Dr. and Mrs. Kopping left last week end for Mexico City and I have been told they plan to go on to Acapulco. He is spending a well earned vacation in an ideal fashion.

Took part of my family to White Sands last Saturday—Play Day. Gets very warm there around noon. Several people from here went too.

Mrs. Nellie Smith had as her guest Mrs. Edith Miahoo. Mrs. Miahoo has retired from the Nursing Service and has gone on to Columbia, S. C. Last Sunday several of the nurses here gave her a picnic at White Sands.

Stopped in to see Charlie Reed. He was playing a chess game with Toohy. Usually there are lots of puns passed between Charlie and me, but we couldn't think up anything.

B. Glenn returned from a few days vacation away from "the sack".

Jean Sanchez came home for the week end from Hotel Dietl. I didn't see her but her mother told me she is still doing well in her training.

Mrs. Sanchez (Carolina to all of us) says she is feeling better now than she has for some time. She told me she had a letter from Alfred and that he has received another promotion. He is a Petty Officer second class as a result of an examination taken last January. Only a parent can understand the good feeling that comes from such news as that.

Mary Anne Cox was home for the week end.

Mr. and Mrs. Elmer Bible from Dexter were visitors at Ray Bible's home over the week end. Mrs. Bible is Ray's sister.

The "Drawbridge Club" met at Adolph Wilson's home last Friday night.

You should see the things Albert Pearl is making out of seashells. He is a recognized artist in the work, but has gone into some new designs. His work is on display at the Craft Shop here and is worth seeing.

Several patients here have told me they greatly appreciate the efforts on the part of the editors to get the papers here.

Question Dept: "Emulate the turtle. He accomplishes nothing unless he sticks his neck out".

The column is a little dull this time, don't you think so? The items are OK, but the expressions are not so hot. Better luck next time.

Mrs. Charlie Peebles is visiting in Roswell this week.

The little Billberry twins have been named Linda Sue and Mary Lou. I think their names are very sweet and I'm sure they are too.

This Spring weather must be getting everyone down. We've been having some nice warm days but the nights are pretty cold. I heard that the mercury dropped to 1 degree below zero one night last week. I guess this accounts for the lack of news this week. Come on everyone let's get over our Spring Fever and get some news in.

EDITORIAL

On Saturday the citizens of this school district will go to the polls and vote on bonds to build additional facilities for our school system. It is hoped that the bond issue will carry by a good vote and that politics in any form will be kept out of the election.

No community is, or can be, any stronger than its schools and with a growing community such as ours it becomes our duty to see that our schools keep up with our progress. We have a good school system and competent men and women teaching our youth. We also have a splendid school board and certainly they should have the full support of the citizens of the community.

The increase in taxes will be negligible and certainly if we are to continue the development of our school it becomes our individual duty to support the bond issue. The greatest investment any community has is its youth. We must not fail them next Saturday.

Lincoln Girl Scouts Put On Minstrel

The newly organized Girl Scout Troop of Lincoln, put on a Negro Minstrel that was enthusiastically received by the large crowd that attended.

As a result of the show the Scout Troop made \$74.00 which will be used to buy uniforms for the girls. There are 10 girls in the troop at present and they are

quite anxious that every girl have a uniform.

Mrs. Jeff Dockray is the scout leader and she wishes to express her appreciation to all those through Lincoln county who helped in any way to make the minstrel a success. The Scout girls appeared in the FFA Talent show at Capitán on April 12 where they won first place with some of their number from the minstrel. The prize money was also put into the uniform fund.

Hotel Man Tells About The Smartest Move He Ever Made

It certainly gives you an awful sinking feeling to wake up and discover you're losing interest in your work and in life in general. That's exactly what happened to Tommy Allen, Hotel Peabody, Memphis, Tennessee. But he acted quickly; he hurriedly back

on the track in a hurry, when he heard how HADACOL was helping folks who were rundown due to a deficiency of Vitamins B₁, B₂, Iron and Niacin.

