

Lincoln County courthouse offices will be closed on Monday, Sept. 2 in observance of Labor Day.

Business will resume as usual on Sept. 3.

\$71,000

to C'zozo Schools

By RUTH HAMMOND
Carrizozo Municipal Schools will receive \$71,000 from Critical Capital Outlay for building a computer lab and a mid-school science lab on the north end of the Maniere building.

Carrizozo School Superintendent Dennis Sidebottom was in Santa Fe Wednesday when the announcement was made. He told the News: "It (the computer lab and mid-school science lab) will help us maintain our competitive edge in both computer technology and science."

Critical Capital Outlay money comes from the state government and is available only to schools that are bonded to 76 percent capacity. The committee is willing to help schools that are helping themselves.

Sidebottom and Computer teacher Bob Hemphill were in Santa Fe earlier this month to request \$69,500 for the addition to house the labs. Information given to the Committee that possibly helped Carrizozo obtain the money included a list of national and statewide awards that students have received in the last several years. They are:

1981 - National School Board Scholarship (Computers)
1983 - First place, Computers in Agriculture

1983 - Regional Winner, New Mexico Science Fair (Computers)
1984 - Recipient of an "Excellence in Education Award" from the Department of Education

1984 - Presidential Math-Science Excellence Award
1985 - Ruidoso Math-Science Bowl, First place-Chemistry, Second place-Biology, Second place-Physical Science

1983-84 - Four high school Regional Science Fair Winners
1984-85 - Five high school Regional Science Fair Winners

1983-84 - Three mid-school Regional Science Fair Winners
1984-85 - Four mid-school Regional Science Fair Winners
1984-85 - Four participants in Project Uplift

Carrizozo students score well above average on the science portion of both CTBS and ACT assessments. They take science field trips to Carlsbad Potash Mines (chemistry), Bernalillo County Medical Center (biology), VLA (physical science), Ruidoso Dam (biology), and Carrizozo Recreation Center (biology).

Carrizozo schools have spent over \$14,000 inoperational money on computers in the last two years and over \$9,000 in operational money on science material and equipment in the last two years.

The information sheet given to the Critical Capital Outlay Committee states: "We feel these awards and activities show our expertise and instructional energy in the fields of science and computer education." It further states: "We have been very competitive in the past in these two areas. We now feel that it is imperative that we construct both a Mid-school Science Lab and a Computer Lab if we, as a small rural school, are to continue to provide our students with a quality education in these areas."

The \$71,000 will be available immediately for the addition for the Computer lab and mid-school science lab.

McKnight family disagrees

TERRI BUSSEY, Capitan, told reporters at Lincoln County Sheriff Tom Sullivan's press conference on Monday that she had over 100 signatures on a petition that will be presented to County Clerk Fran Siddens for verification. Mrs. Bussey is the sister of Judy McKnight, who was murdered last November alongside her husband "Cotton" McKnight. Mrs. Bussey and Cotton's brother, Pancho McKnight, need more than 200 signatures on the petition to request a grand jury investigation into the murders.

By RUTH HAMMOND
The investigation into the murders of Thomas "Cotton" McKnight and his wife Judy McKnight has continued for months. The McKnights were murdered in their home near Picacho last November.

Family members are not able to agree as to how the case should be handled.

Terri Bussey of Capitan, sister of Judy McKnight, and Pancho McKnight, brother of

Cotton McKnight, are circulating a petition for signatures of registered voters in Lincoln County. The petition will call for a grand jury investigation into the murders.

Joe McKnight, 75, father of Cotton and Pancho, is against the petition.

Mrs. Bussey had more than 100 signatures on her petition on Monday. The petition must have not less than 200 signatures to be presented to County Clerk Fran

Siddens for verification of signatures. Once the signatures have been verified, the county clerk will then present the petition to a district judge.

District Judge Richard Parsons told the News on Wednesday, "I will have to review the petition at that time."

Parsons explained that a grand jury becomes an independent branch of the judicial process. The grand jury does not determine guilt or innocence, the grand jury determines probable cause. Eight out of 12 members of a grand jury can "True Bill" a person and call for an indictment.

Lincoln County District Attorney James Weldon called a press conference on Aug. 23 to explain his involvement in the case.

Lincoln County Sheriff Tom Sullivan called a press conference on Aug. 26 in response.

The McKnight murder case will continue to be in the headlines until the question is answered. "Who killed Judy and Cotton McKnight?"

Judge issues "Gag Order" in McKnight case

By RUTH HAMMOND

District Judge Richard A. Parsons issued an order on Wednesday, Aug. 28, that will put an end to any and all statements concerning the McKnight murder case. The order IN RE: MCKNIGHT

ORDER

THE COURT upon its own Motion has determined that immediate past conduct of one or more parties has the effect of directly influencing the orderly and impartial administration of justice to the extent that there is a reasonable likelihood of preventing the selection and impaneling of an impartial jury.

IT IS THEREFORE ORDERED

1. This Order shall be binding upon all attorneys, including but without limitation, Steven K. Sanders, Attorney for the Lincoln County Commissioners, James J. Weldon, District Attorney, and their respective agents, servants and employees, including but without limitation, the Sheriff's Department of Lincoln County and all Deputies and Investigators as well as the Deputies and Investigators of the District Attorney's Office.

2. No party covered by the Order shall make or issue any written or oral statement concerning the merits of the referenced case, the evidence, actual or anticipated, any information concerning the witnesses or any statements concerning the respective duties and obligations of the various departments including the Sheriff's Department and/or the Office of the District Attorney, who is the Chief Law Enforcement Officer of this Judicial District. No party shall directly attempt to avoid the effect of this ruling by disclosure of any matter to any person or persons. This Order shall not apply to documents filed in any cause hereinafter brought in this Court.

3. Any party affected by the Order may be heard upon seventy-two (72) hours written notice to all affected parties. Conform to this Order under penalty of law.

Richard A. Parsons
District Judge,
Division III

CARRIZOZO STREETS continue to deteriorate. Lack of drainage structures causes the water to pool and damage the streets even more. Substantial assistance will be needed to begin street improvement.

C'zozo streets need work

Carrizozo's already deteriorating streets have suffered additional loss this past year. The Paving Advisory Committee issued a report stating that \$100,000 in damage to roadways and drainage occurred last winter.

The Paving Advisory Committee was appointed last October by the town council to assist in obtaining roadway and drainage improvement funds. Patsy Sanchez, trustee in charge of streets, has been working with the committee members.

Estimates made in October 1984 for resurfacing and repairs were in excess of one and one-half million dollars to pave the southeast side of town. Drainage structures need to be added to areas without paving of any type.

The project was to be phased in over a three year period with use of state highway department matching funds and local infrastructure tax receipts to be used. Efforts to begin the needed project were postponed when the state's Community Development Council funded other projects in December of 1984.

Extensive potholes, pavement disintegration and subgrade deterioration were just

some of the damage Carrizozo streets received during the severe snow and ice storms of the exceptional cold winter of 1984-85.

Immediate substantial assistance will be needed or Carrizozo streets will soon resemble the frontier streets of long ago.

New athletic policy adopted

By RUTH HAMMOND
Carrizozo Municipal Schools board members adopted an athletic policy on discipline during the Aug. 20 meeting. The policy states:

An athlete that is positively identified for breaking a training rule concerning drinking, smoking, or drugs will be disciplined accordingly. (1.) First offense-run 50 miles; five miles per day or ten school days, athlete can not compete. (2.) Every offense after the first - increase the punishment by 50 miles. If the athlete chooses not to complete the assigned task,

they will be asked to turn in their uniform.

Board member also adopted an increment schedule, hired Denise Vega as teacher's aide, and hired Trudy Torrison as school health aide.

It was announced that the school buses had passed inspections and had stickers. Board members decided to reduce the mileage reimbursement from 22 cents a mile to 20 cents a mile. If the reimbursement was left at 22 cents a mile, the district would be required to withhold taxes, etc.

School Superintendent Dennis Sidebottom explained the gasoline purchase schedule. Gasoline and oil for school vehicles will be purchased from a different vendor each month. The rotating schedule guarantees each vendor a portion of the school purchases.

Sidebottom also displayed

the merchant's booklet that is given to each school employee. The booklet lists business in Carrizozo, addresses, phone numbers, and gives a description of services and or products available. Sidebottom said the booklet is a way of saying "thanks" to people who donate money for the Grizzlies. On the front of the booklet—"Carrizozo Municipal Schools encourage you to support the businesses who support the 'Grizzlies'."

Mike Gaines was recognized as New Mexico Vo-Ag Teacher of the Year. He received a plaque during the summer conference in Las Cruces. Gaines has been teaching Vo-ag in Carrizozo for 5 years. At the end of his third year of teaching, he was recognized as the New Vo-Ag Teacher of the Year in New Mexico. Receiving the award this year makes him eligible for the regional Vo-Ag Teacher of the Year.

Sidebottom and Computer teacher Bob Hemphill had attended the Critical Capital Outlay Meeting in Santa Fe to request \$69,500 to build an addition to the north end of the Maniere building for a computer lab and a mid-school science lab.

Goals for the 1985-86 school year include putting a new roof on the Maniere building, bids for the new roof will be opened Sept. 23, running an ACT test taking program for juniors and seniors, and offering an abbreviated community education program with the following classes possibly being included: welding, weaving, sewing, gymnastics, and computers.

The classes will be given at different times during the year for the convenience of students who wish to take more than one class. Suggestions for more or different classes may be made by calling 648-2347.

\$364,000 narcotics siezed

By RUTH HAMMOND

July 1985 was a busy month for Lincoln County Sheriff's officers. They seized \$364,000 in narcotics handled six narcotics cases, recovered \$1,200 in stolen property and collected \$4,661.69 in checks. The recovery rate for stolen property was eleven percent; there was \$10,215 in property reported stolen and there was one extradition.

The dispatchers monthly log listed eight wrecks, (no injuries), 16 ambulance calls, 17 wrecker calls, 13 fire calls, 4,073 phone calls, 7,736 radio calls, 2,486 teletype messages, and 823 walk-ins.

The monthly jail log for July 706 total man days, 2,118 meals served, 171 Camp Sierra Blanca prisoners, four juvenile prisoners, 90 alien prisoners, eight local prisoners, and 69 hours of training.

