As I See It

By LLOYD P. BLOODWORTH

The political campaign is swiftly growing to a close. In a very few days we will know who are the successful candidates...

We of Lincoln county have a great deal at stake. We need roads, additional school facilities, and a hundred other things. Just who is the best man to give us those things? What party will be most considerate of our needs?

I think we have had less mud slinging during this campaign in Lincoln county than I have ever seen. The candidates have been working hard in their own behalf but they have had few ugly things to say about their opponent.

Again, let me urge every citizen of Lincoln county and New Mexico to think carefully before voting. Vote for the best interests of your county and state.

To Publish Series On Schools

Approximately one year ago the news release went out over the state of New Mexico that John E. Brewton, of the Division of Surveys and Field Services of the George Peabody College for Teachers in Nashville, Tenn., would serve as a director for a board to make a New Mexico Educational Survey in an effort to create an overall picture of the "good" and "bad" in the state school system.

The 1st of October the complete report of the survey board was made public and is arousing too long latent interest among school officials, teachers and parents over the state.

School officials have been given booklets entitled "Public Education in New Mexico" explaining the result of the whole survey. These results are just as important to the taxpayers of the state, pupils, and parents and with this mutual interest in mind the Ruidoso News will begin next week a series of articles explaining the results of the \$35,000 school survey in New Mexico.

Lincoln County Teachers' Ass'n. Meeting Oct. 22nd

The Lincoln County Teachers' Association met Friday morning at 10:30, October 22, 1948, in the Hono Grade School building.

Mrs. Swinney, president, called the meeting to order, and attended welcome on behalf of the teachers to the visitors and guest speakers.

Mrs. Wilson gave a brief talk on the advantages of visual-aid in our program of modern education. Mr. Radcliff, county agent, also made an interesting talk and gave a demonstration of visual-aid with the use of the projector machine.

A very delicious luncheon was served in the dining room, after which the teachers met again to attend to business matters. It was decided that the next Teachers' meeting would be held March 11, 1949.

State's Health Good Report Indicates

The state's health sheet was unusually clean for the period ending October 16, according to information released this week by the State Department of Public Health.

Eddy county only had three marks on the chart, two for venereal disease and one for tuberculosis.

Polio was still being reported from scattered points with Taos, Grant, McKinley and Socorro counties each reporting one case to bring the year's total to 68 cases for the year as compared with 32 at this time last year.

Tuberculosis dropped off considerably in this report, with only five cases being turned in, and one of these was of out-of-state origin.

Only one case of measles was reported. Pneumonia declined from a recent high to only five cases for the period. There were two cases of chicken pox and 8 cases of cancer reported.

No influenza was reported, however, it is probable that there were cases in the state.

"AIRLIFT USELESS" ... Ironically enough, Linda Raspe, four, is carrying bread wrapped in a newspaper whose German headlines say, "Airlift Useless." However, the very bread she is carrying was baked from flour flown into Berlin on "Operation Vittles," official name for the airlift.

Cotton Fires Attributed To Matches

Memphis, Tenn. — (Special) — A marked increase in cotton fires, attributed directly to "kitchen" matches, prompted the National Cotton Council to issue a special fire-prevention warning today to cotton growers, gins and warehouses throughout the 18-state Cotton Belt.

A number of instances have been reported recently to the Council where "strike-anywhere," "non-safety" matches carried by pickers, have found their way into seed cotton, later to start fires in the highly-inflammable raw cotton or during the ginning process.

The large influx of seasonal labor at harvest time brings workers into the cottonfields who are unaware of the constant danger of fire, the Council reminds producers.

"Fire-packed" bales, sources of most gin fires, are also caused by careless smokers, igniting the lint when metal and rocks in dirty seed content strike machinery during the ginning process, defective electric wiring and faulty equipment.

Circle "8" Dance Saturday Night A Masquerade

Everyone in the Halloween mood will want to go to the Circle 8 Barn in Ruidoso Saturday night, October 30th for their Costumed Masquerade Ball starting at 8:30 p. m. with Mr. and Mrs. Melvin Knox and the Navajo Square Dance Club, as hosts.

