

# LINCOLN COUNTY NEWS

"The Newspaper For All Of Lincoln County"

THURSDAY, JUNE 11, 1970 \* VOLUME 64, NUMBER 24 \* 15c PER COPY \* P.O. BOX 459 \* 309 CENTRAL \* CARRIZOZO, NEW MEXICO \* 88301

**NEW OWNERS AT CROSSROADS** — Mr. and Mrs. Robert M. Lacey became owners and managers of the Crossroads Motel in Carrizozo on June 1, buying this business from Mr. and Mrs. George Makl. The Laceys have lived in Albuquerque for 18 years where Mr. Lacey was an engineer at Sandia Laboratory. They have two children, Bob 23 living in Albuquerque and Susan who graduated from University of New Mexico this year. They enjoy their business very much and find Carrizozo a friendly place to live.

## Gaylord Freeman says — New Mexico's future is up to you!

Gaylord A. Freeman, Jr., chairman of the First National Bank of Chicago and a Lincoln County rancher, spoke to the centennial convention of the New Mexico Bankers Association in Santa Fe May 29, 1970.

The News appreciates having a copy of this address, it is addressed primarily to bankers, runs 52 pages in length, but has many pertinent thoughts for us people who keep the banks in business. We hope Mr. Freeman will accept this condensed version of his address in public print.

Mr. Freeman first talked to N. M. bankers in 1951 and two other times since then but he declaims sufficient knowledge of the past and chose to talk about the present and the future in New Mexico.

"Realism sometimes makes us critical, and criticism is hard to accept, unless it is honest and comes from within the family. Thus, to remain your friend if I am to be critical, I must first establish my credentials as a member of the family, as an almost citizen of New Mexico.

The recent involvement of our bank internationally requires Mrs. Freeman and me to travel almost constantly, and, except for Africa and China, we have visited virtually every part of the globe. In each country we have asked ourselves, 'would we like to live here?' We have concluded the USA is the greatest country and that within the United States for the nicest year-round climate one should get as far south and as high up as possible. We found a little ranch in Lincoln County along the south slope of the Capitans, and we love it. Every free minute that we have we spend there.

I love New Mexico just as it is, I don't want to see it changed -- but do you?"

Statistics on New Mexico are both good and bad -- you need to read them all to form a conclusion.

## State population loss 140,000 net

A study of the preliminary 1970 U. S. Census figures indicates at least 140,000 more people left New Mexico than moved into the state during the past decade. Department of Health and Social Services figures show 254,729 births in New Mexico from 1960 through 1969 and 68,107 deaths, leaving a natural growth of 186,622.

But the preliminary Census report shows the statewide population to be 998,924, an increase of only 47,901 from the 1960 census.

This means New Mexico fell short by 138,722 persons of keeping up with its natural growth during the 10 years.

There also is some sign that even though there are more people in New Mexico today than 10 years ago, there are fewer taxpayers since there is a higher percentage now of young people of school age or younger. The statistics show an increase in public school enrollment of 50,474 between 1960 and 1970. This increase is larger than the entire indicated increase in the state's popula-

S. A. Davis Contracting firm of Alamogordo working with Harkey Real Estate Company of Carrizozo has started construction on "E" Avenue of the first residence under the FHA 235 special assistance program. Persons who can qualify under this program will be assisted up to fifty percent of the monthly payments.

The number of dependents and amount of income determine the amount of payment home owners will make under the 235 program. For instance, the head of the family could be making as much as \$10,000 a year and have a family of ten and still qualify

## JOE LIGHT CONTESTING IN SEVEN PBA TOURNAMENTS

Joe Light, manager of Carrizozo Recreation Center, was in Seattle, Washington last week to start a series of seven bowling tournaments in the Professional Bowling Ass'n. No report has been received on how he did in that tournament. From Seattle he goes to Portland, Oregon, then to Redwood City, Calif., Tucson, El Paso, Houston and Fort Worth to complete the series. Frank Phillips is his sponsor.

**KEYBOARD MAN** — Leroy Chavez worked for the News during his senior year and is now employed full time learning operation of several machines, shown at keyboard of line casting machine.

for the new housing. Minimum payment on house being constructed will be \$78 per month, and total move-in cost will be \$320.00.

Mr. Davis said that some of the frills have been removed but that the houses built under FHA requirements are not cheap construction. The first house at 610 E Avenue will have three bed rooms and one and three quarter baths, central heat and air conditioning, garage, storage room and utility room.

It will be of frame construction, both exterior walls and ceiling insulated, outside stucco with brick front, truss roof, composition shingles. They will use factory made cabinets, floor of concrete with vinyl asbestos

tile throughout.

Davis said they will build as many of the homes on pavement as possible. At present they have five FHA commitments and have bought several lots in Carrizozo. Construction started this week and should take a month or more depending on how the work progresses. Lynn Ellison, George Parker, A. C. Stanley, Billy Duran, Paz Orona and Paz Orona, Jr. from Alamogordo are workers on the job. Some local labor will be employed as needed. Davis said several people had inquired about another program known as 203B FHA where the home owners would pay the full amount of house cost, if they could not qualify for the FHA 235 program.

## Lots of goodies for guests

## "Openhouse" Friday from 10 to 2 at Erma Reasoner's new Hacienda

Erma's Hacienda, a new restaurant in the Jones building across from courthouse will have open house for all of the Carrizozo area on Friday, June 12 from 10:00 a.m. to 2:00 p.m. They will be serving sandwiches, dips, home made donuts, relish, coffee, tea and punch for guests at the openhouse.

The Hacienda will feature noon lunches and both Spanish and American foods during its regular hours of 8 to 8.

Much work has been done and much new equipment installed for the opening of Erma's

## Vega is Probation Officer

Judge Richard A. Stanley has appointed Fred Vega of Carrizozo as juvenile probation officer, the appointment effective June 8. This appointment is for part-time assistant, filling a vacancy created by the death of Manuel Ortiz.

