Moriarty equipment stockpiled at Stanton

The regular meeting of the Ft. Stanton Tuberculosis board of directors was held July 17 and continued through the morning of July 18. Present were Dr. A. Eugene Mann, chairman; Mrs. Lena M. Pfeiffer, secretary; Mr. Paul Payton, Mrs. Eleanor Jones, and Dr. Louis Levin, members; Dr. H. C. Jernigan, medical director; George W. Bryan, superintendent; and Dr. Wilhelm F. Rosenblatt, associate medical director. Pat Salas, secretary, recorded the minutes.

Following a welcome to the new board members by Chairman Mann, a certificate of appreciation to the retiring members, Mrs. Alicia V. Romero of Santa Fe and Lawrence Goodell of Roswell was approved by the board. Minutes of the May 8-9 meeting were approved as submitted.

Due to the fact that one board member could not stay over for the Saturday session the agenda was not followed in order and the most important business taken care of Friday.

The next meeting of the board will be September 5 starting at 10:00 a.m. and continuing through the following day. The doctor on the board stated that his patients could not understand why he had to leave Friday morning ahead of a long weekend, and the publisher on the board agreed that his shop force was left without guidance on a working day — hence the move to Saturday.

The hospital has been without a policy on housing of relatives of patients. By unanimous motion of the board, relatives of patients will no longer be housed at the Fort.

tive, and drugs not always well tolerated. The bacilli can get resistant, which can be licked by combining drugs.

The second problem in treating TB is to handle those patients who do not show negative on the first attempt. This is a retreatment problem, even greater than the initial treatment.

Preator, a drug developed in France in 1962, was used at Ft. Stanton, among the first in this country. Side effects were bad, and a secondary drug was necessary. A hope at Fort Stanton, and other TB hospitals of the nation, is to find a drug that will make chronic positive patients negative — the main problem is retreating.

The staff is now committed to full control of tuberculosis in New Mexico. A program is under way making use of two investigational drugs, Etham butol and Isoxy, which requires weekly and monthly reports. Two different regimens are using these drugs, with different dosage within the regimens. This program puts much extra load on the lab people and nurses.

Chairman Mann told the board of efforts to secure more doctors. He found that seven state institutions were looking for physicians. Mann asked approval of the board, that he offer a position to a doctor who indicated he would be interested in coming to Ft. Stanton, approval granted.

TB chest clinics over the state discussed. Dr. Jernigan is in contact with health officer at Raton, good possibility a clinic will be held there.

A group of ladies from Ancho toured Fort Stanton on June 9. Guests are welcome and tours can be arranged, if advance notice is given and time arranged.

Supt. Bryan told of the work going on at Moriarty. All facilities are being removed there. A crew of five men is busy trucking materials and equipment to Fort Stanton where it will be stock piled for use by most state agencies. Bryan said the saving to the state could run as high as \$250,000. There are several houses at Moriarty which will be moved, possibly one used as superintendent's quarters, others used at the Forest Camp. Sale of water to contractor is financing moving equipment to Ft. Stanton for storage.

