CARRIZOZO, NEW MEXICO, FRIDAY, JANUARY 27, 1939

NUMBER 81

IN THE THIRD JUDICIAL DISTRICT COURT OF THE STATE OF NEW MEXICO WITHIN AND FOR LINCOLN COUNTY.

Edgar L. Jaffa, Plaintiff,
vs.
National Exploration Company, a Corporation; Impleaded with the following named defendants against whom substituted service is hereby sought to be obtained, to-wit: Lea Cattle Company; Picacho Oil and Development Company; Horace K. Thurber, if living, if deceased, the Unknown Heirs of Horace K. Thurber, deceased; John C. Delany, if living, if deceased, the Unknown Heirs of John C. Delany, deceased; Joseph C. Lea, if living, if deceased, the Unknown Heirs of Joseph C. Lea, deceased; Charles S. Thurber, if living, if deceased, the Unknown Heirs of Charles S. Thurber, deceased; Richard P. Hopkins, if living, if deceased, the Unknown Heirs of Richard P. Hopkins, deceased; Frank McCollum, if living, if deceased, the unknown heirs of Frank McCollum, deceased; Charles W. Martin, if living, if deceased, the unknown heirs of Charles W. Martin, deceased; H. E. Hales, if living, if deceased, the unknown heirs of H. E. Hales, deceased; unknown heirs of Jose Trinidad Vigil, sometimes spelled Vigil, deceased, unknown heirs of Maria Romero De Vigil, deceased; unknown heirs of George Kimbrell, deceased; unknown heirs of Pablo Kimbrell, deceased; unknown heirs of W. H. Guyse, deceased; unknown heirs of Melba Guyse, deceased; unknown heirs of Hurin Miller, deceased; unknown heirs of Mahala E. Miller, deceased; unknown heirs of J. J. Jaffa, also known as Joseph J. Jaffa, deceased; and all unknown claimants of interests in the hereinafter described premises, adverse to the Plaintiff.

No. 4623
Civil

American Legion Auxiliary

Heavy enrollment of American Legion Auxiliary members for 1939 is reported by Mrs. Nellie Reilly, membership chairman of the local Auxiliary Unit. Approximately 200,000 enrollments were received at National Headquarters during November, and many thousands more were in transit from Units and Departments. Membership gains of the past four years, which have brought the Auxiliary's strength to above 400,000 were expected to continue during 1939 to a total of 500,000 members.

The veterans of the government hospitals at Fort Bayard and Albuquerque have started making poppies for the American Legion Auxiliary poppy sale to be held here in May. Only non-compensated veterans are allowed to do this work, and materials are distributed early so that the veterans can make money before Christmas. Before the sale every poppy is sterilized.

BINGHAM BREVITIES

Mr. H. O. Bursum, sr., was at Bingham Monday.

Mrs. Griffin, Mr. McNabb and Mr. N. F. Hefner were at Socorro Tuesday of last week on business.

Mr. and Mrs. Rube McDonald are visiting the J. T. Gaines family this week.

Iva Lee and Evelyn Russell visited school Tuesday.

We have five new pupils who enrolled in the grade school this week.

We are glad to have Mr. Harris, formerly of San Antonio, to join the ranks of Bingham citizens.

Mr. Walter Medley and Mr. Salazar Apodaca were in Bingham Monday.

We are glad to have F. S. Schobel, of Albuquerque, as a High school teacher. He will take Mrs. Diver's place.

The Bingham boys' and girls' basket ball team played Claunch Thursday of last week. They played a close and hard fought game which was won by Claunch. We hope for better luck next time.

The District Teachers' meeting held at Bingham last week was well attended.

W. M. Greenwood was in Socorro Tuesday.

J. T. Gaines bought a truck load of yearlings and moved them to the ranch north of Bingham Monday.

E. L. Dean is visiting his brother in Colorado this week.

Santa Rita School Notes

Recently two new sanitary units were installed on the school grounds.

Improved appearances and added convenience are the results of the bulletin boards which were installed in each classroom two weeks ago. The children's work can now be displayed with added attractiveness.

Report cards were given out during the past week. The children were urged to give more attention to regular attendance and greater application to study during the coming semester.

The following children were on the honor roll: Grade 1; Margarita Gonzales, Jake Herrera, Albert Vega, Sabino Vidaurri, Antonia Baca, Lupita Candelauro, Cibilia Herrera, Rita Lopez; Grade 2; Josephine Telles, Theodora San-

Committee for Celebration Of President's Birthday

For the Foundation for Infantile Paralysis, Inc.

As zero hour approaches:

1. The following committee will sell the dance tickets: Mrs. R. Shafer, Chairman. Mrs. Joy Bowlin. Mrs. Gail N. Brickley. Mrs. Selma Degetz. Mrs. Don English. Mrs. Jane Turner. Mrs. G. O. Davis. Mrs. L. P. McClintock. Miss Robbi Church.
2. Buttons are being sold by a committee from the school, at the door of the picture show. Be sure to get and wear one.
3. Fifty per cent of all the money we make will be kept in a fund in Lincoln County, the other fifty per cent will be sent to the New York Office of the above organization.
4. To all District Chairmen: Deduct your expense and send the net proceeds of your drive to the County Chairman with a complete statement of net and gross receipts and expense.
5. The Grand Ball at the Community Hall Monday evening, January 30th, will be opened by a Grand March led by former representative in the legislature, M. U. Finley and wife.
6. To the Carrizozo press: Thank for your intelligent and unselfish cooperation. E. M. Brickley, County Chairman. Mrs. Marby H. Burns, Chm. of the Woman's Council.

Card of Thanks

We wish to express our deep gratitude to our many friends for their words of comfort, their many acts of kindness, and their sympathy expressed by so many beautiful flowers at the time of the death of our beloved wife, mother, daughter and sister. Clint & Barbara Jeanne Brannum, Mrs. Wm. Reily and family, Mrs. Lin Brannum and family.

chez, Feliz Gutierrez, Rosa Madrid; Grade 4, Eugenia Lopez, Isrbelle Sandoval, Grade 5, Gregorita Gonzalez, Grade 6, Theresa Vidaurri; Grade 8, Mary Vidaurri, Demetrio Candelauro.

The sixth, seventh and eighth grades are selling penny chances on a two pound box of home made candy as a class activity.

The first graders are beginning preparations for a program to be given for Washington's birthday. They expect to entertain the other classes on that occasion.

Woman's Club Holds Meeting

The Carrizozo Woman's Club met Saturday, January 21, at the home of Mrs. R. E. Lemon, with 38 present. The Club sang "America," with Mrs. Lemon leading, and Mrs. Kelley at the piano. The Club voted to sponsor a Colonial Art exhibit during Americanization Week, Feb. 6th to 12th, in charge of art chairman, Miss Grace Jones.

The reports of standing committees followed: Literary and Drama, Mrs. Snyder; Legislation, Mrs. Brickley; Building Committee, Mrs. Richard.

A discussion considering a sidewalk at the new building, but it was decided to leave it in charge of the building committee.

Mrs. Stimmel reported she had sold 22 missionary society's cook books. Dance committee by Mrs. Davis reported the first open date March 11th. Nominating committee report by Mrs. Snow. At meeting of officers the following were elected:

- President, Mrs. Selma Dugitz.
- 1st V. P., Mrs. J. P. Turner.
- 2nd V. P., Mrs. C. A. Snow.
- Sec., Mrs. Don English.
- Treas., Mrs. B. L. Stimmel.
- Parliamentarian, Mrs. R. E. Lemon.

Due to her moving out of town Mrs. W. Van Schoyck resigned as treasurer and Mrs. Stimmel was appointed to fill the office the remainder of the year.

The following program, "The Santa Fe Trail" was given under the direction of Mrs. Ed. Queen Club singing, "O, Fair New Mexico," led by Mrs. English, with Mrs. Kehey at the piano. Piano Solo, Mrs. Burns.

"The Dawn of the Santa Fe Trail," Mrs. Queen.

Songs, "Little Girl Dressed in Blue," and "When the Bloom is on the Sage," by Gerald, Ray and Dean Cooper, and Charles Bunch with Gerald accompanying on guitar.

Mrs. Snyder read a paper written by Mrs. Huntsinger, "The Santa Fe Trail."

The boys sang two more songs "The Utah Trail" and "Just Because."

The Recessional, "The Santa Fe Trail Today," Mrs. Lemon.

The hostess with Mesdames P. M. Shaver, Erasmus Williams, Goodson, C. A. Brannum, Huntsinger, Burns and Burke served lovely refreshments of cake and coffee.

Mrs. S. W. Stewart Passes Away Wednesday

On Wednesday afternoon at 3 o'clock Mrs. S. W. Stewart passed away suddenly from a heart attack. Mrs. Stewart came here to reside about 23 years ago, when her husband brought an interest in the lumber yard. She has resided here continuously since that time. Mrs. Stewart was devoted to her family and her home. After her husband's death in 1934, she spent considerable time at Stanford and Dallas, Texas, usually returning to Carrizozo for the summer months.

She is survived by one daughter, Mrs. Lucille Stewart, of Dallas, Texas, and by one son, Mr. Wightman Stewart, of Carrizozo, both of whom accompanied their mother's remains to Stanford, Texas, this morning, where funeral services will be held, followed by interment beside her husband who is buried at that place.

Rebekah Meeting

The Daughters of Rebekah held their regular meeting last Saturday afternoon at 2 o'clock, with nine members present. The meeting was very interesting, and one of our members, Mrs. Roy Skinner, who seldom has the opportunity to attend on account of living so far from town, met with us. The meeting was successful also, as \$16 in dues were collected. After the business was attended to, the meeting closed, after which a splendid social hour was enjoyed. Cake and coffee were served by the refreshment committee. The next meeting will be held on Saturday, Feb. 4. A good attendance is hoped for. Refreshments will be served after the meeting.

NOTICE!

On Tuesday, February 14th, a school board election will be held to fill vacancies of expiring terms.

Local and Personal

Just received --- Car of cake. Special prices in quantities. The Titworth Company, Inc.

Mr. and Mrs. Herbert Edwards and son Robert, came in from Niles, Michigan, Wednesday, bringing Mrs. Thoraton of Osceola with them.

The Chamber of Commerce here has sponsored the advertising campaign which will give to the member towns belonging to the Southwest conference of mayors and Chamber of Commerce representatives a chance to participate in the circulation of 150,000 folders to be sent to the New York and San Francisco Fairs and to Travel Bureaus all over the United States. Each town, large or small, will be given the same amount of space in the 24-page folder. A number of business men here outside of the Chamber of Commerce are helping to finance the program.

C. O. Dillon, of Hot Springs, was a Carrizozo visitor yesterday. While in town he paid the News a pleasant call.

Attorney and Mrs. E. M. Barber of Las Vegas, stopped in Carrizozo today enroute to Carlsbad. They were pleasant callers at the News office.

President's Ball January 30th

The following committee has been appointed to take charge of the President's Birthday Ball

- Monday evening, Jan. 30, 1939.
- S. Dewey Stokes, Chairman.
- J. M. Carpenter.
- Mrs. L. P. McClintock.
- Sabino Vidaurri.
- Orchestra
- Tennis Court.
- Prof. H. Sussman.
- Charles Dow.
- Ettel Dow.
- Harold Goe.
- Dance tickets, \$1.00. Spectators, 25 cents.

Buy a button from one of the various committees selling. One-half the net proceeds will be left in a fund in Lincoln county. This applies to the button sale as well as the dance.

Mrs. Tunnie Bigelow was a business visitor in Hobbs last Monday and Tuesday.

Lyric Theatre

Friday and Saturday
John Howard, Mary Carlisle, Robt. Cummings, William Crowley, in

"Touchdown Army" Built around the BIGGEST and most popular football game of the year, the Army and Navy classic, with West Point for its setting, this picture brings you plenty of thrills, glamour, romance and laughs.

ALSO:
"Buzzy Boop at the Concert" and "Hunting Thrills"

Sunday, Monday and Tuesday
Judy Garland, Freddie Bartholomew, Mary Astor, Gene Lockhart, Alan Hale, Walter Pidgeon

"Listen Darling" Freddie and Judy with their pesky younger brother pick a husband for mother--and not only give mother one man to think of, but three. A hilariously complicated comedy!

