CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. W. A. NOYES, 820 Powers' Block, Rochester N. Y

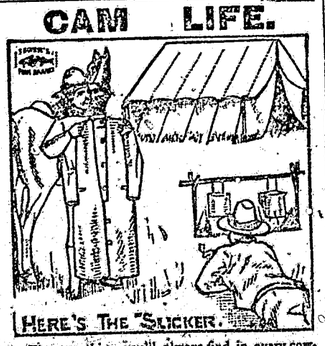
CAM LIFE.



HERE'S THE "SLICKER."

The one thing you'll always find in every cowboy's outfit when he goes on the spring round-up is a "Fish Brand" Pommel Slicker. They make the only perfect saddle coat, and come either black or yellow. They protect the whole front of the rider's body, being made to fit round the outside of the saddle entire. When used as a walking coat, the extension pieces neatly over lap each other, making a regular overcoat with a double storm proof front. When riding, the saddle is dry as a bone, from pommel to cantle, and the rider is entirely protected in every part of his body. These "Slickers," being of extra width, make fine blankets for camp. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

P. T. Barnum, the great showman, is dead. His death occurred Tuesday the 7th inst.

General Albert Pike is dead in Washington, D. C., at the advanced age of ninety-two years.

According to the Tribune, Chicago has 83,313 native voters and 88,061 voters that are foreign born.

The Congo river is 15 miles wide in places. Steamers often pass each other, but out of sight.

Fifty thousand barrels of sugar were released from the St. Louis custom house at midnight, April 1st.

The cattle exports to Europe under the new inspection law already show an increase of over 20 per cent. over last year's shipments.

The Mexican Central company seems to be flourishing. Last year its subsidy from the Mexican government amounted to $2,060,845 net.

The Louisiana lottery is said to be outwitting the government by means of a branch in Mexico from which country its matter gains admission to the U. S. mails.

Thomas C. Baring, senior member of the great London banking firm, died in Rome on the 2nd inst. at the age of 65 years. He was a grandson of the famous Lord Ashburton.

Mayor Shakespeare of New Orleans, has been warned that he will be killed by the Mafia. In turn he declares that if he is harmed the populace will sack the Italian quarter of the city.

The increase in immigration so far this year is 50 per cent over the figures for the corresponding period of last year. The total for 1890 was 357,000, the aggregate for 1891 will probably run up to about 400,000.

The lecture engagements of Henry M. Stanley in Texas have been cancelled because of hostile criticism. The criticism is supposed to be on his course during the late war, he having deserted the confederate service.

The cattle market booming! An unprecedented advance that seems to be permanent! These were the headlines to a recent article in the Kansas City Times. Western beef cattle on foot have advanced from 3 cents to 4½ cents in one month.

The Railway Age says, Kansas City shippers send flour to the Pacific Coast via New York and clipper ships around Cape Horn, because they can get a lower freight rate than the transcontinental roads give. By the former route it costs $1.03 per ton, and by the latter $1.75.

"Say, girls," said one of a trio of young ladies, "let's go up on this car. The walks are very slippery."

"Oh, I prefer the exercise of walking," answered one of her companions.

"Well, I don't" said the remaining one, a tall blonde, "I'm going to ride."

With little parley the three boarded the car. They conversed pleasantly until near Pearl street, when, as the conductor approached two of the girls began nervously unbuttoning their gloves.

"Blanche, will you please pay my fare?" said one, turning to her neighbor.

"I can't. I have only ten cents. But," turning to the imperial blonde, "will you pay for us."

"I have'nt a cent, sententiously replied the blonde. And with burning cheeks the young ladies signaled the conductor and stepped silently but thoughtfully from the car. Their liabilities exceeded their assets.—Albany Argus.

Speaking of music, here is a true story of a well known and greatly esteemed Boston journalist to round out with:

The journalist is so far from being a musician, that he is accused of being destitute of the sense of tune. One time he was rallied on this point by a lady of his acquaintance, who asked him point blank:

"Is it true, Mr, A., that you don't know one tune from another?"

"It is a fact," he said, "that I can't readily distinguish tunes apart. There are only two tunes that I really know well."

"What are they?"

"Old Hundred, and the long metre Doxology!"—Boston Transcript.

Literary Note.

