Around Town

-By Nosey Waters-

Visiting us briefly last week-end was Mrs. Ben F. Allen of Hobbs, who has just arrived here for her plete circle of the globe. She said
the world-wide tour was most interesting. In a round-about
way we heard that Rev. and Mrs.
Mark Cronenberger and Mr. and
Mrs. Doc Foreman saw a bear while on a tour of the area near Bonito Lake recently. . . . Clarke's Insurancy Agency here is making plans to move into the corner building beside their present loca-tion, and will rent their present quarters. The Topeka Daily Capitan and the Sati Francisco Examiner each have lengthy stories about the vacation attractions of Southeastern New Mexico, mentioning Ruidoso, Capitan, Lincoln Mescalero' and other spots nearby, and illustrating the article with a "fun-land map" showing horseracing here, Ole Smokey at Capitan, the dancers at Mescalero, etc. Friends of ours in those places ment us clippings of the piece, written by Edward Collier, who was with the travel editors on a visit in this region earlier this year. . .

Visiting internationally eminent ertist Peter Hurd last week-end was Movie and TV Star Linda Darnell at his ranch near San Patricio. . . . A very regular visitor at Ruidoso Downs this summer has been Movie and TV Star Dale Robertson, who is on hand for many of the races. Audie Murphy, also of movie tame, was in earlier in the season. . . . That's about all the celebrities we can tell you about right now. . . *

A bushel of orchido are due Monjeau road project supervisor Speciger, says Mayor Jack Hull, who reports he's never seen a finer job by a public official in getting the most work done for the dollar spent in putting the secule drive into such wonderful condition. The project will be concluded this week-end and motorists are invited to see how easy it is now to make the trip up to the 10,000toot penoramic view. Also praising Snediger have been Dan Swearingin, who worked through the Rotary Club to get the improvement, and several others who've already viewed the construction. Hate off to you, Mr. Spediger.

BUSY PORT-Typical of how much Ruidoso's airport, sporting a paved landing strip of some 4,700 feet, is used, is this recent week-end photo made from Brown Air Service plane. Underway now is a project to get the landing strip repaired, which suffered severe deterioration during the winter, as did many other airports and highways. Water scopage and freezing weather after heavy snowfalls has caused some of the crust to break away, leaving holes in some parts of the runway. Sixteen planes can be counted parked at the port in this photo, and there are other ships in some of

Watches are to be presented as awards to a number of the winners, with loving

22-Inch Trout Hooked At Bonito

A big one that didn't get away-22-inch trout—was pulled from Bonito Lake Sunday. Roy E. Owen of the state game and fish department vouches for the feat and the size of the fish, although he didn't obtain the name of the lucky fisherman.
"A considerable number were

fishing at the lake last week-end and most of them were doing quite well," Owen related, "although there weren't any other whoppers hooked, so far as I learned."
With the State Game & Fish Department stocking the lake and cooperating with the city in policing the area, the fishing arrangement for Bonito this season is working out pretty well, according to Alamogordo City Manager Rolla Buck. He stresses, however, that many who go to the lake to fish do not heed the signs about where to park, forbidding wading, etc.
"If everyone would read the signs and follow their directions, our task would be much easier," Buck said.
