Val Nero wins for Spencers

A Lincoln County long shot, Val Nero, stuck his nose into the winning slot in the sixth annual West Texas Quarter Horse Futurity at Sunland Park.

The 36-1 horse earned a \$60,953 paycheck for owner Jackie Spencer of Carrizozo and paid \$74 on a \$2 win ticket. He paid \$9.40 to place and \$3 to show.

Keith Asmussen rode the winner who had his head in front on the final jump of the \$203,179 race. He covered the 330 yards in 16.81 seconds.

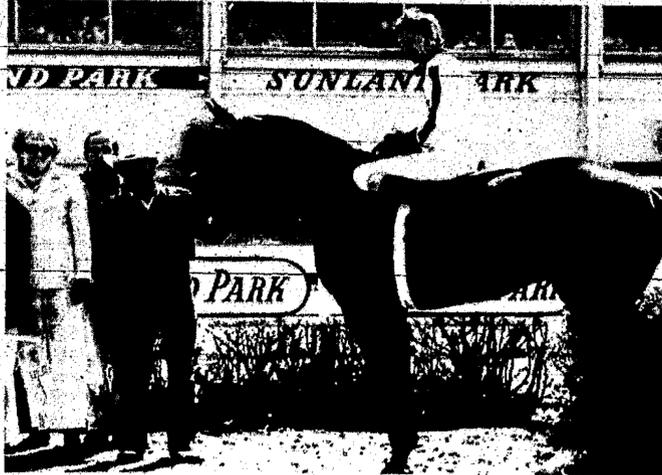

Real Easy Jet, a 2-1 favorite, was second, a nose ahead of Super Sonic Moon.

Val Nero had the worst qualifying time of the ten horses in the race. Asmussen held the horse back until near the end when he was turned loose to overtake the leaders at the wire.

The two year old was raised in Capitan as was his dam, Hank's Tonto. The sire, Hopeful Venture, is also a Lincoln County horse owned by the Rose Ranch.

Manager Fletcher Hall said that Val Nero is entered in the Ruidoso futurities and looks like he will be able to run well this year.

Two other of the Spencer horses will be running at the Santa Fe track this year.

Jackie Spencer's Val Nero was winner of the West Texas Futurity last week. From the left are Jackie, A.N. Spencer and trainer Don Farris.

Capitan rates raised; police chief sought

Capitan Police chief, Chuck Treadwell presented his resignation to the village trustees at a meeting Monday night.

Treadwell is joining the Lincoln County Sheriff's department as a deputy. The village will advertise for his replacement at a salary of \$600 a month.

In other action the trustees approved the specifications for the sewer treatment plant lagoon and authorized the sewer project to be continued. Bids will be opened on April 29.

The town received notice that the price of water from Eagle Creek will be increased from 20 cents to 30 cents per

1000 gallons. The trustees voted to keep the current minimum rates but to raise the Capitan water bill by ten cents a thousand after the minimum to meet the increased cost.

A delegation from the Mount Capitan Subdivision headed by Howard Abercrombie appeared to request fire hydrants be provided and that street improvements be planned.

The trustees voted approval for the fire hydrants and instructed Ray Provine to make a cost estimate of the necessary street grading.

A letter from Utah Maples requesting water service was read and the request was turned down. The trustees said that a city resolution prohibited providing water out of the city limits.

Ron Battles of Cablevision of Lincoln County received approval on his request to move the TV tower to the Big Country Water Tank. He said it would improve reception by fifty percent.

The trustees voted to move the meeting nights to the second Monday of each month beginning in May.

The Village Clerk Doris Engelking announced that the motor vehicle department would be closed from April 8 to April 18 while she is on vacation. The town hall will be open from 8:30 a.m. to 4:30 p.m. in the future.

St. Josephs head pleased by center

Sister Celestia, administrator of St. Josephs Hospital, complimented Carrizozo people on their work and self help in maintaining and improving the Carrizozo Health Center.

She was in Carrizozo Sunday for an open house held to show the patrons of the facility the new X-ray equipment that has been installed.

With her were Sisters Alma, Teresa and Julienne, and Assistant Administrator and Mrs. Mike Brown from St. Josephs.

Sister Celestia said she was pleased with the progress of the center and with the support of the people in the area.

The \$22,722.93 X-ray equipment was purchased with the money contributed by people in the Carrizozo area. The administrator said that the operation of the center would be impossible without the assistance of the citizen who use it.

Dr. Ravi Bhasker, Betty Howell and Sister Celestia were present at the Carrizozo Health Center open house Sunday to show patrons the new \$22,000 X-ray equipment.

Conway says gambling unlikely

State Senator John Conway is betting that there won't be gambling, the casino type, on the Mescalero Indian reservation in the foreseeable future.

But if the odds he's betting are wrong, then Sen. Conway says, the New Mexico legislature will open the entire state for gambling.

Speaking at a Thursday night meeting of the Lincoln County Development Association, Conway told a gathering of persons which included a sizable number horse racing enthusiasts, that casino gambling kills horse racing.

According to the legislator, people can lose money much faster and easier on the tables and in the slots—"they don't want to wait around for post time."

In Conway's opinion the Supreme Court will not decide that activities which are illegal in a state are legal on a reservation.

"We've got a real problem," he said, "with horse racing on reservations."

Since racing is legal in New Mexico he believes the Indians have a good chance for racing and pari-mutual betting on reservations.

The problem to New Mexico, he said, is that the state will not realize one cent of revenue from reservation racing and the non-Indian tracks will lose customers.

