

# Airport site inspection set

An on site inspection of the proposed Sierra Blanca Regional Airport, by state and federal officials, is scheduled April 13, Richard Hall, chairman of the Sierra Blanca Airport Commission (SBAC) said to The News Tuesday.

Hall made the announcement following a Monday meeting with state officials in Santa Fe to request that the airport site be visited by officials concerned with the project.

Hall, with SBAC members Wyndham Runningwater and George Shoemaker and Ed Jungbluth, executive director of the Ruidoso Valley Chamber of Commerce, met with state officials David King, director of Finance and Administration, Ernest Carriz, assistant director of Commerce and Industry, Bob White, director of aviation in the Department of Transportation and Ray Hampden of the Federal Aviation Administration, Albuquerque.

"The apparent deciding factor to have an official inspection of the airport site," Hall said, "was the slide presentation prepared by Dave Wilson, Ruidoso. Once the officials had viewed the slides, they agreed to come here and personally examine the acreage involved."

"It is the opinion of SBAC, backed by the color slides of the area, that there would be no significant effect on the agriculture experiments being conducted on the mesa by New Mexico State University."

The state officials agreed to contact the office of Department of Interior Secretary Cecil Andrus, Washington, D.C., to request that a representative of his office also personally inspect the site April 13.

"In this case," Hall said, "we'll also request a little more time to coordinate the latest developments in presenting our

RICHARD HALL

facts for favorable consideration by Secretary Andrus to have mesa acreage set aside for our new airport.

"Everyone at the meeting, as the facts were unfolded, gave every indication of viewing the matter with an open mind and all seemed interested. We met in a very friendly atmosphere."

# Angus-Nogal road paving set this year

Blacktopping of an unpaved section of Highway 37 between Angus and Nogal has been scheduled for midsummer, according to the state highway department.

John Whitman, assistant chief highway administrator, said Tuesday that bids for the project would be let beginning May 18. Actual construction normally begins about 45 days following the opening of the bids, he added.

Bidding was originally scheduled to be let in March, Whitman said, but because of

national and international economic conditions, there was a "dramatic cut-back" in the letting of contracts. This move was made, he said in order to keep the "cash balance" of the department at the desired level. Whitman said 1978 was a record year for the highway department in the amount of contracts paid.

Paving of the 4.8 mile section is a secondary project, Whitman said, meaning 70 percent of the funding will be provided by the federal government and 30 percent by the state.

# Hospital has appointed new director of nursing

Ann Kessler is the new director of nursing at the Ruidoso-Hondo Valley Hospital. She arrived in Ruidoso February 12 to take over the position.

Originally from Indiana, she had been employed as assistant director, 3 to 11 p.m., at the Tucson, Arizona Medical Center just prior to her hiring here.

She began her nurse's training at St. Joseph's Hospital School of Nursing in Phoenix, Arizona and completed her

bachelor of science at Arizona State University.

She is currently completing her master's degree in nursing from the University of Arizona.

Kessler said of Ruidoso, "I like it very much," although she was unaccustomed to the climate and is "learning to drive in snow all over again." She is single and enjoys such activities as photography, camping, hiking and racquetball.

# Slaying suspect posts bond

Lionel Aguilar, 32, Ruidoso Downs, who had been held in the Ruidoso jail since early Sunday morning on an open charge of murder and related counts, was released from custody by Magistrate Jim Wheeler, under a \$30,000 property bond, Tuesday at 8 p.m.

Aguilar was booked into jail about 3:45 a.m. Sunday following a stabbing incident that occurred about 2:45 that morning in Ruidoso Downs. Armondo Cardenas, 19, Ruidoso, was killed and Miguel Montelango, 17, Ruidoso, was hospitalized in Ruidoso Hondo Valley Hospital where his condition was listed as stable by a hospital spokesman.

In a first appearance hearing Monday before Wheeler, Aguilar was charged on four counts:

- 1—Open charge of murder, stabbing with a knife, a second degree felony punishable with a prison term of 10 to 50 years, \$10,000 fine, or both.
- 2—Second degree murder or voluntary manslaughter.
- 3—Involuntary manslaughter. (These charges relate to the death of Cardenas.)
- 4—Aggravated battery, with deadly weapon, to wit: a knife, a third degree felony punishable with a prison term of two to 10 years, \$5,000 fine, or both. (This charge relates to the stabbing of Montelango.)

Magistrate Wheeler set the date for Aguilar's preliminary hearing, April 23 at 1 p.m., at which he will be represented by Ruidoso attorney Gordon Schnauffer. It was the understanding of the court Tuesday that assistant district attorney Ed Schnissel, Alamogordo, would prosecute.

At the first appearance hearing Wheeler set bond, on all counts, at \$15,000 with no ten percent allowed. Arrangements were completed Tuesday to effect Aguilar's release under a \$30,000 property bond. The Ruidoso Police Department blotter contains the notification that Aguilar

telephoned the police dispatcher regarding the incident, shortly after it occurred.

