

SCHLEY WAS COOL IN THE FIGHT

He Sent Encouraging Messages Down to the Men During the Progress of the Battle.

HE'S A BRAVE, OLD SEA DOG

Some Interesting Testimony Was Given Today Before the Schley Board of Inquiry.—The Slowest Ship Fixed the Speed for the Flying Squadron.

Washington, D. C., Oct. 17.—The first new witness in the Schley court today was Lieutenant Commander T. D. Griffin who, as lieutenant, was senior watch officer on the Brooklyn during the battle of July 3.

Lieutenant Commander Griffin gave details of Cienfuegos campaign, saying the distance of the blockading line there varied from three to seven miles, being farther out at night.

Speaking of the voyage from Cienfuegos to Santiago, the witness said a heavy sea impeded the fleet by delaying the smaller vessels, especially the Eagle. He heard Commodore Schley tell the commander of the Eagle he could not delay the squadron any longer on his account, and gave orders for him to proceed to Jamaica for coal.

At Santiago, the witness said, the blockading line was a mile or two closer in at night than during the day, and on May 29 the fleet stood out three or four miles. There were picket boats inside the line.

Referring to the battle of July 3, witness said he had been in charge of the powder division and it was also his duty to look after the lower decks. Consequently he had not seen a great deal of the fight.

He said encouraging messages were sent among the men below.

"You don't know who sent these messages, do you?" asked Rayner.

"I took it for granted," Judge Advocate Lemly interrupted the witness by stating it did not appear that Schley sent these messages, which brought a statement from Rayner that he would prove, when Schley went on the stand, that the admiral sent these messages of encouragement to the men.

"Can you speak of the conduct, bearing and manner of Commodore Schley during the engagement in which you saw him?"

"He impressed me as being remarkably cool, considering what had just occurred. He was perfectly natural in manner and bearing."

Hanna asked whether the flying squadron "proceeded with dispatch" on the voyage from Cienfuegos to Santiago. Witness replied: "Yes, as a unit, until we made the turn to westward on May 26. The slowest ship fixed the speed, and that was six or seven knots an hour."

Ensign John Halligan, Jr., who served on the Brooklyn during the war, was the first witness of the afternoon and when asked as to Schley's bearing in battle, the witness said it was "such as to inspire enthusiasm."

Dr. Paul Fitzsimmons, chief surgeon of the flying squadron, was the last witness of the day. He observed the battle on July 3, from the gun deck of the Brooklyn, and said it seemed to him that the Brooklyn was fighting the battle entirely alone. He thought the Brooklyn kept the Colon from getting away.

RECIPROCITY TREATIES.

President Roosevelt Will Urge Their Ratification by the Senate.

Washington, Oct. 17.—It is understood that President Roosevelt, following out the policy of the late President McKinley, will urge the ratification of the reciprocity treaties with France, West India and South American countries, which failed of ratification in the senate last year.

John O. Kasson, of Iowa, who practically had charge of the negotiations of these treaties, had a conference with the president today upon the subject. He says that all treaties have been renewed except that with Trinidad, which that island declined to renew upon the advice of Great Britain.

The failure to renew this treaty is regarded by Kasson as unfortunate, because of its bearing upon the South American trade.

A Schedule of Assets and Liabilities. Minneapolis, Minn., Oct. 17.—A schedule of the assets and liabilities of the St. Paul and Kansas City Grain company has been filed. The liabilities amount to \$245,000 and the assets are scheduled at \$207,000. Of the liabilities, nearly half a million are unsecured.

MINES AND MINING IN NEW MEXICO

Grant, Lincoln, Otero and Other Counties Report Much Activity and Development in Their Mining Camps.

A NEW CONCENTRATOR AT LORDSBURG

The Martin company's mine at Rosedale, Socorro county, closed down one day last week on account of an accident to the hoisting machinery. One hundred feet of shaft have been completed on the Ninety-nine at Rosedale, Socorro county, and a strong body of low grade gold quartz has been developed.

On the Golden Bell at Rosedale, Socorro county, a large body of fine green quartz has been encountered. New machinery is to be erected and the force of men on the mine increased. Good ore discoveries have been made at the Rosa at Rosedale, Socorro county.

J. O. Nabours of Oscura, Lincoln county, has sold a two-thirds interest in his group of mines in the Oscura mountains in Socorro county. The Estey Mining and Milling company was the buyer.

Nogal is one of the oldest mining camps of Lincoln county and counts some noted mines, including the American and the Helen Rae groups. Each of these groups is equipped with milling machinery and both are rich in gold. The American group is owned by the Vanderbilt Gold Mining company of Pennsylvania and New York and is now idle. The Helen Rae property belongs to Dolph and Robertson of Scranton, Pa., and is being worked.

The American Placer company of Cleveland, O., has expended \$50,000 thus far in work preparing to operate the Jicarilla placers in Lincoln county and is now about to begin actual gold getting with a big steam shovel and other machinery. The company has 5,000 acres of placers running about 50 cents per cubic yard and a long reach of pipe line.

A mining camp has been started 50 miles southeast of Roswell in Chaves county. On the Day claim there is a fine showing of copper ore, there being 30 tons of high grade ore on the dump and about as much more of low grade ore. The formation of the camp and surroundings is lime and sandstone, with leads that can be traced for a long distance. There is also a good showing of high grade lead ore. Silver is also found and that section seems to be highly mineralized.