New legislation was passed this term to forestall that loss. Under the new racing regulations, an owner racing on an unlicensed track (reservation owned) will be barred from licensed tracks for one year.

Conway expects litigation before the racing picture is decided. "I have been very impressed with Attorney General Tony Anaya. He has taken a lot of tough stands and is making one here."

Never-the-less, Conway believes that the state of New Mexico will not have the answers. "Congress will have to do it," he says. "I don't see how the feds can allow a nation within the nation to do what the rest of us can't do," he said.

Ambulance emergency to be studied

County commissioners and county emergency medical technicians will meet with the Ruidoso Village trustees Thursday night to consider the future of ambulance service in the Ruidoso-Hondo area.

The village is now operating a temporary ambulance service with a vehicle on loan from the Traffic Safety Division of the Department of Motor Vehicles.

The loan of the ambulance was made to the vehicle under emergency measures created when Phil Embry terminated the privately owned service in that area last week.

The study committee from the village and the county officials will consider budget proposals and the means of a permanent ambulance service.

Career course success

Carrizozo young people were encouraged to plan their futures now at a special career course offered at the school this week.

The Monday and Tuesday sessions for mid-schoolers were sponsored by the Carrizozo Woman's Club in conjunction with the mini-courses offered this week.

About 50 youngsters attended the two-day sessions which were under the direction of Elinor Olson, Debbie Bhasker and Sister Gail.

A special task force from Educational Opportunities Center in Espanola assisted in the presentation of some of the many fields of work. The students were urged to think about the training they would need after high school in order to find careers that would bring them satisfaction.

Ms. Diane Bird, of the Santa Domingo Pueblo; Toby Perea, a financial aid specialist; and Isador Romero, New Mexico Technical Vocational recruiter, showed films and talked about the importance of planning for the future now.

Members of the community gave talks on their particular work and explained the training necessary and the benefits that resulted. These lecturers were Bobbie LaMay, Pepper Smith, Stan Shields, Jesse English, and Nancy Guck. Jim Ballard, a computer programmer, and Pat, in-service director of Gerald Chapman Hospital, also presented career opportunities in their special fields. State Police Captain Mobley assisted by Max Watson and Dale Housley talked about law enforcement opportunities and training.

Monday night the EOC team and the Woman's Club Committee met with about 20 young adults at the recreation center for a session on job opportunities and training possibilities.

Direction was offered for those who are either unemployed or might seek broader career opportunities.

The team congratulated the school and the Carrizozo Woman's Club on sponsoring the workshops and suggested that the program be expanded to include all the youth and young adults in the community.

Ms. Bird said that meetings with parents to explain financial assistance for advance education would be helpful.

Mary Rich, president of the organization, said that the club members would be asked to consider "Where do we go from here" is assisting our youth in making the most of their lives. She commended Ms. Olson, Bhasker and Sister Gail on the many hours of work required to put together the workshops and said that the concept would hopefully be continued.

Bill Schreengost congratulated Senator John Conway on a successful legislative session. Sen. Conway spoke to the Lincoln County Development Association last week.

In discussing other phases of the session of the state legislature which just closed, Conway said he was not favorably impressed with the Governor's reorganization plan and did not believe it would save money. He said that it did give all the power to the governor and at least there will be someone to blame for what goes wrong."

Conway congratulated Lincoln County on the funding of Smokey Bear Park improvements and said that the state park program which passed was excellent.

Calling the session a "killing session" he said that his fellow members turned down his legislation to reinstate the death penalty and his "right to die" bill which he said was not understood by the Catholic Archbishop.

His two constitutional proposals, both on judiciary matters, were passed.

The legislature voted to spend \$40 million on education, he said, and observed that the children of the state should be well educated for that money.

Asked why he voted for the Equal Rights Amendment by a member of the audience obviously opposed to that legislation, Conway said his mother had been a teacher working to raise her children and a man doing the same work as she was paid \$200 more just because he was a man. He said that he believes in the principal of equal pay for equal work.

Warning that there would be more in the news in coming months, Conway said there is organized crime in New Mexico and that investigations are just beginning to reveal the extent of it.

On the decriminalization of marijuana, the Senator said "I'm getting to be in the minority." He projected a five or ten year future when the possession of marijuana would not be illegal.

4 Winds 'supper club' is Saturday

A 'supper club' concept will be offered at the 4 Winds as an opening spring event. Joan Miller, manager of the lounge, said she believed the expanded and remodeled setting would be ideal for such a social occasion.

The evening of dining and entertainment will be April 9 and will star Lorin Paulsen, comedian and singer. Dinner and dancing will be offered in addition to the show as a package arrangement.

Paulsen for many years enjoyed a successful career as a comedy writer. Working behind the scenes, he wrote many of the highly amusing skits and monologues used by his brother, comedian Pat Paulsen, and by the Smothers Brothers on the original Smothers Brothers Comedy Hour.

Paulsen was the writer who for-

mulated his brother's entire 1968 presidential campaign. He wrote Pat's political platform, most of the political speeches, and accompanied him on the "presidential trail" supplying Pat with a steady flow of current, whimsical and politically-oriented "zingers".

Lorin is a real "zinger" himself. Wearying of writing comedy material for others, he has now created a full bag of tricks, quips, satires, monologues, parodies, and heckler stoppers.

If comedy isn't enough, he is a fine singer with a big, thrilling baritone voice reminiscent of Ed Ames or John Gary.

Taking a more active role in the entertainment business, Paulsen has appeared at Lake Tahoe's "Harvey's Yagonwheel", at Disneyland on the Fantasyland stage, at college concerts, lounges, military clubs, and at numerous fairs, including the Arizona State Fair at Phoenix.

