CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary, the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 820 Powers' Block, Rochester N. Y.

TWO PAPERS

FOR THE

PRICE OF ONE.

We have made a combination with the PHILADELPHIA "PRESS" for 1889. By this arrangement we are enabled to furnish both the "INTERPRETER" and "PRESS" for the single price of \$2.00. Any person sending us this amount will receive the "INTERPRETER" for one year, and the Philadelphia "WEEKLY PRESS" for one year. Old subscribers who are in arrears must pay up their arrears and one year's subscription to the "INTERPRETER" in advance in order to take advantage of this offer. The "PRESS" is an excellent journal. It is an able and vigorous advocate of the protection of American industries and it has many attractive features for readers of all classes. Sample copies can be had by addressing the "WEEKLY PRESS" Philadelphia, Pa. or "INTERPRETER" White Oaks, N. M.

CAM LIFE.

HERE'S THE SLICKER.

The one thing you'll always find in every cowboy's outfit, when he goes on the spring round-up, is a "Fish Brand" Pommi Slicker. They make the only perfect saddle coat, and come either black or yellow. They protect the whole front of the rider's body, being made to fit round the outside of the saddle entire. When used as a walking coat, the extension pieces neatly overlap each other, making a regular overcoat with a double storm-proof front. When riding, the saddle is dry as a bone, from pommi to handle, and the rider is entirely protected in every part of his body. These "Slickers" being of extra width, make fine blankets for camp. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

A. J. TOWER. - Boston, Mass.

Ben Franklin's stick.

Mr. Fergus, who has the old woodcut of Gen. Grant, has another and curious memento of other days. It is a printer's stick, which was presented to Mr. Fergus when he was at work at the case in London. It differs from the stick used by printers of the present day in that it is not so deep by nearly one-half, and can be broken so that two measures can be "set" in it at once. It was used in setting type for bookwork.

"I brought it to this country," said Mr. Fergus, "and one day I mislaid it. I went around among some of the offices, and one night I found it on the case of a German printer. I told him it was my stick and he gave it up. I don't say that he took it, for I don't know that he did. You may know why I value it so highly when I tell you it was once the property of Benjamin Franklin."—Chicago Tribune.

The Rio Grande Floods.

The commissioner of Bernalillo county have put a force of about 500 men at work on the bank of the Rio Grande, eight miles above Albuquerque, for the purpose of building a levee to protect the settlers in that part of the valley against an anticipated overflow when the snows of the north come down. It is said there is no danger in the immediate vicinity of the town, and the river was never known to have left its banks but once in the vicinity of where the work is being done, but in view of the fact that there is such an unusual quantity of snow in the northern mountains, it has been deemed expedient to take precautions against unusual high water during the spring.

PRODUCING RAIN.

Professor Carl Myers returned Tuesday from Washington, D. C., where he was called to consult with government officials regarding the carrying out of an extensive scheme for promoting rainfalls in arid regions, or during seasons of prolonged drought by producing concussions in the upper atmosphere, for which purpose congress made special appropriations during its last session.

It has been ascertained statistically that storms, or rainfalls, usually follow concussions, as during battles, bombardments, explosions, Fourth of July celebrations, etc. During the building of some of our Pacific railroads rain fell all along the line of blasting operations where it had never rained before and has not rained since.

Some ten years ago one Zuggler

in Virginia got a patent on a method of producing rain by firing charges of dynamite, or other explosives, in mid-air by means of balloons, and so got a corner on rainfalls.

The plan to be operated by Professor Myers is so far different that the balloons themselves are to be explosive bombs being inflated with one proportion oxygen gas and two of hydrogen, which mixture, when fired forms water and produces one of the most violent explosions known to science. Professor Myers will begin operations with 100 balloons of various sizes as soon as they can be prepared.—Bulletin.

ASKUNK IN A SHIRT.

At the Garfield mine three miles north of here, there is a skunk in an old abandoned shaft that has been a prisoner for about one year. About this time last year George E. Robin, the superintendent of the mine, discovered him, and it is actually known that the animal lives without food for many months.

