TO THE PEOPLE OF LINCOLN COUNTY:

Your right to vote is one of the most precious privileges and duties of our American beritage, and as a member of our County and of our Nation you should exercise this right.

As a condidate for the office of Sheriff of Lincoln County, I have tried to contact all of my friends in the County and to tell you about my campaign and what I will try to do, if elected your Sheriff. However, much to my regret, I was unable to speak with all of you.

At this time, I would like to say "thank you" to all who have given me support, and have helped me with my campulgn. Now, to all of you, those I have spoken to and these I have not, I sincerely solicit your vote of confidence in me as your friend and as a Democrat.

One thing I would like to comment on at this time is my idea on the issue of illegal gambling, Certainly, I am not in favor of organized illegal gambling and if elected your Sheriff I will do my utmost to keep such activities out of our county.

A second idea which I will promise to fulfill is that of a law enforcement officer, from the Sheriff's Department, in the town of Capitan. The town definitely needs and deserves such protection, and as your Shariff, I would see that this need is taken into consideration and solved.

Third, if elected your Sheriff, I will try to the utmost of my

SKEEN SKETCH

One of the most controversial pleces of legislation that will come before the next Legislature will be concerned with whether or not a Right to Work or Voluntary Unioniom Law should be placed on the ballet as a referendum laus for New Mexico veters.

I look upon the right to work as do the right to life, liberty and the pursuit of happiness. I do not believe that any person should be deprived of his right to work because of membership or lack of membership in any organization. Compulsory or "closed shop" unionism loads to dictatorial abuse of power by union leaders, since members are denied their most effective disciplinary action-the right to step being members of a union when its policies or the conduct of its leaders no longer have their approval.

New Mexico has the right, responsibility, and the duty to pretest the best instricted freedom of its citizens. If elected as your State Sanater, I fill fight for your right to vote on the Right to Work

Your vote and support will be appreciated

Be Sure and Vote November 8th

I thank all the people for their fine treatment and hospitality while I was campaigning over the county.

-WE KNOW BOTH TOM BOLACK AND "ALBUQUERQUE JOE" A. MONTOYA

HERE'S WHY

We As Registered Democrats Will Vote For

TOM BOLACK

FOR LT. GOVERNOR

- The Bolack Plan will bolster New Mexico's economy, bring in new industry and expand job apportunities.
- 7 Tom Belack has demonstrated his ability and leadership. As Mayor of Farming-Non, Belack salved many urgent problems facing that beeming city.
- Bolack served with notable success in the 1957 session of the Legislature.
- 3 Belack's leadership of the Aqualantes contributed greatly to the campaign to build Navajo Dam. His privately-owned experimental form has made many jobs and points the way for moto jobs, with expansion of irrigated farming. His faith and long years of promotion helped make the Four Corners area one of the "boomingest"-in the Nation. ---
- With energy, enthusiasm and initiative, he has undertaken many voluntary public service activities to enhance the growth of New Mexico.
- With a background as form hand and oil field roustabout, Balack sweated out a correspondence school course in geology and proved his theory that the San Juan Basin is a treasure house of oil and gas ressurces. His success is proof of Bolack's basic ability — the intelligence to see and understand a problem and the will to salve it through hard work.
- Bolack has proven he will work full-time for the benefit of New Mexico withcut pay.
- Bolack is on a first-name basis with hundreds of the nation's top industrial, businoss and political leaders. He can accomplish results.
- Bolack will serve New Mexico with credit to his State. Ed Mechem who has been side-by-side with Tem Belack during his campaign has said that he intends to USE the Lieutenant Governor as a representative to bring industrial progress to New Mexico. Mechem and Balack will work as a team. There is no indication of teamwork from the Democratic candidates.
- Contrasted with Tom Bolack's remarkable record is that of "Albuquerque Joe" A. Montoya, his opponent, whose chief claim to fame is the similarity in name to Congressmen Sandoval Joe M. Montoya.

