Wool sales find strong market

County Extension Agent Ralph Dunlap reports that wool sold last week in Roswell brought from 37 cents to 50 cents a pound, on a strong market. "Several wool sales are expected during the coming week," he said, "and I would predict that many of the light shrinking clips will sell at over 50 cents a pound."

Shearing is in full swing in this area, with over 75% of the sheep expected to be shorn before the end of the month. The county agent commented that Frank Peters did not have his wool tied this year, as he plans to have it scoured and sell on the clean basis. This cuts the cost of putting the string on and the cost of tending it off.

AGENT ADVISES ON APPLYING DORMANT SPRAY

"Prepare to put the delayed dormant-spray-on-your-apple-trees at bud swell time for mites, scale and other overwintering orchard pests," Agent Dunlap advised. "One of the more effective delayed dormant sprays is a lime sulfur-oil spray. Get your spray materials now so that you will have them when needed." For information on fruit sprays, get the bulletin, "Fruit Sprays for New Mexico," from the county agent's office in Carrizozo.

Episcopal churches bless palms to start Holy Week

The blessing of the palms on Sunday will begin the observance of Holy Week at the three Episcopal churches in Lincoln County.

The palms will be distributed and carried in solemn procession at the 11 a.m. service of Holy Communion at the Church of the Holy Mount in Ruidoso. If the weather permits, the procession will be outdoors. Holy Communion will be celebrated at 7 a.m. Monday through Thursday. On Maundy Thursday there will be the traditional stripping of the altar, a symbol of the stripping of Christ before His crucifixion, according to the Rev. Wm. R. Brown.

During the three hours from noon until 3 p.m. on Good Friday, the passion of Christ will be commemorated at Holy Mount. The events of the day on which Christ died will be the subject of six talks by the Vicar.

There will be an altar service at noon on Saturday, Easter Even. The traditional time for Holy Eucharist down through the ages has been Easter Even, Father Brown said. Plans are being made for baptism at Holy Mount.

Easter Day at 11 a.m., the resurrection of the Lord will be celebrated at a service of Holy Communion. The mite boxes for missionary work will be presented at the Easter service.

St. Anne's Church in Glenora will mark Palm Sunday by the blessing and distribution of palms at the 9 a.m. Communion service. On Good Friday at 7:30 p.m., the story of Christ's passion, a sermon, and evening prayer will be presented.

The usual 9 a.m. service will not be held on Easter Day at St. Anne's. The resurrection of Christ will be marked by morning prayer and Holy Communion at 7 a.m. on Easter Day.

Palms will be distributed at the service of morning prayer and sermon at the Chapel of Our Redeemer, Fort Stanton, at 9 a.m. On Good Friday there will be morning prayer and altar service at 10 a.m. Easter Communion will be celebrated at 9 a.m.

Landed fish with dollar decorations

(The fish story that follows was taken from the "Miami Herald" newspaper, enclosed in a letter to Mrs. Alleen Lindamood in Alto from Mrs. Payman. She said the fish indeed had a \$25 tag on it.)

WHAT A FISHING TRIP

By CAROLYN COHEN

Upper Keys, Florida — There were four men in a boat off Cayryst Light on Thursday afternoon, just having a nice fishing trip. Each came from a different state in a mobile home to winter at the Coral Sands Trailer Court near Tavernier. At this point the story is not one bit unusual. It happens every day. But the routine of this fishing trip suddenly changed when Leo Payman of Ruidoso, New Mexico, landed a five pound barracuda with decorations — yes, it bore the orange-numbered tags that mean it will be worth an amount between \$25 and \$10,000.

The fish was registered next morning and now Jack Bruns of East Alton, Ill., Chauncey Roelofs of Landsdale, Pa., and Harold Saunders of Pontiac, Mich., are "sweating it out" until Leo gets that check. But there'll be a party, no matter how many figures are on the piece of paper.

Easement taken on state land by Game Commission

The State Game Commission has taken an easement to insure hunting and fishing on the grazing and agricultural land under the jurisdiction of the Commissioner of Public Lands. The action was taken at a special meeting March 14, called by Commission Chairman C. M. Neal.

This easement opens 10,718,296 acres of land to sportsmen at a cost to the Department of Game and Fish of one-half cent an acre. The attorney general has held that no privileges can be granted on state land without payment of a fee. This fee makes the sportsmen's entry onto state land legal.