The shaft is thirty feet in depth, with smooth, perpendicular walls. No friendly niches were made and accidentally left on the sides as the miners blasted and sank through the hard lime rock by which the loud smelling little fellow might climb to liberty. At one side of the bottom of its lonely home during its long confinement it has worked and dug, little by little, a recess in the hard earth and boulders for a sleeping and better hiding place, as the shaft is open, and at high noon the sun penetrates to the bottom. The little fellow has become a pet among the miners of late and once a week a good supply of food is carried and thrown to him, upon which he feasts ravenously. Just how the "bird," as the men call it, subsists and stands off thirst upon this infrequent allowance is a mystery to every one. David Springer, the cook at the boarding house has become interested in the little fellow and lays aside scraps of meat, bread, potatoes or anything else he believes his skunk-ship might fancy, and one of the miners carries his food to him. The animal has been visited by a number of people, and among its callers are numbered John W. Zollars, S. Alexander and W. H. Becker, the owners of the property, and since their first visit they have invariably filled their pockets before leaving town with nuts and crackers and given for the little prisoner's comfort. A great deal of sympathy is expressed for the little hermit, but no one has yet been found who is willing to be let down to the bottom and bear it in his arms to freedom. —Las Vegas Optic.

Territorial Items.

Prof. L. Von Meyerhoff dropped dead at Albuquerque recently. A man of talent knocked out by John Barleycorn.

The editor of Harper's Magazine says the climate of New Mexico and Arizona is the best to be found on the continent.

Mrs. E. L. Bartlett, of Santa Fe, has been selected a member of the ladies' executive committee of the World's Fair.

The San Marcial Reporter says: There is no ground for the rumor in circulation that another consolidation of the Rio Grande and New Mexico divisions of the Santa Fe is contemplated.

A penalty of 30 per cent. is to be added for failing to make and file assessment returns; the latter must be made out and filed with the assessor before the last day of April; is stringent in this respect.

It is claimed that the new law gives the county assessor the right to charge each tax payer 25 cents for certifying to his assessment returns. The assessor in this county is charging this fee, and it will in the aggregate amount to several hundred dollars.—Citizen.

Ducks are reported by the thousands at the various storage reservoirs along the canals. Fish innumerable in the river. Antelope and prairie chicken in abundance on the plains, thousands upon thousands of quail and rabbits throughout the valley, and there are not a half dozen men in Eddy who care to hunt.—Eddy Argus.

More than 16,000 acres of land between this place and Lookont are under irrigation. There is no better soil in any country for the cultivation of fruits, grains, etc. Every day adds to this acreage and within a short time there will be 400 miles of laterals filled with water.—Eddy Argus.

There are quite a number of steer buyers now operating in New Mexico, and several sales are reported. All trades are made for yearly delivery, and the ruling prices seem to be about \$15. to \$18 for twos and threes and up. The encouraging outlook for the cattle business has resulted in there being few offers of young stock for sale, and few outfits that can afford to hold will have any yearlings on the market this season.—Stock Grower.

Yesterday afternoon the police raided a hop joint in this acre and captured two Chinamen and a tin-horn gambler in the act of cooking the soothing poppy pill, and taking the long draw. The entire outfit, pipe, lamp and a quantity of prepared opium was seized, which will be used as evidence against the culprits at their trial.—Albuquerque Democrat.

J. E. Saint is the republican nominee for mayor of Albuquerque. M. Mandell, the present incumbent, has been renominated by the democrats.

Old settlers that pretend to know say that there is now the best prospect for all kinds of fruit that has been known for years. The cold weather has kept the fruit trees from budding out so that there is but little danger now. The unusual amount of snow has put the ground in excellent condition for all crops as well as for grass, and there will be an abundance of water for all purposes.—Metropolitan.

For the survey of public lands in New Mexico congress has appropriated \$10,000 and \$3,000 for the sale of confirmed land grants. Surveyor General Hobart has just let a contract for surveying in western Socorro county, in the valleys of the Tularoso mountains, to L. M. Brown, of Santa Fe, and he has a contract also to do some work in the northeast corner of the territory, relocating the eastern boundary line of New Mexico.

The Littlefield Cattle company have sold 2,500 cows to be delivered at once in the Indian Territory. This is the first sale of the season. Mr. White is engaged in gathering the stock for this shipment.—Roswell Herald.