The hall is being decorated this week with the corn stalks, pumpkins, charms to ward off the evil of Halloween in preparation for the party.

There will be prizes given for first, second and third best costumes and disguises with Mr. and Mrs. Wilbur Coe of Glencoe as judges.

There will also be special door prizes. During the evening everyone will be served refreshments in keeping with Halloween, which is celebrated in countries throughout the world in a somewhat similar manner.

Scott Hagee and his boys will make the music for dancing. The admission for this party will be \$1.50 a couple.

Everyone is asked to come masked to carry out the theme of the party.

El Corral Courts Sell To Mr. Dill

The El Corral Court, owned by Mr. and Mrs. A. W. Shaw and Mr. and Mrs. A. W. Seale, has been sold to Mr. Ray Dill of Las Cruces, N. M.

Warriors Vs. Tigers Sat. In Capitan

The Ruidoso Warriors play the Capitan Tigers in Capitan tomorrow (Saturday) afternoon on the latter's home grounds. This marks the first time that these two teams have met. Many students have signed up to make the trip in one of the school busses, which will leave the high school at 12:30.

Next Friday afternoon at 2:30 the Warriors play their final home game of the season at Hollywood Park when they take on the Hatch eleven.

After outgaining the Cloudcroft Bears consistently last week the Warriors dropped a heart-breaker by a score of 12 to 0. Repeated long gains by Wade Hedgecock and Don Alexander were called back because of infractions of the rules, and the visitors made their touchdowns on heads-up play either directly or as a result of miscues by the local eleven.

The Warriors close their season Nov. 12 with a night game in Tulare.

Campaign For Boys Ranch This Fall

A statewide fund-raising effort will be conducted this fall for the purpose of expanding and developing The New Mexico Boys Ranch over a three-year period. It was announced this week by A. E. Buck, president of the board of directors.

The total goal, area quotas, and campaign leadership will be announced as plans are formulated by a steering committee to be headed by Joe Heaston, executive board member.

Located on a 3,000-acre site in Socorro county some 50 miles south of Albuquerque, the Boys Ranch is a non-profit organization that offers a home and ranch training for underprivileged New Mexican boys regardless of race, color or creed. It has been operated for two years under the supervision of Charles E. Minton, executive director and one of the founders of the project. Members of the board and advisors who make up the governing body serve without pay and are representative of a large area of the state.

Directors are: Glenn L. Emmons, Gallup; Joe Di Liso, Raton; O. S. Greaser, Tucuman; Floyd W. Lee, San Mateo; Roy K. Stovall, Hot Springs; A. E. Buck, Carl Brogan, O. L. Beck, Joe Heaston, Manuel E. Otero, Cecil Pragnell, Joseph G. Ruvaldo, and George L. Tucker, Albuquerque.

Advisors are: Dr. Hugh M. Milton, II, Roswell; Clarence Henderson, Socorro; E. E. Anderson, Professor of E. P. Neale, and Ivan Watson, all of New Mexico A. & M. College; Dr. Joaquin Ortega, University of New Mexico; and Robert V. Boyle, J. R. Clark, John R. Dickinson, Homer Lawrence, A. M. Markham, Ed Flernox, Max R. Salazar, P. V. Woodhead, and R. P. Woodson, Jr., Albuquerque.

C.P.S. Officials Visit Ruidoso

Cal Waggett, Bill Milligan of Ft. Worth, George Johnson of Silver City, and A. E. Grider of Alamogordo, all with the Community Public Service were in Ruidoso two days last week on an annual inspection tour of the plants in this area.

The group went on from here to Lordsburg to a division meeting for the company and Laverne Walkup, Mr. and Mrs. Melvin Knox of the local office will attend the meeting Saturday.

Besides the business meeting in Lordsburg plans have been made to include a celebration for the opening of a new office in that town.