Director Fred Thompson of the Department of Game and Fish said, "This means that the hunter and sportsman may harvest game on state lands, but under no condition does it give him the right to abuse the privilege by taking advantage of the other users of the land."

Thompson said further, "Since state lands have multiple use as prescribed by the Commissioner of Public Lands, it seems only reasonable that all users coordinate their activities with the interests of one another in mind."

RARE CRANE SIGHTED AT BITTER LAKE REFUGE

A crane of a type never before sighted in the continental United States is believed to have been seen at Bitter Lake Refuge near Roswell on March 10. Refuge personnel on a routine daily bird count, saw the bird, the so-called common crane, in a group of sandhill cranes. This bird, however, was thought to be a representative of the old-world cranes and differs from the sandhill in having considerable white on the head, dark throat and neck and blackish tail.

One of the species was seen in Alaska in 1959, and two were subsequently sighted in Canada.

TROUT PLANTING

Column for 'Teens' starts in News

This is a new column begun especially for the teenagers. The purpose is to get the teen's personal opinions on matters concerning Carrizozo, their school, Lincoln County, the United States, or the world in general.

Each week a different question will be asked, and being a column for the teens, their replies are the ones we want.

The letters to be printed will be selected because of the person's good and sensible ideas on the matter at hand. Constructive criticism will be welcomed, but the answers to all the questions must make good sense and be worthwhile.

In answering the questions, send your letter to "Talk-to-Teens," Box 433, Carrizozo, N. M. Get your letters in by Monday of the following week.

The only people eligible to write are those between the ages of 13-19. We urge good letters, with PERSONAL opinions. It is not necessary that you sign your name, but you may if you wish to.

The subject of this week is: "What is Carrizozo Doing for Teenagers?" This question has been brought up, so we want you, the teenagers' opinions as to whether you think Carrizozo is doing anything for the teens. If not, what should be done?

All replies will be sincerely appreciated. Make this your column.

STATEHOUSE IN A HURRY

Republican politicians are after Don Davidson, the UNM student who came up here with stars in his eyes about operating the state personal office according to textbook standards. That, naturally, doesn't meet political standards, and thus the trouble.

Grace McAfee Evans, prominent Democrat in earlier administrations as chief clerk of the senate and state personnel officer, is in line for a Republican job as truck pro-rator officer at \$225 a month. She was Republican Lt. Gov. Tom Bolack's secretary during the legislature. . . . Mrs. Evans did a year-long assignment on truck licensing when working for the legislature's interim finance committee.

Faul Case of Albuquerque, as usual for the last few years, was the most influential lobbyist in the legislature and he did it without making a single appearance in the capitol. . . . Pancho Padilla, the man for the retail liquor dealers, was probably second highest scorer. He squashed each of four attempts to get more tax money out of the liquor business or to curb the extraordinary advantages held by the liquor merchants. . . . Pancho supplied legislators with all the whisky they wanted, operating a delivery service from the house of representatives.

Three of the little and useless but elective offices are up for new people next year. Secretary of State, now held by Betty Florina in her second term and sought by Betty Doak, a Demo payroller in the statehouse for twenty years.

REPUBLICANS FLOP ON ROADS ENGINEER

Santa Fe—The return of Larry Wilson as chief state highway engineer assures a severely divided road commission for the next two years.

When Wilson was fired by the Democratic majority of three in 1959 he blasted them for all he could lay his tongue to. Two of the Demo commissioners are still in office.

The situation threatens the short end of the road money stick for districts represented by Demo Commissioners Harold Leonard, Bernillo, Valencia, McKinley, San Juan and Sandoval counties—and John Sudderth—Lincoln, DeBaca, Curry, Otero, Chaves, Roosevelt, Eddy and Lea counties.

3-MEMBER BOARD TO RUN PROGRAM

Wilson's presence practically assures operation of the \$70 million a-year road office by a commission of three Republicans with the Democrats primed to bust out the engineer at the first moment they have the power.

Time permitting, each seminar will close with a question-and-answer period.

This isn't much different from the 1959-60 operation when the three Democrats were in charge but it didn't have to be that way this time.