He has worked with Rusty Draper, Judy Lynn, Rosemary Clooney, The Ink Spots, the Irish Rovers, Johnnie Ray, Bobby Goldsboro, Boots Randolph, Tom T. Hall, The Association, The Supremes, Herman's Hermits, Paul

Revere and the Raiders, Kenny Rogers and the First Edition, and Mickey Mouse, Pluto, and Donald Duck.

Paulsen is accompanied by his music director, Mr. Bill Ferrell, an exceptionally gifted organist, and the "Bill Ferrell Trio". Ferrell combines fine musical sense with a flare for showmanship and comedy.

During the many months that Paulsen and Ferrell have worked together, they have developed a bantering dialogue that is a show in itself, and a musical rapport that is complimentary to each other.

Fort Stanton

By Dollie Lawson

The Spring Carnival at Fort Stanton was a success in spite of the wind and adverse weather conditions. The booths were moved four times before finally finding adequate shelter from the winds. Only 10 booths continued after 4:00 p.m. Regardless of the weather many people attended. Next year the spring carnival will be after Easter and hopefully when the wind does not blow all the decorations away.

The hog which now weighs almost 300 pounds was won by Jack Giller of Capitan. Kathy Wood won the turkey and the Afgan was won by a lady from Kenna.

Blanche Chee from Mesalero won the Ecko Cookset. Mike Lawson won the pocket camera. Two students from Fort Stanton won the other prizes in the guessing games. Al Haines guessed 2407 pennies in the jar to win ten pounds of hamburger meat.

The carnival committee was pleased with the Kissing Booth. Eddie Jones and students gave many kisses (chocolate) to our students. Lips made from foam were in 5c, 10, and 25c sizes. All of the students enjoyed guessing who was working in the secret booth. Camp Sierra Blanca's band played for the dance. Staff, students and visitors enjoyed the "country" and western music. The band returned Saturday night to play again for the students. Bonnie McEuen has been planning dances for the students for over a year. Then men from the camp are always helpful and we appreciate their interest in our students.

Three of our staff members dressed as clowns. Our girls were colorful and lively. (Clare Hutchinson, Jane Erwin, Barbara Noonan (all teachers) were clowns for the day. The other clown is the regular staff clown, Abby Baldwin. Tommy Aldaz and his dietary staff provided a hot dog supper. The home made hot dog bun alone were worth the price of the meal. Tommy and his staff are known for their excellent baked goods. We wonder how well they will do in the up coming Chili Cookoff.

Pat Hicks conducted tours for our Open House. Pat is in charge of our Senior Citizen program. Train ride tours were cancelled due to the weather. Later in the day a few train rides were conducted for those who did not mind the wind. Everyone was extremely pleased at the number of parents, friends, and visitors who came for Open House. We hope that more will attend in the future.

Bobby Crenshaw is in the news this week. He donated a calf to our 4-H club. The calf has been named "Baby" by the students. She and the lamb are the center of attention down on the farm. "Baby" is being bottle fed by the students.

Several local residents have donated livestock to the farm. We now have turkeys, ducks, geese, chickens, dogs and the calf. The 4-H project has had sheep for several years. Vic Hameritz is in charge of the 4-H project. Steve Chapman, Ben Murrin, Eddie Chavez work on the farm with Voc Ed students. Their project this year has been to clean the irrigation ditch. Eddie Romero has started a special project for a group of pre-vocational students. The group of boys is learning to stack wire wood which Eddie cuts. The boys are also learning to prepare flower beds or planting. We hope to plant many areas around in the Fort in various types of flowers. We are asking for donations again. This time unwanted flowers. We will pick up iris roots, mums, or any other type of flowering plant which will help fill the many bare areas around the campus.

The office staff had a birthday party for Carmen Luna last Thursday. Agnes Crouse baked a delicious chocolate cake for her. Agnes is well known at the Fort for her cakes.

Dorothy Hein from Carrizozo is now working at Eddy Cottage. We still have one position open for Attendant I. Many people do not understand that to be hired for various positions they must be on the list of eligibles for that position. A person must be on both the list of Attendants and Client Service Agents to be considered for a position in either area. We have several applicants for Client Service agents but no positions. We have one position for Attendant but no current applicants.

Katie Gaston has retired from the Fort. She was a night attendant in Eddy cottage.

Lucy Montes is on the sick list this week. We hope that the doctor will release her for duty soon.

Charlene White has returned to work after being out for surgery. Josephine Pino will return soon we hope.

Albert Luna has had a problem all spring with sinus and hay fever. With the high winds we have been having many people have had difficulty with sinus conditions.

Pat Hicks and Lorraine Sanchez were in Albuquerque on Thursday for an EEO meeting. They returned in time to work at the carnival. Lorraine was in charge of the roping booth. Pat worked at all booths and served coffee to staff members who had outdoor booths. We appreciated her observation.

The Voc Ed department is still taking orders for spring planter boxes. The boxes are in various sizes. Tony Cherry displayed the various types of ceramic flower pots for the parents. The flower pots may be seen in the ceramic room at the Voc Ed building.

Fishing fever is spreading rapidly at the Fort. It is highly contagious and often causes sick leave or some type of unusual behavior such as rising before daylight and sitting on cold rocks in near gale winds. Bonita Lake is so crowded that it is difficult to find a rock to sit on. There are other lakes which take longer to get to but have larger fish and smaller crowds. We enjoy fishing for bass and plan to go back to Texas within a few weeks. The lakes (Dam Bee, Conroe, Livingston, Sam Rayburn) are huge and offer excellent bank or boat fishing. Victims of the fishing disease locally include the entire Lawson family, the Cordovas, the Baldinells, Jake Chavez and others who wish to remain unknown or on the sick list.

