Dr. Mann terms new clinic plan a stop toward better TB control

Devises will tour historic restorations

The Old Lincoln County Memorial Commission has granted a year's leave of absence to Mr. and Mrs. John Boylan, custodians of the Lincoln State Restoration for the purpose of travel, and study, They will visit museums and historic resto-rations in Europe Unit-ed States. The Boyland and from New Orleans on December ber 7 on the Norwegian vessel, Tasco.

Their museum tour will begin in Antwerp, Belgium, and will continue through France, Spain. Italy, Germany, Greece and Scandinavia.

They will return to their duties in Lincoln in a year.

School to sponsor winter sports

The Board of Education met in a special session Monday. November 9, to pass on the following:

Plans for the winter sports program were discussed and agreed upon by the two Principals, John L. McCollaum and Glen Ellison, and Coaches B. Lasbs, Richard Brown and Troy Sadler and Giess Physical Education director Mrs. Henry Ve-

It is the hopes of the group that all students from grades & through 12 will find a place in the winter sports' program. which will also include skiing on Saturdays when the mow falls.

The Board of Education carefully reviewed specifications and prices on two activity buses, The purchase of these two busses has been made possible by the generosity of a local citizen. A new 41 passenger transit type rear end engine pusher type bus, with recliner seats. air brakes and all the other equipment necessary to make this a first class activity bus was purchased with possible delivery in late January.

The second unit or supplementary unit is a very nice 37 passenger conventional type activity bus which is less than one year old. It has been purchased from Mr. Vernon Imoe of Portales. Mr. McCollaum and his wife made delivery of this bus as of this date.

The Board of Education and the administration are pleased to make this announcement in the interest of the safety and comfort of our students.

The operation of the state's 24 chest clinics and mobile chest X-Ray units has been turned over to the Fort Stanton Hospital administration

Dr. Eugene Mann, chairman of the State Tuberculosis Hospital Board, announced the change Tuesday during a meeting at Albuquerque, attended by officials of the Fort Stanton Hospital and the New Mexico Tuberculosis Assn.

In the past, chest clinics in the northern part of the state were under the direction of the State Public Health Dept. and Albuquerque and Santa Fe operations were handled locally.

Dr. Mann termed the new plan a step ward better TB control in New exico because it makes possible a continuity of care of all cases of toberculosis from case finding through treatment and follow-up.

Raton and Farmington are the only New Mexico communities without chest clinics. Dan Marley, executive secretary for the Bernalillo County TB Assn., said the change would probably mean that both communities would be provided with clinics within the next month.

"The new program also will intentify cooperation with the Tuberculosis Asen." said Dr. Mann. He specified the areas of X-ray unit organization, public health education, clinic operations and provision of needed. materials.

Also attending the session were: Dr. Leslie Mackey, dis-Joseph Corpor, chairman of the The Coordination Council! Dr. Leon D. O'Rane of the Marie Health Department and Dr. H. pital medical director.

No school Monday

November 16 (Monday) will be a holiday for all students of the Carrizozo Public Schools. This day, given each year during hunting season, will enable teachers as well as students to get in a long weekend of deer

During the past year a great deal of activity has gone on at Fort Stanton Tuberculoosis Hospital, some of which is visible and all of which should be of interest to people of Lincoln County.

The Mobile X-Ray unit is now stationed at Fort Stanton and making regular tours of the state. The Sierra Blanca Boys Camp is well under way in a beautiful setting south of the Fort, Routine maintenance and improvement of facilities continues each day to keep the historic buildings in good condition.

Many new programs have been mapped out by the medical staff in its continuing fight against TB and a number of these

are in operation. Fort Stanton will open its doors for all visitors this Sunday, November 15, from 12:00 noon to 3:00 p.m. The country around Fort Stanton is beautiful, the buildings that were constructed in the Indian War days are exciting to see.

Visitors will get to tour most of the facilities, except the wards. Guided tours will be conducted through the labratories, X-Ray room, kitchen, administration building, library, store, school, nurses home, warehouse, powerplant, locker, occupational therapy building, and busses will run to the Boys Camp,

Coffee and donuts will be served.

tipple in Rico Canyon is relic of early-day mining in the Jicarillas

Harve hby of Albuquerque and Paul Jones of Capitan, both members of the Forest Service, were up in the Jicarillas recently doing preliminary work on determination of validity of claim known as the "Scratch out." Mining has been done in this area about as long as anyone now living can remember.

