VOLUME 72, NUMBER 11

Mayor & Trustees Sworn-In

The regular meeting of the Board of Trustees of the Town of Carrizozo was held on March 13. The newly elected Mayor, Jesse English, along with newly elected Trustee Sandra Whitaker, and returning Trustee Roy Harmon were sworn-in at the start of the meeting.

The first order of business was the opening of bids for the surplus equipment for the 1955 Caterpillar Grader, Townly Plumbing was high bidder with a bid of \$3005. J.O. "Bud" Payne got 5 telephone poles, and the bid on 10 others for \$57. He also got

the bigger of two sewer clean out machines for a bid of \$217, with the smaller bought by Bill McCarty Construction Company for \$180. A bid by S.M. Ortiz for a gasoline motor for \$10 was rejected as the equipment was not among the listed bid equipment. J.O. Payne also bought an 1/2 ton Electric hoist with rails for \$117. Larry Bond bought a Motorola Radio Transceiver for \$25. J.O. Payne won all of the scrap metal in one corner of the city yard for \$327. Bill McCarty Construction was high bid on the 2,000 ft. of buried 10 inch line, for \$1,400, and

the bid of Howard Harkey for the cash register for \$35 was rejected when the Trustees learned from Town Clerk Christine Chavez that the town purchased the machines for \$100 each two years ago.

In other business the council, issued the notice to proceed to the Bill McCarty construction company on the Industrial Park Project.

Transferred funds from the Carrizozo Park Improvement Project to the Swimming Pool. Changed the designation for funds

received from the Senior Citizens Center as to have received monies go for Utilities rather than rent, so that the rent can be part of the Communities matching in kind service.

Approved Four resolution brought before the board by Mary Rich, 1.) Requesting the Hiway Department to repair, rebuild and widen Hiway 380 from Socorro to Capitan, 2.) Urge the adoption by the Telephone Company of a 911 emergency number. 3.) Ask the Farm Home Administration to make an exception in their rules about housing having to be paved street, such as is the exception in Capitan. 4.) Prohibit smoking in the Town Council Meetings.

The Town Council also instructed Ms. Chavez to divide the town bank accounts between the two banks equally.

A resolution was adopted to pay a bill from last year from Ken's Gambles that was not submitted until this year.

The occupational License Applications for the businesses in town were approved by the Council.

Mr. S.M. Ortiz asked the board for a little more money for the Municipal Judge job, since the New Mexico Statute provide for a raise only when a judge has just been elected, so Mr. Ortiz requested all of his raise for the next 4 years. The board came up with \$50 a month raise, effective July 1, 1978.

The final action for the night was the rehiring by the new Mayor of the Town Clerk, City Attorney, and Chief of Police.

Ms. Christine Chavez, town clerk, Mr. Bill Payne Town Attorney, and C. Morales, chief of police will remain in their respective positions. Before the meeting adjourned, Mr. Morales read a letter from Town Patrolman C.O. Rominger, resigning effective March 24th.

Editor
Lincoln County News

Attached is a copy of a letter which I have given to Mary Rich the Lincoln County Democratic Chairwoman.

As you can see by the attached letter that my business interests are such that if I were to run for office of County Assessor and win, I would have a direct conflict of interest.

I do thank you for running the article in your paper that I was considering running for the position.

Ms. Mary Rich
Democratic Chairwoman
Lincoln County
P.O. Box 3
Carrizozo, New Mexico 88301

Dear Mary:
Because of my varied business interests, I find it necessary that I not file for the position of Lincoln County Assessor as I had intended to. My interests will be expanding and taking more of my time. I feel that this would cause a direct conflict with the position even if I were to win the election.

I thank you and everyone in the Democratic Party for the backing that they had promised to give during the coming election.

I would be glad to help the person that does decide to run for the position, in any way that I can. Sincerely,

C.O. Rominger 111

Manire, 'Destined To Be School Man's Man'

We live in a world where the only constant element we know is change. Poco a poco, they say in Spanish, "little by little". And far too often we forget what yesterday did for today. Too often we don't remember to say "thank you."

I worked six years in a building that has been instrumental in a great deal of change in Carrizozo, the high school building. One man seemed to personify that building. He came into my office often. As he would ease down into the big chair he would always ask, "What's going on". You knew he really wanted to know.

L.Z. Manire, Born February 4, 1892, Wise County Texas. Destined to be a school man's school man. He brought an atmosphere to Carrizozo that for many years has been an accepted legend: School business is very important business.

June 1st, 1942, Mr. Manire came to Carrizozo. As Superintendent he took over the task of completing the building of the unit which for 36 yrs. now has been the High School. He still taught a two-hour block of Manual Training and built the backboards he installed in the new gym, saving the school district some money. He and his family resided in the house known as the Huntsinger house, next to Red Eaker. In 1946 he purchased the home he still occupies.

That year, 1942, was a war year. A very serious matter Mr. Manire often recalls was the school had lost its North Central Accreditation. A student graduating from a school with accreditation had an inside track on college entrance at almost any institution in the nation. He had always remembered how as a kid there was no high school within walking distance of his home and that he had been forced to take a college entrance examination. As a matter of fact he scored high

enough to be enrolled as a junior in North Texas Normal. At that time college was three years: freshman, junior, and senior. He was part of a record high for enrollment, 777 students.

Forming a team with Mr. Manire was as fine a Board of Education as Carrizozo will ever muster. Bill Gallacher, Senior, Tino Lopez, Henry Hoffman, Jane Turner, and Clara Snow. He seemed to feel his task was to perform good school business, good education, and a return to North Central. With the depression still lingering, and with the war growing, it was a very solemn time.

In 1942-43 the school had to remain outside North Central for a year. In 1943-44 Mr. Manire thought he had it together but some of the paper work got lost in the mail. Then in 1944-45 the school was once again accredited. Despite the scarcity of qualified teachers, so many were in the service or in some form of defense work, he had put it together. Then with the closing of World War Two he wasn't faced with the giant rebuilding task many schools faced. July 1st, 1953 Supt. Manire retired. For 25 years he has continued to live in the community he perhaps gave his best years to.

Mr. Manire knew early in life he wanted to teach. His career began in 1912, in a small community in his home county. He grins as he remembers: "I taught five and half months. It was supposed to be six months but they ran out of money. I received \$52.50 a month. The \$2.50 was for utilities, mostly wood. I was also head custodian in charge of maintenance. It was a one teacher, one room school. I had about 20 students in 6-15 grades between the ages of about 6-15. I taught mostly Readin' Writin' 'Rithmatic, and

Geography." In 1913 he completed work at North Texas and received his lifetime Teaching Certificate. In 1923 he gained his Bachelor of Science from North Texas. It amused me to remember I came into the world that year. It would be 1947 before I graduated from North Texas State.

In 1914 Mr. Manire moved a few miles north into Montague County. Then in 1915 he began his career in administration, and his trek west, taking the position of Principal at Post Oak, Texas. In 1918 he left Post Oak to enter the service of his country. He was first assigned to Ordnance at Camp Hancock Georgia, then on to Edgewood, Maryland for work in the Chemical Warfare Service. His assignment was in making mustard gas. Having had Chemistry in college he passed the chemical examination the service administered. In December of 1918 he was honorably discharged and sent home.

The remainder of the 1918-1919 school year, the spring of 1919 he taught at a small school near Ranger, Texas. Then in the fall of 1919 he returned to Post Oak as Principal. From Post Oak, in the summer of 1920, he entered the superintendent's business, going to Post, Texas where he was to remain for five years. From Post he moved on to the job as Superintendent at Lorenzo, Texas, some 18 miles east of Lubbock. During the summer of 1928 Mr. Manire stepped over the state line. He took charge of the school at Tatum. Well aware of changing demands for more education he enrolled in the University of New Mexico during the summer and in 1930 received his Master Degree.

During the spring of 1933 Vaughn, New Mexico, went through some turmoil in its school system. The board of education asked State School Superintendent Georgia Lusk to recommend a good man. She nominated L.Z. Manire of Tatum. The board met, acted, and sent a delegation to Tatum to inform him he was the new Superintendent of Vaughn School. At the University of New Mexico, and at Vaughn he learned the inside workings of the North Central Association. He remembers with pride how a group of students from Encino furnished their own transportation to Vaughn in the spring of 1934, to be able to graduate from a North Central school. It is with amusement that he recalls, "I got the job although I didn't apply for it." One doesn't wonder why.

Mr. Manire tells of the lingering effects of the depression. In those years every dollar had to be watched and guarded. The first typewriter he used he had to buy, the school couldn't afford one. He still fumes a little when he remembers Superintendent Firman informing him some of "that old stuff" had been thrown away. Included were pictures and other priceless memorabilia of bygone days. Such is the tremendous pride the man still feels toward the Carrizozo School System.

