal choice of the governor.

Moise for the supreme court, Zinn for Gallup judge, Dickson for attorney general and Montoya for district judge, were hardly known by Burroughs. They are commonly regarded as the choices of his Albuquerque advisors Paul Case and Harold Leonard.

HE DOESN'T KNOW THE APPOINTMENTS

G. Y. Falls, an employe of the state department of the American Legion who looks like a shoo-in for corporation commissioner, was practically a stranger to the governor when he came out of nowhere as the favorite for the position.

He is regarded here as the choice of State Democratic Chairman Seaborn Collins, a big figure in Legion affairs and long coveted for recognition as state chairman. Falls is also regarded as having the backing of Our Clint the Senator.

Burroughs was still inquiring about Falls qualifications for corporation commissioner a week after it was published all over the state that he was in line for the appointment.

NO APPOINTMENT FOR JUDGE HENSLEY

Turner Hensley, highly respected district judge and Portales neighbor of the governor, has come out as a candidate for the Lujan place but isn't likely to get the appointment when Lujan quits.

Portales already has one supreme court member, Justice Cleo Compton, and there is a political demand that the Spanish-American Lujan be replaced by a Spanish-American.

That might be Filo Sedillo, Demo chairman of Valencia, and long a successful figure in Democratic politics. He was attorney general in 1953-54.

GOVERNOR YIELDS PERSONAL POSITION

The governor has named very few of his personal friends to places elective or appointive in the statehouse.

Although some view the record as indicating that the governor is bowing to the authority of others, he could just as well be commended for yielding his personal preferences to selecting the best qualified people for public service, and the best for serving the ideals of the Democratic party.

THE GOVERNOR'S APPOINTMENTS

plus the employment of scores of influential public figures, several of whom might have been dangerous foes had they not been brought into the fold, stand to make Burroughs a hard one to beat in the all-Democratic primary next spring.

MOONSHINE DEPARTMENT

Ed Mead, the rich and popular young lieutenant governor, hasn't given up hope of succeeding to the governorship. His friends are telling that he thinks Governor Burroughs will not file for re-election. The same ones think that Mack Easley of Hobbs, the speaker of the house, may be brought out for governor by the group that helped Burroughs to the place. . . . It sounds like a lot of moonshine. . . .

Speaking of moonshine, LaMarr Bailey of Capitan, who has said that he is a candidate for the Demo nomination, has told newspaper people that he is preparing monstrous charges against the governor. . . . Bailey isn't a very good witness after a decade of clashes with the law.

Lincoln County News moves to new location

The Lincoln County News plant was moved over the week end into a remodeled building, one door north of its former location.

The move, under the direction of Al Seay and with the use of his low bed machinery-moving trailer, took place without incident.

Through the cooperation and fast service given by electrician Ken Schoenecke, gas service by Bob Smith and Vernon Searey and phone service by Russ Edlings, the News was back in business Monday afternoon and is being issued on schedule this week.

The News publishers thank all who helped during the move, which was a big job even with everything going well and in perfect weather.

Cooper Hightower from Tucuman was in Carrizozo Tuesday, preparing to get an early start Wednesday morning in the hunting season opened.

District Court

The following cases were disposed of by District Judge W. T. Scoggin, in a court session Monday, Oct. 9:

State of New Mexico vs. Darcel Hughes Cummings, charged with driving while intoxicated and reckless driving and violation of revocation. A plea of guilty was entered to all three counts. The court dismissed the second count and assessed \$150 costs in lieu of fine on the third count. Defendant to serve 60 days in the county jail on the first count.

Four witnesses testified in the hearing on State vs. Mike Torres, charged with resisting a peace officer. H. Elfred Jones was appointed by the court to represent the defendant. The court found the defendant guilty. He was assessed \$100 costs and ordered to pay \$50 attorney fees.

Court will reconvene November 10 with trial by jury.

Mrs. Louise Coe gives illustrated talk on European trip

Mrs. Louise Coe, center, guest speaker to a group of women at the Fort Stanton Women's Service Club meeting.

The Fort Stanton Women's Service Club was hostess the evening of November 1, in the Community House on the hospital grounds, for an illustrated talk by Mrs. Wilbur F. Coe of the Coe Ranch, Glencoe.