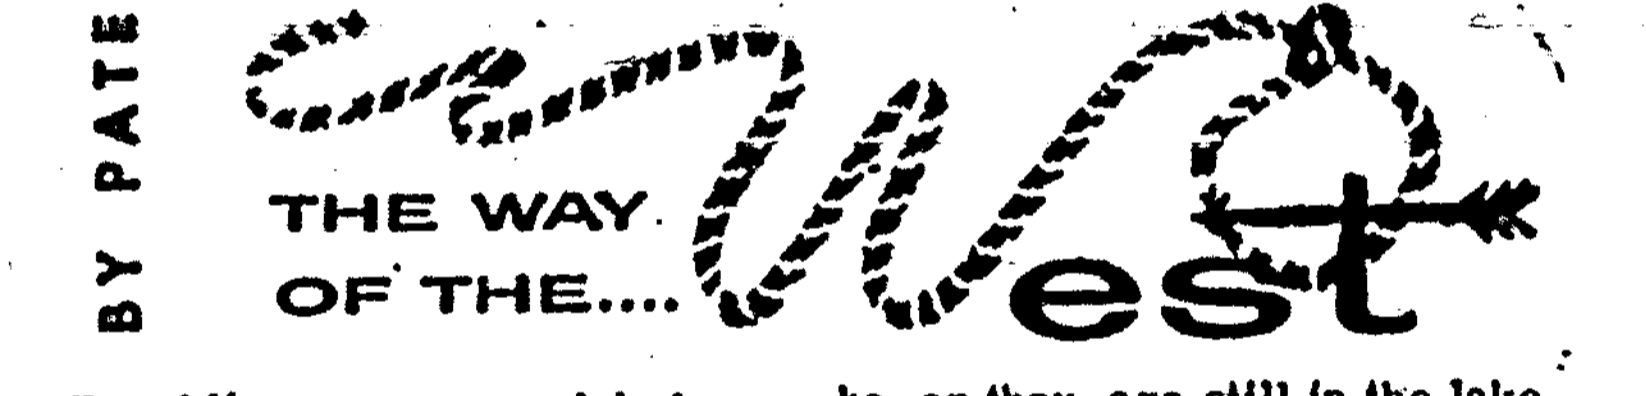

## Former Carrizozo printer Cactus Press printing plant in Yuma, Arizona after twenty some years of operation. The Smiths will stay in Yuma for a while as Bradley is committed to helping the new owners get set in the business. We're hoping they will move back to Carrizozo some day and the News editor would have a handy-spell-off man. Bradley remembers the News when it was a handset paper.

W-W

Bob Miller sent us May 1970 Issue of Camping Clubs published by one of the camping clubs in the Western Electric Co. where Bob works. The bulletin has this paragraph which disturbs Bob a bit -- Holiday Inns, Inc. said it plans to develop a country wide chain of outdoor camping facilities to be known as the "Holiday Inn's Trav-L-Parks. Bob says, "Just how much effort have they (meaning Holiday) put into the development and growth in Carrizozo. Ruidoso, or any other locality you can think of. It seems a little on the brassy side to continually have the personality and character of an area taken over by a large impersonal organization located many miles from the scene."

W-W

Swiped from Duffy -- A few daffynitions from here and there: Travel bureau -- roam service -- gossip -- a grew-some story -- conscience -- that small inner voice that tells you that internal revenue service might check your return -- dedicated alcoholic -- a fellow who is not in his ways -- imperialism -- international kleptomaniacs -- atheism -- a religion in effect in fair weather. And then this, "Doctor, the other four doctors disagree with your diagnosis of my case." "Yes, but the postmortem will show them that I was right". There's a lot to be said for the younger generation, but it's difficult to understand what their side is saying. Parting thought: It's better to sleep over what you plan to do than to be kept awake by what you have done.

Republicans cautioned in two places last Friday night according to Alton Whittaker -- one in the commissioners room and another in a local bar. Alton thought they probably got up more money for "the worthy cause" in the bar.

W-W

Carrizozo seniors filled out an information blank just before graduation which was used for biographical writeup. One fact came through loud and clear -- of the 40 members of the Class of 1970 only 4 plan to make their home in Lincoln County. These four graduates may not be here in 10 years, but then some of the other 36 may have come back home so the average will probably stay the same. Means Carrizozo is supplying a lot of good talent for larger towns.

W-W

This graduating class has pretty good percentage going to college or technical school, 15 indicated their desire for more education, some not too sure they'll make it. All but two indicated they read a newspaper, Lincoln County News the best read by far, daily reader ship scattered between Albuquerque, El Paso and Roswell.

W-W

Summer recreation program gets underway Monday, June 15 in Captain with Coach John Dickey in charge. They'll be coming to Carrizozo to swim plus other activities in Captain.

W-W

No one ever caught fish faster. A young man was fishing Nogal Lake at time another fisherman was ready to leave and gave him string of four, and while he was taking possession of the four a friend caught dandy big trout on his pole which mate five, all good sized trout.

W-W

The largest fish of record taken in New Mexico was an 86 pound flathead catfish netted by a commercial fisherman from Elephant Butte Lake. It was released unharmed and shortly thereafter another fish, or the same fish, weighing also 86 pounds was netted. It too was released, so fishermen have a chance to take the monster since

**BREAKING GROUND FOR NEW HOUSE** — Lynn Ellison has front-end loader working preparing ground for new house on "E" Avenue being constructed by S.A. Davis and Harkey Real Estate.

## Many considerations in final decision, White Sands meets most for shuttle

The most prominently mentioned sites for the shuttle program are the Kennedy Space Center in Florida, Edwards Air Force Base and Vandenberg Air Force Base in California. Some mention is made of White Sands Missile Range in New Mexico and Dugway, Utah.

