Cards played well, just out-manned

It is some unusual for a football team to lose by score of 62-0 and still look like they were playing just as hard, making good hits, and still driving in the last moments just as much as at the start of the game. That was the case in Carrizozo last Friday when the Grizzlies beat the Cardinals.

Zozo got off to a fast start when Willie Gallegos took the opening kickoff for 86 yards and a touchdown, run for PAT failed, score 6-0. Corona didn't really move the ball much on any possession. Next go-round, Gaby Chavez threw 45 yards to David Roper on first play from scrimmage, and Chavez ran the extra points, score 14-0. A third counted in the first quarter came when Chavez again threw to Roper, a 24-yarder for the TD, then threw to Shawn Lock for two points, score 22-0.

Opening the second quarter Jim Speight broke off tackle for 15 yards and 6 points, run failed, score 28-0. Matt Ellison broke into the scoreing with a 9 yard run and added 2 points on a run, score 36-0. Last score in the half came when Chavez made QB sneak from two yards out on last play of the half. Speight ran for extra 2, score 44-0.

There is no way Carrizozo can send in the bench this year like you might expect a coach to do with a 44-0 lead. The Grizzly squad is short on people and not beginners on the squad. What Corona got for opposition in the second half was a new quarterback who took maybe a half dozen plays to get the feel of the game, then began reeling off the yards, the QB was Willie Gallegos, who, besides quarterbacking, can run and pass with the best of them. Gaby's favorite target was Matt Ellison, several long gainers came that route.

In the fourth quarter Willie Gallegos, who had a TD nullified in the first quarter because of motion penalty, scored on a 3-yard run, PAT failed, score 50-0. Then Willie found Matt Ellison one more, this time for 6 points on a 32-yard pass. Willie tried for extra points, missed. Score 56-0.

Final score of game came when Willie broke loose on a sweep for 37 yards, run for PAT failed. Final score 62-0.

Steve (Toro) Ortiz subbed for Jim Speight and soon had both the coach and the crowd cheering him on. He gained considerable yardage while breaking tackles time and again.

The smallest man on the team is Andre Hoff, but he's all man. Andre ran well with just a little daylight. Jody Ventura and David Lee took over for Rusty Leslie (on crutches on sideline) and Christy Monrreal, also sidelined, and Ventura and Lee did a fine job. Rusty and Christy may see limited action this week against Capitan.

Scoring to date:

	TD	PAT	Points
Gallegos	5	0	30
Ellison	2	1	14
Speight	2	1	14
Roper	2	0	12
Chavez	1	1	8
Lock	1	1	8

TIGERS GO DOWN BEFORE STRONG HAGERMAN TEAM

The fighting Capitan Tigers went down to defeat at the hands of a big, strong and experienced Hagerman Team by a score of 47-8.

The Tigers could not get untracked and could not stop the power or passing of Hagerman.

Coach Richard House tried some razzle-dazzle plays. Bronson Cummins scored on a reverse. A two point conversion was a pass to Ted Sisnero.

G. Cartwright and Jimmy Lacy were the stand out defensive players.

Phil Straley and "Bob"

Straley has grand champion steer

Calf selected by Phil as a possible feeder when calf was 8 weeks old. Phil was helping with family branding and picked this calf as his choice. At this time, the calf's tail was obbed time, the calf's tail was bobbed for marking. In the fall of 1970 at weaning time, Phil still felt this calf was the best of the herd for feeding purposes. Because of his bobbed tail, Phil immediately started calling him "Bob". This was the name on the official display sign at the Eastern New Mexico State Fair.

The calf was out of a grade cow from the Straley Bros. commercial hereford herd and from a John H. Hicks, Santa Rosa bull, HR Real Regent 53. His weaning weight was 500 pounds, and he finished out at 950 pounds.

With recommendations for feeding from Ed Howell, sales representative for Worley Mills, Clovis, Phil started his calf on a warm-up ration for 60 days until the calf was adjusted to being fed. His ration was then changed to a mix prepared by Worleys and he remained on this until approximately six weeks before the show. At this time he was placed on a finish ration for further development of evenness and firmness of fat cover.

Phil fed his calf daily and during the last six weeks, walked him a distance of two miles daily for muscle hardning. Regular clippings, shampoos, and brushings were part of the schedule Phil worked out.

Calf was purchased by Coca-Cola Bottling Company, Tom Denton, President, for sale price of $1.75 per-pound bringing Phil a total of $1,662.50. The calf was donated to the Working Mothers Day Care Center in Roswell. Numerous cash add-ons were being added to the sale price throughout the sale. List is still not complete but included Otero County Electric Coop., Massey Hereford Ranch, Stockard Trucking and Anderson-Watkins.

ST. RITA CONVENT UP FOR SALE AT $18,000.00

Father Clive Lynn confirmed the information that St. Rita Convent in Carrizozo is for sale at $18,000 or possibly for rent.

The decision was made last year to withdraw the Sisters from their work in Carrizozo public school because there are so many Catholic schools needing teachers. There are no Sisters at St. Rita Convent now. Over the weekend this building was broken into and drapes and concession machine stolen.

Fitzpatrick, Lowe, Washburn - tough

There was a good run of entries in the Names in the News contest for week of September 9 but instead of three winners like the week before , only two people got one of the names right.