"A Son of Old Harry," is the unique title of a story by Judge Tourgee, which is soon to appear in the New York Ledger. It is one of those surprises which this indefatigable writer is always springing on the literary world, to the confusion of the critics, who have no sooner got him fitted to a niche than he jumps down and clambers into another. Utterly defiant of ironclad rules, by which under the claim of art they attempt to chain fiction to insignificance and vapidness, he chooses his characters wherever he sees fit and portrays them with a vivid life-likeness which compels recognition and stamps each one indenibly upon the reader's memory. "A Son of Old Harry," is emphatically a horse story, concerned in part with the evolution of the trotter—and is most appropriately published by the son of Robert Bonner, the veteran patron of the trotter, whose stable is the haven to which the finest of this equine type is sure to tend.

Territorial Items.

Contracts have been let for five more artesian wells in the Pecos valley, about Roswell and Eddy.

Governor Prince has called for the 5th day of next month a meeting of New Mexico's commissioners.

Geronimo, the famous Apache terror of the southwest, now a prisoner at Mount Vernon, Alabama, is said to be mending his ways to such an extent as to have become a Sabbath school teacher.

Maston Emery, who came to this country forty years ago, and fought Indians along with Kit Carson, died at the home of John Perry, on the Mimbres, last week. It was through his efforts that the Dry Cimarron country was first opened up. He was an old trapper and hunter, a big hearted pioneer who had thrown away fortunes and died in poverty. It is such men who usually open up a new country, leading the way for civilization and prosperity.—Silver City Enterprise.

If by any means the facts could be ascertained we believe that it could readily be shown that New Mexico has almost doubled her area devoted to horticulture in the past year. The nursery men are having their good time now; the orchardists will have theirs in a couple or three years.—New Mexican.

Socorro will have a bridge over the Rio Grande this year and then she will be in communication with the eastern part of the country. The fact is a bridge is needed at San Acacio, Socorro, San Antonio and San Marcial, to be sure there is a bridge at San Antonio but it is a railroad toll bridge. either it should be purchased or another one built just below it, which should be a county bridge and free to all the people.—Chieftain.

Jonas Nelson has again astonished mining circles at Socorro with his latest bonanza, the "Young America," which he has just bonded. At three feet below the surface he found the body of ore, and up to date has explored it thirty feet in one direction and twenty-eight feet in another, and has yet to find the end. It assays 60 per cent. lead and about eighteen ounces silver to the ton.

The question of the storage of water should be one that should earnestly engage the attention of the people of New Mexico. A system of storage properly carried into effect would materially increase the rainfall of this country by creating a greater humidity in the atmosphere. Instead of flowing out of the country the water should be kept here and allowed to pass into the air by evaporation, the good effects of which would soon be seen.—Lincoln Banner.

Among the needs of the Pecos valley is one or two first-class nurseries. There is now, and will be, during the next ten years, a greater demand for trees of all kinds in the Pecos valley than any other section in the southwest. Agents, from elsewhere, are reaping a rich harvest in this valley selling stock from nurseries at a distance. Tress, not acclimated, and too old for safe shipping, are readily purchased by our farmers and fruit growers, for the reason that they can do no better at present.—Roswell Record.

In San Miguel county alone nearly 300 citizens will soon be receiving pension money from the government, ranging in amounts from $100 to $120 a year so long as the parties do live; also, it is estimated that over $2,000,000 of Indian depredation claims from this county alone will be favorably reported and paid by the government, in the next few months.—Optic.

It was rumored on the streets at Trinidad, Saturday night, that a strong flow of gas has been encountered at Raton. A company will be formed to make further developements and utilize the subtle fluid.

It seems that every one in and around Kingston is turning his attention to farming and gardening—showing that New Mexico can raise the necesesaries of life as well as its luxuries—gold and silver.—Shaft.

Raton has decided to incorporate. The vote stands 50 to 1 in favor, there being 17 intended nays that didn't count. The vote stood 350 to 7. The commissioners will meet Monday, canvass the vote and call an election to fill the offices. The people are enthusiastic and look forward to coming prosperity. The next thing is to elect a city government that is honest, capable, conservative.—Courier.

The rigid enforcement of the new immigration law has begun, and it is to be hoped that it will not be relaxed It is time that the United States ceased to be the dumping ground of christendom and heathendom.—Alb. Democrat.

The government Indian school continues to improve. The Indian boys are becoming quite proficient as carpenters, painters, shoemakers, harnessmakers and farmers.

A visit to this institution will convince any man that the Indians are capable of receiving instruction. The work of this school moves in a manner that is inspiring to any person who may have the pleasure of witnessing it. The boys are now clothing the building with a new coat of paint. The Citizen suggests that the citizens of Albuquerque visit the school and see what is being done for the red man of our country.—Alb. Citizen.

