AROUND TOWN

—By Nosey Waters—

A note from Orline McDaniels, moving from Durango to Canyon, Tex., says: "Tell everyone hello for me." Note from T. E. Waits says: "Change our paper from El Paso to Ruidoso—we expect to be in Ruidoso for the summer."

The Treasure Chest, opposite Ruidoso Trailer Court, has enlarged its parking area and added to its stock and services for the new season. Apache Trading Post, operated by the Elmo Carters, topped off a handsome job around their place with another of those interesting statues and carved figures—this time a large eagle dancer, with wings, etc. Max Loya is selling houses for moving onto your own lot at Hollywood. The 16x16 structures make handsome summer cabins, garages, sheds, etc., when remodeled for the use you desire.

Mrs. Jessie Crump is touring Europe this month, friends here have learned. She is of Midland and Mission, Tex., and is an annual summer visitor here. Large cut-out figures have been installed by a couple of Ruidoso firms, the Chocolate Shop with an 8-foot Spaniard, outlined in neon tubing, and Pete Shipley's Service Station, with a 9-foot "Tall Texan."

Ruidoso-Hondo Valley General Hospital discharged a patient under unique circumstances this week—into the arms of a Border Patrolman who has sought the man as "hot-back." The hospital attached a pick-up of the man owned to cover a bill of about \$230 for treatment for injuries suffered when a horse tossed him down at the Downs.

Postoffice of the area and Ruidoso State Bank will be closed for Memorial Day next Wednesday. Joe M. Evans, El Paso, noted humorist, both written and spoken, is up for a few days enjoying the cool pine centred breezes.

Mrs. Joie T. Nelson writes us from Freeport to send her News there, she'll be there maybe three months. The B. H. Guiton, the folks in the El Paso, are in Ruidoso for a summer stay.

A school group from Alpine, Tex., coming here in their school bus, vacationed here last week-end. A. B. Harris, TV Sales & Service, is considering a TV set sales lately in both Tularosa and on ranches near Capitan.

Cartier Mercantile Co., Green Tree, had this new neon sign made for \$2185 to scratch out the old one that was listed for Fox Mercantile, the name of the place before it changed hands.

Readers getting their papers Thursday afternoon at the Quarterback Club meeting, which officers will be elected, will be at 7:30 p. m. in the high school.

Our Holsum bread man says he believes in dreams after he dreamed a diamond worth the life of his daughter would be found. Sure 'nuf, the day after he dreamed that—the ring was found. Bill Mills is back running the Spanish Nook Cafe after spending most of the winter and fall scrambling over mountains in search of valuable minerals. He found some, too. He'll lose that tan back in the kitchen, but says the out of doors life was grand. His wife and their son camped out with him some. They have several "hot" samples on view at the cafe.

The editors, making a ten-day tour of the state under guidance of the State Tourist Bureau and the New Mexico Motor Club, were entertained with a cocktail party and dinner Thursday evening at the Navajo, tendered by Ruidoso Downs, and with a breakfast

'56 Racing Season Opens Wednesday

Improvements Costing Thousands Of Dollars Spent On Track

Ruidoso Downs—"The Fastest Growing Race Track in the World," opens a 39-day racing program here Wednesday next week, Memorial Day, with post time at 1:30 p. m., and with a full card of 12 races—all loaded with some fast thoroughbreds and quarter horses.

Ruidoso Downs was a scene of feverish activity this week as last minute work was underway on finishing several hundred thousand dollars worth of improvements in time for the 1956 program.

Racing fans will see many new innovations—an entirely new parliament building, two passenger, 700 foot long the mountain to a scenic look-out ramp there. The round trip covers 7,200 feet, all this season:

Wildcat Mountain Sky Ride Completed For Summer Season

Opening on Memorial Day after some more "test runs" likely this week-end will be a new attraction in the Playground of the Southwest, Henry Irvin of Slinnet, who has been at work building his own machinery for a giant new sky ride up to the crest of Wildcat Mountain south of U. S. Highway 70 opposite Ruidoso Downs, said this week the amusement attraction had passed "rigid government safety inspection last week."

