

40th BIRTHDAY CELEBRATED IN CAPITAN—

# Commemorative Stamp honors Smokey

Smokey the Bear is 40! The U.S. Postal Service stayed with its tradition of honoring national heroes, but for the first time in its history has issued a commemorative stamp in honor of a bear.

The first day of issue ceremony for the 20 cent Smokey

Bear commemorative stamp was held at the Capitan Municipal School at 11 a.m. on Monday, August 13.

Smokey began his career as a poster symbol in 1944. It wasn't until 1950 that a living symbol of forest fire prevention became a reality. In that year, firefighters

battling a major fire on the Lincoln National Forest found an injured black bear cub clinging to a charred tree. The firefighters rescued the bear cub and took it to a fire camp where the burns on the cub's feet and hindquarters were treated. The little bear was later flown to Santa Fe where a

veterinarian treated his injuries and nurtured him back to health.

The cub was named Smokey and his potential value in publicizing the need for preventing fires was soon recognized. Smokey was flown to Washington, D. C., and on June 27, 1950, ceremonies were

held to introduce him to the world as the living symbol of forest fire prevention.

Through the efforts Smokey Bear and the Cooperative Forest Fire Prevention Program, significant progress has been made in reducing the seriousness of forest fires in this country. In

1942 more than 10 million acres of wildlands were burned. By 1981 the burned acreage had been reduced to three million acres.

Congressmen, U.S. Postal Service officials, Forest Service officials and many others who played a major role in the Smokey story attended the

ceremony Monday along with hundreds of other people and children.

Presentation of Colors was by the Color Detachment, from White Sands Missile Range. Capitan Municipal School Band played the National Anthem under the direction of Richard Venezuela. Invocation was given by Rev. David J. Bergs. Benediction was given by Rev. Rex Lane.

Albums of the first day of issue stamps were presented to distinguished guests. Featured speaker was Harry C. Penttala, Assistant Postmaster General for Mail Processing. Also taking part in the ceremony were: R. Max Peterson, Chief, U.S. Department of Agriculture, Forest Service; Raymond R. Gallegos, Director, Division of Forestry, NM Dept. of Natural Resources; M.J. Hassell, Regional Forester, Southwest Region; Kenneth Primrose, Roswell Postmaster, U.S. Senator Pete Domenici, U.S. Representative Joe Skeen, and representatives of Gov. Toney Anaya.

The commemorative stamp was designed by Rudolph Wendlin of Arlington, VA. Stamps were on sale and postal employees were there to hand cancel the stamps with the words "First Day of Issue".

A barbecue was served following the ceremony. Smokey signed autographs and posed for pictures. A birthday cake was presented to Smokey at the barbecue by Louise LaRue of Capitan.

The famous message "Only YOU Can Prevent Forest Fires" was created in 1947 and is still in use today. In a recent study, 95 percent of the people surveyed could finish the sentence when given the first words, "Remember Only YOU". The same survey found 98 percent of the people could identify Smokey Bear when his picture was shown to them.

Smokey is now 40. His message is just as important today as when he first said: "Remember, Only YOU Can Prevent Forest Fires."

### COUNTY COMMISSIONERS —

## Ed Jungbluth acknowledged

By RUTH HAMMOND

Lincoln County Commissioners met Aug. 7th and sent a letter to express gratitude for the assistance of Ed Jungbluth. During his term as Director of the Ruidoso Chamber of Commerce and for serving as an Emergency Medical Technician for the Lincoln County Am-

bulance Service. The letter also says, "We regret that you will be leaving but want to wish you the best in your new position."

Commissioner Chairman John A. Hightower said, "Ed has been an asset to the community." Alamo Waste Control gave a

slide presentation of their operations in Alamogordo and other communities. Waste Control provides a transfer site type of solid waste disposal. The County will go to bid for a county wide trash service.

Ken Moore, administrator of Ruidoso Hondo Valley Hospital, asked that the mill levy be increased to 4.25 on the November ballot. It will be the voters decision whether to increase the mill levy from 2.9 mills for an eight year duration.

Commissioners agreed to close part of county road B-022 after much discussion.

Other business conducted. Resolution no. 73-4 was signed. This resolution is the agreement with Southeastern New Mexico Economic Development District SNMEDD has a work program that is separated into three core

areas, Basic Program Services, Special Functions, and Program Strategies.

Basic Program Services include information dissemination, which is a quarterly newsletter keeping local officials informed regarding transition of federal programs and administration of newly established programs, grants, and priority programs. Direct Technical Assistance, this includes joint sponsorship of meetings, public hearings, and data collection. Coordination Liaison, which is assistance in resolving problems or capitalizing on opportunities by keeping a clear line of communication with key policy officials, and Training, in the form of workshops and seminars.

Special Functions are Review and Comment, Police

Development, and Legislative Advocacy.

Program Strategies will be specific responsibilities in Economic Development, Housing Rehabilitation, Community Development, and Transportation.

The Data Processing Agreement that had been approved Jan. 19, pending a change, was signed.

Final plats were approved for Starlite Estates Subdivision and Cedar Hills Subdivision. The \$1,000 filing fee was waived because the roads had already been built. The filing fee goes to defer some of the engineering costs that the county incurs.

Medical Practice Agreement was signed with Daniel D. Boldgett, M.D.

No action was taken on purchase of computerized electronic voting equipment.

A discussion was held concerning the "County Fire Protection Excise Tax Act."

Commissioners decided to not put it on the ballot. A special election would be required at a cost of \$10,000 and the tax would generate approximately \$30,000.

JG Moore agency was awarded the bid for building insurance, fire and lightning extended coverage, etc.

Rich Ford, Albuquerque, presented the low bid on three sheriff's pursuit cars. Delivery will be 15 to 20 weeks.

Ed Black Chevrolet, Albuquerque, submitted low bids for a complete full size vehicle, which will be a Chevrolet Impala, and two 4x4 pickups. These will be delivered in 60 to 90 days.

A closed session was held to discuss personnel and possible litigation.

## Capitan schools open Monday

The Capitan Schools will begin a new school year, Monday, Aug. 20 at 8:25 a.m. The projected enrollment is 577. Thirty four of the 59 employees are certified teachers. This does not include bus drivers. Monday will be a full day of school. Students, K-12, were scheduled to register Aug. 13-17. All Capitan students must have a shot record on file. The old elementary building, now being renovated, will be ready for occupancy about a week after school begins.

A schedule of events looks like this:

- Aug. 13, Football and volleyball practice begins.
- Aug. 13-17, registration.
- Aug. 17, Teacher in service.
- Aug. 20, School begins—full school day.

- Aug. 25, Volleyball jam—bore-free admission.
- Sept. 3, Labor Day holiday.
- Sept. 7, Tiger football at Tatum—7:30 p.m.
- Sept. 8, Volleyball at Hondo—2 games—5 p.m.
- Sept. 13, Meeting Board of Education—7:30 p.m.
- Sept. 13, Visit by state department of education—Program review.
- Sept. 14, Tigers play Texico at home—7:30 p.m.

--The next school holidays after Labor Day will be Nov. 22-25—Thanksgiving.

Supt. Leonard Hays mentioned that 50 new band uniforms have arrived and stated, "We have an excellent, conscientious staff. The parents should feel free to call or visit the school at any time."

## County deluge causes damage

The big flood of '84 has caused extensive damage to Lincoln County and to Ruidoso. By noon Wednesday, county officials had not yet completed their survey. Heavy flood damage has hampered the survey.

County Manager Suzanne Cox said, "Just when we think we have it all, another call comes in."

Ruidoso was especially hard hit. Saturday Ruidoso Downs Race Track was closed for the first time in 12 years.

Lincoln County Sheriff's Deputies have been called out and have been on standby for the flood. Flood waters have subsided but not before washing out culverts and bridges in the county.

Gov. Toney Anaya declared Lincoln County a disaster area Saturday. This makes the area eligible for state aid and allowed the National Guard to bring sandbags from Albuquerque to the Ruidoso area.

Paradise Canyon Road is closed. The bridge is out. Visitors to the area are advised to stay on main roads. It will take weeks and possibly months to clean up the debris and damage from the flood.

Electric power was knocked out Monday afternoon in several areas in Ruidoso, including the police station.

Volunteers filled and placed sandbags, cleaned debris out of the Rio Ruidoso, monitored various water stations and sewer lines, and tried to help keep traffic down.

Carrizozo received its share of rain. Town officials were called to check flooding at the cemetery and on Aspen Avenue. Officer Bill Hasenbuhler responded to a call that lightning had hit water towers. Electrical crews were there to make repairs. Several homes in Carrizozo were flooded.