In answer to his biggest accomplishment at Carrizozo, he turns back to consolidating the district into its present boundaries. In his calm,

matter-of-fact way he talks about bringing in Ancho, White Oaks, Jearilla, Nogal, Coyote, and the district at Oscura, though there was not a school there. Of course to him fell the task of providing transportation.

It never ceased to amaze me the things he would so lightly recall. One day I was fussing about the trees out front pushing up the sidewalk. He said "Tom O'Rear planted those trees...36

feet apart..." I just shook my head. He probably knew where Tom dug them up. He would mention of starting the Hot Lunch Program, of Maggie Rustin cooking. Often the name "Sus" came up...Jesus Olivias, his right-hand man.

I have often told Mr. Manire that never in my lifetime did I consider myself the caliber of school man I know he was. I grew up wanting to be a school man like him but by the time I got there

the job had changed tremendously. Once Mary Johnson and I were talking about Mr. Manire...

"Mr. Manire always stood right in front of the door. If he thought you were not early enough he took out his watch and looked at it, then straight at you," Mary said. "What time did he get here Mary?" "He always came at 7:00." "I'm not sure he did..." Mary laughed. When you ask him about this he states, for the record, "My hours were 7:00 to 6:00" I bet you could be late twice and he would tell you what time the bus left for Hachita.

Mr. Manire married Ila Hood, April 19, 1918. To them were born three children: Mildred, W.F., and Margaret. I think Mr. Manire felt about church work and attendance much like he felt about school business. The times I came in contact with his family I was impressed by it being a tremendous institution. Mrs. Manire had a first grade certificate and taught 3 years also. She often pinch-hit for him as a cook in the early days of the cafeteria.

It may be debated how much the value of the North Central Association has changed. Perhaps it isn't that important anymore. Yet maybe it is. Certainly the community needs to know what it is. That 1942 Board of Education still lingers with us: Bill Gallacher's son-in-law Wally Ferguson...Jane Turner's nephew Sterling Spencer...Tino Lopez's nephew Richard Vega...and perhaps there are other ties...

I will tell you one thing...next time you see L.Z. Manire, take a long look at him. They didn't make 'em any better than him.

New Coors Can Are Available In Area

GOLDEN COLO. — Supplies of Coors beer packaged in a new eight-ounce can will be available throughout most of Adolph Coors Company's marketing area by the end of March, the company announced Wednesday.

All distributors in Coors 14-state marketing area, excepting those in Nebraska and Texas, have begun receiving shipments of the eight-ounce aluminum cans from the Golden, Colo., brewery.

Development of the eight-ounce can represents Coors' efforts to provide both men and women consumers with a small serving of beer that is easy to handle and convenient to carry, the company said.

The new can replaces the company's seven-ounce can which is now being phased out of its marketing area.

The eight-ounce can is about two-

thirds the height and the same width as the company's most widely sold container — the 12-ounce can.

The new container is totally recyclable and can be returned to Coors distributors who pay 17 cents a pound for aluminum cans, regardless of brand. Last year, 71 percent of the cans shipped by Coors were returned to distributors for recycling into new can-making sheet.

In 1977, about 71 percent of the company's output was packaged in aluminum cans while about 19 percent was packaged in bottles. The remaining ten percent was packaged in kegs.

Coors, the nation's fifth largest brewer, markets beer in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, Oklahoma, Texas, Utah, Wyoming and Spokane, Wash.

MS READ-a-thon Begins

Children in Lincoln County will be busy "reading for the need of others" in the National Multiple Sclerosis Society's MS READ-a-thon, this spring.

The New Mexico Chapter of the NMSS has launched its nationally recognized reading program, the MS READ-a-thon, aimed at stimulating reading among elementary and junior high school students in the Lincoln County area.

Elementary and junior high school students in the Lincoln County area are expected to participate in the reading motivation program.

The nationally recognized MS READ-a-thon being conducted this

spring will include many more schools and participants than the previous MS READ-a-thon last year, it was announced by Mr. Terwilliger, Chapter Chairman, of the local chapter of the NMSS.

Guidelines for the program are simple. The MS READ-a-thon begins in the schools where the children learn about the program. Each child who registers receives and MS READ-a-thon kit. The child then reads books of his choice at or above his reading level and obtains pledges from his family, friends and neighbors. The child reads as many books as he cares to and gets as many pledges as he wishes. At the end of the program — usually a four to six week reading period — a drawing is held to award prizes to the children who complete the program and their participating schools.

The youngsters are urged to "read for the need of others" by their teachers and well-known personalities including Lindsey Wagner, star of television's "The Bionic Woman", National Chairman of the MS READ-a-thon; Howard Cosell, famed sports commentator who is also National Campaign Chairman of the NMSS; Meadowlark Lemon, the "Clown Prince of Basketball" and star of the world-famous Harlem Globetrotters, who's National MS READ-a-thon Sports Chairman; football star O.J. Simpson, and many others.

Luncheon To Be Held

A Christian Fellowship luncheon will be held at the Methodist Church at 12:00 noon, Tuesday, March 21st. Guest speaker will be Rev. Scholes. Everyone is welcome and it will be a pot luck.

The Smokey Bear Museum has had 668 visitors this month. A very nice lady, Sunday, that had worked for the Forest Service for 25 years. There were people from Switzerland and Germany

this last weekend. A very nice boy of 12 years brought us a picture he had colored about Smokey and prevention of Forest Fires from Eunice, N.M. It is very good and we do thank him. It is posted in the Museum.

Gertrude Huey has filed a suit against the City of Capitan. Claims there were illegal voters. March 7 in the City election. If that was true none of us were aware of that. We were innocent. None of us had such an idea. It is human to make an error but we did nothing at all intentionally.

We had four very good and lovely ladies working at that election. It always is such a enjoyable day. To meet all of our neighbors and friends makes that work so worth while.

Mary Jane Walker has accepted a job as RN in the Ruidoso Hospital and is making her home in Capitan. Her

children Shannon and JC are in school here and enjoying it.

Shannon Walker had a slumber party Friday night with nine girls in attendance. They all had a good time.

Virgil Loomis went to VA Hospital in Albuquerque for a check up and Mary went with him.

Mrs. Lee Anderson entered the Ruidoso Hospital Tuesday, March 7. Our Ambulance took her. She had flu and pneumonia and was very ill. I do wish her the very and speedy recovery.

Bubbles, Paulina McGarry's white poodle engendered three black puppies. The father was Abby Helm's black toy collie. Thanks to Mrs. Rensch's column they were adopted.

Bubbles searched the Hitchin' Post for her puppies. She is happy now. She has her own living room and bedroom in the service porch to be decorated later. Karje Cox said "she even has her own waste basket."

Utah Maples had a well drilled on his property north of Capitan. 50 feet through he struck water at 30 feet. It produces 7 gallons per minute.

Rick and Marcia Allen and son Chad of Lubbock, Texas were guests in Capitan last weekend and he preached at the Church of Christ Sunday.

I do wish Bud and Dorothy Payne many more very happy anniversaries together. That happy anniversary was March 14.

Nancy Lohmann of Morgan, Town, West Virginia visited her parents Mr. and Mrs. Few Thursday thru Tuesday. Her sister Twyla McKee (Rose) of Roswell joined her. The mother and daughters spent a day in Albuquerque.

Pinkie and Connie Manire of Alto were in Capitan last week and they lost their five months old Norwegian Elk Hound puppy. They are so so very sad and unhappy. I do hope they can find him.

Range Caterpillars will be discussed at the meeting on March 22nd starting at 1:30 p.m. in the Pioneer Savings and Loan in Roswell. Dr. Ellis Huddleston, Professor of Botany and Entomology will discuss the results of his research using dimilin. Don Lutch, New Mexico State Department of Agriculture will discuss the control programs with the landowners. John Durkin, Extension Entomologist will discuss the insecticides available to control Range Caterpillars.

resistant plants can save you the expense and discouragement of watching garden plants die just as they are about to produce the bounty you expected.

Many varieties of tomatoes, beans and sweet corn are bred for resistance to specific plant diseases. Look on the seed packet itself for this information. Seed companies readily advertise this point as it is a selling point.

If you see the initials VFN behind the name of a tomato, it means that it is resistant to verticillium wilt, and nematodes.

You can also reduce some of your disease problems by rotating your vegetable plants in the garden. Plant your tomatoes in a different place each year.

The cattle business has a brighter outlook than it has had in several years. Summer & fall contracts are being written on the best price in several years. Calves expected to weigh under 400 pounds were contracting for 60 to 65 cents per pound; 400-500 pound calves at 55 to 60 cents; and 700 pound steers at 50 to 55 cents per pound. Heifer calves are about 10 cents under steer calves and heifer yearlings 4 to 5 cents under steer yearlings.