ALSO:
"How to Watch Football" and "They Live Again"

Wednesday and Thursday
Preston Foster, Tony Martin, Phyllis Brooks, Slim Sumner, Arthur Treacher, Alan Dinehart, in

"Up the River" Hilarity in the Hoosgow--where the "lifers" only stay in for the laughs and it breaks their hearts to break out. So funny, its practically illegal.

ALSO:
"Correspondence School" Sunday matinee 2:30 p. m. Night show at 7:30

BANKING LOOKS AHEAD

Headquarters For Facts

Thousands of business decisions are made daily, many of them involving the success or failure of important undertakings.

Some decisions are sound. Others are not. The difference usually hinges on the presence or absence of facts.

Clear-thinking business men turn to their banks for business and financial information. They know that banks are headquarters for facts--local, national and international.

You will find it very helpful to work closely with this bank when making your plans for the immediate or distant future.

Listen for "Song and Story" over KOB Sunday evenings 8:45 to 9:00 P. M. Sponsored by New Mexico Banker's Association. 4-7-39

Member Federal Deposit Insurance Corporation

Notice of Pendency of Suit

THE STATE OF NEW MEXICO,

To each of the above named defendants against whom substituted service is hereby sought to be obtained: GREETING:

You and each of you are hereby notified that a certain cause wherein you and each of you are defendants and Edgar L. Jaffa is plaintiff, being Civil cause No. 4623 on the Civil Docket in the above named Court, is now pending against you.

The general object and purpose of said suit is to establish and quiet plaintiff's title in and to the real estate and property described in the Complaint in said cause, the same being situate in Lincoln County, New Mexico, and described as follows:

That part of the southwest quarter (SW 1/4) of Section 15, and of the East half of the northwest quarter (E 1/2 NW 1/4) and north half of the northeast quarter (N 1/2 NE 1/4) of Section 22, Township 11 South, Range 18 East, N. M. P. M., lying South of the middle of the channel of the Rio Hondo, and all of the south half northeast quarter (S 1/2 NE 1/4) of Section 22, Township 11 South, Range 18 East, N. M. P. M.,

against the adverse claims of you and each of you, and anyone claiming by, under, or through you or any of you, and to forever bar and estop you and each of you from having or claiming any lien upon, or right or title to, or interest in the said property and real estate.

You are further notified that unless you enter your appearance in said cause on or before the 17th day of February, 1939, Judgment will be rendered in said cause against you and each of you by default.

That the name of plaintiff's attorney, and his postoffice address is John E. Hall, Carrizozo, New Mexico.

Given under my hand and the seal of the Third Judicial District Court of the State of New Mexico this 3 day of January, A. D., 1939.

(D. C.) Edward Penfield,
District Court Clerk,
Thomas Shaver,
Deputy.
(Jan. 6-39)

Breath Smeller' Determines Drunkenness

A driver, stopped by highway police in Long Island, N. Y., prepares to blow up a balloon in a test for drunken driving on the highways. At the right a police technician tests the air in the balloon for alcohol content. Forty-eight out of 100 drivers stopped in Nassau county were found to have been drinking.

Two World Beaters of 30 Years Ago

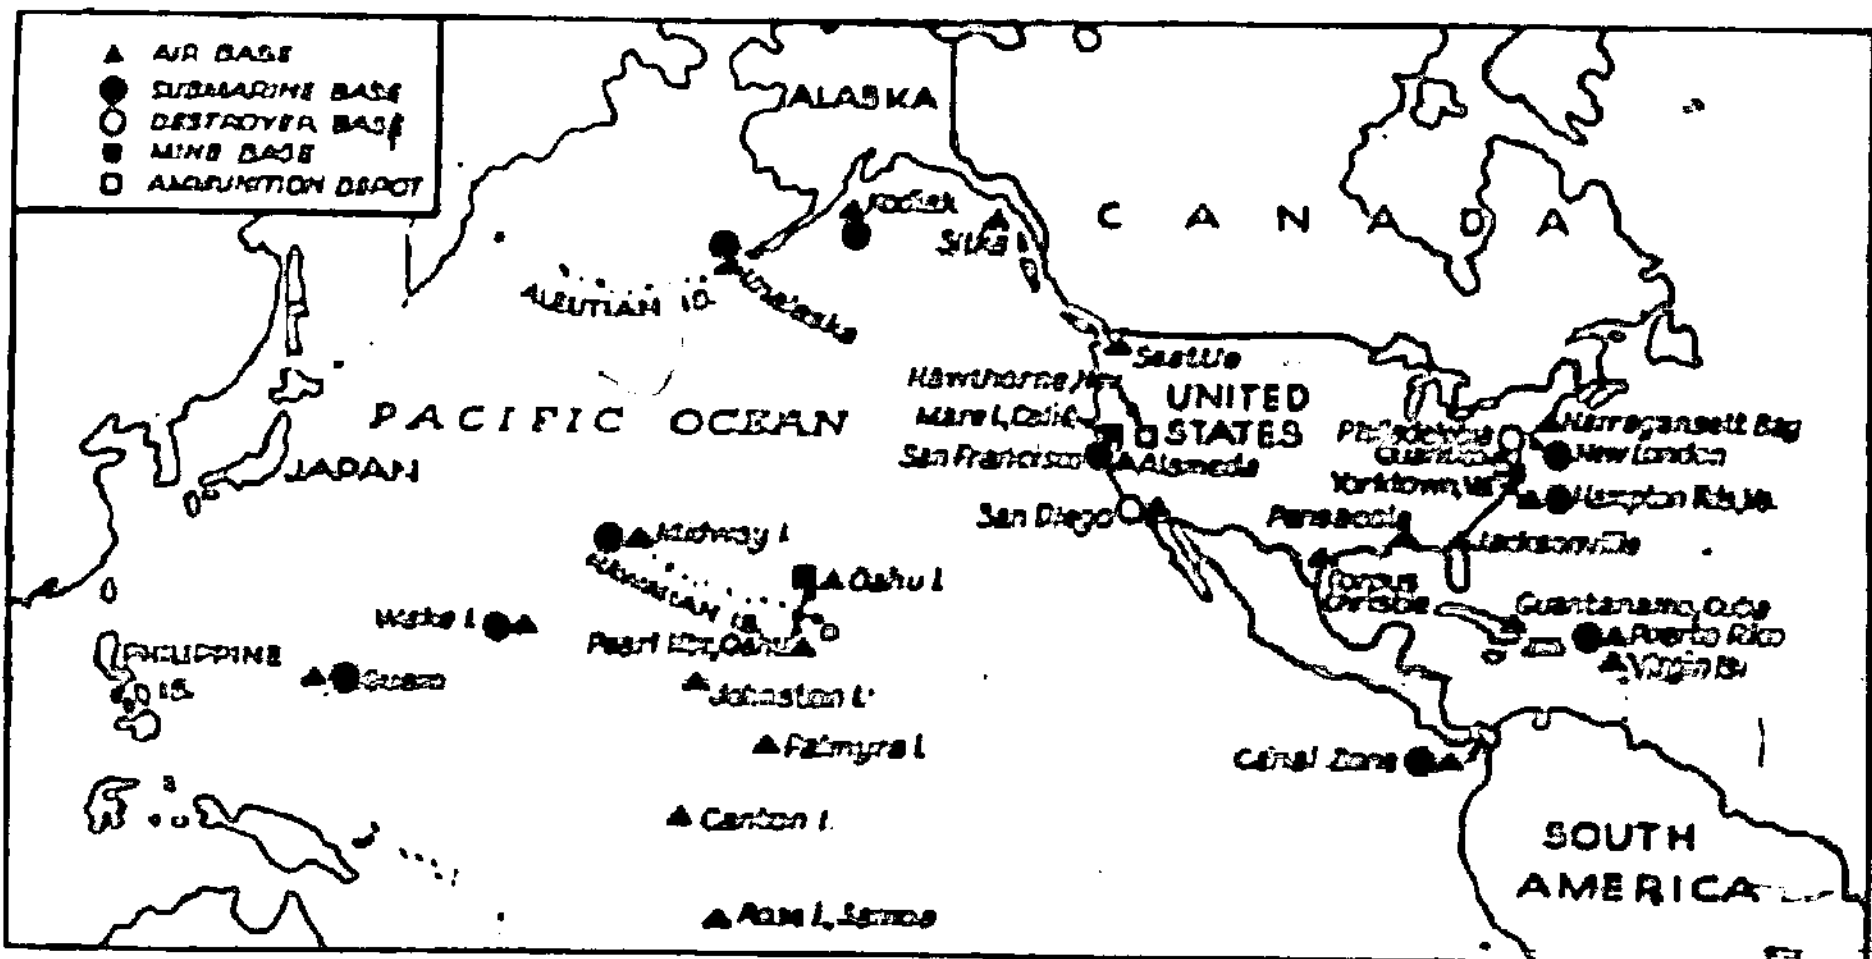

Jess Willard, one-time heavyweight boxing champion of the world, in a plane used during his glorious days as a ring top-catcher. This 1938 pusher, owned by Clarence McArthur of Tampa, Fla., is an ancestor of the modern planes which took part in the American Air maneuvers in Florida recently.

IN THE 1939 MANNER

About the only place straps are used for support today are on street cars. Not, at least, on millady's bathing suit. Strapless swim garments made their advent in Los Angeles during market week recently.

Naval Board Proposes U. S. Defense Bases

Air, submarine, destroyer and mine bases, necessary to the adequate defense of the U. S. and its possessions, have been mapped by the naval board, which congress in 1938 directed to survey the coastlines of the United States and its possessions. Shown here are projects recommended in a report submitted to congress by Secretary of the Navy Claude Swanson. These sites, in the opinion of the board, are best situated for defense bases.

Mooney Cheers Billings in Folsom Visit

Tom Mooney, recently released from San Quentin, Calif., prison by Gov. Culbert Olson after serving 33 years, is talking to free Warren Billings, right, from Folsom prison. Billings was also jailed for the Red Francisco Preparedness day bombing.

THRIFTY TRAVELER

Sergeant James "Jock" Scott has walked 51,000 miles in the past five years on Uncle's orders. He started from London, England, and recently arrived in Seattle, Wash., on his world-striking tour.

WHAT to EAT and WHY

C. Houston Goudiss Analyzes the Food Values of Nuts; Discusses Their Place in the Menu

By C. HOUSTON GOUDISS

THERE is one food that can lay claim to being almost universal. It is eaten with relish by people in almost every quarter of the globe. It forms a main article of diet for the natives of some tropical countries, and is said to have been important in the dietary of early settlers in America. I refer to nuts.

Nuts, of course, are seeds. But unlike most other seeds used for food by man, they grow in a hard shell that does not open naturally when ripe.

This forms a sealed package which makes nuts easy to store, and comparatively easy to keep.

A Concentrated Food

Nuts are a highly concentrated food and provide a large amount of food value in a small, convenient form. Once they are shelled, there is very little waste in using them. It has been suggested, therefore, that they might profitably appear in the daily menu far more frequently than they do.

There are many different kinds of nuts, and they vary in composition. Some of them contain large amounts of both protein and fat. Others contain a preponderance of fat, while a third group is starchy.

The protein of many nuts has been found to be rather similar to that in meat and fish. In fact, most nuts are classed as complete proteins, meaning that their protein is of a type which is capable both of supporting growth and repairing worn-out body tissue.

Comparison With Grains

Because they are somewhat similar in nutritional character, nuts have been compared to various grains. In regard to protein, however, they may be said to serve as a supplement to the proteins of some grains.

The high fuel value of many nuts is due to their fat content. Coconuts, pecans and walnuts are especially rich in fat, containing respectively 80.0 per cent, 70.5 per cent, and 64.4 per cent of fat. A few varieties, such as chestnuts and lichi nuts, so popular with the Chinese, are more notable for their carbohydrates. Like most starchy foods, chestnuts are improved by cooking, and therefore, are preferably roasted before eating. Fresh chestnuts contain a little over 42 per cent and dried chestnuts a little over 74 per cent of carbohydrates.

Mineral and Vitamin Values

The amount of mineral salts in nuts varies with the type. Generally speaking, however, nuts are considered a rich source of phosphorus and a good source of manganese and of copper and iron, required for the formation of the hemoglobin or red pigment in the blood.