Reminders of the Big Flood of '84 will be around for a long time.

U.S. REP. JOE SKEEN, Sen. Pete Domenici, Assistant Postmaster General Harry C. Penttala, and 96-year-old Elliott Barker listen as R. Max Peterson, Chief, USDA Forest Service,

speaks at ceremonies honoring Smokey Bear. Smokey is 40 but his message is just as important as ever: "Remember, Only YOU Can Prevent Forest Fires."

# SEE YOU AT THE FAIR !!

SCHEDULE OF EVENTS ON PAGE 5 — SPONSORED BY UNITED NM BANK

## Upcoming wedding

Wally and Anne Ferguson announce the approaching marriage of their daughter Lisa Anne to Michael Lyn Shivers, son of Mr. & Mrs. Bill Shivers of T or C on Sept. 8, 1984.

Lisa is a 1979 graduate of Carrizozo High School and has just completed her Master's Degree in Ag. Education at NMSU.

Mike is a 1978 graduate of Hot Springs High School and a 1982 graduate of NMSU where he majored in Animal Science. Mike is currently ranching north of T or C.

## By the way

By POLLY CHAVEZ

### FORMER CORONA RESIDENT

Lucille Porter, formerly of Corona celebrated her 80th birthday August 1 in Artesia where she resides. On hand for the party was daughter Dorothy Simmons of Carrizozo. Two other daughters Charlene Marr of Roswell and Vivian Gail Yandell of Artesia also joined in the celebration.

Dorothy had been Artesia since July 28. After spending some days there visiting with her mother and other relatives she returned home August 4.

### BUSY SUMMER

Rita Narvaez of Rita's Creative Hairstyles travels to Ruidoso once a month volunteer her services to a nursing home. The clients of Ruidoso Care Center are offered haircuts, shampoos and sets every first Monday of each month. This month Roberta Vega Frank accompanied Rita to Ruidoso Care Center. Roberta, a graduate of Colorado Beauty College, assisted Rita at the center.

October 10th marks the anniversary of her shop on Central Avenue. Rita plans to advertise the anniversary in the NEWS to invite people to help her celebrate the event.

This summer she participated in two fall classes held at the lobby of the Villa Inn at Ruidoso. Betty Howell of Carrizozo accompanied Rita for one of the classes and served as her model. The classes which included an advanced session were conducted by instructors from the El Paso Beauty Supply House. Rita is making plans now to attend the upcoming trade show at Las Cruces. Fall and winter styles will be introduced at the annual event.

### PRODUCER-HOST

Last week I described the format of the "Creative Woman" show which airs from Albuquerque on Channel 5 in the Carrizozo area. This week the column will feature the show's host Sheryl Borden.

Former extension home economist for both Curry and Roosevelt counties in New Mexico, Sheryl brings to the "Creative Woman", a KENM (Portales) television production, a unique professional background. As producer and host, she employs her special abilities to relate to both guest participants and viewers in a

relaxed, positive way.

As a homemaker and mother, she is aware of the emerging interests of women in the newest technological advances and in the preservation of a "home" atmosphere for the family unit. As a professional who also works outside the home, she is aware of the necessity to streamline procedures in home activities so that family leisure hours can be spent constructively and pressures for the working woman are minimized.

### HOME ECONOMIST

A native of the West Texas town of Muleshoe, Sheryl has maintained an interest in home economics since she joined a 4-H Club when she was nine and began presenting programs to anyone who would listen.

In college she majored in home economics with the expressed purpose of becoming an extension home economist. Upon graduation (she has a bachelor of science degree in vocational home economics and a master's degree in home economics and education), she went to work in one of eastern New Mexico's county extension offices with homemakers and 4-H youth.

As a career woman, wife, and mother of three, Sheryl is always looking for new and creative ideas to streamline everyday tasks. She enjoys cooking and sewing for her family and makes about half her wardrobe.

Sheryl is a charter member of the Eastern New Mexico Home Economists in Business, a member of the state and national Home Economics associations, a member of the New Mexico Federation of Women's Clubs, and a lifetime active member of Epsilon Sigma Alpha International.

### COMMON INTERESTS

During the time Sheryl was associated with New Mexico's county extension offices she made many contacts who have subsequently been guests on the "Creative Woman" program. Among them was Mary Ellen Payne, former Lincoln County home economist.

Mary Ellen has known Sheryl since the time Mary Ellen was named Lincoln County's home economist fifteen years ago. She has been a guest on the show about 10 times on a variety of subjects. The "Creative Woman" is syndicated nationally and Mary Ellen was delighted

when she learned that her mother, Mrs. Ray Schonhoff had seen her on the program. Her mother and other relatives saw the show via a station at Southern Illinois University in Carbondale, 75 miles from Mrs. Schonhoff's home.

This fall Mary Ellen hopes to be on the "Creative Woman" show to demonstrate quilting techniques. Another segment will be buying ready-to-wear women's clothes. Mary Ellen hopes to present other programs in her capacity as state coordinator of the Family Community Leadership Project, a position she recently was appointed to.

Sheryl and Mary Ellen have been roommates at various conventions and workshops related to their former jobs as home economists. Although they wear different size clothes they often checked into their overnight quarters with the same style or color of outfits. The two women have three children each - two sons and a daughter.

### AROUND THE CORNER

School starts Monday, August 27. When Zachary completed kindergarten he was given a first grade supply list. In case you lost or misplaced your child's list this is what first

graders will need; pencils with erasers; crayons (not more than 16); scissors; glue; markers (water based, box of 8); tissues; and a box for keeping supplies.

First graders will be dismissed at 1:30 p.m. each day for the first two weeks of school only. First graders who ride the bus to school will remain in the classroom to rest. Children residing in town should be picked up at 1:30 p.m. This schedule for the first two weeks helps the new student to adjust to a whole day of class.

Students attending 4th grade will require the following school supplies: 1 large box (200ct.) tissue; 1 bottle white glue; 1 pair pointed scissors; 1 ruler with in. and cm.; 2 pencils with erasers; 2 red marking pens or pencils; 3 folders with inside pockets; 1 pkg. loose leaf paper; 1 loose leaf 3-ring binder; crayons and a school box.

Supplies for all other elementary grades may be posted at the local grocery stores, Family Pharmacy and Gift Gallery. Perhaps the teachers will read this week's column and check to see that the local merchants have the school supply lists handy for their customers.

## LINCOLN—

# Nat'l Forest News

ALAMOGORDO, NM.—Wet-weather camping has been the theme on the Lincoln National Forest for the past two weeks, with from 6 to 20 inches of rain bringing out raincoats and other wet-weather camping gear. In spite of wet, soggy conditions many of the Forest's campgrounds have continued to receive moderate to heavy use. Visitors to the Forest should expect many back areas to have lots of mud and should stay aware of possible flash flooding in low-lying areas.

Some fuelwood areas are closed because of muddy conditions. Fuelwood cutters are advised to check with the appropriate district office for the most current road and fuelwood information. The numbers to call are: Smokey Bear at Ruidoso, 257-4095; Cloudcroft, 682-2551; Guadalupe at Carlsbad, 885-4181, and Mayhill, 687-3411.

Bonito Lake on the Smokey Bear District is full. Streams are high. Over six inches of rain fell of the district last week. Trails and roads are muddy with some washouts.

Twenty inches of rain on the Cloudcroft District over the past two weeks have made roads and trails very muddy. Road construction continues on the Sunspot Highway and on US 82 in the Village of Cloudcroft.

Flash flooding has occurred in some draws and low-lying areas of the Guadalupe District near Carlsbad. Visitors will find side roads very muddy, and there may be some washouts.

Mayhill District has reported over six inches and many roads are muddy.

# Capitan News

By MARGARET RENCH

It is so pleasing and refreshing to report the gentle rain fall we have had this last week. Three and one half inches. The sun is trying to return this Monday August 13.

This was the Smokey Bear Commemorative Stamp Day and what a day. The dedication program was excellent and interesting. Many dignitaries who were with Smokey when he was captured and cared for and then shipped to Washington, D.C. were present. We do thank everyone for their loyalty: The Dr., the artist etc. were present. Our state government, Federal government and postal personal seemed pleased to be with us. We did enjoy all of it.

Dorothy Guck found in her records in the first Smokey Bear Club, that the president of the Woman's Club requested to Congress, for a Smokey Bear Postage Stamp to be issued, instead they issued a conservation stamp the next year 1958, with Smokey's picture on it. Mrs. Guck was the first secretary of the first Smokey Bear Club. Her husband was the ranger. Her son Tom Guck is presently a ranger in Capitan.