Work on the new concentrator of the Lena Mining company at Lordsburg, Grant county is progressing very satisfactorily. As soon as the buildings are far enough advanced the machinery will be placed.

A valuable strike of sulphide of silver has been made on the Miners' Chest near Lordsburg, Grant county. A tunnel is being pushed through the ore. The tunnel last Saturday had been driven in five feet and the solid sulphide of silver was still in its face and the bottom of the tunnel was also of the same material. The petanque does not fill the tunnel, being but three feet wide. The ore is carefully sacked and kept under lock and key. The strike is one of the greatest that has ever been made in Grant county.

The American Consolidated Copper company has set a number of men to work on its property at Shakespear, Grant county. The Atwood was recently given a thorough inspection. At least 50 men are to be employed and reduction works are to be erected as soon as the best method of treating the ore has been determined upon.

The new hoist of the Aberdeen company on the Malachite near Lordsburg, Grant county, has been started. The machinery works smoothly. It did not take long to ball the water out of the mines with a big bucket and the fast hoist. There is at the bottom of the main shaft a body of fine ore, five feet wide. Drifting is being done on the Orphans' Home mine at the water level and no effort will be made to sink further until it is ascertained whether the unwearing of the Malachite will also unwater the Orphans' Home. In the Atlantic at the water level, which is 116 feet, a drift has been run west fourteen feet and now one is started east. Development will be continued in this manner until arrangements are made to handle the water. A cross-cut has been started from the bottom of the shaft to strike another ledge, which appears on the surface.

A mining company has been organized with a capital of \$10,000,000 for the purpose of reopening the property known as the Old Parsons mine in Lincoln county and work is to be pushed vigorously. The mineral is low grade gold ore, but by a new process of treatment the rock can be worked with profit.

An old claim in the Alamo canon, Otero county, has been relocated by J. J. Reckling, Harry Biggle and J. F. Welch. An extensive cave has been discovered on the property, but this has not yet been explored.

Moffet & Co., working at Jarilla, Otero county, have been shut down for two weeks for the purpose of timbering their mine and putting up a whim. Work was resumed this week, ten men being employed. The property is a gold-copper proposition, running seven feet to thirty-four per cent copper and \$12 gold.

Served Hour Right. Berlin, Oct. 17.—Herr Maurer, editor of Neueste Loben, was sentenced today to four months imprisonment, owing to the publication of an article approving the assassination of President McKinley.

Earl Russell is Free Again. London, Oct. 17.—Earl Russell, who in July last was sentenced by the House of Lords to three months imprisonment for bigamy, was released from Holloway jail this morning.

THE STATEHOOD CONVENTION

It Adopted Strong Resolutions in Favor of Statehood and Then Adjourned Yesterday.

FOUR ELOQUENT ADDRESSES

The Speakers Were Governor Otero, Colonel J. Francisco Chavez, Governor O. A. Murphy and Hon. E. S. Mungler.—Harmony and Enthusiasm Prevailed.

The statehood convention at Albuquerque yesterday afternoon concluded its work by the passage of a set of strong resolutions in favor of statehood. Colonel J. Francisco Chavez was the permanent chairman of the convention. J. F. Hink, of Roswell, and H. G. Coors of Esas Las Vegas, were the vice presidents. E. V. Chavez of Albuquerque, secretary, and Nestor Montoya of Albuquerque, interpreter.

Colonel J. Francisco Chavez was introduced by Governor Otero as the father of the statehood movement. The old man eloquent was received with tumultuous applause. In his felicitous and courteous manner he complimented the ladies who graced the convention with their presence. He then proceeded to deal with the situation in "thoughts that breathed and words that burned," as no other living man could do. He traced the history of the statehood movement in the territory and launched into an earnest defense of the territory's right to be admitted by the next congress. For half a century Colonel Chavez, in congress, in legislative halls and in private, has been leading the fight for statehood, and now he believes he is to see the realization of his fondest hopes.

Delegate Rodney read a number of letters and telegrams from prominent men who regretted inability to attend, but expressed the greatest interest and the strongest friendship for the cause. Among the senders were President Roosevelt, Hon. Blinger Herman, Dr. Nathan Boyd and O. A. Larrazola. The letters, especially that of President Roosevelt elicited great applause. A motion that the letters and telegrams be published as a regular part of the convention proceedings prevailed.

Governor Otero was the next speaker on the program. He was greeted with prolonged cheers. His impressive and eloquent address was published by the New Mexican yesterday.

Governor O. A. Murphy of Arizona, was next introduced. He congratulated the delegates who had assembled upon the excellent outlook for the statehood cause, and expressed the fervent hope that very soon they would be not alone citizens of New Mexico, but citizens of the United States as well. The governor dealt eloquently with the benefits that would unfailingly result from statehood. The value of all kinds of property would be enhanced, thousands of people from the overcrowded east would pour in and every industry and resource of the territory would become vastly more important. He believed the time had come when the people of the east were willing to accord to westerners the same rights they had so long enjoyed themselves. Even Boston, if it could see the assemblage before the speaker, would nevermore make opposition to his eloquent speech, so ably set forth the whole situation, in congress, in New York, in other cities of the country, the troubles of New Mexico would be over forever.

The speaker convincingly and justly dealt with a number of reasons that are heard against statehood. New Mexico had prayed and pleaded long. Governor Murphy said in his magnificent peroration, now she demanded with all the strength she could muster, and her demand for simple justice could not be disregarded nor denied. Governor Murphy's splendid address was frequently punctuated by hearty applause.