Commissioner Wayne Collins of Santa Fe newest Republican on the board, said several times that he hoped for an engineer who could work with all five members and there were several available such as John De La Rue, T. B. White, Burton Dwyer.

The other Republicans, Frank Tatch of Silver City and Joe Kastler of Raton prevailed in what seemed to be vindication of their earlier position in support of Wilson rather than concern for the orderly operation of the huge department.

HE'S NOT STRONG FOR TOP POSITION

Wilson is vulnerable. He does not have an engineering degree. He lost his New Mexico citizenship in moving to Alaska and registering as a voter there, making it necessary for the highway commission to certify that there was no New Mexican available and qualified for the job, an obvious falsehood.

Wilson was only a co-ordinator engineer when on the job here. He authorized that remarkable statement which said the highway department was wholly to blame for the Lordsburg road failure and that contractor Jack Adams and sub-contractors didn't do it.

A BETTER PLACE IN PAYNE'S JOB

Wilson was looking for a job when the new Republican majority picked him this time. He was leaving Alaska.

Wilson had a great record here as office engineer in the department, the No. 2 job which would have been ideal for him this time if he could circumvent that residency requirement. . . . Payne, the office or administrative engineer was fired by the Republicans a month ago and the place is begging.

The heat on Wilson in the chief engineer place might be such that he won't survive very long. Meanwhile the Republicans in control look like they fizzled in their first major action.

The first and only pupil to ever graduate from the Fort Stanton school was Tommy Salabije, a young Navajo Indian who graduated with the Class of 1953.

PRIVILEGES OF JUDGES
Judges sometimes take cases away from the jury, or even throw out cases without a trial.

It is your privilege to engage in a lawsuit and go to court to straighten things out anytime you feel you've been wronged in any one of thousands of ways. That's why we have courts. Among these thousands of lawsuits, however, there are bound to be some that should not be tried because the plaintiff doesn't have a valid case at the start.

In such cases, judges have been given the power to call off a trial or put an end to a suit.

Our system requires that one side in a suit must make out a case before the judge will let a trial jury decide it on the facts. There are several "time savers" which a judge uses now and then, when it appears that it is useless to continue a trial on the basis of legal points alone.

One method is for the judge to grant a motion to dismiss. Take an imaginary example where an auto dealer sues John Jones for failing to go through with his contract to buy a jalopy. The court finds out that John's under 21 and cannot be bound to the contract until he comes of age.

Another common shortcut is the directed verdict. A judge may let a trial start, only to find that one side doesn't have enough facts or evidence to make out its case under the law. The judge may then direct the jury to bring in a verdict for the other side whenever it's obvious that the face value of the evidence presented could support no other verdict.

Giving the judges the power to "short-circuit" lawsuits allows our busy courts to give more time to those cases which need careful consideration and avoids crowded dockets. It also saves money, and that's of interest to all taxpayers.

Col. and Mrs. L. W. Varner left for Colorado last Friday morning to visit relatives in that state.

The large trees lining the cabins and dormitory on the hill have been trimmed and it will be late June or July before they give any shade. Also these behind the backstop on the baseball diamond. But the trimming will improve their looks.

Announcement was also made that a new exhibit of five paintings by Toonie Grubb is now hanging in the foyer of the Gerald Chamption Memorial Hospital.

Vera Cruz was taken on March 29, 1947.

News Notes from Along the Bonito

By LOUISE RUNNELS

Snow measured about 15 inches at Bear Canyon this week and about 7 inches at Bonito City. The coldest night was Saturday night, with the temperature dropping to 18 degrees.

Monday morning this land looked like a new country, with a blue sky above and the hills and trees covered with snow, and not a breeze stirring.

By Monday most of the snow had disappeared except on the south slopes and we had wind Monday night and Tuesday.

At the first of the week the snow in the mountains had not started melting enough to make the creek muddy, but the warmer days we are having now will start the runoff and Bonito Lake will begin to fill.

Last week Mary Helen Lobbay went to Carrizozo to take shots for a bad throat. Anna Mae LaMay and Louise Runnels went with Mary one day. We found Dr. Turner with his welcome smile, ready to help a patient. We had lunch with Rachel West. Mary Helen LaMay had our first Spring bouquet, I betcha. She takes fruit tree limbs from pruning, puts them in water in a vase in the house and soon they are in bloom.

