

Master Planning agreement gets approval of Carrizozo Town Board

The Carrizozo Town Board of Trustees, acting on the recommendation of its planning committee, has entered into an agreement with the S. R. DeBoer & Co. of Denver to make a master plan for the town.

The plan is in line with recent discussion and work by the planning board, town officials and citizens for Carrizozo's beautification and orderly development.

Also parties to the master plan agreement is the State Planning Board of the State of New Mexico and the Federal government which aids the financing through Section 701 of the Housing Act of 1954.

Total cost of the master plan and consulting services in connection is \$50,000, of which the Town of Carrizozo pays \$4,000, the other \$46,000 to be the Federal government's participation.

The Lincoln County Board of Commissioners at their meeting this week agreed to assist Carrizozo in the amount of \$2,000.

The master planning contract stipulates: 1. The Planning Agency (State) and the Municipality (Carrizozo) hereby agree to engage the contractor and the contractor hereby agrees to perform the services set forth in connection with the project of the Planning Agency under the Urban Planning Grant contract. The municipality agrees to contribute funds to the project as enumerated hereunder.

2. The contractor shall perform all the necessary services provided under this contract in connection with and respecting the following areas:

1. Master Plan and Report.
2. A study of the background of the city, its history, population, climatic conditions, and topography of the site.
3. A study of the trade territory of the city, its extent and relation to the city business district.
4. A study of transportation, including railroads, highways, bus and airlines.
5. A study of the street plan of the city, including corrections, new lines, and extension into the suburban areas.
6. A land use study of the whole area, including the fringe areas, and its application to the zoning of the city and surrounding areas. Review of present ordinances and maps, and recommendations for improvement.
7. A study of recreation, including parks and parkways, playgrounds, and location of school buildings and grounds.
8. A study of sanitation, housing, tax delinquency, city boundaries, and flood protection.
9. A long-range capital improvement plan.

10. Implementation after completion of master plan, including the following:

1. Participate in public hearings and discussions and city commission meetings relative to the master plan in general.
2. Amend, modify, expand, and make further recommendations to the master plan as determined to be necessary from the public hearings and after review and discussion with the city commission and city officials.
3. Make such further examinations and study as may be necessary in any other matters incident to the actual promulgation and implementation of the finalized master plan so that the plan may be understood and will serve effectively as a guide for the future growth and development of the city on a sound and orderly basis.

It is proposed that the master plan include not only the incorporated town of Carrizozo, but a three-mile radius around the incorporated limits.

Heard a request from Fred English, Joe O. Sargent and Jete Voss on behalf of the town of Carrizozo for the county to contribute one-fourth of the cost of a master planning survey for Carrizozo. Total cost of the survey to be \$8,000. The commissioners voted to contribute \$2,000 toward the cost, the remainder to be shared equally by the town of Carrizozo and the Federal government.

A stipulation made by the commissioners was that two additional members be appointed to the town's planning board from outside the corporate limits, subject to the approval of the commissioners.

Object in well causes search by officers

Investigating a report by Lovington people that they had seen some hurlap sacks at the bottom of an abandoned well, "with something in the sacks," a party of officers made an investigation last Thursday.

Sheriff S. M. Ortiz and Officers James Clayton, Frank Barajas and Libe Mirabal drove to the site of the reported discovery at the old schoolhouse on the Reynolds ranch at Lon.

Mirabal descended into the well and at its bottom, about 38 feet below the surface he found the hurlap sacks contained salt which had been discarded by a rancher.

"Then we had the problem of getting Mirabal out of the well," Sheriff Ortiz commented. The deputy weighs well over 200 lbs.

CATTLE QUEEN OF THE TERRITORY

Widow of Lincoln County War participant lived to acquire additional fame

By J. S. C.

The late Mrs. McSweeney of Lincoln County War fame, whose husband was killed in that conflict and her home burned to the ground by the opposing faction, later became Mrs. Barber when she married the late attorney, George M. Barber.

Years after peace had come to Lincoln County, she acquired the name of "Cattle Queen of the Territory," for she possessed extensive ranch holdings and many head of cattle.

She employed a good number of cowboys and in the fall of the year her foreman and cowboys drove a herd of her choice beef to the Kansas markets.

Among her cowboys was a young man by the name of Severo Padilla, who was born and reared in the Capitan country. One of the older cowboys took a dislike for young Padilla and was always tormenting him without the least provocation.

The lad was of a timid nature and his antagonist went so far as to kidnap him on one of these trips to Kansas. Severo took the abuse without a whimper and never asked for help from the other cowboys.