Site criteria are: the ability to launch in a 360-degree azimuth; limited population encroachment on the base; low aircraft density; weather; an abort area; present facilities to reduce the build-up requirement; low operating costs; and the area's ability to build homes, motels, hotels, retail stores and recreation facilities that will be needed.

Sounds like we have most of those factors working to our advantage, doesn't it?

The most ideal place for the shuttle is Death Valley, but no one wants to live there so it is not being considered.

We have not mentioned to what degree politics will play a role in the site selection.

Political strength will be important ... but not all-powerful. Because of the long range nature of the shuttle operations, a purely political decision could be very costly.

The site will be chosen because of its technological advantages. If several locations are similar, the politics and social considerations will play a greater part.

Kennedy Space Center has the significant advantage of an easterly launch but is limited in the other directions. Its high humidity has a corrosive effect on

spacecraft and the reusable nature of the shuttle would be affected. The high population and aircraft density around the Kennedy Space Center also are disadvantages.

Edwards Air Force Base has excellent landing facilities as well as plenty of buildings that could be used. Its weather is good. It has sufficient range instrumentation for recovery in the testing phase. Range instrumentation, however, will not play a significant role in the operational phase since most of the navigation and guidance systems will be on board the shuttle. The population encroachment in the latter part of this decade hurts Edwards. The Palmdale International Airport proposed for the last half of the '70s will be four times larger than Los Angeles International. Edwards can launch north, east and west, not south toward Los Angeles.

Edwards also has a significant advantage in that much of the present testing of the concepts is located there and many engineers feel the testing and operational sites should be the same.

The Western Test Range at Vandenberg Air Force Base appears to be an excellent site for the shuttle. It can launch south west and east.

It cannot launch north toward San Francisco. It would have to construct many buildings. Its isolation factor is good. The high noise level will be such that a wide distance is required away from populated settlements. Its aircraft density is low. It is near

## Jurors selected for Fall Term of Court, sheriff taking special invites to five

The names of jurors in order in which they were drawn in District Court Tuesday is given here. They will serve during the present term of court the first case probably June 22 when the estate case of Miller vs. Miller will be heard.

Following is the list.

Mrs. Rogene Alford, Mrs. Wanda K. Allison, John Richard Barber, Elmer Barcus, Mrs. Elwood D. Bond, Jimmie Lee Carpenter, William Roy Dowdy, William Rowan Edwards, Mary Sue Smith Erramouspe, Helga W. Haake, Mrs. Byron O. Harris.

Mrs. Sharon W. Hefker, Leroy Franklin Jennings, Carol Stroud Knapp, Omy Johnson Lindsey, John C. McDonald, Bernardo Barker Mancha, Richard N. Montes, Tranquillo S. Montoya, Mrs. Carl W. Morrison.

Gigetle Gamble Newbrough, Jack O'Neal, Gayle Crouch Petty, Isabel Luevas Portio, Delbert E. Boone, Andrew M. Richardson, Bonnie Wilcoxson Richardson, Mrs. James H.

Roberts, Mrs. Earl C. Roper, Rito M. Samora.

Evaangelina Hicks Siddens, Mrs. Gladney H. Stubbs, Mrs. Leandro M. Vega, Jr., Mrs. Lloyd Vigil, Mrs. Wayne Edward Wlantey, Mrs. Claude R. Wells, George A. Westall, Miles E. Williams, Mrs. Mattie B. Willson, and Sally R. Zamora.

Among other action taken, the following named persons were ordered to show cause on June 22 why they should not be held in contempt for failure to appear for jury service:

Bernard Oris Rooney, Box 1, Ruidoso, N. Mex. 88345;

Dorothy Sheets Hall, Higt Country Lodge, Aito, N. Mex. 88312;

Laura Rodriguez Galloway, Box 482, Ruidoso, N. Mex. 88345;

Kathryn Hale Williams, Box 838, Hollywood, N. Mex. 88335;

Fermin Montes, Box 15, Glen-coe, N. Mex. 88324.

The sheriff of Lincoln County has been ordered to serve each of the above named persons with copy of order by District Judge Richard A. Stanley.

**Memorial Visitors At Dobbs'**

Visitors in the Preacher Dobbs home over the Memorial Day week end were: Mr. and Mrs. Joe Dobbs, Gary, Cathy, and Steven of Kirtland, New Mexico, Mr. and Mrs. Wayland Dobbs, Carrie Sue, Wayland, Jr. and Gay Ann of Dona Ana, New Mexico, Mr. and Mrs. Johnny Dobbs, and Jeff of Carrizozo, Mr. and Mrs. Zane Leslie and Kelley of Capitan, Mr. and Mrs. Terry Pilley of Fort Hood, Texas, Mr. and Mrs. Raymond Hobbs, Jean and Rose-Mary of Macomb, Oklahoma, Mr. and Mrs. Tom O'Rear and Mr. and Mrs. J. N. McDaniel of Carrizozo, and Mr. and Mrs. Joe Dobbs of Roswell.

**Recreation group active at Ruidoso**

Ken Knapp, owner of Dan Dee Cabins in Ruidoso, is chairman of the Chamber of Commerce recreation committee at Ruidoso. He called a meeting last week for people from Lincoln County towns and Cloudcroft, in Otero County. Also attending this meeting were two men from the State Department of Development Gordon Byrd and Benny Quintana. The meeting was held in the Ruidoso State Bank and lasted most of Tuesday afternoon, Mr. and Mrs. Bill Ward from Lin-

coln, Paul Payton from Carrizozo and Bud Coulloudon from Cloudcroft were visitors at the Meeting.

Chairman Knapp made this opening remark, "The prime mover for recreation is local action". The establishment of goals is our primary objective, there is no government agency to develop these goals. Our immediate purpose is to organize committees and get them on the way.