The clues were correct but everyone overlooked Fitzpatrick, the first name which has eleven letters, and that would have clued you in for a four letter word starting with L which was Lowe, then you would have had to read your crystal glass and select Washburn.

This game is about like playing a quinella. We've have had winners most weeks. There will be a new game with new set of names in this issue.

Mrs. Sam Baker at San Patricio used Fitzgerald, Corrine Mullins at Corona went for Fulmer, Lightfoot, Calderon which was popular. Rachel West got the Washburn part, Maxine LaMay put Fitzgerald, Lowe and Calderson together.

We're looking for a winner who will put it all together next week.

Sorting ahead in Districts 3A & 4A

Districts 3A and 4A will sort things out some this week in several ways.

At the top of the list is the game in Carrizozo Friday between two traditional rivals--the Capitan Tigers and Carrizozo Grizzlies. The Tigers are working with lots of youngsters this year, not a lot of weight and lots of inexperience. Their record to date is two losses, but Tiger blood always starts running under pressure when they play the Grizzlies.

The Corona Cardinals will entertain Melrose from 2A Friday and The Cards ought to be more evenly matched that in their first two losses, to Reserve and Zozo. Other game in 3A will be played in Arizona, Reserve vs. Blue Ridge.

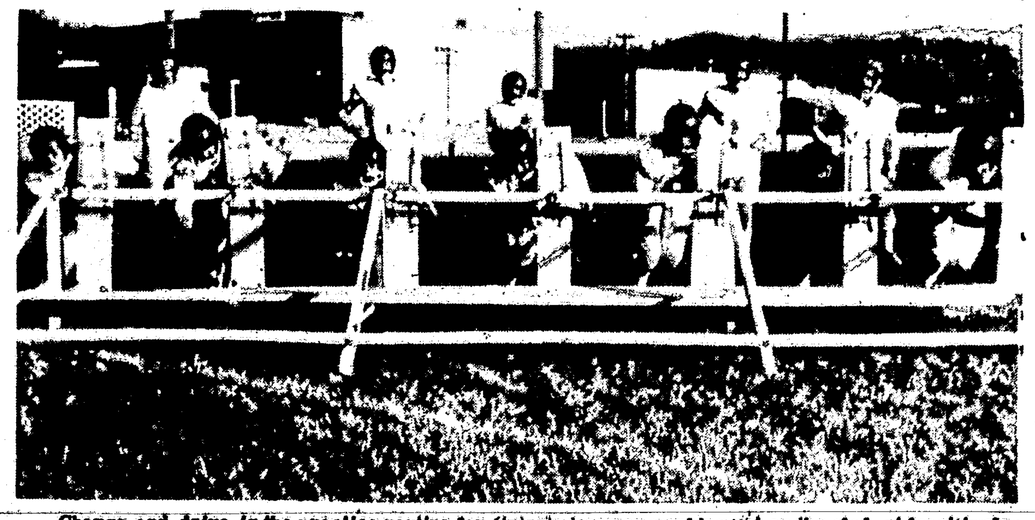
Dexter looks like the power in 4A at present after beating Capitan and Cloudcroft. The Demons go to Tatum Friday. Other game in 4A is Gadsden at Cloudcroft.

Votational ed to be expanded

Letters have gone out to Carrizozo school patrons outlining a program of expansion in vocational education and asking patrons if they will serve on a Vocational Advisory Committee. A committee organization meeting will be held September 13,16,21 or on the 24th.

The vocational curriculum will involve three professional vocationally trained teachers in the areas of pre-vocation, agriculture, business, home economics and industrial arts.

Plans are to provide the students with experiences which will better prepare them to enter into gainful employment, technical vocational schools or institutions of higher education. On-the-job training will be an essential component of this curriculum.



Charge and drive is the practice routine for Grizzly linemen working out on the sled, at least twelve good reasons why the Carrizozo football team is doing well this year. Wait turn at back are Ben Bradley, David Roper, Fernando Chavez, Jody Ventura and Gerald Wells. On the sled are Artie Ortiz, David Lee, Jay Barnes, Rito Zamora, Freddie Nava, Don Burton and Marcos Barela.

Carrizozo Grizzlies go international next week for game at Col. Juarez

A real interesting trip is in store for Grizzly football fans next week when the team travels to Colonia Juarez, a trip of some 150 to 200 miles beyond Ciudad Juarez, depending on the road traveled.

The News editor talked with Wendell Faught, publisher of the Deming newspapers, about this trip. Wendell slad Col. this trip. Wendell said Col. Juarez is a real impressive Morman settlement, lots of farming, real prosperous, and has an interesting school plant.

The nearest motel is operated by Lewis Pinon at Nuevo Casas Grandes, where most of the Deming people stay when they go south of the border.

The sketch of this area shows highway 2 looping west and south from Juarez to Casas Grandes, leaving a 26-mile trip to Col. Juarez. A good portion of this road is gravel, maybe as much as 75 miles, and some rough according to Mr. Faught, but a good road.