The Ruidoso group will return home Sunday.

Murray E. Morgan of Alamogordo, N. M., is the Democratic candidate for State Senator of District 18 which includes Lincoln and Otero counties.

Tax Figures Show Grocers Take Biggest

Bernalillo county lead the state in September in school tax collections with \$324,272.23. Lea county was second with \$181,263.26, and Eddy was third with \$131,170.87.

As many have suspected, tax collection figures indicate that most of the individual's dollar is now going to the grocer and to the garage man. Total collections in Eddy county reveal that the grocer turned in 19,942 for first place and the auto dealers turned in 12,045 for second place. Apparel dealers only collected 2,747 in the county for September.

The state picture is much the same with grocers turning in \$233,320, car dealers \$155,512, and natural resources \$148,633 for the three top spots.

On a percentage basis, the grocer collected 20 per cent of the total tax for the period, as much as all other retail stores except furniture, apparel, and auto dealers.

Tax on natural resources in Lea county yielded \$98,179 in Lea county as compared with \$20,811 in Eddy, and \$16,424 in Grant. These three counties were tops in the state. Sierra and Luna counties each turned in \$1 for tax on natural resources.

Total school tax collected for September amounted to \$1,386,042.24, which was boosted to \$1,399,825.32 by penalties and oil conservation payments.

Turn In All Hospital Money!

Mr. N. C. Calvert, treasurer of the Ruidoso-Hono Valley General Hospital Drive announced this week that although contributions are coming in daily some of the outlying communities have not reported in, and asks them to report in this week.

The committee wants every penny possible in by Nov. 1st so this money will be matched by federal funds.

There is still time to contribute if you have not done your share. . . your committeemen are still working in every community participating in the drive.

Carnival Profitable For Fund

The second annual All-School Halloween Carnival was held last Friday and Saturday nights at the Ruidoso Gymnasium and was attended by a large crowd, especially the first night.

Feature of the event was the crowning of Billie Jo Dean, senior class candidate, as Carnival Queen. Billie Ruth Simpson of the 8th grade was runner-up in the contest.

Those present enjoyed many interesting games and booths. Proceeds from the carnival and queen election go to the Ruidoso-Stetson athletic equipment fund. However, receipts from the Bingo game went to the seniors for their annual class trip. Net profit for the athletic fund, after all expenses were paid, was \$679.63. Vera Cooper, senior class president, stated that the seniors got a good start on the funds necessary for their trip and expressed appreciation to the many concerns who donated prizes for the booth.

Thomas Crume, superintendent of the Ruidoso-Stetson School District, stated that all concerned are deeply appreciative to the many individuals and groups who participated in organizing and presenting the carnival, and to the hundreds of Ruidoso and Valley residents whose presence at the affair made it a success.

"Bonnie's Coffee Bar" Opens Nov. 2nd Election Day

Mr. and Mrs. Claude Webb, Ruidoso residents for the past 17 years, have announced the opening date of "Bonnie's Coffee Bar" in downtown Ruidoso next to Pat's Taxi office, for November 2nd, election day.

"In making this announcement Mr. and Mrs. Webb invite all of their friends to visit them on the opening day for free coffee and say "Stop by after you go vote."

Although all of their equipment has not arrived, when the entire "coffee bar" is complete they will serve meals, will give fountain service, and have a stock of sundries including a cosmetic bar.

Mr. and Mrs. Webb were in the drug store business for five years before they came to Ruidoso.

So don't forget, "free coffee all day Nov. 2nd at Bonnie's Coffee Bar."

Hunters Attention

Mrs. Jim Hale, supervisor for the hot lunch program in the Ruidoso-Stetson School District, would like for anyone who has more wild game meat than they can use would like to donate it to the school lunch rooms to please contact her or Mr. Thomas Crume.

Mrs. Hale said "The front quarter of deer is so often never used by the hunters but would be a great help in planning fresh meat on the menu for the school children. Also many hunters hunt for the sport and give to friends their game. We can use any of it anyone cares to give us, and will be most grateful."

