

# State OES officers to pay an official visit to Carrizozo

MARGARET SPEIGHT

Members of Comet Chapter No. 29, Order of the Eastern Star, Carrizozo, will host the official visit of Worthy Grand Matron Margaret Speight and Worthy Grand Patron Elzy Thompson on Monday, March 14.

A banquet will be held in the Carrizozo Masonic Hall beginning at 6:30 p.m. with the meeting to follow at 7:30 o'clock. The dinner will cost \$3.50 per person.

Maggie Bohks, worthy matron, and Jack Forrester, worthy patron, will conduct the meeting. They invite all members of the order to come and help them

greet the state grand officers.

Mrs. Speight, a member of McKinley Chapter No. 16 at Gallup, has served her chapter in many capacities. She was worthy matron in 1972.

She was appointed in 1973 as Grand Ruth. She has also served as grand marshal, district instructor of District 14, hospitality committee, general arrangements committee and grand press correspondent. She was elected as associate Grand conductress in 1979 and proceeded in rank to being installed as Worthy Grand Matron in October, 1982.

Mrs. Speight and her husband Tom have one daughter, Leigh Ann, and two granddaughters, Donna Kay and Pamela Ann. Mrs. Speight says her greatest joy is being with the two granddaughters. She also enjoys reading, being a people watcher, and collecting turtles. Her greatest hobby is Eastern Star.

She has also served as mother advisor to C. A. Floyd Assembly No. 69, Order of the Rainbow for Girls in Gallup. She was member of a Rainbow Assembly in Alton, IL, where she was born and educated. She has lived in Gallup since 1965.

Others orders include the Daughters of the Nile (formerly Social Order of the Beauceant), and she and her family are members of the First United Methodist Church in Gallup.

Elzy Thompson was born in Canadian Tx. He said he was raised "the middle child" of nine children and is rightly fully proud of the fact that four of his sisters are school teachers and that three sisters married school teachers.

The Thompson family was raised on a dairy farm and also did some ranching. He drove a school bus for several years, farmed in the early '40's., and

then went to work for Lansing Michigan Pipeline and in a carbon black plant in Mobeetie, TX. In 1954, he went to work for the Southwestern Public Service Company at Guymon, OK. When that plant closed, he moved to Carlsbad. After working for 25 years as a fireman, he retired.

Thompson has two sons, Preston and Eddy. He also has three granddaughters and two grandsons. In October, 1972 he married Thelma Coe of Lovington and he happily reports that this added two more sons and a daughter, along with a grand-

## Two charges on Morales settled

Johnny Morales, arrested Dec. 8, 1982 for DWI and careless driving, recently pled guilty to the charges in Magistrate Court in Capitan and was fined \$50 on the careless driving charge, plus \$10 court costs and \$10 laboratory fee. On the DWI charge, Magistrate Judge Montes sentenced Morales to attend the DWI school in Ruidoso. Montes noted that the sentence was consistent with first-time offenders.

The charges grew out of an

accident on Highway 380 West, west of Carrizozo, when the car Morales was driving skidded on icy pavement and overturned. Charges were filed by State Police Officer Randy Rhue.

The News has been unable to find the disposition of a charge of larceny filed against Morales in connection with a break-in of Gamble Means store last October. Telephone calls to the district attorney's office have not been returned.

In the afternoon session, a film on BEEF, the Natural Resource, was viewed, stressing the importance of beef to life as well as the economy of the American people. Other items of interest discussed were beef in the diet of diabetics by Linda Ponder, Captain the national cook-off scheduled to be held in Albuquerque in 1984, poster contest, Beef for Father's Day and Ag Day. For \$25 interested business people can be associate CowBelle members.

Ag Day will be observed locally on March 21 when Canyon CowBelles will host a luncheon for the Carrizozo FFA chapter.

The new CowBelle quilt was on display and provided a backdrop for the meeting held at the recreation center. The quilt depicts a cowboy on horseback galloping across distant hills, trees beside a stream, and clouds on a blue sky. It will be raffled at the county fair in August.

CowBelle projects include Boys Ranch, Girls Ranch, livestock trophies, and scholar-

ships. Tickets are available for \$1 each from CowBelle members and local banks. Ruth Wilson designed and made the quilt, with artistic assistance from Joe DeTevis, art teacher.

## MacVeigh home robbed

Burglars struck the home of Bill and Elizabeth MacVeigh Tuesday and escaped with an estimated \$200 in cash and some jewelry, according to Chief Deputy Charles Cox of the Lincoln County Sheriff's Dept.

The daylight burglary took place between 8 a.m. and noon while the couple were at work.

## FFA hosts contests Friday

Future Farmers of America at Carrizozo High School will host an invitational judging contest Saturday, March 12, on the school campus at which 25 area chapters are expected to attend.