Albuquerque Youths fined

Two Albuquerque youths were fined \$145 each in Justice of the Peace Court Saturday, and were ordered to make full restitution for damage to street lights in Capitan.

& Darrell Austin of the State Police received several calls from Capitan citizens Saturday evening, that two boys were shooting out street lights in the vicinity of the Capitan school, and after being unable to locate the boys requested a road block in Ruidoso, where the pair, Ted Pierson and Leroy Jespersen were apprehended by Con Brown also of the State Police. They were returned to Capitan where they appeared before Justice of the Peace K. A. Huey.

Accent on schools American Ed week

The Board of Education, the administration and the teachers would like to take this opportunity to issue a special invitation to interested parents and friends of the school to visit and become better acquainted with the schools.

No special programs are being requested of the teachers. Parents are being invited to visit the schools to see them as they are on any other week of the year. So it's business as us. sual, for American Education Week for the students and teach-

The person who will take the time to learn about the school system is to be truly appreciated. More frequently, the citizen picks up a smattering of information and mis-information and forms an opinion about the school system and American education in general, without knowing all the facts.

We especially invite you to visit your school at any time you care to come or feel that a visit will be in the interest of your child's welfare:

Tiger band presents Fall concert under direction of Bartley McDonough

The Capitan Band will present its first Fall Band Concert the evening of November 13th. The program will begin at 7:30 p.m. and will be presented in the Capitan High School Gym.

The Band has performed at all the home football games this season as well as the Dexter game which was away from home. The band has also participated in the Eastern New Mexico State Fair Parade in Roswell, the Aspencade Parade in Ruidoso and the Lincoln County Fair parade in Capitan.

Bart McDonough, band director, states that the balance between sections in the band is better than it has been in some time with the purchase this pastyear of a bass claringt and a baritone saxophone McDonough

also states that both the beginning and Intermidiate Bands have been doing well and he is anxious for the time when these two groups can join the advanced band.

The numbers selected for this concert include a trumpet trio with band accompaniment. The trio consists of Elizabeth Rosenblatt, Virginia Montano, and Kathy Traylor. The band will also play fine arrangements of Mood Indigo and Riders in the Sky. Christmas tunes up for the occasion will include, Silver Bells and Winter Wonderland.

Tickets are on tale by all band members and are 25 cents for students, 12th grade and under, and 75 cents for adults, McDonough states that we consider adults too be anyone out of high

Home improvement is goal of FHA

Many Chavez and Lincoln county Senior citizens are eligible to receive housing loan assistance from the Department of Agriculture in the form of long-term credit. Mr. Floyd, County Supervisor for Farmers Home Administration, reports funds are available to amist citizens 62 years of age or older to buy, build, or renovate housing for themselves.

The loans are accompanied by technical advice from the Farmers Home Administration. This advise includes assistance on construction standards and

The loan supervisor, Mr. Floyd, states loans are made only to applicants unable to obtain needed credit from conventional lenders. The 4 percent loans are available only for the small towns and rural areas of the countles.

Many of the loans are small as many renovation costs do not exceed \$1500. However, housing construction of modest cost and design may be financed. Average loans for the counties have been about \$3000.

The office of the local Farmers Homé Administration servicing Chavez county is located at 110 East 4th, across the street from the courthouse in Roswell, Loan applications may be picked up at the office. For school from 10 to 12 noon on the first Wednesday of each month for their convenience;

Margaret enjoys watching the band as it parades up and down the street

There will be a band concert at the high school November 13 at 7:30. Do go and enjoy hearing them play. The band will go to Band Day at the University of N. M. on Saturday, The Capitan band received two drum stands which were badly needed and soon will have a baritone sax. These will be paid for by ticket sales. The bass clarinet is back from being repaired. Our band master, Bartley McDonough, has done a wonderful job, Under his instruction they have progressed very well. I enjoy watching them march and practice. To me, it is gratifying to watch their progress,

QB Mike Ortiz finds running room to make nice gain.