The new land law provides that no person shall be entitled to make entry of desert land except he be a resident citizen of the state or territory in which the land sought to be entered is located. The desert act is also amended by requiring the filing of a map showing the proposed method of reclamation and no person shall receive patents for land under the act unless he has expended in the work of reclamation at least \$4 per acre, \$1 to be expended within each year. After four years, title may be secured by the payment of \$1 per acre.—Stock Grower.

The census taking of the Navajo Indians, together with the enumeration of their immense herds of horses and cattle and flocks of sheep and goats began Monday. Maj. Davidson, of Philadelphia, the eastern special agent, has his headquarters at Gallup, just on the border of the reservation, and will direct from there, while Col. Mormon, who understands and talks the Navajo language fluently, will be on the reservation with the enumerators. Heavy snow and cold weather have detained work, but the agents think an accurate enumeration can be obtained in two months, although the northern part of the reservation is still covered with a foot of snow, especially in and around the Cerizo mountains.

FOR OVER FIFTY YEARS.
AN OLD AND WELL-TRIED REMEDY.
Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhea. Is pleasant to the taste, sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, or make no other kind.

(4-347.)

NO NOTICE FOR PUBLICATION.

LAND OFFICE at Roswell, N. M.
March 11, 1891.

Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before George Sena, Probate Clerk at Lincoln, N. M., on Saturday, May 2nd, 1891, viz: John M. Keith, pre-emption, D. S. No. 3425 (L. O. S.) for the S. W. 1/4 N. W. 1/4 and N. 1/2 S. W. 1/4, and S. W. 1/4 S. W. 1/4 Sec 23, Tp. 6 S., R. 13 E.

He names the following witnesses to prove his continuous residence upon and cultivation of, said land, viz:

- Robert Leslie, of White Oaks N. M.
- C. N. McMains " "
- John York of " "
- W. M. Wharton, " "

WINFIELD S. COFFMAN, Register,
Many years practice have given C. A. Snow & Co., Solicitors of Patents at Washington D. C., unsurpassed success in obtaining patents for all classes of invention. They make a speciality of rejected cases, and have secured allowance of many patents that had been previously rejected. Their advertisement in another column will be of interest to inventors, patentees, manufacturers, and all who have to do with

patents.

HEED THE WARNING.

It is not infrequently the case that itching pimples and irritating "cat o'ails" are the forerunners of larger boils, or the most serious carbuncles. Invariably Nature puts out her danger signals, and they should be heeded at once. The pimples and little boils show that the blood is not in a good condition and nature is trying to relieve the system. A few doses of Swift's Specific at this juncture will accomplish wonders. The eruption will be healed and the system cleansed of its impurities. The modern paraphrase of the old saying, "A stitch in time," etc., is that "Timely stitches will save nine pairs of breeches." The modern form has a touch of humor that does not modify the truth of it. In that vein, we may say that a course of Swift's Specific prevents ill's terrific.

The World Enriched.
The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

THE INTERPRETER,
White Oaks, N. M.

The Trans-Mississippi Commercial Congress, to be held in Denver, on the 19th of May will be composed of representative business men from the western and southwestern states. Matters of great interest to this part of the country will be considered and measures decided on, and New Mexico should be well represented by men selected by the county commissioners of each county in the territory.

President Harrison is contemplating a trip through the western states. The Republican National Convention will meet in a little more than a year to nominate a candidate for '92, and it behooves the present incumbent to see that ours are not left down nor gates open throughout Uncle Sam's domain.

Twenty and more years ago the democratic party was advocating the policy which to-day is upheld by the new movements all over the country. The educated young men of the cities are democratic in all their ideas. The farmers are democrats in all their fundamental principles. The business men who look to Cleveland for leadership are democrats. James G. Blaine is getting his political clothes cut as near to the democratic fashion as he can.—Sierra County Advocate.

The War Department seems to realize that the Indian war is likely to be renewed this Spring. The Administration was warned in time. It might have prevented the outbreak of hostilities by dealing fairly and frankly with the Indians who came to Washington, instead of permitting the Indian Bureau to try the charges against itself. But it was content to have the Indians tricked in the interest of the dishonest Indian agents, and it must take the responsibility of any more trouble that may happen.—N. Y. World.