The wonderful results prompted him to write us a letter about his experience. Here's what he had to say: "I am a young man twenty-nine years old and have been engaged in hotel work for the past four years. I had no appetite and was losing weight. I was constantly sick at my stomach and nothing I ate agreed with me. After eating,

my stomach would become bloated and feel uncomfortable. My condition was so bad that I began to lose interest in my work and life in general. I kept hearing about HADACOL and I decided to try it. Believe me that was the smartest move I ever made. After taking two or three bottles, I began to feel better and now after taking HADACOL for two months I feel fine. No more am I tormented with stomach distresses. Truly I can't begin to tell enough about HADACOL. I intend to keep on taking it for a long time."

Thousands have found real help, real hope for tomorrow, by relieving the cause of their sickness when due to a lack of Vitamins B₁, B₂, Niacin and Iron, with today's great HADACOL.

These precious elements are supplied in a quantity greater than the minimum daily requirements. And HADACOL provides helpful quantities of Phosphorus and Calcium, too. They're all in a special, liquid form, already dissolved for quick, easy, absorption in the system.

Ladies Guild Have Benefit Dinner

It is generally believed that a banquet or benefit dinner is usually not much more than something to whet the appetite for a dinner at home. The Ladies Guild Spaghetti dinner last Saturday night was certainly an exception to that belief. The servings were excellent, the tables nicely decorated and altogether, the dinner was perfect in every detail.

At one end of the Bonita Club room on a permanent fixture built on the order of a bar the ladies had arranged the plates, spaghetti, sauce, an excellent slaw, plates of small rolls, butter and pickles. On each of two other stands stood a coffee urn and a big container of punch. We all filed, cafeteria style, past these things and received generous servings of everything we wanted.

Down the length of the room seven picnic type tables were placed, each covered with a white tablecloth. In the center of every table a potted red geranium had been placed and on either side of the flowering plant, there was a rustic candle holder containing a red and white candle. This lighting, along with the small ceiling fixtures, gave the room the atmosphere of an exclusive tea room. At the opposite end from the principal food items there was a table loaded with pies, cakes, cookies and candies. These items sold for very low prices and provided an excellent dessert to complete a perfect dinner.

The guests by no means were local people alone. Several came from Carrizozo, Lincoln, Hondo, Ruidoso and Capitan, and I am sure none left disappointed in having attended. It is estimated conservatively from the tickets taken at the door that about 130 people came in to eat.

The event was so successful that probably other similar kinds of entertainment will be planned in the future.

Farmers, Housewives Must Make Social Security Reports

"For the first time, farmers and housewives will be making social security tax reports on their regular employees," J. Hester Strickland, Manager of the Roswell Social Security Administration office has stated. "These reports are due in the office of the Collector of Internal Revenue, Albuquerque by April 30."

"You farmers should include on this first report all farm hands (including workers in your farm homes) who have been with you since October 1, 1950; who have worked at least 60 days in the January-February-March, 1951, quarter; and who have been paid at least \$50 in cash wages during January, February and March."

Housewives should include in this first report all domestic workers who have worked at least 24 days during October, November and December, 1950 or 24 days during January, February and March, 1951; and who have been paid at least \$50 in cash wages during the January, February March quarter. A part of a day counts as a whole day in considering the 24-day test.

Extension Club To Meet April 25

The Ruidoso-Hondo Extension Club will meet April 25th at 10:00 A. M. at the home of Mrs. Victoria W. Limacher for a covered fish dinner. Landscaping and Gardening will be the topic of the program, presented by Mr. L. G. Gibbs, Extension Horticulturist. The Roll Call will be answered by the discussion of "Our Favorite Flower". Hostesses for the occasion are Mrs. Elzy Perry, Sr., Mrs. B. J. Bonnell and Mrs. Limacher.

Will Stock Ruidoso For Fishing Season

State fishing licenses and Indian Reservation permits can be purchased at the Ruidoso Dry Goods, the Ruidoso Drug Store and Bonnell Hardware Company. The Indian Reservation permits can also be had at the entrance of the reservation. The State Game and Fish Department has promised another load of legal size fish up this way before fishing season opens May 1, 1951.