A 10 horsepower electric motor is employed to pull 40 seats, each accommodating two passengers, 700 feet up the mountain to a scenic look-out ramp there. The round trip covers 7,200 feet, all this season:

TO HEAR GOVERNOR—Governor John Simms of New Mexico is to give the commencement address for Ruidoso's 1956 high school graduating class Friday evening in the Nob Hill School Cafeteria for the 22 Seniors of Ruidoso High School.

The commencement tonight climaxes the end of the 1955-56 school term here, one that saw a great growth and many honors received by students of this city alike. Several Ruidoso school students were elected to state offices in school club groups: the football team, the Warriors, for a second time won a Class C state championship title, a baseball season was inaugurated and a homecoming elementary school building was put in use, built atop Nob Hill.

Other school closing activities of the week have included a baccalaureate service last Sunday evening for the Seniors in Ruidoso First Baptist Church, with the Rev. Charles L. Conder, Episcopal minister, giving the sermon; and commencement exercises for 40 graduates of the eighth grade in Junior High given graduation certificates and awards Wednesday night in a program before a packed house in the Ruidoso gymnasium auditorium.

Life Compared To A Car
In Rev. Conder's sermon, he likened life unto a car, and declared that whether you drove a hot rod or a Cadillac, four things were essential: first, a power steering wheel; second, a steering wheel; third, good brakes—the power of self control; and fourth, a road map—which in the final analysis was Jesus Christ, the way of life. For his Father reference he chose the ninth verse of the first chapter of Joshua: "Be strong and of good courage, be not afraid, neither be thou discouraged; for the Lord thy God is with thee whithersoever thou goest."

Honors As A Guide
In the eighth grade commencement, honor awards were presented to Salutatorian Jerry Reynolds and Valedictorian Gerald Tully, Jr., as well as awards in scholarship for:

Arithmetic—Jerry Reynolds, Gerald Tully; Language Arts—Fleener McDaniel, Gerald Tully; Jerry Reynolds, Beverly Watkins; Social Studies—Gerald Tully; Science—Michael Shulte, Gerald Tully, and Perfect Attendance—Jerry Reynolds, Andrew Hahn, Jerry Fricke and Paul H. Johnson. This award three years in a row.

Eighth graders receiving athletic awards Wednesday night were Jerry Reynolds, Jim Wilson, Phil White, Eason Lukom, Vernon Fricke and Paul H. Johnson. They received awards for cheerleading were Ella Ruth Jackson, Beverly Watkins and Eleanor McDaniel.

A detailed program for tonight's event is printed elsewhere on the News front page today, along with reports of group photo of the Class of '56.

Students will receive their report cards and graduation certificates in a short session Saturday morning in all schools this week to conclude the term.

Morris this week announced employment of three new teachers for the local schools for the 1956-57 term: Mr. and Mrs. Dave Park, the former a graduate of the local high school, are to be on the faculty of Junior High and Mrs. Park in Nob Hill elementary school. W. W. Williams is another new teacher, employed to teach in Junior High. He is the husband of the home economics instructor in the high school here and is a graduate of this term here in El Paso. Mrs. Williams is going to El Paso, Miss. Mary Anna Christian, who will teach in Dallas next year. Miss Armitz, who is going to Virginia to teach, and G. G. Williams who is going to Albuquerque. Supt. After A Decade
 Of Faithful Service
 Happy birthday to the Ruidoso News. It was ten years old on May sixteenth.

Now folks if you will stop and think you will come to know that a newspaper is not like a person. A newspaper can be selfish and create its own friends. It can be down on the job and take the easy way out. It can be the best of its kind or the worst. Or a newspaper can be unselfish, hard to read, and dedicated to the service of mankind. When it reads as the goal of a career into the face of greatness.

The Ruidoso News is a great newspaper. It is going to go over a few years more that will leave it as a classic. Some of the best I learned back in the days when I studied Journalism at the University of Texas. Some of them I have learned in my work with newspapers. But the main point is that anybody with plain honest sense can see if they are clean to them.

The first essential to a good newspaper is that the man running it be a good man. Anybody can see that. And of course all of us who are acquainted with Vic Lamb know that he is a True American and a Christian Gentleman. He is a man dedicated to all good principles of progress and betterment of his city, and he came here to make his home among us because he has faith in this community.