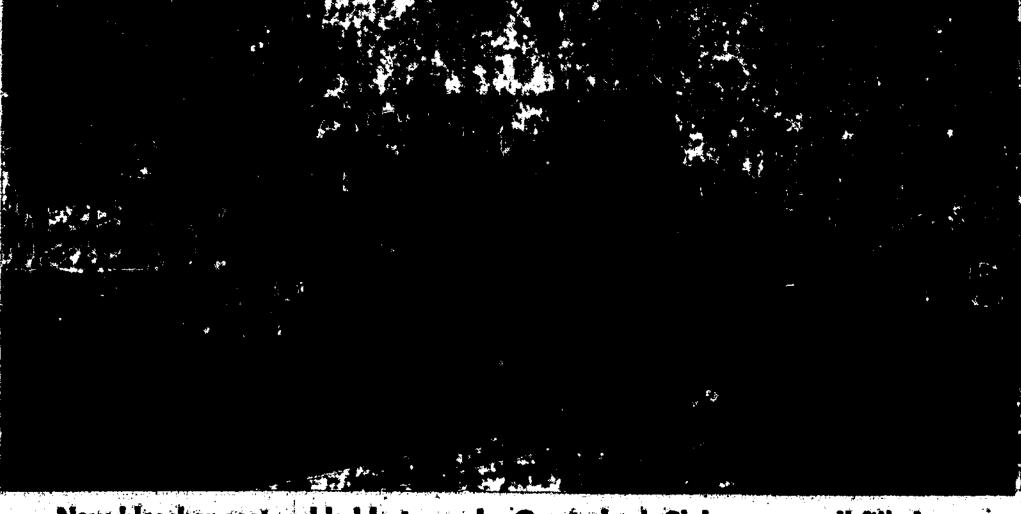

Sammy Vigil is leading the field after catching long pass!

Longherne have the bell, Zeze line is charging - no goin!

New bleacher seats added last year by Quarterback Club, were well filled.

Zozo has won four championships

The Carrizozo Grizzlies played like real champions when the Roy Longhorns came to town last Friday, The weather was perfect, mild and little wind. The crowd filled the bleachers on both sides of the field. The band entertained like professionals at half-time, Coach Bernie Laabs was carried off the field on the victor's shoulders after the game, it was a dandy game all around.

The Longhorns won the toes and elected to receive. This team was really fired up and resivto go, a lot of chatter coming afrom them as they swept down the field. The punt return went for short yardage. It was in Roy's first series of downs that the course of the game began to show. Roy fumbled, Zono recovered and went on to score.

Langharms fumble ton times

In the course of the game the Longhorns fumbled ten times. Zoro recovered five of those fumbles and most of them led *" to immediate scores. The fumbles were strictly the result of a hard hitting Grizzly line and backs doing their job as they have done all scason.

Tominy Ortiz played a bangup game, reminding the fans of the last championship game at Santa Cruz. He carried three yards for the first TD. Mike Ortiz kicked for the extra point, Tommy made 131 yards on the ground and was the game's lead. ing rusher, scoring three TD's, all on short plunges when the yardage really counted,

QB Mike Ortiz completed 14 of 18 passes to make a top day for him. Mike was getting good protection from the lines, something the Roy QB didn't have, so he had time to pick a pass received. Gerald Posey and Sammy Vigil were playing the two ends like the veterans they are on both defense and of-

Catrizons piled up 404 yards. 241 of them on the ground, Roy had 310 yards Roy's quarterback, Pele Romero, hit six of 10 passes for 87 yards.

Zece line is outstanding You could almost name the entire Grizzly line as being out-

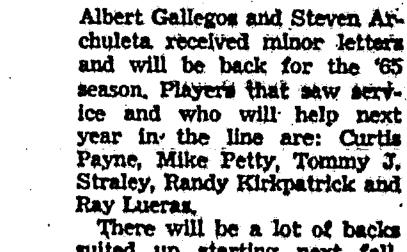

standing - they were, all the way, Bobby Herrera and Herman Sanchez were brilliant on defense. Dan Armstrong was a real power in the middle of the

The Grizzlies came up with a couple of deals that Coach John Sells of Roy had not seen on his scouting trips. The spread formation caught Roy wondering where the ball was going. A trap play, little used this year, where the tackle was let through and then cut down by the Zozo guard, worked excepionally well and the Roy tackle never did figure out who was_hitting him so regular,

Mark Filkins received credit as the outstanding defensive player for Roy. Joe Clavel had 1964 Wen 8 - Lost 1 one good spree when the Longhorns found a hole, hit it several times and scored. Clavel made 96 yards total.