Most nuts are considered a poor source of calcium; or at best only a fair source of this mineral which is required for helping to build teeth and bones. Two noted investigators, however, determined as a result of careful experiments, that in adults the calcium of almonds was fairly well utilized by the body. It is not as well utilized, however, as the calcium of milk.

Nuts are not regarded as a significant source of any vitamin except B, though some kinds have been found to contain vitamin A. As they are frequently served in combination with fruits, however, in salads and as desserts, the fruit-nut combination usually supplies a substantial amount of minerals and vitamins.

Place in the Menu

Because of their content of protein and fat, nuts are frequently compared with meats and may

be used interchangeably with meats. They make a splendid protein food to serve at lunch, supper or even dinner. They are especially good when combined with vegetables, or a carbohydrate food such as rice or noodles, and made into croquettes, patties, and casserole combinations that constitute a one-dish main course.

A Food—Not a Tidbit

Nutritionists are of the opinion that nuts might well constitute a larger part of the American dietary, chiefly because they are

such an economical source of protein and of energy values. Though they can be used for a main dish as an alternative to meat, it is not advisable to allow them to replace milk or eggs.

It is highly desirable, however, that homemakers and their families regard nuts as a food and not as a tidbit to be served at the end of a meal that is already nutritionally adequate.

Thorough Mastication—Desirable.

It is also important to encourage the thorough chewing of nuts, as this helps to make them more easily digestible. For children, nut butters are especially desirable. Some nuts are also prepared in the form of meal or pastes. In these forms it is not difficult for the digestive juices to penetrate them, and nuts may be considered as easily digestible as other foods of similar composition. Because they are highly concentrated, as we have seen, it is also advisable to include foods containing a generous amount of bulk or cellulose when nuts are included in a menu.

Smart Advance Fashions

THESE pretty dresses will be exactly as smart for spring as they are right now! So get a head start on your sewing for the coming season by making them while the winter weather is keeping you indoors so much anyhow. These designs are so easy to make that you'll enjoy working with them; a detailed cut chart is included for the guidance of beginners, and you will enjoy your clothes much more when the fabrics are of your own selections.

Blouse-With-Skirt Fashion.

Here's a smart design that you will repeat time and again in different fabrics for every season of the year. Blouse with skirt dresses, like all two-piece styles, are much in favor right now, and this one is unusually smart and becoming. The skirt flows from a lifted, princess waistline. The blouse, on classic shirtwaist lines, has a slim fullness and high-shouldered sleeves to make it more becoming. Make it for right now of flannel or wool crepe, and later on, in the silk or fat crepe, or with a silk or cotton blouse and wool skirt.

Monastic Dress for Girls.

This is the success of the season—the most exciting of all new fashions—and it's the easiest thing in the world to make with the diagram. It hangs loose and straight from the shoulder yoke, and drapes into soft, graceful fullness when the belt is fastened round it. Every girl who wears 10-to-16 sizes should have this charming new fashion—in silk print, flannel crepe or thin wool.

The Patterns.

1661 is designed for sizes, 12, 14, 16, 18, 20 and 40. Size 14 requires 1 1/2 yards of 23 inch material for

short-sleeved blouse; 2 1/2 yards for long-sleeved. 2 yards of 54 inch material for the skirt.

1661 is designed for sizes 10, 12, 14 and 16 years. With short sleeves, size 12 requires 3 1/2 yards of 39 inch material; with long sleeves, 4 yards; 1/2 yards for contrasting collar and cuffs if desired. 2 1/2 yards of braid.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

© Dell Syndicate.—WNU Service.

Constipated? You Should Get at the Cause!

Lots of people think they can't be "regular" without frequent trips to the medicine chest. "I just dose up and get it over," they tell you. But doctors know they don't "get it over" at all—until they get at the cause of the trouble! Constipation is the result of food in the case if you eat only what most people do—meat, bread, potatoes. It's likely you don't get enough "bulk." And "bulk" doesn't mean a lot of food. It's a "bulk" food that is good for the body, and leaves a soft "bulky" mass in the intestines and helps a bowel movement. If that's you, your diet is a "meat, bread, potato" diet. Change it! Buy a box of LUDEN'S MENTHOL COUGH DROPS. Eat All-Days every day, drink plenty of water, and just watch the old world grow brighter! Made by Endings in Hatfield Creek.

Work Is Never Vain

No work truly done, no word earnestly spoken, no sacrifice freely made, was ever in vain.—F. W. Robertson.

POSITIVELY!

"Luden's are 'double-bursted'... you get soothing relief plus an alkaline factor."

AROUND the HOUSE Items of Interest to the Housewife

For Gravy or Soup.—When you wish to make gravy or soup with the water in which meat has been cooked, bring a cup of cold water and strain the liquor through it. No grease will go through.

The Child's Chair.—A child's dining chair should be only deep enough to support his back and yet shallow enough to allow his knees to bend, and it should have a support if the child's feet do not reach the floor.

For Baby's Safety.—Keep the handles of kettles on the stove turned toward the back.

Cleaning Isinglass.—Apply vinegar on a cloth to the stains on isinglass on stoves. With a little rubbing, the stains will come off.

Flavoring Mashed Potatoes.—One teaspoon of onion juice or half a sliced raw onion added to mashed potatoes gives them a different flavor.

For Coffee Stains.—Remove coffee stains from table linen with Glycerin. Apply glycerin and let stand three or four hours or until stain disappears.

Lowering High Ceilings.—One way to help make a ceiling look lower is to use simple valances at high windows.

Safety Measure.—Chemical fire extinguishers have saved many homes from being reduced to ashes. Even a bucket of sand or damp sawdust is effective if used before a fire gets too much started.

U.S. Farming Marks Vital Half Century

Agriculture Department Celebrates 50 Years Of Research

By J. K. McCARREN

Exactly 50 years ago—on February 9, 1889—congress decided that farming was important to America's future. Today the department of agriculture celebrates its golden anniversary as an executive branch of the government under a cabinet officer.

The department was actually created 27 years earlier amid the stress of the Civil war by President Lincoln. Between 1862 and 1869, however, it was directed by a commissioner of agriculture in the patent office and annual appropriations went largely for the purchase and distribution of seeds and plants, and for gathering statistical data on agriculture.

With the passage of the Hatch act in 1887, research was encouraged at state agricultural experiment stations. The measure also encouraged a more extensive federal program for agriculture with congress appropriating funds specifically for investigating crop production, plant and animal diseases, insect pests, reclamation, and certain economic problems.

Once established as an executive branch of the government, the department in reality became "grown-up." Toward the end of the Nineteenth century, economic conditions and federal legislation broadened the department's responsibilities far beyond the realm of production science. As the settlement of the country proceeded and production expanded, new problems arose.

Activities Expanded. It was necessary to find additional outlets for agricultural commodities, to cheapen and improve their distribution, and to aid farmers in matching their production with demand. During this period the department developed various economic services, notably crop and live stock reporting, market regulation, and the dissemination of economic information.

North Attleboro's Joe Martin Leads G.O.P. Hopes in Congress

By JOSEPH W. LABINE

His father was Scotch, his mother was Irish and Joe Martin is a bachelor at 54, a "shirt sleeve" executive whose smoke bears watching because he has been named Republican minority leader in the house of representatives.

Ordinarily a Republican minority leader would be unimportant, but anything can—and might—happen in the seventy-sixth congress with its strengthened G. O. P. power and its growing number of independent Democrats. Joe Martin's job is to cement and give voice to the Republican party's victories last fall. The party's future may be staked on his ability to handle this job. What's more, he's now but two steps removed from the coveted house speakership, now held by Rep. William B. Bankhead of Alabama.

Republicans like to think Joe Martin typifies the new kind of party leadership just emerging from the Holocaust of the past eight years. Joe was the son of a North Attleboro, Mass., blacksmith, who began selling papers at the age of five, graduated to night switchboard operator in the local telephone office, and ended up buying the town's daily paper when only 24 years old. He's been in congress 14 years, having started his political career in the Massachusetts legislature during the World war. Joe Martin's "system" is a thing of wonder, and it probably accounts for his constant success.

To every voter in his district he sends a circular announcing the day he will be available at the given community's post office to hear complaints, praise, threats, demands and coaxers. It will be no surprise if Martin some day becomes a leading Republican presidential possibility. A liberal, he belongs to the national committee and was a member of the congressional campaign committee which contributed so much to last autumn's victory. He radiates personality, cuts through red tape and gets things done. Short (only 5 feet 4 inches), he is nevertheless the biggest man in North Attleboro. He has many hobbies, greatest of which is his 77-year-old invalid mother whom he visits almost every week-end despite the pressure of duties at Washington. With her, his widowed eldest sister and her children, he lives in the unpretentious

Modern devices help agriculture department officials in their dealings with producers. Above, a county compliance worker uses an aerial map to study acreage allotments with a Nebraska farmer.

authority, it began systematic work in marketing. Congress authorized the further development of commodity grading and inspection services and the provision of a nation-wide market news service. After the World war it became necessary to deal with production and marketing as the two halves of a single problem. Experimental legislation, including the agricultural marketing act of 1929, led eventually to the enactment of the agricultural adjustment act in 1933, and subsequently to the enactment of the soil conservation and domestic allotment act.

To a large extent, however, the department has been, and still is, a research institution. Through its research, agriculture and industry have reaped huge benefits. The late Sir Horace Plunkett, Ireland's noted authority on agriculture, described it as "perhaps the most popular and respected of the world's great administrative institutions."

Investigated Splenic Fever. Department research has many brilliant achievements to its credit, many of which reach far beyond the field of agriculture. In 1933 department scientists proved that a micro-organism found in the blood of cattle was the cause of splenic fever and that the disease was transmitted by the cattle tick. This was the first demonstration that a microbial disease can be transmitted exclusively by an insect carrier.

This discovery led physicians to the knowledge that such diseases as yellow fever, malaria, African sleeping sickness, Rocky mountain fever and other malarial diseases are simi-

larly transmitted. It made possible the control of yellow fever in the Panama Canal zone and the United States completed the canal after the French had failed.

After years of fruitless efforts by scientists of many countries, department workers in 1903 discovered that hog cholera is caused by a filterable virus, and developed a preventive serum that controls the disease. This discovery saves millions of dollars for American farmers every year.

Cheap nitrogen from the air, produced by a synthetic ammonia process in many American plants, is to a large extent an outgrowth of research in the department's laboratories. This development resulted in the collapse of the foreign monopoly in organic nitrogen fertilizers and the United States is well on the road to independence in its requirements for fertilizer raw materials.

Developed Better Products. Research in the department demonstrated for the first time that resistance to disease in plants is a genetic character and that resistant qualities can be bred into plants. This discovery has led to far-reaching improvement in wheat, oats, cotton, tobacco, sugar cane, tomatoes, cabbage, potatoes, and other important crops. This phase of research is well illustrated by the discovery of department scientists that mosaic disease was wiping out the sugar cane industry in the deep south. Introduction of mosaic-resistant stocks from the far east and a consistent quality breeding program have restored sugar cane productivity within a few years.

These are just a few examples of what department research has done for the American farmer. Many of the experiments are conducted in co-operation with state experiment stations. There are now more than 1,200 co-operative research agreements between the department and the experiment stations.

Co-operative research received another big impetus in the Bankhead-Jones act, which provides special funds for basic research. This act also serves to integrate state and federal research through regional laboratories. More far-reaching in this respect was section 232 of the agricultural adjustment act of 1933, which provides for four regional laboratories at New Orleans and Peoria, and in the vicinity of San Francisco and Philadelphia.

Combat Farm Surpluses. The research to be carried out at the new laboratories will attack, through science and technology, the problems of developing new and extended outlets and markets for the main surplus agricultural commodities in the four major farm producing areas of the country.

To begin with, the northern laboratory will study corn, wheat and agricultural wastes; the southern laboratory cotton, sweet potatoes, and peanuts; the eastern laboratory tobacco, milk products, apples, potatoes, and vegetables; the western laboratory wheat, potatoes, alfalfa, vegetables, and fruits other than apples.