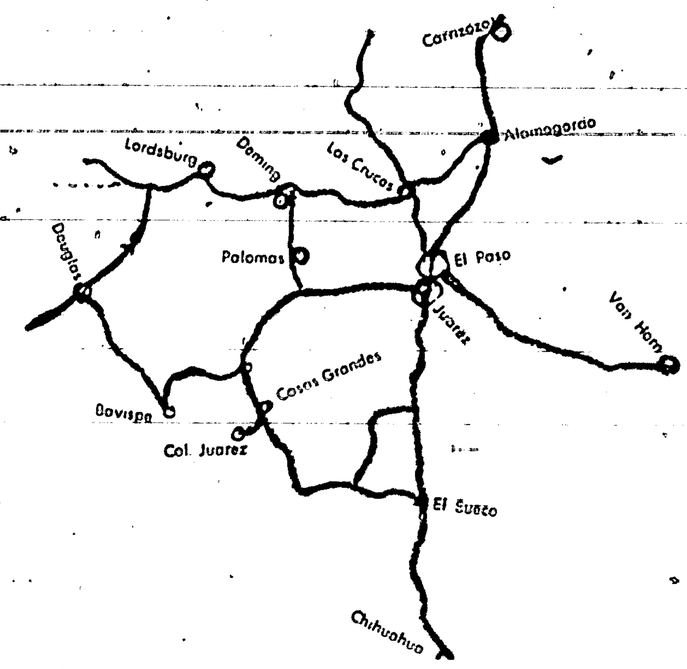
Another possible route is south from Juarez on Highway 45 to El Sueco where you turn west and back north some to Casas Grandes. This route is at least 50 miles longer but looks like you would be on blacktop all the way.

Third route might be the best--take a train out of Juarez which ought to bring you within walking distance of Col. Juarez, maybe five miles.

The games, Carrizozo High School vs. Academia Juarez, A.C. will be played at 2:00 p.m. Saturday, September 25. The team will depart some time Friday.

A bulletin from the school outlines necessary regulations. If you are 18 years old or under you must carry one of two documents--a birth certificate or baptismal certificate.

Most travelers in Mexico recommend getting insurance expecially for the trip. U. S. insurance companies recognize insurance coverage as stated on the policy but Mexico does not always honor such insurance. Insurance may be purchased at the Paso del Norte Hotel in El Paso. Students will need notorized authority from both parents giving permission for the trip.



Fred Chavez suggests best route to Col. Juarez as being to Deming and south through Palomas.

Way West

Practically every week the Village Press editor thinks on what people in our area like best to read--and, we sure don't pretend to have all the answers. We read a lot of animal and creature stories, and have strong suspicions that other people do the same. It was a big day this week when driving home we saw a medium-sized horned toad in the middle of the street, head up in the air watching but sure not a safe place for this creature so we gathered it up and took it home. Later that same day we rescued another of the same size. Heard Waldo barking fierce and got out there just in time. Brings up a good guestion--what is the carrying capacity of a city lot for horned toads.

There are those "demand" type of articles that both the boys and gals (of all ages) want in print, newsworthy or not. And we print them, meaning the club writeups. When it gets real ridiculous is toward end of the year and a club secretary discovers that one or more meetings account never got printed. So, in they come and we print some history.

Of course we print some history each week thinking that people still like to read about the 'old times.' Found we have to be a bit cautious about printing list of murders. Ancestors of people involved still live in these parts and they're thin'skinned reading about the time grandpa shot, or was shot, in the course of what were normal events in the Village Press area in the 1800s. Sorry about that. Likely we'll stick our feet right back in the hot water again next year.

Us sports writers are human to the point of laying it on real heavy during the football season. Wonder how many of the gals like to read our football stories? No question but that the big deal in our towns each week during school is how did the team do. Course those little sidebars help, like this week Capitan comes to Zozo, but first we've got to get their team in shape. Ted Sisneros of Capitan, real good boy, was sharing whirl bath in Zozo with Rusty Leslie. How about that.

Some of the youth organizations have more news pipelines going than you can shake a snake at. Course we like their stuff. Only thing we demand, in practically all news instances, is that the copy be live and local--not stuff that was written at some state college on the ingredients of the dope you put on your horse's hind leg.

That live and local message is really the key to Village Press handling of news. Any time our people get involved, be it a dog fight, a baby queen in Tinnie or Duke City we get interested. Your name in the news is important to us.

There is no such thing as a gossip column in any Village Press newspaper. What we have a lot of, and want a lot more of, is the telling about what people have been doing, when and where. Sure means a lot to our many readers in other states when they can read about their friends and know that they are busy, well and happy. Of even greater importance are the times when we have to report the grief of people--real friends will want to know.

We think people get in the habit of getting their newspaper out of the box or off the news stand at the same time each week--puts the burden of deadlines on us. Sure wish it was not that way. Tuesday night doings are the worst to handle and it's no different with the daily press. No where in this state can you read of Friday night's game in the Saturday morning paper--their deadlines are too early. We overindulge in accomodating people a great many weeks--those weeks the printers suffer because they will be at the job long after bedtime.

Then on the other hand--should a big deal happen Wednesday we can get it in print, including pictures. At those times the editor has to make a decision, not always easy because our idea of a big deal may not be the same as yours.