In the course of the ceasen Zozo Grizzliez beat Ruidoco 18-7, Vaughn 25-0, Capitan 33-0, Tatum 20-7, Corona 39-0, Cloudcroft 32-0, Dexter 30-7, Melroce 19-12, which cinched the Class C district title. Injuries and hard luck finally caught up with the Grizzlies at Hatch, their only loss 25-14. The championship game against Roy ended 26-7 — Carrizozo won its fourth state championship.

Graduation takes forward wall Coach Bernie Laubs is losing an entire forward wall except for Gary Armstrong, who will be the only returning letterman. years.

There will be a lot of backs suited up starting next fall. Dusty Voss, Max Zamora, Tommy Ortiz, Eddie Lovato, Leroy, Najar, Christy Jaureque, and Joe Moore all lettered this year, are a bunch of speedy boys and will be the start of the Zözö etfensive unit.

Last jackpot split two ways

The State Class C Champion-ship football game was no dif-ferent than any other contest during the season when it came to guessing the exact score— except that the News is paying off this week on the two that came the closest, Darlene Lung and J. N. McDaniel both with 26-6 score on a game that ended 27-6 with Zozo winning the championship.

Mary Delgado and Ricky Luna were high on the honor roll each having a 2-point spread with scores of 25-6 and 27-6.

Quite a number of jackpot fans gave Roy 7 points, such as Aflic Reed 13-7, Ralph Delgado 35-7, Patsy Mulkey 6-7 (Patsy picked Roy to win), Mrs. A. E. Mulkey 0-7, Kathy Tracy-21-7, and Clodell McCloud 20-7.

Also on the honor roll were Penny Stees with a 26-0 score, Mildred Dobbs 27-14, Dorothy

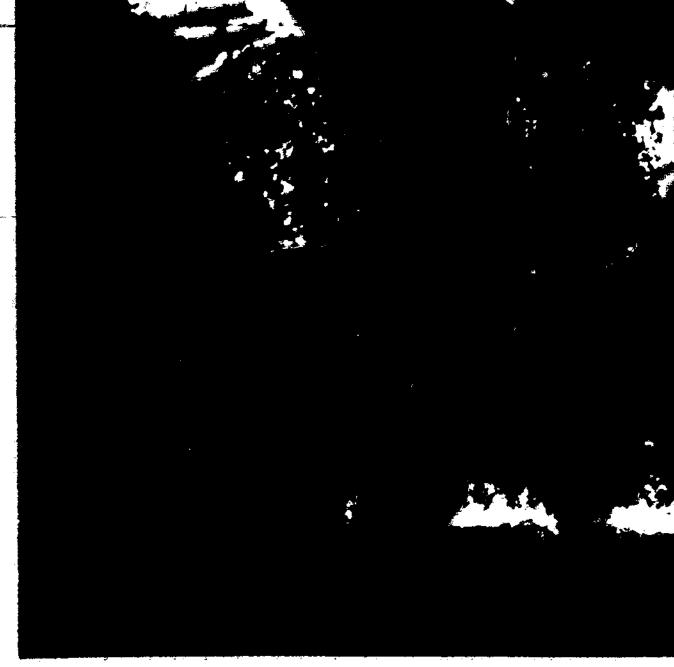

The locker room is a busy place before the game and at half-time. Coach Dick Brown helps with tape.

There were at least eight ankle injuries during the '64 season. Troy Sadler is taping up a weak ankle. Backs and ends usually had their ankles taped whether they needed it or not.

"A page for independent thought"

For a pleasant Sunday afternoon

There was a day when Indians, troops, Billy the Kid and his pals were most frequently seen at Fort Stanton in Lincoln County. Modern trends have n way of catching up even with isolated outposts, which Fort Stanton was in its farly days, making it hard to visualise the 'activity of former years.

Fort Stanton had a great history, it's not entirely out of reason that this center of the fight against tuberculosis will fight against TB continues.

One of the most pleasant trips you could make this Sun-

day would be to Fort Stanton to view the parade grounds where Gen. John J. Pershing once marched his troops, see the buildings with yard-stick walls, still in fine repair, that were constructed when Fort Stanton was a stronghold, go on tour of the school, theraphy building, X-ray room, stables, store and many other interesting quart-

There will be bus tours to the Sierra Boys Camp, coffee and donuts served, and a lot of gain in stature as this serious . hospitality to enjoy at Fort Stanton this Sunday from 12:00 noon to 3:00 p.m. You are in-

Laabs for Senator!