Today's department of agriculture also has many other duties, including the administration of more than 50 regulatory laws. The food and drug administration is preparing to administer the new food, drug and cosmetic act which goes into effect next June. The new act gives wider protection to the consumer and protects manufacturers from unscrupulous trade practices.

Supervise Meat Packing. Among its regulatory duties is the supervision of the packers and stockyards act, supervising the great commodity markets to restrain dishonest practices and excessive speculation, it grades products for the wholesale and retail markets, and defends the country against foreign insects and animal and plant pests.

None the less important are the duties of the weather bureau in forecasting floods, storms, frosts and weather in general; protecting wild life, conserving the soil, the forests, and certain tasks relating to flood control through land treatment. These and other means of correcting old abuses in our land utilization method are comparatively recent developments.

The department, but 50 years ago one small bureau employing a small technical staff, now has a technical staff of about 16,000 trained persons.

HOW TO SEW

by Ruth Wyeth Spears

DEAR MRS. SPEARS: With the help of Book 1, I have just made a slip cover for a wing chair. I never would have tried it if your directions had not been so clear. I am now planning another slip cover and draperies which I would like to trim in fringe. Will you please show me with a sketch how I should sew the fringe? Also should the draperies and chair match?—M. J. N.

This reader evidently agrees with the Chinese proverb, "One picture is worth a thousand words." So here are the sketches showing how to apply fringe in the seams of slip covers and also for an edge finish. The raw edge of the material in the lower sketch is turned to the right side and fringe is stitched over it.

Safe Winter Driving

Safe counsel for bad driving weather, according to police officials and safety engineers, is "when in doubt, use tire chains."

This warning was issued with winter driving conditions prevailing, following a recent revelation by the National Safety Council which holds: "One fifth of all the people killed in traffic accidents in the United States throughout the entire year die in November and December alone!" Police assert there is even a greater percentage of personal injuries and property damages directly traceable to snow and ice.

Because of the conceded safety advantage of tire chains on snow or ice, police and safety engineers this year are urging their use when necessary in the interest of public safety, and because they provide the most positive anti-skid and traction yet developed.

The contest board of the American Automobile association, in official test No. 213, conclusively proved the greater margin of safety and stopping ability provided by tire chains. Vividly illustrating their imperative necessity on snow or ice, the AAA test showed that chains, on rear wheels only, stopped a car in 43.0 per cent less distance than when no chains were used, and in 69.0 per cent less distance where chains were used on all four wheels.

Acknowledging Faults

It is a greater thing to know how to acknowledge a fault than to know how not to commit one.—Cardinal de Retz.

Don't Aggravate Gas Bloating

If you GAS BLOATING is caused by overeating and drinking too much beer and soda, you need the Double Action Gas Expeller. This is a new and revolutionary medicine that will rid you of gas and bloating. It is a natural product and is safe for all ages. It is sold in all drug stores.

If figured draperies are used, the best effect is obtained if not more than one slip cover in the room is of figured material. Plain slip covers may match one or more of the colors in draperies, rug or wall paper.

NOTE: Now is the time to give your house a fresh start. Crisp new curtains; a bright slip cover; a new lampshade; or ottoman will do the trick. Make these things yourself. Mrs. Spears' Book 1—SEWING, for the Home Decorator, shows you how with step by step, easy-to-follow sketches. Book 2—Gifts, Novelties and Embroidery, will give you a new interest for long winter evenings. It contains complete directions for making many useful things. Books are 25 cents each; if you order both books, Patchwork Quilt Leaflet is included free; it contains 30 authentic stitches illustrated in detail. Address: Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Croemulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Croemulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Croemulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Croemulsion is one word, ask for it plainly, see that the name on the bottle is Croemulsion, and you'll get the genuine product and the relief you want. (Adv.)

Place of Amusement Let amusement fill up the chinks of your existence, but not the great spaces thereof.—A. Parker.

Black Leaf 40 KILLS LICE. JUST A DASH IN FEATHERS... OR SPREAD ON ROOSTS.

More than Double Mileage More Traction • 4 Great Features

You get much more protection from these great tire chains—and much more value for your money. Official tests prove more than double mileage, plus greater safety, better stopping power, easier starting on ice and snow. The best buy in tire chains because of 4 WEED AMERICAN features. (1) Bar-Reinforced cross links. (2) Weedalloy—a tougher metal. (3) Patented Lever-Lock End Hooks—positive fastening. (4) Side chains welded and hardened to resist wear.

Ask for WEED AMERICANS by name— at better accessory stores, garages, service stations.

National Truck Week, Jan. 21-28

Detroit, Mich., Jan. 21.--As the world's largest producer not only of passenger cars, but of trucks, Chevrolet is taking the initiative this month in a move designed to focus interest of commercial vehicle users on their transportation needs.

The company's entire organization, wholesale and retail, will be enlisted in the campaign, Mr. Fish said. Details of the operation were worked out here Dec. 20, at a meeting of regional truck managers, representing the wholesale organization from coast to coast.

Thirty thousand special messages will go out to fleet users from coast to coast in advance of the event, inviting them to view the special truck displays which dealers are setting up in their dealerships in scores of cities across the country.

"The thought behind National Truck Week," said Mr. Fish, "is to lend further impetus to the movement, already under way, for a concerted business revival in 1939. At the very start of the year, when budgets are being worked out, we are calling truck users' attention to their transportation needs.

"During a period of depression, truck operators, like passenger car owners, naturally tended to neglect the matter of replacement. Trucks that would in normal times have given place to more efficient units were continued in service, frequently without adequate maintenance work.

"National Truck Week is carefully thought out efforts to show truck owners what they stand to gain by modernizing their equipment in preparation for 1939. As might be expected, strong emphasis is being placed on the new units, both conventional and cab-over-engine, which the company presented at the Auto Shows.

You and each of you are hereby notified that an action has been instituted and is now pending in the District Court of the Third Judicial District, sitting within and for the County of Lincoln, wherein J. H. Reynolds is Plaintiff and you and each of you are Defendants, said cause being numbered 4612 on the civil docket of said court; that the general object of said action is to quiet the title of Plaintiff in and to the following described real estate, lying and being in the County of Lincoln, State of New Mexico, to-wit:

Northwest quarter of Southwest quarter and South half of South half of Section Fifteen; North half of North half, South half of Northwest quarter, Southwest quarter of Northwest quarter, South half of Southeast quarter of Northwest quarter and South half of Section Twenty-two; Southwest quarter of Section Twenty-three; Also, beginning at a point thirty feet East of a well located in the Southeast quarter of Section Twenty-three, Township Eight South, Range Ten East, N.M.P.M.; thence North One Hundred Feet, thence West Four Hundred Twenty feet to the East line of the Southwest quarter of said Section Twenty-three, thence East Four Hundred Twenty feet, thence North Three Hundred Twenty feet to the place of beginning, containing four acres; Also, the North half, North half of Southeast quarter, Southeast quarter of Southeast quarter, and South half of Southwest quarter of Section Twenty-seven; the West half of Northwest quarter, the Northeast quarter and South half of Section Thirty-four; the Southeast quarter of Southwest quarter, and South half of Southeast quarter of Section Thirty-five; the Northeast quarter of Section Thirty-one; all in Township Eight South, Range Ten East, N.M.P.M.

Also, East half of Northwest quarter and South half of Northwest quarter of Section Four; Northwest quarter and Southeast quarter of Northwest quarter of Section Three; West half of Northwest quarter, Northeast quarter of Northwest quarter and Northwest quarter of the Southwest quarter of Section two; West half of Northwest quarter, the Southeast quarter of Northwest quarter, and the East half of Southwest quarter of Section One; West half of Southwest quarter and Southeast quarter of Southwest quarter of Section Five; Southwest quarter of Southwest quarter of Section Six; Northwest quarter of Northwest quarter of Section Seven; West half of Northwest quarter, Southeast quarter of Northwest quarter, and the North half of Southwest quarter of Section Eight; the Southeast quarter of Northwest quarter, West half of Northwest quarter, Southeast quarter of Northwest quarter, Southeast quarter of Southwest quarter of Section Nine; Southwest quarter, West half of Southwest quarter and Northwest quarter of Section Eleven; the East half and East half of Southwest quarter of Section Twelve; the East half, East half of West half and West half of Southwest quarter of Section Thirteen; North half of Southwest quarter of Section Fourteen; the North half of Section Seventeen; the Southwest quarter of Northwest quarter of Section Twenty; Northwest quarter of Northwest quarter of Section Twenty-one; North half, and North half of Southeast quarter, and Southeast quarter of Southeast quarter of Section Twenty-two; West half of West half, North half of Northwest quarter and South half of Southwest quarter, of Section Twenty-three; Southwest quarter of Southwest quarter and Northwest quarter of Southwest quarter of Section Twenty-four; Southwest quarter of Southwest quarter of Section Twenty-five; Southwest quarter of Southwest quarter of Section Twenty-six; Southwest quarter of Southwest quarter of Section Twenty-seven; South half of Southeast quarter, and Southeast quarter of Southwest quarter of Section Twenty-eight; South half of Southwest quarter, Northwest quarter of Southeast quarter and Southwest quarter of Northwest quarter of Section Twenty-nine; Northwest quarter, Southwest quarter of Southeast quarter, North half of Southwest quarter, Southeast quarter of Southwest quarter and Southwest quarter of Northwest quarter of Section Thirty; Northwest quarter of Northwest quarter and Northwest quarter of Northwest quarter of Section Thirty-one; the North half of Northwest quarter of Section

Thirty-four; all in Township Nine South, Range Ten East, N. M. P. M. Also, the Southeast quarter, the South half of Northeast quarter of Section One; the East half of Section Twelve; the North half, the Southwest quarter, and North half of Southeast quarter of Section Twenty-five; East half of East half; West half of Northwest quarter, and West half of Northwest quarter of Section Twenty-six; North half of Northwest quarter, and Northeast quarter of Northwest quarter of Section Thirty-five; all in Township Nine South, Range Nine East, N. M. P. M. Also, North half of Northwest quarter, Southwest quarter of Northwest quarter, Southwest quarter, and Northwest quarter of Northwest quarter of Section One; the Northwest quarter of Section Four; the South half of Northwest quarter, the North half of Northwest quarter and East half of Northwest quarter of Northwest quarter of Section Eight; East half of Northwest quarter, and Northeast quarter of Southeast quarter of Section Ten; the West half, the Northeast quarter, West half of Southeast quarter and Northeast quarter of Southeast quarter of Section Eleven; West half of Northwest quarter, and Northwest quarter of Southwest quarter of Section Twelve; the West half of Southwest quarter of Section Thirteen; the West half, the Southeast quarter, South half of Northwest quarter, and Northwest quarter of Northwest quarter of Section Fourteen; the Northeast quarter of Southeast quarter of Section Fifteen; the Northeast quarter, and East half of Northwest quarter of Section Twenty-three; West half of Northwest quarter, and South half of Northwest quarter of Section Twenty-four; all in Township Ten South, Range Nine East, N. M. P. M.

Also, the South half of Southeast quarter and Northwest quarter of Southwest quarter of Section Six; the Southwest quarter of Southwest quarter of Section Five; the East half and West half of West half of Section Seven; the West half of West half and Northeast quarter of Section Eighteen; the West half of Northwest quarter and Northwest quarter of Southwest quarter of Section Nineteen; all in Township Nine South of Range Eleven East, N. M. P. M.

Also H. E. Survey No. 253, embracing a portion of, approximately, section nineteen, in township nine south of range eleven east, N.M.P.M., more particularly described as follows: Beginning at corner No. 1, identical with the closing corner to section eighteen and nineteen, township nine south, range eleven east, N.M.P.M.; thence N. 89 deg. 56 min. E. 20 chains to corner No. 2; thence South 38.60 chains to corner No. 3; thence S. 51 deg. 29 min. E. 39.90 chains to corner No. 4; thence S. 32 deg. 6 min. W. 3.17 chains to corner No. 5; thence N. 55 deg. 33 min. W. 21.38 chains to corner No. 6; thence N. 89 deg. 17 min. W. 12.96 chains to corner No. 7; thence S. 49 min. W. 14.10 chains to corner No. 8; thence N. 87 deg. 21 min. W. 19.70 chains to corner No. 9; thence N. 1 deg. 7 min. E. 26.53 chains to corner No. 10; thence N. 31 min. E. 39.81 chains to corner No. 11; thence N. 37 min. E. 74 links to corner No. 12; the place of beginning, containing one hundred fifty-seven and 69/100 acres, according to the official plat of the survey of said land returned to the General Land Office by the Surveyor General, together with the water rights and ditch rights appurtenant thereto.