The Second Hall
 We come now to the other essential to a great newspaper, and this is very often overlooked. A paper must have something to work with. Many editors cynically say, "How can I have a decent paper? If I try to print something good, these people won't take it. They want something sensational, something cheap and trashy. What are you going to do when you have a bunch of morons for readers?"

Or another editor might say, "There are things I would like to run in the paper. There are principles I would like to take stand against or things I would like to stand up for. But I have this political pressure. And this political interest and pressure group is looking down my collar all the time."

In other words, my dear friends, the readers of a paper are the ones who give it a chance to be great. The community we all live in is a great community. It is made up of upright, clean American people. Let us, my friends and neighbors, stand up and all the facts in the world.

And I do not have to tell you how grateful I am to be able to reach you with this little sheet in our Ruidoso News.

What a Ya Gonna Do
 When the Creek Goes Dry?

One thing we like about our mountain and valley homeland is the infinite variety and interest of the countryside and the people. There is never a dull moment. For instance the creek at my crossing to the Grand has ever seen it since the day I came here at the age of thirteen. But the clouds are gathering, and tomorrow I will probably not be able to get across. Reminds me of the time I got washed down the river about a hundred yards with a sack of groceries. The bread was pretty mushy, and the sugar was all melted away sweetening up the river for the fish. So cheer up. Maybe we need a few dams to hold up the water when the river is full, and other little dams up the side canyons. Be thinking about this, folks, so there will be plenty of water.

Well, the raindrops are spattering against the roof. Isn't that a pretty sound? So, you see all our worries are for nothing after all. The rains have started and soon our countryside will be all shining velvet green.

Senior Students Are Presented In Program of Music

One of the finest musical programs ever presented in Ruidoso entertained friends and parents of the senior students of Mrs. Gene Dodson Tuesday evening in the First Baptist Church here. Graduates of Ruidoso High School, who receive their diplomas tonight, and who have been receiving instruction in voice and piano, performed on the program. They presented numbers from Mozart, Chopin, Rachmaninoff, Gershwin, Haydn, arrangements by Schaum, and other classical composers—and their rendition, appearance and personalities all reflect excellent training and long hours of practice.

Appearing on the program were Betty Carpenter, Jo Betty Reese, Linda Moore, Ada Lu Gragg, Max Jones, Nyles Lackey, Joan Marie Matthews, Dixie Capps and Mrs. Dodson. Duets, solos, accompanied numbers from Mozart, Chopin, Rachmaninoff, Gershwin, Haydn, arrangements by Schaum, and other classical composers—and their rendition, appearance and personalities all reflect excellent training and long hours of practice.

Mrs. Dodson presented the young ladies with lovely arm bouquets upon completion of their parts on the program, and there were gifts for the young men as well as the young ladies.

Following the recital, a social was held in the participants' honor in the W. R. Long home.

CHRISTIAN CHURCH MINISTER SPEAKS ON ROTARY AIMS

"Why Rotary" was the subject of a brief talk by Rev. Frank A. Alford, minister of the First Christian Church here, before the Ruidoso-Hondo Valley Rotary Club Tuesday noon at Village Restaurant. IT'S WISE
 To Do Your Real Estate Business Through A REALTOR —

(This is one of a series of articles published in the public interest by the Ruidoso Board of Realtors to acquaint you with the purpose of this organization.)

Plleges For The Public
 Specifically, how this code of ethics obligate the Realtor to act in the best interests of the public? Here are just a few of the things which the Realtor pledges himself to do:

1. Learn all pertinent facts about the property for which he accepts the agency so that in offering it he may fulfill his obligation to avoid error, exaggeration, or misrepresentation.
2. Protect the public against fraud, misrepresentation, or unethical conduct in the real estate field by endeavoring to prevent damaging practices and by cooperating with the state real estate commission in enforcing proper procedure.
3. Be well informed on current market conditions and be in a position to advise his clients as to fair value under the existing market.
4. Endeavor always to be informed regarding the law, proposed legislation, legal orders issued, and essential facts and public policies which affect the interests placed in his hands by the public.

Therefore, it's wise to do your real estate business through a Realtor.