Several cattlemen in this area report they did well on the beef cattle they put in the feedlot. They got from 41 to 44 cents on heifers and 43 to 46 cents per pound on steers.

Considering that the helpers would have sold for 31 cents and steers for 38 cents and the gain was about 38 or 39 cents, these producers did very well. I think the cattlegrower needs to ask himself "at what price do I feed my own animals?" If he cannot get this price, then he should consider feeding his own cattle.

Disease control in the garden starts when you buy the seed. Choose seeds that are disease resistant. Selecting

Smoking Leading Cause of Stats

It's becoming almost an American obsession: Millions want to, millions don't, millions have tried to, and millions actually have done it - quit smoking.

When Europe was first getting the habit in the late 1500's, medical men of the day thought tobacco was some sort of wonder herb, according to the National Geographic Society.

It was supposed to be a cure-all for such diverse ailments as toothache, falling fingernails, worms, halitosis, and even lockjaw and cancer.

Today tobacco smoking is blamed for lung cancer, facial wrinkles, heart disease, and for the ugly disposition of many trying to quit. If one thing is true, Fletcher Knebel said it a few years ago:

"It is now proved beyond doubt that smoking is one of the leading causes of statistics."

And on kicking the habit, Mark Twain may have been the first to say: "To quit smoking is the easiest thing I ever did; I ought to know because I've done it a thousand times."

Easy or otherwise, 33 million

Americans have kicked it. Of those still dragging on their favorite weed, 61 percent or 32,940,000, have made at least one serious try at giving up, according to the Department of Health, Education, and Welfare.

Of the rest of America's cigarette smokers, about half say they would like to quit when somebody comes up with an easy way to do it. The other half say they wouldn't think of stopping.

The cigarette was improvised in 1832 by a French artilleryman without a pipe. He emptied a small tube of gunpowder, filled it with pipe tobacco, struck a match to it, inhaled tentatively, and a pleasure and problem for generations was born.

Tobacco was native only to the New World, and the first hooked on it were American Indians, who Columbus found not only puffed it in pipes but rolled it into a sort of cigar.

One of the world's greatest unlearned lessons may have been in the 1528 eyewitness report of one Cabeza de Vaca, who told of meeting Indians who "intoxicate themselves with smoke and

they give whatever they possess for it."

What smokers once gave for it was their lives in Russia, Persia, and India where using tobacco was a fatal offense. In Turkey, Murad IV daily freed a dozen or so smokers from their habits and their heads.

Of the dozens of proved ways to conquer the addiction, the ultimate method is Edith Zittler's: "The only way to stop smoking is to just stop - no ifs, ands, or butts."

At the same time, G. Norman Collie blew a real smoke ring when he observed: There is a great deal to be said for a man who quits smoking, and he generally says it without letup.

The Channel Swimmer
by Mt. Everest

Due to circumstances beyond our control (an due to a whole bunch of bugs in the air), the usually hail and hardy Mt. Everest is 10-7 for this week. It's very rare for her to be sick. I'm usually the one who's in bed, and the whole thing is driving me crazy. Mt. Everest and I usually work together everyday and so her being in Lincoln and me being in Carrizozo is murder. However, life, just like day time skip, rolls on.

Thanks, Miner Boy for the tip on your son-in-law coming to Lincoln County. I know just how your son-in-

law feels about living in flat land. I was born and raised in Dallas, and Ill never go back again.

Thanks also to Miner Boy for pushing me on at night. That fellow has the gigest rubberband in that truck I've ever seen.

I'm not going to write any more because if I tried to copy Mt. Everest's style, everybody would know it. So we'll just wait until next week when she gets back.

The Flatlander will be 10-10 on the side.

How about a dash of real body beauty!!!!

Instead of spending even one dollar going to a "Spa," try making one in your own home, it isn't hard and you can transform yourself into a new person in about 6 weeks. There are Spa's all over the world, of all kinds. Women like exercising far less than men, therefore many of them try a Spa. Now, self-disciplined exercise at home or at the Y can do for you what the Spa's do, but without the luxury and variety. Not every one can afford the membership fees of many spas. So!! Lets create one in our own home.

First of all find a spot somewhere in your house to keep all of your equipment. You could put it in a closet, a basement, a playroom or the kitchen-anywhere that you can reach it easily so that it won't be in the way.

1.) Find a good jump rope. Jump 10 minutes starting with 5 times then add 5 more. After a slight rest, each day add one more jump-go very slow at first.

2.) Next you need a mat that you can move around. (You can make one out of a six-foot length of one inch foam cushioning. Cover it with two large towels.)

3.) Now you need a slant board-an old ironing board - or one of any kind. It is very important to lay down on this with your feet up for 5 or 10 minutes. The blood goes to the head and helps the circulation.

4.) Try to find some two lb. weights, these attached to the wrists and ankles while you are lifting your arms and legs help to tone up the flabby spots.

5.) If you can't find a small round twist board, you could try doing the old fashion dance called the "Twist".

6.) The last and most exciting thing is to take that luxury bath or shower. You can bathe in, apple cider vinegar, epsom salts, or skim powder-it helps your sore muscles.

This special new Spa in your home will cost you nothing but little time. Let's try it. We all need it so badly. A good idea might be to set aside three

days a week to go to your private Spa. Your Horoscope continued - Aquarius (Jan. 20 to Feb. 18)

"The first thing a woman after an Aquarius must learn is that she is going to have to share him with his friends. Aquarius men are more interested in friendship than in romance. So a woman is better off being a buddy to begin with than a seductress.

"A man who wants to win an Aquarius woman has to be very patient with her. Like the Aquarius male, she's more interested in group activities than one-to-one relationships.

- Take time to read;
- It is the fountain of wisdom;

A pinch of fun:
A fun thing for the children to do is to paint an aspirin tin or put a picture on it, decoupage. This makes a lovely little pill box to carry in your purse.

A dash of wisdom:
When someone is convinced that things can't be done, he will cling to that conviction in the face of the most obvious contradiction. At the time that Robert Fulton gave the first public demonstration of his steamboat, one of those "can't be done" fellows stood in the crowd, and yelled "He can't stop it."

That Marion Spencer is sporting a new 4-wheel drive and she speeds through Nogal pretty fast these days?
How Jackie Spencer is since her accident?

Around the bowl-things are moving pretty fast now.

The Marlow Sharpe family moved there trailer up by the Burkstaller Tennis Courts (formerly owned by the Sitten's) The whole family, Paula too, pitched in and worked to get everything all set up. Mrs. M. Sharpe hasn't been out of the hospital very long but she is looking well. We are very glad to have new neighbors. When May Sharpe comes down this summer, I'm sure she will find home beautiful, who knows May might even decide to play a little tennis.

Hourigan Reflects On City Elections

A letter to the Editor:

Looking at the Zozo 78 city election is both enlightening and interesting. For an uncontested election there was sure a lot of votes cast. My congratulations to the victors, it proved that, given a cause, the people will come out and vote. I have been asked a couple of questions I find very interesting.

1.) Was the goon squad in front of city hall legal? Yes very definitely, providing their efforts are 50 feet or more from the pools. The small pieces of paper, (I was told they were quotations from a fortune cookie) are O.K. too. The shouting and hollering across the street was fine, but I imagine a little hard on the vocal cords after 10 hours.

2.) Why was the mayor-elect allowed to sit in the Polling place and his truck be parked outside - this is a question for the election judges.

3.) How did Sandra Whitaker's name appear in 1/4 inch bold letters on the steel face of the voting machine - another question for the election judges.

A question often asked - Is the Whitaker residence within the city limits? There is some conjecture here, but it would appear that, Yes indeed it is but not by much.

An oddity also arose about write in candidates - It would seem that a candidate, filing for office must file under the name as it appears on his or hers voter registration. In cities with a population over 100,000, this holds true for the write in candidates also, but not in towns with a lesser population. A check showed that as long as the intent was there the name would be accepted. It sounds a little strange and somewhat unfair. A little food for thought, had the name Vega been written in and won, over thirty persons could have claimed the office under the small town rule. Another headache for the election judges.

"Nothing will change the election and justly so, when you are beat by 2 to 1, it gives you a pretty good clue of what the citizens want. Now we should all get behind our new government and show them the same support as was demonstrated on election day.

I have a few thoughts for the council

1.) As top priority, a raise in salary of the police department. Just look back at the number of men that have worn a police uniform in the past three years and you will see my point.

2.) Work very closely with the government trapper to control and eliminate the skunk population, a very serious health problem.

3.) A concerted effort to clean up the town. The old abandoned buildings that abound here are not only an eye sore, but a very serious fire hazard, a hang out for derelicts, a threat to our children and a total detriment to property values.