The Court of Privy Land claims starts out with 175 cases on its docket, 158 of the number affecting New Mexico. Other cases will be brought before it, and a matter of much interest will be settled in the investigation of the rights to their possessions, of the Mexican "squatters" who have no better claim than

uninterrupted occupancy for several generations. If under the Spanish or Mexican laws, which will govern, this occupancy would give legal right and possession, they are to be awarded patents for not more than 160 acres of land in each case.

A renewal of Indian troubles is the burden of fear in some quarters and the subject of quiet investigation. Father Crafts, who has been charged with a malicious meddling with Indian affairs in the hope of discrediting the administration of Gen Morgan, Indian Commissioner, declares that unless the matter is transferred from the interior to the war department, another outbreak will be inevitable. Whether his demand for the change is actuated by a desire to have matters in control of a department more favorably disposed to the educational interests of Catholic missions is an unsettled question.

The democratic convention of Rhode Island adopted a resolution that in future the candidate for United States senator shall be nominated at the same time and in the same manner as state officers are nominated. This means that when a man has received the nomination for senator the members of the legislature shall vote for him just as presidential electors vote for the party candidate for president. The action of the Rhode Island democrats, following as it does on the heels of that of the Illinois democrats in the selection of Palmer as the party candidate, is significant as showing how the demand for the direct election of United States senators is finding practical expression. The example is likely to become the general practice in a few years. By this method the choice of United States senator can be made the reflection of the popular will without a constitutional amendment relegating their election directly to the people.—Alb. Democrat.

"Startling Mistakes."

The Administration organ published on Saturday as a "startling exhibit," illustrating "how Republican votes are suppressed in five States," a table from the fraudulent census, showing the small proportion of Republican votes to the colored population in Alabama, Georgia, Louisiana, Mississippi and South Carolina.

This tattered rag from the shredded bloody shirt is drawn from four impudently false and oft-exploded assumptions:

1. That all the Southern negroes are Republicans.
2. That they desire to vote the Republican ticket but are prevented from doing so.
3. That there is any canvass or other effort made to induce them to vote.
4. That the Republican party has done anything for

the colored people within the past twenty years which should cause them to give it their support.

From the day when the mass of semi-barbarous ignorance at the South was enfranchised to perpetuate the power of the Republican politicians, until now, the leaders of that party have adhered with Bourbonish persistence to the brutally frank formula of Thaddeus Stevens: "So many niggers, so many Republican votes."

Every open-minded traveler at the South learned long ago that this claim is false. The defeat of the infamous Force Bill was the final failure to put that theory in operation. The agents of Quay and Dudley will never be able to count the negro census as Republican votes.—N. Y. World.

Immigration.

The sentiment, called forth by the New Orleans case, is plainly gaining ground all over the United States that a revision of our immigration and naturalization laws would be advisable. These laws were made broad and liberal in the early days of the Republic because the country then was mostly a wilderness and needed filling up. Now we have already 60,000,000 people, whose natural increase is enormous, and who will soon require and take up all of our unoccupied lands. The same necessity for large immigration which existed then does not, therefore, exist now, and if immigration should cease entirely the country can well afford to do without it. It would seem most reasonable that our immigration laws should be revised to the point of requiring immigrants to be of the best classes of settlers; also that our foreign treaties should be so changed as to relieve the United States of all responsibility for penalties inflicted upon objectionable foreign subjects for lawlessness and crime committed while enjoying the protection which our laws afford.—Richmond, Va., Times.

TWO-MILLION-DOLLAR COMMA.

There is scarcely ever a session of Congress in which bills are not found to contain mistakes in orthography or punctuation. The only wonder is that many more do not occur when it is remembered that all such work, near adjournment, is performed under extraordinary circumstances. All is haste, noise, and confusion. Rest or sleep is unknown often-times for two or three days and nights in succession. The clerks become nervous, wearied, and sometimes wholly exhausted by the intense strain and prolonged physical labor.