News tips are the lifeblood of a reporter. We love them and in every instance will protect the source of the tip by going to the source of the news for the details. People in many official capacities around the area--come and go--so keeping up the news pipe lines at school, with police, in church, with clubs is a constant job. New people take office, come new into the area and they don't know us or we them. Makes life interesting and also busy.

Always pleases us news people when unexpected cooperation in news handling comes along. Like the well-written club report in our office on Monday. The superintendent who wants to keep school patrons informed. The police officer who will call when an accident occurs. Wish it happened more often.

We hear it so often--everyone knows I'm in business here. 'Tis not true. Every town in the Village Press area will get its full quota of new people each year and some of them never learn about who is in business where. We'd make a good bet that only half of our readers know of recent business changes in the area--which makes it worthwhile for us to print a newspaper each week. Business changes are business, but also news when they happen. We get them in the paper one way or another.

Probably a fourth or less of Village Press readers would appreciate strong opinions about local situation in their reading matter. Another fourth would get mad, and rest would not care much. Do you reckon we're right in that estimate of news handling. The question remains--what do you like to read.

EDITOR'S CORNER

Reading, writing arithmetic & money!

The cost of education has soared (about 14 per cent annually) right along with everything else in this country. Schools are constantly looking for more funds while at the same time taxpayers are rebelling more against the demands that seem endless.

The problems of education in New Mexico cover the full book when trying to balance an educational program in a small school like Encino against an education program--with the some initial objective--in Albuquerque.

School officials, both administration and board members, in the smaller schools for the most part feel that they get the short end of the stick when the state money is passed around--and still their per-pupil cost will be double what it is in the larger schools.

A recent court ruling in California is going to do two things for New Mexicans. One, immediately people of this state can put out of their thinking the possibility that property taxes can be an added source of money. The ruling by the California supreme court struck down the state's entire system of revenues based on local real estate taxes. The judges majority opinion was that dependence on local property taxes . . . discriminates against the poor and makes the quality of a child's education a function of the wealth of his parents and neighbors.

Lincoln County Assessor Marian Schlarb supplied the following county school district valuations:

Ruidoso	$8,389,058
Carrizozo	4,320,895
Corona	6,754,783
Capitan	3,558,724
Hondo	3,910,611

(Community Public Service Co. tax money not included)

If school funds in this county were based primarily on property taxes you can see that Corona would be in clover, Capitan in ragweed and Carrizozo would have its choice of which hind one to suck on. Otero County, or Torrance County would have much the same imbalance.

So, the rural school district is deeper in hot water than ever. The more we lean on the state--which seems to be our future--the more controls will be placed on our schools . . . with the result being a level of education which would be mediocre in many instances.

It is exceedingly rare when bureaucracy breeds efficiency... and doubly rare in such personalized work as teaching school.

What are we looking at in the future--more of what we have today in education, and probably a higher school tax than the four cent bite now on us.

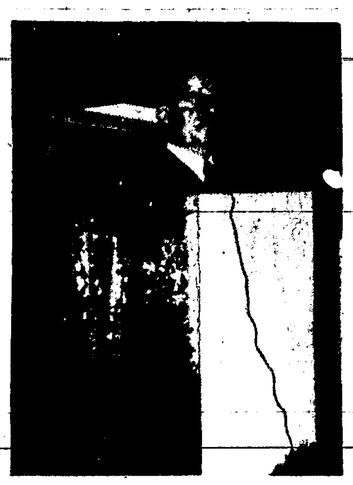
History of Trinity Methodist Church

The Trinity Methodist Church had its beginning in 1908 and 1909 as The First Methodist Church of Carrizozo. Actually its history goes back a number of years before 1908 as it was really a continuation of the methodist Church and Sunday School at White Oaks. After the golden dream of White Oaks had come to an end, many of the citizens of White Oaks moved to Carrizozo. It was only natural that they should bring their Church and Sunday School ties with them.

The fist Sunday School in White Oaks was organized by Mr. Morris B. Parker's mother who used lessons printed in advance and received by mail from a missionary society in Boston.

Records of early-day Methodist Church at White Oaks make an interesting document. Here Supt. M. Buren Stewart, Bishop Alsie Carleton, Rev. Jim Reynolds, Mrs. Carleton and Nettie Lemon are looking at the record book.



Supt. M. Buren Stewart

The Reverend Lyman Hood held the first Methodist Church Services in White Oaks in 1884. He, as a supply minister, supplied by the Home Missionary Society of Boston. The pulpit used by the Reverend Hood is now in the recreation room of this church. His salary was $75.00 per month, one third coming from the Missionary Society; the rest plus heat, light, janitor service and so forth was raised by church members, merchants, and other townspeople.

Rev. Tom Banks

Carrizozo's first Methodist Church building was constructed in 1911. It was a very impressive building and of course, as the years went by grew in spiritual and sentimental value. It was constructed in the Greek architectural style. The circular pillars in front were outstanding. The first service in that church building was held September 4, 1911 and was conducted by Reverend B. W. Allen, who was pastor at Tularosa.

From the quarterly conference record of Oct. 8, 1911, we find this quotation, "We have one church in Carrizozo valued at $5,000.00, a chapel in Nogal and one in White Oaks.' During the years 1911 to 1913 there were 48 members on the church roll. We have been unable to find records for the years 1914 to 1918.