Foot and Mouth Conference April 24

Progress of the program to completely eradicate Foot and Mouth Disease in the Republic of Mexico will be reviewed by the National Advisory Committee to the Secretary of Agriculture on this problem at a special session in Albuquerque April 24. Albert K. Ditchell, Albert, Chairman of the Committee, who is now making an extensive field inspection of the situation south of the border, will preside at the meeting.

The meeting was called simultaneously with an announcement from the U. S. Department of Agriculture that Gen. Henry H. Johnson, co-director of the Mexican-United States Commission to eradicate the disease in the Republic of Mexico had resigned, having completed the organization and vaccination program for which he was employed. Only one outbreak has been reported in the last 16 months, which was in December, 1950. Johnson asked that his resignation be accepted on May 1, in order to return to his executive position with an oil company in Houston, from which he was on leave. He is expected to attend the Albuquerque meeting.

Pine Lodge Assn. Improving Their Resort Area

In an interesting interview in Capitan last week with C. M. Francis of Pine Lodge (on the North side of the Capitan Mountains) much was learned of the rapid development of the area as a resort town.

Mr. Francis, along with David Dunn of Midland, Texas; Frank Horber of Gloucestertown, N. M.; George Forbes and Miss Madge Engles of Roswell and T. N. Wallace of Lubbock, owns the Lodge in the community. He and Mrs. Francis operate the lodge which has five housekeeping cabins and a dormitory, and a dining room open all the time. In addition to the lodge there are 21 privately owned cabins in Pine Lodge and more are being built all the time.

In the interests of those who might desire to come to Pine Lodge the association has personally raised the money to build a series of dams on their little stream to improve fishing there. The Forest Service and Game Department, under the direction of Dean Earle and Bill Humphries, come in and constructed the first dam for them, explaining the advantages. They were immediately sold on the idea and are going to start with the construction of ten such dams.

In telling of their community Mr. Francis stated that they have lots of dances during the summer season with good music and lots of fun for all. They had one about two weeks ago and plan more soon. He was interested in having Pine Lodge items in the Ruidoso News and said that he and Mrs. Francis would act as reporters there. He subscribed to the Ruidoso News.

Boys' Ranch Growing Fast

The New Mexico Boys' Ranch, 20 miles south of Belen, N. M. is "growing up" fast with the addition of needed facilities.

Since recent occupation of a new dormitory, the membership of the ranch has more than doubled. On April 1, Manager Cecil Pragnell reported 39 boys from 16 New Mexico communities.

Two more were added the first week of April and eight others have been approved by the Committee on Admissions and Tenure. Albuquerque tops the list with nine boys at the ranch, but Clovis is a close second with seven. Santa Fe has five, Gallup, Roswell, Artesia and Tucuman each have two each and Doming, Socorro, Truth or Consequences, Escondido, Carlsbad, Portales, Hobbs, Las Cruces and Cuba each have one.

E. Buck, Albuquerque, president of the board of directors presiding at the recent enrollment will be increased to the present capacity of 65 as soon as possible.

The physical plant is being revamped along with the growth in enrollment. The old school building has been moved off the hill to the valley, near the new dormitory, and is being converted into a kitchen and dining room which will accommodate about 100 boys. Equipment is in sight for a laundry. The main building on the hill will be used for office space, living quarters, work shops and library. Twenty acres of land have been cleared for a garden.

Carrizozo Seniors Give Play Tonight

"Ever Since Eve" a three-act comedy by Ryerson and Clements will be presented in the school auditorium by the Senior Class of Carrizozo High School on Friday evening April 20, 8 p. m. Because of the fact that there were not enough seniors to completely cast the play, five faculty members are also taking part.

Capitan Senior Class Play

A beautiful girl in distress, a romantic young writer, a crazy uncle who tries to kill the writer, a ghost who appears at midnight, a deaf and dumb woman with hypnotic power, the beating of war drums and a haunted house. Those are only a part of the things you will hear about when you see "The Swamp House", the three act mystery comedy which is to be presented by the Capitan Senior Class on Friday, April 20th at 8 p. m.

If you are a mystery story addict (and who isn't?) you will want to get your ticket early for everybody is going to see what happens in "The Swamp House."