When they returned, he swore that it would never happen again. He continued to take insults from that bustling cowboy, but who did not dare to even raise a hand against the boy while they were on the home range.

Full came again and they departed with a big herd for Kansas. One night, when it was not Severo's turn to ride guard with the herd, he went to bed early. Just

POSTOFFICE FAVORS NMEA OVER TAX GROUP
SANTA FE — Our amazing postal system:

The New Mexico Education Association, universally recognized as the strongest lobby in the state legislature, gets a 1.5 cent rate for its letters because it is an "educational" organization.

The New Mexico Taxpayers Association, which functions about 90% in service and information and 10% in lobbying, pays a 2-cent rate for mail because it is a "lobbying" organization.

LEA MANGAER GETS \$13,000
Ray Howell, county manager in the Lea courthouse at Lovington is drawing \$13,000 a year, which is more than paid any state executive department officer except the governor who gets \$17,500.

Howell, who went up to Lea from the city clerk job in Las Cruces, enjoys high regard by the state money controller who made no fuss about his salary which is \$4,000 above the amount paid the Albuquerque county manager.

The Lea county courthouse is the richest in the state; oil.

SCHOOL LAND MONEY IN SERIOUS DECLINE

School money from the 11 million acres of state land dropped off \$125 million in the business year that ended June 30, most all because of a decline in the money from oil and gas lease sales.

It was inevitable. Attractive land was finally exhausted. The boom could be revived, however, by new findings of oil and gas.

STATE TREASURER PLAYS THE MARKET

State Treasurer Joe Callaway is operating a personal \$10,000 investment account in Wall Street securities through the brokerage firm of Speer of Santa Fe and Quinn of Albuquerque.

Callaway said the money he is using is his own, left over from the sale of his business, and home at Springer.

Callaway is a member of the state investment council which handles the investment of some \$170 million of state funds thru brokerage houses and also makes many investments of public money on his own as a state treasurer.

Speer, Quinn, and other brokerage firms enjoy about \$3,000 a month in fees from the investment council and the treasurer's office.

FOR \$44,000 WE GET THIS

The state reached a new height of something or other last week when the Doon, Allen and Hamilton firm of San Francisco handled a \$44,000 fee for a study of the highway department operation and recommended that the state make its own study on the department's asphalt purchasing practices.

The asphalt problem was a major consideration in engaging the firm to make the study.

New Mexico has a long list of disappointments in the employment of reputed experts to tell us how to run the state.

1950 CANDIDATES RUN FOR TROUBLE

The 1950 candidates for governor and the legislature are running for trouble.

The breakdown of state money controls has made it impossible to give the state colleges \$3.8 million that the 1953 legislature voted for them, and which they need.

The "tax" \$3 million state person is circled around a new intermediate institution is needed.

The public school people are frightened by a decline in school money and are laying plans to get more.

The University of New Mexico is dead set on launching a multi-million dollar school of medicine and has serious support.

INCOME, SALES TAXES LOGICAL SOURCES

The situation is one that cannot be handled with present taxes and the 1951 state administration and legislature is sure to be beset with serious demands for new and increased taxes.

It seems obvious that the horse race betting tax will be increased, but it would not produce appreciable money.

The same is true of adjustments in the uranium producing tax.

The only easy routes to the millions that are needed now, or anyway in a few years, are in jumping the state income tax which is presently very low, and in jumping the 2% sales tax which is presently very high.

Community singing at Assembly of God

James L. Wells, pastor of the Assembly of God church in Carrizozo announces a community gospel singing at the Assembly of God church, Sunday afternoon, August 14, at 2 o'clock in the afternoon.

Over 600 persons in county receiving social security checks

At the end of 1959, as Federal social security was starting its 25th year, old-age, survivors and disability insurance monthly benefits were being paid in Lincoln County to 604 persons at the rate of \$31,054 a month, according to Ralph H. Yowell, field representative of the Roswell Social Security Administration office.

Payments to a retired worker with no dependents receiving benefits averaged \$89 a month nationally at the end of last December; to a retired couple, both of whom were receiving benefits, the average payment was \$121. The average for a widow with two young children was \$169.

By contrast, Yowell recalled that when benefits first became payable in 1940, the average monthly payment to a retired worker with no dependents receiving benefits was \$22, and to a retired couple the average payment was \$30.

HEART DISEASE CONTINUES TOLL

The New Mexico Department of Public Health reports that heart disease continued to be the leading cause of death in the first half of the year. A total of 811 deaths was reported from this cause, compared to 724 in the first 6 months of 1959. This brought the rate to 186.1 per 100,000 population, 15.3 points above the 1959 rate in the same period.