AT MT. VUE DRIVE-IN —
 Showing Sunday and Monday at the Mt. Vue Drive-In Theatre will be a historical story — "The Court Marshal of Bill Mitchell," which tells of Col. Mitchell's early efforts to get the nation to recognize air power. The film is in color and in CinemaScope and stars Gary Cooper in the title role.

"30 SECONDS OVER TOKYO" RETURNS TO PUEBLO
 One of the most thrilling dramas ever made by M-G-M comes to the Pueblo screen Friday and Saturday this week with the showing of "Thirty Seconds Over Tokyo," with a cast headed by Spencer Tracy, Van Johnson and Robert Mitchum. It is an M-G-M re-lease.

"Thirty Seconds Over Tokyo" depicts the first bombing raid on the Empire of the Rising Sun—Tokyo, Yokohama, Kobe, Osaka and Nagoya. It is remembered as one of the most amazing and hazardous feats in the history of air and naval warfare. Sixteen B-29 bombers participated in the raid, personally led by Lieutenant Colonel James H. Doolittle, enacted in the film by Spencer Tracy.

Although all the bombers and crews who trained and participated in the thrilling raid are represented, the picture is essentially the story of Lieutenant Ted Lawson's (Van Johnson) crew and their plane, "The Ruptured Duck."

 "Ma" Flor's famed "Biscuit Hill Cafe" on U. S. Highway 70, east of Green Tree, will hold an open house Saturday at which time visitors are invited to see the new and enlarged dining room put in use for the first time this season. Free coffee, cakes and ice cream will be served to all who come for the open house Saturday. The cafe features fresh trout dinners, caught in Seeping Springs Trout Lake nearby, fried chicken, steaks and hot biscuits.

 This will be the last news for this year. We have spent the last week writing stories, taking tests and finishing our workbooks. We had an exhibit on Mexico which we enjoyed making very much. Mrs. Lamb, Mrs. Francis, Mrs. Reynolds Jones, Mrs. Hesse, Mrs. Moore, Mrs. Trimble, Mrs. Dryden, Mrs. Gazaway, Mrs. Lec-

key and Mrs. Thompson came to see our exhibit.

 Our class is quite happy that school is so nearly over.
 Quite a number of our group plan to spend a few days in Scout camps at various places. Among them are Marnie Badille, Terry Collins, and Charles Ward who are to be at Aquatic Camp, Carlsbad. Idealen plans to move to the ranch for the summer. Nara Ann plans to be quite busy in El Charro to California about May 28; Rosa Lee Fulson to see her grandmother in Oklahoma; Amy Aguilar to visit her aunt at Roswell.  The Last Round Up.
 David Hale, in size the baby of our class, but not so in achievement, wins the praise of the class with a perfect attendance record. He will fit from job to job this summer, doing landscape gardening, teaching tourists to pull in large trout, and help when time permits, on his father's ranch. Red Farus plans to take up golfing. That is, he hopes to be a No. one caddy out at the Cree Meadows golf course.
 Manuel, the old trusty, who does not need any reason to learn new occupations, will assist his father in line of trucking.
 Alfred with his beautiful mop of black curls, replaced by a flat-top hair style, plans to work at the race track. Beware motorists! It's Alfred on his newest motor scooter purchased with funds earned this summer.
 Malcolm, our talented dance leader and instructor, will stage a grand opening May 30, at the Apache Trading Post.
 Roy, who has learned to like chicks, feathered ones, that is, will take over his uncle's poultry business this summer with time off to attend the Methodist Boys' Camp.
 Vernon, one of our athletic stars, when not helping his father, hopes to work for Ruidoso Downs. Take care of that back Vernon. We want to be rooting for you this fall. We want a touchdown.
 Steve, also, plans to work at the race track. Sorry you were unable to attend our graduation exercises but know that you enjoyed attending your sister's graduation from high school in Phoenix, Ariz. Fourth Grade—Mrs. Bayler
 We have made two trips. One last week to the filter plant, where we learned about the modern plant which is quite an interesting place. Mr. and Mrs. Peterson served cookies to everyone. The same day we visited the lookout tower. The Rangers told us how fires were located and showed us fire fighting equipment.
 Monday, we made a trip to the City Hall and to the printing office. Joe Dryden, the City Clerk, showed us around City Hall. We