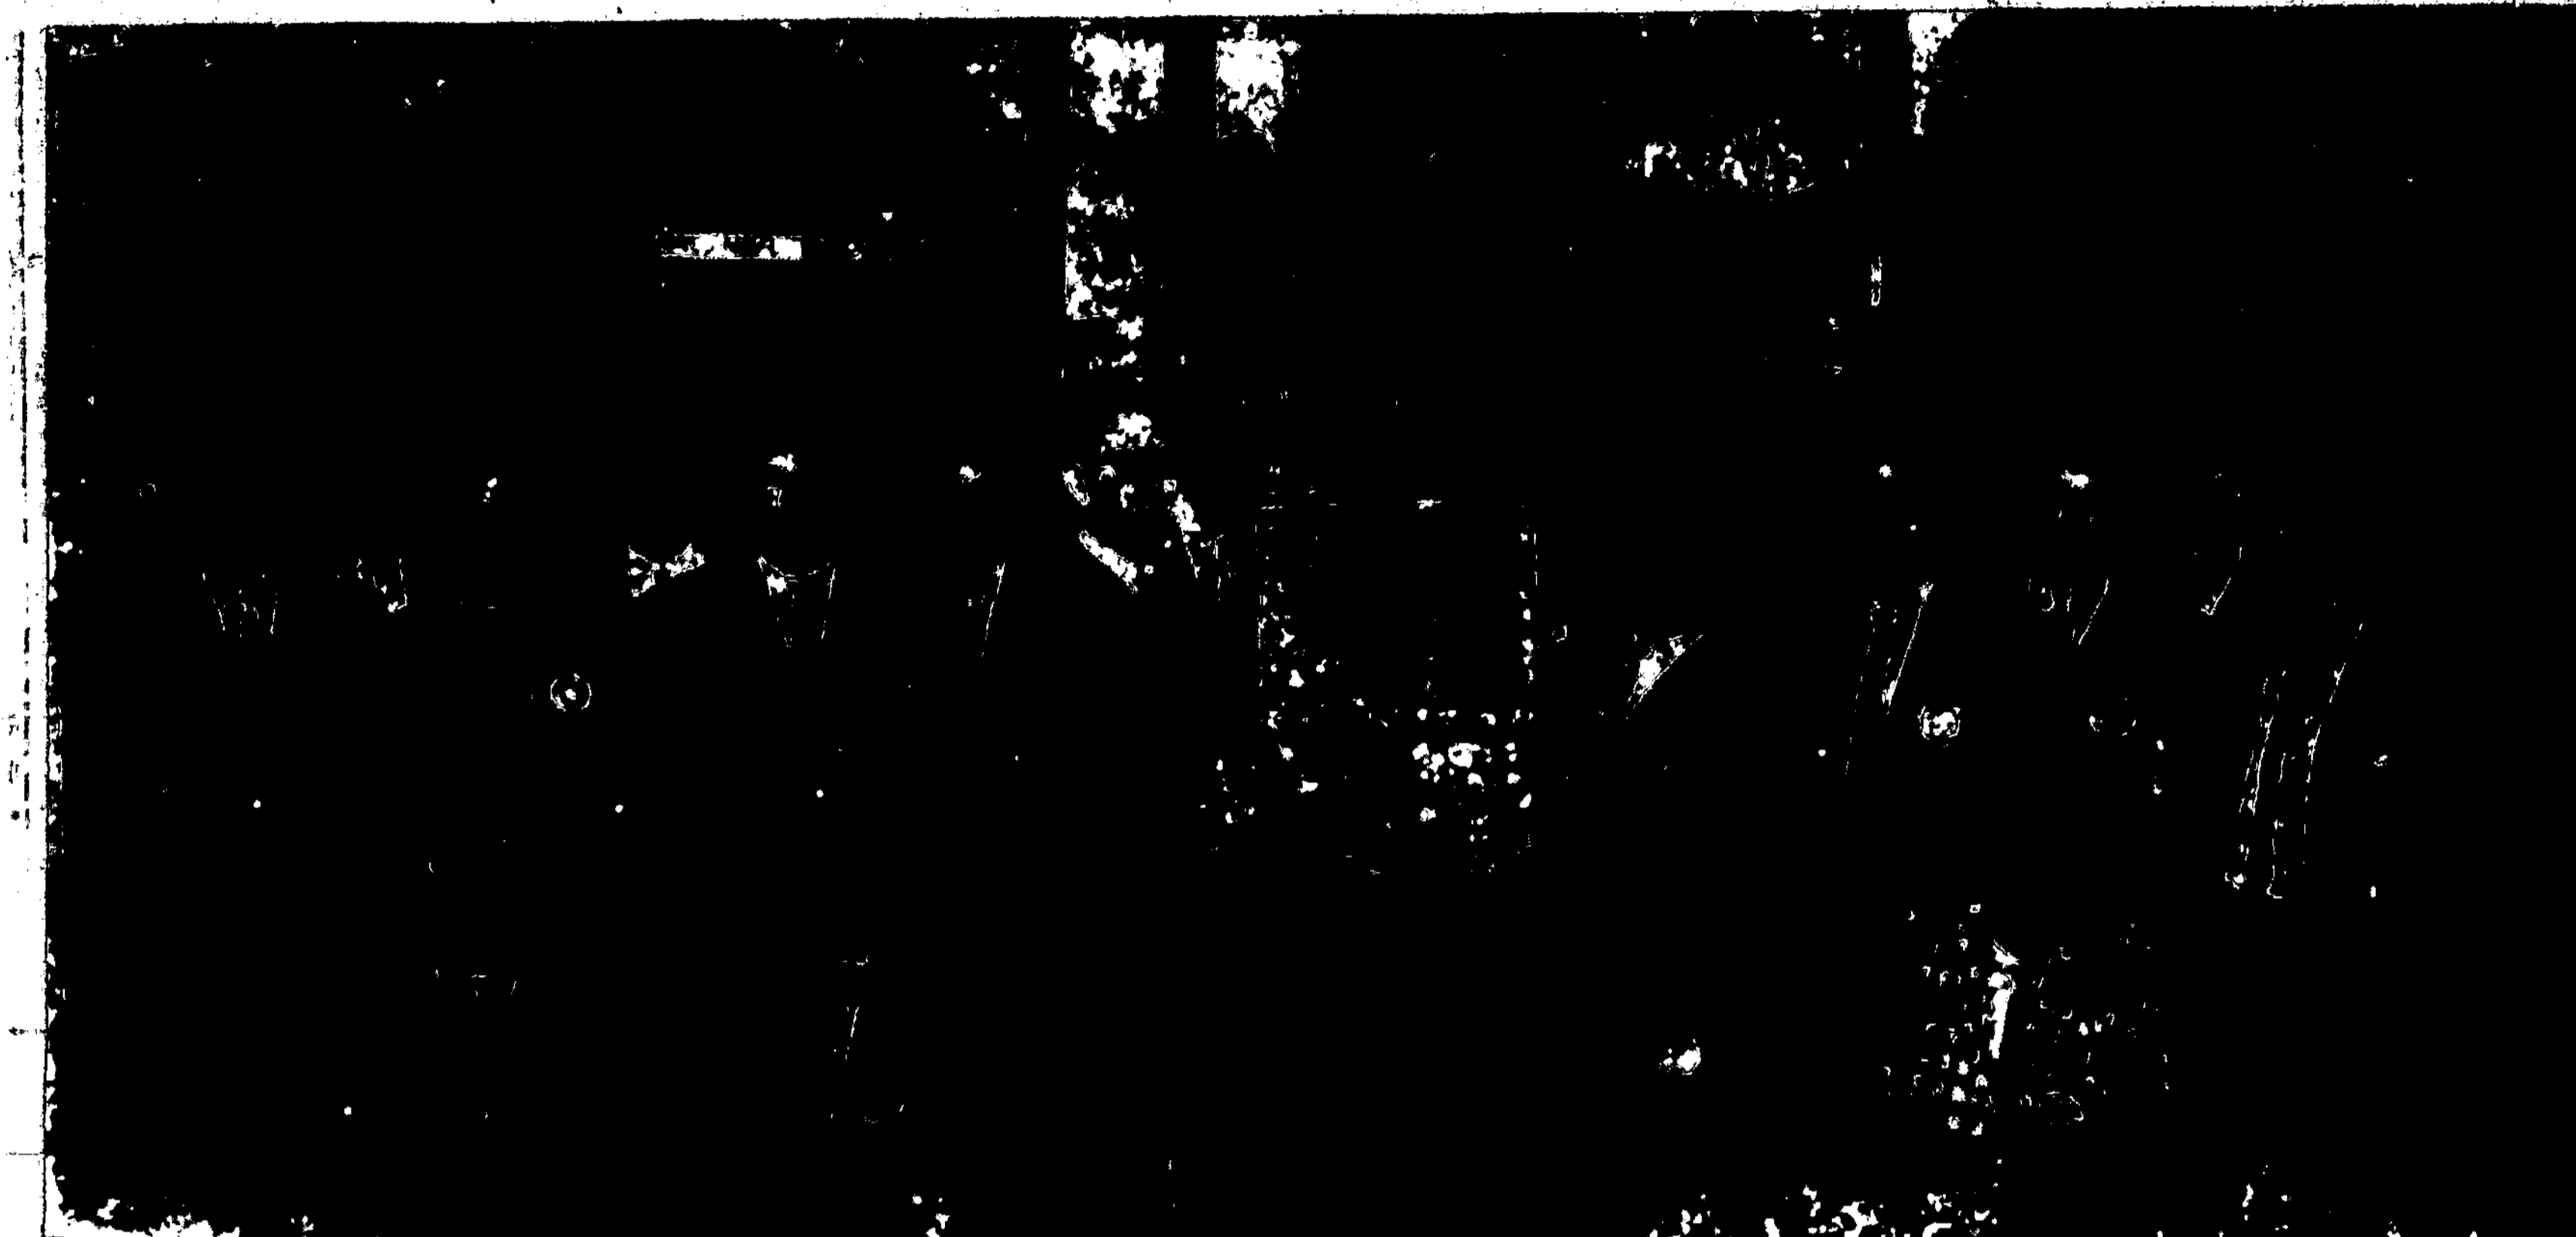

A Roswell architect spent a day at Fort Stanton, and recently sent a basic plan for 12-bed security ward. This project is coming along as expected and will put the hospital in

The talk on "Lionism" by Dr. A. Eugene Mann was well received and applauded from his opening statement, "I'm happy to appear in Capitan's cow palace." Continued Mann, "it's a great thrill to charter a new club. It's better to light one candle, than to curse the darkness, and that's what we're doing tonight. Instead of complaining about our town, Lionism is doing things to improve it — and is doing that all over the world. We do not place perfect at-

By banding together we can do so much more. By taking an active interest in civic affairs, interest in the community, and united in the bonds of fellowship Lions can do much for the world — and Capitan."