4.) The curve on Hiway 54 south of town is still no better, as most of the

traffic buttons are gone.

5.) At the next printing, provide space on the water bills to allow Zozo Citizens to express their views, complaints, etc.

6.) Paint the refuse truck.

7.) Provide a "whats happening" letter dealing with city affairs to the Newspaper, the chamber of commerce, ect.

8.) Declare a "Fireman's Day" to show appreciation to our friends and neighbors who lose sleep and many times risk their life on our behalf.

9.) Get a part-time dog catcher, 4 hours a day, 2 days a week.

10.) We could mention the "Pot Holes," what else can you say?

In closing, I would remind you that five people do a council make, but they can do not more than the budget will permit.

I would like to compliment Mr. Crenshaw and Mr. Silva as they leave for their great effort in working with Mr. Harmon, Mr. Luna, and Mr.

Hernandez and I am sure the newly elected people will provide rewarding and continued progressive government for the town.

Thank you all for your support, encouragement and your belief that I

would have made a good Trustee, but especially to those who voted against me. You proved the American system works.

This Article Is To Re-educate the Public And To Eliminate False Rumors Concerning The American Red Cross Department of settled issues

Editor's note: The exchange below, reprinted without editorial change from Ann Landers' column of November 8, 1976, followed an earlier column in which Ann Landers praised the American Red Cross.

Dear Ann:

I was irritated by your kind words for the American Red Cross. As a veteran of World War II who served overseas for three years, I'd like you to know that the organization you praised was no favorite of the men and women in uniform.

We had to pay the Red Cross for coffee, doughnuts, meals and overnight lodging, while the Salvation Army supplied coffee, doughnuts and meals free.

So please, Ann, don't be so generous with your bouquets. Toss them only to the worthy, and preserve your credibility.—G.I. Joe of Long Ago.

Dear Joe:

A blizzard of letters similar to yours hit my desk after that column appeared. I wrote to the top officials of the American Red Cross for an explanation and received an eye-popping response. It was documented by a copy of a letter dated March 20, 1942, from Secretary of War Henry L. Stimson, to Norman H. Davis, Chairman of the American Red Cross. Here's the inside story—and pretty it isn't.

All English and Australian men in uniform had to pay for off-base food and lodging because voluntary giving (which is characteristic of the United States) is not the pattern in other countries.

The Red Cross, which has never accepted a dime from the U.S. government (and to this day relies totally on voluntary contributions) was asked to establish club facilities for U.S. servicemen overseas where troops from all allied forces would be welcome. The Salvation Army did not have this responsibility.

The British High Command then made an official request that U.S. servicemen be required to pay for whatever they had received, just as their men had to pay. The Red Cross was adamantly opposed to this concept and protested vehemently. It lost the fight, however, when a "request" came from Secretary Stimson. His letter was tantamount to a command.

Allegations have persisted since World War II that the Red Cross made a profit overseas. Nothing could be farther from the truth. The clubs operated at a loss and represented a heavy financial burden to the Red Cross. Moreover, the public image of the Red Cross was badly tarnished when it was forced by Stimson to go along with the British High Command.

How unfair that this splendid organization has had to take the rap for a decision made by the United States Army. Today, 35 years later, the truth is known by only a few.

Upon reading the Dec. 7 Reader's Digest I came across an adage that reminded me that I have to do something about the weight gain accumulated during the winter months and the recent pregnancy. "There's a destiny that shapes our ends."

Leo Rosten's article in Reader's Digest 'Wise Sayings Revisited' re-evaluated the adage to "But a more likely destiny" is the one that ends our shapes."

On my calendar is the reminder: 'Watch Your Weight meeting, 6:30 every Monday, Medallion Room.' The group welcomes new members. On the last Monday of Feb. a salad supper was enjoyed and a pot of \$8.57 was won by a member who lost the most weight.

WYW reminds people that fad diets are a no-no. People will not stay with an unusual or unpalatable diet for any extended period of time. The answer is three sensible balanced meals. As for pills, one creative WYW member made a wall plaque of a fish with all the colorful diet pills and capsules that she mistakenly purchased over the years.

Beatrice Luna was the honored guest for the March 7 baby shower at the Medallion Room. Friends, relatives and Junior Extension members enjoyed a fun evening of games and refreshments.

At 7:15 p.m. the Santa Rita Men's Club, Guadalupe Society will meet, at the Parish Hall this evening, Thursday. All parish men are invited to join. If you missed last week's meeting, this is your chance. Many things of interest to men will be happening in the near future in the Guadalupe Society.

Students Support Canal Treaty

Mr. Jimmy Carter President of the United States The White House Washington, D.C.

Dear Mr. President:

With interest of the Panama Canal Treaty at such a high level throughout the United States, members of our speech class decided recently to debate the issue. The proposition was: resolved that the Panama Canal Treaty should be ratified by the United States.

The group was divided into two teams. Each team debated the affirmative side and the negative side. The decision, we are happy to report, was in favor of the affirmative both times.

We are a small school of 135 students. But even so, we were able to find substantial evidence in our library concerning the issues of the treaty.

We think that if more people

debated the issue, they would come to the realization that the treaty should be ratified.

We wish you the best of luck on the ratification issue.

Best wishes and may God Bless You.

Could you pass this Red Cross swimming test?

SWIM:

1. Breaststroke—100 Yds.
2. Sidestroke—100 Yds.
3. Crawl stroke—100 Yds.
4. Back crawl—50 Yds.
5. Out-back (legs only)—50 Yds.
6. Turns (on front, back, side).
7. Surface dive—underwater swim—20 Ft.
8. Disrobe—float with clothes—5 mins.
9. Long shallow dive.
10. Running front dive.
11. 10-minute swim.

Anybody who's taken a Red Cross swim course knows how tough it can be. There's a good reason.