As soon as everyone recovers from the carnival we will have the Chili Cookoff. The staff will divide into teams and compete for prizes in various categories. The only rule being that some type of chili must be used in the recipe.

This Thursday we will have an Easter egg hunt for the younger students at the Fort. Many students will go home for a short spring vacation. The teachers will be on vacation and several are planning trips. Barbara Noonan's parents will visit here during the vacation. They are now enroute from New Jersey.

Let me again thank all of the staff members who worked so hard to make the carnival so much fun for the students. I hope that everyone had as much fun as I did. Our retarded students were able to interact with the visitors and work at the booths. There were no problems and the wind did stop by 5:00 p.m. in time to put up the moon walk. We apologize to those students who came from the public school but the wind was too high to start the moon walk until after they had to leave. Perhaps all of you can come back out another day to play in the moon walk. Our staff members finally learned to turn flips in it. Our students has almost as much fun watching the adults bounce and try to turn flips as they had doing the same stunts.

Last week I discussed brain damaged children, especially the LD (learning disabled) which have specific learning problems. There are many forms of brain damage and many causes. High fever and lack of oxygen to the brain can cause severe problems. Many parents worry about dropping infants, or having infants fall striking the head. Usually a fall from the bed will not cause serious harm. The brain is fairly well protected from minor falls but can be damaged by heavy blows. More brain damage results from disease and serious type accidents. Malnutrition will also cause a child to be classified as a slow learner. Nutrition is vitally important in both pre-natal and post-natal care.

We have many students at the Fort with autistic type behaviors. Autism is a term used to describe children who are difficult to work with because they seem to shut out the rest of the world.

Many are spinners, rockers, spitters, loners, picky eaters, non verbal, hand wavers, pickers and so on. The list can continue with many types of unusual behaviors. These children were once thought to be virtually hopeless. Parents tried to keep them at home but usually had to place them because of the amount of time needed for care. In one case the child ate only cold food (cereal placed in the refrigerator) and drank only 7-Up ONLY when all family members were outside the house.

This child also carried a certain type of face cream with him constantly. The parents had to buy it by the case to be sure that they were never without it. If by chance they did not have any, the child would go into screaming temper tantrums for hours leading to convulsions. At ten, the child weighed 52 pounds. He would not walk - just kneeled and rocked, banging his head. Other days he ran away constantly. No door could be locked against him. He had perfect balance and could balance on the edge of the window or chair arm. Other times he would spin objects for hours.

Sometimes he walked through the house spitting and urinating in definite patterns. He was not toilet trained and repeated certain sounds. Frequently he cried for hours. His parents said that he was a problem from birth. They had been to twenty different doctors, clinics, schools, and finally our program. The parents loved the child but could no longer spend up to twenty hours a day caring for him. When I met them they looked to be in their 50s but were actually only near forty.

I had to admire them because they had worked for ten years trying to help their son at home. The amount of money spent trying to find out what was wrong and how to help was unbleivable.

Another of our boys was even more difficult. He was fifteen when he finally came to our program. This boy was also a run away and had to be confined at night. He pulled his hair until he was virtually bald, he pulled his eye lashes out, he would not talk, he ate only certain foods, he peeled the skin from his fingers, toes, and other body parts, he drank boiling hot liquids, he often held his breath until he passed-out, he controlled his body muscles and daily had muscle spasms which required medical attention. His drug medication was extreme. Everytime he went out into the sunlight he had seizures.

One of our girls had no language and screamed high pitched sounds for hours. Then she would cry, attack students and have seizures. All three children were so called autistic children. We worked with them for three years on what we called sensory problems and today all children are in special education classes.

The three children were in the movie made about special education classes. All three had the behaviors which the majority of people feel represents retarded people. For untrained people the behaviors do appear so unusual as to cause alarm. The children were special cases, and rather rare. The majority of retarded students have either a genetic problem or brain damage. Retarded students are not difficult to work with and are not aggressive if they are in useful learning situations. The students at Fort Stanton who have autistic type behaviors are not actually autistic cases. They have learned institutional behaviors. Others have true sensory problems which can be helped.

Sensory problems may be tactile, visual, auditory, smell, or taste. Next week more about sensory problems. The purpose behind the articles on retardation is simply to explain to local residents that the students of Fort Stanton are people who need help. They learn more slowly than the average but they do learn. They do not harm people and like to do the same things as other people do.

Many will be able to leave us once they have completed their programs. The more profoundly handicapped will have to require specialized help for life. All of our students enjoy: games, sports, TV, movies, toys, going on trips, going to school, dances, music, good food, pets, farming, raising flowers, having friends, and learning. With more education and with the more progressive education techniques many will stop their institutional behaviors, others will be able to leave Fort Stanton.

EASTER IS COMING SOON!!!

When life is slowly bursting forth a new in springtime in woods, in parks, in gardens - then the holy spirit of spring is working silently - then comes the holy festival called Easter observed in many branches of the Christian Church to commemorate Christ's resurrection.

Many customs, beautiful and quaint are observed in the homes and churches. Churches have special services for this closing of the forty days - of Lent and white flowers, especially Lilies, decorate the altars as a sign of purity and light. The Easter eggs is a custom that was originated with the Persians, the eggs being symbols of new life. Coloring them red typifies the blood of redemption.