Ruidoso Downs patrolman Gary Mixon, notified by telephone of the report, went to the scene. He was assisted by Ruidoso Downs patrolman Ralph Romero, who headed the operation, and by Lieutenant Larry Simon, patrolman Ron Hentges and Dave Pfeffer, Criminal Investigation Division, all of the Ruidoso Police Department.

"I am thankful for the support given us by the Ruidoso policemen," Romero said, "as they responded immediately to assist Mixon and me. I want to thank them for their willing cooperation."

# Lopez, Thrash hearings set

Magistrate Jim Wheeler has set preliminary hearings for Andy Lopez, Ruidoso Downs, charged with aggravated battery and for Lester Glen Thrash, Ruidoso, charged with two driving violations and an incident involving a stolen motorcycle.

Lopez is charged with the April 6 stabbing of Joe Castillo, address unknown, in midtown Ruidoso. The complaint states that Castillo was stabbed with a "knife like

sharp object." Lopez has been released under \$10,000 bond. He will be represented by attorney Mel O'Reilly, Ruidoso, at his preliminary hearing April 23 at 10 a.m.

Thrash is charged with DWI, second offense; Reckless driving and driving while license revoked; and receiving or transferring stolen motor vehicle, a motorcycle. Bond was set at \$1,000 on the driving charges and \$2,500 on the motor vehicle charge, with no ten percent allowed. Wheeler ordered Thrash held in

Lincoln County jail, in lieu of bond, pending his trial and preliminary hearing set at 10 a.m., April 12.

In other court action, Wheeler fined Sylvester Davis, Ruidoso, a total of \$425, paid, on charges of DWI, second offense, driving while license revoked and no 1979 registration, with an additional \$500 in fines deferred. Davis was also sentenced to 364 days in Lincoln county jail, to serve five days, with the balance of the term as probation, under terms set by the court.

RALPH ROMERO, Ruidoso Downs police patrolman, is heading the investigation of the slaying of Armondo Cardenas, 19, Ruidoso.

# Easter egg hunt April 14

Plans were finalized Monday by the Retail Merchants committee of the Ruidoso Valley Chamber of Commerce for the April 14 Easter egg hunt to be held in Two Rivers Park.

The hunt will last from 10 a.m. to noon and 1,200 cooked eggs and 100 plastic eggs with prizes will be hidden. Children will be divided into two groups for the hunt according to age. Children 6 and under will

hunt in one section and children 7 to 12 will hunt in another area of the park.

The Retail Merchants committee decided to place a certificate describing the prize in each plastic egg. To claim the prize, the children would be required to go to the store. "This should encourage more business for the merchants who donate prizes," Richard Sandoval, committee chairman said.

The eggs will be dyed by 50 fourth

graders from Kathy Weems' and Nan Wierwille's classes. Girl Scouts will also help dye the eggs. This project will be at White Mountain Elementary cafeteria April 12 after school.

Members of Ruidoso High School's DECA organization will hide the eggs. Sandoval reported that the price of eggs rose this week and the cost to the committee will be 81 cents per dozen wholesale. Donations from service clubs in Ruidoso and money set aside by the Chamber will pay for the eggs.

The committee discussed the promotion they are sponsoring which includes a special section in The News to be published April 12. News' publisher, Ken Green, met with the committee to advise them of plans they should be making now for any promotions the committee hopes to sponsor in the future. Green suggested the committee adopt a calendar of events around which they could plan special promotions.

The committee also:

- Welcomed Larry Langford, Cupp Hardware, as a member replacing Mike Sutton;
- Discussed inviting someone from the State Department of Highways to a future meeting of the board to investigate painting crosswalks in Midtown;
- Discussed the goals of the committee;
- Proposed projects for the future, including recognizing a race track employee and a ski resort employee each month during the summer and winter seasons;
- Set the next meeting for May 7 at noon at the Chamber of Commerce meeting room.

# March building permits exceed \$1.6 million

Building permits issued by the Village of Ruidoso during March again topped the million dollar mark in estimated costs of construction, according to zoning officer Emory Hatcher.

The grand total of \$1,622,400 included 23 single-family dwellings (SFD) at

\$1,165,800; one multi-family dwelling (MFD), four units at \$180,000; three commercial buildings at \$179,610; eight residential additions at \$114,990 and two other additions or alterations at \$22,000.

The following is a list of permits issued, by subdivision, type of construction, square footage and estimated cost of

# Jaycees set carwash day

The Ruidoso Jaycees will be sponsoring a car wash this weekend at the Gateway Shell station. Saturday, the Jaycees will be working from 9 a.m. to 5 p.m., and Sunday, from 11 a.m. to 4 p.m.

All proceeds from the car wash will be used for community projects.

# Ruidoso Downs trustees study police problem

The impending resignation of Chief of Police Lynn Martin at Ruidoso Downs, caused the village trustees to study staff problems at a special Wednesday night meeting.

The recent resignation of Lieutenant Fred Bernard, leaves the force short one patrolman; with Martin and patrolmen Ralph Romero and Gary Mixon, who has just received certification, on duty.

The trustees were advised by village attorney Richard Parsons that they could, under existing ordinances, advertise for a patrolman to bring the force to authorized strength.