The sheriff's department totals: 23 arrests, 26 citations, 200 traffic stops, 241 calls handled, 110 civil papers served, 128 offense reports, 36,206 miles driven, 2,894 gallons of gas used, 37 cases cleared, 27 cases active, 13 traffic accidents, 53 animal calls, seven crime prevention program contacts, 22 meetings, seven training sessions, 81 hours in court, total vehicle expense of \$4,736, six narcotics cases, and the value of narcotics seized was \$364,000.

Jr. deputies to meet

There will be a regular meeting of the Corona Junior Deputy Sheriffs League on Sat., Aug. 31, at 10:30 a.m. The meeting will be held in Room 117 of Corona High School.

Students who are 7 years old and older and want to join the Junior Deputy Sheriffs League are encouraged to attend.

HONDO VALLEY SCHOOLS—

Eufracio Vigil new superintendent

The Hondo Valley Schools opened their doors for the new school year on Monday, Aug. 26. The elementary school met its projected enrollment. The high school was down some 16 students from its projected figure.

Hondo begins the school year with the following new certified staff members: Superintendent-Eufracio Vigil, High School Principal-Jack Smith, High School Counselor, social studies and Spanish-Guillermo Maldonado, Jerry Peckenpough will teach art, P.E., English, and serve as the head football coach. Laura Leal will teach the 4th grade and Theresa Lammers will be the 1st grade teacher. A new aide this year is Victoria Garrett.

The Hondo Eagles play 6-man football. This type of football is wide open and exciting to watch and play. The Eagles have a game scheduled at Quemado on Sept. 7. This game is set for 2 p.m. Hondo travels to Vaughn on Sept. 13 for a 7:30 p.m. game. First home game on the schedule is Sept. 20 with Magdalena. Game time is 7:30 p.m.

Principal Jack Smith had

this to say to the News reporter: "My policy for many years has included input from many sources such as teachers, students, staff, community and other patrons. The Hondo Valley Schools offer a high quality education of which we can be proud. I invite all local school patrons to come visit "our"

school. My door is always open." The Hondo Valley Schools operate on a 5 day week with classes beginning at 8:30 a.m. and ending at 2:45 p.m.

The Board of Education consists of the following members: President-Jimmy McTeigue, Vice President-Ken Fendergrass, Secretary-Teddy Clements, and members Alberto Montez and Raymond Montano.

The Hondo Schools observe the following holidays: Sept. 2-Labor Day, and Sept. 3-Eastern New Mexico Fair Day.

NEW EAGLES—New certified personnel in the Hondo Schools this year are - Seated - l. to r. - Laura Leal - 4th grade, Theresa Lammers - 1st grade. Standing - l. to r. - Principal Jack Smith, Coach Jerry Peckenpough, and Superintendent Eufracio Vigil.

Sr. olympics

Senior Citizens from Capitan and Carrizozo attended Senior Olympics in Las Vegas at Highlands University, Aug. 8-11 and a great time was had by all who attended.

Dorothy Payne of Carrizozo won the gold in horseshoes. Bud Payne won the Silver in horseshoes. Bessie Jones of Capitan

won the gold in Pool. Stanley Pew of Capitan won the bronze for reciting poetry. Angela Proving of Capitan won a bronze and two fourths in the track events. Amy Barton, MD, Carrizozo won the gold in table tennis along with a bronze in the same event.

A five member team, Luci Montes, Gladys Pew, Bessie Jones, Irene Haines of Capitan with Dorothy Payne of Carrizozo won a third in the balloon popping contest.

Lois Aldrich of Capitan participated in horseshoes as well as Eddie O'Brien, Fabian Valdarama and Bucky Baer all of Carrizozo participated in pool; with AJ Haines and Stanley Pew of Capitan all participating in pool.

Linda Padilla, Barbara Ward, John Jiron and Helen Esthmiou were the back up, getting people where they needed to go and cheering them on

BEWARE! Drive with care. Many mothers are out in the streets celebrating the opening of school.

HOSTED REUNION The Hatch reunion on August 17 and 18 was hosted by Mr. and Mrs. Richard Hollis Sr., Rob and Troy Carrizozo, Mr. and Mrs. Rick Hollis Jr., Brandon and Nathan, Las Cruces and Airman Randy Hollis, Ellsworth AFB, Rapid City, SD. (Julia, Richard Sr.'s wife, is a member of the Hatch family.)

All of Julia's brothers and sisters attended except for Mrs. Edna Cochran of Lubbock, TX. Those in attendance were: Mr. and Mrs. Joe Hatch Jr., Plainview, TX; Miss Cindy Mitchell, Lubbock, TX; Mr. and Mrs. Harley M. Hatch, Mrs. E. K. Hufstiedler, Mr. and Mrs. Brian Pruitt, Luke, Jarratt and Jeffrey, Plainview, TX; Mr. and Mrs. Jimmy D. Hatch and Jason, Mr. and Mrs. Gary Stach, Casey and Abbie, Amarillo, TX; Mr. and Mrs. Alex Quiroz, Paul, Daniel, and Rueben, El Paso, TX; Mr. and Mrs. Truman Collins, Kimberly and Kayla Hensgens, Mr. and Mrs. Henry (Butch) Bollich, Troy and Trent, Mr. and Mrs. David Dickerson, Cecil, Scott, Eric and Ann Marie, all of Ragley, LA; Mrs. Joy Lambert,

Tacoma, WA; Mr. and Mrs. Marshall (Corky) Langford, Dimmitt, TX; Mr. and Mrs. Howard Hatch, Mr. and Mrs. Richard Sims, Brenda, and Tracy, Harold King, all of Plainview, TX; Mr. and Mrs. Bill Kilgore, a beloved aunt and uncle of Carlsbad, NM.

REUNION ACTIVITIES

The Hatch family reunion participants went to Alamogordo on Saturday, August 17, toured the Omni Space Center and viewed the movie, 'Grand Canyon' at Tombaugh Planetarium, then had a cookout at White Sands.

Sunday, after attending church services at First Baptist in Carrizozo, a pot luck dinner was served at the Hollis home. The Louisiana group prepared the main course of fresh oysters and shrimp and crab gumbo. Next year the reunion will be held in Amarillo, TX.

N.M.H.U. TOUR

Margie Pino Hobby of Polvadera, NM is amazed at the number of people who visit Spain. Mario Ortiz of Carrizozo, son of Mr. and Mrs. Joe Ortiz, is one person that told Margie about his enjoyment of the country.

Margie continues this week with her account of another tour

stop in Spain by the New Mexico Highlands University group:

"The ancient City of Avila, Spain, is completely surrounded by a picturesque medieval wall pieced together with irregular bits of light-colored stone fitted together with precision. Several Roman tombstones from 1-3 A. D. were used in building the eastern section of the wall, which is reinforced by 90 gently-rounded lookout towers, each spaced about 25 meters apart. It is a most beautiful view to look upon the lengthy sunwashed wall enclosing the city from the Cuatro Postes lookout hill."

"Alfonso VI found this walled mountain city completely deserted in 1080 A.D. and decided to begin repopulating the scenic area. Among the first settlers were some famous masters of geometry, who planned the construction of the wall, which was carried out by almost 2,000 laborers."

"St. Terese (not to be confused with St. Terese of Lisieux, 'The Little Flower'), was born in 1515 of a good family in Avila, Spain. Ever since she joined the Carmelite Order, she felt strong reforms were needed in order to restore the Order to its past standards; thus, with much hard work, she founded 17 highly-disciplined convents during her 30 year calling. Among her well-known written works are, 'The Interior Castle' and 'The Way to Perfection,' for which she claimed guidance by the Holy Spirit, and for which Pope Paul VI in 1967 bestowed upon her the honor of becoming the first female Doctor of the Church. Her practical nature assisted her greatly in the administration of her many duties. On the other hand, she believed that joy was essential to spirituality and is long remembered for having brought much cheerfulness and good humor to her lifelong spiritual works."

RELIGIOUS HISTORY

Margie adds that it seems that Spain is steeped in religious history. The entire NMHU group enjoyed visiting the site of the famed saints of the past.

"The church, built over the

birthplace of St. Terese is constructed of large granite stone blocks, which lends a dark and cold air to the interior, which is alleviated somewhat by a few lofty stained-glass windows. The carved, wooden choir stalls were made by the foremost sculptor of the time, along with two helpers, one of whom died before the 11 year project was completed. The stalls are very elaborate with a carved cornice overhead."

"When St. Terese was 52, she

met Juan de Yepis y Alvarez (better known as San Juan de la Cruz), who nursed the poor at a young age after the death of his father. This young priest served as Confessor while St. Terese was the Prioress and he became very supportive of her work. They both had some close calls with the Inquisition, but after their deaths, it is recognized that they had both been exemplary models of spiritual development and that they were both worthy of sainthood."

"ONE GOOD THING ABOUT KINDERGARTEN-- THEY CAN'T PUT YOU BACK!"

CARRIZOZO REC CENTER

It's not too late to sign up for a bowling league for this season !

--Leagues beginning soon... Ladies... Senior Citizens... Mens... Mixed... Junior... Handicap... Beginners... & More !

--STARTING SEPT. 3-- Exercise classes in Aerobics, muscle toning, and stretching will be given at the REC CENTER, taught by Mary Spencer and Sandy Hartley. Tuesdays & Thursdays at 7 pm Saturday at 9 am.

— VISIT THE CARRIZOZO REC CENTER —

--Snack Bar... video games... bowling supplies... bowling shoes to rent... house bowling balls... ping pong... pool... and babysitting will be available for league bowlers.

by MARGARET RENCH

The first moisture we received last week was Sunday. It rained four tenths of an inch.

Labor Day is now a school holiday. Therefore, Capitan school is out Friday afternoon thru Tuesday to observe it.

The Capitan Volleyball Jamboree is to be held Sat., Aug. 31 here in Capitan. Capitan varsity plays Tularosa Sat., Aug. 31, at 8:30 a.m. and at 11:00 a.m. It is Capitan varsity vs. Alamogordo. Noon T or C vs. Capitan varsity; 1:00 a.m. Moriarty vs. Capitan and at 2:30 p.m. Capitan varsity vs. Socorro.

Here is the schedule for Aug. 31 for the Capitan Jr. Varsity Volleyball, 9:00 a.m. Capitan Jr. vs. Tularosa; 10:00 a.m. Capitan Jr. vs. Alamogordo; 12:30 p.m. T or C vs. Capitan Jr. varsity and at 1:30 p.m. Moriarty vs. Capitan Jr. At 3 p.m. Capitan vs. Socorro.