Members of the club, and wives, had worked three nights to decorate the "cow palace", pretty grim at the start, said one of the wives, but beautiful on the charter night.

INSIDE THE CAPITOL — By WNI Harrison

Expressions of hate and extremism from those who charge Goldwater

NOBODY CHANGES, EVERYBODY SORE

SANTA FE — The Cow Palace convention hasn't seemed to change anybody's opinion. I found delegates leaving San Francisco with the same attitudes they held on arrival. And upon returning to New Mexico the same ones who were beating my ear before the convention were still on the same themes after the convention.

The campaign hasn't even started and there is plenty of time for the broncos to get back in the pasture but it's doubtful if they will.

PARTY SPLIT, BITTER, DEEP

The split in the Republican party this summer is not the biggest, but it's the deepest and the bitterest this writer has witnessed in either party.

It is ironic that most all the expressions of hate and extremism are coming from those who accuse Goldwater of these vices. The hysteria in Santa Fe and San Francisco was evidenced by the Goldwater foes before and after the nomination.

The Goldwaters can indulge in serene silence because they

had the delegates. Otherwise they might be as extreme as the bolters.

MANY RESENT ANDY CARTER

Much of the local hate and hysteria is directed at New Mexico Goldwater Chairman Anderson Carter of Lovington.

Some are infuriated because Carter wouldn't let them have places on the delegation to San Francisco. Others are sore because Carter is a former Democrat.

And a good many of the bolters are honestly afraid of Barry Goldwater and entertain such fancies as fascism and war mongering being present in the Goldwater movement, and naturally they're not calm about it.

SOME GOING OUT SOME COMING IN

It isn't evident yet how many people the Goldwater nomination drove out of the party in New Mexico but there is a compensating factor in the number that Goldwater's selection is bringing into the Republican ranks.

Even many of the leaders in

the Goldwater movement were not in the party in the last presidential campaign, and certainly many of them were not party workers as they are now. And there is a big conservative element in the state that will be pulling the Republican lever because Goldwater is on the ticket who would not have supported Scranton or Rockefeller or Lodge.

GROUP RESEMBLES KENNEDY'S GANG

The Goldwater organization in New Mexico and San Francisco has many of the characteristics of the John F. Kennedy organization of 1960 that backed JFK with blood-oath loyalty and determination.

Goldwater's capture of his party's convention was more complete than Kennedy could manage in Los Angeles, and the Republican is going into the main event run with a personal

Former Carrizozoian wins art recognition

In a series of articles on local artists running in the Yuma, Arizona Sun, was one which would be of interest to Lincoln County News readers.

It tells of the work of Yuma artist, Bernice Smith, who is Mrs. Bradley Smith, a former Carrizozo resident and the daughter-in-law of Mrs. Era B. Smith of Carrizozo.

The article states she began painting in Yuma in 1954 and has enjoyed a great measure of success. Her works have been shown in the Yuma County Fair, the Arizona State Fair and numerous other collections, earning many prizes.

While in Carrizozo as a member of the Woman's Club she helped bring good regional art shows to this community.

She is now secretary of the Yuma Fine Arts Association and is a leading force in the art circles of Yuma.

Wedding vows of Miss Ruth El Joiner, daughter of Mr. and Mrs. Leo A. Joiner of Hondo, and Mr. Edward Leon Lawrence son of Mr. and Mrs. William E. Lawrence of Madisonville, Kentucky, were solemnized on July 10, at 8:00 p.m. in the First Presbyterian Church in Ruidoso. Rev. Dwight A. Sharpe, pastor of the church officiated at the double ring ceremony.

Tall baskets of shasta daisies and fern with candelabrum holding ice blue tapers decorated the chancel of the church. A bouquet of blue carnations was placed on the altar. Mrs. Richard Phillips sang "True Love", "Because", and "The Lord's Prayer", accompanied by Mrs. Edgar Phillips at the piano. Mrs. Edgar Phillips also played traditional wedding music for the processional and recessional.

Clem Curley, Lincoln Forest Ranger starts work in Smokey Bear area

The new assistant Forest Ranger arrived July 6. He is Mr. Clem Curley and has a wife and three boys. They have been making their home at the Walker apartments but moved or plan to move to the McInnes house on Second Street as soon as it is ready for them. Welcome to Capitan. We are glad to have you and do sincerely hope that you will enjoy your home with us.

