By Effie Melkey

Mrs. Emma (Cathy) Maxwell, 83, of Corona died in Mountain Hospital, September 20, following a stroke. She was the mother of Mrs. Mary Fox of Corona. Her home was at Alford, Texas, but because of ill health she recently came to live with her daughter.

Church September 22, at 2 p.m. Interment was in Corona Cemetery. Among those attending the funeral services for Mrs. Maxwell from out of town were her grandson, James Fox, who flew here in his private plane from Wichita Falls, Texas; and three of her granddaughters, Mrs. Sandra Hathaway and daughter, Heather, of Albuquerque; Mrs. Wenna Beth Vickrey and her husband, Norwood, and their children; and Mrs. Dora Cross and her husband

from Las Vegas, Nevada who came to visit her grandmother, arriving the afternoon of the funeral not knowing that her grandmother had passed away. Also attending the services were Mr. and Mrs. Asa Cathey and Mrs. Elsie Tomba of Santa Fe. There were 359 persons receiving the Sabin Oral Vaccine in Corona on September 23. Type 1 vaccine will be given again on September 30, from 10 a.m. until 12 noon, and all persons who could not come before are urged to get their

sugar cube next Sunday. Mr. and Mrs. Elmo Shelton and son, Jonathon, of Santa Fe visited her parents, Mr. and Mrs. F. W. James the past weekend. Corona Presbyterian Church will have Choir practice each Tuesday evening at 6:30. Westminster Fellowship is held also on Tuesday evenings. Plans are being made for a hay ride for the young people in the near future. World Wide Communion will be held at Corona Presbyterian Church October 7, with Rev. Don

Waitfall of Albuquerque officiating. Mr. and Mrs. Paul Westberg had as their guests the past weekend Helen Hutchinson, a teacher from Mesaul School in Albuquerque; and Fran Nettleton, a nurse from the Presbyterian Spanish Hospital at San Luis, Colorado. Mota Vick had as her guests the past weekend her sister, Mrs. Rilda Turner from Silverton, Texas and her sister-in-law, Mrs. Jethie Austin of Estancia. Mrs. C. A. Wade of Claunch

ANCHO

By Dorothy Straley

One of our genial mail truck drivers, Don Ashe, brought his lovely wife, Doris and their four young sons by for a short visit with his Ancho friends recently. They stopped at the store and saw a number of friends and went on to the George Straley Ranch. The visit by good old Don and his family was enjoyed by all.

The weatherman co-operated nicely Sunday providing a perfect day for the A. W. Gnatkowski, Jr. annual picnic at Jack's Peck. A large crowd of friends and neighbors enjoyed the hospitality and the delicious meal served. Gnat proved very adept, as always, as chef turning out barbecued ribs, beans, potato salad, relishes, cake, and homemade ice cream. We're sure he couldn't have done this without the assistance of his loving spouse and partner, Janice. A wide assortment of beverages was available, and they allowed no one's cup to run dry. Pete and Mel, sons of the Gnatkowskis, entertained the children providing riding on their Shetland ponies. Some of the familiar faces seen were the Dud Eagloys, the Dud Taylor, the Dimmitt Dandis, the J. C. Barham, Robert Curtiss, Pat Eganling, Charles Jones, the Johnson Stearns, the Pat Murphy's, the Lorenzo Lovas, the Cogo Stralays and numerous others. We are all looking forward to this event next year.

Walter, who was a Carrizozo graduate in 1932, will be hospitalized for at least a month and would appreciate hearing from old acquaintances. His address is National Institute of Health, Clinic Center, Floor 7 East, Bethesda 14, Maryland.

Mr. and Mrs. Gus Wright and small son, Ronnie, were weekend visitors of Bryan Hightower and the J. A. Hightowers.

Mrs. Leo Straley and Mrs. J. A. Hightower were in Albuquerque last Wednesday attending an executive meeting of the Rio Grande Presbyterial.