Invited to hear Mrs. Coe were members of the Capitan Women's Club, the teachers of the Capitan schools and the women of neighboring communities. Mrs. Corrine Vigil and Mrs. Gloria Aldaz received the evening's guests at the door.

Mrs. Lola Escobedo, president of the Fort Stanton club, introduced the speaker and presented her with a lovely bronze chrysanthemum corsage.

Mrs. Coe gave a charmingly informal account of places and people visited last summer on her trip by plane in the twenty countries of Europe and the Orient. Her excellent color slides were a departure from the average commercial lecturer's scenes and showed the places and friends through the eyes of an American woman that were of interest to her New Mexican neighbors.

To give each slide authenticity and local interest, Mrs. Coe arranged to appear in each exposure, or, have a former friend—New Mexican do so. There was a picture of the former Amy Lou Pavey, now living in Japan where her husband, Lieut. Alex Sanchez, is in U. S. government employ. Another showed Mr. and Mrs. Roland Cooper, who met and married while teaching in Bata Canyon, in their attractive home in Folkstone, Eng.

Her talk followed her itinerary through Japan, India and Russia and touched on Hong Kong, Bangkok, Kashmir, Norway, Austria, Copenhagen, Holland and England.

Mrs. Coe was in Japan for cherry blossom time and took beautiful slides of the large and venerable trees spreading their celebrated blossoms across paths and roadways of Tokyo's parks and gardens. There were also amusing snaps of branches of artificial blossoms where shopkeepers had arranged them from roofs in streets too narrow to permit trees to grow. Another picture showed laborers in white native dress applying for work in the Imperial Palace gardens.

Another interesting incident of the trip took place in the home of a Bangkok banker. His wife, whom Mrs. Coe had met on a former trip, entertained a group of American women who were touring the Orient, at luncheon in her luxurious home. She served her guests in her third floor bedroom—the only room that was air-conditioned in this home—sitting on strips of matting placed on the floor.

After a delicious meal, the hostess showed her fabulous collection of precious jewels, many set in picture of the four lane approach to the University, showed one of the two four-lane roads that have been built in Moscow. The other leads from the city to the airport.

Some groups of people on Moscow streets, school children lined up to visit the famous seasons from the Middle Ages, were well-dressed and seemed happy. She found the people friendly and eager to talk with her.

Following the talk, an informal question and answer period continued during the serving of refreshments from the beautifully appointed tea table.

Post-Recession boom hits some soft spots

University Park, N. M. — The post-recession boom in economic activity has hit some soft spots. However, many indicators still top a year ago, says W. Y. Fowler, economist with the New Mexico State University Extension Serv. The steel strike is leaving its

scars in building jobs and income. Industrial production was off in September. Personal spendable income—Income after taxes—dropped only a shade in the third quarter. Demand for food holds strong, as food store sales continue higher than last year. Construction spending has leveled off. "People owe more money than they did a year ago."

"Have you any suggestions on how I can save more money?"

Here are two: First, keep a close watch on "miscellaneous" day-to-day spending, and keep it down; second, always pay yourself first — by visiting the bank before you start to shop or spend. To put the matter another way, there is little question but what you will be able to save more money if you painstakingly cultivate both a thrifty frame-of-mind and the habit of making regular savings deposits at our bank.

Correction: In the "Halloween party" in last week's News, the models presented by Mr. Vigil were Josephine Perkins, Emma Baker and Rita Luera. Beg your pardon, girls!

We will not mention any names, but we have a couple of ladies who really enjoy going out for a hike (rain, sunshine or snow). They follow that routine right after every meal and if we could furnish them a couple of hunting rifles, they'd be sure to have some venison for Thanksgiving Day. As it is, they never wander off from Fort Stanton proper for fear of meeting with some famished job or bear.

Telephone items to be "planted" for testing

Bell Telephone Laboratories has bought 15 acres of New Mexico farmland where a "crop" of about 12,000 telephone items will be "planted" as part of an unusual long-range testing program.

Russ Eddings, manager for Mountain States Telephone Company, announced this week.

The unique new "farm" is near Hagerman and is called "The Roswell Environmental Test Plot."

This will be the second of two plots set up for the Laboratories "outside plant material and structures soil burial program." Last year, 11,000 telephone items were buried in a similar Labs-owned "farm" near Bainbridge, Ga.