Thursday, Friday and Saturday we enjoyed good rains each day. We did appreciate that moisture. The atmosphere has cooled and certainly does give us new life. It has rained around us too, and we know the ranchers appreciate it. Good to have mud again.

To this date, I have failed to announce the birth of the lovely little lady, Judy Elizabeth, who arrived to bless her parents, Mr. and Mrs. Dwight Bowden. She was born June 29 at the

Ruidoso hospital weighing seven pounds and two ounces. She certainly is a lovely little baby and her one sister and three brothers do enjoy her.

Dwight Bowden underwent surgery at the Ruidoso hospital on June 26 before Judy was born and went home with the mother and her mother July 1. All are doing OK, a happy family. Her grandmother, Mrs. Bohlin, is also the happy one.

Mr. and Mrs. Bryan Wright and family left Saturday to attend the Wright family reunion at O'Donnell, Texas.

Greggie Solether celebrated his sixth birthday by being with his grandparents, Mr. and Mrs. Ralph Solether Sr., at Albuquerque July 12. I do wish you many more happy birthdays. I know you will be happy going to school this fall.

The Smokey Bear Museum hours are: 8:00 a.m. to 6:00 p.m. seven days a week. We are having lots of tourists at this time and enjoying it.

Mr. and Mrs. Lee Smith and Joy returned Sunday from a two week vacation in Texas with Jimmie, Judy and Rocky Kerr.

Jean and Keith Austin who have been visiting their grandparents during the summer, are home for two weeks during Darrell's vacation and the grand parents are coming for them in two weeks. Mr. and Mrs. Smith of Portales enjoy those children and will until school starts.

The charter night of the Lions Club met at the old school gym. Over 100 attended and enjoyed the dinner served there by Pearl Saturday night.

Mr. and Mrs. Paul Jones and family start their two weeks vacation July 25 and they are prepared to go fishing in the north western part of Colorado. There are lots of lakes and it is in the spruce country.

It is with regret that we learn of another old timer's death. Mrs. P. G. (Mattie) Peters passed away at her home of a heart attack July 2 at Santa Cruz, Calif. She was laid to rest there.

Mr. and Mrs. Hollis Cummins went to El Paso Sunday and will return Tuesday. Their three sons stayed with their grandparents, Mr. and Mrs. Waltrip, on the Ruidoso.

Mrs. Lewis Cummins accompanied Mrs. Cozens to Alamogordo last Friday. While there she was taking care of business, Mrs. Cummins visited her mother, Mrs. Adda Sellers. She is doing OK of which we are always glad to hear.

Mr. and Mrs. Lewis Cummins attended the dedication of the Frank Coe room at the old Lincoln County Court House Museum last Sunday.

Mr. Hiram Dow of Roswell was a visitor in Capitan last Saturday. He is in better health now but uses a cane. Old friends enjoyed seeing him.

Ben Leake of Alamogordo enjoyed the Camp Meeting and visited old friends here Saturday and Sunday.

Mrs. Rob Leake and grand daughter spent Saturday night with Mr. and Mrs. R. D. Kingston.

Nogal Canyon

By Resalle Dunlap

Everyone enjoyed camp meeting this year with good speakers, good food and company, and good weather. The first night it was announced that there were more campers on the ground than ever been in the past. For the first time in years it did not rain during the camp meeting.

The weather is still the main subject here. Although we have had some showers it is still terribly dry. Some parts of the county have had good rain but we haven't here in the Nogal area. Leonard Sharpe wrote sometime back that his wheat had been hauled out on Father's Day. A storm 25 miles wide and 75 miles long (from the Colo. Nebr. border south) struck that day wiping out nearly all the crops in that area, severely damaging the sugar beets, homes and other property. The Sharpes live in Haxton, Colo.

Recent visitors in the Doug McNatt home were their sons and families, Mr. and Mrs. Carr McNatt and family from California; Mr. and Mrs. Tommy McNatt and family from Alamogordo. Others were Emmett McNatt, Alamogordo, brother of Doug, and Mr. and Mrs. Andy Cates and niece of Albuquerque.

Mrs. Paul Aguayo, Chama, Mrs. Oma Nagy, El Paso; Mrs. Jeanine Johnson, Cora Dutton and Mrs. Faye Wooten were among those who visited the L. R. LaMays the past week.

Jim Robinson of Portales spent the week with the Dave Alexanders and attended the camp meeting. Also staying with the Alexanders and attending the camp meeting were Mr. and Mrs. Emery Galloway of Roswell.

The UPW of Nogal has been changed from the second Thursday of each month to the first. Please remember the new date.