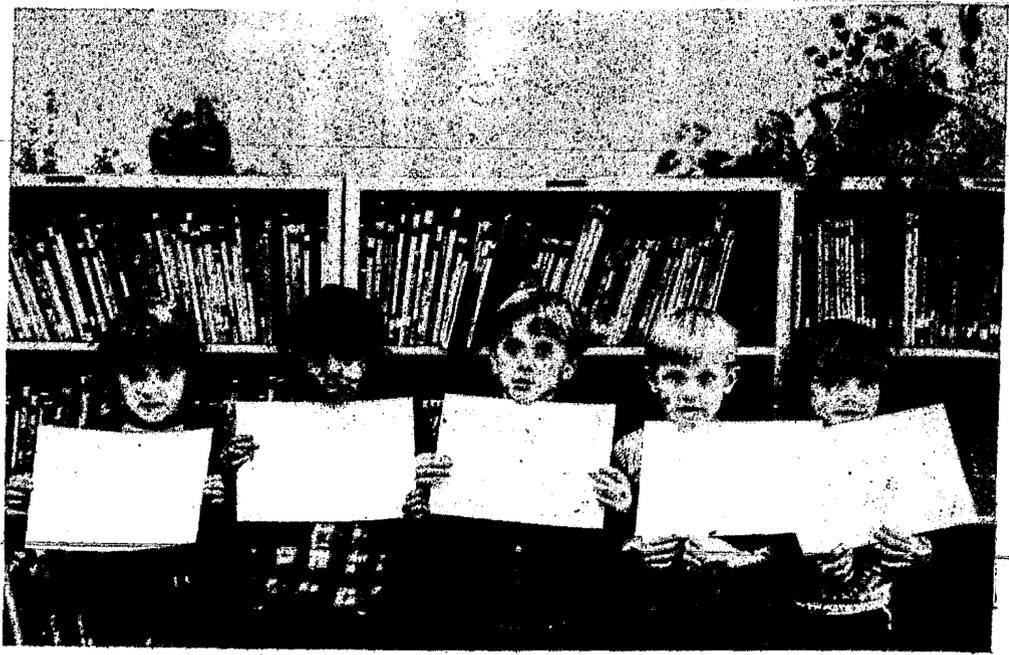

With an unanimous vote, the trustees authorized Martin and mayor Norman Wheeler, as police commissioner, to appoint an officer-in-charge, as second in command in the absence of the chief. By resolution, the trustees will adopt a revised pay scale for all officers. This action will be considered at the regular meeting of the trustees Monday at 7 p.m.

THESE MAY LOOK like members of the White Mountain Search and Rescue club displaying their equipment or getting ready to go search and rescue; but they're really enchilada dinner ticket salesmen. Proceeds from the Ruidoso-Hondo Valley Rotary Club's semi-annual enchilada dinner at the Elks Lodge April 17 will go to the Search and Rescue group for even more

equipment than pictured here. And, clever folks that Rotarians are, they told the searchers and rescuers that if they gets the money, they sells the tickets. The meal will be served from 11:30 a.m. to 1 p.m., and from 5 to 8 p.m. Tickets are \$3 for adults and \$1.50 for children and are available from any Rotarian, Search and Rescue member, or at the doc.

PERFECT ATTENDANCE AWARDS WERE given out to worthy kindergarten students at Nob Hill Elementary School Friday. They are, from

## Drivers warned on brake fluid

The Motor Vehicle Division of the Transportation Department is alerting the motoring public to the possibility of dangerous brake fluids being sold in the state.

Reported by the Texas Department of Public Safety, the defective fluid can be identified by the trade name and batch number on the bottom of the containers. The failures were on batch number 833 on the Certified Hydraulic Heavy Duty Brake Fluid and batch number 35 on the Puma Heavy Duty Drum and Disc Brake Fluid.

The Texas Department of Public Safety reports the test results from both the Puma Brake Fluid and the Certified Brake Fluid failed standards as set forth in the Federal Motor Vehicle Safety Standard No. 166. These failures are critical and could lead to possible failure of the brake system in an auto. Both companies are recalling the defective batches.

## Republicans elect officers and delegates

Republican officials for Lincoln County were named at the March 31 convention in Carrizozo.

Elected were: Penta Pool, county chairman; Bill Gallacher Jr., vice chairman; Mary Helen Skeen, vice chairwoman; Ailene Lindamood, secretary; and Al Junge, treasurer.

Elected as delegates to the state convention April 22 were Judy McKnight, Ben Hall and Fred Pool. Alternates are Sterling Spencer, Ailene Lindamood and Al Junge.

STUDENTS WINNING GOOD CITIZEN awards last month at Nob Hill Elementary School are, front row left to right: Talory Scott, Tiffany Snodgrass, Tera Miller, Angela James, Greg Radziewicz, Sterlen Kane, Albert Rainey, Glenda Marquez and Stephanye Garms; second row: Wendy Wells, Jamie Fullerton, Melissa

Baldonado, Jenifer Parker, Lori Swalander, Inette Berry, Todd Waldron and Cordy Rlerson; third row: Dusty Skellett, Julian Sanchez, Aurellano Matalonggo, Teresa Herrera, Tisha Sanchez, Hays Allen, Crystal La Valle and Mandy Farus.