Present plans call for digging up batches of the materials and structures in both test plots after approximately 1, 2, 3, 6, 12 and 24-year periods to see how they have withstood the rigors of burial. The specimens will not be protected against the underground elements.

Teensters Union No. 1

By PAM REID

Hi! Wish all of you could have seen the game between the Menaul Panthers and the Carrizozo Grizzlies. The score was 33 to 7 in their favor, but our boys played a grand game and we are surely proud of them for going to State.

Well, here's a letter:

Dear Pam: This has been bothering me a lot, and I hope you can help me. Do boys lose respect for girls who copy in class or give them (boys) answers on a test when they ask for them?—WONDERING.

Dear Wondering: That is a rather difficult question, since I could be in the middle of it myself. I don't know if they would lose respect for you but it might make them act differently toward you because of it. My advice is to "stop!" Let them find their own answers. I know one of our teachers in ZoZo often grades on a curve, and maybe some of the others, too; I don't know.

However, if this is the case, you would be bringing your own grades down by helping them. You are not really helping the boys, 'cause the day will come when they will need the information you are giving them or you will need the information you are copying. You might call it the day of reckoning. You could offer to help them study out of school hours. In other words, offer to coach them so they will know the lesson and won't feel the need to copy. Good luck, Pam.

P.S.—They wouldn't ask for the answers, only occasionally. If they didn't know you would give them out so easily. Another remark is, the girls might lose more respect for you than the boys will. Think it over—Pam.

The other day I was reading Art Linkletter's book "Kids Say the Darndest Things." Boy, were they cute! Here are a few I thought were really worth repeating.

"Why did the teacher pick you today?"

"Because I have the gift of gab."

"Does it ever come in handy?"

"Sure! It got me out of school today, didn't it?"

"What would you like to be?"

"A movie star like Liz Taylor, so I could wear those strapless, backless and frontless dresses."

"Are you having a good time today?"

"Oh, yes, sir," replied a 7-year-old joyfully. "This is lots of fun."

"What do you like best about TV City—the cameras, the stages, the lights?"

"I like the blonde at the front desk."

"I'm six."

"What would you rather be?"

"A father."

"Why?"

"Because I don't want to be a mother."

Wonder if I ever said things like that? I know—my little brother and sister do.

I have another letter which I thought you teensters might like to answer:

Dear Pam—Why do my folks rave about the time I go to bed? I know when I am getting enough sleep. They are always after me to get to bed. What do you and your readers think about it?—WIDE-AWAKE.

Dear Wide Awake—I know how my mother and father feel about this bedtime business. And I often find that they have been right about it. But since you asked for the opinions of our readers, I am going to ask them to write their ideas on the subject.

See you next week.—Pam.

Alto postmaster describes eventful trip to national convention in Washington

By ALLEN LINDAMOOD

From 8 a.m., October 21, when the chartered New Mexico Transportation bus left Albuquerque for Washington, D. C., with the New Mexico postmasters aboard, until my return to Alto on November 4 the time was a dream period to me.

Many years ago a friend told me that every American should go to Washington to truly appreciate being an American. That was timely advice then, and it is even more so now. The beautiful memorials, buildings, the White House and many more places too numerous to mention, make a trip to the capitol fully worth while.

The changing of the guard at the tomb of the Unknown Soldier is so inspiring you can hear a pin drop.

Seeing beautiful Mount Vernon, the Robert E. Lee memorial, Woodlawn plantation, Gunston hall and many others gives one a patriotic and proud feeling that is indescribable.

The beautiful city was a friendly one for all of the postmasters. There were about 4,000 of us from all of the fifty states, sharing taxis, convention sessions, sight-seeing tours and lovely entertainment.

Many of us had friends or relatives in the city to add to the pleasure of attending the convention. Luckily, a cousin helped me see and do so much more, without wasting a minute of my precious time there.

On October 27 President Eisenhower addressed the convention. Before his arrival the U. S. Marine band entertained and as they broke into "Hail to the Chief" there was bedlam in the hall. I met Virginia Novacek, postmaster from Union Pier, Mich., who was an usher and gave the band leader the signal that the president was arriving.

Vice-president Nixon addressed the convention the following day and was graciously received.