The deer are beginning to get brave again after their scare in November and are seen often along the creek, eating the short grass. We have seen a few turkeys near Bear Canyon and between Bonito City and Angus.

Mr. and Mrs. C. T. Sparkman from Lovington spent the week end with Mr. and Mrs. Charles Corder at the Angus store. Mrs. Sparkman made the trip fine. She still has a cast on her leg. When they returned home Sunday evening they called Corders and told them there was 7 inches of snow at Lovington.

Wilma June Young, from St. Mary's Hospital staff in Roswell spent the week end with her parents, Ira and Jill Young. She rode back to Roswell with the Sparkmans, Sunday evening.

Mr. and Mrs. Bernie Hayes and family went to Lovington Friday on business.

Mr. and Mrs. Paul Schreiber

Mrs. Lytle hostess to UPW at St. Patrick's party in Corona

Amid gay St. Patrick's Day decorations, 13 members of the Ancho UPW met at the home of Mrs. W. P. Lytle in Corona on Thursday, March 16. A delicious ham dinner served by Mrs. Lytle, assisted by Sue Callahan, preceded the meeting.

Opening the meeting, President Dorothy Straley read a short article, "Shopping for a Spring Wardrobe." The meeting was then turned over to the program leader, Ethel Hightower, who led the group in the study, "In Him Was Life," about the Gospel of John.

The regular business meeting followed during which plans were made for attending the Spring Presbyterial to be held in Las Cruces April 19-20.

Geraldine Perkins, president of the Corona U. P. W., was a special guest of the Ancho group.

Letters to Editor:

Editor News:

Please send me a sample copy of your weekly newspaper and the price of it, as I would like to subscribe for it. I am told that you carry news of Cedarvale and Corona, and I am interested in them - P. L. Mitchell, Rt. 2, Box 125, Orange City, Kans.

Editor News:

You are getting a lot of new names in the paper but I still have lots of news about people I recall and many whom I know well.

Your correspondents out over the county are doing a nice job - and I am particularly interested in the news written by Aileen Lindamood, Louise Runnels and Margaret Rench. J. S. C. should be someone I know - I do know that I like his column and he reaches back a long way before my first days in Lincoln County and Fort Stanton - May 23, 1923.

The paper has been uniformly good over the years, but I think you keep improving it - spread the time out and it is very evident. Best wishes - W. C. Hendren 470 Chestnut Ave., Sonoma, Calif.

Editor News:

Please renew my Lincoln County News for another year as I would hate to miss a copy. For that's my only way of keeping up with news of folks in New Mexico we know and miss. Very truly yours, Mrs. W. L. Hinnard, 8478 Hughes Circle, El Paso, Texas.

Editor News:

Enclosed is a money order for another year's subscription to the News. I have enjoyed reading it every week and I am looking forward to doing the same for the next year. - SP/4 Evelyn H. Chavez, WA 8 406 136, Shoreland Hotel, 5434 South Shore drive, Chicago 15, Ill.

GOOD NEWS

Sponsored by the Tri-C Ministerial Alliance

The chawl of the grandmother of yesterday was an interesting garment. It was not only worn for warmth but also for fashion. She would wear it Sunday mornings to the church service and when she got home she would put it away until the next Sunday.

Some folks treat Christ in the same way - saints on Sunday, sinners on Saturday. But Christ cannot be put on and off like a shawl. Telling Christ on is an experience that changes the whole life. A shawl may change the outward appearance, but Christ changes the inner man.

"Behold, thou desirest truth in the inward parts, and in the hidden part thou shalt make me to know wisdom." (Psalm 51:7).

St. Paul lists many of the attributes of righteousness, such as: Honesty, love, light and temperance. There is no such thing as a truthful liar, or an honest thief. A man is Christ-changed, or he isn't anything.

There is a negative side, also. To put on Christ is to put off anything unlike Christ. It is to cast off the works of darkness as well as put on the armor of light. Let the "Thou shalt not's" in my life be guardrails on the highway to keep me in the way of righteousness. - John W. May.

ALTO BRIEFS

Mrs. Charlye Peebles is in the hospital at Ruidoso at the present time but according to the latest report, she is recovering rapidly.