There were over fifty Sunday School members from 1914 to 1918. These members were all active participants in the work of the church as evidenced by an old yellowed record of a contest Banquet, held May 7, 1915, by two rival Sunday School groups, the Philathes and the Reliables.

Scott Shafer, Soloist

The Church report for the period May 18, 1918 to 1919, recorded thirty four members baptized plus six babies christened. The Pastor made nearly a thousand sick calls and conducted thirty funerals. Records indicate that on Feb. 16, 1919 our Epworth League was well organized and doing fine fine work among the young people.

During the pastorate of Rev. Ludlow (1926-1928) the church was officially designated, "Trinity Methodist Church.'

In 1932 interested members had the privilege of taking a course offered by the Cokesbury Training Group entitled, "The Sunday School Pupil.' Mrs. Ray Lemon, Mrs. C. A. Snow and a number of others whose names I do not have (many are not there anymore) received certificates for the completion of this course on October 10, 1932.

When the CCC Camp was established here in the early 1930's Mrs. Ray Lemon, Sunday School Teacher for the young people, immediately invited the young men of the camp to our church. Some thirty five responded.

During the years 1918 to 1941 there were nine ministers. Rev. Lloyd Hughes, pastor here at the end of that period, reported that all church organizations were doing good work.

In 1952-1953 the old building was razed because it had been determined that the cement blocks of which it had been constructed had deteriorated to such an extent that the building was no longer safe. I might add that when the building was under construction cement blocks had just begun to be used and they did not have the facilities to make them strong like they are today.

In September, 1952 to 1957, the educational building was constructed while the Rev. C. E. Burch was pastor.

The first Sunday in September, 1960 was a wonderful day in the history of our church. On that date the Rev. Thomas A. Banks arrived in Carrizozo, with his family, to serve as our pastor. Soon after Rev. Banks arrived another building program was launched. In one of his sermons he said too much time had been wasted in getting the new church building started, and that now with faith in God and determination we could build the church. It was "NOW OR NEVER' he said. The men of the Methodist Church met at a breakfast and decided to start the church program moving in earnest. There were six thousand in the church treasury and the members of the congregation were called upon to help raise another six thousand dollars. As the public became aware that the church was going to be built, many citizens of Lincoln County, as well as former residents from all over the country began to contribute as well as some National figures. Within a few weeks several thousand dollars had been raised in cash or by pledge. The total cost of the new church was something like thirty five thousand dollars. The church seats one hundred fifty persons and is completely fireproof. It is an attractive and much appreciated addition to the town of Carrizozo and the surrounding area.

Mrs. J. C. Bunton who now lives in Marfa, Texas donated the chimes for the new church.

As we old timers who live in Carrizozo and vicinity pass by it or attend services there, it gives us a feeling of humility and gratitude that we live in a community blessed with one of God's beautiful houses of worship. May every young person here today be endowed with this feeling.

Thank you.

History of the Church delivered by Mrs. C. A. Snow at the dedication September 5, 1971. Carrizozo, NM

SEARCH GOING ON FOR RHODES WRITINGS, MEMOS

ATTENTION READERS:

Dorothy Jensen Neal and I are looking for autographs or comments written by Eugene Manlove Rhodes in books belonging to any of you. If you have a note, or a memo on a scrap of paper, we would like to copy his words, perhaps reproduce his inimitable handwriting from these autographs for a book we are assembling. Mr. Rhodes often wrote poems to friends or correspondents. Sometimes, he signed a fictitious name as he did on the flyleaf of "Cattle" by William McLeod Raine, a book I ordered and sent to him in Three Rivers, N.M. in 1930, for his autograph. He signed T. Gregory Hartshorn to an original poem.

Did any of you or any of your family know Mr. Rhodes? Or did you correspond with him as I did in 1930-1931? If so, please write this column. We have uncovered unpublished information about this former cowboy who wrote about the Southwest as it was, wrote in a charming and scholarly style for a growing number of readers who have never forgotten him, and his stories.

Do you know anyone who knew him? Write Ann Carroll, Hearld-Post, or Dorothy Jensen Neal, 5028 Montoya, El Paso, Texas, 79932.

Time's a wastin! Hurry!

Credit will be given to you who lend us any precious material which will be duly returned. We want to use your names.

Some hepatitis in Capitan Village

There was a case or two of Hepitis in our vicinity. Persons were telling rumors that it was caused by our water. Doctors state that it is not at all. Therefore settle down and not worry.

Our water is tested regular by the State Health Dept. it is absolutely up to all specifications.

The Lincoln County Post Masters met at the home of Mrs. Hattie Phillips last Sunday near Lincoln.

Mr. and Mrs. N.C. Grantham and Patricia left last Friday for Witchita Falls, Texas for a visit his parents Mr. and Mrs. N. C. Grantham Sr. Then they will go to Dallas to visit their son and family. Also will go to Abilene. Patricia will remain in Dallas to continue her college education. They will have one weeks vacation before their return.

There is no moisture. It is very hot and cold at nights. Typical Fall weather. The gramma grass is heading in lots of places while others it is not to that stage.

Mrs. Lee Anderson is the first patron in the rest home in Carrizozo. She will be there one month to recuperate. She arrived there last Thursday from the Medical Center in Roswell. I wish you the best recovery Mrs. Anderson. Do send her cards and visit her.