Hon. Edwin A. Mungler, president of the Hamilton club of Chicago, and a powerful ally of New Mexico's statehood forces, was in splendid voice, and his eloquent, scholarly and apostolic address was listened to with breathless interest.

In the afternoon the report of the committee on resolutions was called for. It was read by L. C. Grove of Aztec. The report was adopted amid great enthusiasm, after which the convention adjourned sine die. The report represents the carefully expressed wishes of the united population of New Mexico. The convention was a convention of all the people, and every part of the territory was represented. Not a voice was raised against statehood. For the first time the territory is a unit on the question, and what all the people want is pretty certain to come. The resolutions will be republished tomorrow by the New Mexican.

The Episcopal Convention. San Francisco, Calif., Oct. 17.—On the part of the Episcopal House of Deputies the following were appointed members of the joint commission on marriage and divorce: Rev. Morgan Dix, New York; Rev. John Fulton, Pennsylvania; Rev. J. Houston McClellan, Maryland; Mr. Francis L. Steihs, New York; Mr. W. W. Old, Southern Virginia; and Mr. Edward G. Bradford, Delaware.

San Juan County is Prosperous. Are Bringing Better Prices Than Ever Before and the Value of Land and Other Property is Increasing.

Development of Coal and Oil Petroleum. L. C. Grove of Aztec, publisher and editor of the San Juan County Index, who is the guest of Charles V. Safford, will leave tomorrow forenoon for home. Mr. Grove tells of the great prosperity that San Juan county is enjoying and of the many new settlers coming into that section almost every day from the states. The crops were good this year and brought better prices than ever before. Apples yielded a fine crop and are being bought in eagerly at \$1.50 a box. San Juan county is proud of the splendid exhibit it made at the Albuquerque fair, Aztec, Farmington, and the other settlements co-operating in getting together the exhibit and the Hyle Exploration company transporting it free of charge to Albuquerque. The latter company is finding new markets for San Juan county products in addition to those of southwestern Colorado.

The county is moving in the matter of procuring funds for the erection of a court house at Aztec. The normal school at Aztec, maintained by private capital, is being established upon a firm foundation. The public schools are also in excellent condition and are doing good work. Several new houses are to be built at Aztec next spring. Farmington has incorporated and may soon have electric lights. The value of land is constantly increasing and many sales of property are being made continually.

The several oil companies which have been organized are awaiting the result of the drilling for oil in Archuleta county, Colorado, which is supposed to be located in the same oil basin. But no matter what the result will be in Archuleta county, several experimental wells will be drilled eventually in San Juan county.

The immense coal measures of San Juan county are being worked for local consumption, freighters taking the coal even to remote parts of the county. Systematic development of the coal deposits will come only after the building of a railroad through the county. The survey for the Colorado & Gulf or Durango-Clifton line, which passes Aztec and Farmington, has been completed.

It would be quite a surprise to find the San Juan county settlements, especially along the San Juan river as the Indians make very little use of the land and considerable minerals are said to exist in its western part. The reclamation is beginning to be dotted with stores and a lively trade in blankets and other goods has been established.

A FINE BRIDGE OVER THE PECOS.

It is to be 938 Feet Long and Will Cost \$11,000.

At a session of the county commissioners of Chaves county a contract was finally entered into with the Midland Bridge Co., of Kansas City, to build a bridge over the Pecos, east of Roswell, at a price of \$11,000, no earth work included, the bridge to be completed and turned over to Chaves county not later than March 8, 1902, and to secure the completion according to the contract, and specifications a bond of \$5,000 to be approved by the commissioners, is to be furnished before the contract is considered closed or work commenced. The bridge which the commissioners have contracted for is to be of the best steel all of which is to show the proper test, with a carrying capacity of 80 pounds per the square foot with a factor of 4 1/2 meaning an ability to carry four times the test weight. The bridge proper will be 432 feet long including a 19 foot approach on either end and is to rest on four steel tubular piers each made of 14 inch steel and 48 inches across in the center. These tubes or piers are to extend from the clay bottom up to the bridge and are to be filled with concrete, the stone in which is to be approved by the commissioners. For these piers to rest on, under each pier is to be driven four red cedar piles 25 feet long. The piers are to be tied together crosswise with solid steel ties. There will be three spans. The structure each about 138 feet long. The steel floor beams are to be bolted to the gusset plates. The driveway will be 17 feet high and 16 feet in the clear width, so that teams will have ample passing room. The floor to be of yellow pine 2x12. All channels and plates to be of steel.

JARILLA MINES.

Continued Activity in Development in That Otero County Camp. G. M. Kraemer of Jarilla, reports unusual activity in camp. Work will be resumed this week on the Moffett mine. The ore from this mine runs from 17 to 24 per cent copper and \$12 in gold.

The Alcorn company is down 240 feet and the ore runs from 900 to 2,000 ounces silver.

The three Bears-copper mine, owned by Philadelphia parties, is being worked day and night. Recent assays show 16 per cent copper.

The Jarilla Copper company commenced their annual work on the group of 83 claims. Seventy-five men will be steadily employed by this company.

Five wedding and other stationary at the New Mexican office.

GEN. FRENCH TO STOP THEM

The Burgheers Have Invaded a Rich and Fertile District Where They Are Gaining Some Recruits and Are Making a Point of Marching on Cape Town.

Cape Town, Oct. 17.—The invaders have reached the sea, a commando of 500 men having penetrated through the rich Great Berg river valley to Hopfield and Saldanha Bay, northwest of Cape Town.