Also, Northwest quarter of Northwest quarter of Section Two, Township Nine South, Range Ten East, N.M.P.M.

And to bar you and each and everyone of you from having or claiming any right, title, interest, lien claim or demand whatsoever in said real estate or any part thereof, adverse to the estate of Plaintiff.

You are further notified that unless you enter or cause to be entered your appearance in said cause on or before the 10th day of March, 1939, judgment will be rendered in said cause against you by default, and the relief demanded by Plaintiff will be granted.

You are further notified that Plaintiff's attorneys are Helle & Coles, whose office and postoffice address is Las Vegas, New Mexico.

EDWARD PENFIELD, Clerk of said District Court. J 10-P 10

Church of Christ

Is now meeting for worship, Bible study and preaching in the auditorium in the courthouse in Carrizozo each Lord's Day, Sunday. Bible Study at 10 a. m. Preaching at 10:50. Lord's supper at 11:50. Preaching each evening at 7. Also at Capitan in basement of old school at 2 p. m., each Lord's Day. All are welcome to our services. Come hear Brother Allen preach the gospel in power, yet with tenderness.--R. L. Allen, Minister.

Baptist W.M.U.

The Woman's Missionary Union of the Baptist church will meet in the church the first and third Wednesdays of each month.

Notice of Hearing and Determination of Heirship.

STATE OF NEW MEXICO,
COUNTY OF LINCOLN
In the Probate Court.
In the matter of the
Estate of John A. Foster, Deceased.

TO: Guss Everett, Administrator, Captain, New Mexico;
John W. Foster, Cross Roads, Lea County, New Mexico;
W. T. Foster, Military National Home, California.

and to all unknown heirs of the said decedent, and all unknown persons claiming any lien upon, or right, title, or interest, in or to the estate of the said decedent, and to whom it may concern;

You and each of you are hereby notified, and notice is hereby given, that Guss Everett, Administrator of the Estate of John A. Foster, deceased, has filed in the above entitled court an Application for Determination of Heirship, and the Court has appointed Monday the 6th day of March, 1939, at the hour of 10:00 o'clock A. M. as the hour and day for considering said Application for Determination of Heirship, and at said time and place the Court will proceed to determine the heirship of said decedent, the ownership of his said estate, and the interest of each respective claimant therein, and the persons entitled to the distribution thereof.

The name and postoffice address of the attorney for the administrator is John E. Hall, Carrizozo, New Mexico.

Witness the honorable John Mackey, Judge of the said Court and the seal thereof, this 19th day of January, 1939.

Edward Penfold, Clerk.

AAA Program For Coming Year

The Bureau of Agricultural Economics estimates that the total 1938 cash income for farmers will be 7.5 billions as compared with 8.6 billion dollars in 1937. Due to two favorable crop years, the surpluses of crops have increased and resulted in much lower prices.

The Agricultural Adjustment Act contains provisions aiming at the balancing of supply with potential demand plus ample reserves. Any corrective measure must have time to operate; many parts of the new act have not had time to influence general agricultural conditions. In the case of wheat, they will be used for the first time in connection with the crop-seeded for harvest in 1939. Accomplishment of the objectives will depend on the extent to which the farmers will cooperate in the AAA program.

Under the AAA program, allotments were set so as to prevent burdensome surpluses resulting from favorable growing conditions and extensive seedings beyond our nation's needs, reserves and exports.

The 1939 Agricultural Conservation Program announced by the Agricultural Adjustment Administration in August, with the date of program signed by the Secretary of Agriculture on November 10, is similar in many respects to the 1938 program.

One of the important changes in the program planned to oats, barley and rye and to be classified as surplus crops for each crop are: (1) an increase in the acreage of permanent grasses of which a good stand is established in 1939 and the next crop is cut green for hay and is not harvested for grain. The producers, in recommending the change, pointed

Air Map of Manhattan and New York World's Fair Grounds

NEW YORK—An aerial photograph recently obtained this remarkable picture showing the skyline of New York with its relation to the grounds of the New York World's Fair 1939. An artist has painted on lines indicating distances from certain points in Manhattan to the fair grounds. These distances and other facts concerning road and bridge approaches to the exposition which is preparing to handle 60,000,000 visitors are: (1) From Empire State at Fifth Avenue and 34th Street, in the heart of the retail shopping district, to the fair grounds, 7 miles. (2) From Wall Street, in lower Manhattan, to the fair grounds, 8 1/2 miles. (3) From the entrance to the Triborough Bridge, 9 1/2 miles. (4) Queens can make this trip without encountering a single traffic light. (5) Holland Tunnel from New Jersey, showing route through lower Manhattan across Williamsburg Bridge (No. 9) to roads leading to the fair. (6) The Battery. (7) The Brooklyn Bridge. ed that the use of a nurse crop for legumes and perennial grasses, the nurse crop to be cut green (or hay, in a sound conservation practice

In general the soil building practices approved for payment in 1939 will be similar to those approved in 1938, although some changes were made to fit the pro-

gram to the local needs of the states and regions.

There is very little change from the 1938 range program in the 1939 range conservation program which was signed by the Secretary of Agriculture November 10. The principal practice is still deferred grazing.

In addition to the surplus-control provision of the AAA program, it must be recognized that soil conservation is the basic principle. Surplus control and soil conservation go hand in hand. Selling out-depleting crops at low prices is wasting the soil's fertility. Surplus control is essential to give farmers a fair American standard of living. Soil conservation is essential to the welfare of the farmer in maintaining and further developing his farm.

Producers should study all phases of the present AAA program, so that it may be used to good advantage in their efforts to improve farming conditions and it will go a long way toward the solving of the problems facing agriculture today.

Detailed information concerning the AAA program will be available at the county AAA office in the near future.

Notice of Hearing of Final Report and Account.

In the Probate Court of Lincoln County, State of New Mexico.
In the matter of the Estate of Melvin Franka, Deceased.

To Callie C. Franka and John Francis Franka Sultemier and to all unknown heirs of the said decedent, and all unknown persons claiming any lien upon, or right, title, or interest, in or to the estate of the said decedent, and to whom it may concern:

You, and each of you are hereby notified, and notice is hereby given, that Callie C. Franka, administratrix of the Estate of Melvin Franka, deceased, has filed in the above entitled Court, her final report and account as such Administratrix, and the Court has appointed Monday, the 6th day of March, 1939 at the hour of 10 o'clock A. M. as the hour and day for hearing of said report, and if there be, to the approval and settlement of said final report and account, and the discharge of the said Callie C. Franka as such Administratrix, and at the hour on the day named, the Probate Court will proceed to determine the heirship of said decedent, the ownership of his said estate and the interest of each respective claimant therein, and the persons entitled to the distribution thereof.

The name and postoffice address of the attorney for the Administratrix is John E. Hall, Carrizozo, New Mexico.
Witness the honorable John Mackey Judge of the said Court, and the seal thereof this 17th day of January, 1939.
Edward Penfold, Clerk.

IS THERE GOLD IN YOUR CELLAR?

Yes, and in Your Attic Too!
Turn Those Things You Don't Want Into Money with a Want Ad

Household Hints

By BETTY WELLS

DOROTHY D. is on the verge of moving and is all at sea about what to get for the new house and how to make best use of her furniture which is practically new itself and must be considered as the nucleus of any plans.

"The living room is long," she writes, "and separated from the dining room by an arch. The walls and woodwork have all been done over in ivory, and there's a red brick fireplace. I can buy venetian blinds for the eight windows in these two rooms, but doubt if I can do more than that about the windows till later. Will I have to plan on draperies and a valance with them? I can't afford to spend much. There are three windows together in the living room. Should there be one big blind for them or three smaller ones?"

"Our rug is brown checked with some blue in it. The furniture is brown wood with yellow tapestry seats on certain chairs. The slip covers for summer are twotone blue. An extra chair is in a rose-

We're moving.

rust. What would you do with this ensemble? I'd like to pull it together as smartly as possible and would greatly appreciate your help.

"The kitchen is green with ivory built-in cabinets. My stove and refrigerator are black and white. What would you do here? I don't care much for green. The house outside is stucco with apple green trim around the windows. When we paint, what color would you suggest?"

By all means have a single large venetian blind instead of the small ones. I'd have these blinds painted the color of the walls, but I don't think draperies and valance are absolutely necessary. Why not just have sheer curtains—made beautifully to hang in full abundant folds. They can be either ivory or yellow—I'd prefer to see them in yellow—then I'd add lamps with yellow pottery bases and perhaps some odd accessories in terra cotta.

In the kitchen, have the entire room done over in white and add red-curtain curtains and chair seats. I'd do the exterior of the house all in white when you repaint.

A Cape Cod Colonial House

"It may look just like an ordinary house to you," writes Marie S., "but to us it's a dream come true and so there's a very special aura lingering over it. Our little Cape Cod colonial house just two and a half miles from town is on the verge of being finished—and I don't want to make mistakes in furnishing it. Will you help me?"

"I enclose diagram of living room and dining room and would appreciate ideas for colors, furnishings, curtains, floor covering, etc. Both rooms are the same size, 11 by 13 feet, and open into each other through a five-foot arch. The walls will be painted. The living room opens into the den which will be in-

Our house looks like a dream come true to us.

brown white, rust and green. Thank you for any help you can give me."

Maple was born for houses like that, and so I'd rather see that kind of furniture there than anything—maple with a soft old honey tone rather than a reddish cast. Both living room and dining room would be lovely in yellow, with white woodwork and white ceilings. Then wide and swooping crisply ruffled curtains in white—don't stint on yardage as their effectiveness will depend on fullness. The rug I'd have in a warm tobacco brown. Have a couple of wing chairs in a green herringbone material and perhaps the sofa in a figured chintz with a good deal of green in the design. The chair seats in the dining room can have pads of this same chintz if you like.

Get copper base lamps and odd bits of pewter for accessories and make lamp shades of the flowered chintz. Add wall brackets to hold fresh house plants that repeat your green tone. In the dining room have maple corner cupboards or else built-in corner cupboards to hold a set of green scenic plates and some of the pewter. These scenes will be more charming if you don't try to make too much of a point of exactness.

Salads Needed for Health and Beauty

Most Everyone Likes Them For Luncheon or Dinner

By EDITH M. BARBER

IT COULD have served as a model for a lovely still life, that huge plate in the center of which was a quarter of a honeydew melon filled with sections of grapefruit and orange and decorated with other fruits. Around this in cups of crisp curly lettuce were radishes, carrots and cabbage, cut so fine that it must have been a meticulous hand which had prepared them. Pomegranate seeds were used as a garnish.

There was well seasoned french dressing, guaranteed to supply few calories. There was butter of the same type for the rusk and nut bread. A hot vegetable bouillon out of the usual place in the menu came next and after this the dessert of wedges of fresh pineapple and slices of prickly pears, naturally without the prickles. With this came a large, thin, sweet water.

Luncheons of this type are served every day at this restaurant which is merely an accessory to other aids for beauty and health. I cannot guarantee that they produce these results, but both men and women who prefer a light lunch find there what they wish in attractive form. My hostess mentioned that among the regular customers were a number of men, some of whom were lunching there that day.

Mixed Vegetable Salad.

- 1 cup shredded cabbage
1 sliced cucumber
1 cup diced beets or 2 tomatoes
1/2 cup french dressing
Lettuce
2 hard-boiled eggs
1 bunch radishes

Mix the cabbage, cucumber and beets or tomatoes with the salad dressing and let stand in the refrigerator half an hour. Arrange lettuce in a salad bowl and on this place vegetable mixture. Garnish with the radishes and sliced hard-boiled eggs. Mayonnaise may be passed with this.

Shrimp and Ripe Olive Salad.

- 1 package lemon-flavored gelatin
1 cup boiling water
1 cup cold water
1/2 teaspoon salt
1/4 cup shrimps, cut in half, lengthwise
1/2 cup ripe olives, sliced

Dissolve gelatin in boiling water; add cold water and salt. When gelatin begins to thicken, add shrimps and olives. Put in small ring mold. Chill until firm; unmold on round dish and garnish with lettuce and mayonnaise.