The Capitan Band Boosters Club held their pot luck supper Tuesday night August 27.

The Capitan Tigers will open their football season Saturday night August 31 by playing Artesia Varsity there in Artesia starting at 7:30. Coach Woodward will be suiting out some 22 players.

Old Corralis & Sagebrush is really going forward. They just received ladies sweaters, slickers and rain boots.

The Jennings Oil Company has purchased the "Olin's Quick Stop". We do welcome them to Capitan.

Ron Roybal is remodeling his office in the gas building. A new door and two windows have been added. Looks nice.

The Capitan Tiger football team travelled to Roswell on Saturday to scrimmage the Fort Sumner Foxes at the NMMI practice field. The Tigers are looking good this year with perhaps a little more weight and strong running backs in Chris Peralta and Mike Lund. All the football players seem to be in great shape and working well with their new head coach. The Tigers will play the Artesia JV on Saturday, Aug., 31 in Artesia. We wish them lots of success this season. Also...don't forget the volleyball jamboree on Saturday at the high school. There will be top notch volleyball all day.

Robert Rummels traveled to Santa Fe on August 22 and 23 to represent the New Mexico Council of Outfitter Guides at the Game Commission Meeting. Robert is the vice president of the Council.

Everyone remember the Tiger Booster "Pot Luck Barbecue" on Friday night. All you have to do is bring a covered dish and enough meat to charcoal for your family and come and meet the coaches and players as well as find out what the club is about and how you can join and help support our youngsters. We would like to clarify at this time that the monies given to the Tiger Boosters and the funds raised do NOT go to the school. All finances are administered by the club itself with input from the coaching staff, and are doled out only on things which we feel are the most important to the athletes. It is not the intent of the organization to take over buying of equipment, etc. for the

everyone. From Aug. 19-25 there were 1,766 registered visitors there and at the NM Smokey Bear State Park.

The New Mexico State Fair opens in Albuquerque September 6.

The Hotel Chango Restaurant is still serving good food with homemade bread and dessert. Sharon welcomes everyone to go in and visit.

The Capitan Jr. Rodeo Club held their last playday of this season Saturday morning August 24. All of those children have enjoyed those rodeo plays with sincere pleasure.

school...that will still be their responsibility; we simply feel that our kids need some of the extras that they have not been getting. If you wish to work with the young people and help them to do their best, we need you as a "TIGER BOOSTER". (The Tiger Boosters are NOT selling barbecue on Friday night. We will, however, furnish iced tea, and the charcoal and grills on which to cook your meat.)

The Capitan firemen and their families held their annual picnic last Sunday at the Baca Campground. The Smokey Bear Museum will change their hours from 9 a.m. to 5 p.m. to 9 a.m. to 5 p.m., Sept. 2, 1985. They have had a great summer. Thanks to

Mr. and Mrs. John Sawyer of Fortales visited Mr. and Mrs. Wayne Hobbs last Wednesday and Thursday.

Mr. and Mrs. Gerald Dean Jr. took their daughter Tammy to Lubbock Christian College in Lubbock, TX last weekend.

Mr. and Mrs. Kenneth Huey took daughter Tiffany to the Lubbock Christian College Saturday.

Shelly Eldridge is going to attend college in Snyder, TX.

Ben Dalton returned to his duties at Ft. Stanton Monday after several weeks illness.

TIGERETTE SENIORS—These players will see a lot of action Saturday in their own jamboree. Games get underway in Capitan at 8:30 a.m. Shown in this picture at the top is Coach Bill MacVeigh. Top of the "T"-J, to r. - Joan Leslie, Jana Harris, Becky Huey, Stephanie Stowe, and Michelle Nevarez. At the bottom of the "T" is Leslie Guck - behind Leslie is Tracy Herd.

MEMBERS NUMBER 25—

Tiger boosters organize

Tiger Boosters, Capitan High School Athletic Booster Club, met on Monday, August 19 to begin organizing a barbecue and membership drive to be held on August 30 at 6:00 p.m. on the Capitan High School Football Field. The dinner will be a "pot luck" with everyone bringing a covered dish and enough meat (hamburger, steak, etc.) to feed their own family. (The booster club will furnish the grills and charcoal.) Coach Woodward, head football coach, and Coach

MacVeigh, head volleyball coach, will have their teams at the barbecue to introduce them and explain their goals for the current seasons.

Tiger Boosters now has approximately 25 members with new folks joining daily. The organization has already allotted monies to the volleyball team to help with meals on their first overnight trip. Currently they are recruiting donations and funds to help the football team possibly stay overnight at Texico

instead of having to drive home so late. This is one of the primary objectives of Tiger Boosters; to come up with money to make life a little easier for our athletes and their coaches...to support each and every activity that they attempt...to show them that we know how hard they work to prepare for their sport.

Tiger Boosters will be meeting the third Monday of each month in the foyer of the Multi-Purpose Building at Capitan High School, at 7:00 p.m. We welcome all people who are interested in the youth of Capitan. To learn more about the organization or to join, we welcome you to the barbecue on the 30th. Please come out and see just how fine our young people really are.

All present members of Tiger Boosters are asked to be at the football field at 5:00 p.m. in order to set up.

Thanks to everyone for their help during the Lincoln County Fair.

R'doso Downs Arts & Crafts Fair starts

The 1985 Ruidoso Downs Arts & Crafts Fair will be held Labor Day weekend, Friday, Saturday and Sunday, August 30, 31, and September 1 from 9:30 a.m. to 6:00 p.m. daily. This years site will be in front of the Triple Crown Condominiums on Hwy. 70 east.

Some 75 artists and crafts persons will be exhibiting their wares at the Fair. They are coming from as far as the hills of Tennessee to the Pacific Ocean for you to view and purchase.

Of the many exhibitors at this years fair, a wide variety of arts and crafts will be shown. Among these are oils, watercolors, pastels, ceramics, pottery, woodcrafts, folk art, applique, quilting, weaving, needlepoint, macrame, and crocheted art. Jewelry, metal sculpture, wood carving, hand-crafted furniture and Indian mandalas are also some of the many crafts to be seen at the fair.

On Saturday, August 31 at 1:00 p.m., the first Annual Apple

Valley Apple Pie Baking Contest will be held. It will be judged by prominent area pie connoisseurs, otherwise known as the Ruidoso Downs Board of Trustees. Any one wishing to enter the pie baking contest may contact Betty Day at 378-4195 or Opal Armstrong at 378-8392.

While browsing among the many arts and crafts exhibitor's booths, enjoy a wide variety of Southwestern Foods offered by area clubs and organizations. Live music will be performed by the Flying J's of the Flying J Ranch. KOAW 1490am will be broadcasting live from the fair.

In conjunction with the fair, the Ladies Auxiliary are holding their annual Raffle for a 30.06 rifle with scope. The drawing will be held Sunday afternoon, September 1. You need not be present to win. There will be door prizes given away during the fair and must be picked up by Sunday at 4:00 p.m.. Admission to the fair is \$1 for anyone 12 years of age. Children free when accompanied by their parents.

by FRED McCAFFREY

SANTA FE—Pressure to reform the educational system rises about once every "generation" of students—that is, about once every 12 years.

Dr. Ernest Stapleton, senior educator on the advisory group assisting an interim legislative committee look at elementary and secondary education, says he has lived through four such major demands to revamp the schools.

Facilities at all levels will say to the lawmakers, "It's okay if you put off those big decisions till another day, but how about giving us a raise while we wait on you?"

It wouldn't be surprising if that's about what we get done in the next year. That may not make teachers mad, especially if they like the way we are doing things already.

Every time such a period moves on stage like Halley's comet, a discovery is involved. This whole process is not nearly so easy as it sounds.

LACK OF CLARITY: That's what those who have taken on the task of telling us what to do about New Mexico schools are presently finding out. They gave themselves too brief a time in which to arrive at conclusions on the subject.

Two of the legislative groups grappling with these matters haven't yet really gotten around to defining what the problems are. Different committee members, one can easily tell from their comments, view the basic difficulties very variously, and it isn't likely that their divergent views are going to be blended by the end of this year.

Lots of that has to do with what the layman sees when he looks at the schools and what the educator sees when he looks at the same situation. They seldom agree, yet both have a right to be heard on the topic.

ENDS AND MEANS: Even if these folks could come up with a diagnosis of the disease, they'd still have trouble writing the prescription.

Once again, opinions we have heard on every topic from what age to start kindergarten to how to handle post-graduate education have permutations that just won't quit. Almost no two individuals agree on anything about which direction to choose in correcting faults.

Start talking about auto emissions and at least people will agree about the nature of the problem. That allows them to move on to what to do about it. But with education, after wearying weeks of holding hearings, there is no indication that legislators are close to drafting any legislation.

And that, after all, is what they are here for. Unless some crisp new proposals emerge, expressed in language that both educators and ordinary citizens can understand, there won't be anything for the 1986 Legislature to do.

PREMATURE: That leads many commentators to conclude that those of the state's leaders who led citizens to believe some educational changes were imminent were themselves speaking too soon.

Hurrying action on this subject is likely to give us only more of what we have had in recent years — superficial changes we tended to talk about as though they were real accomplishments.

Smart folks are now saying, "Hey, there isn't much rush on this. Let's take our time and get it right."

But in the meanwhile, there is that never-ending debate about how much money teachers should get in their pay packets.

WELL, IF IT ISN'T POLITICAL BELIEFS THAT CAUSE PEOPLE TO SPY AGAINST THEIR COUNTRY—THEN WHAT IS IT?

Watch Over Washington

Strange contradicting in the Reagan war on AIDS

WASHINGTON — President Reagan's Department of Defense has admitted its serious concern about the 85 cases of AIDS which have been reported in the Armed Forces.

But Mr. Reagan's State Department has refused to answer questions as to whether there are any cases of AIDS in the US Foreign Service.

Deputy State Department spokesman Charles Redman was asked during an August 18 news briefing: "How many AIDS cases are there in the State Department?"

"I simply have no information on that," he replied.

Q: Since there were three State Department employees and a foreign service officer who were involved when the Washington police recently raided two of the largest homosexual prostitution rings in Washington, why is it that you are so unconcerned about AIDS?