The Republicans secured a number of recruits and considerable quantities of supplies. General French is directing the operations against them.

THE BANKERS IN SESSION.

James Eckels Favors the Retirement of Legal Tenders. Milwaukee, Wisconsin, October 17.—James Eckels, former comptroller of the currency, spoke on the "assets of currency." He said he would like to see the legal tenders of the government retired, as there is always a possibility of their resuse in a form that will be detrimental to the country, and would like to see the abolishment of the sub-treasury. He believed in great banks and a branch system of banks.

A memorial on the death of President McKinley was adopted. The officers were elected as follows: President, Myron T. Herrick, Cleveland; Vice President, Caldwell Hardy, Norfolk, Va.; chairman of executive council, Frank G. Biglow, Milwaukee; treasurer, George M. Reynolds, Chicago.

The new executive council will elect a secretary, probably James R. Branch.

A RAILROAD TRUST.

The Hill-Morgan Combine to Consolidate the Railroads of the Northwest. Burlington, Iowa, Oct. 17.—What is believed to be the first tangible move in the Hill-Morgan deal for the consolidation of the Northwestern roads was taken here when articles of incorporation of the Chicago, Burlington & Quincy railway company were filed in the county auditor's office. The capital is \$100,000,000 and the object is to maintain a railroad in Illinois, Iowa, Missouri, Kansas, Nebraska, Colorado, Wyoming, South Dakota, Montana, Wisconsin and Minnesota.

Looking For the Brigands. Constantine, Oct. 17.—As no news has been received here from Baird and Haskell, the missionaries who have been attempting to get into touch with the brigands who abducted Miss Ellen M. Stone, a third missionary has been dispatched in quest of them and the brigands.

Men, Wood and Water Needed. The report of mining operations in Jarilla is that reliable help cannot be procured and practical mining and development work is greatly retarded thereby. The Jarilla Copper company is now doing annual assessment work on 83 claims. All water used in the camp is shipped in by burros. This lack of help, wood and water is keeping back one of the richest mining camps in the southwest.

A Railroad Employee Dies. John Atkins, boss blacksmith in the Santa Fe shops at Las Vegas died of diabetes. He leaves a wife and three children. He lived at Las Vegas four years, having come from the Topoka shops. The body was taken to the home of his parents at Kansas City, Mo., accompanied by his wife and married daughter, Mrs. James Cook.

At Vanderbilts, a success with their automobiles. George Gould is a success with his railroads.

Lord Kitchener is still guessing which shell General Botha is hidden under. Botha seems to be a success at the shell game.

The project of passing a national lease law must be defeated. These few words are respectfully but earnestly addressed to Delegate B. S. Rodey.

The best element of the Republican party stands for assessment and tax reform in the territory. A fair and equitable assessment and a strict and prompt collection of taxes are the needs of the hour.

The czar of Russia, the Emperor of Austria and the King of Italy, are to meet to discuss the peace of Europe and means to perpetuate it. That isn't such a bad idea, but generally when emperors and kings talk of peace they are secretly preparing for war.

The American Bankers' association asks considerable in the line of legislation of the coming session of congress, but what it does ask is in the main for the prosperity and stability of the business and the banking world and hence good for the whole country.

Bank robbery and safe blowing seem to be more prevalent than ever in the east. They are getting to be very successful trades, for three out of every four bank robberies seem to be successful. There should be a remedy for this and it should be applied with vigor.

Report has it that the employment of Navajo Indians on the Santa Fe Pacific railroad, a section men, has not proved much of a success and that their places have been taken by white men or by Japanese. The Navajo Indian does not seem steady enough and wants too many holidays and vacations for all sorts of purposes.

Edwin M. Shepard, the Tammany candidate for mayor of Gotham, is having quite a time of it defending himself. He cannot find time to defend Tammany Hall, but the latter thinks that it can elect him any way if a sufficient number of fraudulent votes are cast for him. Tammany Hall has strong hopes knowing that it is a success at fraudulent voting.

A German merchant has been captured by brigands in Bulgaria and is being held for ransom. It will be interesting to watch the difference of methods of Germany and the United States in dealing with the brigandage question in the Balkan peninsula. This would be a good time to make common cause in establishing something like security for foreigners in Turkey and adjoining principalities.

It is not by coercive legislation that intemperance can be put down but by the gradual improvement of the physical and moral conditions of the people. So says Joseph Chamberlain and to prove that he is right he states that there are now 3,000,000 total abstainers in Great Britain and Ireland, a proof that the leaven of moral suasion is working rapidly and effectually.

Turkey will eventually pay for the Balkan states. It is a hard lesson to learn, but it must be. The Balkan states are protected by the Stars and Stripes no matter in what nations are held responsible for their safety while within the bounds of these nations. It is a good thing to be an American even when away from home.

The proceedings of the statehood convention held in the city of Albuquerque on Tuesday and Wednesday of this week show conclusively that the people of the territory are in earnest in their desire for statehood. Many delegates from every part of the territory were in attendance and the utmost harmony prevailed. The people of New Mexico as a for statehood and the opponents to the people must take a back seat.

George Gould believes in an upbuilding policy for railroads although his father had the reputation of having made his fortune out of railroad wrecking. Of the two policies, of course, the former is the best for the nation and should prove the most profitable for the Goulds eventually. George Gould's announced intention to further build up and strengthen the Denver & Rio Grande system should bring some benefits to northern New Mexico including the City of Santa Fe.