Mineral Mayonnaise.

- 1/2 teaspoon mustard
1 teaspoon salt
Cayenne
1 egg yolk
Lemon juice
Vinegar
1 cup mineral oil

Mix the dry ingredients and add the yolk of egg. Mix well and add one-half teaspoon of vinegar. Add the oil gradually drop by drop at first, then more quickly, beating with an egg beater. As the mixture thickens, thin with lemon juice or vinegar, and continue adding oil. When finished, the mixture should be very stiff. Keep covered in the ice box.

Thousand-Island Dressing.

- 1/2 cup mayonnaise
1 tablespoon tarragon vinegar
1/2 cup whipped cream
1 chopped hard-cooked egg
1 tablespoon chopped green pepper

2 tablespoons chopped cooked beet
1 tablespoon chopped onion
1/2 teaspoon minced parsley
Mix the ingredients in the order given and serve with lettuce or other salad vegetables.

Cabbage and Fruit Salad.

- 1 small head cabbage
4 or 5 medium-sized apples
1 cup seedless raisins
Mineral oil mayonnaise
Lettuce

Shred cabbage very thin and let stand in cold water until crisp. Drain and dry. Arrange nest of cabbage on lettuce leaves on each salad plate. Pare apples and cut in one-half inch cubes. Mix with raisins and mayonnaise. Arrange on cabbage and garnish with cherries.

Salmon Canaps.

Cut bread in one-fourth inch slices, remove crusts and cut in finger lengths. Sauté with butter until delicately browned. Spread each piece with creamed butter mixed with minced pimiento and celery. Lay a piece of smoked salmon on each canap. Serve on lettuce leaves and garnish with whipped sour cream dressing.

Potatoes With Cheese Meringue.

- 2 tablespoons butter
3 eggs
Salt, pepper, paprika
3 cups mashed potatoes
Hot milk
1/2 cup grated cheese

Add butter, egg yolks and seasonings to mashed potatoes. Add enough milk to make a creamy texture. Pile in a greased baking dish, cover with a meringue made by beating the egg whites stiff and folding in the cheese. Sprinkle lightly with paprika and bake 15 minutes in a moderate oven (375 degrees Fahrenheit) until light brown.

Gay Prints Under Winter Fur Or to Pack for Southern Trip

By CHERIE NICHOLAS

THEY'VE arrived! — the new prints which are always so eagerly anticipated at midseason. They are beautiful and no mistake about it. A gay little frock of one of these refreshing, inspiring new prints under your fur coat and you will not only be "seeing the world through rose-colored glasses" but you will radiate cheer for others wherever you go.

Perhaps the most exciting thing about the first prints to come upon the scene is their eye-appealing colorings. You'll love the new Persian types that fashion is spotlighting throughout early showings. All aglow they are with luminous reds and rich purples and exotically yellows, blues and greens sometimes with a dash of black or white, but not always.

Then there are the perennial bayadere stripes. You will admire every inch of them because of the newness expressed in design and colorful ways.

It is not only that the new prints are so delightfully colorful that they lay siege to your heart, for the designers who are making up these intriguing silks into frocks are proving nothing less than color-inspired.

The striking models pictured convey timely and significant fashion news. These dresses, designed by International, are the type carefree resorters are choosing to pack for their winter holiday in warmer climes or that will take on a festive air under winter furs of the stay-at-home set.

The hand-blocked silk bayadere print to the left is the sort that will see you through all but the most formal dates, being a casual type

that fits into most any environs on and off the ship, if you go cruising.

If you are left behind in the exodus to southern climes you won't get worn out of it under winter furs and later on into the spring. It has a simple collarless neckline, fastens from throat to hem with little brass buttons. Cartridge pleats at the shoulder line and unpressed pleats for skirt fullness testify to a new emphasis placed upon the use of pleatings of every description.

A beautiful job was done by International in combining gay-colored pure silk Persian print with black silk crepe for the frock to the right in the illustration. The softly-crushed, yet snugly-fitted corselet waistline was inspired by Alix, and here we have it closed up the front with gold metal hooks and eyes. The softly draped skirt is split to reveal just enough of the print to make it interesting. The deep V-neckline is one of the most flattering, whether worn by debutantes or their mothers.

The daring things done with color in the advance print fashions is amazing. For instance one of the prettiest frocks in the new collections uses a purple crepe panel brought down to the hemline from one shoulder and an American beauty red crepe panel comes down from the other shoulder. These two over a silk print foundation dress that repeats these colorings in its floral patterning. Equally important are modest necktie prints using tiny conventional motifs in a mosaic of vivid colors. Also new are the types that print one color on a monochrome background such as yellow on black or navy, or brown on beige or light green on dark ground and so on.

Western Newspaper Union.

Many Pockets

If there is one thing more than another that fashion promises for forthcoming suits, dresses and blouses, it's pockets, pockets, pockets! It is not only that pockets are added from the utility standpoint, but designers are trimming with pockets with wild abandon, crowding them into space wherever opportunity presents. The voguish suit pictured is a gray wool tailored with a novel pocket arrangement that carries a "style" message.

Cunning Pockets Adorn New Styles

Designers have developed a passion for pockets used in a decorative as well as useful way. The new tailored suits have so many on the jackets one almost loses count of them. They have a way of animating the costume without disturbing the strictly tailored aspect, and it is amazing how expertly they are injected into the scheme of design and so ingeniously too, as to be almost amusing at times.

A perfectly charming vogue is foretold in the dark crepe day frocks that are enlivened with white lingerie touches that especially center about little pockets made of white oryxandy or pique or rows of dainty Val lace, these matched to neckwear and sleeve finishings. These clever little feminizing devices trim blouses and skirts as well.

Head Scarf With Matching Mittens

If the mother of your favorite adolescent protests over the peasant head kerchief style these cold mornings, you might play the role of mediator and present the girl with a fuzzy angora-head scarf, smart enough to charm any high school critic, and warm enough to keep the wintry winds from nipping her ears. These also have angora mittens to match.

Spectator Sports Styles Gray kidakin and leopard coats with matching fur toques are worn over wool or velveteen dresses by the dressier sports fans.

Coiffure Suggestion If you haven't taken kindly to the unwept coiffure, try having your locks twisted at the back into a broad, flat bowknot.

Mothers Shun Back Seat in Modern Life

By PATRICIA LINDSAY

WOMEN who can pride themselves on being modern mothers never find it necessary to take a back seat even though their daughters may be extremely beautiful and talented.

When mothers complain to me that their daughters push them in the background (whether it be in the home or out socially) I take time to write them a long personal letter to help them out of their difficulties. I do, even though perhaps I shouldn't, ask them rather pointed

Billie Burke has kept her youthful charm and beauty although she is the mother of a grown daughter, also in the movies.

questions—"How did you bring up your daughter?" "What happened to you while she was growing into an adult?" "Do you keep yourself up in appearance?" "Are you a woman your daughter and husband are proud to exhibit?"

Those are poignant questions. It takes steady nerves for most complaining mothers to answer.

Let us assume that during the time when daughter was growing up, mother had no easy time of it. She had a lot of work to do and money was scarce. She sacrificed a great deal to give daughter nice clothes, a good schooling, and a healthy life. All right. Her mother love dictated. She enjoyed doing that.

Of course she hoped, and rightfully expected, that when daughter did grow up she would be grateful for this loving care. Perhaps daughter, during her difficult teens is, or was not, grateful. Perhaps she had been thoroughly spoiled. Perhaps for years she expected mother to do all she did to because mother never took the trouble to train daughter to be grateful. All that happens.

Important Details To Watch

You and I know that sheer materials are a nuisance for they do not permit the slightest carelessness! Our straps must never be pinned! If we wear more than one strap they must look as one through our blouse. A slip that is the least bit mussed will look untidy, and any slip closing not show through the side closing of your dress. Nor should a slip show beneath the hem of your dress. The only way to shorten a too long slip is to hem it over—never, never knot the strap.

Cut out toes in shoes are most comfortable and serve as much needed ventilators for the feet but they are hard on stockings! When you wash your hose be sure to scrub the toes well for how shocking to see a soiled toe peeping out from your shoe!

Speaking about shoes—they must be aired frequently. It is a good idea to shake in the shoe a little deodorant powder once a week and leave it in over night. Before wearing brush it out. That helps to keep your feet fresh.

Here's to more careful grooming!

Character Made Her Beautiful

"When I first looked into Jenny's beautiful eyes," Bill told me, "I knew I had to marry her. She's the most gorgeous creature in the world!"

What Bill had really seen in Jenny's eyes was a person of charm and depth of character. She had made the most of herself. Her grooming was meticulous and she selected her clothes with great care. And she certainly had done a lot with that plain little face which the Creator had given her. But that wasn't all. She had let her grand sense of humor (often an Ugly Duckling's compensation) carry her through life with color! She lived happily, kept herself busy and proved to all the ugly ducklings that not being beautiful is no handicap if you face facts. For Jenny got her man, and a mighty nice man at that!

By Patricia Lindsay—WFO Service.

Sun Down, Accidents Up

When the sun goes down, traffic accidents go up. More than 60 per cent of all fatal traffic accidents occur at night, the National Safety Council reports. Since about a third of the driving is done at night, it estimates, the number of traffic deaths per mile is about three times as great at night as during the daytime.

In the past seven years, night accidents have increased 60 per cent in rural districts, the report says, and only 17 per cent in cities. Adequate lighting and divided highways tend to reduce headlight glare and accidents, the council said. Some states are experimenting with new reflector buttons placed along the side of the road to show the alignment of the highway on curves, hills and other hazardous places.

ACTS FAST TO BRING RELIEF FROM COLDS

This Simple Way Eases Pain with Amazing Speed

1. To ease pain and 2. If chest is raw from cold, crush and re-dissolve 2 Bayer Tablets in 1/2 glass of water.

Use Genuine BAYER Aspirin—the Mostest Your Cold Starts

The simple way pictured above often brings amazingly fast relief from discomfort and sore throat accompanying colds.

Try it. Then see your doctor. He probably will tell you to continue with Bayer Aspirin because it acts so fast to relieve discomforts of a cold. And to reduce fever.

This simple way, backed by scientific authority, has largely supplanted the use of strong medicines in easing cold symptoms. Perhaps the easiest, most effective way yet discovered. But make sure you get genuine BAYER Aspirin.

Joys Concealed He who can conceal his joys, is greater than he who can hide his griefs.—Lavater.

How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 35 to 45), who feels she is less her appeal to men, who worries about her looks, loss of her dietary spirit, nerves and sooty skin. Use more fresh air, a hot bath and if you need a good general system tonic take Lydia E. Pinkham's Vegetable Compound especially for women. It helps nature build up physical resistance, thus helps give more vitality to every fiber of the body. It also liberates and distributes systems that often accompany change of life. WILLIE WURTE PATENT.

First to Act Among the wise, the brain acts before the mouth.

666 COLDS and Hay, Headaches and Fever. LIQUID TABLETS, SALVE, NOSE DROPS. Try 'Rub-My-Tone'—a Wonderful Linctus.

Overburdened A dying man can do nothing easy.—Franklin.

HEADACHE? Here is Amazing Relief! In 15 Minutes! Conditions: One to Sixty-four Hours. Headache, Migraine, Neuralgia, Toothache, Earache, Stomachache, Backache, Rheumatism, Gout, Sciatica, Neuralgia, etc. Do not take any other medicine while using this. It is safe for all ages. Always carry a box of this medicine. NEVER RELIEF FOR ACID INDIGESTION.

CLASSIFIED ADVERTISING. Have you anything around the house you would like to trade or sell? Try a Classified Ad. The cost is only a few cents and there are probably a lot of people looking for just what you have. Results: you no longer have use for it.

CHAPTER XI—Continued

"Don't come again, Phil," Mr. Sentry said. Mr. Hare stepped away so that they might speak alone.

Phil felt suddenly empty. "But father, mother will want to come!" Mr. Sentry smiled. "Of course! If she wishes. But not you children. I'd rather you didn't; and certainly not the girls." And he asked, "How are they?"