Youthful rider wins horse race in 'astounding time'

"Astounding Time Set in Lengthy Horse Race," read a headline on the front page of the Clovis News-Journal of August 2nd. The story gives more details of the grueling horse race, won by Kenneth Crenshaw of White Oaks:

"A saddle-toughened little 13-year-old from Carrizozo, on an equally tough little horse, ate up 53 miles in the astounding time of three hours and 38 minutes this morning to take top honors in the scheduled 60-mile horse race from Fort Sumner to Clovis.

"The race, originally scheduled to conclude at Clovis, was cut short to avoid construction around Cannon Air Force Base and was concluded at the grain elevator here, just west of the base. The race kicked off the Clovis Junior Rodeo this week.

"Winner was Kenneth Crenshaw who loped and trotted his leather-tough little horse, Roanle, almost the entire distance. The horse, and Kenneth, both seemed none the worse for the wear and both Kenneth and his father proclaimed he and the horse were ready to go again.

"Second place honors went to Lester Lee Harrelsen, 12, of Fort

Desert Dan says:

Summer who finished approximately a quarter of a mile behind Crenshaw, covering the distance in 3 hours and 43 minutes. Third place went to Ned Tietjen, 15, of Grants who finished in 3 hours and 47 minutes.

"The times do not include a 30-minute rest stop taken west of Melrose. At that time the horses were unsaddled, cooled off, and checked by veterinarians.

"At the rest stop the youngsters also took it easy—all but one little rider, evidently seeking a change of pace, climbed a tree.

"Fourth place honors went to Ted Tietjen, also of Grants, and a girl, Carolyn Tate of Ranchvale, finished fifth. Both she and young Tietjen were some distance behind the first three horses.

"Out of the 18 horses that started the race, six finished. Others had to be withdrawn when it was apparent they could not win. The only other horse finishing was one ridden by Jesse Craig, 13, of Fort Sumner. Craig was still a mile or so from the finish line when everyone left but said he would finish if he had to ride all day.

"None of the horses or riders suffered any apparent ill effects from the race although some of them were pretty tired.

"The race started at 8 a.m. at Billy the Kid's grave near Fort Sumner and Crenshaw crossed the finish line at approximately 9:10 a.m. He said he walked the horse only twice during the race.

"Both Crenshaw and his father attributed the ease with which the horse won the race to the fact that the horse was in better shape than the other finishers to the fact that for five years the 7-year-old has been used to round up wild horses and wild cattle in the high altitudes of the mountains around Carrizozo.

"Kenneth said he made no special preparations for the race and said this was the first time he had ridden the horse over 12 miles at one time.

"The winner led almost the entire distance and was leading at the halfway point. Just this side of St. Vrain both Harrelsen and Ned Tietjen pulled up with Crenshaw but Kenneth said while they were riding along, talking, he slipped the pony into a lope and pulled away from the other two. They never were able to catch up and Crenshaw widened the gap from there on into Grants.

"Veteran horsemen had estimated it would take from 10 to 12 hours to complete the race but they failed to reckon with the tenacity of New Mexico's youth and horsemanship.

Success of a measles vaccine in extensive tests has been reported, bringing a hopeful outlook for the control of the disease which can be serious among young children.

39-years ago

(From the files of the Carrizozo News, August 12, 1921.)

Fred Williams, who is developing some placer prospects in the Carrizozo mining district was in Carrizozo and stated he was well satisfied with the prospects. He has plenty of water for the sluicing, is putting in boxes, and expects to be washing the alluvial gravel in a short time. He has already proved that gold is there in paying quantities.

McGo and Price were engaged in developing water to work the ground in their placer claims. They were under the opinion the dirt would yield from \$3 to \$5 a yard.

One prospector stated to the News that they had been selling gold to the local store for \$18 an ounce, which means that it must be at least 20 carat fine to leave a margin of profit for the storekeeper.

El Paso police were looking for the Meacat Burglar, a missing private, who was believed to have stolen \$1,072 from the Red Cross safe at Fort Bliss.

L. A. Skinner sustained severe body bruises when struck by a 12-foot water pipe that fell from a flat car he was loading under.

W. O. Norman issued a call for a Democratic county convention, to be held in Carrizozo August 16. Sam Kelsey was in from the VV ranch where he raises his own meat, corn, wheat and garden truck.

Robert Forsythe of White Oaks was making preparations to sink a shaft on his gold claim on Loma Mountain.

Apaches give Stanton ball team close shave

By J. S. C.

The Fort Stanton Cubs had a revamped team on the field against the Mescalero Apaches last Sunday and although we lost by the close score of 9 to 6, we are proud that it wasn't a massacre like in previous games—but, instead, only a close shave.