Capitan VFW Post Installs

Norton Pepper Post 7688, Veterans of Foreign Wars and its Auxiliary held a double installation ceremony in an open meeting Sunday afternoon, April 15 in the VFW Home at Capitan. Mr. Manuel Armijo, Department Commander, was the installing officer for the post officer and Mrs. Omega Briscoe, Department President of the Auxiliary installed the auxiliary officers.

The outgoing Commander called the meeting to order at 3 P. M., the installing officers took their places at the speakers stand and proceeded with the ceremony of installing Raymond Burnett as Post Commander and Mrs. Jackie Burnett as President of the Auxiliary. Their subordinate officers were duly sworn in and charged with their duties and obligations as officers in the organization.

Both Commander and Mrs. Burnett have been active in VFW affairs for years. Commander Burnett was one of the first two men who established the local Post and later became the Department Senior Vice Commander.

A record number of visitors was present at the ceremony. Usually there are few people from outside the immediate jurisdiction of the post who come to watch installations, but this time there were far more than ever before. The fact alone attests to the popularity of the new officers. Many people prominent in Veterans affairs were in attendance.

At the close of the installation Mrs. Briscoe called the Past President of the Auxiliary, Mrs. L. D. Fish to the speakers stand and presented her with the Past President's pin. Mrs. Fish then presented a gift to Mrs. Briscoe on behalf of the members of the Auxiliary. Commander Burnett made a brief acceptance speech in which he stressed the importance of an ordinary member in any Post and acknowledged the fact that without really active members no Post can prosper.

Voleta Kilgore Tells Of Interesting N. M. Missions

(By Voleta Kilgore)

The early missions established in America by the Spanish for the dual purpose of holding the Western Hemisphere for Spain and with the help of the Franciscan friars, are a source of unending interest and wonder to the civilized world. Those old missions and mission ruins that were centers of pulsing life 500 years ago are the chief sources of history of southwestern United States today—history that fires the imagination and tugs at the heart strings as does that of no other section of our country.

Although missions were built from Texas to California, the missions of New Mexico are unique in many ways. They are the oldest in the United States, some of them antedating by a century and an half. They were built almost entirely with Indian labor, the oldest ones by the Pueblo tribes, who were more intelligent and artistic than were the lower class Indians of California for whom the Spanish constructed Mission churches of a much plain and poorer type.

When Onate came to colonize New Mexico in 1598, he brought with him the Franciscan order, who immediately made plans to establish missions among the Indians. By the time the Pilgrims landed in New England in 1620, Mission building in New Mexico was well established and flourishing. The Missions covered an area from Pecos on the East to Zuni on the West and extended north up the Rio Grande as far as Texas. By 1617, there were said to be 14,000 Indian converts and eleven churches, had been established. By 1630 there were 50 friars at work in 25 Missions and the number of converts had increased to 60,000.

When Father Perea, great Mission builder, died at Madrid in 1639, the Mission building program had reached its peak. Forty Missions had been established. This remarkable program was accomplished, of course, with Indian labor. The Pueblo Indians had centuries of building experience behind them and, quick to learn, they soon caught hold of the improvements in the building art brought them by the Spaniards. They acquired use of metal tools and learned the rudiments of measurement. Under the supervision of the friars, who had for generations been competent building superintendents, they constructed chapels, churches, monastory buildings, living quarters for priests, kitchens, granaries and wine cellars. Under Spanish tutelage, they learned other arts: spinning, weaving, Spanish cooking, improved methods of agriculture and of irrigation, and care of domestic animals, especially the horse, for they soon became superb horsemen, and would salute the soldiers with a break neck speed. They learned to speak Spanish and to sing Catholic chants. The boys were taught to serve the priests at the altar.

Along with the instructions they gave and the labor they extracted in the construction of the Mission buildings, the friars attempted to convert the Indians to Christianity. They made the Indians attend church services and they reached to them pointing to the image of Christ and promising heaven, and threatening hell if the Indians did not give up their ancestral worship of rain gods. The Indians accepted it all stoically their apparent resignation partly induced, no doubt, by the cheering assurance by the soldiers that if they did not obey the friars implicitly, they would be burned alive, as well as burned in hell!