Probably the smallest, and apparently most insignificant, of all such blunders was the most expensive one of the kind ever made. It occurred in a tariff, not more

than thirty years ago. There was a section enumerating what articles should be admitted free of duty. Among the many articles specified were "all foreign fruit-plants," etc., meaning plants imported for transplanting, propagation or experimenting. The enrolling clerk, in copying the bill, accidentally changed the hyphen in the compound word "fruit-plants" to a comma, making it read "all foreign fruit, plants," etc. The consequence was that for a year—until Congress could remedy the blunder—all the oranges, lemons, bananas, grapes and other foreign fruits were admitted free of duty. This little mistake, which the most careful man might easily have made, cost the government about \$2,000,000.—Philadelphia Press.

A Hard Winter Indeed.

With Santa Fe's sunshine prevailing, it seems scarcely possible that there should have been "the severest storm of the season" raging at Denver yesterday morning. That's what the dispatches say, however. "The blizzard continued for five hours, making all travel impossible and completely tying up all the cable, electric and horse-car lines. The snow fell to the depth of eighteen inches and is melting rapidly. No attempt will be made to resume traffic on the car lines before to-morrow. The snow and rain turned the streets into perfect seas of slush and this last storm will render them impassable for weeks. This is what the telegrams bring. The snow was heavy in eastern Colorado and western Kansas. The storm extended from La Junta to Trinidad and in some places on the A. T. & S. F., it drifted five feet deep.—New Mexican, Apr. 2.

The governor of Missouri has established a quarantine against all cattle coming from south of a line from the northern border of the Indian territory and thence east to the Blue Ridge mountains. All cars carrying cattle from those sections and entering Missouri must be labeled "Southern Cattle." All stock yards at which such cattle are unloaded shall be considered infectious and must thereupon be set apart for the accommodation of "Southern Cattle." Texas fever seems to be starting in early this year. New Mexico cattle are never troubled with this disease unless it is imported from Texas, and now that it is known to already exist there, our inspectors should be very careful that no diseased cattle are admitted to this territory.—Silver City Enterprise.

COURT DATES.

U. S. AND DISTRICT COURTS.

Santa Fe—First Monday in February and last Monday in July.

Mescalillo—Second Monday in May and November.

Doña Ana—Second Monday in March and September.

San Miguel—Third Monday in April and November.

DISTRICT COURTS.

San Juan—Second Monday in March and September.

San Arribabaldra—Monday in February and Monday in September.

Taos—Second Monday after the third Monday in March and the fourth Monday in September. Valencia County—First Monday in April and October.

Siera County—First Monday in May and November.

Lincoln County—Third Monday in April and October.

Grant County—Third Monday in February and August.

Colfax County—Second Monday in March and September.

Mora County—First Monday in April and October.

LOCAL MATTERS.

Windy weather.

Court opened last Monday.

Mr. H. Biggs, of the Capitan saw mill has been in town the past week.

Ed. Eubrick has gone into partnership with J. A. Brown in the grocery business.

A small peach tree, in the yard of Mr. Lloyd Schell, is full of buds and blossoms.

Lemons and Oranges at Young & Taliaferro's.

At the meeting of County Commissioners, this week, W. F. Blanchard was appointed County Surveyor.

We have Iowa Creamery butter.—Y. & T.

The board for examining teachers, is composed of T. B. McCourt, Sidney Parker and B. J. Baca.

Canned and Condensed Mince Meat.—Stewart of White Oaks.

E. R. Bonnell, who has been seriously ill for some weeks past, is now pronounced out of danger and is slowly recovering.

A. Ridgeway is having a house built in Baxter Gulch, to be used as a boarding house for the miners.

James Parker left White Oaks on the 5th to attend school at Colorado Springs.

A full stock of fresh garden seeds at Y. & T's.

Bertie Lund, while hunting rabbits, last Saturday, had the good luck to bring down his first deer.

Mr. J. L. Zimmerman, from Roswell, was in town Tuesday.

Oscar Hill started for the Galinas, Monday.

Clothes Baskets—Market Baskets.—Stewart of White Oaks.

We will soon have in stock the famous "welcome" seed oats, they yield from eighty to one hundred and ten bushels per acre.—Young & Taliaferro.

H. V. Smith, from the San Juan Valley, Colorado, passed a day in White Oaks, on his way to Lincoln to attend court.

A. N. Price returned from Nogal Tuesday.

A fine calla lily, with two large blossoms, is one of the attractions in the show window of Young & Taliaferro's store.