COTTON LOANS

Farmers who are unable to or do not wish to place their cotton in warehouses may now secure Commodity Credit Corporation loans on farm-stored cotton.

Forms and instructions for completing these loans may be obtained at the County Agricultural Conservation office.

County loan rates for farm-stored cotton are the same as if the cotton were stored in approved county warehouses.

REA APPROVES LOANS

The Rural Electrification Administration has approved loans totaling \$150,000 to two REA cooperatives in New Mexico: \$80,000 to the Mora San-Miguel Electric Cooperative at Mora and \$70,000 to the Continental Divide Electric Cooperative at Gallup. Both loans will be used for the completion of previously-approved construction.

RIDS HERSELF OF HICCOUGHES . . . Mrs. Mary Vitale, 24, of New Brunswick, N. J., is visited by her husband, Salvatore, after she underwent an operation to cure her hiccoughs. She had the hiccoughs for three years. Doctors now say that she'll be okay. They crushed her phrenic nerve in the operation.

600 Voters Out Will Mean Two Polls In Future

If 600 registered voters go to the polls in the Ruidoso Precinct on November 2nd hereafter there will be two polling places here instead of the one at the Ruidoso Grade School.

Ruidoso has grown in size to where two polling places would be justified and would make the entire election easier for those who hold it. Voting could be finished in quicker time and without having to wait.

Remember the goal is 600 out on election day. There are between 600 and 700 registered voters. If they all do their duty we will get the two polling places.

Davis Bar To Hold Open House November 2

The Davis Bar and Club House will hold an open house for their friends and neighbors Tuesday evening November 2. The purpose of the affair is to receive election returns. Radios will be installed and a large blackboard will be placed on the wall so that the returns can be posted as they come in. Denny Davis announced that he would serve barbecued turkey sandwiches and hot coffee. Every one is invited and will be no charges for the sandwiches and coffee. Returns from the election will be placed on the board beginning at 7 o'clock.

Heavy Drake is a long time resident of Lincoln county. He came here first after World War I for his health and liked the place so well that he has continued his residence here.

In speaking of his campaign Mr. Drake said: "I want to be elected to the State Senate in order that I may render a service to my home county as well as Otero county. I favor a more liberal assistance for the aged and believe that we will never receive the attention we should have in southern New Mexico until we have a more equal representation in the legislature. More attention should be given to the problems of the veterans. There are many things to be done and I promise the people of this district that I will give my very best efforts to getting them done."

What would happen in our community if no one cared enough to shoulder the responsibility that it takes to get things done. If there was no one to see that the spiritual life of the community was developed and good churches were built—if no one cared enough to see that there were good schools built—if the recreation for our boys and girls was given no thought—if someone did not give some time and planning to the Boy Scouts—if no one cared enough to give of their time and means to build a modern hospital—if no one took the pains to see that a ski course was made possible for the large number of winter visitors.

What would happen if all of our citizens took the same course that a few do and just thought of themselves only—just looked after their business and let everything else go—just thought of the few dollars that they might make and put nothing back into the community that helped them to make it.

What would happen if we had no Chamber of Commerce and Lions Club? If nobody met in committees and tried to work ways and means of getting something done for the community—if everybody said they were too busy to help—if there were no Woman's Club to look after the cultural and social development.

What would happen if people did not care enough about the welfare of their county and state to go out and vote on election day? If they were willing to let the political life of their State and Nation be controlled by professional politicians.

What would happen if those who are willing to give of their time stopped to listen to the criticisms of the do-nothings—if the men and women who are far-sighted and have vision just refused to work because they might be talked about—if because some folks did not like the way things were being done they tried to tear up the entire program—if because some people were not given places of prominence they would refuse to work at all.

If all the things mentioned should control the actions of our people there would be nothing done at all. Thank God, there are a lot of people who refuse to be satisfied until every effort has been made to get the very best accomplished for our community. They refuse to stop until our school system is the best and until our churches have ample facilities to take care of their growing congregations. They are men and women of far vision and want to see our community grow and prosper and have what it takes to attract many here. Yes, we have the type of citizens here who are looking far into the future.