## citizen's view

### The Rush to Rewrite Our Constitution

By DAVID COHEN

The Constitution is America's basic document. We have a responsibility to treat it with care for it serves us well. It enables the majority to govern while it protects minorities against abuses of government power. It fixes responsibility with elected officials to fashion specific remedies that correct citizens' major grievances.

The move currently underway in the states calling for a constitutional convention to require a federal balanced budget has to be taken seriously. I worry that the care that should be taken in proposing constitutional amendments has been shunted aside. Any constitutional change deserves extensive public discussion and deliberation.

Twenty-eight state legislatures have called for such a convention and research by Common Cause on the first twenty-one petitions shows how seriously flawed the process has been. Instead of orderly deliberation with open hearings, public discussion and recorded committee votes, in fact, only six states issued committee reports explaining the proposed action; only six states held public hearings; and in two states no committee even considered the petition before the legislatures raced passage through.

Congress, state legislatures and citizens should be convinced, beyond a reasonable doubt, of the necessity of an amendment rather than cater to the passions of the day. As President Lincoln, in speaking about "the general proposition of amending the Constitution," said:

"As a general rule, I think we would much better let it alone. No slight occasion should tempt us to touch it. Better not take the first step, which may lead to a habit of altering it."

David Cohen is President of Common Cause, a non-partisan citizens' lobby.

For the call to a constitutional convention to get this far tells us that our representative institutions have ignored people's concerns. The drive is capturing a deep-seated public anger about government's failure to provide good value for hard-earned tax dollars. It gives citizens the chance to vent their anger about paying for the costs of an ever-growing federal bureaucracy.

Elected officials had better heed the message that our tax dollars have to be carefully spent on important public needs; that unresponsive bureaucracies have to change their bad habits; and that waste in government has to be eliminated. But rather than rushing for simplistic solutions, they must do what is expected of elected officials—face up to our problems. We've faced crises before without having to rewrite the Constitution.

There are practical steps Congress and state legislatures can take that will make a real difference.

Congress should follow the states' lead in passing Sunset legislation which calls for the termination or modification of programs that have proved ineffective or outlived their usefulness. Thirty states have enacted Sunset legislation.

The states should follow Congress' lead and pass legislation reforming their civil service systems to make them more responsive to the citizens they are supposed to serve.

Congress should consider carefully the pros and cons of writing economic theories into the Constitution. It should not rush into judgment. The states should do the same before calling for a constitutional convention.

## Music/Drama Camp scheduled

Inspiration Corporation of Ruidoso has announced plans for the annual Christian Music and Drama Camp, to be held this year in the facilities of the Community United Methodist Church, June 3-7, June 24-July 8 and July 15-29.

A choice of three two-week sessions are available for students who will enter sixth grade this fall through college age. These will be live-in classes and will include many types of private drama and music lessons such as voice, percussion, violin, piano, brass, woodwind, theory, guitar and stagecraft. The fee for the camp will include room and board.

A day camp, which will hold afternoon rehearsals, will be available for children ages four through those entering fifth grade in the fall, June 10-17, July 1-8 and July 22-29.

Nine staff members will be employed in teaching and other duties.

Joyce Nix will teach violin and piano. She has 25 years of teaching experience and has performed in many symphonies, including the Midland-Odesa and Texas Symphony, with whom she played for four seasons.

Laurie Prophet will serve as girls' counselor and teacher of flute. A sophomore at Oral Roberts University in Tulsa, Oklahoma, she has taken several first place awards in flute, piano and voice

and has performed on stage and done choreography for many Christian theatrical productions.

Lisa Powell will teach guitar and also serve as girls' counselor. A music education major, she has taught guitar at Ruidoso Music Company. She toured Europe with America's Youth in Concert in 1977 and has received many first place honors in voice.

Carlene Wadley, who will teach voice and drama, received her training at Indiana University School of Music. She studied under Charlene Peterson, a top soloist with Robert Shaw and has performed in and directed shows and choral performances in Indiana, Michigan and New Mexico. She has many years of counseling experience and has had first hand experience working with communications personnel from Christian Theological Seminary as well as professional dinner theatre and Christian Drama directors.

Tim Wadley will serve as musical director and will teach brass, woodwinds, percussion and theory. He is a graduate of New Mexico State University and has studied with Anthony Britton of Texas Tech University. He has played with the El Paso, Texas and Roswell symphonies and has served as conductor for elementary and high school bands and pit orchestras.

In addition, he has worked with show and madrigal groups in Alaska.

Gary McPherson, a graduate of Oral Roberts University in Tulsa, Oklahoma, will teach clarinet and saxophone and serve as boys' counselor.

Phil Vega, who is in his second term at Christ for the Nations Institute in Dallas, Texas will be in charge of stage equipment and aid with boys' counseling.