Troy's engineering ingenuity when it comes to building dams. Sorry folks, location a deep dark secret.
 Inez and Mary Jane, who believe in learning new tricks, plan to work in Rue's Pool Hall. With those teasing eyes and inviting smiles there will not be standing room in the new swimming hole.
 Eston and Raymond will vacation in Oklahoma. After returning to beautiful Ruidoso Eston plans to work. Plans are indefinite at the present.
 Herbert will visit relatives in Albuquerque for a while, may even work there during the summer, since the bright lights are so alluring.
 Alex is oh, so tired. Right now all he can think of is a full summer's vacation just resting, so that he will be ready for football season this fall.
 Lynn may spend a few hours each day with his paints and brushes, improving on his drawings. Rest of the time he plans to rest from a very strenuous winter's work. That's a joke son.
 Ben, last but not least, just can't make up his mind. He may go into the puppet business, since he enjoys evenings stuffing dolls. Know he'll still be wearing that mischievous smile when September rolls around again.
 As for your teacher, she plans to take it easy this summer, doing house cleaning, painting, gardening, baby sitting and enjoying trying out as a cook again, unless I find myself interpreting the little seven year old's joke.
 The pupils were told school was held on Saturday so that the teachers would have time to rest at the end of school before having to leave for summer institutes. One seven year old started his parents by announcing: "No school this summer. The teachers are all going on an 'insect' tool."

CONSERVATION
 . . . It's a way of life at Chino
 An elaborate system of ponds and tanks recovers water from mill waste at Kennecott's New Mexico operations. This equipment cost hundreds of thousands of dollars, but the investment makes good sense to a southwesterner who knows the value of our water resources.
 Conservation is a way of life at Chino. In a sense, Kennecott's entire operation is one of conservation, because the low-grade copper ore now mined and processed was once scorned as worthless rock.
 Today, this "reclaimed" resource is earning money. This means that Kennecott can continue to invest in conservation, because money earned from the operation is used to build the industry, to pay taxes, to meet payrolls — in short, to help build a better New Mexico.

Letter To The Editor

Mr. Vic Lamb
Editor, Ruidoso News
Ruidoso, New Mexico
Dear Mr. Lamb,
My family and I are looking for summer employment, and wish to locate in your town. We would like to be associated with some court or lodge, as manager or any other position that would afford us room and board.
We feel our 'drawing card' would be the fact that we are both from West Texas towns and would be in a position to bring several customers to the establishment with which we might associate.
We are both 25 years of age, and each have college degrees. We have one son, a year and a half.
Our time for employment will extend from June 1, through the Labor Day holidays.
We have spent several weeks in Ruidoso during past summers and have thoroughly enjoyed each trip.
Should you be able to print this letter in its entirety, we would appreciate it, if not then please print the following ad, and bill us for it at this address below. We would like it to run through the first week in June unless notified otherwise.
Thank you for your help,
Sincerely yours,
Alton C. Linne, Jr.
Supervisor, West Hall
Texas Technological College

Dear Vic:
This is just a short note to publicly thank Nannie Lou and her students for a very wonderful recital Tuesday night. I couldn't

From thinking how rewarded the parents of these pupils must have felt when, perhaps quite of their own accord, they have sacrificed for them to pay for their lessons. I am sure every parent there Tuesday night thought it was well worth their sacrifice.
To each one in the recital I would like to say "Thank you for a truly wonderful performance."
Sincerely,
Joan Lamb.

Dear Vic:
In reply to your urgent request for opinions on daylight saving time, I want to tell you that I'm against it, and why.
Texans have to get up an hour earlier than we just to keep even with us. If we start the day when they do, we'll leave them far behind. Let's be kind to our good neighbors and let well enough alone.
Changing closing time for the bars would benefit no one. Anyone desiring to do so can get grandly and gloriously drunk under the present schedule. I am strongly opposed to a late opening time because it would work a distressing hardship on the folks who are in urgent need of an eye opener.
The present set-up seems to be convenient for school children to solicit funds for their classes in bars, so one cannot claim that present regulations are detrimental to education.
That reminds me of one of Mrs. Eva-Ball's recent statements before the Rotary Club: "Education is expensive, but it's cheaper than ignorance."
I heartily endorse and practice courtesy to tourists. Recently I had the pleasure of talking to a pert young Miss from Texas. She certainly disapproved the dastardly rumor that Texans are mentally stunted, physical giants, for she was just loaded with clever questions and snappy answers. In reply to her complaint on the absence of Indiana, I explained that the woods were full of them but that they did not share my great admiration for citizens of the Lone Star State and got out of sight as soon as a Texan appeared on the horizon.
The touching sentiment in favor of courteous treatment of tourists by our local police was masterfully presented in a letter published in the Ruidoso News of May 18. On that point I agree with the sincere local lady who wrote it.
The letter also strengthened my confidence in the wisdom of our Village Fathers. One can judge an administration by its enemies and by its friends.
Half sincerely, half in fun,
Phil Haist.