In this generation of the organized an individual might as well get into some organization or expect to get trimmed pretty closely and rather regularly.

It's about time for us to issue our annual note of warning to hunters who insist upon shooting at whatever moves in the bushes and succeed in killing their companions.

GLENCO GLANCES

By SYDNEY BONNELL

Mrs. Ida Brooke (Mary Bonnell) and small son, Pat, from Albuquerque visited their folks Monday. Mrs. Dorothy Ferris accompanied them from Captain. The Brooke's have returned from California, where they lived for several years and have bought a home in Albuquerque.

The benefit dance at the Circle 8 Barn was a grand success. Big crowd, cakes selling from \$10.00 to \$20.00 and every one cheerfully. Music was good, as usual, with all the musicians donating their talents and Melvin Knox, as master of ceremonies, really put it over.

This ended the dances and festivities scheduled for the Hospital Fund and when the committee has time to count the money, hope it will be a good sum.

Mr. and Mrs. Bloodworth and Mary Nell Taeger, deserve great credit for their untiring efforts.

Mr. L. W. Storm and Dan were here for a short visit, then returned to Denver.

There was a delightful dinner-party at the Wilbur Coe home, Saturday night. Many guests from Roswell and surrounding communities and neighbors.

Mr. and Mrs. Casey and her mother, of the Plaza Hotel in Roswell, came up Sunday to see the mountains and do a little shooting. Promised to come back Saturday, for the dance.

Mr. and Mrs. J. V. Tully, Jr., went to Albuquerque to see the ball game.

Mrs. J.V. Tully, Sr., has been on the sick list but was out to church Sunday.

The Glenco Women's Club will meet the first Wednesday in November (3rd) and Mrs. A. F. Roselle of Carrizozo is coming to show her button display. Come and see it.

There will be a benefit dance at Bonnell Ranch Saturday, Oct. 23rd. Every one welcome.

Mr. and Mrs. Leroy Perry were here from Morton, Texas, visiting their folks for the weekend.

They were only passing through the country when they started seeing Ruidoso signs and on reaching the Junction turned up the canyon.

They had never been here before but will be back. They were thrilled with the beauty of Ruidoso and amazed at the wonderful air of friendliness and hospitality.

Mr. and Mrs. Burrows spent about an hour locating someone with the Chamber of Commerce (talked with Lloyd Bloodworth) to get information, folders, etc. and to tell him of their impressions.

Indian Pueblo Protests Move To Force Ranchers Off Land

Juanito Medina, governor of the Zia Indian Pueblo of Bernalillo together with his three councilmen, Juan A. Pino, Lorenzo Medina and Juan J. Shije, have officially protested the proposed extension of the Alamogordo Bombing Range. In a letter directed to the "New Mexico Stockman" the group said:

"The Council of Zia Indian Pueblo is writing you concerning the proposed extension of the White Sands Bombing Range."

"As stockmen of New Mexico, we desire to express our opinion in this plan and to state that we are wholeheartedly opposed to it for two reasons. First, for economic reasons, and second for humane reasons."

"From an economic standpoint this extension would be detrimental to all stockmen of New Mexico. As a state, New Mexico is already over-grazed. Public domains and federal grants are carrying their maximum loads. Should the ranchers of the White Sands area be forced off their land they would have to crowd into the already over-stocked range, or cease to be ranchers. Either course of action would be detrimental to themselves and others."

"From a humane standpoint, there are no people better fitted to understand the tragedy of losing their lands than the Indians. Money may be paid for land taken away, but it will never replace their homes or heal the hurt of replacements in the

minds of this generation or the generations to come. The Indian people today are a living proof of this fact. It will be a regrettable affair if the citizens of America must be forced into this position."

