Meets First Lady

PLAN PRESENTED--

At their last meeting last Tuesday the Lincoln County Commission approved a feasibility study on using reserve county funds on three proposed construction projects.

The County Financial Plan, calls for an administrative building on the south parking lot of the current county courthouse in Carrizozo. The building would cover approximately 4,000 square feet and would house the administrative office, computer room, commissioners' meeting room and offices for the three county commissioners. County Manager Truman Billingsley, who presented the plan estimated the cost at \$360,000.

The final item on the list calls for installation of an emergency exit in the county jail. Absence of such an exit has been reported by the State Fir Marshal as a safety deficiency. The cost for this project was estimated at \$10,000

Bilingsley stated that no increase in county taxes would be necessary since the county has the money to do this

Several Loma Grande Estates residents were on hand at the meeting to present information on poor road conditions there. Mrs. Pat Hume, representing the group. displayed a map of the area and pointed out some major road problems

The estates are five miles south of Nogal and slightly west of Highway 37. Roads in the area are under the jurisdiction of the county roads department

> A rather startling statistic he gave is the 72 percent of the community today have no direct contact with the school, that is, have no children or grandchildren in school. The task of the school in keeping the rest of the community informed, involved, and caring about the educational process becomes monumental in the face of such data and demands creativity and vigilence on the part of the

educators. Mr. Lynn Medlin, State President of the School Board Assocation, gave a report on the activities sponsored by the Association in the past year. Of upcoming importance to board

The committee brainstormed ideas on how to advertize the classes, who to include in the classes (elderly, handicapped. etc.) and how and where to run the classes. As it stands in the proposal, classes will be held two evenings a week, with an afternoon "drop in" program for those who are unable to attend in the evening. The pre-testing that Stackpole previously conducted in this community will be used in placing those people in classes most needed by them. Class ideas include having some instruction periods for those who wish it as well as having individual work time so each can move at her-his own pace.

The G.E.D. grant application which must be submitted by October 31, will be reviewed and if accepted will be included in the request to the legislature in January. If monies are appropriated, the program will begin funding in early Fall, 1982.

Various people representing local clubs, boards, council, committees and the chamber of commerce joined the Carrizozo Woman's Club members at their club building last Thursday noon for a mini workshop on parliamentary procedure.

Presenting the program at the salad and dessert luncheon were four Roswell Woman's Club members, who also are members of the Olga Atwood Unit of **Paralimentarians in Roswell**, The unit is associated with the New Mexico State Federation of **Parlimentarians and the National** Association of Parlimentarians (NÁP).

On hand to conduct the workshop was Betty Beagles, president of the Roswell Woman's Club and her fellow club members, Madge Blacksom, Lillian Mc-Donald and Nan Burnworth. The enthuslastic women proceeded to tell an attentive audience that, "Parlimentary law is actually the rule of the game of democracy.