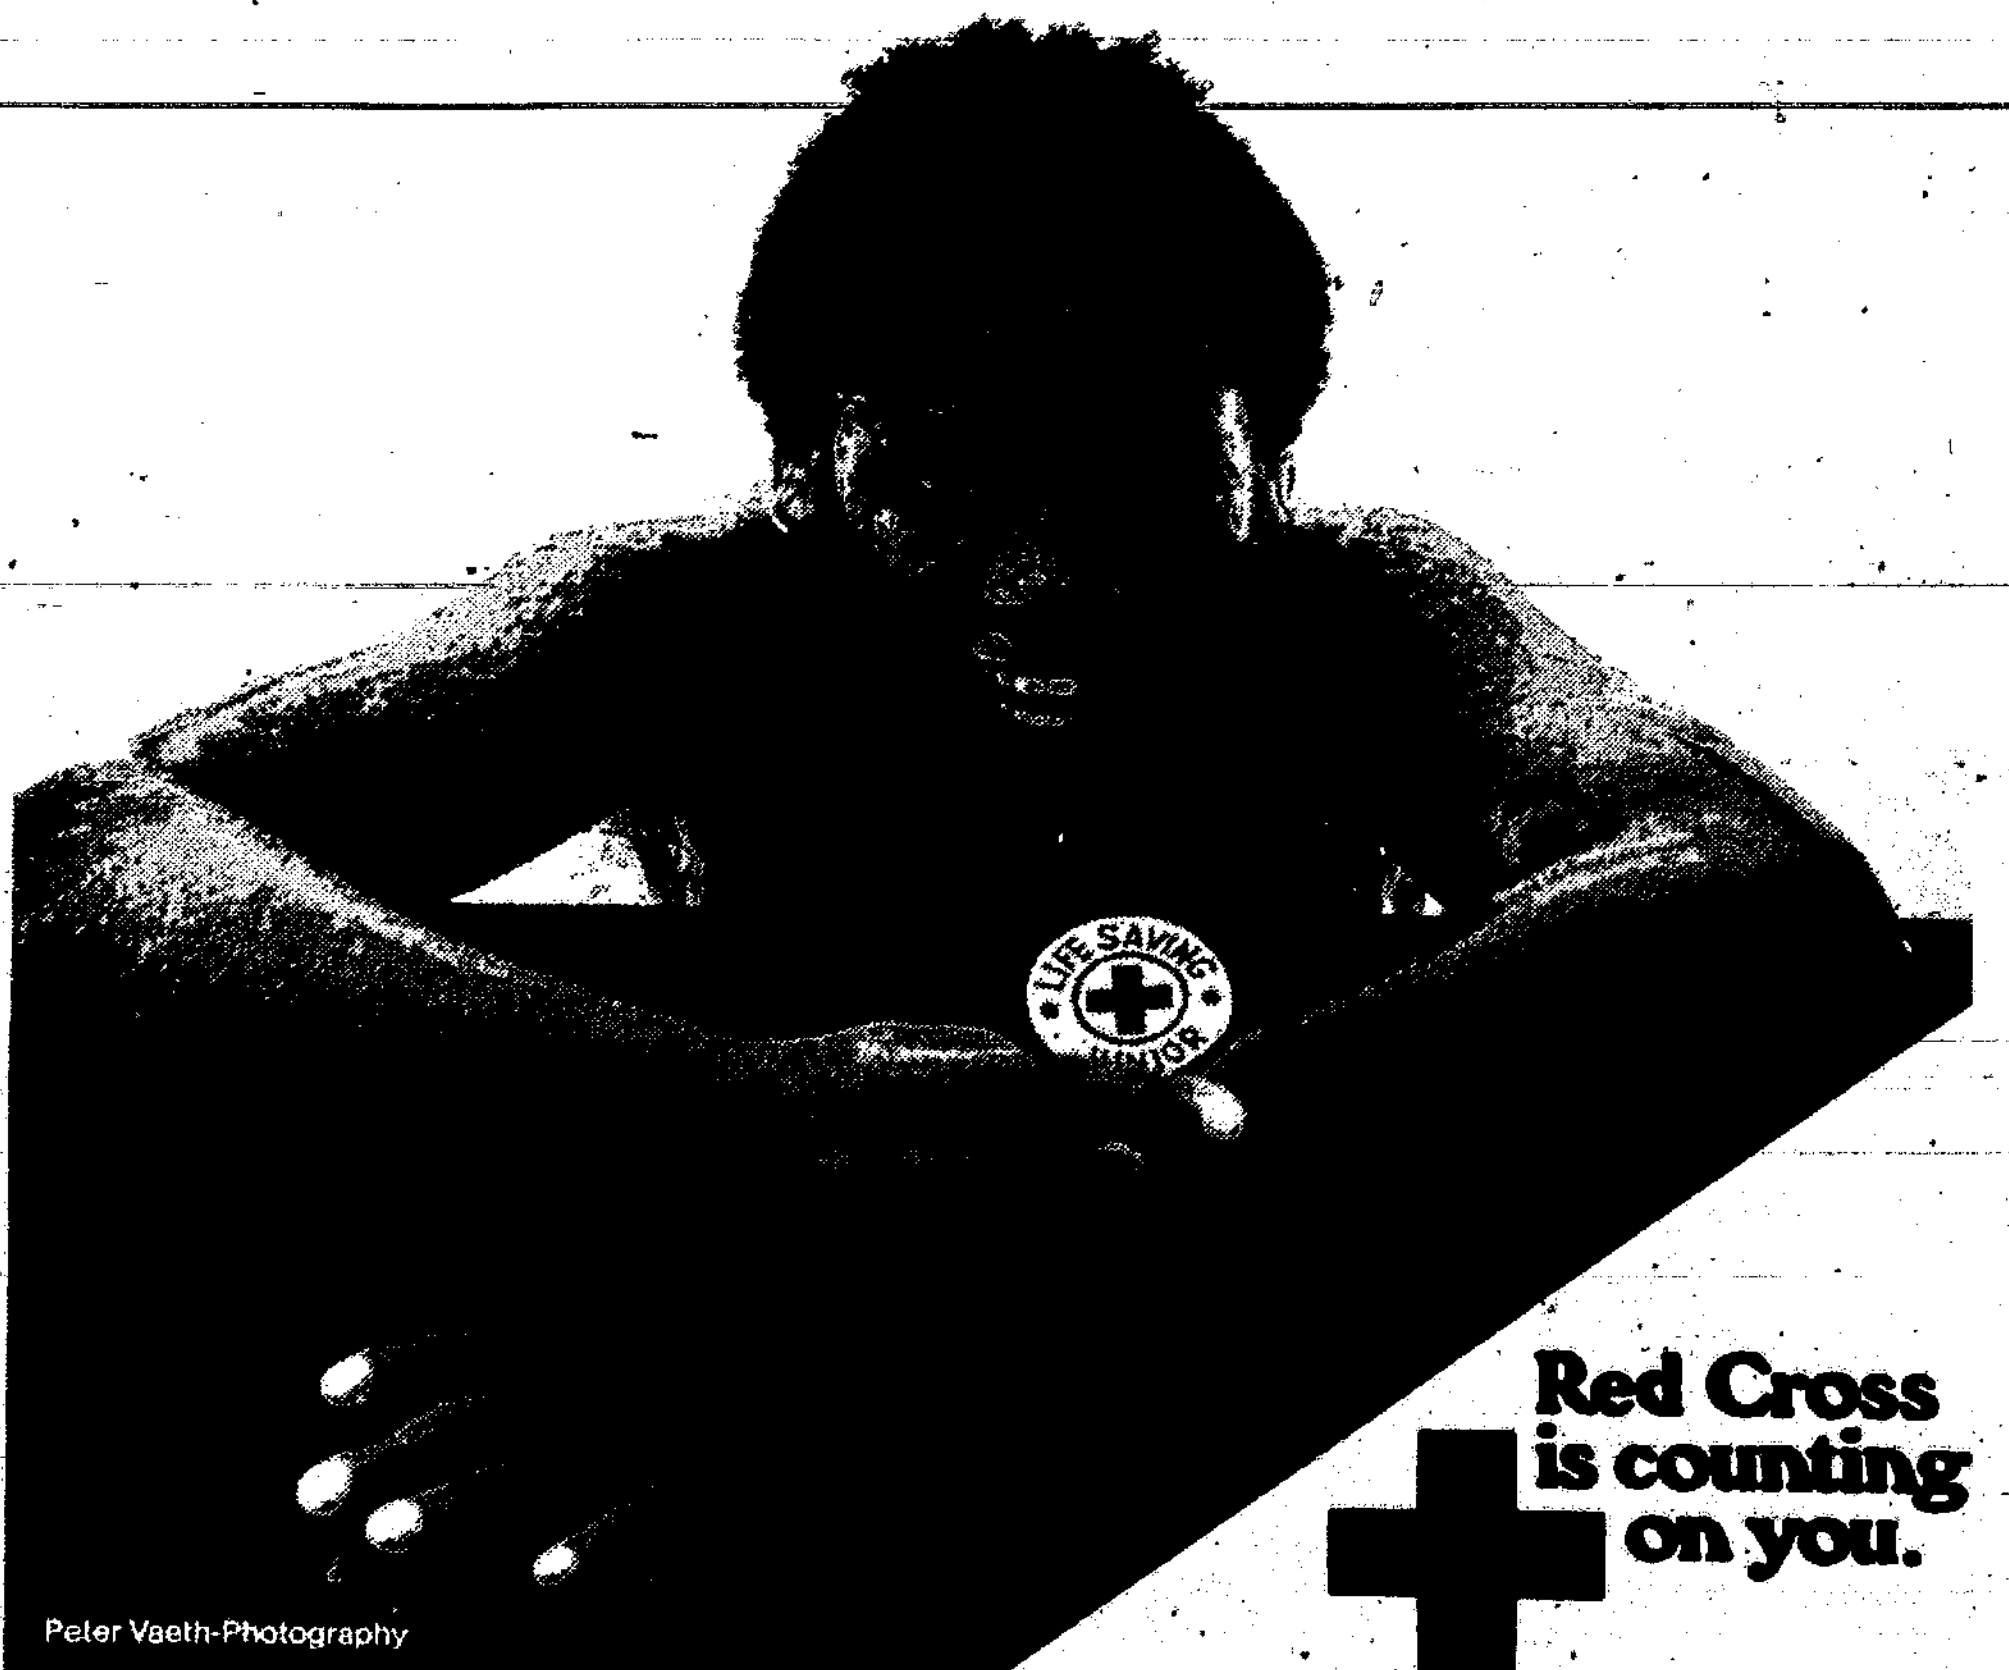

We believe drowning is a serious business.

Last year alone, we taught 2,589,203 Americans not to drown—in the seven different swim courses we offer all across the country. (Incidentally, most of the teaching—as with almost everything American Red Cross does—is done by dedicated volunteers.)

A good many of the youngsters not only are learning to keep themselves safe, Thousands upon thousands of them are learning to become lifesavers.

And the life they save—may be your own.

"We're going back to old fashioned storekeeping"

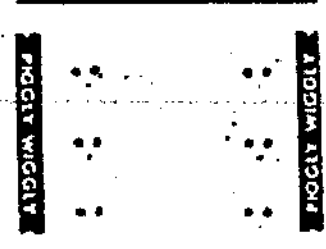

I'm Wally Williams the new president of Piggly Wiggly. Today at Piggly Wiggly there's a new spirit in store for you. We are returning to the careful service and efficient storekeeping you remember from the past. We're a fresh team and we are making changes. Changes we think will win us new customers and keep our old ones coming back. We are offering quality where it counts...in meat and produce.