A curious state of affairs exists in the foreign grain trade. Many American shippers are allowing their grain to remain on the steamers and to be brought back to New York and then shipped again to its destination, in the expectation of some improvement in

the grain trade in the meantime. This curious state of affairs is due in part to extremely low trans-Atlantic freight rates prevailing and partly to the scarcity of warehouses on the other side and the resultant high storage rates.

Japan is preparing for a war with Russia. Japan wants Korea for its population. In the end Russia will have Japan and Korea and then the Japanese will have a chance to spread over all of Siberia. It is of no use to be fooling with the Russian bear for every nation that has fooled with him has been swallowed altogether or in part as Sweden, Poland, Turkey, Turkistan and other nations have learned to their cost. Russia has never lost permanently any of its possessions, but has been adding to them at a more rapid rate even than Uncle Sam has added to his territorial belongings.

A census bulletin just published credits Colorado with over 1,300,000 sheep, 37,000 goats, and with over 1,400,000 cattle. The total value of the livestock is almost \$50,000,000 and what is more, most of it appears on the assessment rolls. New Mexico has more sheep, more goats and probably as many cattle, but unfortunately but a small fraction is assessed for taxation. Colorado has a million chickens, 430,000 turkeys, 25,000 geese and 400,000 swans of bees, altogether worth over half a million dollars. The Centennial state should have a pretty good Thanksgiving celebration according to those figures.

Two Important Matters.

A convention of representative citizens should be held within the next three or four months to take action in the matter of the proposed national lease law and the proposed El Paso international dam. Both projects should they become a fact, would prove highly detrimental and injurious to the best interests of the people of the territory, in addition to robbing them of vested rights of long standing. The enactment of a national lease law would ruin the small owners of cattle and sheep in the territory, and the construction of the El Paso international dam would ruin the many thousands of farmers in the Rio Grande valley from Conejos in the north to Anthony in the south, a distance of about 400 miles, and a section of New Mexico that has been settled for 300 years. A convention should be called by the governor and the delegates thereto should be appointed by the county commissioners of the several counties. Strong resolutions should be adopted expressing the disapproval of the people of New Mexico of these projects and copies of these resolutions should be forwarded to the president of the United States, the committee on foreign relations and the territories and public lands of the senate and the house of representatives of the 57th congress, to the secretary of state, to the secretary of the interior, to Delegate Rodey, as also to such senators and representatives in congress as are friendly to New Mexico and who want to see this territory have a fair and equal show with the rest of the commonwealths of this great Union on the road to prosperity and advancement. There is no politics in these matters for they interest the people of the territory as a whole. The enactment of the lease law would only attain the object of still farther enriching a few Texas cattle kings, and the enactment into law of the El Paso dam project, a ring of El Paso land speculators. Their enactment into law would be a death blow to New Mexico's prosperity and the people of the territory must get to work at the proper time vigorously and energetically, and must continue so to work until these nefarious and injurious schemes are thoroughly defeated.

Another Big Strike Failure.

The strike of the longshoremen at San Francisco has collapsed without even the formality of declaring the strike off. Preliminary steps have been taken for a federation of all the shipping interests doing business at that port. The purpose is to concentrate the various interests for mutual protection, particularly in the matter of hiring crews. One specification is significant. It indicates that the ship owners intend to stand together in the matter of hiring crews, and from that it may be fairly inferred that they will act conjointly in cases of strikes and all labor troubles.

There can be no doubt that this movement is an immediate result of the strike recently settled which had for so long completely tied up the water-front business of San Francisco, and seriously crippled all other lines. This gives striking proof of how abjectly the failure of that strike. It is hard for such a movement to succeed without the moral support of the community, and it is certain that this one never had the sympathy of the San Francisco public. If the men had struck on account of a real grievance as to wages or hours of labor, doubtless it would have been altogether different. But such was not the case. It was intended to force the discharge of non-union employees, and the belief is very widespread in the United States that a man ought not to be denied the privilege of earning a living for himself and family because he does not wish to join a union. That feeling prevailed very strongly in the commercial metropolises of the Pacific coast, and the result was that the strikers were obliged to yield. Not only did they lose the point immediately in dispute, but the outcome has been a combination of the employer classes such as was never before known in that section of the country.

It was an unfortunate and ill-starred movement from beginning to end. The men lost heavily in wages during its continuance, and they can never make good the loss. They simply returned to work at the same wages and hours of labor as before, with the promise that there should be no discrimination against union men. It cannot be said that the combination of these shipping interests is threatening to the wage-earners—it is to be hoped that it is not. But the purpose unquestionably is to put the employers in a stronger position with reference to issues that may hereafter arise between them and their employees.

A LOVELY LAND.

Color, Form and Startling Beauty of New Mexican Landscapes.

The editor of an eastern paper who recently visited New Mexico writes this rather flattering sketch of the sunny southwest as he observed it:

"New Mexico is the land of color, the land of form, the land of startling novelty. Monotony is an unknown quantity, beauty is present everywhere, while grandeur greets the reverent eyes of all who traverse the fastnesses of her Rocky mountains, those everlasting hills that tower, snow-crowned, as if to pierce the bright and stainless blue of the sun-illuminated sky.