Carrizoza coach Bernie Laabs has won about all the awards one man can accrue in athletic during his life time — and it couldn't happen to a nicer guy. Take the Carrizozo Grizzlies man for man, weight for weight and coach for coach you come up with the best team in the state, besides being Class C Champions.

A man with Bernie's ability to get the most out of people, a man who knows what it is to drive, drive, and win, a man who knows that you've got to work hard to win . . . that sort of man ought to make a good politician for New Mexico.

Laabs for senator is our plan and the News has personally offered its campaign facilities to Bernie for his personal use.

Our hat is off, congratulations Bernie, Brownie, Troy, and all your crew.

We are reprinting the election returns, Somepeople may want an extra copy and the figures in this issue are the one to keep. One precinct number lef out last week and now the list is correct.

More election information for the record — L B J had the fourth best landslide vote in history with 61.3 per cent, Coolidge had 65.2, Harding 63.9, Roosevelt 62.5.

Secretary of State Alberta Miller was high gal on the state ticket, getting more votes than any other candidate. Miller received 1602 votes in Lincoln County and was one of only two state Demos to carry the county.

Heard it said — the trouble with the two-party system is that you feel so lousy on Monday morning.

Three precincts in Lincoln County picked all the county winners, Picacho, Corona and Carrizozo A. Hondo precinct had six; Nogal, Ancho and San Patriclo gave majorities to five of the winners, Lincoln, Greentree came in with four, Capitan, Zozo B. and Ruldoso B helped three winners under the wire; Bonito had two: Ruidoso A at the tails end giving a majority only to one winner, which happened to be Inice Hust.

Sid Goodloe P. O. Box 7 Capitan, N. Mex.

Mr. Dean Rusk Secretary of State Washington, D. C.

Dear Mr. Rusk,

As far back as I can remember I have heard people all over the world crying for independence from Great Britain.. Now, however, this cry has a different sound, and it rings of something familiar to all Americans, If I remember my history oorrectly, in 1776 our colonists decided they had had enough of policies made in a land far across the sea and put into effect where situations were radically different, Our 13 originial colonies fought for the right to make their own decisions and went on to found the greatest free nation in the world.

This same situation is now developing in a beautiful country in Southeastern Africa that is only a little larger than the state of New Mexico. I visited Southern Rhodesia this past summer, and I found many reasons for giving their colonists and their views special attention, World opinion seems to hold Rhodesia in the same light as Kanya, The Conga, Ghana and other recently emerging African nations. This would compare with the equalizing of the United States and Mexico simply because they are on the same continent.

Why is Southern Rhodesia different from other British colonies in Africa? It is different mainly because of its history. In 1890 a pioneer colomn of 700 men set out from Kimberley, South Africa to explore and settle this vast tract of land. At the instigation of Cecil Rhodes these men did not set out to be administrators, but settlers and immigrants. They went to explore the riches of the land and to set up farms and homes - to raise families and build as America had been built before. They brought with them medicine and the advanced technoology that immediately began to raise the African out of his stone age existence, In other colonies the white men went as administrators, to bring along the indigenous black African to a stage when they could run their own country, and then for the white man to leave. This was not the case in Southern Rhodesia. That is why today you have a white population of a quarter million living among a black population of nearly four million. It is a far larger white percentage than anyTHE LINCOLN COUNTY NEWS, THURSDAY, NOV. 12, 1964

exception of South Africa and Algeria — two other countries where the white man went to settle and not simply to administer. Rhodesians have the best health service in Africa, and almost 90% of her African children are in school. The industrial development-in-Rhodesia is second-only to South Africa. The whites cannot simply pick up stakes and move on, they have no other home.

Southern Rhodesia has been a self governing colony of Great Britain for over 40 years, Not once in those 40 years has Great Britain had to interfere, and so great was her assistance in World War II that she could have had independence with no strings attached, The Rhodesian constitution forsees the day when black Rhodesians will hold the majority of the seats. in Parliment, In fact, today 15 of the 65 seats are held by Africans. White and black Rhodesians both know that equal opportunity must go hand in hand with equal responsibility. The demand for "Uhuru" and one man-one vote has swept Africa like a wind blown yeld fire. This system would bring the black Rhodesians to power over night with Congo-like chaos following the next day.