The several committees working on recreation include souvenir shops, advertising, publicity arts, winter sports, horse activities, retail and building, coordinator, Village of Ruidoso representation, real

estate representative, gas station and motel industry, restaurants, banking and finance, and correspondent.

"What we can do today is help this community", said Knapp. One of the DOD men had recently stopped in Truth or Consequences and asked a waitress what there was to do around T or C. He got no answer and had to pry out the information. There was considerable talk about educating people in our area with conclusion that a tourist - visitor center dispensing materials and information could be real helpful.

Ray Helde said the ski run has all the business it can handle on Saturday and Sunday, they need

to work on getting more business Monday through Friday.

Ed Hyman said we need to spring more people off US 66. If just one percent of US 66 travelers were to come our way it could almost triple income in the southern half of the state. Bennie Quintana told that the towns of Las Vegas and Tucuman (other mentioned) get people to stop by their Chamber of Commerce office where they get the messages about things to do in the area -- and other sections of the state. Lincoln County people need to visit other Chambers of Commerce, leave literature and work out cooperative plans for the good of our state.

Quintana said his department spent \$100,000 in advertising last year, \$20,000 of this amount on skiing. Most of the ads were in Sunday supplements. The department is increasing its public relations efforts, 44 pages about New Mexico will be in the National Geographic October issue.

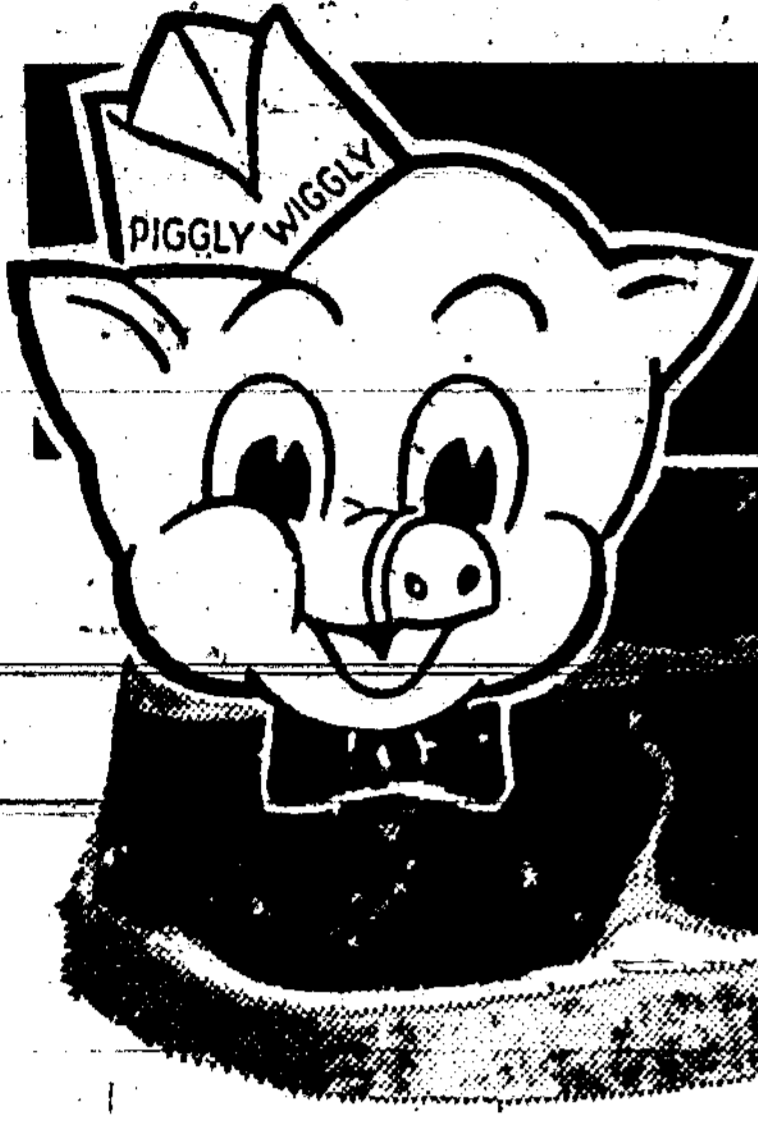

Gordon Byrd said Lincoln County is the most salable place in the United States but no one knows about it. "You've got the type of industry you need", meaning recreation. It's like the fellow who was feeling all around the suitcase but never getting hold of the handle. Byrd said the pedestrian ought to be able to saunter across the streets of

Ruidoso, give pedestrians the right of way.

Leadership is the basic difference in one town from another, said Gordon. He told about the Carlsbad tourism committee, made up of men from all types of business, which meets each Thursday morning. They really talk their community up in Carlsbad.

There was talk of radio advertising via stations along US 66. Hyman is doing some work on this angle. Byrd said there ought to be lots more literature about Lincoln County in places like the Smport in Albuquerque.

The meeting concluded with discussion by committee people about their various chores.

## We need girls, lots of girls

Girls, July 3rd is very near and the Rodeo Queen Contest. We need girls; lots of girls, to enter the contest again this year. Miss Dee Ann Jackson, of Ancho, was Miss Lincoln County in 1969. Who will represent Lincoln County in 1970?

You no longer need a sponsor, and you may pay your own entry fee, which is \$10.00. This entry fee will help pay expenses for the winner to the State Fair in Albuquerque this fall.

Contestants must be unmarried; sixteen to twenty one years of age. They will be attired in the traditional manner; white shirt, ma stylé blue jeans, Levi, Wrangler, Lee; white hat, black tie, any color cowboy style boots. Anyone not so attired will be disqualified.

Contestants will be judged 50% for horsemanship, 50% for personality, so practice your prettiest smile and your horse manship. We want a number of contestants, it is more interesting and more fun too.