Henry Boah is improving but is still in the hospital at Fort Bayard.

Visiting with Mr. and Mrs. Shorty McCroxy the past week were Mr. and Mrs. Joe Carter, Mineral Wells, Texas and Mr. and Mrs. W. E. Franks and family of Arlington, Texas.

Mr. and Mrs. Dick Cox spent the week with Sam Cox attending the camp meetings.

Recent visitors at the Lester Greer home were Mr. and Mrs. Bob Garvey and family of Roswell. Mrs. Garvey is a niece of the Greer's.

Mr. and Mrs. Earl Bragg and family of Elk, N. M. were weekend guests of Mr. and Mrs. Lester Greer. Sunday guests were Mr. and Mrs. Lloyd Hulbert of Carrizozo and Lloyd's daughter, Mrs. Virginia Coons of Hawaii.

Lewis Greer is stationed at Ft. Sill, Oklahoma.

Mr. and Mrs. "Sleepy" Short, Ruidoso and Mr. and Mrs. Rook and friends of Roswell visited with the Tom Zumwalts during camp meeting. Mrs. Short is the former Pansy Mack.

John Lee reports that he had

THE LINCOLN COUNTY NEWS, THURSDAY, JULY 23, 1944

a good rain on his ranch near Bingham last week.

Pearl Hendricks of Albuquerque was the guest of Mrs. Pearl Stearns during camp meeting.

Mrs. Pearl Stearns returned home over a week ago from her trip and thoroughly enjoyed it all but like all of us it was good to be home. She and Lydia Peebles visited in Oregon, saw Salt Lake City, Grand Canyon and other points of interest.

Mrs. Eva Zumwalt brought her step-father, Mr. Whitney home from the Roswell hospital Tuesday and he is getting along fine. Mr. Whitney who is 82 years old suffered a ruptured appendix two and one half weeks ago.

Our sincere sympathies go to the family of Mr. and Mrs. Bud Crenshaw. Mrs. Crenshaw's father, Tac Kennedy, passed away at Ft. Sumner Saturday afternoon.

Lois Dunlap was a busy girl last week. She spent Sunday and Monday with Betty Shrecengost, Monday evening Mrs. Willie Mae Hobbs and Howard picked her up to accompany them to Abernathy, Texas. Willie Mae brought her father Mr. Wright back with her on Tuesday. Thursday Lois visited with the Tom Knight family until Sunday.

Mr. and Mrs. Ralph Dunlap and Lois and Wayne were among those from Lincoln County who attended the 4-H district contest at Clovis Friday. Lois placed first with her sports wear and also presided over the awards program in the afternoon. We are all proud of the livestock judging team. I be-

lieve this is the first time Lincoln County has had a top placing team and the second time we have had the high scoring individual. Wayne Dunlap was high point man in Alamogordo a few years ago.

Mrs. Ralph Dunlap and Lois were recent overnight guests of Mrs. E. C. McKinley of Portales.

The Abe Sanchez have a telephone and their number is EL-4-2638.

The apricot crop is wonderful this year and everyone is busy canning and jamming.

Visiting in the home of Mr. and Mrs. Fred Herrick were their daughter, Mrs. Doris Cottay, her daughter Cheryl Cottay and Mrs. Judy Nelson and son Billy. Of course the Herricks great grandson was the apple of everyone's eye. He was a doll.

Recent visitors in the home of Mr. and Mrs. Fred Herrick was Mrs. Herrick's sister-in-law Josie Melson of San Diego, Calif.

Paul Clinkscales of San Antonio, Texas visited Mr. and Mrs. George Wandell on Mockingbird Hill for a week and left Monday for Florence, Oregon.

Mr. and Mrs. George Wandell are leaving in their camper on a trip to Glacier Park, and then through Oregon and California where George has a sister at Sonoma.

All George's cherries are

canned and jammed.

Camp meeting didn't bring any rain to Nogal this year for the first time.

George Wandell reports that he has kept a record of our moisture since April and we have had approximately 2 inches.

Mr. and Mrs. Ralph Dunlap and family were dinner guests of Mr. and Mrs. Tom Knight and family Sunday. In the evening the Dunlaps called on the R. C. Barnhams.

Edward May is visiting with his grandparents, Mr. and Mrs. Albert May.

Is There a Conflict?

In recent years much has been said about the "conflict" between the Bible and Science. The following will show this to be only an imaginary conflict:

I. Gen. 1:1-2: "In the beginning (time) God created the heavens (space) and the earth (matter). And the earth was without form, and void . . . And the Spirit of God (force) moved (action) upon the face of the waters." In these verses we have what high school students knew as the five basic facts of science.