Greg Gilliam was here the past week end from N. M. E. L. visiting his parents, the Ferris Gilliams at Eagle Canyon Lodge. He had as his guests Raymond Sarlin, Window Rock, Ariz.; Cliff Jones, Muleshoe, Texas, and Anthony Floyd, Ada, Okla.

Mr. and Mrs. Virgil Monthie and children of Seven Rivers, N. M., visited the Ernest Bloods the latter part of the week.

Thursday, Mr. and Mrs. Jerry Rice drove up from El Paso for the day.

The Hugh Pucketta of Roswell spent the week end in their Eagle Creek Lodge cabin.

The week end turned out to be quite a stormy one. Snow began late Saturday afternoon and continued in the night. On Sunday we had more but due to the warm ground and previous warming conditions, it didn't stay on the ground or the pavement. The snowfall was possibly three inches or more. The wet snow did the country a lot of good.

CAPITAN

By MARGARET RENCH
C. of C. hears about ballistic missiles

The Chamber of Commerce dinner held Monday night at the school cafeteria was a success. The delicious ham loaf dinner cooked and served by the FHA teacher, Mrs. Winifred Cozzens, and her class, was well cooked and enjoyed by everyone.

Chief Warrant Officer and Airman 1c Wicks of Walker AFB of Roswell were our guests. They showed slides and pictures about ballistic missiles and space and answered questions.

It was a very interesting and informative and I only wish more of our friends and neighbors could have attended.

Mrs. Merrell hostess to Round Table Club

The Round Table Club met last Thursday, March 16, at the home of Mrs. Eltha Merrell, with ten members present and two guests. The members were the hostess, Lorene Ferguson, Angelina Provine, Ethel Howard, Marie Edgar, Bessie Jones, Emily Sims, Geneva Walker, Frances Shaw and Pauline Britton. The guests were Grace Murphy and Carrie Frances.

The table was decorated for St. Patrick's Day. Corned beef and cabbage was the main course. No program was planned, so visiting and sewing were enjoyed.

Storm left mantle of snow on countryside

We had some good moisture in 6 inches of snow that fell from Saturday noon to Sunday noon. Three inches stayed on the ground over night and left many puddles of water. The trees were white until Sunday afternoon until about 3, when the warm sun made the snow disappear.

The White Mountains were truly snow-white Monday; also the Capitan Mountains, but the snow did not stay on them as long. How grateful we are for this moisture. It is still cold, but the lawns are turning green, a sign of returning life and courage of Spring.

Little Judy Provine entered the hospital at Carrizozo last Friday, with tonsillitis. She returned home Monday, much better.

The George McBrides and the Lester Lockharts motored to El Paso last Tuesday on business.

Mr. and Mrs. Johnson were El Paso visitors last Monday, leaving early and returning the same day.

Mrs. Dee Hickman is progressing very nicely. She is able to be up some of the time at home. Her sister, Mrs. Goodwin, will remain with her for another two weeks.

Mrs. Hickman has expressed her deep gratitude for all of the many lovely visits, cards and flowers, which helped give her courage and faith to regain her health. They certainly did give her sunshine and happiness. We're just glad to have you home and on the way to health.

Mrs. Miles Williams and two daughters, Carol Ann and Lynn, were business visitors in El Paso for the day last Saturday.

Mr. and Mrs. Gerald Dean and Jane were in Lovington two weeks ago over the week end.

The blocks and materials were delivered to the Rocca Flatlays on West Second street and they started to build a small home last Saturday.

Bill Holmes of Truth or Consequences joined his wife here for the past week end. Mrs. Holmes is still with her parents, the Monroes Howard. Her mother is progressing very nicely.

Mr. and Mrs. Virgil Wallace returned last Monday from a trip.

THE SPIRIT OF AMERICA

By C. L. KAY

"Freedom Through Education"
The Report of the President's Commission on National Goals submitted to the President on November 16, 1960, listed 15 national goals for the sixties. In the field of education, the report stated that the development of the individual and the nation demand that education at every level and in every discipline be strengthened and its effectiveness enhanced.