Please send your entry fees to Mrs. Zane Leslie, Queen Contest Sponsor, Box 96, Capitán, New Mexico, 88316. Please have them in no later than June 29. Come on, girls, and enter the contest.

We have had eight tents of an inch of rain from Friday thru Sunday night. What a help as it was cloudy. Though before that we had heavy freeze that killed many items. Though this Monday, it was warm with the sun coming out bright and in this afternoon a light breeze arrived with lots of clouds. This moisture how we do appreciate it.

Last Thursday night there was a good shower in Carrizozo and it was far more than we received. It is a joy for everyone around us to have that moisture.

Last Thursday night Mr. and Mrs. Otho Lowe, Mr. and Mrs. Jack Shaw and Mrs. Rench attended the regular meeting of the Eastern Star. It is recessed for July and August. We again will be there in September. Have a good summer.

Capitan Boy Scout Troop #55 now has a new meeting place of their own. The little pink house on east First Street. They are a happy group and we are too for them, for this was so badly needed. They have cleaned the yard front and back and it looks good. That will be good for them to keep the yard clean and keep it looking like they do enjoy it. Good luck boys and lots of joy and happiness.

Progress is still going on in Capitán. The foundation for the new Fair building is being laid now. The old Gavi house and the old El Centre Bar building are being torn down.

Ray Provine and Wayne Hobbs our city employees are doing their part in the cleaning too. They have been hauling tree limbs and debris for several weeks and that is between their usual duties. Let's all of us help them in our way to make our city more beautiful for it is a delightful and wonderful place to live. We do love and enjoy it. There is a big task ahead and it will take us all to accomplish it.

Everyone who has complaints on the TV Cable must go to the city hall and sign your complaint and date. Then the ma is to come and he has to sign the page and the city will check to see if he checked your complaint. That way they can tell if he is doing his work as it should be. They do need your help to get this straight. There is no sense in us getting the kind of service we have been getting. He can better it. He did mine. I had my TV checked on the Ruidoso and found it was in perfect order so I found it was the cable and went to him and he corrected it. I am so grateful as TV is important

in my life. Therefore do get busy and take care of this and get a good picture. It can be done but if you do not let it be known then it is you who suffers. So get busy and get a good picture.

Mr. and Mrs. Duane Darling were notified that Peggy is the recipient of a \$100 scholarship for having the highest grades point average of any freshman girl for the past year. The scholarship was given by the Lubbock Christian College Alumnae Association.

Mrs. Fletcher Hall and Zana accompanied by Miss Peggy Darling went to Lubbock, Texas last week. Zana entered Texas Tech and Peggy entered the Lubbock Christian for the summer.

Mrs. Hall is visiting her mother Mrs. Tom and helping her before her return. I wish these lovely young ladies lots of success in their studies.

Miss Virginia Robinson is visiting Miss Patty Cook at Hurley. She left home Sunday and will help Patty who is mother advisor of Rainbow Assembly #9 sponsor the girls to the Grand Assembly State of New Mexico in Albuquerque, Wednesday thru Saturday. Her sister Kathy Robinson will attend the Assembly as well. She is Worthy Advisor of Carrizozo Assembly #7.

Mr. and Mrs. Jimmie Crews of Landers, Calif, surprised us with a short visit Monday morning after they had breakfast at the Smokey Bear Coffee Shoppe. They had spent the night at a motel in Carrizozo. They checked Mr. and Mrs. Sam Hayes graves in the Capitán cemetery, Sunday. They went to Ruidoso after their visit while enroute to Wichita Falls, Texas to visit her father and other relatives, then to Fort Worth to visit Jimmie Marie and family. It was great to see them again and they are so happy, and in good health. They have no definite time there fore they are just taking their time and truly enjoying their travel.

Recently Mrs. Deane Fitzgerald and Mrs. Anne Bradford of Deming, N. M. arrived on Friday to visit their brother Mr. and Mrs. Otho Lowe. The next morning which was Saturday they and Mr. and Mrs. Lowe went to Electra, Texas to visit their sister Mr. and Mrs. N. J. Smalley. They returned home Wednesday. All had a delightful time and were glad to get back to cool New Mexico.

Mr. and Mrs. N. C. Grantham and Patricia left last Saturday for Dallas to visit their son, Patricia will remain there and work this summer preparing for college this fall. Her parents returned Tuesday.

Lightning has caused several fires in the Capitán Mountains, this past week. Also did much damage to several TV and equipment in Capitán. We have not had such electrical storms in many years but what a grand thing it is to have. Certainly clears the air and alerts us to the strength of nature just lest we forget.

Mr. and Mrs. Billy Wyre are spending two weeks happy vacation in Honolulu, Hawaii.

Mr. and Mrs. Will Rogers and Ricky moved to Melrose, N. M. last week where he was transferred in his line of duty with the highway Dept. We will miss them but certainly do send our best wishes with them for lots of happiness and success in their new location.

Happy birthday to Mr. Hank Lacy who had his birthday June 3. I wish you many more very happy ones.

Mrs. Glen Young and Bill Hunt of Silver City spent several days with her daughter Mr. and Mrs. Duane Darling and left Monday

**NEW HOUSE COMING ALONG** — Art Helms and Bill Wrye are doing the carpenter work on the new house in the Harper Sub-division at the west edge of Carrizozo. You can drive out and watch this work anytime.

Morning taking grandson Kenny home with her for the summer.

The District Assembly of the Nazarene Church is being held in Clovis Monday evening thru Thursday noon. Several people from Capitán are attending.

Deborah Grace and Janet Louise Parsons of Ft. Sumner spent two weeks with their grand parents Mr. and Mrs. S.M. Cozzens. They are the daughters of the former Heene Cozzens.

Mr. and Mrs. Lamoyne Peters spent last weekend with their daughter Glenda, Mr. and Mrs. Leslie Armstrong and the little grand daughter at Roy, N. M.