James A. Farley gave a short talk at the opening session Monday. He asked "This class" to stand—those who were his appointees—and the number responding pleased him very much.

The ladies enjoyed a special tour through the White House the last afternoon of our stay here.

Mrs. Pearl Stearns of Nogal was interviewed and photographed and her story appeared in the Washington Post, issue of October 27. She was celebrating her 70th birthday during the convention and the New Mexico postmasters were very proud of her.

Postmaster and Mrs. Walter Fitch of Bedford, Texas, sat next to me one morning and imagine my surprise when he read my badge and told me they had been in the Alto post office and store the past summer.

Shading hands with Postmaster General and Mrs. Arthur Summerfield in the lobby of the Mayflower Hotel before the grand ball given in their honor was another thrill.

Mechanization in the post office department will play a big role in the future mail service, but for the present mail offices will maintain the usual mail service. But it would be untrue to say that this small town postmaster would not

News Notes from Along the Bonito

... By LOUISE RUNNELS

Some Bonito boosters and good neighbors, Paul and Lola Schriener, who live in Carlsbad and have a summer cabin near Bonito City, had a bad car accident going from here to Carlsbad some time ago, and will not be able to come hunting this year. They have spent most every week end at their cabin for two summers.

Lester and Bertha Greer from El Paso are spending a few weeks at Nogal. Lester may do a little deer hunting with Tom Bragg.

Mr. and Mrs. Bob McProud from Oregando and Mr. and Mrs. Harold Sellers from Alamogordo spent the week end at Bonito City.

Mrs. Vernon Leveke and two little daughters drove down from Albuquerque to see Vernon who is still hauling gravel for the new road from Angus to Capitan.

Mrs. Edwin Duke from Socorro spent the week end at Angus with her husband, too, and also visited Mrs. George Green in Tularosa.

Dan Yaten from Carlsbad bought some land in Bear Canyon last summer and this week he brought his bride through Carlsbad and on over to Bonito on their honeymoon. They'll be building a cabin come Spring.

Mrs. Francis Weems, who has a cabin Ruidoso and has a guest, Gladys Alcorn from Fort Worth, were on the Bonito night-seeing Saturday.

Mr. and Mrs. Sid Lawson from Ruidoso Downs were in Bonito Canyon Sunday.

Game warden Charley Bird is back in our country. He has been in the northern part of the state a few weeks.

The Jal Dudes are coming into Bear Canyon day by day. Doc Foreman is looking for them again and Lem Salter from Salter's riding stables in Ruidoso brought the horses in for the Jal boys Monday.

Arvel Runnels has his horses ready to go, with Frankie and Fidei Trujillo's help. Alice Wright is going to cook for Arvel's hunters and to say those boys are plenty lucky.

Floy Skinner is home and was on the Bonito Sunday. This trip he visited the Hoxer family (his grand-daughter), and he went to Carlsbad to see Mrs. Bobbie Sellers, a sister-in-law, and her children—Brooks at Loving, N. M., and Mattie at Malaga. He visited Chris and Elmer Skinner and families and also Zuma Skidner. Floy expects the following folks for the hunting season: The Carlsbad Skidner boys, R. C. Skinner Jr., and Jim and Ralph Greer from Albuquerque; Dick and Donna Cox and family and Mr. and Mrs. Melvin Houx. Mrs. Houx has been visiting this week with her folks, Mr. and Mrs. Sam Cox at Nogal. All these folks are looking forward to a good time and all but Floy helps them with his Jeep.

Melvin Cox from Truckee, Calif., in his red and white Pontiac wheeled in Sunday evening for the hunting season. He hunted in Nevada and California recently.

Mr. and Mrs. Collins Walker and relatives, Collins' sister and husband, Mr. and Mrs. O. D. Tarpley, from Plainview, Texas, and Mrs. Walker's cousin Grace (Mr. and Mrs. Ernest Dean) from Portales, had a big week end together at Collins' apple tree farm at Angus. Collins would have been hunting legal the year 'round 'cause the darlings are eating the leaves and branches off'n his young trees. He invented a "pinon-picker," but these venison have him stumped.

Mr. and Mrs. George Tally and young son Tom, from Talley's Barns at Cloudford brought horses to Bonito Monday. They have some fifty head of horses they rent in the summer time at Cloudford.