The name Easter comes from the Anglo Saxon 'Eostre', a Goddess of light and spring whose festival was celebrated in April.

Easter is time for a new beginning - a new start for love for children - and for joy!!!!

LETS BRING OUT THE BEST IN OURSELVES!!!

1. Most people are capable of much more than they do.
2. Come to terms with your faults - try to cut out at least one of them.
3. Try not to keep up with the Jones - devote more time to your family.
4. Try not to over do anything - balance your days better.
5. Think what you have really wanted to do all your life - maybe you could do it after all.
6. Think of a goal and try working toward it.

ROBBIE'S BOX!

- A teaspoon of funnies from the children
1. My mother said not to tell that she is 45.
 2. "I'm not supposed to talk about my uncle who just hangs around the house all day."
 3. My moms mad at my Dad because he stayed up and played poker all night.
 4. My Dad is a minister and he says our congregation is so tight it squeaks."

DO YOU KNOW?
That charming lady who dresses dolls in Capitan?
The newly weds in Capitan who put out a delicious taco?
That attractive lady who is working in the Family Pharmacy?
A TABLESPOON OF FUN!
Oh, innocent victims of Cupid, Remember this terse little verse, To let a fool kiss you is stupid, To let a kiss fool you is worse.

Everything was going fine, Matrimony dandy, Until this year beloved mine sent diastetic candy.

A MICROWAVE OVEN
CAN DO THE FOLLOWING
Prepare and cook sauces in a glass cup

Freshen stale crackers
Raise yeast dough
Warm up syrups
Melt choc in butter
Reheat leftovers without adding water

Brew tea in the cup
Warm - pie topped with solid ice cream

Rewarm - left over potatoes, oatmeal, french toast, pancakes, spaghetti, french fries and rice to taste fresh.

Say Robbie! Here is something great for the Sunday breakfast.

Green Chili Eggs
1 eight ounce can green chilis or 1 four one can Jalapeno peppers (mild)
1 pound grated Monterey Jack cheese
12 eggs
1 container (16 ounces) dairy sour cream

Scrape all seeds out of the chilis or you'll regret it. Drain and wipe them dry, now layer them with the grated cheese in a buttered 13-9-2 inch dish. Combine the eggs and the cream. Beat and pour on top of the Chili cheese arrangement. Bake for 30 minutes, 350 oven - it is delicious!

Dear Robbie,
Why don't they offer a munue for men and a munue for women?

Dear Roby,
I heard a fellow complaining the other day that he's so poor his hearing aid is on a party line.

FLASH! Do we really have free speech in America, or are out minds brain washed by the News - commentators.

Dear Robbie,
It seems that the gradual conversion to the metric system. Is playing follow the liter! DID YOU KNOW that the California legislation permits mentally competent people, whether ill or healthy at the time to sign living wills directing physicians to terminate life support measures which serve "no purpose except to artificially delay the moment of death. Well! readers: if you want a lot of Conversation on Easter- Just put a bandage on your forehead. Robbie - He who truly knows has no occasion to shout.

Now just boil some eggs for Easter cut up all the vegetables you can find - toss them together and dig in! Bye now until next week.

I am just getting home from a small vacation - will try to find out what is going on in the bowl next time.

BLM calls meet on range uses

Sheriff Bill Elliott and his wife Coleta proudly showed guests the plant that the Sheriff Kathy Crumbley sent for the open house Sunday.

Sheriff and his lady show new headquarters to public

Lincoln County's newly remodeled non-voluntary hotel was filled with shining brass and pretty ladies as Sheriff Bill Elliott proudly entertained his constituents Sunday afternoon with cookies and punch.

Since the Sheriff took office in January, he, Coleta and the staff have done extensive remodeling of the sheriff's office and cleaned and painted the jail. The decorating has turned the facility into an attractive suite of offices and made the functions of the department more manageable.

Coleta Elliott had collected items from each of the past sheriffs and arranged permanent displays showing something of the past of Lincoln County law enforcement.

The Mounted Patrol members from Lincoln County, State Police officials and other representatives from neighboring law enforcement departments were on hand to assist in the public tours.

A message of regret at not being able to attend came from Governor Jerry Apodaca.

The Sheriff proudly displayed a pot plant and another letter of regret. It was from the Sheriff of Belmont County, Ohio, Kathy Crumbley, who recently received nation publicity. The 275 pound sheriff is one of the three women sheriffs in the nation.

Here is Sheriff Crumbley's letter of regrets:

March 28, 1977
Mr. Bill Elliott, Sheriff
Lincoln County
Carrizozo, New Mexico 88301
Dear Sheriff Elliott:

In reference to your recent letter, I would like to inform you that I was both surprised and honored at receiving the Commission Card from your county, along with the newspaper clipping.

Since my election I have heard from persons world-wide, but it pleases me to hear from a brother law enforcement officer, especially Sheriff's throughout the United States.

I too, am still involved in re-

organizing the Sheriff's Department as when I took office I had no transition period and the entire jail was in a deplorable state. With patience, time, and money, I hope to build one of the finest Sheriff's Department in the State of Ohio.

I would very much like to be at your open house on April 3rd, but at this time it would be impossible for me to arrange it into my schedule. Hopefully in the near future you and I will be able to meet at the National Sheriff's Convention.

Enclosed you will find a Deputy Commission Card from my county in which I am proud to have you as an honorary Special Deputy.

Thank you again for your commission card as I will display it proudly. Best wishes to you, sheriff, your staff and your family.