Registration will begin at 7:15 a.m. followed by a general assembly at 8:15. Livestock judging begins at 8:30; wool, ag mechanics, crops, entomology and farm management, 9 a.m. to 3:30 p.m.; land judging, 1 p.m.; horse judging, 1:15 p.m.; and meats (at Vo Ag Farm) at 1:30 p.m.

Entry to the residence at 1011 B Avenue was through a window, which had been pried open. A small safe which contained the money and jewelry was jimmied open. The cash was in old bills and coins, among which was a silver dollar minted in 1923.

Cox said neighbors reported seeing no unusual activity at the MacVeigh residence, and were unaware that a burglary was in progress.

The sheriff's office and city police are conducting an investigation.

Mary Spencer, president of Carrizozo Crime Stoppers, said the organization will offer a \$500 reward for information leading to the arrest and indictment of the person responsible for the break-in. Anyone with information may telephone the statewide toll-free number, 1-800-432-6933. In all cases, callers do not have to reveal their identities.

Last month, to the State Crime Stoppers Commission helped law enforcement officials solve a variety of crimes ranging from homicide, a series of rapes, auto thefts and one embezzlement. More than \$25,000 worth of stolen property and narcotics were recovered as a result of these calls.

## Wildfire prevention reminder

Spring winds have arrived, and a general drying trend will increase forest and rangeland fire danger over the next few months.

New Mexico State Forestry, Capitan District, is urging all New Mexicans and visitors of New Mexico to be extremely careful with all types of fire in the coming season. At this time, there are no fire restrictions, but depending on weather conditions this may be necessary as conditions worsen. People residing within city limits should check with local government before doing any open burning, as in some areas it is prohibited at all times.

The primary causes of fire historically have been debris or trash burning, land clearing (with fire), smoking (especially along

highways), discarded fire place ashes, and equipment use (such as welding, chainsaws, and road building or construction).

If a wildland fire does occur, call the local fire department, then call the Capitan District at 354-2231. If no answer is received, then call the Santa Fe 24-hour number at 827-8080.

## RC&D to meet

## Arbor Week ends Friday

Friday, March 11, is Arbor Day. It is also the last day of Arbor Week, which began on Monday.

Gov. Toney Anaya has designated March 7-11 as Arbor Week; and is urging New Mexicans to recognize the value of trees by planting them on both public and private lands to enhance the natural beauty of "The Land of Enchantment."

Arbor Day is a time set aside to pay homage to trees. Arbor literally means tree, thus Tree Day.

Arbor Day was started by J. Sterling Morton, who later became Secretary of Agriculture during President Cleveland's second term. The first Arbor Day ceremony was held on April 10, 1872 in Nebraska, when over one million trees were planted.

In New Mexico, the territorial legislature established the observance of Arbor Day in 1891, 21 years before New Mexico became a state. Arbor Day is now designated as the second Friday in March of each year.

Letters to the Editor

'Nuclear Surrender Movement'

EDITOR — The rank and file of the "nuclear freeze" movement, which should be called the Nuclear Surrender Movement, may think they are working toward an immediate, verifiable "freeze" on the development and deployment of nuclear weapons, but such a result is not achievable.

To begin with, the Soviets have cheated on every arms treaty they have ever signed, and there is no reason whatever to believe they would not cheat on a freeze. In any case, compliance could not be verified without on-site inspection, which the Soviets have always refused.

Development of new nuclear weapons, which would destabilize the parity that is supposed to result from a freeze, would meanwhile be halted in the US since our own open society cannot hide such developments. But, in the secretive Soviet police state, development of new nuclear weapons could proceed secretly without hindrance until the Soviets had achieved whatever level of superiority they wanted. At that point, their huge conventional army would no longer be restricted by the US nuclear force, and the Soviets would be in a position to add a new country to their empire on a monthly basis.

MILLIE COLE, Lodi, CA.

Dog poisoners

EDITOR — It is against the law to put out poison in an inhabited area, but these oldtime ranchers don't care about that. They have taken the law into their own hands for so long they can't tell right from wrong.

The other day they mixed strychnine with hamburger meat and killed two dogs on their owner's own property. This was done maliciously. The poison was not put out for predatory animals. One dog was a Grand Champion Dam, the other was the children's pet. This was a tragedy to our whole family.

It takes a mean and low person to stoop to such an act. Why can't people in Lincoln County just obey the law?

JANICE HARKNESS, Carrizozo.

Inside Religion

National Council may file suit

By REV. LESTER KINSOLVING — Strongly critical analyses of the National and World Councils of Churches by both The Reader's Digest and CBS's "60 Minutes" have had absolutely spectacular results.

The Digest article by Rael Isaac, "Do You Know Where Your Church Offerings Go?" has had more requests for reprints (90,000) than any other Digest article, except one, in that magazine's history.