I saw the beautiful and frequently highly developed farms and ranches as I traveled the length and breadth of Rhodesia. I marveled at modern cities and towns with wide streets and spacious homes. The African townships, financed by the government, contain some of the most advanced native facilities in all of Africa, To be sure, most of the labor required to erect these monuments of progress was furnished by the African. Not only did these laborers come from Rhodesla, but from Malawi, Zambia, and Bechuanaland, These white settlers had the foresight and ambition to build, and to build at an accelerated rate such as Africa had never seen before. This gave the African a chance to increase his subsistance to the point that he was no longer required to live like a savage, And they are grateful for the white man - so grateful, that they made it a point to tell me about it.

Where then is all the trouble coming from? It is coming from all over the world as well as from the black nations of Africa. I think that the world powers are afraid that the Africans are'nt being given control of the government fast enough. and, of course, the other majority ruled countries on the African continent would like to see unanamous black rule. The point that far too many people miss, is that the white Rhodeslans realize that someday the majority will control their government, but it would be foolhardy to abandon the advanced degree of civilization and economy that men of honor and ability sacrificed years of their lives to achieve. The Rhodesian government has spent many years developing methods of orderly progress for its majority. and now the rest of the world wants to junk all it's knowledge and experience for a quick solution that has yet to work

anywhere in Africa. Rhodesia is still the land of the pioneer, where a man can feel the determination and the quest for free enterprise everywhere he goes. I have a friend

of his life, and through his toil and sweat has succeded in hacking out an operating ranch unit from almost worthless brush. He employes about a dozen African families, and I found out from them that if this white settler had not pioneered his ranch and given them work, they would be going hungry. They were not interested in any way in the government, and had no conception of voting. The African is becoming increasingly aware of outside interference, and is certain to favor in-

dependence from it. The white community in Rhodesia has made more concrete progress toward a multi-racial society than any other country in Africa. To crowd them into majority rule now would ruin the only hope of harmony in government in the foreseeable future. We must realize that all the development that has occured in Rhodesia took only 70 years. For untold centuries before 1890 it was nothing but a savage wilderness, and would still be if it were not for the white settler.

As Americans let us have patience with this young country and try to understand her problems, for nearly two hundred years ago our own situation was certainly comparable to that of Rhodesias.

Sincerely yours, Sid Goodloe

Prior to your board meeting of October 17th, I personally discussed this matter with Mrs. Eleanor Jones, a member of your board. To verify any remarks to Mrs. Jones and officially list the feelings of the citizens in the Village of Capitan. I would like for the board to know that the rumor is of an unfounded nature. The people in the Village of Capitan as well as the business men, not only welcome the patients at Fort Stanton, but need them for a continuation of good business. The relatioonship between patients and employees and the Village of Capitan has always been on the highest plane, I have been a citizen of Capitan for over five years and never have I heard any discriminatory remarks such as was stated in this recent rumor.

I would be most receptive to an invitation to attend your next board meeting to further assure the board that the VIIlage of Capitan is most anxious to work harmoniously with the State Tuebrculosis Hospital in the matter of inter-relations and all other joint problems.

tuberculosis hospital

The Roswell district of BLM will support the project also with specialists and certain equipment. The Soil Conservation Service will assist with soil surveys, and range condition classification.

Beginning next year, the Ag-" ricultural Experiment Station will make comparisons of soil and vegetation samples on protected and grazed ranges; set up stations at various distances and directions from water so grazing patterns may be studied; and compare with Ft. Stanton past history of costs and returns on nearby ranches. The plan calls also for studies of the effects of fire on wanted and unwanted range plants. 9 hundred acres of grass burned on Fort Stanton last spring.

BLM will build five miles of woven-wire fence, restore three earthen reservoirs, build a cattleguard, and provide part of the plastic piping needed in one pasture to scatter watering places and thus distribute the livestock.

Results of the research will be published by the NMSU Agricultural Research Experiment Station.

Announcement of the program was made by Dr. Marvin L. Wilson, associate director of NMSU's Experiment Station; and W. J. Anderson, BLM acting state director.

Daily exercise, a good diet of hay, and protection from rain, snow, draft and strong winds are the keys to proper wisher

care of saddle horses. It is also at good idea to take off the horse's strong and let the horse run barefoot in the winter. If the horse is ridden leave the shoes on in either case, the fact should be friesmed about every six weeks

Horses develop a thick coat of heir in the winterline and THE LINCOLN COUNTY NEWS, THURSDAY, NOV. 12, 1964

do not need to be kept warm in a tight barn or closed shed. They do, however, need a dry place where they can get in out of the rain and snow and also shelter from drafts and cold

Good quality hay meets more of the horse's nutrient requirements if worked during the winter. Salt and a mineral mixture should be available.