Our boys played heads-up baseball and it was anybody's game until the last out. Both teams made 10 hits each, but the Warriors had the advantage of two tremendous home runs by their long range guns, Andy Little and Milford, which accounted for three of their runs.

Dalton and Cruz made three hits each for Stanton and Cruz played a fine game at shortstop, although he made three errors on wild throws. Phil Griego made the other costly error when he dropped a fly ball in leftfield.

Tommy Aldaz gave up all the hits in 7 innings, walked 4 and struck out 10. Dalton gave up 1 run and had two strikeouts in 2 innings.

Milford of the Apaches gave up 5 runs in 6 innings, allowing 8 hits. He walked 5 men (Joe Escobedo 3 times in succession) and struck out 7. Fairbank, who followed him in the 7th, gave up only one run on 2 hits and struck out 7 men in the clutch. Three errors were chalked against the Apaches.

Pat Murphy of Capitlan was at second for Stanton and gave a good account of himself, despite the fact that he hadn't played in years.

A number of visitors swelled the large crowd. Mmes. Phil Griego and Fred A. Vigil conducted the Women's Trading Post.

Lecoya and Bejerano were the arbiters, but Pat failed to show up with his milk. (Went to Lincoln, we presume.)

Brother Daniel, ordered an invitation to the Fort club to go to Mescalero for a baseball tournament Saturday, August 13. There will be six teams in competition, to play three games.

GRIST & GRITS

By OLIN MILLER

(Copyright 1960)

From the way Southerners are complaining about the civic rights plank in the Democratic Party platform, they must have forgotten that a platform is something designed to be carried into office—not something to be carried out.

"Lincoln was nominated in a speech of only 28 words," says a historian. Yes, but back then there were no teleprompters to enable a speaker easily to sound off verbosely and at great length.

A man talked to a woman yesterday for 10 minutes without a single interruption. He was her dentist who had placed four wads of cotton and a suction pump in her mouth.

"A genius works much harder than a moron does," says a psychologist. Er, by the way, are you having a lot of fun these days?

Most mountain summer resorts are fine places for sleeping, but some of them are rather boresome for staying awake in.

Many a woman crams and packs far too much in a pair of slacks.

"The Surplus of \$1.3 Billion to Boost GOP Chances to Win," says a headline. Maybe so—if people forget that the deficit of June 30, 1959, was 11 times greater.

Washington and Moscow may be likened to dogs barking at each other these days. It is fervently hoped—the adage is true that a barking dog never bites.

The Bank in Your Life

bank service charges and YOU

Why are there service charges on a checking account? Pure logic! When the cost of the bank's services to a depositor exceeds the return which the depositor's loanable balance allows the bank to earn, the bank must then make a charge.

If you have an account with us, you can avoid service charges by maintaining a balance sufficient to compensate us for the number of checks you draw!

Pageant actors pay visit to Trading Post

Col. and Mrs. L. W. Varner made a short visit to the Trading Post in their Lincoln pageant attire of the '60's. Mrs. Varner was attired in a long red dress, with ruffles and choker and bannet to match.

Col. Varner played the role of bartender in the pageant and he looked the part, with white apron, black turban and red and black curly hair. He looked quite big around the middle and we imagine he had his billy club and Peacemaker revolver under his apron. Quen cabot?

Apaches soft touch for Stanton Softballers

The Fort Stanton softball team (Sixth Night) and the Little Leaguers were both victorious under the lights at Mescalero Monday night, August 1—by the scores of 14 to 6 and 12 to 4, respectively.

When we asked Perry how come they could beat the Apaches in softball but not in baseball, he replied:

"The Indians are like hot ovals and are blinded by the glare of incandescent lights, and we can see the ball's real good because they are twice the size of baseballs."

Chris Samelson, Wendy and Pat

How happy I was to have Mrs. Barney Luck and Louise (Luck) Pearce come by Bonito City to see us Sunday. Mr. Luck was in El Paso. He doesn't come to these parts because of his heart. They left the Alto store seven years ago and have been living part of the time in California and Oklahoma. Mrs. Luck and Louise had visited around the county as much as possible and were en route to Captain to get Mr. and Mrs. Buster Luck and take them to El Paso to visit with Barney. The brothers haven't seen each other in some time. All of the Barney Luck's are to meet soon in Clovis where one of the daughters, Hazel and her husband, live. Barney Jr. and family will not be able to be there, but Grace, Marylou, Reba Jean, Louise and Hazel and families will have a fine visit.