HEED THE WARNING.

It is not infrequently the case that itching pimples and irritating "cat boils" are the forerunners of larger boils, or the most serious carbuncles. Invariably Nature puts out her danger signals, and they should be heeded at once. The pimples and little boils show that the blood is not in a good condition and nature is trying to relieve the system. A few doses of Swifts Specific at this juncture will accomplish wonders. The eruption will be healed and the system cleansed of its impurities. The modern paraphrase of the old saying, "A stitch in time," etc., is that "Timely stitches will save nine pairs of breeches." The modern form has a touch of humor that does not modify the truth of it. In that vein, we may say that a course of Swift's Specific prevents ills terrific.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes

"We therefore submit," says an esteemed Italian newspaper published in New York, "that the Constitution of the United States is ridiculous." This, of course, is a great pity, but at the same time Americans will try to worry along with it, as they have done with considerable success for the past hundred years.—Ex.

A Republican journal of the Southwest says that "the President needs to unlearn as well as to learn." This is just what a Bourbon either can't or won't do. And there is not a more thoroughly ingrained political Bourbon in the United States than BENJ. HARRISON.—N. Y. World.

Mr. HARRISON'S Administration is the most unpopular since poor Mr. HAYES', but the country would be none the less solid behind it in a war of defense against foreign aggression. That is the only conceivable subject upon which it could ever obtain a majority.—N. Y. World.

If President Harrison doesn't get a cordial reception when he travels through New Mexico and Arizona, the latter part of this month, he will probably understand the reason why. They are still territories, you know.—Boston Herald.

The legislatures of Maine and New Hampshire have passed acts providing for the Australian ballot. It begins to look as if Senator Voorhees' prediction, last fall, that before two years all the States in the Union will have adopted the system, will be realized.

Senator Palmer once worked for 25 cents a day on an Illinois farm, and afterwards learned the trade of cooper. He paid his own way thro' college.

The time has come to call a halt in this matter. We have a great and glorious nation, with room for many millions more of those who are in sympathy with the spirit of our institutions, but not for one more of those such as constitute the Mafia of New Orleans, the miserable Huns and Poles of the mining regions of Pennsylvania or the the followers of the red flag of anarchism.—Kansas City Journal.

LAND OFFICE DECISION.

REGISTER AND RECEIVER,
Roswell, N. M.

SIRS: On June 24th, 1889, Joseph B. Collier made Pre-emption Cash Entry No. 1704, (Las Cruces series,) for the S. W. ¼ N. E. ¼, N. W. ¼ S. E. ¼, S. ½ N. W. ¼, & Lot 3, of Sec. 36, Tp. 6 S. R. 12 E. N. M. M.

On May 17th, 1890, you forwarded to this office the complaint of Peter Sepulver, executed April 18th, 1890, alleging in substance, that Joseph B. Collier made final proof in support of his claim to said land and obtained a final receipt therefor, by fraud and false swearing; and asking that a hearing be instituted before the Register and Receiver at Roswell, New Mexico, "in order that affiant may have a fair trial before said officers prove his allegations, and establish the right of the United States to the tracts of school land embraced in Joseph B. Collier's said fraudulent pre-emption claim."

Whereupon, by office letter "K" of June 30th, 1890, you were instructed to order such hearing, to be had after due notice to all parties in interest.

By letter dated February 14th, 1891, you reported that a hearing was had in compliance with said instructions, and transmitted the record thereof, together with your joint opinion recommending the the dismissal of the contest; and Sepulver's appeal.

Your opinion sets forth that "after due and careful consideration of the evidence herein * * * * * we see no reason to disturb the ruling in question, and would recommend that the contest be dismissed and that said Pre-emption Cash Entry No. 1704 remain intact."

The appellant, after arguing correctly, that the land in question is a part of school section 36, and that a pre-emptor has no right to acquire such land unless he made a bona fide settlement thereon prior to the survey therein in the field and continued such settlement up to time of making final proof; insists that "the findings of the Register and Receiver in favor of contestee are erroneous, and not fair deductions from the evidence and in no sense in accordance with the law governing the disposition of school land."

After examining the case with respect to the different stand-points occupied by the contestant and the entryman, I coincide with you in the opinion that the contest should be dismissed.

The preponderance of the evidence as to the material facts is, in my judgment, on the side of the entryman, and in addition, certain circumstances tend to discredit the cause of the contestant.