We are, in fact, staking our reputation on giving you the finest, and so I'm announcing two new programs that insure freshness and quality.

1. I pledge that the side of meat you can't see is as good or better than the side you can see.

2. I pledge that our meats and poultry will be fresh when you buy them. Each cut will be dated or coded to let you know for sure that your meat and poultry are fresh and tasty.

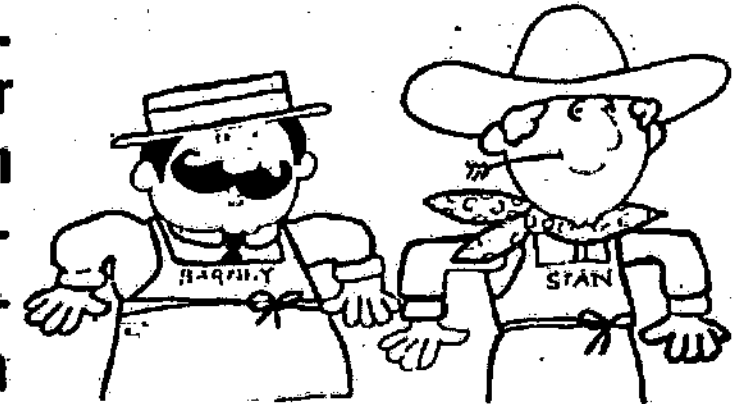

And, if there's any question about quality, Piggly Wiggly assures you a double your money back guarantee. You won't find this in any other grocery store.

In Piggly Wiggly's Produce Departments there are baskets and baskets of the country's finest fruits and vegetables. All of it is carefully selected and maintained by our produce men. The people in our produce department know their business. They are anxious to help, to answer your questions.

And we are going to have a new feature in our weekly ads. Each ad will carry a recipe, one that's easy to fix and economical. The recipes will feature either fruits or vegetables found in our Produce Departments or meat dishes that use our quality meats. We think they will be interesting and useful to you.

Finally, I'd like you to meet two new Piggly Wiggly helpin' hands, Barney the Butcher and Stan the Produce Man.

They symbolize our new emphasis on guaranteed satisfaction in meat and produce. Barney and Stan are going to win a lot of new Piggly Wiggly customers. Look for them and their helpers in our stores.

At Piggly Wiggly I am so sure of our excellence in meat and produce that I guarantee it, personally. If you are not satisfied with both our meat and produce I'll double your money back.

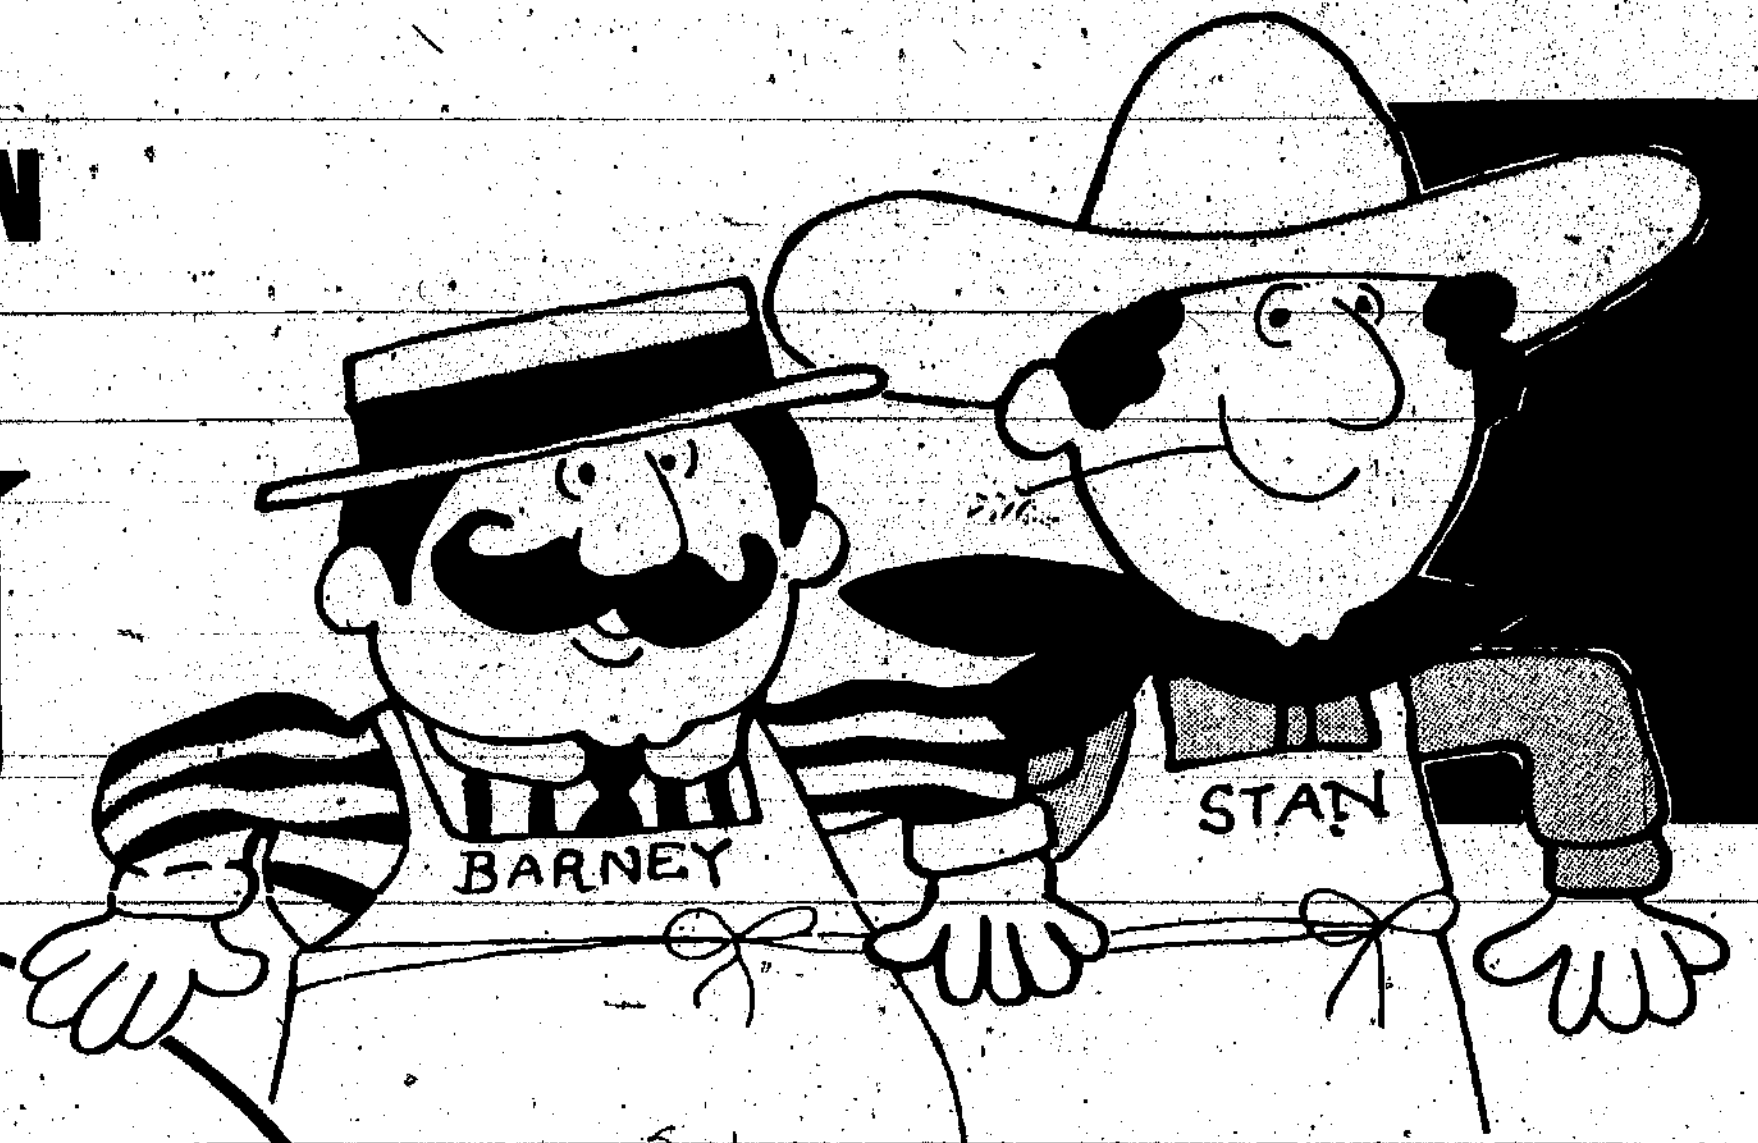

Piggly Wiggly wins your affection with meats and produce to perfection.