Noting that the Salvation Army in the last ten years had provided 100,000,000 free meals, or the equivalent of one meal for more than half of the country's population, National Commander Donald McMillan reaffirmed the Salvation Army's twin goals of physical regeneration and spiritual rebirth of the nation's unfortunate.

As in the Salvation Army's beginning in this country—its first open-air meeting was held in New York in 1850—the organization's emphasis has been on the help to the lowest-income segment of the population whose members have few churches, family or other supporting relationships. Last year Salvation Army officers and soldiers conducted indoor religious services attended by 18,937,423 persons.
Chairman Collier noted these accomplishments of the Salvation Army:
One Salvationist service, known to many people because of the familiar red trucks which call regularly at homes to pick up discarded furniture and clothing, is that provided by the Men's Social Service Centers. Last year an opportunity for self-help was provided in such centers to 42,987 men.
Another Salvation Army service, in which the organization cooperates with the police and other authorities, is that of locating missing persons. Last year 1,500 lost persons were located in answer to pleas to the Army from relatives and friends. Some of these persons were among the two and a half million homeless or transient men and women who were given warm, clean lodgings in Salvation Army institutions.
Guidance to persons who found themselves facing domestic and other problems was given last year by The Army's Family Service Bureau.

Last winter all told we had around 150 inches of snow. The coldest it got was 48 below zero. Most of the time from Nov. 8 until March 1 it was anywhere from 10 to 30 below at night, days were usually nice. No wind, so it didn't feel as cold as it sounds.
The ice hasn't broken in many of the lakes, but we are expecting it any day.
We are going north on a fishing trip in about a month.
Yours very truly,
Ken and Loretta Smith

Salvation Army Week Is Being Observed In U. S. This Week

National Salvation Army Week, a period for celebrating the organization's progress in helping the nation's unfortunate, started Sunday, May 20, in hundreds of communities throughout the United States, according to Zach Collier, local rural service chairman.
Noting that the Salvation Army in the last ten years had provided 100,000,000 free meals, or the equivalent of one meal for more than half of the country's population, National Commander Donald McMillan reaffirmed the Salvation Army's twin goals of physical regeneration and spiritual rebirth of the nation's unfortunate.

County Agent Reports

A county-wide 4-H picnic is planned for Saturday, June 2, in Red Cloud canyon south of Corona. The afternoon program will start at 3:00 p. m., with softball, along with other games. 4-H members, parents and friends are cordially invited to attend.
Boys and girls attending will actually fit and show a calf during the day. This will help them in preparing their calf for show this fall at the county fair, September 15, or the Eastern N. M. Fair on October 8-13. Old clothes will be the order of the day, as the club members are likely to get wet along with the calf. Also, remember to bring a sack lunch.
FARM BUREAU TO MEET
Lincoln County Farm & Livestock Bureau will meet at 8:30 p. m. Saturday in Carrizozo Woman's Club building. A covered dish supper will precede a program to include a talk by Dr. Roger Corbett, president of New Mexico A. & M. College.

THE CALL TO THE LIVING

A cross—a hundred crosses—marking the graves of men who died in the service of their country. But why a cross?

Is this the symbol of our gratitude for the sacrifice they made for us? It is not!

Is this the emblem of democracy and freedom in whose cause they laid down their lives? It is not!

But this is the symbol of a crucified and risen Christ. The One who unfolded for mankind the truth of God's love, the truth out of which democracy, freedom, and sacrifice have come.

The cross on a soldier's grave is a call to us—a call to the living to fill our churches. It is a call to serve with eager and sacrificial devotion the Lord whose Truth men have died to preserve.