Mr. and Mrs. Collins Walker want who it may concern to know that they are two of Dan Storm's fans. They read his "Silver Lining" in the Ruidoso paper and enjoy every thought and description. And may I add that I believe he is a real naturalist. He has written many times about the little pinon tree. This year so many folks have enjoyed its fruits—even the birds and animals. Then, what did I see the other day but a real pretty bouquet made for winter, using pinon limbs with the empty burrs spread open. They looked like flowers. Next we'll hear the Forest Service encouraging us to use the little pinon tree for Christmas. You can bet Dan and Dad Storm will have our decorations for Christmas every year.

Trot planted for winter fishing

According to the Game and Fish News, by the time regular trout season closes November 30, the year-round trout waters will have had the first of their winter plantings of rainbow trout.

Waters that have already been planted for winter fishing, or that will have been planted by the end of this month, are:

Drainage canals in the Bernadillo-Albuquerque-Belen area and at Socorro and Las Cruces; Lakes, Bear Canyon Reservoir, Riverside, Springer, Sturte, Holmberg, Bottomless, Power Dam, McGaffey.

Streams—Rio Grande middle and lower and below Elephant Butte; lower Pecos and below Alamogordo Dam; lower Jemez, lower Gila.

"Four Coins" given enthusiastic reception

The show opening of the "Four Coins" last week at La Nueva Cucaracha met with signal success. Each evening the patrons of La Nueva Cucaracha have applauded enthusiastically for each song performed by the "Four Coins."

On the other hand these show people have taken to border activities and events warmly. They have been special guests at Sunland Park and the downtown Balderas building for Sunday's bullfights.

The Four Coins definitely like the border and El Paso. They say "It's just great!"

Show times at La Nueva Cucaracha are 8:30, 10:30, 12:30 nights by during their limited engagement.

"There is an acute shortage of steaks," says a medical journal. Maybe so, but all people we've seen recently seemed to have their normal quota of one each.

Report quail hunters having good luck

According to the newsletter of the State Department of Game and Fish, quail are bustin' out all over.

In the Tucumcari area, hunters from many parts of the state were having excellent success over the week end. Habitat conditions are reported excellent, and the birds taken were fat and full of grain.

Because of high grass and weed cover, some hunters were having a time finding downed birds. Ladd Gordon of the Department of Game and Fish recommends the use of dogs.

"If you're afraid without dogs," Gordon suggested, "take time to find the bird you've shot. If you don't find it, the hawk will." The area was dotted with hawks waiting for crippled birds, Gordon said.

Kogan and Nara "Vasa also reported excellent sport and plenty of birds.

In the southwest area of the state the story is about the same. Lonsburg had many hunters who came out with limits. Deming and Silver City had lots of quail and lots of hunters.

Not many hunters around Reserve. Magdalena had more hunters last week end than during the previous week end.

Around Alamogordo there were ample birds but very few hunters. Truth or Consequences reports many quail in the Rio Grande valley and adjacent foothills.

At Hatch and Las Cruces the birds were plentiful but wild, and many hunters were out.

"The four-pound kiwi bird lays a one-pound egg," Magazine Hiller. There's such a thing as being too ambitious.

"I think every person should think for himself," said Old Sorehead, "providing he can think."

FARM NEWS

NOTES FROM THE COUNTY AGENT

By RALPH R. DUNLAP

Livestock prices have changed a great deal during the past month, but seem to have firmed up at 25-26 cents for heifer calves and 26-28 cents for steer calves off the range. Lambs are selling for around 17-18 cents for wethers and 18-20 cents for ewe lambs.

Calf prices sold last week were contracted at 32 and 34 cents for bellers and steers respectively, but slipped to as low as 22 and 24 cents for some calves. During the past week prices seemed to have settled around 26-28 cents for choice quality feeder calves. Several buyers have taken calves at this price.

Last week I saw 500 ewe lambs sold for 20 cents. They weighed around 70 pounds.

"I spent several days last week with Dr. P. A. Humble, testing cattle for brucellosis in the Corona area. Plans are to test the Corona area for three years. To do this the county needs to test 20% of all range herds in the Corona area. Several herds have already been tested, with more to be tested later.