A good way to avoid brown, skimpy evergreens next summer is to water them generously in October and November.

The reason for most winter injury of evergreen is dehydration.

Evergreens lose water coninuously during the winter. Shrubs and small trees subject to drying winds, or growing in sunny locations, will lose more water than protected plants.

Mulches of leaves or peat moss around the base of the trees and shrubs will increase moisture retention during the winter months.

Wrapping the base of young smooth-barked trees to a height of three or four feet with burlap, building paper or nursery. paper will reduce the dangers of winter injuries.

When winter injury occurs, dead branches should be removed as soon as they appear in the spring. Applications of a complete fertilizer in late March oor April will help damaged trees to renew their foliage.

It is emphasized that high nitrogen fertilizer stimulates growth and should not be applied in the fall.

Good grooming demonstrated

October 29, Mrs. Lois Burns presented a most interesting lecture and demonstration on good grooming practices to the Home Ec I Class at Carrizozo high school. Using two girls, Linda Simpson and Peggy Hoff as models, she demonstrated correct face-washing and cleaning procedures to keep the skin glowing and to help remove blemishes if there should be any present. She demonstrated 'and lectured on correct makeup for the teen-age girl with much emphasis on the fact that this ago girl needs little or no make-up It merely covers up her natural good looks.

Mrz. Burns also mentioned the great importance of eating a well-balanced diet, especially fruits and vegetables, and the need for limited chocolate, fatty and fried foods, nuts and carbonated beverages.

All of the girls in attendance felt they had learned a great deal from this highly informative lecture demonstration.

Right To Work activity strains Demo harmony

SANTA FE - The drive that was launched this week to outlaw compulsory union membership in the state is going to strain the harmony of the Democratic party.

Demo Goy, Jack Campbell has already said that he would nix any legisation to that effect that comes across his desk, and Henry Kiker is at the head of a group fighting the so-called right to work proposal.

U. S. Sen. Joe Montoya and Rep. Johnny Walker are pledged against right to work laws from the federal level.

PROMINENT DEMOS BEHIND PROPOSAL

On the other hand State Rep. Jeff Good, DeBaca Demo and Committeewoman Dessie Sawyer, is a member of the state right to work committee,

So is Fermin Pacheco, Demo chairman of Mora, Homer Glover, prominent Roswell Democratic figure and a member of the Military Institute board of regents, Terry Moynihan of Taos, a recent Demo candidate for the corporation commission State Sen. Earl Parker of Taos an administration Democrat.

ELLIS WHITNEY IS CHAIRMAN

Ellis Whitney, former Demo legislator and a member of Governor Campbell's Cattle Sanitary Board, is the chairman of the right to work committee.

The right to work measure that last year passed the state senate and narrowly failed in the house was sponsored by Demo Sen. Buddy Wamel of Hidalgo, and by Demo Reps. Good, Rex Kipp of Lordsburg and Hugh Smith of Lea.

REPUBLICAN BRASS ALSO ON THE TEAM

The right to work committee of some 875 also includes a lot of Republicans such as National Committeeman Albert Mitchell, Mrs. Mattie Montgomery and State Secretary Linda Lambert. and party officer Holm Bursum of Socorro.

> Right to work legislation is attempted in most sessions of the legislature but only once got as far as general election ballot when it was offered as a constitutional amendment in

It was defeated 61,000 to 43,-000 which was largely the result of the late Archbishop Edwin B. Byrne interceding against the proposal.

Typical results from the heavily Catholic countles were Rio Arriba 4735 against, 418 for: Sandoval 2335 to 388; Taos 1793 to 435, Valencia 3316 to 515.

FREAK RESULTS IN LANDSLIDE

Landslide voting such as last week often produces freakish results, Such as ---

State Secretary Alberta Miller getting the biggest majority on the ticket.

Second was Corporation Commissioner Columbus Ferguson, appointed last year, an unknown outside Taos county.

Albuquerque voted 12,000 Democratic majorities but elected eight Republicans to its delegation of 18 representatives tothe state legislature. That was a result of the new legislative districting.

NEW RECORDS IN 44 VOTE

The biggness of the Democratic majority established records all over the book but did not disturb Sen, Clint Anderson's all-time majority of 80,000 which he ran up in 1960.