Mr. and Mrs. Dennis Jacobs, Washington, D.C., from the engraving and printing, registered at the Smokey Bear Museum August 12th. He helped with the printing and engraving of the Smokey Bear Stamp.

Mr. and Mrs. Rudolph Mendelin of Arlington, Va. registered August 13th. He was Smokey's Poster Artist until he retired from the Forest Service in 1973. He was asked if he still worked any for the Smokey Program and he answered, "Well it is hard to get completely out..."

Mr. and Homer Perkins were there the 12th. He stated that in Virginia they had to land and let Smokey go to the bathroom. Mr. Perkins was the pilot on that plane that had taken Smokey to Washington.

The barbeque prepared by the Capitan Chamber of Commerce was delicious and was enjoyed by a large crowd. It was held at the school cafeteria.

Football practice for the Capitan Tigers began Monday morning at 8:00 a.m. Coach Thompson is planning "two-days" if there is enough interest.

Any student wishing to participate in football should contact the Capitan High School.

Remember to attend the Lincoln County Fair this weekend at the Lincoln County Fairgrounds in Capitan. There will be alot of livestock and produce exhibits, as well as handmade items and many, many others.

Girl Scout Troop 95 with two adult leaders enjoyed a trip to Carlsbad Caverns and the Living Desert State Park in Carlsbad last week. Scouts attending were Lori and Tammy Longbotham, Danielle Riska, and Doria Salazar. The leaders were Lee Ann Longbotham and Cathleen Massey. Nathan and Andrew Longbotham also enjoyed the trip.

Rachel Lacy, Jim Bob and Gid Allen attended the NMJRA Rodeo in Alamogordo. Gid won the steer wrestling and Rachel won the breakaway roping. They also attended the Grants Police Dept. Jr. Rodeo in Grants. Jim Bob won all around and saddle. Gid won a buckle in the ribbon roping.

Happy Anniversary to Mr. and Mrs. Harold Selby who celebrated their 31st wedding anniversary August 14, 1984. We do wish them many more happy years. Their eight year old granddaughter Stephanie Selby enjoyed her birthday August 18th. I too, wish her many more very happy healthy birthdays.

Mrs. Lena Jobe and daughter Sherry of Albuquerque went via plane to Jackson Mississippi Friday and will drive to Grenada where they will attend a two day Jennings family reunion. They will visit relatives and friends around the area before returning

home.

Mr. and Mrs. Tommy Reynolds helped her brother Richard Pine, by taking a truck load of furniture and possessions to San Francisco, California Friday Aug. 11th. They plan to visit relatives in Los Angeles.

In the first week of July, Mr. and Mrs. Dewey DeWeber and

family boarded a plane in Albuquerque for Hillsboro, Oregon where they attended the wedding of their youngest son John. The young couple went to Canada for one week and then

one week to a Lodge in Oregon on their honeymoon. I wish them many years of happiness. The Dewebers enjoyed their five day vacation this way.

## Small Ads. Big Results! CLASSIFIED ADS!

## ASK DR. DAN

I get "charley horses" frequently. What are they and what can I do to prevent them? W.S.

The proper medical definition of "charley horse" is a muscle strain or bruise of the quadriceps muscles of the front of the thigh. Contusions (or bruises) are usually caused by a direct blow to the leg muscles. Football players get these especially often from tackling. A

muscle strain is due to stretching and tearing of the muscle fibers. This can be caused either by overextending the hip or by overuse of the muscles.

Prevention of charley horses can be accomplished by warming properly before vigorous exercise. Doing stretching exercises for the quadriceps muscles, and not overextending yourself physically. If an overuse muscle strain occurs despite these

precautions, treatment should consist of ice packs, during the first 24 hours, followed by heat to the area until healed. Heating can be by heating pads, hot packs, or whirlpool baths. Exercise may be gradually resumed as the injury heals.

If by "charley horse" you mean temporary muscle cramps that occur with exercise and that go away without residual stiffness and soreness, these have a different cause. Low levels of the bodies stores of potassium and calcium can cause these cramps. The cramps may be prevented by drinking fluids with these minerals before vigorous exercise, especially in hot weather. Gatorade is one commercial product designed to help prevent this problem.

Send questions to Dr. Dan, Box 8, Carrizozo, NM 88301

## Hefker attends summer courses

SOCORRO-- Melody Hefker of Carrizozo attended a mini course in psychology and biology at the New Mexico Institute of Mining and Technology this summer.

Hefker is the daughter of Jack and Sharon Hefker of Carrizozo. She is a student at

Carrizozo High School. Hefker worked with a Tech faculty member on a research project and attended seminars. The classes included discussions of psychopharmacology, physiology, molecular biology, toxicology, psychobiology, and visual perception.

Ernest V. Joiner

# OPINION

**LINCOLN** County readers may have wondered whatever happened to Ernest "Mad Dog" Joiner. Since he is known in Carrizozo as a peaceable if stuffy fellow, there may be wonderment that he has for the past six weeks been embroiled in a battle with the Dictator of the California Legislature over the matter of how the Speaker of the Assembly, Willie Brown, uses an un-audited "slush fund" of \$120 million a year (taxpayers' money) to maintain his control of state politics. If he were white instead of black, his butt would have been run out of California long ago.

**ANYWAY**, The Ayatollah Willie has a large following, which has everything to do with that \$120 million a year. He has put out what amounts to a "contract" on poor old Joiner—advertising boycotts, charges of racism and bigotry filtered through the state's daily newspapers, and a "set up" to get me charged with assault and battery upon one of his bushy-faced satraps. All of which will gain him nothing, but it does keep me ungraciously employed.

**"MAD DOG"** Joiner executed this one-finger assault upon a flower vendor last week, who claims I touched him on the chest with my index finger during a slight disagreement in my office. The assaultee is recovering nicely in intensive care and is able to receive visitors. The incident touched off spasms of mirth in the community, and triggered some original humor. Someone at the Sebastopol Police Dept. suggested that I come up and "register my finger as a dangerous weapon." Another wag phoned to advise that he is "making a holster for Joiner's finger." The anti-nuke crowd is making signs demanding that Joiner's finger be substituted for the MX missile. Bruce Wakelee dropped an envelope stuffed with money as a contribution to the Assault & Battery Defense Fund. And I'm getting tired going into Don's Restaurant for morning coffee and having the assembled patrons throw their hands over their heads in mock surrender. This is the greatest public interest item since former Vice-President Nelson Rockefeller was shown on television giving the extended "middle finger" to disperse a crowd of political dissidents, making this "Rockefeller salute" a respectable and eloquent form of communication.

**FAIR'S** fair, right? If you think I have been unkind to Assembly Speaker Willie Brown, read the editorial in the Aug. 2 issue of the Wall Street Journal "Willie Brown vs. the People" (Reprinted on editorial papers). It characterizes Brown as "a symbol to the state's voters of everything that is wrong with representative government." Those who achieved and maintained a high level of indignation for my saying the same thing in less elegant prose may now want to contact the WSJ editor and denounce him as a racist and bigot, and cancel their advertising in his hapless newspaper. Write today. Tell him Ernie sent you.

**TO HAND** is a press release from the county clerk: "Applications for the annual Spanish, Arabic, Cantonese, Japanese, Korean, Portuguese, Tagalog and Vietnamese are now available in the county clerk's office..." Located, no doubt in the Tower of Babel. Let's hear it for the unmet need!

**WE HAVR** overcome! Last week's statistics by the Bureau of Labor Statistics in New York reveal that white males constitute only 49.8 percent of the nation's work force. That makes me a member of the newest minority in this country, and eligible for special privileges—affirmative action, employment quotas, tender care at the welfare office, a front seat before television cameras, exemption from laws regulating decent conduct, and a legitimate excuse for being white, male and heterosexual. Don't laugh, girls... you're next!

**PRESIDENT** Reagan has asked the Democratic Congress to cut the Vocational Education Data System (VEDS) from the US Department of Education. This is an \$800 million-a-year program provided by a kind and caring Congress to equip the jobless for getting and holding jobs. The callous, uncaring President became suspicious when he found that although there are large VEDS enrollments in several states, there were no teachers to instruct them. This strongly indicated to the presidential mind, as indurated as it may be, that where there are no teachers there are probably no students; and, if so, taxpayers were being screwed. His suspicions were fueled when he was informed that in New Jersey alone there are 740,000 "students" enrolled in VEDS programs, all breaking their needy backs to acquire skills to make them productive citizens. By a mathematical calculation that had escaped the Democratic Congressional machine, the President noted that these 740,000 VEDS students exceeded by twice the total number of students enrolled in all New Jersey high schools. His insensitive conclusion was that by the year 2000 the number of New Jersey VEDS students would exceed the population of the state. He further annoyed Congress by pointing out that in Virginia, 29,000 Indians are enrolled in the program whereas the total Indian population of that state is around 9,000. Thus annoyed, Congress refused to cut VEDS or even to reform it. Have a good day.