CHAMPIONS DISPLAY TROPHIES — This is a group of 4-H Champions at the Lincoln County Fair in Capitan. Left to right are: Punk Cooper, Tinnie; Joe Cooper, Tinnie; Jud Cooper, Tinnie; Betty Lou Jones, Capitan; Wayne Dunlap, Negal; and Billy MacVeigh, Carrizozo.

PROGRESS MADE — Carrizozo has its share of buildings that constitute fire and health hazards — the number of "sidies" was cut down by Leo Lujan shown in the picture amidst the wreckage of a building, the Old Harris Garage, Mrs. Vincent Roll had torn down. Leo is standing by an old-time oil pump. (News Photo)

Walt Wilson re-elected as head of Lincoln Co. Farm & Livestock Bureau

The annual meeting of the Farm and Livestock Bureau was called to order by President Walt Wilson. Invocation was given by Sid Gendros followed by pledge to the flag, Gerald Dean, Capitan Chamber of Commerce welcomed the group. A. W. Gnatkowski, Corona local chairman gave the response.

Featured speaker for the evening was Mr. Albert Knoles of Santa Fe Executive Director of the New Mexico Taxpayer's Association who spoke to the group on matters relating to subjects of economic government philosophy and taxes. A pamphlet pertaining to the accomplishments of the New Mexico Taxpayer's Association was distributed.

Entries in the Talent Find were Paty Sanchez, Lincoln; Ann Ro-

Officers elected for the ensuing year were: Walt Wilson, pres.; Floyd Hale, vice-pres.; Mrs. Walt Wilson, Chairwoman; Mrs. N. E. Britton, Sec-treas; Buster Bird, Jr. and Kenneth Noster were re-elected to serve on the board of directors. Other board members are Melvin Sultemeyer, Kenneth Vano, and Grady Eldridge. Three resolutions were presented and two were passed.

Don Nicholas, insurance agent for Farm Bureau gave a brief report. Bill Wells, regional organizational director spoke briefly on the structure of Farm Bureau and its vital importance in speaking and working for agriculture. He mentioned the dates for the state convention for New Mexico Farm & Livestock Bureau were Nov. 23-25 to be held in Las Cruces and that convention goes would have an opportunity to tour the new agricultural building on the campus of NMSU. Farm Bureau has worked in promoting the need for such a building.

Two resolutions were proposed to be acted on at the state convention.

BLM land lease - Whereas it is agreed that BLM lease rates at present very low and an increase is forthcoming, we hereby endorse the A. D. Brownfield-Floyd Leo proposal whereby rental increase would be applied to range management by the leasee.

Beef Promotion - Whereas beef promotion on an organized basis is believed to be beneficial to the cattle industry to a limited degree, we recommend that the present two cents per head deduction at markets or any further increase remain on a voluntary basis and not become a checkoff.

Mr. and Mrs. Charles Jones and Mrs. Ernest Gultemeyer were recipients of engraved silver serving dishes in appreciation of their work in Farm Bureau.

Approximately 60 people were served a delicious ham dinner by the Capitan Woman's Club. The baskets of delicious apples from the Honco Valley were enjoyed as well. A number of candidates for county political offices attended and were introduced. President Walt announced the Lincoln County Farm and Livestock Bureau was planning to conduct a Measure the Candidate program at each of the high schools in the county during October.

Information was a chore at convention

By Resale Dunlap

Try to think of the information needed by 1900 people at a convention. That was the job I had for a week. Four other county agents helped with the information to the National Association of County Agricultural Agents, held at University Park.

They wanted to know everything from getting baby sitters to the bull fight.

The best laugh I had all week was on a county agent demanding green stamps in Juárez.

The county agents were given some excellent information on programs, legislation and events affecting farmers. It is quite hard to say any one speech was the best as each speaker presented his subject well.

FOOD MORE IMPORTANT THAN SPACE RACE TO EMERGING NATIONS, YORK SAYS

The world's underdeveloped countries are far more interested in the struggle to obtain food and other necessities of life than in the race in space, Dr. E. T. York, Jr., administrator of the Federal Extension Service, Washington, D. C., said today, (August 28).