The Luck's certainly helped to build Lincoln County; if they never tell their story, "cause I can remember during the depression when they kept a lotta folks from hunger, with their grocery store at Alto and their generosity.

Another old timer—R. C. Lott, and family from Lamesa, Texas—have been camping above Bonito Lake in Dark Betsy Canyon this week. They have had fun hiking and looking the country over, and driving too. They went to the "Last Escape of Billy the Kid" on Friday and again Sunday to the final show. They also attended the Captain 4-H Rodeo and met up with some old-time friends, such as LeRoy and Amella McKnight. The Lotts have two children.

Young Miss Greer and Miss Frye came over from Nogal with Tom Bragg and Lester Greer, their grandfather and great grandfather, to Parsons Mine.

Last week, while Mr. and Mrs. A. N. Runnels were working on a remodeling job at the old Ferguson place, they had pleasant company come by. They were Lorene Ferguson, Francis (Ferguson) Conroy's daughters, Phyllis and Marjorie, and Jess and Joe Evans' daughter, Jarvis and Carol, Lyne and Miles, Jr., Williams. They picnicked on the Bonito after visiting at the ole ranch home.

From Las Cruces, looking over the mountain country last week were Mrs. Bill (Hobbs) Hum and three little girls, Mrs. Spraggins and a visiting sister-in-law, Mrs. Jack Reeves who is a nurse at Sterling City, Texas, County Hospital, and Minnie (Hobbs) Aven, who is a sister-in-law of Red and Roy Hobbs. Mrs. Jack Reeves was on her first trip to this country and thought it beautiful and cool—so different from 107 degrees in Sterling City. The Hobbs families are planning a reunion at Bill Hum's home, Las Cruces on the 20th and 21st of this month.

Paul and Lola Schreiner had a fine surprise Saturday night while here from Carlsbad for the week end in their cabin. Their daughter Joyce and her husband, Mr. and Mrs. Rube and family from California came to see them. They will be here a couple of weeks. Ruth Hayes and Anna Dell Elam helped with the young people's summer vacation Bible school last week at Captain.

Benny Runnels suffered a broken wrist last week when he fell

THE BIBLE SAYS

By JOHN K. ARNEY
Church of the Nazarene
Captain, New Mexico

"Remember the sabbath day, to keep it holy. Six days shalt thou labour, and do all thy work: But the seventh day is the sabbath of the Lord thy God: in it thou shalt not do any work, thou, nor thy son, nor thy daughter, thy manservant, nor thy maidservant, nor thy cattle, nor thy stranger that is within thy gates: For in six days the Lord made heaven and earth, the sea, and all that in them is, and rested the seventh day: wherefore the Lord blessed the sabbath day, and hallowed it." Exodus 20: 8-11.

It is appalling the gross indifference in America today towards keeping of the sabbath. God expects you to keep the sabbath holy. I see people in our community and others that show no signs of wanting to go to the house of God and worship their creator. This is indifference; not only to God but to your soul. People spend hours taking care of their physical needs but sadly neglect the condition of their soul.

Are you afflicted with Morbus Sabbaticus?

Symptoms: Attacks only church members. Returns every seventh day. Contagious only on Sunday morning. Lasts only a few hours. No symptoms felt on Saturday night. Sound of church bells aggravates disease. Invitation to church causes temperature to rise. Disease does not interfere with reading Sunday papers, watching TV, listening to radio, eating, taking an afternoon auto ride or attending an evening movie.

Warning: Disease is fatal to one's soul. If it persists over a period of time, spiritual death will result.

Remedy: Attend Church Sunday.

off'n the barn while having an "acorn fight" with some more little wild boys. Dr. Turner set the wrist at the Carrizozo Hospital and now Benny is wearing a cast for four weeks or more.

Spiritual Health from Carrizozo was on the Bonito on mining business last week.

"Texas Bob" Pfingsten and the McDaniel brothers, Rodney and Rodger from Carrizozo drove over to Bonito last week for a couple of days.

Lawrence Watson, our summer stayer from Arizona, is here in his Jeep trailer house.

At Thomson's on Sunday to Jeep ride and visit were Mr. and Mrs. A. L. Harris and daughter Lynn Marie and Mrs. H. T. Williams from Roswell.

Randall Greer and son Everett came up Nogal Canyon and down by Parsons Mine Saturday in their Ford touring car.

Mr. and Mrs. Stone at Angus had relatives visit this week from Arizona; also friends from El Paso. The teen-agers in the crowd rode horseback.

From Jal this week were Mr. and Mrs. Jerry Walker and girls, Thomas Fay and Edna Ingram, who run the Jal cabins in downtown Jal.