Gov. Jack Campbell's 64,650 was far and away more than any other governor ever received and he was the first governor since 1952 to win re-elec-

U. S. Rep. Tom Morris' 73,-315 majority was the greatest ever given a New Mexico representative.

President Johnson's 60,045 was the biggest majority the state ever gave a candidate for

president but his portion of the total vote was lower than that of President Roosevelt in 1932

JOHN BURROUGHS WAS MODEST

The size of the Democratic victory surprised everybody. A few days before the election former Goy. John Burroughs, manager of the Johnson campaign in New Mexico, was boasting that the president would carry the state by 35,000 to 40,000 and hardly anybody believed

The 30,000 Joe Montoya win over Sen. Ed Michem was even more of a shocker than the Johnson win.

It probably marked the end of Mechem's political career.

BOLACK, REDMAN TOP REPUBLICANS

Top figures in the Republican party since the election are Tom Bolack and Dr. Jack Redman who made a remarkable run in losing to Johnny Walker by only 10,000 while other Republicans were going down by three to seven times as much.

Redman's congressional run was even more impressive in consideration of Walker being a long established figure in the Democratic party with four terms in the state land office.

It was Redman's second strong run. In 1962 he ran ahead of Mechem and drove Joe Montoya to the bottom of the Democratic ticket in their run for Con-

Najar death still being investigated

The combined forces of the Sheriss' Office, State Police and Assistant District Attorney Don Hancock are still investigating the death of Julian L. Najar, 62 year old Carrizozo resident who died in the local hospital Friday.

An autopsy performed by Dr. A. S. Blauw of Roswell showed that the victim died of a brain hemorrage, which could have been caused by a severe blow on the head, or a fall,

Najar, who was severely besten by unknown person or persons sometime Thursday and was found near the old roundhouse Friday morning by Richard Beltran who took the injured man to the home of his sister, Mrs. Linda Najar, and from there to the hospital.

(Continued from page one) as contacts of persons who have known TB, or of school children who show a positive reaction to tuberculosis skin tests, In fact, there are also people who are enough concerned about their health to take a yearly chest x-ray on their own, and foccasionally, one is found to have TB.

Can TB be properly treated only in a TB hospital? That depends; almost every patient having active TB should spend some time in a TB hospital, so that his case can be fully evaluated, the most suitable combination of drugs found. and the effect of these drugs in his individual case observed. But after this initial stage, and when the patient is definitely not a source of danger to his family or community any more, then he may continue the cure at home and possibly even return to work while still taking his medicine.

Where is TB treated in New Mexico? Many practicing phy-

sicians have a deep interest in TB and will gladly advise their patients as to which steps to take. The County Bealth Detheir foremost duties to help people who suffer from TB, to direct the initial diagnostic procedures, to refer patients to hospitals, to check their families and to organize further care after the patients have been redischarged from the hospital, Hospital treatment is given veterans at their own VA hospitals. Indians at the PHS Indian Hospitals, and the general population - as well as yeterans and Indians - at the Fort Stanton Tuberculosis Hospital, directed by the State TB Hospitals' Board.

Thanks to the very active interest of the State Administration, Fort Stanton is developing more and more into a true center in the fight against TB. Here patients are treated with conventional as well as most recent drugs against TB; from here, drugs are shipped into all areas of the state in order to facilitate home treatment under supervision of private physicians or chest clinicians, From here, chest clinicians travel throughout the state to hold chest clinics in close cooperation with the State Department of Public Health, re-examining patients who were discharged from the hospital, evaluating cases in consultation with private physicians, and advising TB patients who have medical or related problems, At Fort Stanton, promising new drugs are also being evaluated, much to the advantage of patients who would otherwise not benefit from them for years to come. As the latest addition to its program, Fort Stanton TB Hospital is opening a local chest clinic for Lincoln County, in confunction with the Lincoln County Health Department.

In order to give the public as much information as possible about its activities and about TB, "open house" will be held at Fort Stanton on Sunday, November 15, 12:00 noon to 3:00 p.m., to which everybody is cordially invited.

To answer the initial question, whether TB is still a threat, it has to be said that it is indeed. But it depends on you, the individual, and on all the people involved in the light against TB how the threat will be met and whether it will eventually be overcome.

Thanks

I wish to thank the voters for their support and vote of confidence in the election.

I will continue to serve

you all to the best of my

ability.