Respectfully,
Katherine M. Crumbley
Belmont County Sheriff

A full company of State Policemen were greeting guests in their office in the Lincoln County courthouse Sunday.

Three Lincoln County Sheriffs were present at the open house Sunday. The lawmen are (from the left) Sheriff Bill Elliott, Former Sheriff S.M. Ortiz and Former Sheriff, and now Under-Sheriff Ernest Sanchez.

Coleta Elliott, the sheriff's charming wife, greeted Mayor Bobby Dan Crenshaw at the newly redecorated Sheriff's Department.

In the evidence room at the Sheriff's open house were Deputy Red Meader, Sgt. Baker and Chuck Rominger of the Mounted Patrol.

Red Cross has classes open

American Red Cross training courses are available in Lincoln County, Mrs. Truman Spencer Jr., county chairman, Carrizozo, has announced. First Aid courses are given in all schools, fire departments and to ambulance drivers, Mrs. Spencer said, and there are courses for water safety, ski patrol, bus drivers and forest service personnel.

"Cardiopulmonary resuscitation (CPR) is another course offered by the Red Cross," she said, "and is presented at regular intervals in the county." CPR techniques, a combination of mouth-to-mouth respiration and compression of the mid-chest area, are taught to be performed by one or two persons.

"The importance of dealing with heart arrest immediately is that if the heart stops for longer than four to six minutes, irreparable brain damage occurs," she said. "The point of CPR is to keep the victims' lungs and heart working artificially until treatment can be initiated."

Information on all courses is available from Mrs. Spencer by telephoning her at 648-2314.

The state of Texas requires, by law, that dentists be trained in C.P.R.

l-e-t-t-e-r-s

Dear Editors of Lincoln Co. News
Thank you for informative and nice writing-up for our Lincoln County Red Cross Chapter. Lincoln County is badly in need of being educated on the subject.

I would like to "enlighten" persons as to Nona Brecheisen's correct title as she is invaluable to our county and the first instructor trainer we have ever had. To earn this title she spent 5 years approximately in courses and can teach C.P.R. (Cardiac Pulmonary Resuscitation). The ambulance drivers are trained, at least 4 hours, to also administer this method. Nona's job is to train instructors to instruct all over the county. She takes refresher courses every year.

Thank you,
Marion Spencer

The stirrings of spring brought out a lot of the good in us and in the earth. I saw a daffodil this week and the fruit trees are budding out (a little early for some).

It is a hard thing for the gardeners to restrain themselves on these bright warm days. That good soil just cries out for attention even if you know darn well that anything put in before income tax day (oops, sorry about that) won't have much chance making it.

Linda (she also sings with the Lincoln County Express) and Ray Carr are weavers of the most elegant materials - raw silks, wools, linens and combinations. We will tell their story soon.

They now live in Raventon (located up yonder past White Oaks and before Jicarillo). They do their work in the old school house and it has all the good feelings of the ghosts of happy children, wonderful clean air. Now the music of Linda and her friends is added to the good smells and sounds of weaving.

It is a fine use of the old school and of the land that once the Indians used to raise corn and later the settlers used for their homes and little farms. Now, after standing empty for so long, it is again filled with goodness.

Linda said when Spring hit her this week she knew it was too early to plant

so she cleaned wool and sorted and discarded. Ray and Linda have been accepted for the prestigious New Mexico and Crafts show and are working toward that event.

Dr. Marie Cortelyou already has spring flowers blooming and the fruit trees by the side of Ray Well's Barber shop is all decked out.

Love is in bloom too and this week our glamorous Chris Fenter's engagement and April marriage is announced in the News.

The other spring things are taking place, cows with calves and ewes with lamb. My dear friend Rosa Chavez is taking care of Bobby Dan Crenshaw's baby pigs following the death of the mama. That's a big job, she says.

My thoughts are turning to a revival of the May day festivities including a May Pole. Volunteers for the top job are welcome. I resent the Russians taking over what was a good old English countryside affair. Surely Camelot has revived interest in this gentle celebration of spring.

Bud Crenshaw says that he and Mary Sidwell went to the horse sale last week. Some gentle soul paid a really hefty price for a equal hefty pinto after the auctioneer said, "Now this horse is just too good to be going where he is heading."

The gentle soul, sure that his duty was to save the pinto from the glue factory, stayed right in the bidding and that old horse went to a greener pasture than he had a right to expect at a price that would have bought a good roping horse.

There was another good story from the horse ring. Mary and Bud came across an old friend of theirs. They were exchanging a few stories when another fellow walked by. Their buddy said, "Wait a minute. I know that man. I sold him a pair of spurs a couple of years back for \$10 and he didn't have the cash on him. Said he would catch me in a few days, but it's been a few years. Now you watch this."

So he walked up to the man and said, "Say, I know you. Your name is John Doe. You owe me \$15 for a pair of spurs."

"That's not right," the other fella said. "I owe you \$10."

"Alright, fine with me, so what about paying me now."

That, WW fans, is how you collect an old bill at the horse show.

We had a talk the other day at the Inn of the Mountain Gods, that super teepee of the Apache nation, with Roscoe Torilla, a member of the Mescalero Tribe.

He said there was a big herd of elk on the reservation now and that the hunts were very successful for those who can afford the wampum. But according to Roscoe, the herd doesn't come near the comparing with the elk count before 1899.

According to his father, the elk left the reservation and surrounding territory in one big migration that year.

Roscoe said some of the Apaches followed the exodus all the way past Carlsbad, to the Big Bend country and watched them cross into Mexico.