Miss Myrum Mayfield of Moab, Utah arrived home last Thursday to spend one week then will go to summer school at Eastern in Portales.

Mr. and Mrs. Charles Pepper are both in Carlsbad, N. M. Mrs. Pepper is in a good nursing home and Mr. Pepper is staying with Mrs. Rowena Kemp who is a sister - in - law of Mrs. Pepper.

Miss Jane Cozzens of Elida spent the weekend with her parents Mr. and Mrs. S. M. Cozzens, then left for Calif, for the summer.

Mrs. Ernestine Germany accompanied Mr. and Mrs. Lee Smith to Clovis for last week end with Mr. and Mrs. Jim Kerr and family.

Mrs. Bill Harris and Miss Lou Harris of Ruidoso Downs visited Mrs. Maude Kingston for a while Monday morning.

Mr. and Mrs. Bill Van Pelt of Alto spent a few days in Capitán last weekend.

Mrs. Richard Crandall and Agnes Purcella of Roswell spent the day with her mother, Mrs. Allie Taylor, Saturday, May 30, Annie McInnes joined them at Allies. They decorated graves in the Capitán cemetery.

Sunday May 31 Mr. and Mrs. Bud Taylor spent the night with his mother, Mrs. Allie Taylor. They enjoyed a delicious supper at the Smokey Bear Coffee Shoppe.

Guests last weekend of Mr. and Mrs. Jack Shaw were Mr. and Mrs. Carl Link and two children of El Paso. He has just finished his tour of duty in Viet Nam. He is in the CBS. Montie Gardenhire of Tularosa accompanied them. Mrs. Link is his daughter Martha Ann.

Mrs. John Purcella spent the day with her sister Allie Taylor last Tuesday. Mr. and Mrs. Chalk Norton visited her for while too.

Mrs. Mittle Ruth McBride and Mrs. Allie Taylor visited their sister Mrs. Annie McInnes last Tuesday.

Mrs. Grace Long and her mother Mrs. Pearl Pruitt of Alamogordo visited Mrs. Allie Taylor and Mrs. McInnes while enroute to Mr. and Mrs. John Purcella last Friday. From the ranch they went on to Roswell where they decorated graves of loved ones and Sunday night found Grace and her mother at home in Alamogordo. Mother made the trip fine and enjoyed it. She was near 90 years old and when Grace returned from work Wednesday night she found her mother had passed away sometime during the day. She was laid to rest in Roswell cemetery last Saturday.

Mrs. Alta Jones drove to Kermit, Texas to attend the graduation of her oldest grand son Ladd Roberts, then attended the one man art show of Don Michael Roberts. Then she went on to Boyce, La. to visit her sister Mrs. Valma Clark. She made a 1900 trip in 10 days but had a wonderful happy vacation with good luck all the way.

Now for the story of Don Michael Roberts youngest grand son of Mrs. Alta Jones of Capitán of whom she is mighty proud, and has great reason to be. Don recently turned 13 years

old and he is enjoying the distinction of having a "one man show" of his art work.

Mrs. Annis Meers, who has guided his steps in this field for three years is giving Don the show. The exhibit of all of his work, showing progression and development is displayed at the Winkler County Library. It will remain there for one month until the middle of June.

Don Michael Roberts has lived in Kermit for eight years; his family formerly resided in Abilene. His father is business manager for Kermit Independent School District and his mother is general manager of the Roberts Clan at 529 S. Ash. Don is in the seventh grade at the Junior High School and he has a sister Jane, who is a sophomore in high school. Credit for recognizing the potential talent of this young artist goes in part to some of his early teachers, Mrs. Trudie Morris and the late Mrs. Thelma Carr.

Don looks forward to vacation time, likes to read and is a budding spelunkay (cave digger and explorer) but he also plans to continue his studies of art this summer, concentrating on portraits. He works in charcoal, pastels and oils, using both palette knife and brush techniques, his special interest in clovis may stem from his sense of humor and good nature.

## Freeman Talk

Continued From Page One

and Utah its growth was unimpressive, again in fourth place. Unemployment has been dropping in New Mexico since 1960, but compared to United States rate unemployment level is high, also higher than the three comparison states.

Quote Freeman -- unemployment means more than a loss of income. It also means a loss of dignity. Why has the economy of New Mexico lagged behind that of neighboring states? Why hasn't New Mexico been able to create enough job opportunities for its children to prevent the out-migration. These are serious questions for all of us who love this state.

The four basic industries which provide the primary sources of income are 1) Development of natural resources, primarily mining. 2) Agriculture. 3) Federal government. 4) Manufacturing.

New Mexico is outstanding in mineral production. New Mexico is behind Colorado and Arizona in government expenditures, and ahead of Utah. Most nearby states receive greater income from farm marketings than does New Mexico. Our state lags way behind in manufacturing.

Quote Freeman, this lack of manufacturing stems from the inability of New Mexico to successfully compete with the other states for investment capital, an extraordinarily poor record.

What does New Mexico have to offer? How can we attract the private investment capital to New Mexico?

There are seven factors: 1) Good labor climate. 2) Equitable taxes. 3) Political Stability. 4) Atractive, comfortable place to live. 5) Access to substantial markets. 6) Availability of locally manufactured component parts. 7) Access to raw materials.

Freeman compares workers in plants in (Old) Mexico with those in the United States. The workers' tempo is considerably faster in Mexico and he concludes that New Mexico should do as well. New Mexico compares favorably with other states in taxes.

He points out that the New Mexico legislature cut taxes at the beginning of its last session and raised them before that session closed -- hardly reassuring to an investor. New Mexico is not politically stable.

Living conditions are fine, New Mexico has much to offer, in fact Freeman rates our state far ahead -- of -- any competition. Climate is wonderful.