THINKIN' IN LINCOLN

with Mary Ellen Payne, Extension Home Economist

While we still have 1-1/2 weeks of the Lenten Season left, you may be looking for a hearty cheese dish. This dish contains two types of cheese and green beans as a bonus for the almost complete meal type dish. Your microwave oven can also be used for this dish by cutting down the baking to approximately 10 minutes.

Stir in milk. Heat to boiling, stirring constantly. Boil and stir 1 minute. Remove from heat; stir in cheese until melted. If necessary, return to low heat to finish melting cheese. (Do not boil.) Yield: 4 1/2 cups sauce. Combine uncooked green beans with macaroni. Place half of macaroni mixture in a 1 1/2 x 7 1/2 x 1 1/2-inch baking dish; sprinkle with 1/4 teaspoon salt. Pour over one-half cheese sauce; arrange half of the tomato slices on top of sauce. Repeat macaroni, salt and cheese sauce layers. Bake in preheated 375 oven for 30 minutes. Arrange remaining tomato slices on top; sprinkle tomatoes with bread crumbs and Parmesan cheese. Bake an additional 5 minutes.

Macaroni And Cheese Italian - 6-8 servings

- 1 package (7 ounce elbow macaroni)
 - 3 tablespoons butter
 - 3 tablespoons all-purpose flour
 - 1 teaspoon salt
 - 1/4 teaspoon oregano, crumbled
 - Dash of pepper
 - 3 cups milk
 - 3 cups (12 ounces) shredded Cheddar cheese
 - 1 package (10 ounce) frozen Italian green beans
 - 1/2 teaspoon salt
 - 1/2 or 16 thin tomato slices (about 2 medium)
 - 1 tablespoon dry bread crumbs, buttered
 - 1 tablespoon grated Parmesan cheese
- Cook macaroni according to package directions; drain. Meanwhile, melt butter in a 2-quart saucepan. Blend in flour, 1 teaspoon salt, oregano and pepper. Cook over low heat until mixture is smooth. Remove from heat.

Three garden Home Grounds Clinics will be held in Lincoln County on March 27 and 28, 1978. They will be in Ruidoso, Capitan and Carrizozo. The Ruidoso clinic will be at 2:00 p.m. on March 27th at the Ruidoso Public Library. On March 28th there will be a clinic at 10:00 a.m. at the Fair Building in Capitan and at 2:00 p.m. in the Otero County Electric Cooperative Building in Carrizozo.

Richard Gomez, Extension Horticulturist will discuss gardening and what vegetables will do best at this altitude. Emroy Shannon, Extension Plant Pathologist will discuss disease of the plants in the home grounds and gardens. John Durkin, Extension Entomologist will discuss the insects of the home grounds and methods of control.

Put March 27th and 28th on your calendar so that you can find the answer to some of your problems on insect and disease control as well as what variety of vegetables to plant. Ask your neighbor to attend with you.

If you had powdery mildew or mites on your fruit trees, the delayed dormant spray is the most important spray to apply. It is put on at bud swell time before the leaves come out on fruit trees. You can use oil mixed with either Spectracide (Diazinon) or lime-sulfur (calcium polysulfide).

Using an oil-insecticide spray or ornamental and fruit trees will control many troublesome pests, such as scales, spider mites and some aphids. Oil and lime-sulfur should be used if blister mites, bud mites or gall mites have been a problem. This combination will also protect new growth from powdery mildew. You can apply a delayed dormant spray from the time leaf buds swell until some green tips start showing. On broad-leaved evergreens, such as eucalyptus, the spray should be applied just as new growth begins.

Check weather forecasts before applying oil. Don't spray if the temperature is predicted to drop below freezing within 48 hours after the application. Choose a warm, calm day to do your spraying.

Oil kills by smothering the eggs or immature pests. Therefore, lay a continuous film over the bark and in cracks and crevices. Use a fine mist to achieve the best coverage. To improve the effectiveness of an oil spray against scale insects, add Spectracide, ethion or malathion. This is also a must for control of eucalyptus scale and European elm scale.

Before buying a dormant spray material, read the label completely. Oil-lime-sulfur combinations should not be applied to evergreens and lime-sulfur should not be applied to apricots. Blue spruce are discolored by oil sprays for two or more weeks after application.

For more information, get the bulletin "Control Pests of Home Grown Fruit" from the Lincoln County Extension Office in the Courthouse Annex in Carrizozo.

Gordon Lunsford, the social security field representative for this area will be at the County Commissioner's Room at the Courthouse in Carrizozo on Tuesday, March 21st, between the hours of 10-12.

Lunsford will answer questions, and be available for comments. People who earn over \$3,000 and receive one or more monthly social security retirement, survivor, or dependent checks in 1977 must submit an annual report of their earnings to social security by April 17!

The report shows how much was earned in wages and self employment income last year, as well as how much beneficiaries expect to earn this year. Information on the report will be used to determine if people were paid the correct amount of benefits for 1977. Also, it will be used to adjust their monthly 1978 social security payments according to their estimated earnings.

Full social security benefits could be paid to eligible people in 1977 if they earned \$3,000 or less for the year. But, no matter how much they earned for the year, they could be paid their full social security benefits for any month they earned \$250 or less and didn't do substantial work in their own business.

People who file an annual report after April 17 may suffer a penalty. Those who were 72 or over in all months of 1977 do not need to file a report at all.

 How do you keep track of your spouse if he-or she-happens to be an independent driver who's movin' and truckin' across the country ten months a year? Join 'em!
 Every day is moving day for increasing numbers of freedom-loving couples who've chucked routine nine-to-five jobs for second careers as movers, averaging \$53,000 gross annual income, with most-on-the-road living expenses deductible, in addition to uniforms, vehicle maintenance and interest on vehicle financing.
 Typical of these couples are Jeff and Joanne Sexton of Sun City, Ariz., where they're buying a retirement home as they work and travel. Jeff, 45, was a successful real estate broker and restaurateur before going on the road after marrying Joanne, 36, his restaurant's cashier. One of the first husband-wife moving teams in the country, the Sextons have been driving for Bekins Van Lines of Hillside, Ill. since 1971.
 Logging 100,000 to 120,000 miles a year, they enjoy seeing the U.S. together and taking turns driving while sharing their own business. Their 13-year moving rig has the comforts of a motor home: color TV, micro-wave oven and independent heating and cooling—“everything except running water,” says Joanne, who loves cooking.
 A relief driver, not just a companion, Joanne says women who are moving “feel more at ease knowing a woman's on the truck with their family's household goods.”
 Bekins finds a woman's touch so useful in customer relations that it's recruiting husband-wife teams to take its training course, offering such incentives as free storage of household goods while on the road.
 “It's hard work, but healthy work,” says Jeff, an avid golfer who has sampled many of the country's better golf courses between trips. “Your body doesn't just out from idleness.”
 “You also must get along well together, enjoy people and not be set in your ways,” adds Joanne.
 The couple takes advantage of their travels to visit relatives across the country, sightsee and enjoy deep sea fishing when they're in Florida and theatre-going in New York.
 Not only is the rough truck driver image changed by moving teams like the Sextons, the loneliness of the long-distance driver is cured and home is truly where the heart is: in the cab, on the road, beside you.

N.M. Cattle Assn. Farmers Agree
Albert, N.M. - In a discussion at his home, Albert J. Mitchell, president of the New Mexico Cattle Growers' Association said the Association agrees with the other N.M. farm groups which met in Albuquerque, Feb. 28, on the following points:
America's agricultural producers need a reasonable profit; Promotion of foreign sales and markets is needed; Agriculture needs to fight inflation, which is at the heart of its profit problem; New Mexico farmers and ranchers oppose the 1902 reclamation law restricting to 160 acres the amount of land farmers can irrigate with water from Bureau of Reclamation projects; and, More information should be given to the consumer about agriculture's problems.
Mitchell further stated "competing imports should be controlled to levels which are not detrimental to the nations industry. We are in favor of a cyclical approach to this problem - when our production is up, fewer imports are allowed, and when our production is down, more imports are allowed. This would benefit the consumer as well as the producer. It would tend to alleviate the large price fluctuations we now have during the normal cattle cycle."
"The New Mexico Cattle Growers' Association does not support any form of a guaranteed profit for agriculture any more than we support a guaranteed profit for any other business. We also oppose any efforts to stop the orderly marketing of our perishable products."

When was the last time your chimney was clean?
The soot and creosote that accumulates in your chimney hangs there like a time bomb waiting for that chance spark to ignite it.
The chimney fire spews burning balls of fire out the chimney onto your roof and yard.
A small crack in your chimney due to settling or thermal shock is all a chimney fire needs to enter your home.