"Every variety of scenery can be found in Colorado and New Mexico, extending to the far horizon's rim, to the vastness of the mountains, climbing in splintered pinnacles to the very zenith. Canons whose abysmal depths awe the soul, valleys whose Arcadian loveliness delight the heart, rivers whose rushing waters thrill with their tumultuous sweep, mountains whose serried ranks terrify with their stupendous magnificence, forests whose frost-touched foliage glows with tints of fire or is gloom with the dark beauty of balsamic pines, brooks crystal in their clearness, singing sylvan songs over golden gravel, water-falls like festoons of filmy lace ornamented with a fretwork of diamond waterdrops, flowers that paint the meadows with delight, or bloom amidst eternal snow, all these are found in this land, and form a symphony whose haunting beauty, once having been experienced, can never be forgotten."

STRONG ARGUMENTS FOR STATEHOOD

McKinley County Is for Statehood in No Uncertain Way.

McKinley County Republican.

New Mexico compares favorably with any state of the Union in its standard of morality, in the possession and execution of good laws, and in the enterprise of its citizens, yet because it is a territory it is looked upon by the people of the east as the home of the outlaw and desperado. Capitalists hesitate to make investments because the name of the territory represents to them everything that is insecure and unreliable in property values. No matter how promising the enterprise is, the man of capital must be first assured of the safety of his money before he will invest it, the result of this is that he will satisfy himself with smaller returns in places that carries the name of state with it, although the people may not be as law abiding as

Just what this medicine accomplishes is shown by the following letter from H. Andrews, a prominent resident of Springfield, Ohio, who writes:

"W. H. Hooker & Co., New York: 'Gentlemen—It affords me a great pleasure to assure you that I have received both immediate and permanent relief from throat, bronchial and asthmatic troubles by using Acker's English Remedy, taken strictly according to directions. It is a blessing to humanity!'"

TWO STATEHOOD CONVENTIONS.

A Favorable Consideration of Statehood for the Territories Is Certain.

New York Jan.

Two statehood conventions are to be held in the territories of New Mexico and Arizona, at Albuquerque in the former on October 15, and in Phoenix in the latter on October 26. New Mexico, organized as a territory in 1850, had, by the last federal census, a population of 195,000. Arizona, established as a territory in 1863, had by the same census a population of 122,000. In respect to population, both territories have the requisite number of inhabitants, and according to precedents territories seeking admission as states have a better opportunity of favorable treatment by congress if such applications be made in the year succeeding a presidential election, and at a time when political considerations do not govern.

This year there will be no partisan benefit to be derived by the admission or rejection of the claims of the territories to statehood. New Mexico went Republican last year by 3,700 majority; Arizona went Democratic by 1,000. The agitation for their admission is to be carried on in co-operation and the large increase in the population as well as in the industry and resources of the southwest since 1890 is believed to assure a more favorable consideration of their demands than they received ten years ago. Of the territories in the northwest, then admitted, Wyoming has now 92,000 population, or 30,000 less than Arizona, still a territory, and Idaho has 161,000, 34,000 less than New Mexico.

In the agitation in progress in Arizona and New Mexico, local organizations, boards of trade, manufacturers' associations and other similar bodies are taking part. The governor of Arizona will speak at the New Mexico statehood convention and the governor of New Mexico will address the Arizona convention later.

they are here where the percentage of crime is much less than it is in the states of the east. The principle of self government is one that has been fought for by every nation in the world. Is it strange that we of New Mexico want to manage our own affairs? The statehood convention at Albuquerque offers us an opportunity to escape from the injustice which we have endured for years. Let McKinley county be heard from in no uncertain tones.

Seize the Opportunity.

Taos Cresset.

San Juan county, New Mexico, is attracting much attention as a fruit producer, many tons of apples, pears, plums and grapes were contracted for on the ground this year and shipped to Boston and other eastern cities. All this fruit had to be hauled over forty miles to the railroad, so there is plenty of opportunity for the Taos valley—all that is needed is the push.

A WORTHY SUCCESSOR.

"Something New Under the Sun."

All doctors have tried to cure Catarrh by the use of powders, acid gasters, inhalers and drugs in paste form. Their powders dry up the mucous membrane causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have advised them to crack open and bleed. Pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the cure of Catarrh, has discovered a remedy that relieves him when fully used, not only relieves at once, but permanently cures catarrh, by removing the cause, stopping the discharge, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "Snuffles the Guaranteed Catarrh Cure," and is sold at the extreme low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and reliable remedy for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve Hay Fever or Cold in the head.

Catarrh when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Do not delay, but send for it at once, and write full particulars as to your condition, and you will receive special advice from the author of "Snuffles" free of charge. Send your case without cost to you beyond the regular price of "Snuffles" the Guaranteed Catarrh Cure, \$1.00, to any address in the United States or Canada on receipt of One Dollar. Address Det. D644, Edwin B. Giler & Company, 2330 and 2332 Market Street, Philadelphia.

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Write Your Name and Address Plainly.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. My astonishment, the trial acted like a charm. Send me a full-size bottle."

Missouri Code Pleading

By Mr. Everett W. Pattison, (Author of Pattison's Complete Digest, Nearly 600 Pages, Price \$2.00, Delivered Free.) This Book is a Very Important One for all Lawyers.

It sets forth, as succinctly as is consistent with clearness, the present condition of the law governing pleading as interpreted by the courts of last resort in Missouri. The decisions are mostly those of the Missouri courts, though in some instances illustrations have been drawn from the decisions of other code states.

The Author Thoroughly Believes in the Advantages of the Code System of Pleading.