"Fine."
"Mary—happy with Mr. Endle?"
"Yes."
"Barbara well again?"
"Yes."

Mr. Sentry nodded. Phil waited; and his father said at last: "Phil—I don't know that it matters now. But I want you to know a thing or two. Phil felt his cheek stiff with pain. "About my testimony, Phil. The older man faced his son fairly. "All I said about that night was true. I didn't know Miss Wines was there. I shot her by accident. And—I had had nothing to do with her."

Phil's throat was full; but he managed to speak. "I believed you, father," he said. "We all did. That if was an accident!"

Mr. Sentry cleared his throat. "About the woman last summer," he said, "and the other, long ago. All that is between your mother and me. She knows they didn't touch what she and I had together."

Phil could not speak; and the older man said: "About the appeal. Appeals, delays, tricks wouldn't help in the long run. I hope you understood my decision."

Phil said slowly: "Yes sir! But you don't need to consider us. We're up to it." He added: "Of course, Mr. Hare says perhaps the Governor—Well, I mean if we can make him believe you—"

Sentry shook his head. "No, Phil. That's the jury's province; to decide whether I told the truth or not. If they didn't believe me, the Governor has no right to say they were wrong."

"Mr. Falkran says he could get a new trial—"

"I had a fair trial! Bob Flood let Falkran get away with a lot of things." Mr. Sentry's lips set. "I won't put you all through that again, Phil!" And he said, almost curtly: "See—that's all, then. Good-by!"

Outside, Phil found himself trembling. He said apologetically to Mr. Hare, "I feel about ten years old, right now."

"So do all men, sometimes," Mr. Hare assented. "But they never let anyone guess, except their wives."

April slipped away; and Phil missed Linda more and more. But on the first day of May, he reached the office at the usual hour, rang for a stenographer—and Linda came in.

Phil stared at her. She seated herself at the end of his desk, opened a notebook, laid sharp pencils ready.

He cried: "Linda! What are you doing here?"

"Come to take your letters."

"But how did you get here?"

"I persuaded Miss Randall to give me the job."

"But you can't—"

"Don't you believe it," she retorted. "Nobody can get a job under Miss Randall unless they can prove they're good. Certainly not a girl like me. You know, one of the idle rich? We have to prove we've got everything."

"But you—"

"Shorthand, typing, business forms, everything," she assured him gaily. "If you don't believe me, try me." And she said then: "I ought to be good! I've been working at it, studying twelve hours a day for six weeks, and practicing besides. Hence these dark shadows under my lovely eyes. Notice?"

And when he could not speak, she demanded: "Mean to say you haven't missed me? Haven't you even noticed that I'd quit being underfoot around your house all the time?"

"Gosh, I've missed you awfully. But Lin, what's the idea?"

"The idea, young fellow-medal," she said, speaking lightly lest her throat swell with tears. "The idea is that I have diagnosed your case, and written your prescription, and the prescription is me, taken regularly, in large doses. So when you go into business, into business go I. When you sit all day at a desk, I'll my chair up to the corner of the same desk. You'll be spending most of your time here for a while. Well, so will I."

"What do your folks think about it?"

"Highly approve," she assured him. "Would you like me to get my father's consent?"

"Oh, you can't do this, Linda!"

"Of course I can."

"Be here all day with me?"

"She spoke huskily. "Be anywhere, always, Phil, with you."

"You'll marry somebody—"

"Yes, if you'll have me."

"You know I can't, Lin!"

"Then at least I can be your secretary."

"You're so doggoned stubborn—"

"Just obedient!"

He grinned. "All right," he said. "You know it will be grand for me, having you around."

"Me too, Phil."

"Take a letter!"

Her pencil poised; began to fly.

CHAPTER XII

Phil accepted Linda's presence in the office, but with misgivings. He reported the matter to Mrs. Sentry that night.

"Do you think it's all right, mother?" he asked. "She's sure to be talked about." And he said, thinking aloud: "Linda's so darned fine. If things were different—But they're not, of course. Never can be. I never can marry, or have children. I realize that."

He added tenderly, almost lightly: "Besides, my job is to take care of you."

She said: "Yes, Linda's sweet; but she knows that I need you. I shan't always be selfish about you, Phil, but—I shall need you and Barbara, for a while."

He thought doubtfully of Dan, but

marry her, and raise about nine children and keep her so busy she won't have time to think about all this. People think too much anyway!"

Phil said: "I know; but he looks at it just the other way. He says we have to face it, live it down." And he confessed, half-angrily, "To hear him talk, you'd think he wanted her to wear a placard telling the world who she is."

Dan said scornfully: "That stuffed shirt! He's—like a woman. He wants to be a martyr. You know, the old line: 'I could not love thee, dear, so much, loved I not honor more.'"

"I don't blame him for testifying. Do you?"

"Hell, no! I'd have done the same. But why should he rub it in now? I'll go see him tonight, and tell him so."

But Dan's arguments were unavailing too. Professor Brace chose a Sunday afternoon in May for his confession. There had been tennis. Linda was there. When it was time

she did not speak. He stood like one awaiting judgment; but Dan said honestly: "He wasn't to blame, Barb. He was summoned, had to tell or lie. I'd have done the same."

"Of course," she assented. "I don't blame him for testifying. But Mac, I do blame you for telling me."

"Oh, Barbara, you can't fool yourself, pretend to ignore what has happened!"

Barbara faced him for a moment; then suddenly without a word she turned, turned and ran, ran into the house and away. He called her name, but he did not pursue her.

Dan said disgustedly: "You may be a professor, but you're the damndest fool I ever saw!"

"She will see I'm right, in the end!" Brace insisted.

But he was wrong in this prediction. Barbara thereafter avoided him, and when he came to the house she was quick to disappear. Yet Barbara began to wish to know all that had happened at the trial.

She asked her first questions on the Sunday following. Dan came,

"Mac and I Have Never Teamed Up," Barbara Confessed.

he promised: "Sure, Linda knows. We'll be here, mother. Don't be afraid!"

It was the first day of May when Linda came into the office; and during that month, July seemed far away. Business problems arose to worry Phil. Once he sought Mr. Loran's advice; but the Loran home was closed. Mr. and Mrs. Loran, he heard, had gone to Europe for the summer. So Phil turned to his mother, and every evening he consulted with her, asking her counsel, by his demands upon her forcing her to find strength to meet them. Also, Barbara was better every day, the flood of spring which flowed across the city surging through her.

But Barbara never mentioned her father. It was as though she had deliberately put him out of her mind. The others, recognizing this, did not speak of him in her presence; and they sought for her sake to protect her in every way, to find a routine, to live as near normally as possible.

Dan was often at the house; and sometimes Phil wondered how his mother could be blind to the bright devotion between Dan and Barbara that was so plain to his informed eyes. Once Dan wished to speak to Mrs. Sentry, to tell her their secret; but Phil's persuasions restrained him. Yet Dan came often, and Professor Brace too; and the tennis court had use again. If Sundays were fair they might all be there, Linda and Barbara, the Professor and Dan and Phil. Sometimes Mrs. Dane, or Mrs. Urban or other friends of Mrs. Sentry dropped in, and after tennis there was tea.

Professor Brace who in the end shattered the insulation of silence with which they had conspired to protect Barbara. He insisted on confessing to her his damning testimony against Mr. Sentry at the trial. He warned Phil in advance of what he meant to do; and Phil, unable to dissuade him, told Dan what Brace intended.

"I tried to talk him out of it," he explained. "Probably Barb can stand it now, though. She's a lot better. I'm more worried about mother. She doesn't show things on the surface much, but she's awfully shaky inside. Every once in a while, she shivers."

"I know."

"And lately her left eyelid keeps twitching."

"Sure, she's pretty well worn out." Dan reverted to Barbara. "But Phil, Professor Brace is a darned fool! What Barb needs is to forget all this business; never speak of it or think of it again. As soon as I can get a job somewhere else, I'm going to take her away from here."

for tea, she and Phil and Mrs. Sentry went into the house, and Dan and the Professor played a set of singles, Barbara looking on; and when the set ended—Professor Brace won—Barbara said warmly: "You're good, Mac. We'll teach Dan some tennis yet, before we get through."

Dan retorted cheerfully, "Maybe I'm not so good, but Linda and I can give you two a lesson, any time."

"Mac and I have never teamed up," Barbara confessed. "But it wouldn't take us long to learn."

The professor said suddenly: "We teamed up once, Barbara. The first night I met you. The night we followed your father home."

Barbara's color drained away. Dan said furiously: "You darned fool!" But Barbara said: "Hush, Dan. Mac didn't say that just to make me unhappy, did you, Mac? What are you trying to tell me?"

"I just want you to know, Barbara, that I testified against your father, told the jury about our seeing him that night, helped to convict that was so plain to his informed eyes. Once Dan wished to speak to Mrs. Sentry, to tell her their secret; but Phil's persuasions restrained him. Yet Dan came often, and Professor Brace too; and the tennis court had use again. If Sundays were fair they might all be there, Linda and Barbara, the Professor and Dan and Phil. Sometimes Mrs. Dane, or Mrs. Urban or other friends of Mrs. Sentry dropped in, and after tennis there was tea."

"No, not a bit!" he retorted, and scrambled to his feet. "Hit 'em in my reach, you big bully! Come on!"

Phil thought their words, their happy voices, were eloquent. He looked at his mother a little anxiously; but he saw that her eyes were curiously serene.

"Did you hear her tone when she asked Dan whether he was hurt?" she asked softly.

He pretended surprise. "Her tone? No. Why?"

"She's growing fond of him."

TO BE CONTINUED

Majority of Highway Motorists Found to Be Making Less Than Twenty-Mile Trip

Highway travel is predominately a short-distance movement and less than two out of every 100 vehicles observed on main highways are traveling more than 100 miles to reach their destinations. Eight out of ten are traveling less than 20 miles. These are averages of preliminary figures obtained in 11 states in planning surveys being conducted by the bureau of public roads in co-operation with 43 state highway departments.

The main highways and their extensions through cities carry 53.9 per cent of the total motor-vehicle traffic; 30.3 per cent is on the large mileage of other city streets and scarcely more than 10 per cent of the total occurs on all secondary and local rural roads which, in mileage, have eight times the extent of the main highways.

Preliminary data from 17 states show traffic on the main highways and transit connections to be 33 per cent urban in origin and 42 per cent rural. These are approximately the percentages of urban and rural population in the states where the counts were made.

Ninety-three per cent of the use

of city streets, other than through routes; is by urban vehicles, while 84 per cent of the traffic on minor rural roads is by rural vehicles.

Data being accumulated in the planning surveys, says the bureau, will give definite indications as to what should be accomplished in further road building; as to the relative transportation service that may be afforded by improving this or that class of road; as to who will benefit if either is done and who, being benefited, should pay the cost and in what proportion.

The states are still at work collecting a mass of statistical facts on highways and preparing the first complete maps of all rural highways. Each of the 43 states will publish its own results.

How to Tell Male's Age

One way to tell a male's age is by his teeth. On the edges of the incisors are grooves or cups that wear away as the animal advances in years. Another way the ages of males are determined is by the cavernous spaces above their eyes. These sunken places do not fill out when an old male is fattened.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK. — Mushing along with Jim Titus, an old desert rat, about twenty miles southeast of Tonopah, many years ago, this scrivener was

Cats-Hardened alarmed by the **Diplomat**, Ticket a p p r o c h of on **Key Pittman**, what seemed to

be a savage sandstorm. Old Jim, who seemed to know everything, reassured me.

"It's that young feller Key Pittman. He's runnin' around in that big rattletrap automobile of his tryin' to get up a telephone company. Just kickin' up a dust—that's about all. No peace for anybody around here."

Mr. Pittman roared on through the greasewood, to set up his new telephone company, since a tidy little fortune out of that, and sundry mining ventures, and to become chairman of the foreign relations committee of the United States senate. He backs up the President.

"Why shoot a man when you can starve him to death?" says Mr. Pittman, indorsing the hint of "financial sanctions" against world outlawry in the President's address. He reads his committee for action.