"60 Minutes" has evoked a similarly impressive testimonial — from four of the leaders of the National Council of Churches (NCC), who write that there are now "doubts in the minds of a substantial number of church members as to veracity of their leaders and may result in irreparable damage to these institutions."

These four leaders (United Church of Christ president Avery Post; United Presbyterian States Clerk William P. Thompson; Disciples of Christ president Kenneth Teegarden; and Leveland Episcopal Bishop John Burt) also note:

"The accusations the churches are lying to their members was repeated five times on the 40-minute segment."

This charge is serious enough for these clergy to have retained a law firm to ask CBS to provide them a reasonable response. But CBS has turned down this request.

During an interview, attorney Darle K. Moore of the New York law firm of Moore, Benson, Lifflander and Mewhinney said he

had been instructed to appeal this CBS refusal to the Federal Communications Commission and, if necessary, to the Court of Appeals.

Mr. Moore also disclosed: "While a lawsuit for defamation of character has also been discussed, I do not at this point have any instructions to file such a lawsuit."

Such litigation may be only way in which this controversy can be cleared up — in order that the public may have some real opportunity to make a clear determination as to which are the said liars: CBS or the NCC.

Since these four church leaders have now realized in writing that "a substantial number of church members" believe it is their church leaders who are the liars, their prediction that "this can result in irreparable damage" is one of the most logical conclusions these church leaders have reached in years.

Given the present inclination of the FCC toward deregulation, the prospect of relief in this area is not promising. Instead there seem to be just three options available:

1) Take CBS to court with a lawsuit for defamation of character. This would mean, of course, that all of the leaders of the NCC and their staffers would face the prospect of several hours of vigorous cross examination. But if their cause is just and nobody at NCC headquarters is a liar, they should not have anything to worry about.

2) Avoid such a lawsuit at all costs (including the cost of having made statements and being unwilling to back them up under oath.) Instead of confronting the critics head on, where any lack of truth can be disastrous, resort instead to a snowstorm of righteously indignant press releases. Subject both "60 Minutes" and The Digest to a series of Stained Glass Smears. Realize that lots of people tend to forget rapidly — and some people will believe anything that their clergy tell them.

3) Confess your sins, ask for forgiveness and try sincerely to lead a new life.

"Are you famous for doing anything, or just famous?"

New Mexico in Washington

Richardson: 'Cut defense, but not in New Mexico'

WASHINGTON — "I think the defense budget can be cut by thirty billion dollars," said New Mexico's newest Congressman, Bill Richardson, during an interview with the Lincoln County News.

Richardson cited figures as proposed by Congressman Ad-dabo of New York whom he described as "a strong proponent of national defense."

Richardson went on to note: "What I'm concerned about is that the proposed cuts are coming in areas like pay and personnel and conventional weapons and combat readiness rather than from the big weapons systems that have dubious validity, like the B-1 and MX. Why don't we do the Stealth bomber instead of the B-1? I would vote for the Stealth bomber. It's going to take more research and development."

Wyoming delegation. That's one Congressman for a whole state, and he's Republican!

RICHARDSON: I think you could start by eliminating some of the PR staff. Reduce the heavy weapons systems. The M-1 tank. If you cut thirty billion, you're almost keeping the budget higher than when Jimmy Carter was in office. And when he was proposing 5 to 10 percent increases in defense.

Q: Do you think that Jimmy Carter maintained our defense on parity with the Soviet Union?

RICHARDSON: Yeah, I think he did.

Q: Do you think we are on a parity with the Soviet Union now? In all respects?

RICHARDSON: I believe we are now. I believe that these talks about how we are behind in certain areas, in certain missile development, are correct. But I think that overall there is parity. And if anything, I think we are ahead in some areas.

Q: Overall, would you say we are ahead in manpower, tanks, aircraft?

RICHARDSON: We're definitely ahead in aircraft.

Q: We've got more operational planes?

RICHARDSON: Yeah, we sure do.

Q: As I understand it, the B-52 is older than most of the crews flying it.

RICHARDSON: Well, if you look at the Soviet MIG jet, it's not a heck of an effective aircraft. Manpower no.

Q: How about the Backfire bomber? That certainly seems to be ahead of the B-52.

RICHARDSON: I think we're ahead of them in terms of naval — uh...

Q: You mean our ships are technologically superior? Not in number?

SP safety record 'outstanding'

Southern Pacific's railroad maintenance department for the Southwest, which keeps nearly 2,700 miles of track in shape, has worked 1.5 million man-hours without a single serious injury.

January 1983, the maintenance workers suffered not a single "lost-day" injury — in other words, an injury serious enough to require missing work for treatment.

Pilcher credited "good supervisors, conscientious workers and proper training" for eliminating serious injuries among the Southwest's track maintenance workers.