Ron Griffith, another teacher of voice, was formerly head of opera and assistant professor of music at Eastern New Mexico University. He has also taught in high schools and at Abilene Christian College and produced and directed "Sounds of Joy" in 1973 in Carlsbad. He recently cut his first record album. He is sales manager for Newspaper Bible Incorporated, and a well-known speaker in the Southwest.

Chefs for the camp will be Max and Midge Blackmon of Las Cruces. They have had years of experience cooking for large church groups.

The board of trustees of Inspiration Corporation include Tim and Carlene Wadley, the Reverend Noble Wiltshire, Ron Harris, Dorothy Apodaca, Lee Puckett, Judge James Wheeler, Janice and Ralph Bellon.

## Cancer control program here

BY GWYNETH JONES  
Staff Writer/Photographer

Over the past year, about 400 Ruidosans have taken part in a program of which one of the major "fringe benefits" is peace of mind.

That program is the cancer control unit at the Ruidoso-Hondo Valley Hospital, designed to make early detection of several of the most widespread forms of the disease.

The control unit was established as part of the New Mexico Cancer Control Program, administered through The University of New Mexico and the Southwest Health Care. It is a cooperative effort of Presbyterian and affiliate hospital, St. Joseph's Hospital and the New Mexico Consortium. Funding is provided by a five-year grant from the National Cancer Institute.

Several public health educators work closely with medical personnel to help inform the public of their work.

Program director Jayne Berg said the idea is to get the message across that "cancer can be cured if caught in time," and in the event of the cancer patient with an advanced case, "the quality of life can be improved."

Berg and Linda Agnes are certified nurse practitioners who make the physical examinations which stress the target sites of the program. The types of cancer being stressed are head, neck and skin, lung, colorectal, cervical-uterine in women and prostate-testicular in men. Patients are also taught breast and testicular self-examination.

At present, there are about five units in operation around the state. After a year, the organizers will leave the community but will hold educational sessions so that the program can continue after they move on.

While the nurse practitioners perform the medical examinations, the health educators make presentations to groups about the workings of the unit. At the same

JAYNE BERG

time, the "logistics and mechanics" of clerical work such as setting up appointments is being handled by the volunteer workers or "Pink Ladies" at the hospital, who have adopted the unit as their yearly project. A secretary also helps the group.

## Garden Club members saw slide program on southland

The Ruidoso Garden Club's March meeting continued the theme of "The World in my Garden," with a tour of "Gardens in the Southland" via a slide program presented by Mrs. Roy Avery. Mrs. Ellen Miller, club president, conducted the business meeting discussing the club's pen pal relationships with Fort Stanton students as well as the visits of the "Granny Girls," members of the club who make weekly visits to the school/hospital. Activities of the Service Club Council were discussed and the club voted to become a member of the Friends of the Library organization. Members were urged to attend the spring district meeting in Roswell, the regional meeting in Odessa, Texas and the state Garden Club Convention in Farmington, all of which will take place within the next month.

Hostesses for the refreshments, served from a table decorated in a spring motif, were Mrs. George Luck, Mrs. C.J. Montgomery and Mrs. J.A. Sillswood.

# Hunting seasons announced

## School Scoop

A Weekly Activities Column Written by Ruidoso High School Journalism Students

The State Game Commission set a six-period deer hunting season, with separate periods in each half of the state, during its big game regulation hearings in Santa Fe February 9.

The commission voted to keep the choose-your-weapon requirement for deer hunts; deer license buyers will again be required to select either a bow, a muzzle loader or a modern firearm and hunt only during the seasons designated for the particular type of arm. Those choosing modern firearms may select any one of the half-dozen hunt periods open to rifle hunting. The schedule is the same north and south: a two-day opening hunt followed by five and seven-day hunt periods. The season will be: North, November 3-4, 7-11, 14-20; South, November 10-11, 14-18, 21-27.

Deer hunters in the Guadalupe and Mt. Taylor units may also purchase a Barbary sheep license and hunt them in addition during the regular rifle deer season.

Elk seasons include six hunt periods as well, three before the November deer season, October 5-7, 10-15, 18-23, and three after, similar to last season's regulations. The commission commended two landowners as they established an elk hunt open only to persons confined to a wheelchair, that was expanded in area and number of licenses through cooperation of the Vermejo Park and Moreno ranches near Cimarron. Up to eight licenses will be available for the hunt on Vermejo, and three on the Moreno. The final elk hunt of the regular season, December 8-12, will be limited to the "P" areas, which are mostly public lands, to hunters who hold antlerless-elk validations. The other two late elk seasons, November 24-28 and December 1-5, will be bull-only hunts.

Bowhunts for antelope were expanded to include four periods in September for 25 archers each weekend on Fort Wingate near Gallup.

The bag limit on cougar will be two per license, with the extra tag issued after the first animal is taken.

The following is a synopsis of the regulations adopted Friday; for full details, consult the 1979-80 proclamation, "Big Game and Turkey Seasons, New Mexico," scheduled to be at license vendors by April 1, the beginning of the new license year.