DEPARTMENT OF STATE: No comment.

One foreign service officer, who helped open the US Mission to Peking, pleaded guilty in an Arlington, Virginia, court after being arrested as one of the proprietors of a homosexual prostitution organization called "The Stables." He is retired. The other three State Department employees, who were terminated, were found on the customers list of a Georgetown homosexual prostitution ring called "Friendly Models."

Spokesman Redman was asked earlier about Peking's Health Ministry, which, the AP reported on July 29, announced "an emergency quarantine to stop the disease from spreading." This action took place after Oscar Messing arrived in Shanghai from San Francisco and died of AIDS in Peking's Union Medical College.

DEPARTMENT OF STATE: I have no specific information on this, but I would presume the Chinese Government has taken measures which may be necessary for the protection of its citizens.

By striking contrast, no such quarantine has been put into effect in the United States, even though the spread of this killer epidemic has now become geometrical — in doubling every year. (As of August 2, the Centers for Disease Control reported 12,408 AIDS cases — with 6,212 of them dead, already.)

At the Walter Reed Army

Institute of Research Dr. Edmund C. Tramont noted studies showing that the Army may have 1,000 AIDS infection cases by the end of 1986. At a cost of \$500,000 per AIDS patient, "This has the potential to bankrupt our system," he said.

The Pentagon has proposed "blanket screening" of all military personnel for evidence of the HTLV-III AIDS virus. But homosexual groups such as the National Gay Task Force oppose such testing, in view of the possibility that it could lead to discharge from the service. The homosexual organization has also opposed the Armed Forces policy of requiring divulging the names of Armed Forces blood donors who test positive for antibodies to HTLV-III while donating blood to military or civilian blood banks.

This homosexual campaigning has not only protected the spread of AIDS but is liable to cause major expense to almost everyone in the nation. For Rob Bier, spokesman for the American Council of Life Insurance (620 companies) has warned: "AIDS could send that figure (mortality rates for young males) up significantly. Then, we'd be paying out more death claims, and to fund these claims, we'd have to raise our premiums to match."

At the Health Insurance Association of America, spokesman Amy Bierman noted the cost of treating AIDS patients as between \$50,000 and \$150,000. "We're talking about billions of dollars. We definitely see a potential for very high health care costs and, in turn, higher premiums."

Both life insurance and health insurance companies want to use the HTLV-III test to protect themselves. But here again the homosexual organizations have protested. And the states of Florida, California and Wisconsin have passed laws protecting the confidentiality of those taking the tests and preventing insurance companies from requiring the test.

The City Council of Los Angeles has passed by a unanimous vote an ordinance which prohibits discrimination against AIDS victims in health care, housing and employment. But producer-director John Derek has announced that no male actor will be allowed to act opposite his wife Bo without a

(Con't on P. 5)

Letters TO THE EDITOR

EDITOR—More goes on in the Republic of South Africa than meets the eye. Apartheid? Yes, it exists, although not nearly as much as it existed a few years ago.

The American press gives space to the demands of a group called the United Democratic Front. The UDF claims to be a front for some 600 organizations claiming a combined membership of 1.5 million. (Even if you doubt those figures, who could prove them exaggerated?)

Regardless, UDF demands are revealing: UDF demands that all political prisoners be released; UDF demands that South Africa's most famous (or infamous) black prisoners, Nelson Mandela, be released; UDF further demands that the African National Congress be legalized.

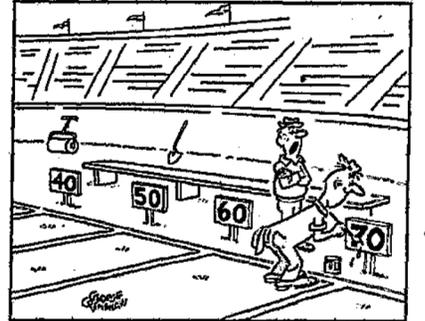

Unlike the United States, the South African government has serious laws against plotting or planning the overthrow of the government. They long ago outlawed the African National Congress on the grounds that it was directed from a foreign capital, in short it was a communist terrorist organization directed from Moscow. Nelson Mandela has served over 20 years in prison, convicted of sabotage. Reports out of Pretoria charge Mandela with being a black communist terrorist.

Recently in Kenya, the outlawed ANC sent its delegates to the United Nations Decade for Women Conference where the UN welcomed them. According to a report, an ANC chief delegate, Gertrude Shope, warned, "the next step is to make the entire country (The Republic of South Africa) ungovernable." (See REVIEW OF THE NEWS, 8-7-85, pg. 17)

South Africa seems to be the classic example of the communist forces attempting to bring down the entrenched anti-communist government through the use of front organizations and violence.

The American State Department could very well determine the outcome of South Africa's struggle. That's not too comforting when we recall what happened to Nicaragua, to Cuba, to Nationalist China, and to most of Eastern Europe.

Letters TO THE EDITOR

EDITOR—The recent allegations by leaders of the Lincoln County Democrat Women about Republican County Clerk Fran Siddens can certainly be chalked up as a classic case of "sour grapes." Not only did the complaints arise after Lincoln County became a Republican County, but one of the leaders pushing for an investigation was decisively defeated by Fran in the 1984 general election.

The Democrat Women are requesting that the Attorney General's office conduct a full investigation into their charges. It is disheartening that taxpayer's money is being wasted on charges that are politically motivated. Fran Siddens is a superb county clerk, and it is a pity that she has been targeted for criticism because the Democrat Women have not done their job with voter registration.

The Republican Party has had some LEGITIMATE complaints in the past. If we had run to the Governor, Secretary of State and Attorney General (as these women did) those public officials would not have time to conduct other state business. We can recall incidents that have occurred in the past to Republicans in Democrat-controlled counties, but it has always been and will remain our policy to try to resolve these problems locally. Past problems have, usually been resolved without proceeding any further. Perhaps the Lincoln County Democrat Women should have visited with Fran before going "right to the top to get it straightened out" as the president of the organization was quoted as saying. Such actions erode the confidence voters perceive in the political process.

The Democrat Women accuse Fran of being reluctant and/or refusing to train new deputy registrars. We need to remind them that the County Clerk attended one of THEIR meetings in May to hold a school of instruction for deputy registrars. Notices of this meeting was published beforehand in the "Lincoln County News" and the "Ruidoso News", where the public was invited. Fran has also informed leaders of the organization that she would hold more schools when the summer months were over, but was willing to train individuals in the meantime. She has told the Democrat Women anyone wanting to become a registrar may make an appointment with her for training, and further suggested that they may bring more than one person for time efficiency.

Fran is accused of not furnishing registration forms to registrars. Among the people sworn in as a Democrat registrar at the May meeting of the Democrat Women was a "Ruidoso News" reporter who wrote the original story about the complaints. The reporter has since called the County Clerk's office inquiring where her registration supplies are. The reporter failed to pick up her registration materials during the instructional meeting, although those present were asked to do so. I suggest this may be a case of negligence on an individual's part, rather than the fault of the County Clerk.

Fran has tried to make the registration process as convenient as possible for the potential voter. She has acquired registrars in all of the city halls - Corona, Capitan, Ruidoso, and Ruidoso Downs. She has even obtained registrars in the Ruidoso State Bank and Bank of Ruidoso. I certainly would not call these efforts "obstacles" in the registration process, but a superb undertaking at giving people the opportunity to register to vote.

The Republican majority was obtained in Lincoln County because voters are no longer identifying with the Democrat Party's philosophy. The majority was obtained by the hard work of the Lincoln County Republican Party and the Lincoln County Republican Women. Perhaps it would be more constructive for the Democrat Women to head the Republican example.

Fran Siddens is a County Clerk of the highest integrity. She has been both fair and honest in all of her dealings with people of both political persuasions. She deserves the utmost confidence of the people of Lincoln County.

Physician, abort thyself!

WASHINGTON, VIRGINIA — Planned Parenthood, the taxpayer-funded abortion lobby, thinks people who are against abortion are downright immoral. In a full-page ad in The Washington Post, the organization declared that "What (anti-abortion leaders) want is a return to the days when a woman had few choices in controlling her future. They think that the abortion option gives too much freedom. That even contraception is too liberating. That women cannot be trusted to make their own decisions."

Whew. Pretty strong language, even from a group that makes its living partly by cutting babies into little pieces. It's too bad Planned Parenthood doesn't read its old literature from the '60s, which described abortion as "the killing of a baby" and promoted birth control as an alternative to abortion. Now PP promotes abortion as retroactive birth control: If we can't keep you from getting pregnant, at least we can make sure the baby is born dead.

In California, the bodies of 16,500 babies were found where they had been dumped by abortionists, and the Los Angeles Feminist Women's Health Center sued to deny the children a religious service at their burial. For such atrocities we can thank, among others, PP and the US Supreme Court. Some 18 million children have been aborted in the United States since that day in 1973 when the Court ruled that a woman could get just a little bit pregnant.

At that time, each of the 50 states regulated abortion in some way. So far as is known, not a single state legislator in any state advanced the idea that abortion was a right protected by the Founders in the Constitution. Yet that is what the Supreme Court held in the case of Roe v. Wade. Actually, what happened was that the justices reached a political compromise among its members based on their personal views of the morality of abortion, and then sought in vain to find justification in the Constitution for their decision. For 12 years, law students have used elaborate flow-charts in fruitless attempts to follow the logic of the Roe decision, but in fact there was no logic to it; Justice White said it was simply an act of "raw judicial power."

According to Roe and follow-up cases, here is what the Constitution supposedly says about abortion: 1) During the first three months of pregnancy, the unborn child exists only in theory, and the state cannot regulate abortion in any way. 2) During the second three months, the state can regulate abortion to protect the health of the mother, but not if that regulation in any

way makes abortion more difficult to obtain. 3) Finally, at the end of the sixth month, the child becomes "viable" (capable of living outside the womb) and abortion can be prohibited — unless, of course, childbirth would endanger the mother's "physical, emotional, psychological," or "familial" health.

What superstitious nonsense! What the Court did was come up with a new standard ("viability") as a substitute for the historic standard of "quickening" (fetal movement) as the point at which the soul enters the child's body. Then the Court decided that, even though the child was a human being after the sixth month, its life could be sacrificed to protect the mother's peace of mind as well as her physical health. In effect, Roe and subsequent decisions legalized all abortions, even those in which the child is born alive and then killed.