**THE** more we help the more it hurts. According to the US Census Bureau the national poverty rate reached its highest level in 18 years in 1983, probably because President Reagan took all the money for himself. There are now 35.3 million of us living below the poverty level, \$10,178 for a family of four in 1983. This is the highest level of poverty in this country since President Lyndon Johnson abolished it in 1965, retiring shortly thereafter with \$15 million to prove poverty can be overcome. Question: if the billions of dollars spent annually to fight poverty is only creating more poverty, why don't we stop it? Isn't this like giving a drowning man a drink of water? If a man is hitting himself over the head with a hammer, would his pain be diminished by providing him two extra hammers? Census figures got worse. They show the poverty rate for children under the age of 6 rose from 23.8 percent in 1982 to 25 percent in 1983. What we need is one of those VEDS programs for 6-year-olds so they can learn occupational skills and increase their earning power.

## LETTERS TO THE EDITOR

### CLEARLY OBVIOUS

**DEAR** EDITOR: The fabulous 23rd Olympic games have ended. Like every Olympiad of the modern era, the 23rd Olympiad once again confirms what many of us have been aware of for a long time.

It is not the people, and most emphatically not the young people, who want or who cause war.

In all that spirited competition, it is clearly obvious that the young people would have peace and all its many benefits. Those young people want to participate, to perfect, and to compete. Millions of others want to watch all that participation, all that perfection, and all that competition.

No, once again it can be said, it is not the people who want or who cause war; the responsibility for war lies squarely on the shoulders of the politicians; it is government that cause wars.

Respectfully,  
Raymond C. Wilson  
San Juan Bautista, CA

### WATCH

## Over Washington FOGARTY FETES FARRAKHAN AT NATIONAL PRESS CLUB

By LES KINSOLVING

**WASHINGTON--** John Fogarty, Washington correspondent for The San Francisco Chronicle and President of the National Press Club, was perspiring profusely.

He had just awarded a National Press Club windbreaker to the Club's guest speaker, Minister Louis Farrakhan—after Farrakhan told the audience that Israel has no right to exist and that Mrs. Martin Luther King, Jr. deserved to be booted in San Francisco. The National Press Club, whose Board once vetoed an invitation to Canada's Margaret Trudeau, invited the Nation of Islam's leader to address a luncheon meeting. His speech was broadcast by National Public Radio.

When asked for comment on this speech, Fogarty replied: "It doesn't matter what I say; I'm a reporter."

When asked for his comment on Farrakhan's speech as President of the National Press Club, Fogarty replied:

"I wasn't really listening. I was preparing the question slips that came in."

When asked about Farrakhan's answers to the questions that Fogarty asked him, Fogarty again declined comment.

When asked if he would have approved of a similar invitation being extended by the National Press Club and National Public Radio to a leader of either the American Nazis or the Ku Klux Klan, The San Francisco Chronicle correspondent replied: "It depends on the circumstances." Fogarty, until last January, was one of five members of the Congressional Standing Committee of Correspondents—who are given the right by Congress to withhold or revoke the Congressional and White House press credentials of some 1,300 Washington reporters.

In other statements to the National Press Club and National Public Radio, Farrakhan said that:

Jesse Jackson was "mistreated" by the Democratic National Convention and that Nominee Walter Mondale "does not intend to honor his debt to black people who helped him win the nomination and who he needs to win the election."

"Powerful Jewish leaders" met and threatened the Democratic Party that they would leave and vote for Ronald Reagan.

Israel is guilty of "injustice, lying, thievery and deceit in using God's name to shield your dirty religion."

The real Israel, "the real People of the Book," ARE NOT Israel but "The black people of America."

America is a modern Babylon, whose armed forces are as corrupt as the Legions of Rome.

The Democrats "frightened Jesse Jackson's staff" and "threatened not to allow him to speak at the national convention." He added that Jesse should never have apologized for anything.

"The Jewish leadership is spiritually blind."

When asked about the nomination of Vice Presidential Candidate Geraldine Ferraro, the Black Muslim leader ex-

pressed disdain and termed this one more example of injustice to blacks.

When asked about the absence of Jesse Jackson at his National Press Club speech, Farrakhan explained that this Baptist minister was unable to be present because of the funeral of singer Aretha Franklin's father.

But the Associated Press subsequently learned that this funeral was not until Saturday, Aug. 4—five days after the Farrakhan explanation of Jackson's whereabouts in being notably absent from the speakers' table during Farrakhan's speech. Jackson's only repudiation—of Farrakhan's statements—rather than repudiating Farrakhan himself—was never made out loud, only by press release.

Farrakhan's Washington speech followed a weekend of almost unprecedented animosity between the Democratic nominees and the supporters of the Rev. Jesse Jackson. For Jackson told a Chicago meeting of his organization PUSH that Vice Presidential Nominee Geraldine Ferraro has been "grossly insensitive to blacks who are waiting to see and hear of black decision-makers in her campaign." Ferraro reacted strongly to this accusation, however, by saying that Jackson "should have known better."

She added that "I didn't consult with labor, Hispanics or Asians. I am going to make these decisions about my campaign myself."

But twelve black women leaders, headed by Delores Tucker of the District of Columbia, charged that Ferraro's initial appointment of top campaign leaders—two white women and a white man—is "as

insensitive to blacks as Mondale."

Ferraro replied that this accusation is "premature and inaccurate."

Nominee Ferraro's unusually strong retort to these assorted demands for a racial quota system in her campaign appointments seems far stronger than any reaction of Walter Mondale to any similar demands, or denunciations, by Jesse Jackson.

At Mondale-Ferraro headquarters here, Deputy Press Secretary Don Foley, when asked if any Mondale retort to Jackson had been as strong as Ferraro's, replied that Presidential Candidate Mondale had delivered a "blistering denunciation of Farrakhan."

But Foley was unable to recall any such blistering denunciation of Jackson or any Mondale warning that he would repudiate Jackson if Jackson refuses to repudiate Farrakhan.

There are widespread reports that Mondale's yearning to bring Bert Lance into his campaign was due to Lance's rumored ability to talk to Jesse Jackson—and to be able to reprimand him. Now in view of widespread negative reaction to Lance's being imported by Mondale and Lance's resignation from the national Mondale campaign, the Democratic nominee maywell allow running mate Geraldine to handle Jesse and without any of the familiar kid gloves. While this may be an efficient way to handle a loose cannon like Jackson it may suggest to a lot of Democrats that the real leader in this ticket is Gutsy Geraldine rather than Walter The Wimp.

### GHOST OF A CHANCE

**DEAR** EDITOR: As a woman Democrat, I thank you for giving Mrs. Pat Ward such splendid space on her announcement for County Commissioner in District 1.

I wish to state emphatically that for a write in candidate to have a ghost of a chance, the write in column must be available to the voters at the polls.

In the 1984 primary election, the machine I voted on had it covered. Please let us have it available.

Nina P. Taylor  
Lincoln, NM

### RICHARD A. VIGUERIE

## THE MOST POWERFUL MAN IN AMERICA

WASHINGTON, D.C. —

Before long, the most powerful man in America may be a fellow from Seattle named Norman Willis. You see, Mr. Willis developed a system for rating different jobs according to how much they are "worth," and Walter Mondale wants to use that system to determine how much money you and everyone else take home at the end of the day.

Under the Willis system, jobs are evaluated in four categories: "knowledge and skills," "mental demands," "accountability," and "working conditions." For example, you get a certain number of points for "accountability," determined by your "freedom to take action" and your "impact" (whether your "impact" is "big," "little," or "in-between"). The total points for these qualities determines how much your job is worth.

In a study of state employees in Washington State, laundry workers scored 96 points; truck drivers, 97; janitors, 101; clerks, 152; and chemists, 277. Librarians scored 333 points and nurses got 573. People in jobs filled mostly by women were usually paid less than people in "men's jobs" with the same point value. Although a female Democratic governor had blocked efforts to "equalize" pay based on the evaluation, a federal judge appointed by Jimmy Carter ordered the state to pay up to \$1 billion to those in "women's jobs."

The concept is known as "equal pay for comparable work." It has been endorsed by the AFL-CIO, by the Democratic Party, and by the Democratic nominees for president and vice president. The idea is that the civil rights laws must be used not to ensure equal pay for the same work, but to require equal pay for work that gets the same number of points on the Willis scale.