Roscoe laughed and said he guessed they became Mexican elk then. He said that no one ever understood why but that the elk never came back. The present herd has been imported to this area and carefully encouraged over the years.

The white man almost crowded out the Apaches too although Roscoe was kind enough not to mention that. We didn't mention that running ski resorts and the fabulous Inn beats knocking off wagon trains as a way of make a living.

When I spend an evening at the Inn, looking at the beauty and poshness inside and out, there is a deep bubbling amusement. You're come a long way, baby.

Marion Spencer wrote at the end of her Red Cross news, "Heard the meter man and housewife story differently. Housewife was in basement doing the laundry; threw in the housecoat she was wearing; spied a football helmet on a rack that her son used to wear when he was young. It brought back memories and she tried it on. Heard the meter man opened the door and said, "Lady, I don't know what you are doing in here but I hope your team won."

Cooking for company

By Mary

A lot of people said nice things about the luncheon at the Woman's Club in Carrizozo in March and a few even asked for the recipes.

It was all a joint effort with Jane Shafer, Shron Hefker and me cooking chicken, mixing and chopping. Gertrude Risher, Jo Paul and Carrie Magee turned up to help and the Rainbow girls served.

The menu, for the vicarious enjoyment of those of you missing for that gala event, was carried chicken over rice, grapefruit and avocado salad, sherbet and cookies.

To celebrate St. Patrick's Day, we planned a lot of green on the plate, and the touches of yellow were pretty. Jane had ordered lime sherbet but she had to settle for a mixture of orange and yellow with the green. My Irish expert, Eleanor Payton, says that orange is an Irish color too.

We were cooking for eighty people and it is difficult to reduce that to an average size recipe but I will try.

The salad was made of slices of creamy ripe avacados, canned grapefruit sections (about equal parts) and romaine lettuce cut into pieces about an inch by two inches. It was mixed with a minted poppy seed dressing. Here is how to make two cups of dressing and you may do any substitutions that your little heart desires.

- 1 cup oil
- 1/2 cup orange juice
- 1/2 cup lemon or lime juice
- Salt
- 3 tablespoons honey or Karo
- 1/2 tsp. garlic salt
- 1/2 cup onion salt
- Pinch dill weed
- 4 whole cloves
- 1 tsp dried or fresh chopped mint
- Package poppy seed

Mix it all together, preferably the night before serving. Taste the dressing after shaking well. You will have to add the salt a little at a time. Adjust the sweet-sour taste with additions of honey or lemon juice. If it just isn't quite right. Add equal amounts of honey and cider vinegar. Remember that different honeys and different lemons have different tastes.

I prefer to pour the dressing over the two fruits a little early and add the lettuce for tossing at the last minute.

This is a marvelous fruit salad dressing and if you want a creamy dressing try this trick. Into your blender put an egg. Start the blender going and slowly pour in the other ingredients.

Some one asked what the magic ingredient of the curried chicken was and I couldn't think of one. Suddenly it dawned that with three of us cooking the chickens, who knows.

milk, stirring constantly. Start adding the chicken stock (probably it has congealed and that is fine) from which you have removed the fat. Add the fresh curry powder. The amount depends on your own taste. For New Mexicans who are used to nice warm green chilies, you can really have at it. I would think about two tablespoons is minimum but taste as you go. Add some salt and pepper and mix well. Now stir in the chicken and celery. I like to have the sauce medium thick but thin enough so I can keep the whole thing heating about thirty minutes before serving so the flavors truly mingle which is the secret of good food. This thickness is adjusted by adding more liquid if necessary.

If this all sounds longwinded then here it is simplified: Make a lot of cream gravy, add meat and any vegetable handy. Dump in some curry powder and serve with rice or potatoes or grits or biscuits or noodles, etc.

The Spirit is A-movin'

By Polly Chavez

With Easter Sunday coming up, on behalf of Catholic Churches in Lincoln County, its parishioners, and myself, we wish the Lincoln County News a Joyous Easter. May the spirit and love of Christ remain with you during this week-end and always, Happy Easter to: Mr. and Mrs. Paul Payton, publishers; Mary Rich, editor; and all the rest behind the scenes. (Mable, Rosa, Annette, David, Peter, Henry and all correspondents.)

Many Christians send each other Easter Cards to express their wishes for a Happy Easter. Cards are a form of communication. Graffiti is a form of communicating also, but alot of it isn't Christian. From Sunday's Family Weekly: "High school girls scrawl three and a half times as much graffiti on the walls of restrooms as high school boys do, says a recent survey made at the University of Cincinnati."

Easter and Passover are always celebrated about the same time. "Hot Cross Buns! Hot Cross Buns! One-a-penny, two-a-penny, Hot Cross Buns!" cried the street sellers on Good Friday in 18-century England. Today hot cross buns are still a tradition. Look for Hot Cross Bun recipe and bake them before, during and Holy Week. Most bakeries had them for sale by Ash Wednesday, the beginning of Lent.

Rev. John W. Miles, pastor of T or C for the last 15 years died suddenly of a heart attack on March 27. His funeral mass was held March 30. Forty priests celebrated the funeral mass with Archbishop Sanchez of Santa Fe. It was a packed church. All other Christian members of T or C were present. Father Miles was ordained in 1942. He came to New Mexico in 1954, was originally from the state of Indiana. Father Raymond Amiro is temporarily in charge at T or C Parish Church.