What happens when the abortionist fails in his attempt to crush the baby, strangle it, or burn it to death with a salt solution? Usually, he'll order nurses to deny the baby the usual care given premature infants... or he'll put a blanket over the

baby and smother it... or he'll use a syringe to suck blood out of the baby's heart. After all, as a delegate to the convention of the North Carolina Civil Liberties Union put it, "a woman has a Constitutional right to a dead fetus." Until recently, a couple could get a full year's tax exemption for a baby that momentarily survived an abortion.

The logic of Roe is collapsing as evidence accumulates that there is no magic moment when a baby becomes "viable," a child's "viability" is based solely on the state of science at the moment, not on some mystic trimester (as the Supreme Court would have us believe). At that time of Roe, only half of all 28-week babies survived. Today, nearly all 28-week babies survive, while some babies survive as early as 21 or 22 weeks. And there are normal, healthy "test-tube babies" in kindergarten today who were not even conceived in the womb — children who were technically independent of the biological mother, and therefore "viable," at the moment of conception.

Today, surgeons can operate on the child while it's still in the womb. We can take sonogram pictures, even movies, of the

Richard A. Viguerie

child's reactions to the world around it. It is becoming more and more difficult to maintain the myth that the aborted fetus is just "potential life" or "the product of conception" rather than a baby. That's why the American people, by a margin of 58 to 36 percent in a recent Newsweek poll, support an amendment that would ban nearly all abortions.

Lorjo Nerad was 18 years old when, under pressure from her husband and her welfare worker, she consented to an

abortion. She wrote in People magazine, "I was given a pamphlet that showed a drawing of a little blob of jelly and I thought, 'Oh great, that's what it looks like. I'll go for that.'" After the operation, she went to the bathroom in severe pain and the baby's head came out. "I called the doctor, and he said it was normal, throw it away, no big deal." I for one am tired of being lectured on morality by the \$1 billion-a-year abortion industry, for whom the killing of an innocent little baby is No Big Deal.

A honeybee can carry a burden 300 times its own weight.

(Con't from P. 4)

When asked why Health and Human Services brochures are still claiming that there is no evidence that AIDS is transmitted through saliva, Dr. Mason replied: "We've got over 12,000 cases, and we can't identify one of those that was infected because of casual household huggings or the kind of kissing that goes on between parents and children."

When asked about extended kissing by lovers, Dr. Mason replied: "We can't isolate that because generally people who get involved in passionate kissing have other acts of passion."

stringent medical examination. In Atlanta, the acting Assistant Secretary of Health and Human Services, Dr. James O. Mason, during a visit to the federal Centers for Disease Control, said during a telephone interview:

"If I were the husband of an actress and she was going to be kissed on stage, even though I know epidemiologically it's not associated, there is nevertheless a risk, because AIDS viruses are there... Investigators have isolated the virus that's responsible for AIDS infection from saliva."

Grizzly opener this Saturday

First year head coach Willie Gallegos will send his Grizzly team against the Melrose Buffaloes in the season opener for both teams on Saturday night at Laabs Field—game time is set for 7:30 p.m.

The Grizzly squad is coming off a 9-2 record from past year which culminated in a losing effort against Reserve in the Class 'A' championship game. Both Grizzly losses coming at the hands of the Mountaineers.

Carrizozo will be trying to keep up last year's pace without the likes of all-stars Steve Stearns, Dominic Vega, Peter Morales, Joe Candelaria, Mike Curtis and Charles Zamora which were lost thru graduation.

Probable starting line-up for the season opener looks like this: (Offense) James Guevara QB; Kenny Crenshaw-running back; Richard Guevara-running back; Anthony Serna-slot back; Frankie Gallegos-split end; Tommy Escamilla-tight end. The line will consist of Daniel Zamora and Robert Guevara at tackles; Gabriel Chavez and Rueben Zamora at the guard spots and Robert Connors will be the center.

Probable starting defense will show Robert Connors and Robert Guevara as the down-

linemen and Tommy Escamilla and Rueben Zamora at defensive end in the Grizzly 4-4 defense. Handling the linebacking shores will be Troy Hollis and Richard Guevara on the outside and Kenny Crenshaw and Daniel Zamora on the inside. Defensive back will be Anthony Serna, James Guevara and Gabriel Chavez.

Others players slated to see plenty of action although not listed as starters will be linemen Brian Sanchez and Angelo Vega.

This will be the first of only three home games for Carrizozo. The other two being against Estancia on Sept. 20 and the last game of the regular season against arch rival Capitan on Nov. 1. Away games include Hatch on Sept. 6, Ft. Sumner on Sept. 13, Anthony on Sept. 27, Cloudercroft on Oct. 11, Hagerman on Oct. 18, and Reserve on Oct. 25. October 4 will be an open date.

Other games of interest this Friday finds Ruidoso at Artesia, Animas at Cloudercroft and Jal at Tatum. On Saturday Texico visits Estancia, and Capitan travels to Artesia JV.

Complete Grizzly Roster by class is as follows:

Seniors—James Guevara, Kenny Crenshaw, Troy Hollis, Anthony Serna, Daniel Zamora, Gabriel Chavez, Robert Connors, Rueben Zamora.

Juniors—Tommy Escamilla, Frank Gallegos, Jason Vinson and Brian Sanchez.

Sophomores—Tom Giordano, Robert Guevara, Richard Guevara, John Saucedo, Benji Herrera, Angelo Vega, Craig Collins, Johnny Gallegos, Danny Cully, Anthony Huey and Michael Zamora.

Freshmen—Jessie Gallegos and Mike Hicks.

SUMMER BASKETBALL CAMP—8 Capitan Tiger basketball players attended the UTEP Team Camp in El Paso late in July. Pictured above is Capitan's Ronnie Sanchez who will be a junior this year. Other Tiger players attending this camp were: Seniors: Troy Keller, Chris Peralta and Robbie Runnels. Juniors: John Parker, Doug Eckland, and Troy Padilla. Sophomore Mike Shanks also was there. Capitan won 5 games and lost 7. Carrizozo also had a group at this camp.

SEASON OPENER—

Tigers face Artesia JV

By BARTLEY McDONOUGH

The Capitan Tiger varsity football team opens its 1985 season Saturday night when the Tigers travel to Artesia to play a strong Bulldog Junior Varsity squad. Opening kick-off is scheduled for 7:30 p.m.

Artesia features good running backs, a tradition of winning, and a super playing facility. The varsity team was the state AAA champion last year. Capitan last met the Artesia Junior Varsity in 1948 winning that one 14-0.

Capitan scrimmaged with the Ft. Sumner Foxes last Saturday in Roswell with each team holding its opponent scoreless. Coach Zale Woodward was pleased with the team's attitude and told the News that his people showed good team pursuit, gang tackling, and good aggressive defense.

The Tigers will operate out of a Wing I Offense. The starters and back-up personnel on offense are: Line-quick tackle, Julian Romero and Michael Chavez, quick guard, Ty Paul and Ronnie Joiner, center, Clay Layher and Travis Frey, strong guard, John Parker and Kent McInnes, strong tackle, Doug Eckland and Jeremy McCarty, split end, Jay Eldridge and Robbie Runnels, tight end, Troy Keller and Mike Shanks.

Backfield, quarterback, Troy Padilla and Kerry Clements, tailback, Chris Peralta and Anthony Sanchez, wingback, Andy Trujillo and Nico Najjar, fullback, Mike Lunn and Jerrod Martin. Punters and PAT personnel have not been determined.

Tigers on defense are: left end, Doug Eckland and Michael Chavez, left tackle, Clay Layher and Ron Joiner, right tackle,

Jeremy McCarty and Kent McInnes, right end, Julian Romero and Mike Shanks. Backing up the 4-down linemen are: left linebacker, Chris Peralta and John Parker, middle linebacker, Troy Keller and Travis Frey, right linebacker, Robbie Runnels and Andy Trujillo.

Cornerbacks, left, Ty Paul and Jerrod Martin, right, Nico Najjar and Jay Eldridge. Safeties - free - Troy Padilla and Anthony Sanchez, strong - Mike Lunn and Kerry Clements.

The Tigers play on their own turf Sept. 6 when the Tatum Coyotes are in town for a 7:30

p.m. battle. Coach Zale Woodward is assisted by Coach Kendall Lawlis.

The varsity cheerleaders are: Wendy Tate (head), Kim Cox, Paula McClain, Corina Sedillo, Michele Holmes, Kim VanWinkle, Valerie Garner, and sponsor Sonnie Silva.

Remember the Tigerette Volleyball Jamboree this Saturday in Capitan with the first game scheduled for 8:30 a.m. The Tigerettes will host Socorro, T or C, Moriarty, Tularosa, and the Alamogordo Varsity and Junior Varsity. The Tigerettes are coached by Bill MacVeigh.

Many more brands to choose from!

Robert Williams is on vacation again this week. The mornings are cool and Sunday afternoon a 1.3" rain fell on the Village.

Preceptor Alpha Nu Chapter of Beta Sigma Phi marked Beginning Day with a steak supper Sunday at the home of Mr. and Mrs. W. T. Tyree. Families were invited. The first regular meeting will be at the home of Jo Ann Joy, Monday, Sept. 9. Mrs. Joy will give the program on Volcanoes. The theme this year is Walk in the Sun. Find Renaissance. Members will report on their summer activities.

Fred Porter, Houston, TX stopped by Monday morning for a quick visit with friends and relatives. He was accompanied by his hot air balloon and by his grandson, Adam. They had been at Deming for the county fair.

The Dwayne Joys spent some vacation days in Farmington but had to return in time for Travis to start school.

Amanda Fuller left Saturday by plane for Washington and her home in Oakton, VA. She had been with her grandparents here for three weeks while her parents were in Ottawa, Canada and La Paz, Bolivia.

Tammy and Jessica Bennett spent a few days with the Owen families here while husband and father, Fred, was backpacking in the Colorado mountains.

The American Legion Auxiliary Unit No. 35 held their regular monthly meeting Aug. 6 with 11 in attendance. Plans were finalized for the next summer festival booth and parade. The theme for the Auxiliary float was Boys and Girls State which won second place. Those who went to Girls and Boys State from Corona were Matilda Miller and Steve Copeland. Those from Vaughn

were Janna Gozolas, Julie Gozolas, Maria Murdock, Gingham Miller, Matthew Gallegos, Patricio Garcia and Roger Castillo.