Speaking to delegates assembled at New Mexico State University for the 47th annual meeting of the National Association of County Agricultural Agents, Dr. York described the reaction of a prominent government leader in a Southeastern Asia country during a visit made by Dr. York to that area last fall.

That leader pointed out that 85 to 90 percent of the people in this country know little about and couldn't care less about the space race, Dr. York said. Their primary

concern is to obtain food and other necessities of life.

The leader also suggested that if we want to make a comparison between the United States and Russia that would be most meaningful to his people, we should point to the amazing productivity of American agriculture, Dr. York added.

While admitting that the United States has a major problem in learning to live with abundance, Dr. York suggested that as the Russians struggle desperately to meet their minimum needs in food production, they no doubt would willingly trade their farm problem for that of the United States.

Russia's Premier Khrushchey, during his visit to the United States in 1953, was far more impressed with the obvious superiority of our agriculture than our automobiles and other industrial production items, Dr. York pointed out.

Almost without exception, underdeveloped nations have set increased agricultural production as their primary domestic goal. These emerging countries are looking to other nations to help them achieve that goal, Dr. York said.

Communist nations, unable to achieve sufficient agricultural production to meet their own needs, have little to offer other nations in either material goods or methodology, he pointed out.

Dr. York then added: The struggle for men's minds in which we are now engaged will be won with deeds — not words. And thanks to the success of agriculture, the United States is in an enviable position in this regard.

Two avenues are open for the United States in helping win the struggle for men's minds, Dr. York said.

"We have first an opportunity to use our agricultural abundance to help feed our less fortunate friends in other lands. In fact, basic human decency and morality demand that we share our abundance with countries suffering from hunger and want.

"We have an even greater oppor-

tunity to contribute the know-how that has made our productivity possible — help these nations become strong and self-reliant."

In country after country on last fall's trip to Southeast Asia, agricultural leaders there said their number one need was a strong and effective extension service, Dr. York reported.

"In my opinion, we have one of our greatest opportunities to contribute to world peace and to the prevention of further enslavement of mankind around the world by helping these emerging nations develop effective extension programs which can provide the basis for further development of their agriculture," Dr. York said. "In doing this we must rely heavily upon the leadership and competencies which you and your colleges can provide. You have contributed much to the development of our agriculture in the United States. You now have a challenge to make a somewhat similar contribution on a global scale."

First Fall Meeting Held

Gamma Theta Chapter of Beta Sigma Phi held its first fall meeting September 10 in the home of Mrs. Leo Straley.

President, Mrs. L. L. Carnell, was in charge of the business session. Plans for the coming year as to projects, ways and means, and such were discussed.

The program outline is entitled "Happiness". Happiness through control of self and environment, through understanding and wider interests, and happiness through enjoyment and freer affections will be studied this year.

Mrs. Jack Davidson, Jr. and Mrs. Rogene Alford were in charge of the program. "Definition of Happiness". Each member answered the roll call with her definition of happiness. Happiness through health, work and play, emotions, and general attitude toward life, were discussed.

Refreshments of tea sandwiches, cake, punch, and coffee were ser-

ved. The next meeting will be in the home of Mrs. John D. Holleyman.

ONE MORE WEEK FOR BEST PINON HARVESTING

Reports are coming in of a fairly abundant pinon crop in some localities in Lincoln County. In the sunny lower sections, many of the pods are open or partly open. A wind storm or rain would help shake the nuts free from the pods that are partially open. Pickers were busy in the Jicarilla Mountain area last Sunday.

Early-day resident dies in Los Angeles, Calif.