### BIG GAME SEASONS - 1979-80

## Thinclads boast sturdy lineups for Hagerman relays Saturday

BY JOHN NEYLAND

The Ruidoso High School girls' and boys' track teams take to Hagerman Saturday for the Hagerman Alfalfa Relays, still pointing toward the district meet a month away.

Girls head coach Sergio Castanon said if the district meet was run today his girls would win. Instead, the girls will be hoping to improve with each meet before then to be even better.

"Our times are good enough to win now," he said.

One reason for that, Castanon said, is that his squad has been working harder this week than all season. Earlier in the season, more than 10 girls quit the squad. That hasn't been a disadvantage thus far.

"The girls that have stayed out have been working very hard," Castanon said. "They complain because I'm working them so hard. They call me slave driver."

The girls will have to work just as hard Saturday at Hagerman as they've been working this week. Senior Kristi Perryman, the leading point scorer in meets for the Warriors this season, was running practice Wednesday when she "pulled up". Castanon hopes the injury isn't serious.

Perryman is entered in four events. Last week at Jal, she placed in three totaling all Warrior points in the meet. Castanon said the Warriors aren't a one girl team. He is counting on the return of injured Ruta Bob to score points in the mile run and he is hoping the relay teams begin to pick up. He's confident they can.

"I'm hoping to take the relays to state," he said.

Running the 100 yard dash along side Perryman will be Cyd Wright and Karen Boone. Next to Perryman and Boone in the 220 yard dash will be Tammy McCulley.

Celesta Chee, Connie Howard and Debbie Jo Almager will run the 440 yard dash for the Warriors. Toni Scarborough will carry the torch for Ruidoso in the grueling 880 yard run.

Perryman and Almager will run the 80 yard low hurdles along with Patricia Evans. Cyd Wright will join Perryman and Almager in the 110 yard hurdles.

The relay teams Castanon has high hopes for the rest of the season consist of Wright, Pam Stone, Toni Scarborough and Karen Boone in the 440 yard relay. In the 880 yarder, Castanon counts on Kelly Milholland, Patricia Evans, Tammy McCulley and Almager.

In the mile relay, Chee, Leslie Greggerson, Margaret Walsh and Connie Howard carry the banner for Ruidoso. Cyd Wright, Pam Stone, Toni Scarborough and Karen Boone run the 880 yard medley relay. Wright and Stone run the first two legs of the relay, 110 yards each; Scarborough runs a 220 yard leg while Karen Boone runs the final leg, a 440 yarder.

Castanon is counting on Lisa Delhotal, Valerie Barber and Margaret Walsh in the discus; Bizzell, Delhotal, Walsh and Barber in the shot put. Connie Howard and Toni Scarborough are in the high jump with Tammy McCulley, Karen Boone and Pam Stone in the long jump.

The boys' track team, like Castanon's girls, have relied heavily on one person for points. Senior Mark Dutton has paced the Warriors with wins in the long jump and high jump. He did that, coach Darrell Stierwalt said, while suffering from shin splints. Opponents at Hagerman should be forewarned: Dutton is healthy.

Besides the high jump and long jump, Dutton heads two Warrior relay teams. Jeff Elliott, Kannon Mayberry and John Cabot join Dutton on the 440 and 880 yard relays. They will be looking to improve on last week's sixth place finishes.

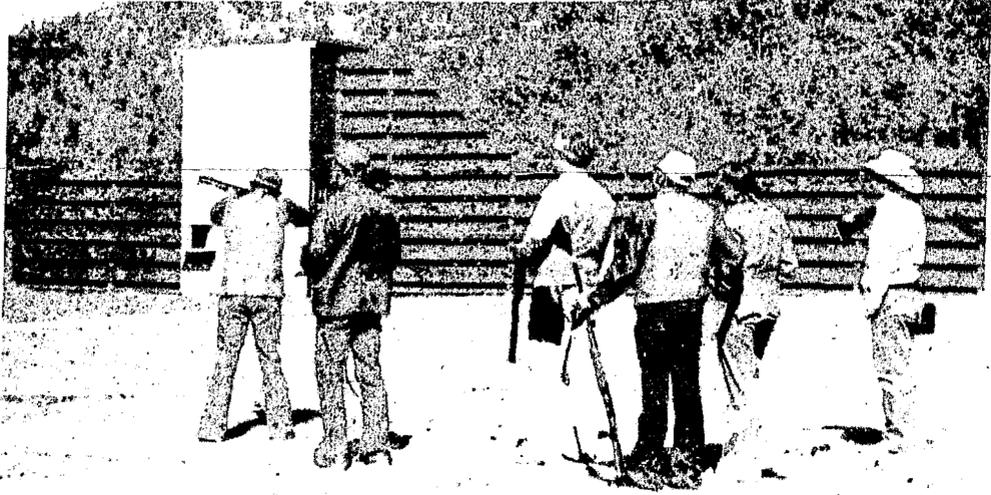

Ruidoso's two other relay teams also posted sixth place finishes at Jal. Relays offer more points than other events, so even a small jump to fifth or fourth place would add important points to Ruidoso's cause. The mile relay team consists of Steve Pietsch, Yon Rue Russ Pior and Ricky Dennis.