Mrs. Jonelle Lucas, Carolyn and Diane of Hollywood visited her sister Mr. and Mrs. Howard Wright last Sunday.

Mrs. Gerald Dean, Sr. (Mary) spent last weekend at the hospital in Lubbock, Texas visiting her brother Mr. Don Wallace who had underwent surgery. Mr. Wallace's home is in Lovington.

Glenda Armstrong and two children are visiting her parents Mr. and Mrs. LaMoyne Peters during the absence of her husband Leslie who is attending an out of State Soil Conservation meeting.

Mr. and Mrs. Harold Cartwright left last Monday to take their daughter Terrie to Pasadena, Calif., where she will attend College. They will return this week.

Mr. Doyle Cozzens who had been visiting his parents Mr. and Mrs. S. M. Cozzens for several days, and his two daughters were taken to El Paso by his two sisters to catch the plane for their return home to Sierra Madre, Calif.

Mr. and Mrs. Denton Still of Ardmore, Okla., formerly of Capitan passed thru Capitan last Sunday. Stopped at Smokey Bear Cafe where they visited many old friends.

Capitan was very quiet last week with many of its citizens gone to the Fair in Roswell. There were many reports of a good Fair, with large crowds and hot weather.

Vera Beall and Lorene Ferguson went to Tularosa last Thursday and visited Mr. and Mrs. James Howard and Mr. and Mrs. Charles Ferris, for the day.

Miss Marilyn Cozzens of Santa Clara, Calif., and a girl friend Miss Sharon Wheeler arrived the 4th and visited thru the 15th, with her parents Mr. and Mrs. S.M. Cozzens.

They are expecting Ken, Thursday from Burbank, Calif., to spend four days. All of their children in N.M. came Labor Day to visit them while Doyle was here. They were Mr. and Mrs. Bob Parsons and five children of Ft. Sumner, Mr. and Mrs. Wayne Cozzens and two daughters of Albuquerque, Mr. and Mrs. L. C. Cozzens and three of their children of Portales.

Mr. and Mrs. Lynn Stoneman and son spent two days last week in Roswell on business.

I went to Nogal on Avon calling last Wednesday. I always enjoy it and Lincoln as well. Mr. and Mrs. Sam Cox had just returned from several days fishing vacation with their children at Conchos Lake. Though they did not fish the children all had a grand time water skiing, camping, and visiting. Those who joined them were, Mr. and Mrs. Joe Wigley and Shelly of Midland, Texas, Mr. and Mrs. Floyd Alkro, Sarah and Debbie of Alamogordo, Mr. and Mrs. Bill Wilson and Carrie of Roswell, Mel and Mary Ann Houx, Sam, Ken and Gina of Denver.

Mr. and Mrs. Cox returned via Roswell and attended the Fair before their return. They were very tired but happy. It was a Happy Holiday.

Mrs. Rench made a business trip to Ruidoso Monday afternoon. What a pretty drive.

While on Ruidoso last Thursday I met Mrs. Floyd Hale and Mrs. Kerr while having lunch. They were telling me that, that very day trees were being felled at the Bonnell Ranch the old land mark making way for the new highway. Most of the Siberian Crab apple trees will go or perhaps are gone by this time. The old place will be gone and it will be hard to reconize it when the new highway gets to going. It will be a nice highway.

Carrizozo Community Chorus, directed by Veda Lou Stephenson is a popular singing group. You see them at their performance for Methodist Church dedication. News and Notes

— By Mary Ellen Payne —

Children's shoes should be fitted properly to allow for growth and wiggle room. New styles, colors and materials naturally appeal most to children, but fit, comfort and durability should team with attractiveness in buying their shoes.

Find a sale if possible, to buy better quality shoes at lower prices. Don't just buy because they're on sale, be sure they fit correctly.

Shoe authorities disagree on the amount of growth and wiggle room needed but they agree the child's feet should be measured when standing up. Some experts think one-half inch space is enough to allow in the shoe beyond the tip of the longest toe, to the tip of the shoe. Others want to reserve space three-quarters of an inch or even one full inch. Children's shoes need to be able to endure plenty of mileage. Experts say a child walks about 10 miles a day. This helps explain why shoes wear out so quickly. Poorly fitted shoes can affect a child's walk posture, body growth and can start the foot growing unnaturally, causing foot trouble that lasts a lifetime.

Governor tells of accomplishments so far this year

The Steering Committee of the South Central Mountain Resource Area met Tuesday, August 31, in the Chaparral Hotel in Ruidoso, with the meeting being called to order at 1:00 p.m. by Robert Bell, Acting Chairman.

The minutes of the July 13, 1971 meeting were approved.

The speaker for the afternoon was Governor Bruce King who was accompanied by Keith Dotson Director of the State Planning Office. Governor King indicated his interest in RC&D's and expressed his appreciation for the work and accomplishments of the group. The Governor outlined briefly some of the accomplishments and changes made during the months that he had been in office and mentioned specifically tax structure, law enforcement, drug control planning, and streamlining of operations in State government. Mr. Dotson outlined the work and programs of the State Planning Office.