Also, the Indians had no objection whatsoever to adding Christ and the Virgin Mary to their pantheon of gods. After service at the Mission, they would go to their kivas and emerge, their drums rambling, to dance and sing to the Sun. So the Indians kept their kivas and continued their supplications to the rain

gods. They still do. However, if the Missions were not so successful as a religious influence their importance as an historical and cultural source is inestimable.

Constant incursions by the hostile tribes and the great tragedy of Pueblo Rebellion in 1680, which is a blot on the history of New Mexico and an indictment against the treatment given the faithful Pueblo Indians by the Spanish, were largely responsible for the fact that so few of the great New Mexico Missions remain today. Many of the earliest Churches have been destroyed or are in total ruin, and those built to replace them have not an historical background comparable to the old ones.

Of all the great Missions established in and around Santa Fe during the early 17th century, only one—the Mission of San Miguel—remains more than an impressive and picturesque ruin. Established in 1609, San Miguel is the oldest Mission in the United States, and is still in use today. Despite its modern facade its remodeled tower and the stone buttresses added to strengthen its ancient walls, this old Mission is still eloquent of three centuries of tradition and memories of the colorful, romantic, and often tragic events that center about it. Little is known of the history of San Miguel until the time of the Pueblo Rebellion, for the precious parish registers, important links in the history of New Mexico, were burned by the Indians in the general conflagration of the Spanish left Santa Fe. The Church was fired too, but the strong thick adobe walls were unharmed. It was repaired on or

around 1680. The church was used as a storehouse for the Indians and was used as a storehouse for the Indians and was used as a storehouse for the Indians.

News Items From GLENCOE (By Sydney Bonnell)

Those that did not attend the Fiesta at Hondo Friday night missed a very colorful entertainment. They even had more than was given at Tucson. A church scene was acted out. The people filling into church, rich and poor, the women crying out the sale of their wares, each carrying a basket of food, vegetables, etc. The steeple boy with the hat pulled over his face. A wedding scene. The bride in white silk, lace and flowers, two cute little girls throwing rose petals in the aisle, a boy carrying the bride's train, another kneeling and the pillow and the groom dressed in white. The young folks singing and dancing for them and wishing them happiness. The Fiesta dancers did many different dances, all done well and in the costumes were beautiful. We can feel proud to have such an outstanding program and all the teachers, children and mothers that helped are to be congratulated. Miss Mary Kamees was voted queen of the festival and Fred McTeague the escort.

Mr. and Mrs. Fred Tilly drove up from El Paso Friday to visit his mother, Mrs. J. V. Tully, left Saturday to visit relatives in Carrizozo and Tularosa. Fred is Customs officer on the bridge going to Juarez and does not get up this way often.

Dan Storm attended the Episcopal Convocation in Las Vegas, one day last week.

Church at St. Anne's was announced for April 20th instead of the first Sunday in May. In order that Rev. and Mrs. Rainey may have a short vacation in Arizona to visit their two sons, and family. William lives at Miami and John at Globe.

Mrs. Anne Titworth and I went to the White Sands for Play Day picking Mr. Bonnell up in Alamogordo. Found our cousins, Mrs. Sadie Bell and Ross Coe. They came from Mesilla Park to meet us. Met many friends, old and new. Free coffee was served and picnic lunches were spread everywhere and the Sands were covered with young people playing and the "Old Timers" visiting. Eight thousand people were taken care of and only one accident that I know of. Some newlyweds driving too fast through the crowd, hit a small child, but do not think it was serious, as the child walked away. Police got the number.

Leota Pfingsten and her mother, Mrs. Bradshaw of Capitán were visiting in Glencoe Sunday evening.

Mrs. Willie Nosker visited Gladys Nosker and family Sunday.

B. J. Bonnell is in El Paso this week, taking some treatments. He expects to be home Saturday.

Mrs. J. V. Tully visited Mrs. Frank Coe and Mrs. Lucas Sunday.

News Items From HONDO By McKinley McTeague

McKinley McTeague, Miss Nora Sanchez, Mrs. Virgil Threet and Mrs. Beatrice Nason, all teachers at the Hondo Grade school, attended a meeting of the South-central district teachers at Socorro last Friday.