Also from Jal for the week end were Mr. and Mrs. E. W. Tibbets and sons Don and Phil. They stayed at the Patti Gayle courts in Ruidoso, went to the horse races and visited the Bonito country. We welcome them as new subscribers to the Lincoln County News.

Ross Coe is now working on a construction job in Deming. He hopes to move nearer the cool mountains soon. He was round the country Friday and Saturday on his motorbike.

Mr. and Mrs. Cliff Ferguson and three daughters from Ruidoso Downs drove over to Bonito last week. "We drove over to see deer and ride horses," Cliff said. They did see some pretty deer along the way and Cliff took the two oldest girls for a horseback ride.

Speaking of animals, Dr. Sholar, who has lived for 20 years on the Ruidoso Creek up near the second bridge west of Ruidoso, said an old mama bear and two cubs have been a nuisance around his place. Last week they tore the screen off'n his back porch.

THE CHARCOAL GOURMET

The original charcoal gourmet was the ancient Greeks, who used swords for skewers. Dainty ladies had special gloves to keep their fingers free for using the grilled delicacies.

Until the 19th century, much roasting was done on large skewers or spits which revolved during the cooking. Dogs held in cages on a treadmill kept the spits turning.

Today's charcoal gourmet has modern conveniences: barbecue sauce, a variety of skewers and spits, portable charcoal stoves, and convenient paper bags of charcoal for effortless fire preparation.

CAPITAN

By MARGARET RENCH
Report on the REA meeting at Cloudcroft

I enjoyed a trip to Cloudcroft to the REA meeting, August 6th, driving through the mountains from the Mesquero cutoff — a beautiful trip on a gravelled mountain road and paved highway part of the day. It is 67 miles to Cloudcroft from Capitan, through Rudoso and the cutoff.

Many were present at the annual meeting from Capitan, Roswell, Artesia, Lovington, Hondo, San Patricio, Rudoso, Tularosa, Alamogordo and other communities. Many received door prizes.

Red and Anna Lee Brown of El Paso entertained with songs, music and comedy and a Spanish male trio sang a few numbers. A delicious barbecue lunch was served at noon when, by the way, it rained.

Chris P. Fox, vice president and director of public relations of the El Paso National Bank, gave a very interesting address. Among those attending from here were the Jack Youngs, Mr. and Mrs. James Howard and Eltho Merrell, Mr. and Mrs. Gilbert Peters, the LaMoine Peters and Glenda, Bill Randles, Lydia Hall, Angie Provine, Mr. and Mrs. Ross Hare and family and the Sam Coxes of Nogal.

After the meeting I visited the greenhouse near Mayhill and, of course, purchased plants for the home and outside. To visit the nursery is to buy something. Other Capitan and Nogal people had been there, too. It was good meeting the Joe Wileys, Billy Peterson, and Henry Dale of Alamogordo; also the H. Dece Millers; also talked to Frank Reddy of Rudoso Downs and to Ray E. Hill, an old timer of Mayhill who has been in New Mexico since 1904.

Superintendent of the Capitan schools, Duane Darling, was a Carrizozo business visitor Tuesday. Rita Romero was graduated from New Mexico State University in Las Cruces Saturday, August 6, with a B. A. degree in business administration and a certificate in education. She will teach in Cuba, New Mexico.

Judy Leichert, a May graduate of Bradwell Institute in Hinesville, Ga., has received a letter stating she was on the Dean's list of outstanding graduates. She was salutatorian of her class, another honor. Miss Leichert will attend Highlands University in Las Vegas, starting September 10.

Melvin Romero left last Saturday after spending a week with his mother, Mrs. Isabel Romero. Melvin will be discharged from the Service at Fort Ord, Calif., this week and will return to Capitan to teach and be on the coaching staff of the Tigers.

Mr. and Mrs. Rozcoe Cloud enjoyed having as their house guests the past week end T/Sgt. and Mrs. John B. Thompson of Tacoma, Washington.

Mr. and Mrs. Billy Hunt Hobbs and daughter Irene and Dan Gregory of Los Alamos enjoyed a two-week vacation in the county. They were guests of her aunt, Mrs. Mayme Gretchen. They camped out one night above Bonito Dam, went to the Lincoln pagant and visited relatives in Roswell. Billy bought a new '60 Ford pickup. The Hobbs have lived in Los Alamos for six years and like it there. Irene is a senior in high school.

Mrs. Roca Hobbs is in California for a month's visit with her family.

Mr. and Mrs. Luther Eaker and children Dinah and Johnny of Los Alamos, are spending a week with her aunt, Mrs. Mayme Gretchen. They enjoyed the Lincoln pagant. Mrs. Eaker was a teacher there in the 30's.