That's why Norman Willis may soon be the most powerful man in America. Because, of course, the Willis scale is yet another example of social scientists trying to translate the entire universe into a set of numbers. Is the impact of a stenographer "in-between" or merely "little"? Is the mental demand on a plumber 2.3 times the mental demand on a truck driver, or is it the other way around? Who knows? Who could possibly know? Yet someone must decide.

Factors of supply and demand, which are vital to the operation of a free economy, are ignored by a system of comparable worth. For example, Michael Jackson gets paid millions not because of his "mental demands" or "accountability," but because there is a severe shortage of people who can entertain as well as he can. On the other hand, air-conditioner salesmen in the Yukon have to take what they can

Certainly there is discrimination against women. "The world of work, embracing industry, business, the professions, is primarily a man's world. Women are admitted, but not yet on an equal footing. Their opportunities for employment are restricted, sometimes by law, but more often by lack of training; and their remuneration as wage-earners and salaried workers is generally less than that of men. They have to contend with traditional notions of what occupations are fitting for their sex; with the jealousy of male workers; with the prejudices of employers; and finally with their own inertia and their own addiction to traditional concepts..."

"The woman in industry is not merely working for pin money, as thoughtless people assume, but she is more often than not not only supporting herself on her inadequate wage, but contributing materially to the support of dependents." That was written in 1926 by Suzanne La Follette, who until her recent death was one of America's great conservative leaders.

But claims that women receive, on average, 62 cents for every dollar made by men, fail to take into account economic differences between men and women. The average man works 8.3 hours a week more than the average woman; he has been at his present job 73 percent longer; and he is eleven times less likely to leave the workforce. Those factors also affect the relative pay of the average man and the average woman.

I believe discrimination exists; the question is what should be done to eliminate it. Under a comparable worth system, the value of a job would be determined mostly by how similar it is to the job of the social scientist conducting the survey. As a result, people who fill out forms for a living could rake in the chips at the expense of blue-collar workers. And bureaucrats in Washington would have the final say in deciding whether an individual is making too little money or too much. As a different federal judge once put it, a system of comparable worth is "pregnant with the possibility of disrupting the entire economic system of the United States."

Testifying before a Congressional committee, Joan Mondale said that comparable worth is "the most fundamental issue of economic justice in our time. Above all, it is an issue of human dignity."

What happens when the government reduces each individual to a set of numbers, when bureaucrats are given the task of deciding each person's worth? Mrs. Mondale is correct; "an issue of human dignity" it most certainly is.

"We Specialize in Your Needs"

presentation. Johnson Stearns introduced Domenici and Mr. Bill Dwyer of the Department of Commerce in Albuquerque. Also on hand for the ceremony were: Charlie Lee, Ralph Dunlap, and A.W. Gnatkowski, and many more local citizens.

In his presentation speech, Domenici said, "Today I am delighted to congratulate Jim and Carolyn and to present them with the President's 'E' award. You have set an outstanding example for other New Mexico firms, and you have given me one more reason to be proud of New Mexico."

Jim and Carolyn Cantrell own and manage Belco, a small manufacturing firm that makes arc welders in the 35, 50 to 350 amperes range.

Belco has had dramatic success in the marketing of its products to foreign countries. Its percentage of foreign sales was four times higher than the average for the arc welding apparatus industry. During the first eleven months of 1983, 78 percent of its welder sales were to customers outside of the U.S. To further assist their customers, Belco prints owner manuals in Afrikaans, French, German, Spanish, and Swedish, in addition to English.

Belco reaches out to potential customers by attending foreign and domestic trade shows, placing new product announcements in trade magazines, and by taking advantage of recommendations from established customers. The Chinese government has invited Belco to be one of only 63 worldwide welder manufacturers to participate in their trade show.

Domenici presented the Cantrells with the official "E" pins and an American flag that was flown over the U.S. Capital in addition to the "E" flag.

Bell attended Smokey's 40th birthday party and stands with a poster of the commemorative stamp issued just for Smokey.

## Sanchez attends mini-course

SOCORRO—Adrien Sanchez, a high school student from Carrizozo, attended a summer mini-course in geology and mining engineering at New Mexico Institute of Mining and Technology.

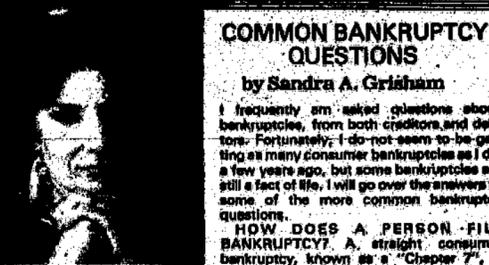

Sanchez is the son of Mr. & Mrs. Tony Sanchez of C'ozo. The week long course introduced Sanchez to various aspects of the geoscience and the mineral engineering fields including the studies of mineralogy, petrology, tectonics, and engineering properties of different earth materials.

Sanchez attended classes in the mornings and participated in labs and field trips in the afternoons.

New Mexico Tech, a small scientific college of 1340 students offers degrees through the doctorate. Tech supports extensive research and development through its four divisions: the College, the New Mexico Bureau of Mines and Mineral Resources, the Petroleum Recovery Research Center, and the Research and Development Division.

## NEED SOME PRINTING?

LINCOLN COUNTY NEWS

### COMMON BANKRUPTCY QUESTIONS

by Sandra A. Grisham  
I frequently am asked questions about bankruptcies, from both creditors and debtors. Fortunately, I do not seem to be getting as many consumer bankruptcies as I did a few years ago, but some bankruptcies are still a fact of life. I will go over the answers to some of the more common bankruptcy questions.

**HOW DOES A PERSON FILE BANKRUPTCY?** A "straight" consumer bankruptcy, known as a "Chapter 7," is started by a debtor filing a petition and

schedule of debts and assets in the U.S. Bankruptcy Court in Albuquerque. The court then schedules a first meeting of creditors in Las Cruces, which the debtor must attend. The meeting is for the purpose of allowing creditors to inquire into the extent of a debtor's debts and assets. A "trustee" is appointed to collect non-exempt assets, and will question the debtor about the facts in the schedules. Ordinarily, unless there are reaffirmations, redemptions, or liens that need to be set aside, this will be the only court appearance.

**THE AUTOMATIC STAY.** Once a petition has been filed in bankruptcy, creditors are "stayed" from taking any action to collect their loans. They cannot contact the debtor or his employer, repossess any property, or file or continue any court actions until the bankruptcy court takes further action.

**DOES THE DEBTOR HAVE TO TURN OVER ALL OF HIS PROPERTY?** Debtors do not have to turn over any "exempt" property to the trustee. There are both federal and state exemptions, and when a married couple file a joint petition, one can claim the state and one the federal exemptions. Examples of exemption include a state homestead exemption of \$20,000 which can be applied to the equity in the debtors' home, a federal homestead exemption of \$7,500 that can be used for anything, furniture, clothing, and some jewelry. The state allows a \$4,000 car and the federal government a \$1200 car.

**DO DEBTORS EVER CONTINUE TO PAY DEBTS?** Yes. Debtors can either formally reaffirm a debt or can simply continue to pay. Most, for instance, will continue paying the mortgage on their home. Since most people owe less than what their home is worth, they will want to reaffirm for the entire amount. Reaffirmations involving real estate do not require court approval.

**CAN CREDITORS REPOSSESS THEIR COLLATERAL?** Yes, if they have a "purchase money security interest", which is simply a security interest in the goods actually purchased from them. Cars held as collateral may also be repossessed, and mortgage companies can foreclose on houses. Of course, the automatic stay applies to all of these actions until it is lifted upon the request of the creditor or by action of law.

**IS CREDIT AFFECTED BY A BANKRUPTCY?** Of course, credit will be affected. Credit bureaus usually carry bankruptcies for seven years. However, all unfavorable entries prior to the bankruptcy must be deleted. Some creditors are willing to extend credit after a bankruptcy to someone with a good, secure job, as they should have no major debts and will not be able to go bankrupt again for six years.

This list is not meant to be exhaustive. If you have any other questions, please do not hesitate to ask your own attorney, whether you feel you may wish to file

for a bankruptcy or you are a business owner wanting to know more about how you can protect your own position in the event someone who owes you money files a bankruptcy. As with all my columns, this contains only basic information, and is not meant to be a substitute for legal advice based upon individual situations.

**UNITED NEW MEXICO**  
MEMBER FDIC

# INSIDE THE CAPITOL

BY Fred McCaffrey

**SANTA FE**—A few observations on the choosing of a university president.

First the very basic basics: The Constitution gives the governor, and the governor alone, the power to select nominees for the boards of regents of the state supported universities. They do not take office, however, until the state Senate concurs in their appointment. Once they have become members of the board, they cannot be removed from that post unless the governor demonstrates to the satisfaction of the state Supreme Court that they've done less than their duty in office. While they serve, the power to select a president for their specific institution is vested in the regents alone.