He further believes that precision and exactness are even of more importance in code pleading than in pleading at common law. For, while it is true that the common law requires the utmost strictness in adherence to forms, yet, if its forms are followed, the practitioner need have little fear of attack upon his pleading, even though that pleading should totally fail to inform his opponent as to the real points in issue. On the other hand, the very object of the Code is to compel parties to make clear the grounds upon which their right to recover, or their defense, is based. The lawyer who is well grounded in the rules of pleading will surely have the advantage in litigation. The constant study of this valuable work, familiarity with the rules set forth in it, and with the decisions enforcing and interpreting those rules, cannot fail to make one a good pleader.

SPECIAL OFFER—To those who buy both books at once, we will offer Pattison's Pleading Book (Price \$5.00) if ordered within the next 30 days for \$4.00 additional, thus offering the two works, giving all there is to be said about Pleading in Missouri.

Education in Porto Rico.
The expense of maintaining schools in Porto Rico is very high, if we consider the amount spent for the small number of pupils enrolled, but as the country is gradually brought in closer touch with our own, their system will evidently be changed, until it reaches our present state of perfection. In this country the people are being educated to the fact that there is a sure cure for dyspepsia, indigestion, constipation, liver and kidney troubles, and that medicine is Hostetter's Stomach Bitters. It should be taken at the very first symptom, if you would avoid unnecessary suffering. It will give prompt relief and eventually cure, as hundreds of people, including many prominent physicians, have testified during the past fifty years.

Not Entirely a Joke.
Jenkins—Where are you living now, old man?
Wilkins—Morningside.
Jenkins—What did they call it that for?
Wilkins—I don't know; but I fancy it was because it takes you all night to get there.—N. Y. Times.

Chas. R. Wessmar, Evanston, Ill., writes: "My boy 2-1/2 years old, had a severe cold which refused to yield to any treatment until we tried Foley's Honey and Tar. He was completely cured before using one bottle." Take note but Foley's. Fischer Drug Co.

Curiosity Fulfilled.
Fuddy—Did you hear Fred's wife telling her little boy to stop asking questions, or she'd punish him?
Rather unjust that, eh?
Duddy—May be; but the woman is consistent. Just see how she has punished Fred for asking that momentous question that made them husband and wife.—Boston Transcript.

Mrs. T. Bridgeman of Marshallville, Mich., was troubled with salt rheum for thirteen years and had tried a number of doctors without relief. After two applications of Banner Salve, her hands became better and in a short time she was entirely cured. Beware of substitutes. Fischer Drug Co.

"I am very sorry, Marie, that your mind is concerned always with such trivial things! You seem to have no thought for anything better than a new hat!"
"What's the use? If I wanted an entire costume you wouldn't buy it for me!"—Heitere Welt.

W. T. Wesson, Ghosenville, Va., druggist, writes: "Your One Minute Cough Cure gives perfect satisfaction. My customers say it is the best remedy for coughs, colds, throat and lung troubles." Ireland's Pharmacy.

From Our Own Omar.
This rose may once have been a maiden's heart
That had its blissful beat, its bitter smart;
This thorn may once have been the side of
The which she tore dry meat and bone apart.
—Chicago Record-Herald.

Kodol Dyspepsia Cure is not a mere stimulant to tired nature. It affords the stomach complete and absolute rest by digesting the food you eat. You don't have to diet, but can enjoy all the good food you want. Kodol Dyspepsia Cure instantly relieves that distressed feeling after eating, giving you new life and vigor. Ireland's Pharmacy.

Triumph of Realism.
Laudleigh—That snowstorm you have painted is wonderfully realistic!
Daubleigh—It must be. A tramp got into my studio one day, caught sight of the picture, and unconsciously put on my overcoat before he went out.—Tit-Bits.

Backache should never be neglected. It means kidney disorder which, if allowed to run too long, may result in Bright's disease, diabetes or other serious and often fatal complaints. Foley's Kidney Cure makes the kidneys well. Fischer Drug Co.

Springs of Mis-Conduct.
"You haven't any manners, Jack; why didn't you offer to escort that young woman home?"
"Oh, I have manners all right; but I didn't have street car fare."—Chicago Record-Herald.

Lewis Ockerman, Goshen, Ind., "De Witt's Little Early Risers never bend me double like other pills, but do their work thoroughly and make me feel like a baby." Certain, thorough, gentle. Ireland's Pharmacy.

Moved Even Him.
Miss Romantic—What a lovely summer afternoon! How resplendent the bright orb of day hangs in the blue vault above!
Mr. Matterfact—Yes, s-s; nice day for a feller to get his hair cut.—Sissy Stories.

EXPERIENCE IS THE BEST TEACHER. USE Acker's English Remedy in any case of coughs, colds or croup. Should it fail to give immediate relief, money refunded. 25 cts. and 50 cts.
For sale at Fischer's drug store.

Holding Her Own.
Sally Gay—How well Miss Langering holds her age!
Dolly Swift—Yes, she looks so youthful as she did 14 years ago, and acts only a trifle younger.—Town Topics.

C. M. Phelps, Forestdale, Vt., says his child was completely cured of a bad case of eczema by the use of De Witt's Witch Hazel Salve. Beware of all counterfeits. It instantly relieves piles. Ireland's Pharmacy.

For Decency's Sake.
"Murdstone, lend me \$100, will you?"
"What for, old fellow?"
"I want to pay my wife's funeral expenses."
"Certainly."
(Writes check for the amount and hands it over.)
"Sorry to hear of your wife's death, Gagsion. When did she die?"
"About a year and a half ago. The young woman I'm going to marry tomorrow says the bill has got to be paid first. Ever so much obliged to you, Murdstone."—Chicago Tribune.