Editor, Lincoln County News, Carrizozo, New Mexico
Dear Sir:
Residents of Lincoln County of the period 1910-23 who are now living may be interested to know that Mrs. Loula Ella Moss passed away at her home in Los Angeles, California, September 10, 1962, at the age of 83. She was survived by three children, Mrs. Graco O. Lechridge, Oakland; Mrs. Ralph N. Lloyd, Los Angeles; and William H. Moss, Los Angeles; and by three grandchildren and three great-grandchildren.
She went to New Mexico in 1910 with her husband, Samuel R. Moss, who homesteaded about 7 miles east of Carrizozo, at the foot of Carrizo Mt. Thereafter they lived at many communities around Capitan Mt., ranching and teaching school. Mrs. Moss taught at Nogal, Parsons, Hondo, Bluewater, Richardson, Desco and the Patos. Mrs. Moss taught at Arabella, Meek, and Encinosa. Many of these places must by this time have disappeared. They ranched at the Patos, Steel Springs and Carrizozo.
Numbered among their friends were the Meyers (Charles and Paul), Stimmels, Carl, Titworth, Sagers, Spencer, Governor Mac Donald, Rollands, Ziegler Bros., Frenches, Pachecos (Arabella), Stoners (Hondo), Gummes, La Lofes and many many others.
About 1920, Mrs. Moss moved to Carrizozo, where she operated the Commercial Hotel, located about one lot north of Barnett's old livery stable. The children attended school, where Dr. Cole was superintendent. At that time, Mrs. Gumm was Postmaster; Ziegler Bros. operated a general merchandise store; Padens and Rollands operated drug stores; Vincent "Dutch" Nell ran a garage; Coopers, Braumans, Spencers and many others were ranching; Antonio Vega was city marshal; Taylor operated a garage and hardware store. During those years the first airplane to come to Carrizozo landed on the ball park, west of town. The favorite Sunday afternoon recreation was going over to the railroad station to watch No. 4 come in from the south and head on north.

THE VOICE

of the NEW MEXICO TAXPAYER
Our Federal tax system provides a classic example of sending a boy on a man's errand.
From 1913, when the first income tax law was passed, to about 1930, the tax system worked like a charm. Only a few rich people felt the teeth in the tax bite, and no one worried much about them.
In 1930, the individual and corporate incomes together raised \$2 1/2 billion, according to the Tax Foundation, and another one and a half billion came easily from customs, excise (sales) taxes and miscellaneous revenues. Washington spent less than three and a half billion dollars, so there was a tidy surplus. A married man with two children and a \$5,000 income paid only \$2 in income taxes.
What worked so well up to 1930 just isn't doing the job today. The present system has the same kinds of taxes — income taxes, excise taxes, customs and miscellaneous taxes — but Congress has increased the rates and increased the impact to raise \$33 billion for the Federal budget in the year beginning July 1, 1962.
The individual income tax that

produced \$1.1 billion from five million taxpayers in 1930 is now called on to provide \$49.3 billion from some 62 million taxpayers.
High incomes, which produced most of the tax from 1913 to the 1930's, are even more heavily taxed today, but there aren't enough rich men to pay all of today's taxes.
One result: the same \$5,000-a-year man now pays \$420 in income taxes, and the U. S. Budget Bureau estimated that he is hit by another \$344 in hidden and other direct taxes.

NOW-GO JET-SMOOTH CHEVROLET for '63

If it didn't say Chevrolet on the flanks of the superb automobile you see here, you'd have a hard time proving it's a low-priced car. It offers luxurious styling, extremely comfortable, spacious and silent interiors... plus a lot of invisible ways to keep it looking and running like new when a lot of others have started to sag and silt: new flush and dry rocker panels under the doors to guard against rusting... self-adjusting brakes... Delco-tron generator for longer battery life. If you ever wondered why Chevrolet leads the field, a drive in this '63 should answer all your questions.

GO CHEVY II for '63-IT'S EXCITING!

GO CORVAIR for '63-IT'S EXCITING!

Hard as it may be to believe, this year's Chevy II is better, better than last year's and better than anything in its class. It combines all the new easy-care features of the big Chevrolet with its own wonderful attributes of parkable size, four- or six-cylinder fuel economy and interiors that'd do justice to cars with twice its price and half its charm.
Change it! Calm yourself, nobody's going to mess with a winner like this one! We did add self-adjusting brakes and a more fully slanted muffler; interiors and outside trim are refined a bit, but the rest is pure Corvair with all the over-the-road goodness that implies. Oh yes, we changed the taillights so all those people you pass will know you're driving a '63.

It's Chevy Showtime '63!—See four entirely different kinds of cars at your Chevrolet Dealer's Showroom