In Nome, Alaska, Mr. Pittman was a charter member of the Oratory Men's club, organized at Tex Rickard's bar. Years later, Ole Elliott, Tex Rickard's partner, reorganized the club in Tex's northern saloon in Goldfield. I believe Mr. Pittman's affiliations were with the Montezuma club, down the street, but he was a highly esteemed alumnus of the Alaska chapter and he founps enthusiastic "courdoogh" backing in his financial and political enterprises. Since 1913, Nevada has been sending him regularly to the senate.

He has been steadily against Japan—that is, against strong-arm Japanese trade and military aggression—and quite as fervently for silver. Well up in the headlines today is the conjecture that the President's new trade and credit militancy will move first in the direction of Japan.

Born in Mississippi, educated in Tennessee, practicing law in Seattle, Mr. Pittman landed in Dawson, Alaska, with a Canadian dime in his pocket. He manned a unilateral bucknaw for a few months before he was appointed district attorney. Jack London and Rex Beach found in him a rich pay streak of copy.

THE son of a Buffalo dock worker, one of nine children, who had seen labor wars in his youth and through his lifetime, has fought

Priest's Fight ways to end them, was influential in bringing about the

Eye of Nation truce in the New York taxicab strike. He is the Rev. Father John Peter Bojand, chairman of the unique New York State Labor Relations board since June, 1937. During his incumbency, New York has attracted the attention of the nation in its industrial mediation.

"Stop them before they get started" is his formula, as he quotes the pope's encyclical, advising priests to "go to the workingman." When he was appointed to his present post, he retired from his parishes of St. Lucy and St. Columba, with the blessing of his bishop, the Rev. John A. Duffy of Buffalo. He became profoundly interested in techniques of labor mediation while studying for the priesthood in Rome. He urges regular meetings between employers and employees and continuous and constructive effort, rather than emergency action when trouble comes.

WHEN the young German immigrant, Max J. Kramer, landed in New York and slept on a park bench, he had no "Don't Disturb" sign.

Opportunity, as Hence a policeman wakened

With Nightstick him by whacking his feet with a nightstick. It was really opportunity knocking. The policeman, who happened to speak German, steered him into a carpenter's job, and, before long, he was buying and building hotels with the facility of a child handling building blocks. That was the only time he ever slept out.

Last May, his wife, Maria Kramer, bought the 26-story Hotel Lincoln for \$7,000,000—cash, fooling it over into the black in less than six months. She is a linguist, has made a career as a fashion expert and interior decorator.

Mr. Kramer, who had \$3.50 when he landed, built more than 500 tenements, and, in 1925, had more than \$10,000,000 worth of buildings under construction.

Quickly Memorized Square Is Exclusive

Pattern 1849.

Use up those odd moments crocheting this square that you'll know by heart in no time. Six inches in string, an excellent size for cloths and aprons. It also lends itself effectively to many small accessories in finer cotton.

Pattern 1849 contains directions for making the square; illustrations of it and of stitches; materials required; photograph of square.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle, Needlecraft Dept., 62 Eighth Ave., New York, N. Y.

Please write your name, address and pattern number plainly.

Wait, Mother—Ask Your Doctor First

Never give your children unknown "Mergal" remedies to take unless you ask your doctor.

A mother may save a few pennies giving her children unknown preparations. But a child's life is precious beyond pennies. So—ask your doctor before you give any remedy you don't know all about.

And when giving the common children's remedy, milk of magnesia, always ask for "Phillips' Milk of Magnesia."

Because for three generations Phillips' has been favored by many physicians as a standard, reliable and proved preparation—marvelously gentle for youngsters.

Many children like Phillips' in the newer form—tiny peppermint-flavored tablets that chew like candy. Each tablet contains the strength of one teaspoonful of the liquid Phillips' 25's for a big box.

A bottle of Phillips' Liquid Milk of Magnesia costs but 25¢. Careful mothers ask for it by its full name "Phillips' Milk of Magnesia."

PHILLIPS' MILK OF MAGNESIA IN LIQUID OR TABLET FORM

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, crowded habits, irregular eating, drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are not to be over-taxed and fail to filter acids and other impurities from the circulating blood.

Headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired and nervous. In severe cases, there is kidney or bladder trouble, such as burning, stinging or frequent urination.

The "Doan's Pills" Don't stop the kidneys to get rid of excess blood—body waste. They are active in the primary tract and tend to remove irritation and the waste it causes. Other pills can afford the relief. Doan's Pills have had more than forty years of public approval. Ask your neighbor!

ment. Patronize our advertisers.

Local and Personal

WANTED -- Some fifty
to seventy-five pound
shoats. THE FITSWORTH
COMYANY, Capitan, N.
M. J. 26-11

Mrs. F. H. Hall, Mrs. Letcher,
and Miss Betty Letcher were
visitors from Capitan last Wed-
nesday.

Mr. and Mrs. Roy Skinner and
Mrs. Skinner's brothers, Robert
and Raymond Adams of El Paso
spent last Saturday in Carrizozo.

Mrs. Jimmie Duncan and Mrs.
Tom Hughes honored Mrs. Glen
King with a linen shower last
Saturday afternoon at the home
of Mrs. Duncan. Entertainment
consisted of Chinese Checkers
and pick up sticks. Mrs. King
received many lovely and useful
gifts. Refreshments of cake and
coffee were served to 18 guests.

Car and Rhoda Freeman enter-
tained a group of young people
last Sunday evening honoring
their weekend guest from State
College. Chinese Checkers and
"Fiddle Sticks" were the chief
diversions of the evening. Coca
Cola, sandwiches and cookies
were served at a late hour.

Will receive car of Dawson coal
Monday. Order direct from car
and save one dollar per ton.
Burton Fuel Yard.

Mr. and Mrs. Jim Gatewood
and daughter, Miss Helen of No-
gal, attended the basketball game
and dance here Saturday night.

Mrs. Champ Ferguson, Mr. and
Mrs. Hardeastle and Misses
Dean, Williams, Leslie and others
attended the basketball game and
dance here Saturday night.

Basketball

Last Friday night the "Griz-
zlies" won a hard fought battle
over Cloudfost. At the final
whistle the score was tied 19-19.
It was decided to play overtime.
After a few second play, Babe
Walker made the winning goal.
The final score was 21-19.

The Capitan Grades lost to the
Carrizozo Grades by a score of
13-11. Both teams displayed a
fighting spirit.

Today the "Grizzlies" go to
Hondo, and Saturday they meet
Corona on the local court.

This will be a treat so don't
miss it.

First Methodist Church

J. M. Glazier, Minister
Sunday, Jan. 29th
Sunday School, 10:00 A. M.,
Mr. Frank Adams, Superintend-
ent.

Sermon Themes:
11 A. M. "Can We Know
God?"
7:00 P. M. "Lopsided Folks."

I. O. O. F. Notes

Last Tuesday evening at the
regular meeting the Odd Fellows
initiated Glen Dorsett. Following
the initiation a social period was
enjoyed and oranges were passed
to the members.

Next Tuesday evening the 1st
degree will be conferred on a
candidate. As many members as
possible are urged to attend.

Jitterbug Club

Last Wednesday evening the
Jitterbug Club held another
bumper meeting in the American
Legion hut. Due to the illness of
Mrs. Albert Scharf, Mr. and Mrs.
Willie Gallacher and Mrs. Roy
Shafer assisted; Mrs. Dan Conley
as chaperone. Coca Cola and
waters were served to about 15
couples. Next meeting will be
held Friday, Feb. 3rd.

Library Talk

---Contributed.
Mrs. A. F. Roselle has just
completed invoicing the contents
of the Lincoln County School Li-
brary as her services were discon-
tinued this week with Mrs. Wil-
lingham taking her place. Mar-
garet Phillips, Evelyn Ellison,
Mrs. Craven and Mrs. Lucy
Sandayol helped the two ladies
in this work which was no small
task, as there are 26,000 books in
the library at this time.

Mrs. A. F. Roselle has done a
splendid work in organizing and
setting up the library. The
county is very proud of this li-
brary and regrets very much to
lose such an efficient librarian.
She has written many articles for
the different publications in the
state which has given our library
help. Her standing in the State
Library Association is very high
as the following will show: We
quote from the Editor's
Page in the News-Letter of Janu-
ary, published by the New Mexi-
co Library Association: "Recent-
ly we heard of the dismissal of a
conscientious, experienced libra-
rian, and one of the relatively
few trained school librarians in
the state--dismissal to make way
for an appointee of the incoming
school superintendent." "Loyal-
ty to the party" was given as the
reason for the change.

"The new librarian may
be trained, may be efficient, may
do a good job, for the sake of the
school and its good library, we
earnestly hope so. But the for-
mer librarian had already demon-
strated ability to run the library
in a manner highly commended
by both teachers and outside ob-
servers; further, she has estab-
lished proof of her loyalty to the
high ideals of librarianship. As
long as schools remain undivore-
d from politics, there will be
school administrators who are un-
mindful of the public trust
vested in them, and who fail to
accept the high challenge for ser-
vice--service unaffected by relig-
ious belief or political creed; and
as long as we have such admini-
strations for our school systems,
the growth of library service in
the schools will be slow, uneven
and disheartening. And now,
this ousted librarian is in need of
a job. If any reader knows of
any opening and will communi-
cate with the editor of the News-
Letter she will be glad to receive
the message."

News-Letter
Roswell, N. M.

Capitan and Hagerman High
schools played basketball Satur-
day. Score was 17 to 31 in favor
of Capitan. The Capitan grade
school and the Capitan High
school played a game of basket-
ball also, in which the grade
school team won.

World War Veterans

Every disabled World War
veteran who spent Christmas in
a hospital received a Christmas
gift from the American Legion
Auxiliary, says Mrs. Rose Bam-
berger, President of the local
Auxiliary unit. Last year Christ-
mas gifts went to 83,470 hospital-
ized veterans, and approximately
the same number were remember-
ed this year. The gifts were re-
purchased and prepared for dis-
tribution by the State organiza-
tions of the Auxiliary, with co-
operation of local Units. Each
State supplied gifts for all
veterans within the State. States
having a large number of hospital-
ized veterans compared with their
Auxiliary membership received
help from the National organiza-
tion.

In New Mexico one dollar bills
were presented to 434 veterans in
the hospitals. The Rehabilitation
Chairman, Mrs. George
Riegler, and her committee
visited all non-compensated
veterans, made a list of the gifts
for them and delivered them to

ZIEGLER BROTHERS

early for best selection at

1/2 PRICE

ZIEGLER BROTHERS

the veterans, so that each could
have the pleasure of wrapping
and addressing his own presents
for mailing to his family. Christ-
mas trees were decorated and
placed in the hospitals, and
parties were given for their enter-
tainment.

ANCHO NEWS

Mr. Tom Burk left Monday
morning with a load of furniture
for Mr. and Mrs. C. H. Peters,
who are moving to their new
home at Espanola. We regret to
lose Mr. and Mrs. Peters from
our neighborhood. They have
been very active in Sunday school
and church, as well as other
things of interest to the commu-
nity. They will be greatly missed
by their many friends, all of
whom wish for them health and
prosperity in their new home.

Mr. and Mrs. Henry Morris
and family moved to Ancho last
week end and will remain for the
winter.

Mr. and Mrs. Bill Balow at-
tended their usual Sunday after-
noon picture show at the Lyric in
Carrizozo.

Mr. and Mrs. Geo. Straley and
children spent Sunday with the
folks at Ancho. They are living
at their ranch at Luna.

Mr. J. C. Brickley visited Mr.
and Mrs. E. M. Brickley in Car-
rizozo Saturday evening.

Mrs. John Dale and son Elmo
rushed the oldest son of Mrs.
Juanita Fruosto to the Turner
hospital in Carrizozo last Friday
afternoon. The boy had been
rabbit hunting with some friends
and was accidentally shot in his
shoulder. He is doing nicely.

"Snow upon snow" makes it
very hard on the school bus
drivers these cold days, but so
far they have made the grade.
Ancho has very efficient bus
drivers, and we may also add
that Prof. and Mrs. Bill Nickels
and Mrs. Barney Wilson are al-
ways here on time.

Mr. and Mrs. John Bell were
shopping in town this week from
Jicarilla.

Mr. and Mrs. John Dale, Jr.,
came from Vaughn to spend the

week end. Mr. Dale is in the
water service for the Southern
Pacific, and is located there at
present.