Honor Mrs. Purcella on her 83rd birthday

A dozen close friends gathered at the R. A. Huey home the evening of Saturday, Aug. 6 to honor Mrs. Betty Purcella on her 83rd birthday.

There was a spirit of good fellowship throughout the evening and the group sang "songs our grandmothers used to sing."

There was a request for a talk by one who had been in New Mexico for 70 years, and Mrs. Purcella told about a number of experiences, with others adding to the reminiscences.

Mrs. Purcella received many gifts and after a happy evening, refreshments were served.

Mr. and Mrs. Champ Ferguson drove to Hatchita for an enjoyable week end July 30 with her brother Diack Brazel and family on the Diamond Ranch, owned by the Victoria Land and Cattle Company. They drove through a green and beautiful country, with wild flowers in bloom; also wild life along the way, antelope, rabbits and quail.

Visiting Capitan friends recently were Mrs. Helen Hampton and her children Betty and Butch of Las Cruces and their little friends Paul Melner, Martha Ann Jacobs and Vernon Earl Jacobs, also of Las Cruces. The Hamptons moved to Las Cruces a few years ago. Betty is a sophomore in high school and Pete (Butch) is in the seventh grade.

Mrs. V. R. Ranke and two children Pamela and Steve of Nederland, Texas, spent two days with her aunt (Mr. and Mrs. Richard Flores). They enjoyed the mountains, Rudoso and many points of interest. They had been to Cimarron, where Mrs. Ranke attended the adult leaders' training conference at Philmont Boy Scout camp, comprising 127,000 acres, which was endowed to the Boy Scouts by Walter Phillips of the Phillips Petroleum Company. He also endowed the Phillips Tower Building in Tulsa to help maintain the ranch for the Boy Scouts.

The Ramkes enjoyed every moment at the ranch. He is a teacher in Nederland, which is on the border of Texas and Louisiana. They liked New Mexico and its cool climate.

Eileen Willis returned last Friday from Las Cruces where she had visited for a week with relatives. Her mother, Mrs. E. E. Willis and family, met her on the Rudoso at the home of another relative. They reside on the old Bud Payne ranch.

Walter Embrook, a former printer with or interest in art, again this year will serve as superintendent of the art department at the 1960 New Mexico State Fair, planned September 17-23 in Albuquerque.

Five flower shows are planned in conjunction with the New Mexico State Fair in Albuquerque this year.

FARMING AROUND
By Mark Welch
Do you know who spends the most money on farm research? Industry does! The U. S. Department of Agriculture now spends about \$180 million each year on state experiments and \$110 million on private industry research. The total is in the range of \$220 million each year. Fortunately, these three agencies are now working much closer together than ever before and many of the drugs, insecticides, fertilizers, and other new products have the benefit of this close cooperation. But it's really the farmer who benefits first—then the consumer, which is all of us.

A dollar spent for fertilizer usually returns two to five dollars. Farmers are realizing this more each year and last year bought 24 million tons. This was a new record and a 2 per cent increase over the previous year. Getting such big returns on a dollar invested for six months or less can be matched by few investments.

Old stockmen never trust a bull, bear, stallion, or ram that's new. They've got to be old and they've got to be old. It's not a matter of age, but of experience. They've got to be old and they've got to be old. It's not a matter of age, but of experience. They've got to be old and they've got to be old.

Tips on Touring

Sailing on the Go
To make your vacation tour happy and beautiful, follow these tips on sailing on the go:
1. Plan your trip carefully. If you're taking a week's vacation for the road before you go home, you won't be able to follow it precisely, but it will be a good guide.
2. A sound principle of child nutrition on a trip is to keep the meals light. Young foods don't rest easily on small stomachs. A recent report states that a regular diet routine has been disturbed and is confined to a moving car. Stick to easily digested snacks at stop-offs along the way. You do better to avoid a big meal while you're driving.
3. Try picnic breakers over in a while. Before you settle down for the night at a motel, buy your breakfast food. Fruit, milk, dry cereals, rolls and a vacuum bottle of coffee makes an ideal, easy-to-fix picnic breakfast.
4. Lunch on route can be easy, too. Stop at a roadside grocery and buy all the things for quick sandwiches. Add milk, soft drinks and fruit, and you have a light but nutritious meal. Get extra fruits for a mid-afternoon snack.
5. Save the big meal for night. Check travel guides or local sources for a recommended good restaurant in the vicinity. Then you can enjoy (with the money you've saved by

Revival meetings to begin August 15 at Assembly of God

A revival meeting will begin August 15 at the Assembly of God Church in Carrizozo, starting at 7:30 each evening and continue through August 21, or longer, pastor James H. Wells announces.