"There will be a feeling of insecurity among all rural people of New Mexico if this portion of land is taken away from its rightful owners. The right to live in a chosen place — a freedom bought with the blood of New Mexico pioneers — is threatened by the proposed extension of the White Sands Bombing Range."

Genevieve Hensley Dist. Pres. FHA

Mrs. Mildred Ramey, head of the home economics department of the Ruidoso High School, was elected as District Advisor. Janey Graham was elected as song leader for the district.

NO CHANGE

Recent statements by Republican leaders on the question of relations with Russia are probably designed to prevent Dictator Stalin from getting the idea that a change in administrations will mean a change in policy.

From where I sit... by Joe Marsh

Get The Truth!

Called on my good friend "Cappy" Miller, who edits the County Bee, the other day. And hanging up on the wall of Cappy's office is this slogan for his paper:

"Remember there are two sides to every question. Get both sides. Be truthful."

A good slogan... not just for a newspaper—for people, too. Because there'll always be two sides to every question: the side of those who vote one way, and those who vote another—the side of those who enjoy a temperate beverage like beer or ale, and of those who swear by nothing but cider.

And from where I sit, once you've got both sides—and faced them truthfully, you realize that these differences of opinion are a precious part of what we call Democracy—the right of the individual to vote as he believes, to speak his mind, to choose his own beverage of moderation, whether beer or cider.

**Patrick J. Hurley
For U. S. Senate**

PATRICK J. HURLEY

Patrick J. Hurley, who has waged a vigorous campaign for the United States Senate rose from cow puncher to the position of one of the most distinguished men in the United States. His story is one of success that can happen only in America.

Hurley was truly a New Mexico pioneer, establishing a home in Santa Fe in 1919, when he started the first commercial oil refinery in the state.

Under President Hoover Pat served as Secretary of War and with World War II saw more active duty. He was assigned the foredoomed task of running supplies into Bataan. He was wounded in a bombing raid on Fort Darwin, Australia.

Later he became President Roosevelt's personal envoy, Minister to New Zealand, Special Ambassador to Russia, Presidential Advisor at the Iran Conference, Military Ambassador to China, Personal Representative of the President to 21 different nations of the world, and finally Ambassador to China.

Hurley says "I appeal now, as I did in my last campaign, to the great unorganized majority of the citizens of New Mexico whose votes are not for sale. . . . I seek the support of those who do not corrupt the ballot. . . . those who support liberty and self government at home, and abroad."

WILL T. COE

GLENCOE, N. MEX.

CANDIDATE FOR RE-ELECTION STATE REPRESENTATIVE 16th DISTRICT REPUBLICAN TICKET

**Manuel Lujan
For N. M. Gov.**

MANUEL LUJAN

Manuel Lujan has an outstanding record as three-time mayor of Santa Fe behind him, and in running for governor of the state of New Mexico is backed by a recognized executive ability, a knack for getting things done, a reputation for personal honesty and integrity, and a deep and abiding faith in the future of New Mexico.

Born on a farm near San Ildefonso, May 21, 1893, Manuel Lujan inherited a love for the soil and a deep interest in agriculture which he has never lost. His education was acquired at St. Michael's in Santa Fe, what is now Highlands University at Las Vegas, and at the New Mexico A. and M. College in Las Cruces.

With a family of nine children, a successful business of his own, a deep interest in our schools and in agriculture, as well as a desire to increase the standards of living for all of the people of the state, Manuel Lujan expresses his personal and political philosophy in the following words: "As governor I will make a conscientious attempt to administer the affairs of this state in such a manner as to bring the greatest benefit to the greatest number of our citizens in all parts of our state. I shall count myself rich, if through my work and efforts as governor, I am able to add to the happiness of our citizens and the prosperity of our state."

"I wish to see New Mexico grow and prosper. As governor I shall see this state as a great community of fellow Americans rather than divided into groups and classes. I shall see our people with problems peculiar to the section of the state in which they live, but with common interest in the welfare of the whole state and in the future of our nation. I shall work for the benefit of all, not the interests of a few."