Under new proposals, Cliff Mc Donald presented the request of the Otero County Commissioners for assistance in control of floods of Dry Canyon in an area in the northeast part of Alamogordo. P.L. 566 was mentioned as a possible aid in controlling these floods. Stan Green moved that this be adopted as a project measure, it was passed as P.M. 87.

A request was received from the Southwest RC&D, based on a resolution by the New Mexico Association of Soil & Water Conservation Districts providing for action regarding water quality. Included would be legislation and implementing existing program authorizations and appropriations which will reduce water pollution and provide quality water from watersheds, and which would provide job opportunitits for our youth and low income groups. Cited as an example of a similar program was the C C C work of the 1930's. Lewis Merritt moved for adoption of this request as a project, Stan Green seconded, and it was approved as P.M. 88.

A request by letter was received from the New Mexico Citizens for Clean Air and Water for assistance on a feasibility study of game animal ranching as a complement to livestock ranching. The Steering Committee voted to table this request until a later meeting, subject to the proposal being presented and discussed by someone from the New Mexico Citizens for Clean Air and Water organization.

Under progress reports, the Oktoberfest is going strong with its advertising; blacktopping of White Oaks Road is to be finished in a month; Bear Canyon Dam is being watched to see if it will hold water; Dell City Road is to be surfaced soon; Highway 70 Reseeding has been done; a Plant Materials meeting has been set for September 10 in Roswell; Sacramento Road has been completed and this measure (P.M. 26) should be placed on completed measures list. Other progress: plans are being made regarding the Christmas Tree Plot and Fort Stanton Student Training; a meeting of several agencies is to be held at sacrament Lake September 7, 1971 at 10:00 a.m. regarding remedial measures to seal cracks in the dam; the County has completed the road bed on State Road 42 and the State Highway Department should be contacted regarding blacktop; funds have been allocated for the Ambrosia-Chaves Ditch; $1000 has been allocated for White Oaks Historical Planning; land has not been obtained for the site of Fishing Lake near La Luz - Alamogordo; plans have been revised on Corona Community Park.

The fishing area near Cloudcroft (P.M. 49) was discussed and representatives of Cloudcroft, Otero County, and the U.S. Forest Service were to set up a meeting at the proposed fishing site to eliminate misunderstandings.

Several small lakes have been or are being developed in the Silver Springs Lakes area, on Indian land.

Stan Green said the New Mexico Press Association would furnish fishing licenses for the 33 youngsters at Ft. Stanton for next year.

Next meeting of the South Central Mountain Resource Area is to be in Alamogordo October 12, 1971.

Meeting adjourned at 3:00 p.m.

The Legislative University Study Committee will meet Sept. 22 at New Mexico State University in Silver City and Sept. 23 at New Mexico State University in Las Cruces. Sen. I.M. Smalley, D-Hidalgo-Luna-Sierra, is USC chairman. Rep. Richard A. Carbajal, D-Belen, is on the committee. Rep Robert M. Moran, R-Hobbs, is a new USC member in the current interim.

Judge Santiago Campos of Santa Fe District Court upheld Clovis liquor licenses issued to Western Continental Motels Inc., Hobbs, and Jack Zarris and Dr. Charles W. Plett of Roswell.

Atty. Gen. David Norvell said he will appeal the decision to the State Supreme Court. The licenses were issued by former State Liquor Director David Sierra in the last days of the Republican Gov. David F. Cargo administration.

New Democratic State Liquor Boss Carlos Jaramillo, backed by Democrat Norvell, tried to cancel the licenses in early January after a change of state administrations. The already lengthy litigation is expected to continue.

Jaramillo tried to issue the Clovis licenses to Johnny Mack Goodman and Charles Haas of Clovis. Clovis City Commission vetoed the Haas license.

Judge Campos ruled the Federal census was final when Sierra approved the licenses for Western Continental Motels and Zarris-Dr. Plett. Norvell had argued the census was not official until later. Clovis population growth between 1960 and 1970 made the two added licenses available.

State Tourist Director Fabian Chavez says the Highway Department will seek federal money for welcome centers in five rest areas on interstate routes.

The locations: Interstate 40 east of Tucumcari near the Texas line; I-25 north of Raton close to the Colorado line; I-10 west of Lordsburg at Steins, N.M., near the Arizona line; I-10-25 near Anthony south of Las Cruces near the Texas line and I-40 near Manuelito 14 miles west of Gallup.

Welcome center facilities alone in the rest areas would cost $75,000 to $100,000 each. The first center would be built at the site near Tucumcari. Completion is expected in one year.

The State Department of Development was moving ahead with efforts to explore possibilities to buy the huge 579,000-acre WS Ranch in Taos and Colfax Counties. Chavez will meet Sept. 20 in Fort Worth with Richard Simons, attorney for the estate of William J. Gourley, the ranch owner.

The sprawling ranch is priced at $26.5 million. The U.S. Forest Service and state are looking into prospects of buying the vast spread for development into multi-recreational uses.

Approval from the 1971 Legislature would be required for state purchase. A joint state-federal venture is a possibility.