The Commission emphasized the need for "greater resources—private, corporate, municipal, state and federal—must be mobilized." Emphasis was given to the need for contributing a higher proportion of the gross national product to "educational purposes. This is at once an investment in the individual, in the democratic process, in the growth of the economy, and in the stature of the United States"

In the chapter entitled "National Goals in Education," John W. Gardner, president of Carnegie Corporation of New York and Carnegie Foundation for Advancement of Teaching, said: "Education is important in any modern society, whatever its political or economic forms. But a society such as ours, dedicated to the worth of the individual, committed to the nature of free, rational, and responsible men and women, has special reasons for valuing education."

While the report of the President's Commission on National Goals emphasized the financial aspect of education, the article submitted to the Commission dealt more with the role of the teacher, the student, curriculum requirements and teaching aids. The role could possibly be identified through the theme of public school week, "Democracy in Action." The theme suggested an objective for every school regardless of size, student-teacher ratio, finance or facilities, "Freedom Through Education."

Democracy is a way of life. It is a form of government. As some one said: "We want to live it proudly, teach it well, communicate it clearly." We find that our democracy is being challenged by other forms of government, and we find people who are willing to give up their freedom for a utopia. Edmund Burke said, "The people never give up their liberties but under some delusion."

I am convinced that education is a necessity if democracy is to survive. A democratic government is based on the decisions of the people and will exist only as long as the people make wise choices. A wise choice and a judicious decision call for an informed citizenry. I don't know of any better place to start than in our schools. Someone has said, "Democracy to survive, must be born anew in the hearts of each generation of youth."

American education must meet the challenges of modern communism. The time is ripe for freedom through education.

May each school meet the challenge by giving the students an understanding of the American way of life, instilling within our young people an appreciation for our American Heritage, and an enthusiastic dedication to democracy.

House warming given the Charles Maxwells

While here the Maxwells attended a gala house warming for Mr. and Mrs. Charles Maxwell of 909 Dewey Lane in Alamogordo, given by Mr. and Mrs. Tiny Harris. About fifty guests attended this affair and danced to music by Mr. Harris and Henry McLaskey.

During the evening delicious refreshments were served from a beautiful buffet table. The Charles Maxwells returned to Claunch, taking with them two overjoyed grandchildren, Sharon and Curtis, for a few days' visit.

Harold W. Coe and daughter Judy, with one of her girl friends of Albuquerque visited his mother, Mrs. C. W. Coe, and his sisters, Mrs. E. W. Myers and Mrs. Roy Campbell, on Sunday.

Mr. and Mrs. Robert Lynn and their children Bob and Lois, made a wintery trip into Colorado last weekend. They visited Mrs. Lynn's sister, Mrs. Lloyd Morton, in Alamosa and then drove on to Pueblo where they visited Mrs. Lynn's mother, Mrs. Minnie Doughty, and their eldest daughter, Mrs. Dick Finley. The Lynns reported heavy snowstorms in Colorado and northern New Mexico and at times they had to use their chains.

Mrs. Eldred Hardin, Mrs. Pat Murphy, Mrs. Harry Clifford and Miss Linda Kelso attended the district run-off in the Vogue Sewing Contest in Carrizozo on March 16. Mrs. Hardin and Miss Kelso modeled their costumes, prize winners in the local contest.

Girl "Travelers" to play men's team in Corona April 1

Corona — How do the amazing Arkansas Travelers Basketball Team (all girls) who play more than 200 games during their season, stand such a gruelling, back-breaking pace?

That seems to be the question every basketball fan asks after seeing this great team, which makes its first showing of the season in this area, Saturday night, April 1, against the Corona Town Team (all men's team), at the Corona gymnasium. Game time is 7 p.m.

Although they perform night after night and often in doubleheaders, Hazel Walker's talented girls never appear to be exhausted or weary. Every night they stage their dazzling whirlwind show with the same enthusiasm and skill from October through May in a different town each night.

How do they do it? During the past season, for instance, they played a total of 220 games and set an amazing record, winning 201 and losing only 19. This record was accomplished against many of the strongest male teams in the nation.

Miss Walker has the answer to the questions and it's one of the reasons for the Travelers' tremendous success at the Nation's No. 1 Girls' Basketball Team.

"Condition," says Miss Walker, who owns the Travelers. "The girls are in tip-top condition from the beginning of the season through the end over a six-month period."

Actually the girls are persons athletes who've had many seasons of basketball experience. They've learned the art of pacing themselves, going full steam during a drive and then slowing up while executing a particularly intricate pass pattern.