Question: Without inspiration, how did Moses know these? II, Job 26:7: "He (God) stretcheth out the north over the empty place, and hangeth the earth upon nothing." Every astronomer knows about the "empty place" in the north, and every scientist knows the earth is suspended upon nothing; but how did Job know it centuries before Christ? These scientific facts that pre-date scientific knowledge by centuries prove the accuracy of the Bible.

Historic phrasing

Sen. Barry Goldwater, making his acceptance speech as Republican candidate for president, shook a large segment of the population of the United States with his phrasing and especially those writers, TV commentators and columnists who feel that every word must be interpreted.

Goldwater said, "Extremism in defense of liberty is no vice, moderation in the pursuit of justice is no virtue."

The definitions shaped by professional writers, and in the minds of countless individuals will have all the shadings between black and white — just as the national scene is viewed in the several lights of political thinking and belief.

When you watch a wrong enacted, as most of us do more than once in a lifetime, and take no action hoping it will work itself out all right — you are certainly being moderate in the pursuit of justice.

When your son goes into service possibilities in past years have been good that he will be called on to take extreme actions in the defense of his country, even giving up his life.

It has occurred to us frequently that Sen. Goldwater has shunned the shadings between right and wrong — especially hard in government.

We think he was being completely honest with himself, and to the American people with his convention statement.

Poverty is a relative thing

The eighth Duke of Devonshire, whose family for generations had lived a life of great wealth and limited exposure, was bewildered while dining out at the sight of silver napkin rings around the table. He inquired as to what they were and was told that instead of

using fresh napkins at every meal, the members of the family would fold up their own and return them to their individual rings for use the next time they sat down to eat. The Duke was amazed.

"Dear God!" he exclaimed. "I never knew such poverty existed." — Forbes, July 15, 1964.

To help keep America strong

World War I servicemen — still in uniform — created the American Legion at an historic caucus in Paris, France, March 15-17, 1919. Col. Teddy Roosevelt, Jr., was the guiding genius of that first meeting. He is credited with the germ of the idea from which the American Legion sprang.

Carl Palmer, a resident of Carrizozo was at this historic meeting.

From the beginning the American Legion has been an organization which got things done, many ideas have sprouted into nation-wide programs, such as: Boys State and Boys Baseball, School Awards, Child Welfare, Scholarships, Disabled Veterans, the G. I. Bill, National Security, Patriotism.

The Legion has been a springboard for many men into political activity — but generally, local Legion Posts, the backbone of the national organiza-

tion, keep politics out. That is the only way veterans of different political belief can work together.

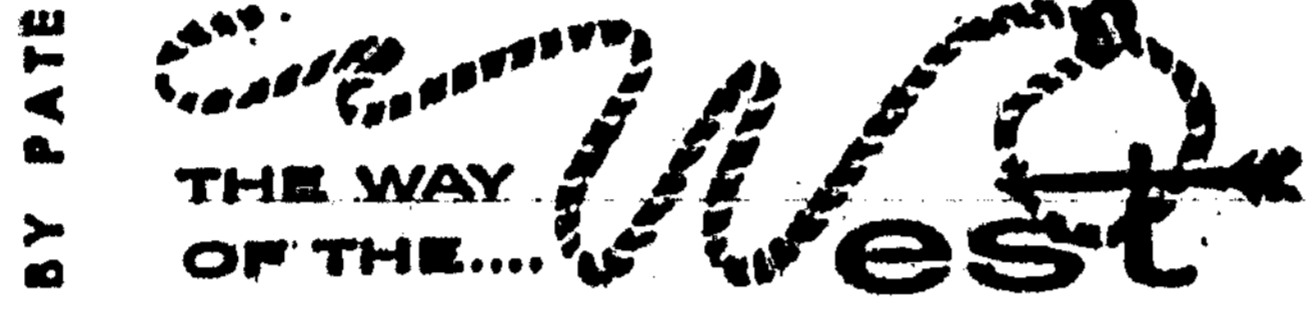

Dr. George S. Richardson and Jack Pritchard are authors of a bulletin distributed under the presumed sponsorship of Roswell Post No. 28. This bulletin has come under fire from G. Y. Falls, an active Legionaire.

In the paragraph above we outlined the avenue of Legion work. Bulletins of a highly political nature are not a part of such work. Attacking our present form of government is not for the Legion — Defense of liberty, yes, but within the framework of common sense and without involving politics. This is a hard role for an Americanism program, but a necessary one if the local Legion Post is to survive.

The Richardson — Pritchard bulletin is missing the true essence of the American Legion.

