

Corona News

Mrs. A. E. Mulkey • Correspondent

Mr. and Mrs. Melvin Sultemeler and Mr. and Mrs. Dimmitt Bond and family attended the Farm Bureau county-wide meeting at the beautiful Sid Goodloe ranch, north of Captain June 9. They witnessed various interesting demonstrations and enjoyed a delicious buffet supper while visiting with friends and neighbors.

Mrs. Frank Sultemeler has just returned from a session of Home-Makers College at N. M. State in Las Cruces. She reports a very educational and enjoyable session.

Mrs. John D. Holleyman was hostess to Gamma Theta of Beta Sigma Phi. A special meeting for the purpose of studying the book of Beta Sigma Phi and getting the pledge training under way. Refreshments of frosted cakes were served.

As a ways and means project, members of Gamma Theta will again be selling products during the summer months.

Mr. Kenneth Knight and his wife, Ruth, came to Corona in 1945. Both have taught in Corona Schools for 17 years. Recently Mr. Knight resigned as superintendent of Corona Schools. He has now accepted a position as teacher of 6th grade at Farmington. Mrs. Knight will teach 1st grade also at Farmington.

The Knights have bought a home in Farmington and moved there the first of this week. Mr. Knight plans to attend Highlands U. at Las Vegas this summer and will take a refresher course in teaching.

The Knight's son, Eddie, has accepted a position as coach of junior high at Fort Sumner. Eddie is spending his third summer as counselor at a summer camp at Silver Spruce, Colo. Friends of the Knights regret their leaving — Corona's loss is Farmington's gain.

Mr. and Mrs. Everett Dame who have taught in Corona schools for the past nine years are leaving this week, moving to Farmington where they have bought a home. Mr. Dame recently resigned as principal of Corona high school. He will teach sixth grade at Farmington, Farmington has 11 grade

schools and a population of about 80,000. Mrs. Dame does not plan to teach this coming year. The Dames have two sons, Woody and David. Their oldest son, Woody, a 1962 graduate of Corona, plans to enter State University at Albuquerque next September.

Mrs. Doris Bryan has returned from Avondale, Ariz., where funeral services were held for her brother, Airman 1/c John A. Wilson, who was recently killed in a motorcycle accident in Japan. It took two weeks for shipment of his body to Arizona. Services were held in Buckeye Chapel and interment was in Buckeye Memorial Park. He is survived by his mother, Mrs. Ollie Wilson of Avondale, and seven sisters, Mrs. Doris Bryan of Corona, Mrs. Marie Porter of Belen, Mrs. Edith Dossey, Mrs. Billy Leite, Mrs. Ima Jean Walford of Avondale, Mrs. Ouida Stutzfeld, Denver, and Mrs. Kathy Jones of Society Hill, S. C., and many other relatives and friends.

Mr. and Mrs. T. W. James and son, Alvin, made a trip to Las Vegas to see their daughter and son-in-law, Mr. and Mrs. Elmo Shelton and their new grandson. Shelton and his wife, Mrs. Edna, brought them back home to spend the week. Also their son and daughter-in-law, Mr. and Mrs. George James of Kimball, Neb., are here this week visiting. Their daughter and son-in-law, Mr. and Mrs. Lee Mulkey were also in Corona Friday night and Saturday they went to Las Vegas for a visit before returning to their home in Albuquerque.

Mr. and Mrs. Roy T. Nolen and daughter, Rayla, and sons, Bill and Ralph, moved to Muleshoe, Texas, this week where Mr. Nolen has a job as manager or foreman of several ranches. Procopio Tafaya has taken Nolen's place as foreman on the Boggle ranch south-east of Corona.

Mrs. Fern Shaw left last week for Kinkaidler, Okla., where she will spend part of the summer with her parents.

G. C. Brown's niece and her husband, Mr. and Mrs. Richard Filipe and their daughter of Waco, Texas, stopped by for a visit here one day last week. Mr. Brown had not seen his niece since 1940.

Mr. and Mrs. W. C. Smith of Cedarvale had visiting them this week their daughter and son-in-law, Mr. and Mrs. Terry Shannon and four children from Council Bluffs, Iowa, and two sons and daughters-in-law, Mr. and Mrs. Frank Smith of Santa Fe, and Mr. and Mrs. Leon Smith and two chil-

dren of West. Also some friends, Mr. and Mrs. Harry Tyson of Council Bluffs.

Miss Betty Ann Bond who was last year's Corona delegate to Girls State has been selected as Councillor to Girls State this year. Virginia Tenorio will go as a delegate representing Corona. Scholarship is sponsored by the American Legion Auxiliary, Girls State will be held at State U. in Albuquerque the last week in June.

Mr. and Mrs. W. F. Bryan recently bought a house and moved it on the old Bryan place in Santa Canyon in the Gallinas Mountains. They are remodeling the house, and will have a nice home soon. Tommy Tyree, nephew of Mrs. Carrie Mae Jarragitt, and his family have moved on the place where the Bryans formerly lived, east of the Gallinas.

Livestock Report

By Steve-Treadway - Lawis, Kans.