Hart and Harvey Crouch came in from the Ruidoso, one day this week, with three loads of taled oat hay, which they sold to Paul Mayer, of the livery stable.

Geo. Sligh and Mrs. Anna Reid came in from the ranch, Saturday, and returned, Monday. A dancing party was given at Bonnell's hall, Saturday evening, in compliment to Mrs. Reid.

Ed. S. McPherson left White Oaks for Roswell, via Lincoln, on Wednesday morning.

The Rev. Crutchfield, Presiding Elder of this district, preached to a full house, Sunday morning, and again in the evening.

Rev. Burke, pastor of the Methodist church, at this place, is very sick with pneumonia, at Dr. Gibbons, on the Bonito.

We sell Schilling's best Spices, Extracts, Tea and Coffee. They are for first class trade.—Y. & T.

Self Raising Buckwheat Flour—Maple Syrup—N. O. Molasses—Sorghum—all new and good—Stewart of White Oaks.

Mr. John Wilson took care to the amount of \$2,500 from his mine last week.

A fine ten-pound boy came to the home of Mr. & Mrs. Gus Wingfield on the morning of Tuesday 7th.

A \$1000 stallion belonging to Seba Gray, died lately.

A lot of barbed wire for fencing has been received lately by C. L. Pearmain.

We are closing out our Clothing at greatly reduced rates.—Y. & T.

Large quantities of freight have been constantly arriving for a week past. Every merchant in town seems to be taking in his spring supply of goods.

G. R. Young, W. S. Redding and Jas. Simms returned, Saturday, from a trip to the Capitan and Tucson mountains, bringing in a load of venison.

J. W. Garner, clerk of court, passed through White Oaks, Saturday, on his way to Lincoln.

Miss Carrie Blee, a sister of Mrs. Pearman, arrived from Albuquerque, Saturday morning. She intends to make a visit of some length, in White Oaks.

J. C. Oline, G. R. Young, A. Schinzling, Charles Mayer and Col. Heman went to Lincoln, yesterday, in obedience to a summons to serve on the petit jury.

Miss Minnie Keel, whom many will remember as a former resident of White Oaks, was lately married to Robert Douthitt, of San Pedro.

Harry Comry is boring for water just above E. W. Parker's house.

The finest collection of plants in town may be seen in the window of L. W. Stewart's store. The pride of the lot is a fuchsia—a species—three feet high and loaded with clusters of flowers.

Sweetness in bulk—Fruit Butters—Jellies and Jams—Also Honey.—Stewart of White Oaks.

Zack Light, a wealthy cattle man, who was to be tried at the present term of court for attempt to murder, was shot at Seven Rivers, a few days ago.

Mrs S. E. Barber, who is in from Three Rivers, states that the last cold spell injured the fruit in that vicinity but slightly. On her ranch, peach, apricot and plum trees are in bloom, and apple, cherry and pear trees in bud.

The following named gentlemen left White Oaks, Sunday, to attend court at Lincoln:

J. P. C. Langston, J. Y. Hewitt, W. J. Littell, R. E. Lund, B. H. Dye, Louis Banks, Charles Mayer, W. F. Blanchard, L. Rudisile, Paul Mayer, J. Zeigler, Sidney Parker, Geo. Ulrich, E. McPherson, and T. B. McCourt, of White Oaks, and H. B. Fergusson, of Albuquerque.

Preparations are being made by a party of soldiers to explore the cave two miles east of Fort Stanton. The party will be led by a soldier who accompanied a French expedition to Africa, and had considerable experience in underground explorations. The result will be looked for with interest.

One of the most enterprising and successful farmers in this section, is William Rexford, of the Park. Last year, he had plum trees in bearing which he had raised from seed, and for several seasons has had an abundance of gooseberries and strawberries from his garden. Fruit trees, of several kinds, and grape vines are growing. All of these are in addition to the regular farm crops.

Mrs. ELLA G. TIMONEY
Post Office Building,
White Oaks, N. M.
NEWS AGENT AND DEALER.

FINE STATIONERY, BOOKS, FANCY NOTIONS, WALL PAPER, PIPES, CIGARS, FINE TOBACCOES, &c. Good CIGARS from a nickel a piece up to two for a quarter.
Subscriptions taken for any BOOK, MAGAZINE or NEWSPAPER published in the U. S., or British Dominions.