High technology manufacturers are natural candidates for New Mexico. Locally manufactured materials or component parts not offered here which rules out manufacturers of heavy equipment, automobiles or farm machinery. On the other hand New Mexico is an ideal place for companies that don't need such materials.

Raw materials (coal, copper, phosphate, natural gas, petroleum) are plentiful -- all except water. Water resources of New Mexico are fully appropriated and insufficient to meet present needs.

Quote Freeman, our state has a great product to sell and there is a demand for the product. But we have to realize that it is being offered in a highly competitive market. The competition for industry is keen. Of 14,000 industrial organiza-

tions seeking new industry only two and one half percent of them will be successful.

First, you have to know your state, "you've got to know the territory". Then concentrate on desirable employers.

Freeman says that the "Amigos" route to securing new business or manufacturing is not especially good, in fact he points out several flaws in such an approach. Quote, the recent Road - Runner trips sponsored by the Albuquerque C of C seem to be a case of one chamber telling another what

they want to hear. Having identified your potential market, pick out the individual firms that are growing and may need a new plant. Write them. Send them your written material. Ask if you can come and see them. Go to the top and sell, sell, sell.

Freeman told of the Arizona Economic Development Council, made up of bankers and representatives of utility companies, with governor and mayors as ex officio members. Each of the members must be working full-time for his employer in the area of industrial development. He thought such an approach would work for New Mexico.

The Chamber of Commerce representative can never instill in the industrial prospect the sense of confidence that a banker can. If you bankers of this state want additional business, then you should mount the campaign -- you are the salesmen that must go after the business.

Quote Freeman -- you will notice that I say "it" you want additional business you must sell. It's up to you.

Whether you do or not, I am going to be happy, I am happy with your state as it is.

And you may feel the same way. But if you don't --

If you want to see the state accelerate in its economic activity, if you want to see the income of the state rise, if you want to see more production, higher living standards, greater bank deposits -- then, my friends, it is up to you.

**Shuttle Program**

Continued From Page One

oil fields for liquid hydrogen production. The climate features low humidity and reasonably clear skies.  
 Dugway, Utah, has not received great attention as a site although it meets most of the criteria. Its isolation becomes a strong disadvantage. About 100 miles southwest of Salt Lake City, the area could not support a rapid build-up to house the people. It is very limited in most of the social aspects.

Holloman and White Sands Missile Range meet most of the requirements although our thinking of the past no longer applies to the future. Extensive range instrumentation is not needed. Using airline-type navigation and guidance systems on-board the shuttle will mean routine landings not requiring range instrumentation. The clear skies, although a big factor, also lose some of the overriding importance because of the ability for an ILS landing or Instrument Landing System. The big Alkali Flats runway, once thought to be a great advantage, is not needed. Present landings by the lifting bodies are being accomplished almost routinely in less than 6,000 feet. The shuttle concept shows a roll-out of only 4,500 feet. The Alamogordo Municipal Airport could handle that roll-out. The phasing-down of Holloman would mean buildings would be available.

It would appear we could launch in all four directions of the compass. East to Lubbock is 275 air miles, South towards Chihuahua, Mexico is 310 miles, West over Safford, Arizona is 205 miles, and northwest to Blanding, Utah, is over 300 miles. Plus factors for Holoman-White Sands: Low population and aircraft density. Clear and dry weather. Emergency capability because of the long Alkali Flats runway and range instrumentation. Nearby availability of petroleum for liquid hydrogen production. Good abort capability. Fully fueled the shuttle has an equivalency of about 850 tons of TNT. The fireball and flash has a radius of 1,100 feet.

We may be short of retail stores and homes. Our political punch isn't what is used to be when Lyndon Johnson was in Congress, The Vice Presidency and the Presidency. Sen. Clinton Anderson from New Mexico is chairman of the Senate Space Committee. He and LBJ were good friends.

**Clothes and furnishings to Lubbock**

Shown here are volunteer workers unloading and sorting donations of clothes and household furnishings which were shipped via Piggly Wiggly trucks from all areas of Texas and New Mexico in the aftermath of the May 11 Lubbock tornado. Piggly Wiggly stores served as collection points for the donated needs. In some instances local citizens even helped load the trucks. The donated items were then delivered to relief agencies such as the Red Cross and the Salvation Army in Lubbock, where they were sorted and processed for immediate delivery to those persons left home less by the storm.  
 C. L. (Mac) Godwin, Regional Manager for Shop Rite Foods, Inc. in Lubbock, said that the area wide response was warm and generous and he expressed his thanks to store personnel, drivers and local citizens for a job well done.

**Hospital Report**

Discharges: June 4, Pearl Stearns; June 5, Eunice Farless; June 6, Maggie Rustin; Michael Morelli.

**Weekend Visitors**  
 Visitors over the week end in the Refugio Najar home were their daughter and her family, Mr. and Mrs. Bobbie Hicks, Renee and Janet from Tucson, Arizona.

**Hunting seasons set for 1970 Fall Season**

General deer hunting seasons in New Mexico for the fall of 1970 will be one week later than they have for the past several years as established by the State Game Commission in its regular May meeting here last week. All seasons and regulations for 1970 big game hunting in New Mexico were established at the meeting.

Dates for the general deer seasons will be Nov. 7-22 in the northern part of the state, Nov. 21-29 in the southwest and Nov. 21-Dec. 6 in the southeast. The Commission, a year ago, established the permanent opening dates for the general deer season as the first week end in November in the north and the third week end in November in the south. The 1970 seasons are the first ones to be affected by the change.

Deer bag limits in all three areas will be one fork-antlered buck but either sex validations will be available for 11 areas scattered over the state, 8,500 either sex validations available will be allotted by public drawing. Seven special entry permit seasons were set for fall deer hunting in various areas of the state and at various dates. A total of 4,900 entry permits will be available by drawings.

In addition to deer, the Commission set the seasons and regulations on elk, antelope, turkey, bear, Barbary and bighorn sheep, squirrels and grouse.