**L. A. Hendrix
Native Of State**

L. A. HENDRIX

L. A. Hendrix, Republican candidate for Lt. Governor, is a native New Mexican. He is probably the oldest political associate of the late Gerald Champion and is known in his own Otero County as the heir of the Gerald Champion political ideals and standards.

Hendrix was born on a ranch near Cloudercroft, N. M. 46 years ago. He attended school in Cloudercroft, Alamogordo, and graduated from the New Mexico A. and M. College in 1923.

At the present time he is associated with Eber McKinley of Alamogordo in the Hendrix-McKinley Motor Company. He has shown himself a leader in business and civic affairs since he was a young man. In his home county he has served as secretary-treasurer of the Otero County Electric Cooperative, R.E.A. project, in 1940; past president and director of the Reglary and Chamber of Commerce; board member of the Cloudercroft Director; wartime mayor of Alamogordo; on scouting committees; and county budget commission among other civic undertakings.

PAUL DAVIS

With a family of nine children, a successful business of his own, a deep interest in our schools and in agriculture, as well as a desire to increase the standards of living for all of the people of the state, Manuel Lujan expresses his personal and political philosophy in the following words: "As governor I will make a conscientious attempt to administer the affairs of this state in such a manner as to bring the greatest benefit to the greatest number of our citizens in all parts of our state. I shall count myself rich, if through my work and efforts as governor, I am able to add to the happiness of our citizens and the prosperity of our state."

**Herman G. Baca
Rep. U. S. Congress**

HERMAN G. BACA

Republican congressional candidate, Herman G. Baca, a veteran of both World Wars, was born and raised in Belen, Valencia County, and has lived all of his life in New Mexico.

At 18 Baca enlisted in the United States Navy as a seaman when the first World War broke out. He saw service in both the Pacific and Atlantic in the destroyer service, and at the close of the war returned home to Belen to become publisher of the Belen News. Later he purchased and became publisher of the Taos Review, and is well known in newspaper circles throughout the state.

In 1941, because of his linguistic ability, Baca was appointed as "special agent" for military intelligence and in 1942 was commissioned as a captain in that branch of the army. He served in South and Central America on year, spent six months in the United States on domestic assignment and then shipped across to serve two and a half years with the fighting forces in Europe.

Baca's personal knowledge of New Mexico and its people, his recognition and warm interest in the problems of the state and his known friendship for the working people of New Mexico, together with his interest in the business and agricultural growth of the state, combine to make him pre-eminently slated for a seat in Congress.

TO THE VOTERS OF LINCOLN COUNTY

Before you cast your ballot take a few moments to consider what the present state administration has done for Lincoln County.

Take for instance the matter of roads, Take 54... we have a nice road now from Tularosa to Carrizozo. On 350 in Socorro County from San Antonio to Bingham we have a good road. True, it is not in Lincoln County... however, it connects our county and we derive the benefits of it.

On 350 from Carrizozo towards Capitan we have eight miles of new road. At Ruidoso there is a survey now in process to build a road from Ruidoso to Angus and thence to Capitan or Carrizozo.

We owe all this to the present administration, and remember friends, Lincoln County has been a Republican County. Let us show our appreciation this election day and bring Lincoln County back into the Democratic fold. We have a wonderful county ticket, as well as the State ticket, each and every one of them are well qualified for the jobs that they are asking you to give them.

In conclusion, let us leave you with this parting thought...

REMEMBER YOUR FRIENDS.

Very truly yours,

Charles L. Rose Specks To Voters

CHARLES L. ROSE

Charles L. Rose, running for re-election for State School Superintendent on the Democratic ticket, was in Ruidoso last week to speak during the Democratic rally at the Navajo Lodge.

Rose, who has fulfilled the many duties of his position well, in asking for re-election stated some facts and figures regarding the operation of state schools at the present time in New Mexico. These facts and figures present an ever brightening picture of the schools systems throughout the state.