Rev. and Mrs. B. Z. Curtis of the Assembly of God Church in Tatum will be the evangelists.

Rev. Wells says that these young evangelists will "sing and preach the old-time gospel, with prophetic sermons giving Bible answers for the dangerous days in which we now live."

Letters to Editor

Editor, News:
My husband and I enjoy the Lincoln County News so much, especially since we live so far from Lincoln County, where we both grew up. I was born in Carrizozo. This check will pay for another year's subscription and you can bet we'll be looking forward to receiving it each Monday of the week during the next year.—Sincerely, Mrs. J. E. Womack, Buckeye Route, Box 2767M, Redding, California.

Editor, News:
In his research into the activities of Henry Street Smith of El Paso, Leslie Traylor ran into evidence that Smith, who Traylor thinks was Billy the Kid, was a musician, adept with the violin and the piano. The only instrument he played was the trumpet of the band at Fort Sumner in 1881.—J. S. C.

Editor, News:
Please renew our subscription for another year. We do enjoy the paper.—Mrs. Wayne Hobbs, Portales, N. M.

CATTLE QUEEN

As he was dozing off to sleep, the cowboy left the herd and rode into camp, cursing and fuming at Severo.

He dismounted and with his rope doubled, he began striking the boy who lay in bed.

Severo jumped from his bed with gun in hand and pumped a bullet through his antagonist's heart.

The other cowboy, the foreman and Mrs. Barber rallied to Severo's defense, and by their corroborated testimony in court, it was proven beyond a doubt that the youth had withstood abuse and mistreatment from the deceased, and he had only acted in self-defense. He was acquitted of the murder charge.

Of a very large and prominent family, two of Severo's sisters still survive and are well advanced in years. They are Mrs. Julianna Serina and Mrs. Lola Artiga of Capitlan. Mrs. Barber lived for many years in old White Oaks and at Three Rivers in Otero County, where she owned large properties and where she spent her declining years. She was a very hospitable and charitable lady and was held in high esteem by all who knew her.

Weather-Wise Gasoline
You're a smart shopper, but did you know the gasoline you bought at your local station yesterday isn't the same as the gasoline you bought there last winter? And gasoline you buy in the mountains this summer won't be different from the same brand at lower altitudes.

Most people tell me gasoline is standardized for seasons and areas. Gasoline works well only when it's properly vaporized. And vaporization varies with weather and geographical conditions. So... all most cities the year into three seasons—summer, winter and spring-fall—and the country into weather sections. For each, they produce, on a monthly basis, the fuel with the best rate of vaporization—fastest in cold areas and in winter, slower in warm areas and in summer. In some areas, chemicals are put into gasoline to eliminate carbonatory (soot). Sometimes additives are used in counteracting reactions that get into gasoline in the fuel line. Octane ratings of gasoline also vary from one section to another because engine "knock" is affected by weather and altitude. You don't have to worry about any of this. Manufacturers of well-known gasoline take care of it and make sure that you get the right kind of gasoline whenever and wherever you need it.

Tranquillizer to Reduce Cattle shrink impractical

The stress and strain of travel affect cattle sent by rail or truck from range to feedlot or from fattening pen to market.

Injection of a tranquillizing drug by veterinary scientists at the Ohio Agricultural Experiment Station reduced the shrink, but not enough to pay for the drug and handling of the animal. The Ohio workers did not feel the use of tranquillizing drugs to cut down on shrink is an economically sound practice.

Weaning calves given the tranquillizer lost about eight pounds per head after traveling for 6½ hours over a 203-mile route. Untreated Herefords shrank 10 lbs. per head. The two pounds less shrink was not enough to make the use of the tranquillizer worthwhile.

JACK LONDON

Like Martin Eden—his most famous fictional character—Jack London led an exciting, adventurous life. As a newsboy, oyster pirate, dock worker, mill hand and war correspondent... London gathered material for his powerful stories.

Born in San Francisco in 1876—London educated himself by his own reading. He traveled around America, abroad in Japan and on to Alaska during the gold rush. From the Klondike he gathered material for his successful novel... "The Call of the Wild."

By 1905 he had become the most successful writer in the U. S. Wherever his travels took him, men raised their glasses to toast him with Old Crow, London's favorite bourbon—now in its 125th year of fine whiskey-making.

Before his death in 1916, London gave the world 50 books. Among his most famous are The Sea Wolf, Martin Eden, John Barleycorn, The People of the Abyss, White Fang and The Valley of the Moon.