That's only the strictly legal consideration.

**GOOD POLITICS:** Governor Anaya seems to have a point when he suggest that some others should at least be consulted in the process. As he sees it, that should include the governor himself, the faculty and students of the university involved, and the members of the business community in the town where the school is located.

There is no doubt that this would be the politically wise approach.

What's more, in most instances it is what gets done.

The fact is that some of these steps have been avoided and new presidents have been chosen in processes which can be criticized as less than open only since January 1, 1983.

That is the day Toney Anaya was sworn into office. Is that concurrence of facts simply coincidental? Not all.

**DELIBERATE CHOICE:** Members of the boards of regents

of any of the universities which made their choice prior to the present situation at UNM will say, off the record and not for attribution, that they kept their cards as close to their chests, as they could hold them because they feared with Anaya there was no middleground. He would not be content, in the view of these very various citizens, simply to counsel and advise; he wanted to be the whole enchilada.

As they saw it—and their judgment can hardly be proved to be wrong—Anaya probably wanted to make the choice himself, allowing them only to anoint his appointee and make the public announcement.

At the very least, they tell those of us they believe they can trust, they knew for a fact that he wanted to write the prescription. For instance, he told some of the regents from NMSU that their

choice should be a Hispanic female.

But the responsibility of choosing the president is theirs. Hence they did not want to knuckle under to the Governor. What's more, some of them say, the more public they went, involving large numbers of faculty and others, the more risk they ran of Anaya's involvement.

To put it in non-complimentary terms, Anaya's

demonstrated power-grabbing is the reason for what has happened in the search processes we have recently seen. With a little more coolness from him, things might have been a good deal different.

## A chance to boo and hiss

Ruidoso Little Theatre in conjunction with The Lincoln Pageant Corp. will present "The Drunkard" a moral melodrama at the Billy the Kid Pageant Grounds in Lincoln on Aug. 16, 17, 18, 23, 24, & 25. Showtime is 8 p.m. Admission: \$3 adult and \$1.50 for children and senior citizens.

Bring your own chairs or blankets to sit on the ground. The audience is invited to boo and hiss and throw popcorn at the villain.

## Recital in C'zozo

Miss Jeanette DeTevis, daughter of Mr. and Mrs. Joe DeTevis of Carrizozo, presented a vocal recital Saturday evening, August 11 in the home of Mr. and Mrs. Stirling Spencer in Carrizozo. She was accompanied at the piano by Phyllis Schlegel.

Miss DeTevis, a soprano, opened her program with three

Italian Art Songs by Rossini, followed by a song of spring by the German Composer, Mahler, and a Swedish Folksong.

The next selections in English, were by Roger Quilter, Samuel Barber, and "Psalm XXIII" by Paul Creston.

After intermission Miss DeTevis continued with an operatic aria by Mozart and one

from Gounod's opera, "Romeo and Juliet".

Her finale was the coloratura number, "Love Is Where You Find It" by N.H. Brown.

Miss DeTevis is a junior at the University of New Mexico and studies under Professor Marilyn Tyler of the University and Carlene Wadley of Ruidoso.

Jeanette DeTevis, soprano and her accompanist, Phyllis Schlegel.

COLIN McMILLAN—

# Commentary

The dictionary defines a credibility gap as "a discrepancy between official statements and actions of a government."

Gov. Toney Anaya's administration seems to fit this definition.

Richard Nixon resigned the presidency 10 years ago because of it.

Jimmy Carter lost to Ronald Reagan because a majority thought there was a gap.

In the past 19 months, Gov. Toney Anaya has been systematically destroying the credibility he acquired as New Mexico's attorney general.

This began barely two weeks after Anaya's election. He had campaigned for no tax increase, but as soon as the election was over, he had a revelation that one was needed.

Anaya's credibility gap picked up momentum when he began firing members of boards and commissions who would not carry out his orders, while talking during the campaign about choosing only the best.

The initial publicized firing was of the Barber's Board, whose members clearly served at the pleasure of the governor. However, it spread to boards, such as the Board of Educational Finance, where the governor's authority for firing members was limited by law to those members who were guilty of malfeasance or misfeasance.

The facts were that the people he fired were removed because the governor knew they would not do his bidding.

Anaya's next attack on his own credibility was just prior to the 1984 legislative session when he created a commission on education whose sole purpose was to give the governor an excuse to increase taxes for the second time in two years.

There was no attempt made to take a balanced look at the problems in our educational system, which was shown by his selection of former Democratic national chairman and the University of New Mexico professor Fred Harris, as its chairman.

The commission lacked credibility with the Legislature because legislators knew that they could get the same answer the commission gave them by asking the governor's staff.

After a disastrous legislative session, the governor set about electing Walter Mondale for president.

Mondale took a beating at the polls in the New Mexico primary. Having helped out Mr. Mondale, Anaya then left for Europe.

First, he visited Rome where his press releases suggested that the reason he was unable to see the Pope was that he couldn't work it into his schedule.

He intimated upon his return from Europe to the press and to all who would listen, the reason Mondale failed to select him as the vice presidential nominee was because of the poor phone

service in Europe.

New Mexicans who serve in the military or travel to Europe on business or pleasure know the telephone is as commonplace in the capitals of Europe as it is in Santa Fe.

With an apparent desire to do as much for Judy Pratt in the general election as he had done for Walter Mondale in the primary, Anaya recently began to take on fellow Democrats who support Sen. Pete Domenici, R-N.M., over Mrs. Pratt.

He threatened to ostracize

former Gov. Jack Campbell because of his support for Domenici.

Campbell, both independent and highly respected by members of both political parties, essentially told Anaya to go jump in a lake when he said, "I'll make my own political judgements. My support of Domenici is not connected to Gov. Anaya, that I know of."

Next, Anaya fired long-time Democrat Gary Blakeley from the crime commission and fired former Roswell Mayor Jerry

Smith, a Democrat, from the Chaves County Flood Commission for their support of Domenici.

Smith, concerned that the duties of his office are carried out by a competent replacement said, "I hope Gov. Anaya recognizes the seriousness of this job. This is not the run-of-the-mill political back-appointment."

Smith has clearly expressed the problem facing New Mexico as Anaya's credibility gap widens.

Will capable and competent

people come forward to serve in an administration where there exists such a discrepancy between what the administration says and what it does?

If they won't, New Mexico

may be in serious trouble because many of the day-to-day decisions involving the operation of state government will be left to those who are willing to be the governor's rubber stamp.

# IT'S THE LAW New Mexico State Police

COMPILED BY RANDY RHUE

Sorry to have missed last week's article, but it couldn't be helped. I will continue this week and next week on the laws of pedestrians.

## 66-7-336; SCHOOL CROSSINGS:

A. Crosswalks may be established over highways abutting a school or the grounds adjacent thereto, and all children crossing the highway shall be required to do so within the marked crosswalks. The state highway commission, with respect to state highways, and local authorities, with respect to streets under their jurisdiction, with advice of the local superintendent of schools, shall establish and mark, or cause to be marked, these highway crossings.

B. Crosswalks over highways not abutting on school grounds may be established by the state

highway commission with respect to state highways, and by local authorities, with respect to streets under their jurisdictions, with advice of the local superintendent of schools and after adequate assurance has been given that proper safety precautions, pursuant to regulations of the state highway commission and of the local authorities. Responsibility the school is located.

C. At all school crossings except as provided in this section appropriate signs shall be provided as prescribed by the

state highway commission or local authorities within their respective jurisdictions, indicating the crossings and regulation traffic movement within the school zone.

D. School crossings are not required to be specially posted when they are located;

(1) at a signalized intersection;

(2) at an intersection where traffic is controlled by a stop sign; or

(3) at a point where a pedestrian tunnel or overhead crossing is provided.

## 66-7337; DRIVERS TO EXERCISE DUE CARE:

Notwithstanding the foregoing provisions of sections 66-7333 through 66-7340 in the N.M. law book, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn when necessary and shall exercise proper precautions upon observing any child or any confused or incapacitated person upon a roadway.

Remember IT'S THE LAW!!!

HARRY C. PENTTALA, Assistant Postmaster General, presents an album of first day issue stamps to Smokey Bear. The commemorative stamp honoring Smokey Bear is the first time in U.S. Postal Service history that a stamp honors a bear. Albums were presented to other distinguished guests, also.