They have also learned the art of relaxing under pressure, a test of true ability. Each girl in her own right, is an outstanding athlete, not only possessing with a knack for basketball, but with the ability to excel in other sports.

The team travels in a specially-built station wagon and is the best dressed team on the road—stay in the best hotels and motels—eat the best food and literally live and breathe basketball for six months each year.

Mr. and Mrs. W. S. Dishman were in Truth or Consequences this week.

Soil Conservation was theme at March meeting of Carrizozo Woman's Club

The theme of the Carrizozo Woman's Club meeting March 17 was "Soil Conservation," with Mrs. Donna Currie in charge of the program.

Two films, "Grass Farming" and "Highway 54," were shown by the County Agent, Ralph Dunlap. A discussion period followed, with Howard Harkley, soil conservationist, answering questions from the audience.

Topics under discussion included the beneficial aspects of conservation practices and the best methods of fertilizing.

The Woman's Club asked the Soil Conservation District's cooperation in building roadside picnic tables and rest areas.

During the business meeting, the Woman's Club decided to donate a set of Britannica encyclopedias for the school library.

After the program, refreshments were served by the hostesses, the Misses: Claude Brannum, W. F. Ball and Charles Hodgkin.

The table was beautifully decorated in a St. Patrick's Day theme, with green and white. Angel food cake, with green icing and filling, and tea and coffee were served.

Refreshments of fruit cocktail, cake, coffee and tea were served to about ten guests.

For entertainment, games were played. Mrs. R. C. Barham, Mrs. Pat Dunning and Mrs. Curtis were winners of the prizes.

Mrs. Curtis received many pretty and useful gifts.

Mr. and Mrs. Rowley Ward went to Roswell over the week end to visit Mr. and Mrs. Doll Hay and children, and Mr. and Mrs. Rowley Ward Jr. They encountered a snowstorm on their way Saturday.

The Farm Housing loan program of the Farmers Home Administration is picking up new momentum, not only throughout the nation, but here in Lincoln County. That's the word from Thomas E. Dwyer, county supervisor in charge of the agency's lending program.

He informed the News this week that this renewed Farm Housing loan activity follows the early February announcement that an additional \$50 million is now available to the Farmers Home Administration for its 4% loans to farm owners to build or repair farm houses and essential farm buildings. Such a loan may extend over a 33-year period.

The new loan money broke up a log-jam of applications that were being held because funds had been exhausted. Nationwide, loans are now being processed at the rate of about \$5 million a month but indications point to a probable doubling of that pace.

In the Lincoln County area, Mr. Dwyer said he looks for the main demand to continue to be for loans for new construction, although farm owners may need the credit to repair or remodel dwellings, put in modern kitchens, install pressure water supply systems, central heating, bathrooms, and other conveniences.

Mr. Dwyer pointed out that by-products of this loan program include employment of carpenters and other skilled and unskilled labor, and increased business for concerns that handle building materials and equipment items.

Eligible to borrow are owners of farms that annually will produce at least \$400 worth of commodities for sale or home use based on 1944 prices, but who cannot be adequately financed through other sources.

Any additional information can be obtained from the FHA office which services both Lincoln and Chavez counties, located in the basement of the City Hall building in Roswell.

Cotton Show settings have Oriental splendor

The Taj Mahal made its personal appearance, by proxy, in Tularosa on Friday, thrusting its gleaming spires against a blue, cloudless sky, to join the International scenes in the music room on the corner of First and Higueras.

The Tularosa Art Group is responsible for this appearance, another backdrop for the forthcoming Maid of Cotton show. Members present were Ula Walker, Verda Myers, Babe Hanway and Evelynne Campbell.

Following the afternoon-session, they met with Homer Ivy, vocal instructor for the Tularosa school system, to plan and discuss the construction and designing of backdrops for the operetta, "The Mikado," which will be presented by the Junior High School in the latter part of April under Mr. Ivy's direction.

The table was beautifully decorated in a St. Patrick's Day theme, with green and white. Angel food cake, with green icing and filling, and tea and coffee were served.

Former rancher says "spare trees" in brush removal

Editor, News: I was free to make a pleasant visit in Lincoln County during the month of halcyon days, October, when I drove out by the old ranch and talked to some of the neighbors.