While testing the cattle we noted several cattle with a small cancer-like growth on the eyelid. In talking with Dr. Humble he suggested cutting the growth off, along with some of the tissue beneath it if possible. Use a pair of surgical shears preferably, as you are less apt to injure the eye with a sharp point. Then apply a caustic stick (potassium hydroxide) to the cut area to kill any loose cancer cells.

This method is not 100% effective, but is well worth the effort to save a young cow. Also, the growth can be stopped or slowed down before it gets into the eye.

MASTERS DEGREE FLEETS ON JOB

The Santa Fe county school system is in such a mess two months after the opening of the term that District Attorney Walter Kegel is considering action toward removing the superintendent, Willie Cordova.

Cordova is in administrative trouble up to his eyes. He succeeded Nora Chavez as county superintendent who was limited to \$3,325 a year because she did not have a teacher's certificate and had a clean and efficient record during four years on the job. Cordova is drawing \$7,200 a year because he has a master's degree in education administration.

them into a pair of saddlebags hanging on his arm and walked out on Wall Street. He went down to his hotel. Placing the saddlebags on the counter he asked the clerk to put them away for him. That functionary with a careless glance at them took the bags and buried them under a desk. Ten days went by. One morning Maxwell came down stairs from his room, ran his thumb and forefinger into his vest pocket and found it empty.

"Give me those saddlebags, will you?" he said to the clerk.

"The bags were fished out from under the desk and put on the counter. Maxwell opened them, drew out package after package of bills before the eyes of the astonished clerk. Then he handed back the bags. Before he left New York City he had spent \$40,000 on presents to friends in New Mexico.

"How long do you give him to spend that money?" a brother-in-law of Maxwell asked Col. Bergman when it was known the sale had been made.

"He'll get rid of it in less time than that," said the relative with a shake of the head.

"And he did. From the day the Duke had \$675,000 put to his credit and walked out of the bank with \$50,000 in pocket money, it was less than five years until he died in Las Vegas, leaving a few thousand head of cattle as all that bequeathed to him. Had he lived another year he would have died a pauper."

Rather than Las Vegas, it was at Fort Sumner that Maxwell died on July 23, 1875.

Clean Lines Highlight 1960 Oldsmobile

A trim balanced design of clean flowing lines highlights the modern styling of the Oldsmobile for 1960. This new view of the Oldsmobile is a departure from the traditional, boxy design of the past. The new styling is designed to show the car's advanced features. The new design of the hood affords better forward vision.

By and the rounded contour of the front fenders adds parking maneuverability. The low-level design also is incorporated in the comprehensive "front-drive" rear seat. Sporty body styling with big wheel covers, the Super "33" wheel design for 1960.

When The Face Of America Began To Change

In mid-afternoon of June 1, 1909, five primitive motorcars started out from New York City Hall headed for Seattle, Wash. In what was officially called the "Ocean-to-Ocean Automobile Endurance Contest."

Two of the five were Model T Fords, designated No. 1 and No. 2. The others were a Shawmut, an Acme and an Itala—names now long forgotten in the automotive industry.

Ford No. 2 reached Seattle at 12:45 p. m., June 23, nearly 17 hours ahead of its nearest competitor, the Shawmut, and was the first car ever to travel from New York to Seattle under its own power. Ford No. 1 came in third, the Acme fourth. The Itala broke down and was shipped in by freight.

The historic contest is being re-enacted this month by a Ford Motor Company caravan which, as nearly as possible, is following the same route and same day-to-day schedule as the original contestants.

Included in the caravan are a duplicate of the victorious No. 2 Ford; Ford Motor Company's 56 millionth vehicle, a Galaxie four-door sedan; a 1966 Model X Ford which paced the competitors from New York to St. Louis, Mo.; and an exhibit van, the displays of which show a look into the past and a glance at the future of the automotive industry.

The above picture shows (top left) the two Model T Fords on the starting line in New York City Hall plaza; top right, Ford No. 2 as it stopped to cool off in Cleveland, O.; lower left, a duplicate of the original Ford No. 2, along with Ford's 56 millionth (the exhibit van is in the background); lower right, the late Henry Ford (in derby hat and long overcoat) greeting Ford No. 2, with driver Bert Scott and mechanic C. J. Smith, in Seattle. At left (in checkered cap) is M. Robert Chagnon, sponsor of race.