The Legion Post and Auxiliary will honor these young people with a covered dish dinner at the American Legion Building Tuesday, Sept. 3 at 6 p.m. At this time Girls and Boys States will give a report on what they learned about the functions of their government.

Congratulations to Marcella Chavez who won the deluxe model ceiling fan offered by the Legion Auxiliary.

The Auxiliary bake sale and raffle were a great success. Thanks to those who made this possible.

Norma Jean Warren daughter of Mrs. Minnie Davenport, has been selected as one of the Notable Women of Texas, 1984-85 edition. She lives at Lone Oak, TX.

Mrs. Tom Pounds returned home Friday from an Albuquerque hospital.

Mrs. R. L. Sharp and Jerry Sharp have returned from the San Juan and Torrance County Fairs. Brad Cartright won four ribbons with his lambs and sold two. Cody Turner's goat ate its blue ribbon. At Estancia Eric Sharp won first place with his steer and had a lamb and the steer in the sale.

Kelly and Steve Brewer leave this week for San Francisco where Steve has been transferred by Associated Press from Albuquerque.

Friends have learned of the death Tuesday of Ed V. Kimmons. Services were held Saturday in El Paso where he had lived for the last few years. He was 94 and had retired 20 years ago from the Southern Pacific Railroad. He is survived by his wife Mildred, of the family home, one son, John, in Tennessee, one daughter, Edwina of El Paso, four grandchildren and two great-grandsons. The old Kimmons home is four miles north of Corona where Lon Holleyman now lives.

Mrs. Mike Kessler attended the three day NM Conference on

Aging this week at Glorietta. Volunteers looked after the senior citizens center during the director's absence.

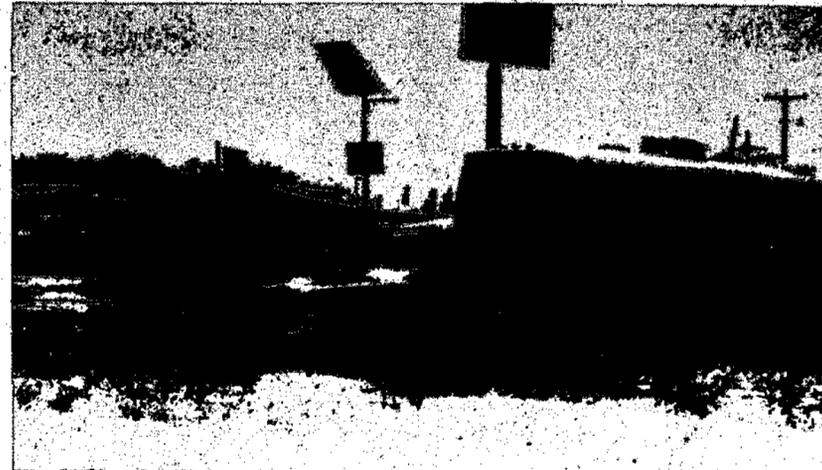

Mr. and Mrs. John McKibben and Alvie made a quick trip to Tucson to see Mozaun before Up With People started the tour Monday. Mozaun is enthusiastic about the program.

In 1909 Nora Tonkinson came with her family from Springfield,

OH to make her home at Cedarvale. During the reunion there early this month family and friends gathered to honor Mrs. Nora Smith on her 91st birthday. Maxine Brown sang a song written by Helen Livingston to the tune of Oh Suzanna, and several rose to tell an anecdote or to pay tribute to her long and busy life.

Among the family members present were Pauline, Gayle and Cathy McCloud, Cedarvale,

Frank and Doris Smith, Conchas, Leon and Merle Smith, Weed, Madeline Smith Shannon, Southerland, NE, Flossie Smith Craffe, Pueblo, CO, Virginia Smith Joplin, Phoenix, Mildred and Bill Criddle, Reggie and Elizabeth, Jumping Branch, WV, Phil and Shirley Dix and two children, Bloomfield, Isabel and Mick Teague, and Allison and Edward Ward, Deming, and Della and Elva Lisk, Mountaintain.

POWER FAILURE on this 1964 Ward motorhome driven by Edwin F. Cillessen, Albuquerque, resulted in damage to a 1976 Datsun driven by Jackie Parkhurst, Carrizozo. The accident on Aug. 24, also knocked over a gas pump at Zozo Food Mart. The motorhome was on highway 380 on the overpass when it stalled. When it was coasted backwards, the Datsun brought it to an abrupt halt.

Leslies gather at White Oaks

The White Oaks school house was the scene of another family reunion July 20-21. This was a reunion of the descendants of the late Robert (Uncle Bob) and Elizabeth (Aunt Sis) Leslie, who both passed away in 1932. None of their own children are still living; but a number of the grandchildren, great-grand and great-great-grandchildren got together to talk over old times and get reacquainted. Some to get acquainted with family members they had never met.

Zane, Charlie, and Robert Leslie of Carrizozo and Clarence Leslie of Barstow, CA hosted the occasion. They furnished barbecue beef and pinto beans; lots of other good food was brought by the other folks who attended.

Wagonwheel band of Alamogordo played for dancing Saturday night.

Robert Leslie of Carrizozo accepted two awards - one for being the oldest member present and the other as a member of the Ward Leslie family for the most

in attendance.

Two hours after the awards were given, another cousin arrived who is a few months older than Robert; she is Cusie (Roberta) Fried of Albuquerque.

95 Leslie's were present and 21 guests. All had a good time.

Those attending were: Myrtle Osborne; Rick, Belinda and Ricky White; Maggie Lewis of El Paso, TX; Gwen Goad, Sun Valley, CA; Mr. and Mrs. Sherman McMillan and Terry Lynn, Los Angeles; Clarence and Beverly Leslie, grandson Darren Leslie and Ruth Morrisette of Barstow, CA; Lura, Robert, Elmer Hopkins of Nogal; Jimmy and Buelah Kent, Canon City, CO; Evelyn Dobbs, Ruidoso, Ken and Inez Ballenger, Fayetteville, Arkansas; Bessie Griffin, Tularosa; J. L. and Betty Huffman, Teana and Chuck Underwood, Terry and Janice Lawson, Kenneth Pipes, Johnny Leslie of Terrel, TX; Tom and Mary Ann, Cherie Lynn, Shannon O'Dell of Portales; Dola Mc-

Millan, Ben Leslie, Jr., Debbie and Aleana Salyards, Bridgit and Richard McQueen, Seldon and Joy Burks, Eddie and Linda Burks and two sons all of Alamogordo, Don and Lily Gerard, Jordan Valley, OR; Flora Fresland, Sandy Lightfoot, Roswell, NM; Murlie and Vickie Wiltse, Roberta (Cusie), Byron Fried, Albuquerque; Curtis, Beverly, Lee, Guy and Tammy Payne, Cathy, Andrea, Steven Greigo, Steve, Kathy, Daisy, Sarah Chapman, Jim, Janet, Joan, Jacque, Jimbo, Jara Leslie of Capitan; Zane, Jr., A. G., and J. B. Leslie of Farmington; Opal Mills, Bob Watson and Bud Crenshaw of White Oaks; Eddie, Kari, Donan, Eric, Curtis, Travis, Jodie Kay Fitzpatrick of Artesia, Charlie and Joy Leslie; Kelly, Evelyn, Cal, Rob Leslie; Barbara and Tom Ward; Rusty, Melissa, Joel, Ward Leslie; Charlotte, Sylvia and Guy Archuleta; Robert and Dorothy Leslie; Buda and Dorothy Payne; Zane and Bessie Leslie of Carrizozo.

The next Leslie Reunion will be in 1987 at which time plans are to invite all the descendants of the brothers and sisters of the late Robert (Uncle Bob) Leslie.

SENIOR CLASS members on this year's Grizzly football squad which is preparing for their opener Saturday against Melrose pose for News photographer. All seasoned veterans, these players will be relied on heavily by new coach Willie Gallegos in the upcoming season. Front row, (L to R) Anthony Serna, Gabriel Chavez, James Guevara, and Harold Burch. Back row, (L to R) Kenneth Crenshaw, Daniel Zamora, Troy Hollis, and Robert Connors.

TIP CLIPS By POLLY CHAVEZ

DIETING SUGGESTIONS

As every dieter knows, summer picnics can add unwanted pounds. Soon it will be time to get the cold weather clothes out of moth-ball storage. Here are some tips to help trim the 'spare tire' you picked up this summer:

- The white breast meat of chicken, without the skin, is the leanest portion.
- To de-fat gravy, place the drippings from roasted chicken in the freezer for 10 minutes. The fat will congeal and you can skim it off.
- Thicken the gravy with cornstarch instead of flour to save more calories.
- Low calorie garnishes to dress up foods include: sliced hard-cooked eggs, carrot curls, chopped green onion or pimiento strips.
- At pot-luck gatherings choose fresh vegetables without dip or sauces.
- Top pie with nondairy whipped topping. It has half the calories of sweetened whipped cream.
- If you over ate at the pot luck don't abandon the diet. Cut down on your next few meals and exercise.

OPEN SUNDAY AFTERNOONS

NEXT TO GIBSON'S RUIDOSO

Lincoln County 'long ago'

By RUTH HAMMOND
The Capitan Progress, A Journal Devoted to the Interests of Lincoln County, Capitan, Lincoln County, New Mexico, Friday, Jan. 29, 1901.

Local and Personal
Geo. Sligh of Nogal has sold his herd of horses and is now busy gathering them for shipment to eastern Texas.

J. J. Bloss, superintendent of the Linderman coal mines at this place, arrived home from an eastern trip this week.

Three car loads of machinery for the new ice plant and laundry at the Sanitarium at Ft. Stanton were received here this week.

Thirty-five thoroughbred Jersey milk cows for the Fort Stanton Sanitarium were brought in on Mondays train and drove out to the Sanitarium pasture Tuesday.

Manchester will be the name of the first station on the E. P. & N. E. north of Carrizozo. This will also be the nearest station to White Oaks, a distance of about six miles.

The diamond excitement that had been raging outside of Capitan has greatly subsided. But few people here ever believe the story and it caused no excitement here. There was but little in the story and done Capitan more harm than good. We have sufficient natural resources here to justify any capitalists to come here and look the country over and he can find plenty of good legitimate investments in our coal, timber, iron, grazing mining and farming lands without chasing off after "will o' the wisp" diamond mirrages. Capitan does not need any fake advertising to bring capital into the camp.