In the 100 yard dash, Stierwalt counts on Kannon Mayberry, Pietsch and Ricky Rogers to bring home the ribbons. Pietsch and Mayberry, along with Rue run the 220 yard dash. Bode Williams, Stan Cape and Russ Pior run the 440 yard dash.

In the distance runs, where Ruidoso has had as much success as Dutton's leads have brought, Joe Almager, Tim Enjady and Craig Sullivan run the mile. Almager has finished second in the event in two previous meets. In the two mile, Ruidoso boasts Sullivan, last week's winner at Jal. Jovain Smith, who garnered a fifth place finish, and Marlin Randall round out the trio in the two mile run. Troy Garrity, Jay Rauterson and Karl Wenner run the 880 yard run for the Warriors.

In the hurdles, Stierwalt hopes Dutton's health will help the Warriors score points. Also in the 120 yard high hurdles is senior Stan Cape. Cabot, Scott Neal and Pat Matthews run the 180 yard high hurdles for Stierwalt.

Stierwalt also hopes the Warriors can improve their field events. He worked with them Wednesday to aid their development. In the shot put, Godfrey Enjady, Mark Boggs and Curt Temple are the men he counts on. Enjady, Boggs and Scott Annala will probably toss the discus for Ruidoso at Hagerman. Boggs, Steve Cox and Cody Browning are the Warrior hopefuls in the javelin.

TOM HARGROVE (left) OF ROSWELL takes aim at an out-of-the picture target in Sunday's April Fool's Day skeet shoot at the Inn of the Mountain Gods. Hargrove's shooting took place

in class B of the 20 gauge division in which he hit 93 of 100 targets to take the title. Watching from left to right: Steve Bernard, Terry Turner, Betty Martin and Larry Wilco.

## Ten shooters take 15 titles at shoot

Ten shooters captured 15 titles in Sunday's April Fool's Day Skeet Shoot at the Inn of the Mountain Gods Skeet and Trap Range.

The best shooting of the day came in the championship class of the 12 gauge division. Clarence Bell hit 98 targets out of a possible 100 to take the championship title.

Four shooters hit 95 targets out of 100. In doing so, each won their respective classes. Charlie Martin hit 95 to win the championship class in the 20 gauge shoot. Robert D. Wallace, also in the 20 gauge division, hit 95 birds to win the AA title.

Charlie Martin repeated his performance in the 12 gauge division later in the afternoon. He hit 95 targets to capture the B class. Robert Vaughan, also shooting in the 12 gauge division, hit 95 targets to win in C class.

Charles Adams shot the next highest percentage of birds in both the 12 and 20 gauge divisions. He hit 94 in both divisions to win the class A titles.

Other two event winners were: W.L. McDaniel, who hit 86 and 89 targets to win the 20 gauge class C title and the 12 gauge class D title, respectively; Jerry Martin hit 91 and 90 targets, respectively, to win the class D and class E titles in the 20 gauge and 12 gauge divisions. Pete Kalze, shooting in the "no class" class, hit 88 and 91 birds to win that event in the 20 gauge and 12 gauge divisions, respectively.

## Women's softball meeting set at the Library

All women interested in being part of a softball league in Ruidoso are urged to attend a meeting Monday in the library at 7 p.m.

A small league was organized last year in which four teams participated but league officials hope to expand to six teams this year.

The Monday meeting will be an organizational session. A tentative starting date will be set and officials will be elected. For more information, contact Joann at 257-2076.

Jerry Cooper and Tom Hargrove rounded out the winners' list with impressive credentials. Cooper hit 90 targets in the 12 gauge division to capture the AA class. Hargrove's shooting was done in the 20 gauge division. He hit 93 targets to take

the class B title. The Inn's next scheduled event is a trapshoot set for April 14 and 15. The next skeet shoot will be the three day Mesalero Apache. 410 Challenge, May 4, 5 and 6.

## Equitable Ski Challenge Sierra Blanca winners advance to national championships

Two teams, one a father/daughter team, the other a mother/son team, that originally won Equitable Family Ski Challenges at Sierra Blanca, earned the right to compete in the Equitable Family Ski Championship in Snowbird, Utah April 7-11.

The father/daughter team, Leon and Marianne Moore of El Paso, Texas earned their spot in the nationals by winning their regional title in Taos with a combined time of 74.20. Marianne is 10-years-old.

The mother/son team, Pam and Rhett Hoestenback of Odessa, Texas also earned their spot in the nationals by winning their regional at Taos with a combined time of 82.50. Rhett is nine-years-old.

To win on the regional level, the parent's fastest time is combined with that of the

child. Both have two opportunities to achieve their best times.

The winners of the national titles will be decided in the same manner. Winners will be declared in four categories: father/daughter, mother/son, father/son and mother/daughter.

Other contestants at the nationals will be United States such as Belleayre, New York; Stratton Mountain, Vermont; Stowe, Vermont; Water Valley, New Hampshire; Cascade Mountain, Wisconsin; Keystone, Colorado; Alpine Meadows, California and Taos.

The national finalists, of which there are 32 in the four divisions, emerged from a field that originally numbered over 37,000 skiers from 53 participating ski areas in 23 states.