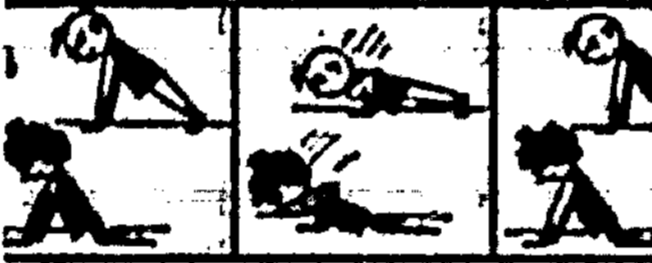

MIGHT AS WELL ROLL A SMOKE — Johnny Thomas, as Billy the Kid, calmly rolls a cigarette as he waits for the jail-house cook, Goss, to bring him a horse so he can smoke "His Last Escape", the climax of the pageant in Old Lincoln Town August 1-2.

Sunday a week ago Paul and Eleanor had the pleasure of attending an evening service at the First Baptist Church in Carrizozo to hear a young man just entering the ministry. His name is Barry Arnwine, brother of Don, who manages Food Mart. Barry used to spend most of his spare time playing baseball, now church work is dividing his time after work hours. He plans to attend Wayland College in Texas this fall.

Several remarkable things about services at the Baptist church, one being the enthusiasm of the young preacher which was catching to say the least. Another difference would surely have been noted by anyone who had attended the Methodist Church that morning or any other. The singing in the Baptist Church was rousing, spiritual and very effective — it just does not come through at the new M. E. church. Two reasons: 1. Faulty architecture which muffles sound, 2. Lack of singers. Maybe some day Carrizozo school patrons will decide music is important, in church, school, home and insist on a full music program at school — something they have not had for 30 years.

The third difference between these two churches is that the Baptists have a piano player, the most distinguished in the entire area, and a mighty pretty one we might add with all sincerity. Her name is "Matsie."

We're finding a ready acceptance of the "Redi-Dial" cards distributed through the News last week. "The handiest thing I've found," said one lady. The News has plenty of these cards and you may pick up extra copies at our office.

He: "Honey, you're the only girl I have ever loved."
She: "Beginners, beginners — all I ever get is beginners!"

Guess a person should never brag — after remarking about accuracy in news last week we had to stop the press several times to clear up errors in the July 16th issue. Finally got "problem" spelled correctly on the front page, never did catch "arond" on an inside page.

Visitors in our office last week were Bob Fauteck, general manager of the Taos News, and Larry Finch, publisher of the Las Vegas Optic. Fauteck was in this neck of the woods gathering up advertising for "recreation edition" with the good possibility that 300-400,000 would be sent to the world's fair, Finch was on his way to church retreat at Sacramento.

Hope you are keeping up with your exercises. The "push-up" exercise suggested this week is coddling the gals in a manner they should like. Now the men have to pushup on hands and toes while the gals pushup on hands and knees. If

Clayton has recommended that the state relinquish its six per cent of the property tax revenue and allow the counties to have full control of the property tax source. He said counties rely on the property tax for about 63 per cent of their funds. Such action would remove many problems and place government closer to the people who pay the bill — sounds like a suggestion worth honest consideration.

Changes of note — General TV will close its doors the end of this month, David Helms has plans in the making. Strong rumors of change in service station set up, front of City Garage will become station, another new one to come, and another possible change of colors.

Los Lunas hospital

making progress

SANTA FE — Gov. Jack M. Campbell said today that Los Lunas Hospital and Training School was making marked progress in returning mentally retarded children to a normal community environment.

The institution has placed 55 children during the first six months of this year, compared to 40 during all of 1963.

The opening of "halfway houses" at Tucumcari and Albuquerque made this progress possible, Superintendent Phil Carter said in a report to Campbell on January-June operations.

The State Welfare and Health Departments cooperated in this program, which includes 16 girls in residence at Tucumcari and 15 boys in Albuquerque.

The Los Lunas Nursing staff has increased from five to eight. Bed capacity has risen from 515 to 539.

Employees trained under recent Manpower Development Training Act programs have been most successful, Carter said. Employee turnover among cottage attendants has been cut from 40 to 20 per cent. New Mexico trainees ranked second among the states using the same curriculum in terms of scores achieved by the students.

The institution is making plans to occupy the abandoned Nike-Hercules site near Roswell, as recommended by Campbell. This will be primarily for

children from the southeastern corner of the state between the ages of 10-12 who are ambulatory and trainable, Carter said.

There will be bed space for 88 residents at the branch institution which is expected to go into operation well in advance of the December 1 deadline, he added.