We have two second hand cooking stoves for sale, nearly new.—Y. & T.

Goodman, Ziegler & Co. have just received a full stock of solid gold Jewelry, especially Ladies & Gentlemen's Pins, Ladies and Children's Earrings, Watch Chains, etc., etc., which will be sold at away down prices.

A fresh lot of hams just received by Ridgeway.

Mrs. A. W. Kempton was in town, Thursday, visiting Mrs. J. A. Brown.

Sateens, Challies, Zephyr Gingham in great variety at G. Z. & Co's.

David Provost and Allen Hightower were in from the Anchor ranch, Wednesday.

Full new stock of Ladies' shoes & slippers for Spring and Summer wear just opened at G. Z. & Co.

The farmers in the Park, 5 miles southeast of White Oaks, are planting a larger acreage than ever before to corn, millet, sorghum and oats. Messrs. Cumb and Gardner, Lacy, Stephenson and Rexford are putting in from 50 to 60 acres each in grain and fodder crops. J. C. Lacy has rented Ed. R. Bonnell's ranch on which he will plant about 25 acres of corn. The late snows have made good crops for this year almost a certainty.

We have the best stock of Ingrain and Brussels Carpet this season we ever had before, and we invite the public for inspection.—Goodman, Ziegler & Co.

The Santa Fe and Union Pacific roads have posted notices of an increase in live stock rates, ranging from 10 to 20 per cent. The Stock Grower will next week publish the new rates from shipping points in New Mexico to the principal Kansas and Nebraska points. This action on the part of the railroad companies at the present time is inexplicable, for the rates are now so high that it takes a large per cent of the proceeds of cattle to pay freights, and preclude the consumption of many trades to northern buyers. There can be no excuse that the recent advantage in cattle values on the market justifies such a course.—Ex.

Ladies hats, the latest shapes and styles, trimmed and untrimmed, just received.—Goodman, Ziegler & Co.

As soon as an authentic copy of the late Territorial laws can be obtained they will be published in full for the benefit of the subscribers to the INTERPRETER.

Dolores Sedillo, of " "
Ignacio Sedillo of " "
Aniceto Lueras, of White Oaks, N. M.

WINFIELD S. COBBAN, Register.

Because of la grippe, which prevails to an alarming extent in Chicago, the death rate is increasing and the undertakers and coffin manufacturers have all they can do to keep up with the rush of business. The department of health was notified of 804 deaths within the city, limits last week, that is about 100 more than during any one week of the grip epidemic a year ago. The mortality from this disease in Dubuque is very great, while in Council Bluffs it is accompanied by measles and scarlet fever, which are sweeping off the children at a fearful rate.

At 11 o'clock this morning, just as we were preparing to go to press, the report was circulated that Mr. Hale had at last succeeded in getting artesian water on the property of W. H. Cosgrove. A visit to the well confirmed the report, as an unusual strong flow was pouring out of the pipe. The well is 187 feet in depth and the water will run 12 feet above the level of the ground.

The future of Roswell and the Pecos Valley is assured.—Herald Apr. 2.

NOTICE OF FORFEITURE,

White Oaks, New Mexico,
March 13, 1891.

To John J. Cockrell, and his legal representative and assigns.

You, and each of you are hereby notified that the undersigned co-owner in the Compromise Lode mining claim, situated on the westerly side of Baxter Gulch in Baxter Mountain, in White Oaks Mining District, Lincoln County, Territory of New Mexico, has performed and caused to be performed and expended in labor and improvements upon the said Compromise Lode mining claim during the year ending December 31, A. D. 1890, the sum of Thirty-three Dollars and thirty-three and one-third cents, the same being the proportionate amount due from you in labor and improvements upon said claim as co-owner of an undivided one-third interest therein, in order to hold the same under the provisions of Section No. 2324 of the Revised Statutes of the United States, for said year, A. D. 1890; and if within ninety days after the full publication of this notice, you fail or refuse to contribute your said proportion of said expenditures as co-owner, your interest in said claim will become the property of the undersigned as is provided by said section 2324 of the Revised Statutes of the United States.