Rose said, "Once I am elected to office there are no Democratic or Republican children. I work for the school children of New Mexico. When the world depression came on I was teaching in a Curry County School... one only able to run five months a year and dreamed of getting funds in the State of New Mexico for the schools and the development of the educational system."

"Today the picture is quite different. Every day over 950 school buses throughout the state take 30,000 school children to their school and back home. This year, \$350,000 was given to the State Board of Education for free text books from the Mineral Lease Fund. Our school teachers come from everywhere and are second to none, in education, degrees, ability. The teachers salaries in New Mexico are now a minimum of \$2,400 to a maximum of \$3,600 annually. 80 per cent of the funds spent on the schools of New Mexico come from the 2 per cent school tax paid.

"Last year \$125,000 was added to the free text books over what they had ever been before."

"Our next, and most pertinent problem is the need for more buildings. Our prime object of endeavor is a state building program for schools, \$40,000,000.00 is needed for immediate relief."

"We need revision of curriculum in our high schools, year around recreational programs for the teen-age groups, kindergartens to make possible adjustment of youngsters before they start into grade school work."

"Communism will be beat down in this country. Citizenship in the schools, scientifically planned progress of our schools will help to do this. The youth

of today must have more than an average amount of education to have a world wide view of the situation they are asked to understand and combat. Let's save the peace we have won by developing children through education."

"A big job, and one I have enjoyed most, is providing 6,000 boys and girls now in high schools, colleges, trade courses with educational facilities under the G. I. Rehabilitation Program for veterans of World War II. This program will produce free people. You cannot drive an educated person."

FRIENDS AND NEIGHBORS OF GREEN TREE

My mother, Dad and I have you alone to thank for saving their house and all our possessions when the fire struck our home at 4:30 a.m. Saturday.

It is a frightening way to make one realize and appreciate what they have accumulated over a period of years, and how it would be to have it all taken away in such a short time. We were so fortunate that no one was burned or hurt, and that our losses were small in comparison to what they could have been.

It should also make every man, woman and child understand just how much we need a water system in Green Tree. Those who were there saw how the men had to gather garden hose and tie on to the water faucets in the neighbor's yards, and most of them frozen, and just how it could have been, if we had a water system and fire plugs.

for the newly organized volunteer fire department with Claude Eckert acting as chief, a former Ft. Worth fire chief, and can say they handled the fire as if it were their very own house they were trying to save.

Let each and everyone think of the safety of our families and homes and get behind this fire department and water system. We all know numbers of houses here that don't even have water, and some who have water only part of the time.

Here's How This UNIQUE TREAD — the Best of Your DRIVING COMFORT

STRAIGHT-LINE STOP—Even on wet, slippery pavements. The mechanical action of the seven center ribs wipes away water film, making a dry track for the tire to grip.

POSITIVE TRACTION in mud, snow and sand. No weaving or rear end sideways.

FASTER STEERING—Incurved by broad stabilizer ribs (two on each side of the tread) which give remarkable stability at high speeds; prevent dangerous side-slipping on curves.

SILENT RIDE. No knobs or blocks of rubber to bump the road, causing vibration of fumes.

LONGER MILEAGE. Gates Flex-grip tread reduces tread slippage to a minimum, giving thousands of extra miles of wear—and a real saving to you in tire costs.

BUILDING COSTS

Home-building costs have gone up five per cent in the last six months but this has had little effect on the construction boom. Around 1,000,000 homes or apartments have been started this year. Of the increase, labor costs accounted for the biggest proportion of the rise.

MOTOR VEHICLES

Foreign shipments of U. S. motor vehicles moved upward slightly in July, although the year's total so far is substantially below that of the same period of 1947. In July, 356,585 passenger cars, 18,531 trucks and 65 coaches were sold for export.

DEBT

The public and private debt of the country jumped almost \$17,000,000,000 last year to a record total of \$410,000,000,000, according to the Commerce Department. All types of private corporate and individual debt rose during the year and more than offset the continued decline in the debt of government agencies.