The pleasure was not unmixed with chagrin, however, for I was amazed at the extent of "brush removal" work in the forests up there.

On the old familiar north slopes of Capitan Mountain, I saw lonely old giants knoled down in the zeal for a 100% kill that I would have gladly given a \$50 bill to have on my treeless ranch.

Some seem to want nothing but rocks and grass—I had nothing but these—no trees for landscape beauty, shade or windbreak. One wonders just how much good the practice is doing, and where it will stop.

I was gratified to read in Dec. 15 issue of Western Farm Life, under "One Man, Two Arts," that Peter Hurd, while fully supporting soil conservation practices on Sentinel Ranch at San Patricio, nevertheless gave categorical instructions to his employees to never destroy a living tree. More power to this attitude!

Come now, you men of SCS and the Department of Agriculture, how would you defend the thesis of a 100% tree kill on any place in that slow-growth country? You could have parks instead of prairie, if you stuck to real "brush control."

As a voice in favor of attenuating the practice, I offer this poem in carteric vein:

A SONG OF LINCOLN COUNTY

By Vernon Payne

A Juniper on a Mesquero ridge,
Fits only chattered-algerita hedge,
Had blessed the rays of Star of Bethlehem:

And, when conversant with the conifer Wind,
Reporting with the latest atom-taint
Or vapours of the newest rocket-fuel,
Would speak of years, unravel mysteries
Crocheted of man's lost earthing histories.

Not only of frost and boreal storm withstood,
And fire of drought and thunder-bolt, and flood;
But smokes of fumarole, Stromboli to Kotalma,
And sulphurous cities, Draxilla to Troy.

He spoke of smokes of armageddons past,
From Thermopylae to Nagasaki's blast,
With Waterloos and Verduns all between,
Enscrolled in cambium manuscript unseen.

Comes now an acrid wraith of near-born smoke;
A jarring clanking, cataclysmic stroke—
His roots at last are riven from the earth . . .
This is the name of Peace? Or of its dearth?

"Ay, tear her tattered ensign down!"
The words enshrined a dying ship.
"Ay, 'Ooze their tortured ventures down!"
Let irony serve again the whip!

Grass! The Golden Calf and Grass!
Let the nation famishes for grass!
Let us trade palattes of beauty for in increment of grass!

Gulve with the eastward sea of tant!
Roll back the tufted counterpane
Whose folds revet the loins of titanic Captain!

Empower the fickle Diesel sword
To whelm cathedrals of the bird,
Whose parabolic shadows
charm the art of Peter Hurd!

Checkmate the care of Smokey Bear!
No more the turkey stentor there!
Ay! Strike and fold the mossy-cool pavilions of the deer!

If you should want them back again,
Just nurse 'em for ten-score years and ten.

Now, bare the mountain's battlements to beams of the Wind!

Forest booklet shows recreation growth

That recreation is the fastest growing and one of the most important uses of the Southwestern National Forests under the Forest Service's Multiple Use Management system is shown in a new booklet released by the service.

Regional Forester Fred H. Kennedy said the booklet, "National Forest Progress—Southwestern Region—1960," summarized progress made by the 12 national forests in Arizona and New Mexico and the Panhandle National Grassland.

Figures for recreation jumped from 7,745,000 in 1959 to 8,200,000 in 1960. During the past year 245 million board feet of national forest timber, valued at \$2,265,000, was cut. One-third of a million big game, including elk, bear, antelope, javelina and timber sheep, were provided with shelter and food in the forest. Feed for 231,000 cattle and 136,000 sheep was also provided.

The forests earned \$3,707,855.19 and the grassland, \$195,632.26. Twenty-five per cent of this was returned to states for use on schools and roads in counties having national forest land, Kennedy explained.

Forest ski area folder available

A folder, "National Forest Ski Areas, Southwestern Region," has just been released by the U. S. Forest Service. It tells of the seven main winter sports areas in Arizona and New Mexico, all of which are located entirely or in part on National Forest land.

Many descriptions of the areas, including lift, elevation, type of slopes, ski shop facilities, restaurants and lodgings are included. Folders may be obtained from any Forest Service office or by writing the Division of Information and Education, U. S. Forest Service, New Federal Building, Albuquerque, N. M.