RANGE CONDITIONS —
The past month has been very dry in a large part of the areas East of the Rocky Mts. Kansas in particular has had less measurable rainfall than any month since the Thirties. This has made prospects for grazing conditions rather bleak in Eastern Colorado, Western Kansas, New Mex. and West Texas. Some rains in the last few days of May have helped these areas, but it will take continued rain through June to bring them back to normal. The wheat crop prospects in these countries has also changed considerably. Harvest will be about two weeks earlier due to hot winds and lack of growing moisture. Many farmers are looking for 25-30% cut in the expected yields.

There will still be fair crop with this reduction. Grain planting is almost at a stand still as growers wait for enough moisture to bring the plantings up. However there is still plenty of time for planting as June 1-10 is a general planting date. First cutting alfalfa on dry land operations is being harvested and yields very good. Second crop yields will be much less without moisture. Witte-no one likes a drought, most operators say "We aren't hurt too much yet, if we can get some good rains soon!"

CATTLE PICTURE —
This dry spell has had its effect on the cattle market at most western points. I have heard of no forced movement as yet, but the enthusiasm of many operators, both graziers and buyers has dropped considerably. This always tends to slow activity as well as prices. The lowering of prices on fat cattle at the terminal markets has also had a marked effect on range cattle prices. Some folks think the falling "stock market" situation has caused a more cautious outlook

among many operators. At the present time range cattle movement is at its lowest peak so actually this break is effecting less cattle than the falling markets of last year. No one seems to be in too much trouble at the present time and we are still a good \$2-\$3 above May and June. At this point it would seem that normal rains for one could allow about every one to go on in an orderly manner. If drought does materialize, then increasing movements are very likely during the early summer. A continued dry condition would probably see a large scale movement of cattle in late summer and early fall and cause a downward pressure on feeder cattle prices too large. One indication to watch will be the market receipts of slaughter cows. This will be the first cattle

to arrive due to shortage of grass. **YEARLINGS —** Most yearling type cattle are moving through the cattle auction markets at this time. Receipts are down from April runs as the wheat cattle have moved out. A larger number of the present run are good to plain quality kinds. Prices are generally \$1-\$2 lower than at their peak time of the spring. Demand is still good for these feeder yearlings. The better kinds of heavy steers weighing from 700-900 lbs. bringing 23-24c largely with the good quality at 22-23c. Lighter kinds from 600-700 lbs. at 23-25c with the strictly choice kinds to 26c. Heifers are selling very close to steers in the yearling class. Choice heifers from 600-650 lbs. 23-24c. Heavier kinds up to 750-775 at 22-23c. The demand has been very good for feeder heifers. Very little contracting for fall delivery at this time. The contracts that have been written have been in line with last years highest prices.

CALVES — Most of the activity on calves at a standstill. A large part of the range areas are stocked for summer. Most of the calves moving are from the Southeast. These are largely medium quality kinds. These range in prices from 25-26c on average kinds up to 27-28c for choice light weights. Fall contracts very slow at present due to many unknowns to both buyers and sellers. Some early contracts for choice quality kinds at about 28-30c for str. calves and \$2 cwt. less

on heifers. These are largely repeat buyers on reputation calves for Sept-Oct. delivery. **COWS —** Slaughter cows have taken \$1-\$2 drop. The supplies have not been too large as yet. Packer demand still good. Better kinds of stocker cows in short supply at prices somewhat lower. Good pairs will bring up to \$225 with plainer kinds at \$185-\$200. **FATS —** The market on fat cattle has declined about \$1-\$1.50 from the spring highs. However demand remains good as supplies are less from area feedlots. Choice grade 24-25c with goods at 23-23c and standards 21c-22c at most points. Steve Theadway

My Daddy

By Lucille Porter

I have a gray haired daddy
Who is growing very old
Though his hair has turned to silver
His heart is still pure gold.

He has had his share of burdens
Of toll and trials too
But he always meets them bravely
And knows just what to do.

His step is growing slower
And he can scarcely see his way
For his eyes are getting dimmer
And he is weaker day by day.

Some day God will send an Angel
To take my daddy home
God will meet him at the river
So he won't have to cross alone.

The ones of us who tarry
In this old world below
Will weep and wonder sadly
Why our daddy had to go.

But God will have a mansion
For our daddy up above
And the angels up in heaven
Will shower him with their love.

So we must face it bravely
When our daddy says "good bye"
When he makes his final journey
To his Mansion in the sky.

N. M. ranks 12th in sheep production

University Park, N. M. — New Mexico ranked twenty-sixth among the states in 1961 in liveweight production of cattle and calves, thirty ninth in hogs, and twelfth in sheep and lambs, according to W. Y. Fowler, economist with the New Mexico State University Extension Service.

Liveweight production means the total number of pounds produced on farms. This includes the weight that was gained by the animals on hand, bought, or born during the year.

New Mexico farmers produced 293 million pounds of cattle and calves, 52 million pounds of sheep and lambs, and 16 million pounds of hogs, according to the Economic Research Service.

Texas leads the states in liveweight of cattle and sheep produced, and Iowa is the outstanding hog producer.

National totals for liveweight production last year were 29,686 million pounds of cattle and calves, 20,216 million for hogs, and 1,686 for sheep and lambs.