The State Environmental Improvement agency said a $12,000 Central Arroyo Hondo project in Taos County developed an artesian well of acceptable water. The project awaits a 10,000-gallon tank and 8,000 feet of pipe for an operating water system to serve 20 families. The Placites Del Medio Domestic Water Consumers' Association in Taos County built a wellhouse. The project is near the pipe laying stage at Cerro. Dow Bond Plumbing Co. of Taos is contractor on both Taos County projects.

Farley waterworks will also use a pressure distribution system with a large reservoir. Fourteen families will use a well improved for $1,175.

Gov. King said Clayton, will receive $104,549 Land and Water Conservation fund money to develop municipal recreation areas. Total cost will be $209,099.

Mr. Paul Payton
Lincoln County News
Carrizozo, N.M.

Dear Mr. Payton:

The enclosed clippings are self explanatory. Is it possible for you to present our request to your readers? Betty Luther has written the column "Ask Ann Carroll" for years. She is now desperately ill with arthritis, but continues her words of wisdom, cheer and advice daily.

As you know, I have written three books about your area: "Captive Mountain Waters," "The Cloud-Climbing Railroad" and "The Lodge 1899-1969."

I will never cease being grateful to the many people who helped me.

Any help on this project by you and your readers will be greatly appreciated.

Most sincerely,
Dorothy Jensen Neal

Mr. and Mrs. Earl Fenter's new home in Carrizozo is about complete. Tony Lueras, Pat Coor and Marin Vega are shown with Earl. This house was started by Frank Vega before his sudden death. It's a beautiful new home.

Chow time at Trinity Methodist barbecue at Valley of Fires State Park was a happy occasion. Friday and Marvin serving, Jack, Francis, Veda, Sue, Jane, Hazel in line and more to come.

"THE LITTLE RED HEN"

Once upon a time, there was a Little Red Hen who scratched about and uncovered some grains of wheat. She called her barnyard neighbors and said, "If we work together and plant this wheat, we will have some fine bread to eat. Who will help me plant the wheat?" "Not I," said the Cow. "Not I," said the Duck. "Not I," said the Pig. "Not I," said the Goose. "Then I will," said the Little Red Hen, and she did.

The wheat grew tall and ripened into golden grain. "Who will help me reap my wheat?" asked the Little Red Hen. "Not I," said the Duck. "Out of my classification," said the Pig. "I'd lose my unemployment insurance," said the Cow. "I'd lose my seniority," said the Goose. "Then I will," said the Little Red Hen, and she did.

Then it came time to bake the bread. "That's overtime for me," said the Cow. "I'm a dropout and never learned how," said the Duck. "I'd lose my welfare benefits," said the Pig. "If I'm the only one helping, that's discrimination," said the Goose. "Then I will," said the Little Red Hen, and she did.

She baked five loaves of fine bread and held them up for the neighbors to see. They all wanted some, and demanded a share. But the Little Red Hen said, "No, I can rest for a while and eat the five loaves myself."

"Excess profits," cried the Cow. "Capitalistic leech," screamed the Duck. "Company fink," grunted the Pig. "Equal rights," yelled the Goose. And they hurriedly painted picket signs and marched around the Little Red Hen singing, "We shall overcome," and they did.

For when the Farmer came, he said, "You must not be greedy, Little Red Hen. Look at the oppressed Cow. Look at the disadvantaged Duck. Look at the underprivileged Pig. Look at the less fortunate Goose. You are guilty of making second-class citizens of them. "But...but," said the Little Red Hen. "I earned the bread."

"Exactly," said the wise Farmer. "That is the wonderful free enterprise system; anyone in the barnyard can earn as much as he wants. You should be happy to have this freedom. In other barnyards you'd have to give all five loaves to the farmer. Here you give four loaves to your suffering neighbors." And they all lived happily ever after, including the Little Red Hen who smiled and clucked: "I am grateful, I am grateful."

But her neighbors wondered why she never baked any more bread.

School of religion starts Sept. 27

Forms are going out this week for enrollment of children grades one through twelve in a school of religion which will get under way the week of September 27 at St. Rita Parish Hall.

This schooling in the past has been carried on by the Sisters. This year the school will be under the direction of Father Clive Lynn with help from people in his parish. The forms should be returned to the church or the rectory after parents have filled them out.

Phil Straley, with his Grand Champion Steer, did what many 4-H'ers try for years to do, but never get done. The steer was from the Straley herd and has been on feed for about ten months. Phil received $1.75 per pound from the Pecos Valley Coca Cola Bottling Company. G. L. Straley sold his calf for 64¢ per pound to Armstrong and Armstrong Construction Co., and Leanne Straley sold her calf to Citizens State Bank of Carrizozo for 68¢ per pound. Phil, G.L. and Leanne are all members of the Malpais Colts 4-H Club. Other 4-H'ers selling animals in the Junior Sale were Carlos and Cecelia Pacheco of the Hondo Valley 4-H Club.

The Sheep to Shawl Exhibit was the most interesting exhibit at the Eastern New Mexico State Fair in Roswell. They were busy spinning, dyeing and weaving from early morning to late evening. There was always a group watching the people with the exhibit at work. This group will take this exhibit to the State Fair this next week.

The range caterpillar has spread over a large area in Lincoln County as well as surrounding areas. I have had reports of it over wide areas. It has spread into Chaves County in the Macho Draw area.