For instance; it appears that when Collier advertised his intention (May 7, 1886) to make final proof in support of his claim, Sepulver was residing on Lot 8 of the land involved, and had been residing there since March 1, 1884; yet he made no protest against the allowance of the proof then, but waited nearly a year before laying his complaint

Again; the contestant says that he repeatedly offered Collier a reasonable price for said Lot 8. after the latter had made the entry in question, and that Collier as often refused to sell it, thus giving ground for the presumption that he believed the entryman's title to be good, and that he only affected a change of opinion on that subject after his attempted negotiations had failed.

You will notify the parties in interest that your decision is affirmed by this office and advise Sepulver of his right of appeal.

Very respectfully,
(Signed) W. M. STONE
Acting Commissioner.

The effort to enlist Indians in the Army brings out the surprising fact that "the great majority of the bucks are physically unfit for the military service." They have never impressed the Army in that way during its campaign against them.

Penstoner's Young Wives.

It is important for young women who are contemplating marriage with a veteran for pension purposes to note that a law has been passed on that subject. By the provisions of the disability act, marriages contracted after last June do not entitle the widows thereof to draw a pension. This is rather rough on the old soldiers, whose chances of getting a young wife are largely reduced, but it will save our posterity several generations hence from such a pension roll as we are carrying, on which are the names of twenty-three Revolutionary widows, over one hundred years after the close of that war.—Indianapolis News.

Desperadoes from Mexico.

Brigadier General Stanley has ordered the company of Indian scouts, now at Neville Springs, Texas, under Lieutenant Ryan to proceed at once to Pelon, on the Mexican border, in what is known as the Peninsula. This is done in response to the petition of the people residing there, who claim that they are at the mercy of desperadoes and raiders from Mexico. The latest report is that a ranch was raided near Pelon and the owner and son murdered because they resisted the robbers.

A Great Cyclopedia.

The twenty-second volume of the Columbian Cyclopedia is announced as just ready; the entire set is to be completed the present year, in 32 volumes, aggregating about 26.000 pages. Its price is remarkably cheap, only $25 for the entire set, with easy installment terms to those who want them.—The high character of the work is vouched for by innumerable witnesses, among others by Prof. James Strong, S. T. D., Editor of McClintock & Strong's Cyclopedia of Biblical, Ecclesiastical, and Theological Literature, who speaks of it as follows:

"The Columbian Cyclopedia seems to me to strike a happy medium between the loose, superficial works, and the too elaborate and profound ones, the few a competent or desirous of using. Most of the larger general cyclopedias are overloaded with a mass of technical science and official detail that is embarassing and useless in ordinary readers. The Columbian is eminently practical, sufficiently full, and carefully compiled, well got up, convenient in form and extent, remarkably cheap, and as I should judge, admirably adapted to families and general consultation I think that if properly presented to the public it will have a very wide sale, and be an exceedingly usefu work. There is ample room in the market for a Cyclopedia like this, which combines, likewise, the advantage of being an excellent Dictionary of the English language."

For free specimen pages, address the publishers, THE COLUMBIAN PUBLISHING CO., 393 Pearl St., New York.

A curious feature in connection with the visit of the members of the Minnesota legislature to the state penitentiary the other day has transpired and is the subject of some comment. This was the levee held by the Younger boys, the outlaws, sent there in 1876 for life, who were introduced in turn to the solons who cared to meet them, and whose liberties and privileges, so far as appearanses indicated, were as great as those of the visitors themselves, None of the other prisoners were accorded that honor. The distinguished outlaws stood in the private office and as the delegation from St. Paul passed, the Youngers grasped the hand of each member warmly.—Ex.

DISTRICT COURT.

The April term of the District Court, after a brief and broken session, closed its doors on Tuesday the 14th inst.

The Juries, both grand and petit, summoned under the Statutes of A. D. 1889, being disqualified for service, the Court's first labor was to appoint a jury Commisssion consisting of Messrs. P. G. Peters, T. C. Tillotson, Manual Mesias and W. W. Brazel, to prepare and submit a new list of jurors for the Term. By the time this list was fully completed, and the several jurors summoned and empanneled, one half the week had passed away, with very little work in the way of disposing of the cases upon the dockets.