COMMAND SERGEANT Major Harry Harris, Captain Trent Keeble, and Major General Niles J. Fulwyler, Commander, White Sands Missile Range, were among guests attending first day issue ceremonies for the Smokey Bear commemorative stamp. Presentation of Colors was by the Color Detachment, from White Sands Missile Range.

## News brief

Rebecca Barber who graduated with honors in May from Capitán School was recently awarded the Presidential Fitness Award by President Ronald Reagan.

Rebecca will leave Aug. 16th for a three year tour of duty with the U.S. Army. She is the daughter of Mr. & Mrs. Ralph Barber of Capitán, and the grand-daughter of Cora Dutton.

**Is land improvement a part of your plan?**

If it is, you might be needing a lender. At your Land Bank you'll find we offer long-term financing for improving agricultural land as well as for buying additional land. We're specialists in long-term agricultural credit...people who know and understand the special needs of farming and ranching. Give us a call!

## TIP CLIPS

By POLLY CHAVEZ

All-around money saving ideas, hints, advice, solutions, shortcuts for mothers and others.

- CLEAR NAIL POLISH**  
Try clear nail polish when the adhesive on an envelope flap or postage stamp has failed to stick.
- CUT COSTS**  
A recent tip concerning wetting the string used to prepare packages for mailing proved to be costly according to a column reader. Using string on packages results in a higher postal fee. Check with your postmaster about guidelines for mailing packages.
- TRIP FUN**  
A metal cake pan with a sliding plastic cover is handy for holding crayons and coloring books. The top serves as a work surface. The art box can be stored under the seats in the car or truck.
- MEMORIES**  
When your daughter, granddaughter or niece outgrows a favorite dress or blouse, save it. When enough dresses are saved cut them into quilting blocks. The extra special coverlet will make a nice gift.
- OVERNIGHT SOAK**  
If the spray nozzle in the bathroom has become clogged due to hard water, remove the nozzle and soak it overnight in vinegar. Next day scrub with a toothbrush. Repeat vinegar treatment if needed.
- PET WATER PAN**  
A discarded angel cake pan makes an ideal drinking pan for your dog or cat. Drive a stick through the center hole in the pan and into the ground. The pan will not be tipped or overturned.

## LINCOLN— Ramblings

By ROSALIE DUNLAP

Mr. & Mrs. John Thomas attended a family reunion in Lubbock last week.

It is still raining. The Bonita River is running, but not too high, but oh, it is muddy. Lincoln Sunday and Monday received almost two inches of rain in a very short time.

The Lincoln Festival Pageant Corp. met Sunday evening. It was reported our attendance was close to past years. It is amazing how much the same it is year after year. Discussions of various problems and plans for next year were on the agenda. Plans were made to clean the fire house so meetings and other activities could be held there.

How many saw the fire engine red airplane go over Lincoln Sunday? Corona had it's day Saturday. Although it was too muddy for the horse show, everyone had a good time visiting, attending the arts and crafts and partaking of the delicious mexican dinner put on by the Senior Citizens.

Monday the day began by the presentation of the "E" Award from the Federal Trade Commission to Mr. & Mrs. Jim Cantrell of Carrizozo. The honors were done by Sen. Pete Domenici. A good number of friends and neighbors attended the reception.

Later everyone went to Capitán to attend the Smokey Bear Stamp celebration.

It was great to hear Elliot Barker tell his story. He is 98 years young and he has a sharp, clear memory of the trials and tribulations of getting Smokey to be accepted by Washington D.C. Pickens and Ray Bell then told parts of the Smokey the Bear Saga. It was too bad Ray Bell was among the last because his story was for the young people and they were all outside playing by that time.

Another interesting sidelight. The artist Rudolph Wendell who did the stamp also did the lettering on the first Fire Prevention poster, a copy of which now hangs in the museum at Capitán.

The Lincoln Historic Zoning Board held its first meeting last week with all members and several townspeople attending. Ofelia Salas stresses co-operation and working together to make the new ordinance work.

The Ruidoso Little Theater is busy rehearsing "The Drunkard" to be performed at the pageant grounds Aug. 18-19 and 23-25 at 8 p.m. Admission is adults, \$3 and under 12 and senior citizens \$1.50.

The Albuquerque-Bernalillo County Economic Opportunity Board in Lincoln County is having a Commodities Distribution:

**SCHEDULE**

At Capitán Senior Citizens	Aug. 28, 1984 (10:00 to 2:00)

## "Flying Review" acknowledges Carrizozo

The August issue of "Flying Review" features a two-page spread of the first Carrizozo Fly-in held June 23rd. Jim Kinlen, publisher of "Flying Review" which is known as "The Voice of Aviation in the Southwest", had flown in to cover the big event. The article begins with a description of Carrizozo and the surrounding area. Next it explains the reason for the fly-in was to show off the just completed renovation and goes on to mention the airport's potential. A picture of Dr. Dale Goad frying doughnuts is among the seven pictures that show people attending or working at the fly-in. One section covers the airport committee, who they are and what they do. Another tells of the sky writer, Bill Owens of

Roswell, and other activities of the day. Kinlen says in the article, "those Carrizozo folks in their well-worn Levis, real western hats, cowboy boots that actually see work, windburned faces, clear gazes, open and friendly ladies and men are the folks who really have style. You don't see phonies in velvet jeans and rhinestone shirts or a bunch of scumbums polluting the landscape and, boy, is that refreshing!" Kinlen also suggests that pilots who live in the cities "think about loading up the bird and heading to Carrizozo for a weekend or so." He lists Zozo's attractions and ends the article with, "...and guess what? It's a safe, friendly community."

## School board hires special ed teachers

A special meeting of the Carrizozo Board of Education was held Aug. 8 to consider the resignation and employment of staff and approve bids. Board members accepted the resignation of Mr. Peckinpaugh mid-school language arts teacher. Karl Fron, of Carlsbad, was hired to teach high school special education. Mrs. Amba Manning, of Austin, Texas, was hired for the half time elementary special education teaching position. Erika Ventura was hired as head girl's volleyball coach. She will run the varsity program. Dr. Miller reported to the

board that the band director that had been hired decided to go to Albuquerque. Carrizozo is presently interviewing for a band director and a language arts teacher. The bid from Nobel, Inc. was approved for a commercial range with 10 burners and two convection ovens underneath. Insulation of buildings is underway. The carpet should be in the high school hallway before school opens the 27th. The scoreboard is to be installed soon. The swimming pool will remain open two more weeks. The next regular meeting will be held in Nogal Tuesday the 21st.

### LEGALS

#### REQUEST FOR PROPOSALS

The New Mexico Health and Environment Department is seeking providers of alcoholism treatment services for the period October 1, 1984, through June 30, 1985, in two categories: (1) Competitive: the applicant proposes to provide the same type of alcoholism services to the same community that another contractor now provides. (2) Alternative: the applicant proposes to replace part or all of existing alcoholism services in a community with a different service program on the grounds that the new program reflects more accurately the needs of the community or is more cost-effective than the current program. The applicant may be the same or a different provider than is currently offering services in the community. All applicants, including existing providers, shall send a Letter of Intent by 5 p.m., August 20, 1984, to the Alcoholism Bureau, BHSD, HED, P.O. Box 968, Santa Fe, NM 87504.

### LEGALS

Proposal packets will be sent to all applicants on August 22, 1984. The deadline for final proposals will be September 7, 1984. Please call Lance Christie or Joe Gallegos at 984-0020, X 463, or 800-432-2070 toll-free to answer questions about current funding and programming. FEDERAL AVIATION ADMINISTRATION INTENT TO PREPARE AN ENVIRONMENTAL IMPACT STATEMENT: PROPOSED NEW AIRPORT TO REPLACE THE RUIDOSO MUNICIPAL AIRPORT, RUIDOSO, NEW MEXICO

The Federal Aviation Administration (FAA) intends to prepare an Environmental Impact Statement (EIS) for the

proposed construction of a new airport to replace the Ruidoso Municipal Airport, Ruidoso, New Mexico. The airport would be a transport category airport with ultimate development of a 12,900-foot primary runway with precision instrumentation and a crosswind runway.

Possible alternatives include alternative sites as identified in a site selection study and the alternative of taking no action with respect to a new airport, which could involve utilization of outlying existing airports.

The Bureau of Land Management will be a cooperating agency with FAA in preparation of this EIS.

The FAA intends to consult and coordinate with Federal, State, and local agencies which have jurisdiction by law or have special expertise with respect to any environmental impacts associated with the proposed project. To solicit input, two scoping meetings are being scheduled. The first will be August 29, 1984, in the Village Council Chambers of the Municipal Building, Ruidoso, New Mexico, from 1-3 p.m. and 7-9 p.m. The second meeting will be August 30, 1984, in the City Hall Conference Room, Carrizozo, New Mexico, from 1-3 p.m. and 7-9 p.m. Interested persons and agencies are invited to attend the scoping meeting to identify those issues which may have significant environmental impacts.