Free! Positive.
Singleton—Do you believe it is possible for one person to hypnotize another?
Wederly—Never met my wife, did you?
Singleton—Why, no. I never.
Wederly (interrupting)—So I thought. Otherwise you wouldn't have asked me such a fool question.—Chicago Daily News.

Loved a Rat.
Prison Missionary—Ah, you have a pet, I see.
Convict—Yes—this rat. I feed him every day. I think more o' that 'ere rat than any other livin' creature.
Missionary—Ah, in every man there's something of the angel left, if one can only find it. How come you to take such a fancy to that rat?
Convict—He bit th' keeper.—N. Y. Weekly.

He Was a Bigamist.
"What brought you here, my poor man?" inquired the prison visitor.
"Well, lady," replied the prisoner, "I guess my trouble started from attending too many weddin's."
"Ah! You learned to drink there, or steal, perhaps?"
"No, lady; I was always the bridegroom."—Tit-Bits.

Clinging to a Good Thing.
"My daughter," said the father of the beautiful girl, "young Milvyns will very likely propose to-night, and—"
"Father," she cried, "I cannot marry him."
"No? Well, put him off for a week. I want to borrow another thousand from him."—Philadelphia Record.

Encouraging Him.
"If I thought that any girl would accept me," casually remarked the bashful Mr. Dolyers, "I'd propose to-morrow."
"Why not this evening?" asked Miss Fosdick, coyly.
The affair will take place in about a month.—Detroit Free Press.

A Talented Man.
Junior Partner—I see you have engaged a new clerk. Is he a good salesman?
Senior Partner—Good salesman? Great snakes! I had to send for the police to prevent him from talking me into taking him into the firm.—N. Y. Weekly.

Little Fitchers!
Mrs. Halsey—You mustn't cry when you cut yourself a little, Harold. Be a man, like your papa!
Little Harold—B-B-But—boo-hoo—I bet you'd lick me if I said the bad things pa says when he cuts himself just a teeny bit, when he's shaving!—Brooklyn Eagle.

Feminist Reproved.
"I suppose," he ventured, "that you would never speak to me again if I were to kiss you?"
"Oh, John!" she exclaimed, "why don't you get over the habit of always looking at the dark side of things?"—Tit-Bits.

Benedict Forgot.
Man is an ingrate. When it's hot his soul to wrath is stirred;
But when it's cool, as like as not, He never says a word.
—Washington Star.

PREPARED TO MEET IT.
When suffering from racking cough, take a dose of Foley's Honey and Tar. The soreness will be relieved and a warm, grateful feeling and healing of the parts affected will be experienced. Fischer Drug Co.

It is said that the late Lorenzo Snow was quite strenuous and athletic in his boyhood. He must have been. He had forty-nine children.
"I had long suffered from indigestion," writes G. A. LeDels, Cedar City, Mo. "Like others I tried many preparations but never found anything that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he used Kodol Dyspepsia Cure indigestion had made him a total wreck. Ireland's Pharmacy.

Tammany at least did one praiseworthy thing in amputating Asa Bird Gardiner from the political situation.
DeWitt's Little Early Risers never disappoint. They are safe, prompt, effective in removing all impurities from the liver and bowels. Small and easy to take. Never gripes or distress. Ireland's Pharmacy.

By the way, have you? If you don't, you can't.
Here is hoping that Sir Thomas Lighton may have better luck in lifting that New York widow.
Do you suffer from piles? If so do not turn to surgery for relief. DeWitt's Witch Hazel Salve will act more quickly, surely, safely, saving you the expense and danger of an operation. Ireland's Pharmacy.

The war against the Filipinos seems to be not the only one at Manila. There is a scarp between the civil and military authorities.

Consumption

Is a disease of civilization. When the Indian was a stranger to the white man he had no name in his vocabulary for this dreaded malady.

Without arguing as to the curability of consumption, it may be stated positively that Doctor Pierce's Golden Medical Discovery cures weak lungs, hemorrhages, bronchitis, deep-seated and stubborn cough, and other diseases which if neglected or unskillfully treated find a fatal termination in consumption. There is no alcohol in the "Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

Persons suffering from chronic disease are invited to consult Dr. Pierce, by letter, for correspondence is conducted under the seal of sacred secrecy. Address Dr. R. V. Pierce, Buffalo, N. Y.

In a little over thirty years, Dr. Pierce, assisted by his medical staff of nearly a score of physicians, has treated and cured thousands of men and women who had been given up as incurable by local physicians.

"Your medicine is the best I have ever taken," writes Mrs. Jennie Dingman, of Rapid City, S. D., "and I feel that I had a bad cough, got so bad, had to be in bed all the time. My husband thought I had died, but he would try Dr. Pierce's Golden Medical Discovery, and before I had taken one bottle of it, I was cured and I have since had no sign of its returning."
Doctor Pierce's Pleasant Pellets cure constipation.

They Could Use Him.
Farmer Krick—Henry writes for more money; says he wants to take fencin' lessons.
Mrs. Krick—Well, fer goodness sake, send it to him, Hiram! It's the study useful thing he's wanted to get. When he comes home we kin jes' set him to work puttin' a new fence front o' the house.—Judge.

A TYPICAL SOUTH AMERICAN STORE.
O. R. Larson, of Bay Villa, Sunday River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about 25 miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of 30 miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps 60. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by all druggists.