The house, estimated at \$12,500 in value, is to be awarded June 30. Other business talked included plans for erection of a sign this week on which names of all volunteer labor and materials given by firms would be listed.

DANGER PROTECT CHILDREN FROM THIS KILLER!

KIDS CAN'T GET TRAPPED INSIDE DISCARDED REFRIGERATORS IF YOU FOLLOW THESE SUGGESTIONS:

- Remove latch-stop. This is usually fastened with screws and is easily removed. Then the door can't be latched, accidentally or otherwise.
- Better still, remove the entire door. When this is done, there is no chance of anyone's being trapped inside.
- If refrigerator is to be used for storage, drill air holes all the way through refrigerator body and remove door gasket to fully unseal compartment.
- If you need help in any of these things, call our office and we'll gladly send a serviceman to help you take the danger out of your discarded refrigerator.

Every so often, you read of a child suffocating by being trapped in a discarded ice box, refrigerator or freezer. To help eliminate these death traps, Community Public Service Company, in cooperation with the National Safety Council, offers the suggestions listed here.

LET'S MAKE EVERY DISCARDED REFRIGERATOR HARMLESS!

Mable Wimberly Elected Officer In State Association

The New Mexico chapters of National Association of Postmasters and National Association of Postal Supervisors held their joint convention in Santa Fe May 17, 18, 19 at the La Fonda. Attendance was the largest ever recorded at a state convention. Those in attendance were highly honored by the departmental guests from Washington, Denver and Albuquerque. Washington was ably represented by D. H. Stephens, chief inspector, and Charles Gilchrist, special assistant to the Postmaster General. W. D. Brewer, regional director from Denver and his staff; Kenneth Munson, regional manager; J. C. Glidden, regional transportation manager; C. H. Brown, assistant regional controller; Walter Straley, regional personnel manager; and Jack Blahop, regional vehicle manager, represented the regional office. The district office at Albuquerque was represented by Tim Glenn Armstrong and his assistant, J. K. Elder. Donald Horne, manager of the district postal transportation service, attended and gave the cooperation and assistance.

stance he is so capable of doing. The inspection service sent in addition to D. H. Stephens, chief inspector from Washington, E. B. Windblizler, assistant to D. B. Dunbar, inspector in charge, Denver, and B. V. Stricklett, post office inspector, Roswell.

The morning sessions were devoted to addresses by Raymond V. McManara of Haverhill, Mass., immediate past president of the National Association of Postmasters, Pauline Allison, Eaton, Colorado, executive committee National Association of Postmasters and E. S. Windblizler, assistant inspector in charge of Denver. The afternoon sessions consisted of a seminar type of program directed by the departmental advisors.

A coffee at the Governor's residence by the First Lady of New Mexico, Mrs. John Slinn, highlighted the entertainment for the ladies, and the banquet Saturday night at the La Fonda for the entire group brought the highly successful convention to a close. Arthur Meiering, assistant postmaster, Roswell, was master of ceremonies and with his usual wit, charm and personality endeared the new comers to their hearts as he has done the veteran conventioners over the years. The inspirational addresses were given by D. H. Stephens and Charles Gilchrist of Washington. An additional treat was enjoyed by all when Miss Lillian Armijo, mezzo soprano and her accompanist, Miss Alarcia Stahlitz, entertained Miss Armijo in the charming and talented daughter of assistant postmaster Armijo of the Santa Fe office and was in Santa Fe from Kansas City for a concert given Friday night.

Mable Wimberly of Hollywood was elected to the office of secretary treasurer of the state chapter to replace Jeannette G. Johnson. Winston, who remains as editor of the monthly newsletter and who represents the national chap-

ter as vice-president. With the exception of Mable Wimberly all of last year's officers were re-elected and are as follows: Lyle L. Gholson, Hobbs, president; Louise Babers, San Antonio; George W. Messenger, Bellview; Max McBride, Grants; and Pete Lucero, Ojo Caliente, vice presidents; Hugh P. Cooper, Albuquerque, and Rosalia Branch, Mora, national directors. Prof. Bergstrom, ENMU, Portales, speaks at 11 a. m. at Ruidoso First Baptist Church Sunday.