Persons interested in attending the meeting or those who desire additional information should contact Mr. Bill Howard, Manager, FAA Airports District Office, 2930 Yale, SE, Room 109A, Albuquerque, New Mexico 87106, telephone (505) 766-2885. DATED: August 2, 1984

### LEGALS

NOTICE is hereby given that on July 10, 1984 Mr. M. H. Blaugrund, P.O. Drawer 168, Alto, New Mexico 88312 filed application number 02107 with the STATE ENGINEER for permit to change point of diversion to a well and place and purpose of use of 19.2 acre-feet

per annum of surface waters by ceasing the use of said surface waters diverted from Storm Ditch, tributary of the Rio Ruidoso, which is a tributary of the Pecos River, at a point in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 5, Township 11 South, Range 17 East, NMPM, for the irrigation of 6.0 acres of land located in Pt. SE $\frac{1}{4}$ NW $\frac{1}{4}$  and Pt. NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 4, Township 11 South, Range 17 East, NMPM, and commencing the use of said 19.2 acre-feet per annum of shallow ground water by drilling a new well, No. H-1922, 12 inches in diameter and approximately 500 feet in depth, at a point in the SW $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 33, Township 10 South, Range 13 East, NMPM, on 4.8 acres of land located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 3, Township 10 South, Range 13 East, for domestic and

commercial purposes. Applicant understands that permit will be based on CDR of 1.44 acre-feet per acre for a total of 8.64 acre-feet per annum. Application is also made for return flow credit of sewage effluent of up to 8.64 acre-feet per annum for a total diversion of not to exceed 17.28 acre-feet per annum. Sewage waste water will be in septic tanks in same stream system.

Any person, firm, association, corporation, the State of New Mexico or the United States of America, deeming that the granting of the above application will impair or be detrimental to their water rights, may protest in writing the proposal set forth in said application. The protest shall set forth all protestant's reasons why the application should not be approved and must be filed, in triplicate, with S. E. Reynolds, State Engineer, P.O. Box 1717, Roswell, New Mexico, within ten (10) days after the date of the last publication of this Notice.

PRICES GOOD THRU WEDNESDAY

Had it up to here with utility costs? Save 40% to 90% with AER/Solar Systems... for as little as \$16<sup>50</sup> monthly.

Now there is a solution to skyrocketing utility costs. An AER/Solar System can give you substantial, regular savings on space heating, water heating, or air cooling. Save up to 90% on your hot water, for example, starting the day you have it installed. Whatever your needs, AER/Solar has a unit just right in capacity and cost to suit your lifestyle, family size, and budget.

And it's never been more affordable. You'll be allowed a 40% Federal and a 25% State Tax Credit just for installing any AER/Solar System. Plus you'll reap the benefits of the added value to your home.

So go ahead. Declare your independence from utility companies — and start saving on your energy costs immediately.

Yes, I've had it with high utility bills. + For 36 months; \$100 down.  
 SEND me your FREE Solar information packet, or  
 CALL me to arrange a FREE estimate of how much I'd save with Solar energy.  
I understand there is no obligation, in either case.

**RITA'S** will be closed Sat., Aug. 18th. Will be back at work on Tues., Aug. 21st.

**SANTA FE, N.M.** — Even though it is two months before big game seasons open, now is an excellent time to sight in your rifle. It is easier to sight in a weapon now than to forget it entirely, and be stuck opening day with a rifle that doesn't hit what it's aimed at, according to a current issue of New Mexico Wildlife.

If your rifle is new, tighten down all screws that hold stock pieces to the metal, and those that hold down the scope. Dip them in a commercial liquid so they don't loosen later.

Then select an appropriate location for shooting—best are facilities of your local gun club, with its measured distances, bench rests and backstop berms.

Otherwise use a shooting table of some sort, and use two sandbags to support the butt and forestock of your rifle. The front rest should be adjustable and move up and down.

Set up a target at 25 yards and get on target by sighting through the barrel. Adjust the scope for the bulls-eye, and squeeze off a first shot. Fire no more than once a minute, to minimize distortion from a heated barrel. Move the scope click by click, each notch usually

being one-quarter minute angle, to move your shots closer to the target center. Move rear metallic sights in the direction you want the next bullet to go. If you are shooting to the left, for example, move the sight to the right.

After zeroing at 25 yards, check a three-shot group at 100 yards. At that range, most modern cartridges will hit from one to three inches high, will be close to zero at 200, slightly low at

300. Then you'll be able to make good shots at 100, 200 and 300 yards—an excellent configuration for a modern hunting rifle in New Mexico. One estimate holds that 95 percent of all our deer and elk are taken within 150 yards.

Later, let the weapon cool, and clean it. Then fire a round or two at 200 yards to see if the first shot from a clean barrel is different. The first shot in the field may be the only one you get.

### Capitan Village Council

Notes from the unapproved minutes of the Capitan City Council meeting—Aug. 13.

Report on planning and zoning study session—Volunteers are needed to serve on a committee which will review other ordinances, make contacts with other cities, and prepare a preliminary plan for Capitan. Volunteers should see Mayor Cummins or sign up at city hall. The number to call is 354-2247.

All bids concerning the booster pump station were rejected as they were much too high. The engineer is to redraw and rebid a more feasible plan.

The village audit will take place early in September.

Mayor Cummins was commended for the excellent job he performed in presiding over the luncheon at the Smokey Bear First Day Stamp Issue Celebration. During this luncheon a telegram was read from President Reagan and comments were made by Senator Domenici and U.S. Representative Joe Skeen.

The Village of Capitan will continue its study of the feasibility of constructing a new fire station.

Thomas Hammontre, New Mexico patrolman, has been employed as a patrolman.

Terry Cox will see what can be done to improve water drain off when it rains.

It was determined that the village is not liable for the access to the Jimmy Bizzell property.

Proposed - 84-5 - Admended Business Registration Ordinance allowing for its enforcement and setting penalty fees.

84-6 - Adds DWI to Mandatory Financial Responsibility Act.

The Capitan City Council will meet next on Sept. 10 at 7 p.m.

### News Briefs

**WASHINGTON, D.C.**—Congressman Joe Skeen, R-N.M., today introduced legislation that would make it legal for the Macias family from Alamogordo to remain in the United States.

"These are good people who have demonstrated a love and dedication to their adopted country," Skeen said. "It would be a travesty to see them deported. They are an asset to Alamogordo, to New Mexico and to the United States. They are the kind of people we should encourage to become citizens of our country."

Juan and Margarita Macias and their son and daughter, J Juan and Mary, have been ordered returned to their native Bolivia by the Immigration and Naturalization Service. They have lived in Alamogordo under temporary immigration status since 1978. Mrs. Macias has operated Daisy's Beauty Shop since 1978 and the family opened the Kachina Kitchen Cafe in the White Sands Mall in March of 1982. They are well known and highly thought of in the community, Skeen noted.

Lincoln County Sheriff's Deputy Chuck Flanagan of Ruidoso, is an instructor at an "Arson School" being held in Socorro this week. The Arson School, is sponsored by the State Fire Marshall's office, is being held for all law enforcement agencies in New Mexico.

Connie Hopper, Lincoln County Sheriff's Deputy from Ruidoso is attending the week long school.

105 Hour Class will start in the Alto and Hondo Valley areas this fall. Class sessions will be three hours long, two nights per week. No previous training required (CPR training would be helpful). Minimum Age: 18 or Senior in High School.

Lincoln County EMTs are dedicated, professional, paid volunteers. Learn to help your friends, neighbors and your family in emergency situations. Your cost is \$30.00 for 34 sessions.

Training Includes: Trauma, Assessment and Treatment, Medical Emergencies, Heart Attack, Diabetes, seizures Stroke, Breathing Problems, Environmental Emergencies, Heat Burns, Cold, Poisons, Stings, Bites, Water. Extrication from wrecks, childbirth, and much more.

If you are interested in working with us, please call: Lincoln County Manager's Office, 648-2337.

EMS is a system to save lives—JOIN US!

## Taking The Bite Out Of The Bear.

Even during bull markets, some Wall Street investors worry about the bear showing up to take a bite out of them. But you can get the best of the bull and take the bite out of the bear, if you join the Payroll Savings Plan and buy U.S. Savings Bonds. Bonds have a variable interest rate that lets you share in higher returns during bull markets and a guaranteed minimum to protect you against the bear.

Bonds give you the best of both markets. Because you know that if the bear should appear, his growl will be worse than his bite.