Mr. and Mrs. A. Sena of Lubbock, Texas are visiting Mr. and Mrs. Fred McTeague for a few weeks. Mr. and Mrs. Sena are Mrs. McTeague's parents. With Mr. and Mrs. Sena came Mr. and Mrs. P. B. Garcia also of Lubbock. The Garcias have returned to Lubbock.

Mr. L. W. Chobantah, a teacher at the High School made a trip to Oklahoma on business this week end.

The grade school teachers took the sixth grade to the White Sands last Saturday for Play Day activities. They all reported having a grand time.

HARRY STRALEY VISITS
Harry Straley of Ancho was visiting over on this side of the county last week. He had been at the store in Ancho and had had a phone call that they were spraying some calves at the ranch Friday. So he took off. We caught up with him at the Eckert Bar-B-Q Stand at Hollywood.

Over Lincoln County...

(By M. N. T.)
Thought last week was the last time but Wednesday before Tommy and I left on Friday night. I went over to the mountain to Capitán and then down to Picacho and back up. First time we had driven out that road since Vaughn hand put up their new "Welcome" sign with a life size cowboy sitting on a rail fence to point the way to the attractive court. Since Mr. Hawk at Starlight Cabins had started doing all of that eye catching and much improving the look of rock work around his place.

Light here might as well admit something... the road over the mountains had been graded most of the way and was 100 per cent better than we had anticipated it being.

Charlie Martin's home out the Alto Road a piece is beautiful. They have done much work and improving in the past year. There was a coat of ice on Eagle Creek. Stopped to see the Lucka at Alto but sign of life and it was after 8:30 am. Thought about the fine meetings they have at the Nazarene Camp every summer when we passed there.

One of the Runkles boys was working with a piece of farm machinery on the Skinner place just this side of the Bonita ford. Getting so damn near slighted that couldn't tell which one it was. Ice on the creek.

Took less than thirty minutes to get to Capitán after we really got out of Ruidoso. Arrived at Pearl's as usual for coffee. Talked to Sid Goldston of Roswell, the Roswell to Socorro Stage Driver. Bill Humphries, Game Warden, El Paso, C. G. Francis of Pine Lodge, Jack Aldrich, W. C. Jackson who used to live in Ruidoso. Pearl was still excited about the phone call to Findland coming up on her husband's birthday. Said he hadn't talked to his folks in ten years... and she was going to put her nickel in the slot.

Bob Grieson, Mayor of Capitán, motoring down the street... that is the most dignified term for driving we can think of and Bob and his pipe are always that. Peg Pfingsten was in Titworths. Champ Ferguson was standing there a jawin' with Hugh Trout while Hugh's missis did the shopping. Bob Allen was awaiting the train.

Saw Eldred Salazar sitting in the sun soaking it in, by the old bank building. We put a Pow-Wow poster in the Post Office with permission from Jimmy Kent, Postmaster. The Provines were all so busy we didn't even get to visit on our way out of town.

Stopped at Lincoln to say hi to John and Carolino Davis as they were getting groceries out of the car. Stopped at the P. O. to put up another poster and pass the time of day most briefly with Mrs. Phillips. Noticed a new white with on the lovely little Lincoln Church, then on toward Hondo.

I would really like to go by Ft. Stanton to thank L. D. Fish for those kind words in his column of March 30th... but we didn't have time... and maybe he wouldn't have said 'em if he had known I wasn't gone... but I hope he reads this and knows it and for the many friends I know I do have at the Fort.

The willow trees seem to be greenin' up first along the Bonita on the road into Hondo Junction. Saw Mrs. Joiner at the P. O. and Ida talked with Mrs. Charles Fuller there about the Pow-Wow and the Picacho School sending a princess. Mrs. Fuller in turn told us of the wonderful improvement program being carried on in their community.

Can't miss Tinnie Mercantile... visiting there is too much fun... and this time Ida had another mamma guppie, just about ready to both her young, for Virginia and Mrs. Hamond to replace the one that died. The other live babies we took last time are doin' fine.