What a man has done in the past is the best way to judge what he can do in the future ... whether its Tom Bolack or "Albuquerque Joe" A. Montoya or anyone else. On this basis we urge Republicans, Democrats, and Independents to vote for Tom Bolack for Lt. Governor.

The Candidates, Lieutenant Governor Joseph A. Montoya

Jos A. Montoys, 50, the Democratic nomines for Licutenant Governor, is an Albuquerque salesman who served ten years in the Legislature from Bernalillo County. He was elected to three consecutive house terms in 1942, 1944 and 1946 and to a four year Senate term in 1948.

Montoya is a graduate of Albuquerque High School

and briefly attended the University of Arizona. A long-time political figure, Montoya won the statewide political spotlight in 1050 when political observers agreed he caused the defeat of Lt. Gov. Joseph M. Montoya's bid to unseat Congressman Antonio Fernandez. In that race, Fernandez received 41,795 votes and Joseph M. Montoya 38,000 with another 10,679 "split off" by Josep A. Montoya.

While in the Legislature he introduced a bill which would have removed the limit on interest rates charged by small loan companies—which was killed by his fellow legislators on grounds that it would be ruinous to poor people desperate in need of loans. He sponsored a bill to require wood cutters to post a \$1,000 bond and pay a \$10 annual license fee. He sponsored legislation to legalize slot machines and to set up a lottery which would have been held on alternate months in Santa Fe and Albuquerque.

Tom Bolack, 42, the Republican nominee for Lieutenant Governor, came to New Mexico as a young man and got a job as a "roughneck" in the San Juan Basin oilfields. He later formed his own company and made a fortune, currently estimated at \$7 millions, in the oil and gas in-

In addition to oil, gas and other mineral interests. Bolack operates the B-Square experimental farm and has run a one-man campaign to promote production of vegetables and other non-surplus farm products in New Mexico. Dolack served as representative from San Juan County in the 1957 House of Representatives where he compiled a record generally considered good. He made an unsuccessful bid for Congress in the 1057 special election.

Bolnek has been active in state and civic affairs, corving as chairman of the State Heart Fund and various other non-profit fund raising ventures. He is a director of the Bataan Memorial Hespital, a member of the Doy Scout board of directors, a field advicor of the Small Business Administration and a member of the U. S. Assay Com-

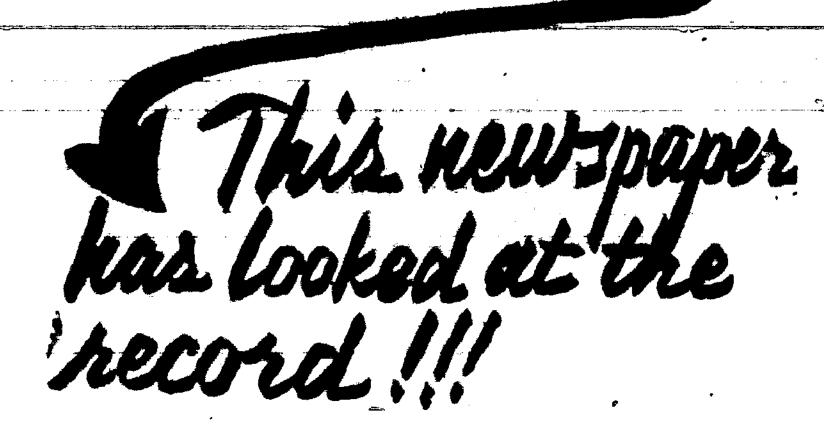

Our Choice

In New Mexico the principal task of the Licutenant Governor is to serve as presiding either of the State Senate. Although he may vote only in case of ties, the man with the gavel potentially has considerable influence. He carves as acting Governor when the chief execu-

tive is out of the state and would become Governor if the chief executive dies or resigns. Becauce of his position in the Senate, legislative experience is important in considering the qualifications of

candidates for Lieutenant Governor. Both men must stand on their records in the Legislature, and Montoya's record is certainly not one to instill confidence in a voter.

Come of the legislative proposals sponsored by Mon-toys were merely silly. Some were considerably worse. We endorse Tom Bolack for Lieutenant Governor.