A few cases upon the crimina docket were transferred to Chavez County, quite a number were dismissed for various reasons—chief among which was the stupidity of the Grand Jury of November last finding indictments without just cause, or unsupported by credible testimony; and other cases were pressed to trial and judgement. In one notable instance an appeal was had to the Court of last resort for all mankind. On the Chancery side of the court several causes of importance were presented, nearly all of which were continued, or referred to a special master for taking proof and report at some of the future terms.

De Lany vs. Terrill—J. Y. Hewitt master, time extended.

De Lany vs. Vail—Receiver, J. J. Dolan confirmed.

Miley et al vs. The *Badger* ville community—a celebrated Water-rights suit involving the questions of control and use of the waters of the Penasco river, referred to a special master for testimony and transmission of same to the Court at next term.

Watson vs. Rolla Wells et al referred to special master G. A. Richardson.

Watson vs. E. W. Parker and others—continued.

McCourt vs. McCourt application for Divorce: on report of Special master Mr. Cameron. Decree for divorce was granted.

C. Weidman vs. Scipio Salazar Election contest involving the office of County Treasurer and the legality of votes cast in Precinct No. 21, Reventon, referred to special master R. E. Lund. Master's report presented on Monday 13th cause argued by J. Y. Hewitt for contestant, and by Messrs. Richardson, Fall and Fountain for the responded. Court held the election was not made void by the irregularity complained of and dismissed the contestant's complaint.

The Civil docket was of little general interest:

H. V. Smith vs. P. J. Hyde action on promisory note. Draft by his attorneys G. B. Barber & D. J M. A. Jewett. Pleaded fraud on the part of the pl'ff, in the sale of cattle to him. Judgment for pl'ff. $3069.90. Hewitt, Ferguson and Lund for the pl'ff.

The Hon. A. A Freeman prasided with his usual energy and ability. The new clerk J. H. Garner Esq. by his kindly attentions and gentlemanly methods and manners, won respect from all. The new Sher-Capt. Roberts seemed slightly reserved and retiring, but is a very efficient officer; while J. P. C. (Jolly, Pretty, Clever) Langston managed the business of the Court with ease and splendid dignity.

It was frequently said, "That is the most inteligent petit jury ever seen in this Court House," Why? They were in large number from White Oaks.

Respectfully,
Equity.

A NOVEL ANNOUNCEMENT.—The publishers of the Youth's Companion have sent us a handsome Souvenir with the announcements of authors and articles for the next year's volume. It has seven illuminated pages, one for each day in the week, very quaint in style, the whole forming a "Book of Days," and each page illustrating a line of the old rhyme:

"Monday for Health,
Tuesday for Wealth;
Wednesday the best day of all;
Thursday for Losses,
Friday for Crosses,
Saturday no luck at all;
Sunday the day that is blest
With Heavenly Peace and Rest.

This novel and unique Calendar is sent free to all new subscribers to The Companion who send $1.75 for a year's subscription and request it at the time they subscribe. The Companion is already a favorite in half a million homes, and old as well as young enjoy its weekly visits.

Mrs. Ellis, of the Goodin ranch will soon move to Nogal, where she and two or three of her neighbors will employ a teacher to take charge of a private school, for the benefit of their children.

"There goes Annie Rooney," "Where?" "To Young & Taliaferro's to buy goods."

During a call from Mr. Howard L. Doyle, Tuesday last, we learned that he is about to leave New Mexico for a long visit to his old home in Lakeville, Mo. He makes this move with the hope that time and absence from the scenes connected with the sad death of his wife, may render less keen the memory of his trouble. He will take with him the good wishes of many sympathizing friends. His busines affairs have been left in the care of his brother, Perry C. Doyle.

MONEY can be made at our NEW line of work, right in your own localities. We want a few men, women, boys and girls to work for us right at their own homes. Now is the time. You can easily earn from 50 cents to $5 per evening, and a proportionate sum by devoting your whole time to the business. Many have made over $50 in a single evening at this work. All who engage at once can secure a permanent, profitable employment. It will not interfere with your present occupation, unless you prefer to give your whole time to it. Those who are now employing others, and those who are in poor health, and feel that they need more outdoor exercise, will find this employment exactly suited to their wants. Almost anyone can do the work as well as you can. Boys and girls can earn nearly as much as men. Many are making fortunes at the business. Ladies make as much as men, and do it as well. Any one, no matter what his business or occupation, should send us his address at once and see for himself what we have to offer. Those who are not in need of employment themselves can do us a favor by showing the advertisement to some one who does need it. Capital not required. We will start you. Everything new. Don't delay. Address at once, TRUE & CO., Box 400, Augusta, Maine.