Carrizozo
Santa Rita had their weekend of Christian living this past week-end. Our sincere wishes to the team of eleven that conducted the weekend for their genuine Christian concern: Santa Rita parishioners thank God for Raymond, Prudy and John Mondragon, Bob, Jennie and Jerry Contreras, Liz Hill, Felix and Nellie Torrez, Alex and Mary Rita Casaus from Albuquerque!

Holy Thursday (Holy Triduum - Triduo Pascual): Many Carrizozo youngsters will make their 1st Holy Communion this evening at Santa Rita. "The night before he died... He took bread... like-wise the cup... Do this in memory of me..."

Holy Saturday: Traditional day of Blessing (Food, seeds, pets, etc.) Bring to church marthex before 10 a.m. (Santa Rita Parish).

In Carrizozo: 9 a.m. Easter Vigil ceremonies, Mass that follows fulfills Sunday obligation.

Easter Sunday Masses: 9 a.m. Carrizozo. After mass, coffee and donuts, followed by Easter Egg Hunt. Capitan, mass as usual.

Sunday altar serving schedule: April 9 -- Alex Sambrano, Robert Montano, Liz Beltran, Tammy Ortiz, Anne Beltran. April 10 -- Alex Serna, Clarence Beltran, Elisa Montano, Christetta Chavez and Steven Payne.

Ladies of the parish are reminded that Confirmations are approaching. Phone Nena Sanchez Ortiz, 648-2354 for details on gathering to be held after Confirmations. Archbishop Sanchez, Capitan area, and Santa Rita parishioners will be participating in the happy occasion.

May the real meaning of Easter and the Joy be with all of you. My wish is a Happy and sincere Easter.

The Smokey Bear Museum had 2,653 visitors in the month of March. There were over 200 visitors there last Sunday. We do think that is great and we want them to continue coming and increasing. We do appreciate that.

Mr. and Mrs. J.D. Bizzell of Albuquerque were among those visitors last Sunday. His father was the cook for the Forest Service Crew on the Smokey Bear Fire, the time our Smokey Bear was found as a cub. They thought the Museum was great.

The Capitan Malco Station changed hands last week. The new owner and operator is Robert Gavin, Baytown, Texas. Robert, his lovely wife and two daughters, reside in the Bennett House on East 5th Street. They visited friends in Capitan several times and this time they decided to make it their home. They love the country and the people. Welcome, and may you have success and always happiness here with us.

"The Store" will open April 17 across from Cummins Store under new management, Beck's daughter, Vicki Sizemore.

Mr. and Mrs. Sam Jenkins of Portales became the proud parents of a son born April 1. He weighed 10 lbs. Name is pending.

Mrs. O.B. Shook fell recently in the home where she is living in Las Cruces and broke her hip. She had surgery on that. Joy Burks, her daughter thinks her mother will walk soon. Mrs. Shook's address is Mabel Shook, C-O Cooper, Box 248, Mesilla Park, N.M. 88047. I am asking her friends to send her cards of cheer. It would give her so much joy and happiness.

Thank you, Bonita Lou for your note. Do that again. We think of you often and miss you. Leo Powell send his his best wishes and hello to you and Mary Lou.

Pauline McGarry had as guests recently, her daughter, Mrs. James Neatherlin and three sons, Jimmy, Jeff and Joel.

Carlyn Ladd of Carrizozo is a teller at the Capitan Bank. Welcome, Carlyn. We wish you happiness here.

I send my get well wishes to Gino Romero in the St. Joseph Hospital in Albuquerque. The report is that she is doing nicely.

Saturday the wind was terrific all day and it brought in two inches of wet snow and not too cold. Sunday it was just a blustery day and ended with three inches of snow and Monday morning we awakened to four degrees temperature. By noon the snow was mostly all melted. It was good moisture and surely is appreciated.

Mark J. De'Elia, D.O. moved his office and Clinic from the Gateway Shopping Center to the new building just west of Ray Nunley's Hospital Pharmacy. It is a delightfully bright and cheery place and there is much more space. See you there.

Mrs. Lorena Hall of North Dakota

Official visits Methodists

District Superintendent and Mrs. Richard Whitwam of El Paso visited Trinity Methodist Church Sunday. At the close of the service Dr. Whitwam conducted the communion service. Several members of the Capitan Methodist Church attended the service.

A pot luck dinner for members and friends of the church followed the morning service after which Dr.

Whitwam conducted a meeting to discuss church matters.

A prayer group meets at the church every Wednesday evening at 6:30. Last week Susan Hightower reviewed the book "How to Resolve Conflicts" based on the book of James. This week Gail Wilkinson reviewed the book, "Christy" by Katherine Marshall.

Plans are going forward for the Lay Witness Mission to be held at the Methodist Church April 29th and 30th and May 1st. Mr. and Mrs. Bob Sappington of Jal will be in charge.

"Enduring Truth"

Each person on earth, although of differing nationality and race, has a unique problem. We all SIN. Paul tells us in Rom. 3:23 that we have all sinned and fallen short of the glory of God. Sin is the transgression of God's will. When a person fails to follow the pattern that is laid before us in the scriptures, then we sin. In realizing the problem of man, God sent his son to die for our sins (John 3:16). Jesus said "I am the way, the truth and the life, no man cometh unto the Father but by me". Jesus

whole purpose is coming and dying was to free men from sin (Mt. 16:11). Jesus said "He that believeth and is baptized shall be saved" (Mk. 16:16). The Lord offers us free salvation if we will only accept it. There is nothing to buy, nothing to own, no gimmicks involved. To the saved God promises life eternal. Salvation in Christ is truly the supreme outcome of any person on earth. Salvation from our sins and the snares of evil. Freedom in Christ at last.