General deer bow season: Oct. 17-Nov. 1, north and southeast; Oct. 10-Nov. 8, southwest. Bag limit: One deer either sex for both seasons: Oct. 10-Nov. 8, west side of White Mountains, bow-hunters eligible to take bear and turkey. Special season deer tags required for all bow seasons.

General bull elk season: Oct. 3-11, northern New Mexico. Bag limit: one mature bull. Special public elk hunts: Taos - Black Lakes, Pecos, Roque, El Vado, Southwest, Guadalupe and Tres Piedras areas -- Sept. 26-Oct. 4, southwest; Jan. 16-Jan. 24, 1971, Tres Piedras area; other areas in varying dates in

between.  
 Antelope seasons (4,500 permits available by public drawing): Tres Piedras, a bow season, Aug. 29-Sept. 4; Clayton area, Sept. 3-4; northeast area, Sept. 5-6; Tres Piedras, a gun season, Sept. 19-25; northwest area, Sept. 26-27; southeast area, Oct. 3-4; southwest area, Oct. 10-11.

Turkey seasons: concurrent with deer seasons in areas where turkey hunting is allowed.

Bear seasons: varying dates from Aug. 8 through Dec. 27 in several areas, with extended season on Navajo Indian Reservation.

Barbary sheep season (75 licenses available): Canadian Canyon area, Feb. 6-14, 1971. Half of the licenses reserved for landowners; other allotted by public drawing.

Grouse season: northeast and southwest, Sept. 12-20, both areas. Bag limit: northeast, three grouse per day, six per season (Pecos watershed only, limit will be three per season); southwest, three per season with limit of six grouse per season, three of which must be taken in northeast.

Squirrel season: Sept. 12-20, northeast and southwest. Bag limit: five per day with 10 in possession in northeast; eight per day with 16 in possession in southwest.

The 1970 big game Hunting Proclamation will be available in Mid-July. Season dates, regulations, open areas, and application deadlines will be fully covered in the proclamation.

**LETTERS**

June 9, 1970  
 Bonito Dam  
 Letter to the Editor  
 Lincoln County News

Dear Paul Payton,  
 Want you to know that we have the best county commissioners and road planning and road working men in the State of New Mexico. They're "greasing" the "wheel" that's been "squeaking". The road to Bonito Dam is almost like pavement -- what with trucks and trucks of gravel being dumped on the worst part and bladed all smooth over the bed rock road. This improvement we on the Bonito appreciate and the tourists by the 100s smile and say "your road is really wonderful to the forest camp ground and the Bonito Dam!"  
 Thanks Y'all  
 Bonito Lou  
 Bonito City

**You Are Americans**

Continued From Page Six  
 rioting saw it as a colossal, Hollywood-scale guerilla theater and said, "Not too many got bloodied badly, just enough so we could use them to make two or three good posters that were circulated throughout the nation."

Thus the people are being forced on the horns of a dilemma. Whether democracy can survive intact through this period of conflict, confrontations and radicalism, no one knows. Many leaders believe that North America will have either a left wing or right wing dictatorship within the next few years. Which ever way the nation goes, the life of the average American is going to be deeply affected and greatly altered. Old ideas, traditions and establishments are already beginning to crack under the strain.

However, millions of people go about their daily lives as though nothing has happened. They live, eat, sleep attend ball games, watch television, and go about their daily business as though everything were normal.

The brave Americans who died at Valley Forge during the Revolutionary War, at Gettysburg in the Civil War, in France during World War I, and in the Battle of the Bulge in World War II, would actually turn in their graves if they could witness the apathy of millions of Americans when a small minority of extremists and radicals, in the name of freedom, seek to tear down the flag, rob the people of their freedom, destroy true Christianity, and substitute their own radical religion that will most certainly lead to dictatorship and the loss of all freedoms we have ever known.

So tonight as I stand here, before you, Seniors, I ask that before you decide to express your patriotic feelings in a corrupt

attitude, think first of your parents, the government that has stood for so many years, the thousands of humans that have given their lives simply so that you could enjoy a life of freedom, and then yourself, what will it prove, will you benefit, and if so, will it be in favor of your country.

I would now like to read a poem taken from Elias Liberman's "I Am An American".  
 I am an American; my father belongs to the Sons of the Revolution, My mother, to the Colonial Dames. One of my ancestors pitched tea overboard in Boston Harbor, another stood his ground with Warren, another hungered with Washington at Valley Forge. My forefathers were America in the making. They spoke in her council halls, they died of her battle fields, they commended her ships, They cleared her forests, Dawns reddened and paled, Staunch hearts of mine beat fast at each new star in the nation's flag, Keen eyes of mine foresaw her greater glory. The sweep of her plains, the man lives in her millionwired cities. Every drop of blood in me holds a heritage of patriotism. I am proud of my past, I am an American. I am an American. My father was an atom of dust, My mother, a straw in the wind to his Serene Majesty, One of my Ancestors died in the mines of Siberia, another was crippled for life by twenty-blows-of-the-knout, another was killed defending his home during the massacres. The history of my ancestors is a trail of blood to the palace gate of the Great White Czar. But then the dream came, the dream

of America, In the light of the Liberty torch the atom of dust became a man and the straw in the wind became a woman for the first time. "See", said my father, pointing to the flag that fluttered near, "That flag of stars and stripes is yours, it is the emblem of the promised land, it means, my son, the hope of humanity. Live for it, Die for it!" And under the open sky; of my new country I swore to do so and every drop of blood in me will keep that vow. I am proud of my future -- "I Am An American".

So, as I bring my speech to a close I would like to remind each and everyone of you to:  
 Be Proud Of Yourself  
 Be Proud Of Your Past  
 Be Proud Of Your Future  
 "You Are Americans"  
 Thank You