Corralling a drove of horses gives you plenty of work for hours. You don't have time to think what the weather is. You let everything slide, till the work is over. But the cowboy is never unprepared. When this "picnic" happens, whatever the weather, he is not drenched and wet to the skin before it's over, because he is always provided with a "Fish Brand Pommel Slicker." With one of these saddle coats on, you can't get wet if you try. Your entire saddle will be inside the coat, and it will be dry, too. Did you ever try the Pommel Slicker? Just try one, they cost very little. Then no more colds, fevers, rheumatism, and other results to exposure of weather. Every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

Mrs. Lee. "Why, Addie, you needn't cry about it. I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."

Mrs. Lee. "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen,—and she makes all her own clothes. But she has what I haven't."

Mr. Lee. "What is that?"

Mrs. Lee. "Well, she gets all of her information from the Magazine they take. I admit that she knows all that is going on, and is bright and entertaining in conversation; but I could do as well as she does if I had the same source of information. She lent me the last number of her Magazine lately, and I learned more in one hour's reading, about various social matters and the topics of the day, than I would pick up in a month by my occasional chats with friends. It certainly covers every topic of interest, from the news of the day down to the details of housekeeping; and everything is so beautifully illustrated, too. Every time Minnie goes over to the Allens' she comes back and teases me to get you to take Demorest's Family Magazine. All the stories are so good. Even the boys watch for it every month, as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!"

Mr. Lee. "Well perhaps I had better send for a Specimen Copy: for, if it is anything like what you say it is, it will amuse and instruct the whole of us."

Mrs. Lee. "I see that W. Jennings Demorest, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for 10 cents, so we can't lose anything, as each number contains a 'Pattern Order' entitling the holder, to any Pattern she may choose, and in any size—which alone makes each copy worth 50 cents: and I just want a jacket pattern like Mrs. Allen's. The subscription price is only $1.00 a year; and I must say I can't see how they can publish so elegant a Magazine for so little money."

If you have not examined the new illustrated monthly which has had so phenomenal a success during the past year, it is worth your while to do so. An increase in Circulation, from 10,000 to 50,000 copies in 12 months means that there must be some attractive features about the

Cosmopolitan Magazine.

It gives 1536 pages annually by the ablest writers and over 1200 illustrations by clever artists. No magazine has ever advanced more rapidly in public favor. Buy a copy at the newsstand.

$300 REWARD

FOR ORE THIEVES!

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgam and bullion. Therefore the "Old Abe" Co. offers a standing reward of Three Hundred Dollars for the arrest and conviction, or for information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore. The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holders of Old Abe specimens.

SAVE MONEY AND SUFFERING.

One feature of the thousands of testimonials that have been given in behalf of S. S. S. is remarkable. In numbers of instances it is related that a great deal of time and money have been spent in a vain effort to secure relief from disease in the usual way. A knowledge of the virtues of Swift's Specific would have saved the time and the money, to say nothing of the prevention of the suffering. There need be no such mistakes made now. The great blood purifier is for sale by druggists everywhere, and the S. S. S. company in Atlanta will send to any address their Treatise on Blood and Skin Diseases free, and a pamphlet containing a few of the thousands of testimonials they have received from those who have experienced the benefits of this wonderful medicine.

RAIN! RAIN! RAIN!

If there's one set of men who appreciate a good waterproof coat it is the farmer. He knows that a "Fish" Brand Slicker" costs him less per year than any garment made. Did you know it rains or snows one day in three the whole year through? A "Fish Brand Slicker" makes every day a pleasant day to its lucky owner. Go anywhere with it in rain, hail, sleet, snow, or blow, it is wind and water proof. Costs less than rubber, and lasts ten times as long. Rubber is good for show days, but will rip in a week. If you want a coat for hard wear and hard weather, get the "Fish Brand Slicker." Every good thing has its imitation, so has the "Fish Brand Slicker." Look out. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

and a fierce storm of cutting sleet which strikes the face like a thousand needles. Wind forty miles an hour. You say a man couldn't stand such exposure? No, he couldn't, without just the proper clothing. And there's only one outfit that can keep a man both warm and dry at such a time, and that is the "Fish Brand Slicker." They are guaranteed storm-proof, waterproof, and wind-proof. Inside one of them, you are as much out of the weather as if indoors. They are light, but warm. Being re-enforced throughout, they never rip; and the buttons are wire-fastened. No railroad man who has once tried one would be without it for ten times its cost. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost.