The school board are collecting the poll tax for the year, 1900 and 1901. This tax is for the sum of one dollar per year and all of it goes directly into the local

school fund. It should be paid freely by every man, and persons refusing to pay may be taken before the justice of peace and compelled to pay the tax as well as all costs for collecting.

Deputy Sheriff W. M. Smith, went to Alamogordo Saturday and brought back with him Joseph Noble who is wanted here to answer the charge of theft. Noble is charged with breaking into A. W. Swindel's saloon at the Linderman camp and stealing several bottles of whiskey, some beer, a bottle of gin and twenty cents in script. Parties were found who claimed to have helped Noble drink some of the liquor and owing to a peculiar mutilation of the script, it was found also. Noble was formerly employed here in the bakery.

The new Capitan school house which is to cost \$12,000, will nearly all be constructed out of home material. The stone, which is to be white sandstone trimmed in red sandstone, will come from the quarries near the town, the lime and sand to make the mortar will be of home product, the timbers, except a small portion will all come from White and Capitan mountains and even a portion of the paint will come from our own paint mines near town, and all of this will be put into the building by the hands of our own, home mechanics so far as possible. The building will be a first class advertisement for Capitan, building material as well as an ornament to the future Pittsburg of the Southwest.

Additional Locals

There is an excellent program on for the literary next Thursday night. The question for debate is "Resolved that New Mexico should be admitted to statehood."

The contract for the construction of the El Paso & Northeastern extension from

Carrizozo to Santa Rosa has been let to Geo. S. Good & Company who built the present line from El Paso to Capitan. Work will begin in a few days.

Domicio Gonzales a young man residing on the Ruidoso, was accidentally killed in No. 1 mine Tuesday night by falling of the roof. The death is attributed to carelessness on the part of Gonzales who did not heed the precaution and advice of the mine foreman.

Captured in Texas

Levi Current brought back to answer the charge of horse stealing. Deputy Sheriff, John Owens returned Friday from Fort Worth Tex. with Levi Current who is wanted at White Oaks for horse stealing. Current stole four horses from J. J. Hicks of White Oaks and sold them near Fort Sumner. Officer Owens followed Current to Ft. Sumner where he found the horses, Current having sold them to a ranchman, giving the ranchman a bill of sale to the property.

Current had a partner and together the two thieves went overland across the Panhandle. Owens followed them and captured Current about eighty miles northwest from Ft. Worth, but Current's pal succeeded in eluding the officer.

The theft of Hick's horses is not the only crime charged to Current. About four months ago he was charged with stealing horses and was arrested and waived examination before justice of the peace and was bound over to the grand jury in a \$250 bond. Three months later he stole the Hicks horses.

Current is a lad of less than twenty years of age and has resided in the White Oaks settlement for years. He was arraigned before the justice of the peace at White Oaks last Saturday charged with the theft of the Hick's horses, and waived examination, in default of bond was sent to jail to await the action of the grand jury at the next term of court.

CAPITAN VOLLEYBALL—These are members of the Tigrette Volleyball Team who will be hosting their own Jamboree this Saturday. Action gets underway in the Capitan gyms at 8:30 a.m. when Capitan plays Tularosa and Alamogordo plays Moriarty in the Junior Varsity Division.

MOUNTAIN BELL MAKES—

Measured service available

Mountain Bell customers in Alamogordo, Cloudcroft, Tularosa and Carrizozo now have Measured Service available in their areas, and the company is waiving the normal conversion fee of \$27.50 until Dec. 11 for customers switching to or from the lower cost local calling option.

"This will give customers an opportunity to see if Measured Service is for them," says Mack

Haley, Mountain Bell area manager. "If they don't save money on the lower cost plan, they can convert back to the unlimited local calling rate."

Haley says, "We have found that two-thirds of our customers in New Mexico can save with Measured Service without changing their calling habits. In fact, 92 percent of the more than 85,000 customers already on the lower cost alternative are saving money."

Under Measured Service, residence customers are billed \$7.75 a month for their telephone line, plus an average of six cents for each local call made from their home. Charges for Measured Service calls are based on time of day, distance and duration of the call. In most cases, the amount paid monthly would be lower than the unlimited local calling rate of \$12.81 in Carrizozo and the \$18.23 paid in the Alamogordo-Tularosa-Cloudcroft areas.

Business customers too, can subscribe to the new optional service. The business charge for Measured Service is \$19.80 per line a month, compared to the unlimited local calling rate of \$35.87 in Carrizozo and the \$47.78 paid in the other three locations. The charge per call is the same as for residential customers.

"The principal behind Measured Service is that you only pay for the service you use," says Haley.

"Our studies show that working couples with young children, older couples, working

singles or customers who make their calls during the discount periods at night and on weekends can benefit from Measured Service."

Mountain Bell is making Measured Service available to virtually all of its customers in New Mexico. By the end of 1985 about 99 percent of Mountain Bell customers in the state will have the lower cost option available.

Customers wanting to place an order for Measured Service or who want more information on the service can call the Mountain Bell Customer Service Center at 1-765-6800. This is a toll-free call.

Learn water safety

Members of Brownie Scout Troop 12 participated in water safety classes, drown-proofing, elementary first aid and nutrition this summer.

Jenny Northrop, Lynette Hernandez, and Micha Schlarb received regular attendance awards. Jenny Northrop received the "tried the hardest" award. Lynette Hernandez received the "most improved" award.

The following girls participated under the direction of Mrs. Truman Spencer and Marcia Hecker: Christi Brown, Florence Burt, Sarah Funk, Michele Hasenbuhler, Lynette Hernandez, Jenny Northrop, Sarah Sidebottom, Micha Schlarb, Erea Pafford, Jamie Torrenson, Jasmine Chavez, and Natalie Chavez.

Mrs. Gordon Brown and Mrs. John Northrop are the troop leaders. Mrs. Spencer pointed out that New Mexico's population per capita has the poorest record for people not knowing how to swim and the most drownings.

LILLIAN HELEN RICHARD

Lillian Helen Richard, a former resident of Carrizozo recently passed away. Mrs. Richard had been living in Good Samaritan Home in Lovington. She was born Sept. 6, 1906 in Carrizozo.

Funeral services were held Aug. 15 at Smith Rogers Funeral Home in Lovington. Graveside services were held in Evergreen Cemetery in Carrizozo on Aug. 16. She was laid to rest next to her husband who preceded her in death.

Survivors include one son, Ronnie Richard, Hobbs, two grandchildren, Jason Richard and Jill Richard, Hobbs, four sisters, Ethel Treat, Roswell, Jeanette Cazier, Roswell, Patsy Barnett, Las Cruces, and Sally Ferguson, Ventura, California, and one brother, Ed Johnson, Angel Fire, NM.

Cut Your Business Phone Costs With Measured Service.

With Measured Service, you can cut your business phone bill. You'll pay a monthly charge that's lower than the more costly rate for unlimited local calling. And if you make less than 15 local calls per line each day, or if you make most of your calls in the evening or on weekends, you'll probably save more money.

With Measured Service, there is no charge for calls you receive, and how much you pay depends on how many local calls you make, how long you talk, and the time of day and distance of each call.

And if you switch to Measured Service or decide to go back to the unlimited calling rate before December 11, 1985, there is no charge. So take a few minutes to review your business calling habits and see if Measured Service can work for you. To order or to find out more, call (toll-free), 1-765-6800 between 9 a.m. and 5 p.m., Monday through Friday (except holidays).

NOTICE OF PENDENCY OF CIVIL ACTION

STATE OF NEW MEXICO

TO: ALEX MONTOYA, JR. and JUDY ANN MONTOYA, against whom substituted service of process is hereby sought to be obtained.

You are hereby notified that the FEDERAL NATIONAL MORTGAGE ASSOCIATION, Plaintiff in Civil Action No. CV-85-231 in the District Court of Lincoln County, New Mexico, has filed suit against you praying for judgment on a note in the principal unpaid balance of \$74,881.85 as of June 24, 1985, plus interest, advances and attorney's fee, as provided for in said note, that said sum so determined to be due by the Court shall be declared a lien upon the following described property in Lincoln County, New Mexico:

LOT 21, BLOCK 7, ALPINE VILLAGE SUBDIVISION, UNIT 2, LINCOLN COUNTY, New Mexico, as the same is shown by the plat filed in the office of the County Clerk and Ex-officio Recorder of Lincoln County, New Mexico;

and that unless such sum be paid, the lien, evidenced by the Mortgage executed to Moncor Mortgage Company, as mortgagee, and assigned to the Plaintiff, be foreclosed.

L. George Schubert, P. O. Box 796, Hobbs, New Mexico 88240, is attorney for the Plaintiff.

Unless you enter your appearance in this cause on or before the 30th day of September, 1985, judgment will be entered against you by default.

IN WITNESS WHEREOF, I have hereunto set my hand and official seal this 1st day of August, 1985.

DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT NEW MEXICO PROPOSED PLAN AMENDMENT AND LAND EXCHANGE

AGENCY: Bureau of Land Management, Interior

ACTION: Notice of Intent to do a Planning Amendment and Notice of Realty Action to do a Land Exchange

SUMMARY: The Commissioner of Public Lands has offered certain State lands within and near to the White Sands Missile Range in exchange for selected public lands in Dona Ana County. The Commissioner has identified four areas of public land in priority order for selection. Priority area one, if appropriate for exchange, will provide sufficient lands to complete the proposed exchange. The exchange will be processed under authority of Section 206 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2745). The priority area one lands are described as:

T. 22 S., R. 2 E., NMPM; Sec. 23, S1/2N1/4, S1/4; Sec. 24, S1/4; Sec's. 25, 26, All; Sec. 27, E1/4; Sec. 34, E1/4; Sec. 35, All.

T. 23 S., R. 3 E., NMPM; Sec. 17, S1/4; Sec's. 18, 20, 22, 30, 31, 32, All.

T. 23 S., R. 2 E., NMPM; Sec's. 1, 3, All.

T. 23 S., R. 3 E., NMPM; Sec's. 5, 6, All.

Comprising approximately 10,061.91 acres located in Dona Ana County, New Mexico.