BENJAMIN H. DYE,
Co-owner

\$300 REWARD
FOR ONE THIEVES!

The common experience of this camp shows that much is lost by the mine operators, by the stealing of gold in specimens, if not in amalgam and bullion. Therefore the "Old Abe" Co. offers a standing reward of Three Hundred Dollars for the arrest and conviction, or for information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore. The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holders of Old Abe specimens.

Old Abe Co.

NOTICE FOR PUBLICATION.

LAND OFFICE at Roswell, N. M.

Feb. 16, 1891.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before Register and Receiver at Roswell, N. M., on Saturday, April 11th, 1891, viz: Ruben Zusek, pre-emption, D. S. No. 755 (L. C. S.) for the S. 1/2 S. E. 1/4, Sec. 13 and W. 1/4 N. E. 1/4, Sec. 13 T. 8 N., R. 18 E.

He names the following witnesses to prove his continuous residence upon said cultivation of said land, viz:

Milo Pierce, of Roswell, N. M.
George P. Ovard
William N. Atkinson
John W. Poe

Being second advertisement for final proof to second description in Final certificate No. 340 (L. C. S.) Ordered by Commissioner's letter G, dated March 13, 1891.

SAVE MONEY AND SUFFER
ING.

One feature of the thousands of testimonials that have been given in behalf of S. S. S. is remarkable. In numbers of instances it is related that a great deal of time and money have been spent in vain effort to secure relief from disease in the usual way. A knowledge of the virtues of Swift's Specific would have saved the time and the money, to say nothing of the prevention of the suffering. There need be no such mistakes made now. The great blood purifier is for sale by druggists everywhere, and the S. S. S. company in Atlanta will send to any address their Treatise on Blood and Skin Diseases free, and a pamphlet containing a few of the thousands of testimonials they have received from those who have experienced the benefits of this wonderful medicine.

NOTICE OF FORFEITURE.

White Oaks, New Mexico,
April 10, 1891

To Edward Schaefer:

You are hereby notified that the undersigned co-owner with you in the "Miner's Placer Claim" situated in Baxter Gulch, in Baxter Mountain, White Oaks mining district, Lincoln Co. Territory of New Mexico, has performed and caused to be performed and expended in labor and improvements upon the said "Miner's Placer claim," during each of the years 1888, 1889 and 1890, the sum of thirty-three dollars and thirty-three and 1/3 cents aggregating the sum of One Hundred dollars, the same being the proportionate amount due from you in labor and improvements upon said claim as co-owner of an undivided one-third interest therein in order to hold the same under the provisions of Section No. 2324 of the Revised Statutes of the United States, for said years 1888, 1889 and 1890, and if within ninety days after the full publication of this notice, you fail or refuse to contribute your said proportion of said expenditures as such co-owner, your interest in said claim will become the property of the undersigned as is provided by said section 2324 of the Revised Statutes of United States.

TOLEDO WEEKLY BLADE

1891.

ONLY ONE DOLLAR.

The most popular Weekly Newspaper
in the United States, the largest circula-
tion, and the only strictly Weekly News-
paper that ever succeeded in obtaining
and holding year after year, a circulation
in every State and Territory (and nearly
every county) of the United States. All
the news, better department and more
first-class entertaining and instructive
reading than in any other dollar paper
published.

Announcements.

Now to commence first of the year,
written especially for the BLADE by Oli-
ver Optic "Money Maker Series." A se-
ries of special articles on "Side Issues,"
written for the BLADE, BLADE CHINA
Tea Sets and Dinner Sets given to club
raisers. Send for specimen copy of the
weekly BLADE and read our interesting
announcements for the coming year.

Specimens.

A specimen copy will give you a better
idea of the WEEKLY BLADE than any
description we can give in an advertise-
ment. We therefore invite everybody
to write us for a specimen, which we will
cheerfully mail you free, and at the
same time please mail us a list of names
of your friends and neighbors, and we
will also mail them specimens.

Confidential to Agents.

Anybody can earn \$10 very quickly by
raising clubs for the BLADE. We are
now paying the highest amount for clubs
ever offered by any newspaper. We
want agents everywhere. Write us for
confidential terms to agents.