Heard in Tinnie that two prominent young women of that community spent the day and had lunch and dinner with Ambrose Guest and Will Latham at the trailer house on the Block Ranch. Ambrose did the baking and it seems his "Water biscuits" and "cake" are out of this world.

Say Brose, how about sending the Ruidoso News your recipes so we can pass 'em on.

Few trees budding out along the way... some had been nipped the night before. At the Picacho school Billie Sloan had just finished feeding the forty boys and girls that she fixes hot lunch for every day... their program has been successful and why not, the meal looked delicious, especially that rich looking cherry cobbler the children were hurrying to get to. Talked Pow-Wow princess with Elsie Kimbrell principal.

Fred Bower said he was doing poorly but better. He has been in the hospital you know, he and Ida got to talking "diet" and "can't eat this and can eat that" so they must have known something about each others ailments.

George Clements, rancher S. W. of Picacho had come to town to see his mail. This started a discussion about his wife's wishes. A woman who lived on the ranches maybe want to town two or three times a year... and how long it took... and what an occasion it was... Joe Sanchez who helps the Bowers was also in the store.

Frank Peters was burning trash and trimmings from his newly pruned orchard over across the river back of Tinnie Mercantile. Saw Ruby Allen of the Tinnie School for the first time in a long time... again talked Pow-Wow and she even told us the name of her princess, to be announced next week.

At Jessa Gallaghers for hamburgers saw Mill Mabie eating same. Also Robinson, now the Holsom Bread Man, formerly of the Ft. Stanton Store. Mill said Louise was visiting with Virgie Luckett. It seem that not long ago the teasing Jess G. had put a sign on his front door "Out to Lunch", thinking that having it on a cafe was a big joke... but it wasn't nearly so funny when he had to run down the road and stop prospective customers who had taken him at his word and were driving off.

At Hondo visited Marie Pacheco at the school while Ida talked to McKinley McTeague... said goodbye to Muriel Latham... everyone is talking Pow-Wow.

Betty Lou Underwood was home visiting her parents, the Shelton Taylors for the week... the "Cave" at San Pat... advertising "tamias for sale" first time we had noticed that.

Phyllis McGulre was home with Ralph's mother who is visiting... We talked "Hillbilly Dance" and "Amateur Talent Show" Pow-Wow, school bond election and hospital... an interesting stop... one we had been wanting to make but never had made connections before.

At Bonnell Ranch missed seeing Ralph and Jewel... but Sydney and Annie extended their usual hospitality... and said Bert was in El Paso for a visit... Annlo Titworth told us of her wonderful trip to Tucson with the Hondo High School dancers... the beauty of the program but the disappointment over having it indoors when the show had been planned for outside.

Across the road at Shorty Ellis es ran into Jim Tully and Robert Mcanilda drinking good bc coffee and had a cup myself... everyone was discussing the weather in the valley the night before.

Stopped at Rancho Linda to see Bebe New... she was picking out pecans for an applesauce cake... and told us that all their spring work in the orchards was going well... and they were looking for good fruit crops... if you have never bought Bing cherries there try to make it a point to stop before they are all gone when that luscious fruit comes in.

Just as we pulled into Mac Piors Valley Vlow Jack and Oohoo Hull were driving away... stopped to see what they wore up to but didn't find out... Ida got a piece of Mrs. C. G. Pior's good home made pie and I visited out in the new wash house.

The Mac Piors are building. He was putting the finishing touches on the outside and she was print-woodwork on the inside.

Up in Green Tree Jack Parnell said he was crippled in his left foot... Mrs. Scott was reading the daily news... Mac Edwards was enjoying a visit from his son and family... Mrs. Gene Gay was in charge of the store while he visited or took care of business in Ruidoso.

Well, this is really the last time for me to write this... and when the paper comes out will be looking forward to getting it in Texas... then I too, will be able to write a letter to editor to say how I look forward to receiving the paper every week and getting the news from all over Lincoln County.

I Heer'd That

We did have a wonderful visit with our child in West Texas and Winifred Rice drove out with us and remained in Sonora. Little Bert who has been quite ill in showing improvement each day and we hope he will soon be 100 per cent boy again. While out Texas way with Lloyd, Jr., and family in Sonora we also stopped in Ozona to see Wayne and Mae West. Mae can hardly wait for June to roll around so she can come up and spend most of the summer in Ruidoso.