Priority area two contains roughly 15,200 acres of public land located along the mesa east of the Rio Grande River between Las Cruces and the southwest corner of the White Sands Missile Range. Priority area three contains roughly 19,200 acres of public land located on the west mesa around Crawford Airport.

Priority area four contains roughly 36,000 acres of public land located between the south boundary of the White Sands Missile Range and the New Mexico-Texas State line. These areas will be considered in the planning effort for future actions. The actions may include State exchanges for State lands within the White Sands Missile Range or exchanges for State or private lands elsewhere in the area of the plan amendment. Other types of disposal will also be addressed. However, any specific exchange proposals within priority areas two, three or four will require separate publications of public notices subject to additional public comment.

The offered lands within the White Sands Missile Range are described as:

T. 6 S., R. 3 E., NMPM; Sec's. 32, 36, All.

T. 25 S., R. 3 E., NMPM; Sec. 2, All.

Comprising approximately 3,055.33 acres located in Dona County, New Mexico.

Only the surface estate of the State lands within the White Sands Missile Range will be offered in exchange. The mineral estate will be retained in State ownership subject to the continuing mission of the White Sands Missile Range. The surface estate of the selected public lands will be conveyed to the State. The mineral estate of the selected public lands will be reserved to the United States.

This notice constitutes a Scoping Notice as required by regulations promulgated under the National Environmental Policy Act (40 CFR 1501.7) for a plan amendment to the Southern Rio Grande Management Framework Plan. In addition to consideration of the specific exchange proposal, the plan amendment will consider public land tenure adjustments on a Countywide basis. The lands identified for the plan amendment are public lands within Dona Ana County.

An interdisciplinary team will prepare the amendment. The disciplines to be represented include realty, soil and water, livestock grazing, wildlife, threatened and endangered species, cultural, recreation and socio-economics. The anticipated issue will be land tenure adjustments in Dona Ana County. A packet containing planning criteria will be available and sent out by August 23, 1985 for public comment. Those wishing to be added to the mailing list should contact the Las Cruces District Office at the address given below. Several opportunities for public input to this project are now scheduled. The first such opportunity is a public meeting to discuss proposed planning criteria. This public meeting is scheduled for 1:30 p.m., September 12, 1985 at the Las Cruces District Office at 1800 Marquess Street in Las Cruces, NM. Written comments on the issues and proposed planning criteria must be received by September 23, 1985. A draft plan amendment environmental impact statement will be printed and made available to the public for a 90 day review and comment period. It is anticipated that the draft will be released in April of 1986. The final document will be released for a 30 day review and protest period in October of 1986.

In accordance with the regulations of 43 CFR 2201.1(b), publication of this notice will segregate the public lands described as priority area one from appropriation under the public land laws, including the mining laws, but not the mineral leasing laws. Persons wishing to comment on the specific exchange proposal and the segregation outlined in this notice may do so by writing to the Las Cruces District Manager at the address provided below. Comments on this notice must be received no later than 45 days after first publication of this notice. This segregation shall terminate upon issuance of a conveyance document, upon publication of a notice of termination or upon expiration of 2 years from the date of this publication.

FOR FURTHER INFORMATION: inquiries should be addressed to the District Manager, Las Cruces, Bureau of Land Management, 1800 Marquess, Las Cruces, NM 88005, (505) 525-6225.

CHARLES W. LUSCHER State Director

LEGALS

NOTICE OF A FINDING OF NO SIGNIFICANT IMPACT OF THE ARMED DIRECTED ENERGY TEST AREA

TO ALL INTERESTED AGENCIES, GROUPS, AND PERSONS:

PROPOSED ACTION: The Department of the Army, White Sands Missile Range (WSMR), New Mexico, proposes to establish an area at WSMR to test directed energy (DE) weapon-countermeasures systems in a near tactical environment. The proposed test area is the Burris Well Valley located 5 miles west of Range road 7 northwest of Capital Peak. Socorro is 46 miles to the northwest and Carrizozo 36 miles to the northeast of the test area. The first DE system will begin testing near the end of 1985. This system is a major subsystem of the Combat Vehicle Self Protection System and for this test will be mounted on a Bradley Fighting Vehicle. The first test will last approximately three months. A two week atmospheric study will be conducted in October. Tests with similar support and geographical requirements are expected to use this area in the future. The impacts of these later tests will be addressed in supplements to this Life Cycle Environmental Assessment (EA).

Construction for the first test phase will consist of road widening, telephone line installation, clearing of instrumentation and operations areas, and a concrete pad.

PURPOSE OF THE ACTION: DE development has matured to the point where outdoor real life testing is necessary. This testing requires an area completely surrounded by mountains and with controlled air space to protect personnel outside the test area from eye injuries.

ALTERNATIVES CONSIDERED:

1. The proposed location on WSMR was chosen after considering three locations, the High Energy Test Facility, Wolf Canyon, and Sulfur Canyon all on WSMR. These sites were all rejected as not meeting the line of sight (LOS) requirements and providing adequate backstop for safe testing. Burris Well valley is completely inclosed by mountains, existing roads can be used for most of the testing, and the topography provides required LOS.

2. No action. This alternative is not acceptable. DE development has matured to a stage where field testing is mandatory. The no action alternative would result in costly delays or cancellation of the program.

ENVIRONMENTAL CONSEQUENCES:

1. Water Quality and Supply. Water will not be required for these systems. Drinking water will be brought in from nearby cities. No toxic or hazardous materials will be released which could enter ground water.

2. Geology and Soils. An area approximately 150' x 150' will be cleared as an operations area, six to eight 20' x 8' instrumentation sites will be cleared and the access road will be widened.

3. Air Quality. Will not be significantly affected. Air pollution, the only source of which is from vehicles and generators will be minimal and easily dissipated by the wind.

4. Ecological Resources. Small areas of creosote bush will be cleared. Few birds are likely to be injured. The probability of injuring small ground dwelling animals is extremely remote. Larger animals will be driven away before tests. There is no threat to species federally listed or proposed for listing as threatened or endangered.

5. Cultural Resources. A cultural resource inventory of the valley has been completed. Sites which have the potential for containing material of historical

LEGALS

or archaeological interest will be avoided. If future operations threaten any of these sites the proper procedures will be initiated.

6. Socioeconomic Resources. Beneficial economic impacts are expected to occur due to lodging, and per diem allowances that will be expended at hotels or motels and restaurants in the area.

CONCLUSION: The aforementioned analyses demonstrate the conclusion of the Environmental Assessment (EA) that the proposed action would not cause significant impact upon the area's environment. Accordingly, the US Army WSMR has determined that an Environmental Policy Act of 1969 (PL 01-190) is not required. A copy of this EA is available for public reading in the Environmental and Natural Resources Division office, located in Building 1748 on WSMR. All interested agencies, groups, and persons not in agreement with this decision are invited to submit written comments for consideration by the Commander, WSMR, within 15 days of this notice. Address all correspondence in reference to this notice to:

Commander, US Army White Sands Missile Range, ATTN: STEWS-IS-N (Col Robert Ferrari), White Sands Missile Range, NM 88002.

McMINN PHOTOGRAPHY: Now located in White Oaks. Servicing Lincoln County and surrounding area. David McMinn, photographer, 648-2944. 2tp-22, 29.

A-bomb test (continued)

all at once."
The engineer said he recently passed another train and thought it may have blown up. The two men got into Harkey's car and headed in the direction of the other train, but in checking the track signals a short time later, they saw nothing was wrong.

"He shook his head, and I did, too," Harkey said. "We went back. He got on the train and said, 'I guess I'll go on.' He didn't know what else to do. I didn't either, so I put the boy on the train."

"I went back home and woke up the wife. We sat out on the front porch for about an hour and a half and watched that (mushroom) cloud. There was no breeze at all. It just went up and up and up and finally dispersed."

Eight possible sites

Scientists wanting to test the nuclear device they were developing at Los Alamos initially considered eight possible sites — four in New Mexico, two in California, one in southern Colorado and one just off the coast of south Texas.

The choice was narrowed down to what was then the Alamogordo Bombing Range for several reasons: It was relatively close to Los Alamos, the government already owned the land and the terrain was flat and dry.

For 10 months, tons of equipment were moved to the site, generally in secret, to construct a base camp for Project Trinity. The name of the project, and subsequently of the site, was selected by J. Robert Oppenheimer, director at Los Alamos, who apparently never indicated why he chose it.

Five days before the test, the plutonium was conveyed from Los Alamos to the site, where it was assembled and placed atop a 100-foot tower. Just before 11 p.m. on July 15, an arming party of seven men climbed the tower to install the final timing and remote operating devices.

At 4:45 a.m. the next day, after several nervous hours of evaluating unsettled weather, the final "go" decision was made. At 5:29 a.m., Joe McKibben threw an automatic timing switch. Forty-five seconds later, the spectacular dawn burst, changing the world.

'Sky lit up'
J.O. "Bud" Payne of Carrizozo was up

the bedroom into the kitchen and was washing my face and hands fixing to milk the cows when the whole country lit up," said Trammell, now 81 and living at Tularosa, a town just east of the missile range.

"I thought it was a meteor and started outside to see where it was going to land. By the time I got to the door, the whole house was shaking and the dishes were rattling."

Wayne Withers was much closer to the blast, only about 15 to 20 miles away, but he didn't bother to get up, largely because the bright lights and earlier noises had kept him awake and he was used to unusual happenings at the site.

The blast rattled the house, though, Withers recalled. "It was quite a jar."

Another area rancher thought a plane had crashed, while a store owner said he was reminded of an earthquake. A 10-year-old girl rushed into the house to tell her mother that the light was "like somebody turned a light bulb on right in my face."

Open to public

To commemorate the 40th anniversary of the blast, White Sands Missile Range officials are opening Trinity Site to the public on Tuesday. The normally closed range, where explosives are still tested, is regularly opened one day each fall, but the public is rarely allowed entry at other times.

The tour will include a stop at the newly refurbished McDonald Ranch House, where the scientists assembled the plutonium core for the first bomb. The house, about 1 mile from Trinity Site, survived the blast but had been ravaged by the weather. It was renovated to its 1945 condition last year.

Ever since the brilliant dawn 40 years ago, the use and misuse of nuclear power has been debated by scientists, politicians, social scientists and the public.

Harkey called the development of nuclear weapons "a startling thing... that changed our way of living," but said he had no doubt about the value of the first bombs in bringing a quick end to World War II.

The son he put on the train that day never saw combat.