Take stock in America.

All American Quarter Horse Derby World's 2nd Richest Race

In 1976, the All-American Quarter Horse Derby at Ruidoso Downs swelled up to a gross purse of \$760,000 and became secure in its notch as the world's second richest race.

In 1978, the purse for the All-American Derby will be a lot richer. That's the word from Nominations Secretary Dorothy Dillard, who's been busy this week sifting through nominations for many big-money futurities and derbies on the Ruidoso stakes schedule.

"If the current trend holds up,

we're looking at a 1978 purse of some \$850,000 for the All-American Derby," Dillard said. "That would put the winner's share at around \$283,000."

Last year at this time, there were 170 three-year-olds still eligible for the Derby, and the amount on deposit was \$675,700. Currently, the kitty stands at \$764,250 - an increase of \$88,550. A total of 196 head are still eligible for the '78 Derby.

Last year's Derby trials drew 82 head into nine heats. If the current pace continues, it's expected at least 92 head

will go in about 10 trials this time. The only remaining payment is a \$500 trial entry fee.

Included among the eligibles is Hot Idea, the filly who came from the wrong side of the railroad tracks to win last year's \$1,000,000 All-American Futurity in flashy style.

Town Policy - the great gelding who was abducted shortly after running second in the All-American as the favorite - is being kept eligible to the All-American Derby. The gelding has yet to be recovered.

Also in the running is Call Me Gotta, who finished third in the All-American, and more recently polished off the \$69,975 Fall Quarter Horse Futurity at Sunland Park. Lantys Easy Set, the West Coast Star who accounted for the \$185,000 El Primero Derby at Los Alamitos Race Track, is also nominated to the All-American Derby.

The All-American Derby, to be contested at 440 yards, constitutes the final leg of the coveted Triple Crown for three-year-olds. The middle jewel is the Rainbow Derby, and Dillard reports

that one is also booming.

Last year's running produced a gross pot of \$396,000. At this time last year, there were 145 eligible, and the amount on deposit was \$290,155.

Currently, there are 181 eligibles for the '78 running and the amount in the pot is \$369,875 - a gain of \$79,720. The list includes a supplemental moninee at a cost of \$9,000. This filly, Rambling Sally, owned by B. J. and Sally Smith of Tulsa, Okla.

If the present Rainbow projectin holds up, the gross-purse could reach

\$481,000 - which means the winner will haul in some \$160,000. Last year's Rainbow Derby winner, My Easy Credit, collected \$130,403.

So far as the two-year-old Triple Crown is concerned, the big news will be made by the fact this year the All-American Futurity balloons from \$1,030,000 to \$1,280,000. The winner of the Labor Day epic will collect \$437,500.

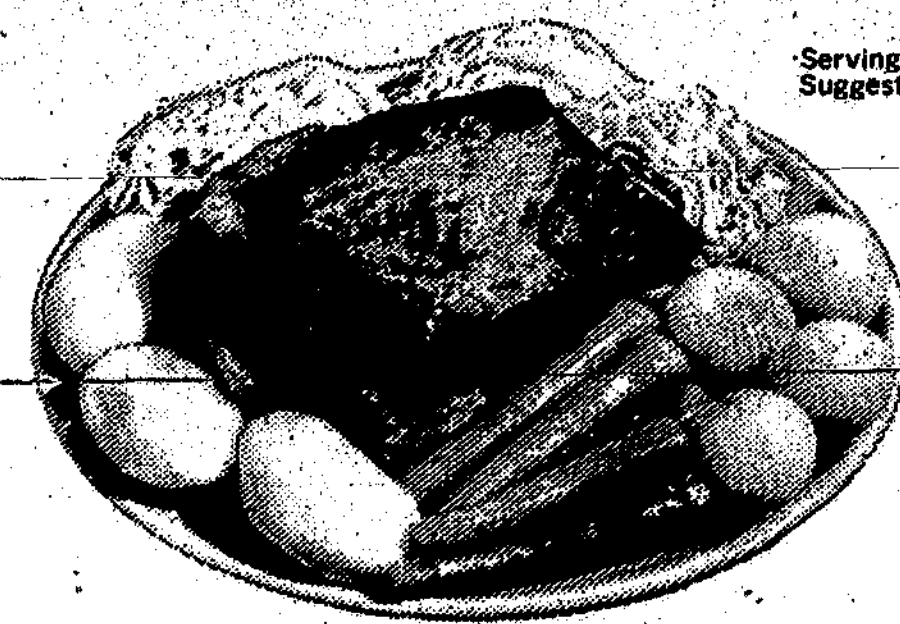

The other stops in the two-year-old Triple Crown journey are the Kansas Futurity and Rainbow Futurity. Both will again carry hefty cash.

State Doesn't Benefit from Taxes

Although New Mexico gets back more federal money than its citizens pay in federal taxes, the state still does not benefit as much from the arrangement as in generally believed, a University of New Mexico professor says.

F. Chris Garcia, a UNM political science professor and recent delegate to the White House Conference on Balanced National Growth and Economic Development, says, "New Mexico receives almost \$2 in federal funds for every \$1 that we put in, but

several economists have pointed out that most of the federal money is for defense and research. Not all of the money stays here. Much of it just passes through and goes to states with development manufacturing capabilities."

Federal money never really reaches the state's poor, Garcia argues, because it's not distributed in a way that would have an impact on New Mexico's native, rural citizens. "When you consider our energy exportation," he says, "New Mexico actually gets less

from the nation than we contribute."

If the state's unemployment rate, health problems & other factors are correlated, he adds, "you can see that we're just not getting what we should."

Garcia favors aid from Washington in the form of unrestricted block grants for economic development. "We know what our problems are here," he says. "There's no reason for our local governments to have to fill our form after form to prove the federal bureaucrats that we know what we're doing."

At the White House conference on growth and development Garcia says he became more aware that "we are one nation and we'll have to work to overcome the self-interest approach. We'll have to work to overcome rivalry between states and regions."

For instance, he says, many of the problems New Mexico has are very similar to those in West Virginia. They export energy, have little manufacturing & many pockets of poverty just like we do. We need to cooperate to solve problems and we need federal assistance."

New Mexico is widely misperceived throughout the nation, Garcia says. "At the conference those who know that

New Mexico is a state through that our economy is booming and that we have a high level of income," he says.

"People are flooding into the state now, but we will have to find a way to provide services for them," Garcia adds. "Maybe a bigger problem is that in some cases our employers hire the new people because they have skills which they acquired in other states. Some industries bring in their own people so that our own citizens are not benefiting from our new economic growth."

Garcia says the federal government can help mostly by returning some of its powers to the state and local governments.

"Democracy has gotten too far away from us," he says. "Let's bring it home. I think that's one of the major themes that emerged from the White House conference. State and local governments want the feds to trust them to solve their own problems."

Garcia believes that the real key to improved national economic growth and development, however, is for all Americans "to start thinking about in terms of what's good for the entire nation."

"If people can devise the policies and bureaucratic system that we have now, then we can assert our control over them and change them and shape them," he adds.

County Chairman A.J. Rolland with a corps of able assistants pushed Lincoln County "over the top" on the Liberty Loan. Our quota \$103,700 has been exceeded by \$10,000.

Completed garments turned in by local Red Cross ladies are: Mrs. Branum, 1 pair of socks; Mrs. Brazel, 2 shirts; Mrs. French, 1 pair socks; Mrs. Hoffman, 4 pair socks; Mrs. Dan Elliot, 1 sweater, 1 pair of wristlets.

Fort Stanton came in strong at the close and has been awarded an honor flag by Chairman A.G. Rolland. Others securing the honor flag were Capitan, Corona, White Oaks and Carrizozo. The local railroad boys did nobly. Trainmaster Fairbanks was especially active in the campaign.

George A. Titsworth went to El Paso last week, ostensibly on business bent, but prolonged absence gave Dame Rumor something to talk about; and early this week it was whispered around town that he would not return alone. Whether the accusation was true or false, or who the party of the second part was, if an over act had been committed, was not known for certain until the arrival of the Socorro Chieftain, and then our prominent merchant's double dealing was

heard to the world. The Chieftain contains the following notice of the affair:

"Wednesday evening at the home of Mr. and Mrs. J.H. Hilton in this city, Geo. A. Titsworth, of Capitan and Mrs. Gussie I. Lane of Sparrows Point, Maryland, were united in marriage, Rev. M. Mattieson officiating. The bride has been a guest of Mrs. Hilton for about three months, and was quite well and very favorably known in the city. The groom is a prosperous merchant of Capitan, a member of the firm of Welch & Titsworth. Mr. and Mrs. Titsworth left on Wednesday night's train to spend some time in southern California before returning to their home in Capitan.