Camillo Wanzl was in Ruidoso on business last Tuesday. Mrs. Ethel Britton and Mrs. Medler were passing last Tuesday when we were driving home from Roswell, or they could have been to other points east. We don't know. Slim Adams dropped by the office talking to us about his new business. renting saddle horses. says he has worked for the other fellow for six years and this year will have his own business.

Roy Nelson is back on the job after being ill for several days. Mr. and Mrs. Morris Qualtrough were down here at coffee at Ruidoso Club House. they said grandpa, the dog and Joyce Ann were at home looking after each other. Mary Nell Taeger and Tommy had dinner last week with

Mr. and Mrs. Bernard Rooney and Pat.

The Ruidoso Washateria is getting what you can call a real face lifting. . . paint job on the inside and outside of the building last week. . . Billy the Kid store owned by Lee Boswell is getting a new outside paint job. . . and it looks mighty good. . . There are signs of clean spring ups and general property improvements all over the canyon now. . . and it is good to see folks taking an interest in having things look their best for our many visitors that start coming in soon.

Eve Ball had on a hat driving down the street last Saturday. . . I know she was going to town. . . as Ruidoso women don't wear hats unless headed for special places or town.

Funny thing, we thought we were good. Mrs. Violet Hart and Helen Davis went to Alamogordo Thurs-

day of last week. Dutch Shira, formerly of Ruidoso, now living in Clororado spent last weekend in Ruidoso with friends. He says that Claude Crane of Durango, Colo., another former citizen, has just completed a new home out four miles from town and he has gone into a partnership deal with a big insurance company in that town.

R. D. and Gladys Martin wrote "Please renew our subscription. We still enjoy it and read every word in the paper. Hello to all of the fine people in Ruidoso". . . They live in Dallas, Texas now. . . Ole and Scott Hage wrote for their paper to be sent to Truth or Consequences, N. M., and say would like for all of our friends in Ruidoso and the valley to look us up when they come to T or C. . . We are stopping at West Apartments in Williamsburg on 85 West. Will be looking for the News. . . Pet Knox of Hobbsville, Texas who formerly had the place the J. H. Morris family live on down the valley renewed his subscription.

M. C. Golding of Corpus Christi, Texas in the winter and who has had a summer cabin up the canyon for a long time writes "Enclosed you will find check the amount \$2.50 for a renewal of my subscription to your valuable paper, The Ruidoso News. Keep it coming as I enjoy reading your valuable paper. Keeps us in touch and in close harmony with a country that I love. Would feel

lost without it as I have been coming to Ruidoso since 1928 have seen it grow from a cow trail to one of the finest year round playgrounds that has everything.

A card has been received from the G. A. Grahams saying they will be back soon.

The first straw hat worn by a Ruidosoan seen by this reporter was Tommy Hicks. . . In Ruidoso the first of this week were three young men from Hon-do, A. C. Shotts, J. A. Hamilton and R. E. Lane and if I hear'd right, there was a hair cut mixed up in the deal somewhere. . . Three of the hardest working people last week in Ruidoso were Loraine and Ewing Miller and Thelma Adams.

To tell you folks the truth, the Chuck Wagon Cafe got a complete overhaul, and it sure looks nice. . . Through the grapevine channels I have heard that Bessie Bounds has painted and redecorated the kitchen and breakfast room in her apartment at the C. F. Fine Tavern. . . Mary Nell Taeger and Tommy left Ruidoso last Saturday for Terrell, Texas, to visit her parents. If Uncle Sam doesn't interfere will have some very interesting news in the near future. The Ruidoso News, as well as Mary Nell's many friend in Lincoln County, are surely going to miss her. In fact, the first Monday wasn't nearly so bad as I thought it would be last Saturday and Sunday when I was thinking about it.

GREEN TREE

Cause it was Friday the 13th I slipped off and went down to Green Tree a week ahead of time to see what news I could find on this unusual day. . . didn't find too much news. . . but sure did find a lot of spunk. . .