## Gymnast group sets two nights for registration

Registration for the Ruidoso Gymnastics Association will be Monday and Tuesday at 7 p.m., at White Mountain Middle School.

Parents of registrants must be present to sign the insurance forms.

Children aged between five and 18 are eligible to join the association to be introduced to formal gymnastic training. Classes will be held three nights a week plus one weekend day, with times and

dates to be announced. Registration fee is \$20 per month, per child. The fee covers insurance, equipment and instruction.

Thus far three instructors have volunteered their services to the children. Tim Wadley, Suelyn Speegle and Beth Sayner

have volunteered their time to instruct the kids. One other volunteer is needed. That person does not have to be presently certified, but must become certified in the future.

## Warrior boosters to meet tonight

The Ruidoso Warrior High School Booster Club will meet Thursday in the teacher's lounge of the high school at 7:30 p.m.

The All-Sports Banquet will be the main item on the agenda and all interested persons are urged to attend.

# Inside The Capitol

by Fred McCaffrey

SANTA FE — This was a week of quiet in the Capital City. Almost ominous quiet.

After the Legislature goes home, leaving on the desk of the Governor whatever bills it has seen fit to pass, things here grind down to a slow halt.

There is not much for the press to look at. About all we do is hang around to wait on whichever bills the Governor will endorse and whichever ones he will kill.

How does a Governor decide? Out of 440 bills passed by both houses of the Legislature, what makes him reach the conclusion to sign some and veto others?

Probably, most Governors would like you to believe their decisions are made on purely legal grounds. They say, when they kill a bill, "My legal staff tells me this would not be good for the state of New Mexico."

But there are other considerations. They come under the general heading of something distasteful, called "politics."

Take the case of one law the Legislature left on the Governor's desk. What it does is separate the Employment Security Commission from the Human Services Department, to which it was attached only last year.

That's a good idea, as most people who have watched the operation of Human Services will agree. What these two organizations do is not so similar that they should be gathered under a single roof. Each is probably big enough, in and of itself, to merit being a solo operation.

But Governor King's choices haven't been that clear and clean.

While the bill to accomplish this

separation was going through the Legislature, supported in principle by most of the members of that body, some things got added.

For instance, there is an amendment which cuts the period of time anyone could be paid unemployment insurance.

Governor King, who is something of a humanitarian by instinct, as well as a man much indebted to the labor unions, of the state for the vote they provided him, does not necessarily want to sign that portion of the measure.

But it's approve the law with that provision or kill the whole thing.

A hard choice for the Governor. Which would you do?

Ah, yes. But then you don't have to look at the "political" considerations.

A Governor does. That's why, in the early days, what you saw from the Governor's office was a lot of signing of bills which do not have long-term effects — the "do not matter very much" bills.

Only in the closing days of his period of time allowed by law do you see the difficult ones, the ones with the "political" aspects, being killed or passed.

Being Governor is a tough task. Nobody in his right mind should envy this man. He has tough decisions every day, of which those having to do with the bills which passed are only a small part.

Still, somehow, despite all his on-the-job problems, we never find a shortage of people who want to be elected governor of our state.

It almost makes you wonder what it is that drives them to take this tough and unrewarding job.

## Sense & Nonsense

U.S. Sen. Pete Domenici

WASHINGTON, D.C. — A few weeks ago I did a tongue-in-cheek column regarding federal forms and other government regulatory chokeholds; an attempt to fight nonsense with nonsense.

Since then I've received the results of a poll taken by the Forum on Regulation (FOR), an arm of the Agriculture Council of America.

Over two million Americans were queried in this poll, the questions dealing with federal regulations and their effect on Americans.

It's interesting to note that in only two areas did the majority of respondents feel that Americans are better off as the result of government regulations. Those areas are water and air pollution, and advertising, packaging and labeling.

Seventy-seven percent of those polled feel the country is worse off because of regulations in schools and education, 73 percent feel the same about regulations on hiring and employment, and 82 percent think we are worse off because of government regulations on business operations. Here are some additional statistics of interest:

— 83 percent of the respondents felt that most federal regulations are not needed;

— 88 percent said that regulations aren't working the way they're supposed to;

— 90 percent said federal regulations are not practical and are badly thought out;

— 95 percent said those regulations are complicated and confusing;

— 81 percent said the regulations aren't fair to the people affected by them.

With that many Americans obviously feeling strongly about the effects of government regulations, one would think government would take steps to rectify the situation.

Trouble is, that means regulations concerning regulations, regulation upon regulation upon regulation.

And the nonsense grows like Topsy.

BEWARE OF A VICIOUS HOAX making the rounds again, a hoax that has been disappointing millions of veterans since 1948.

My Roswell office reports that it has received some queries concerning alleged dividends on GI insurance that veterans allowed to lapse years ago.

A letter, which has spawned rumors which have spawned more letters and rumors; claims that veterans can receive a dividend of 55 cents per \$1,000 of their GI insurance, whether it has lapsed or not.

That simply isn't so and the Veterans Administration has been trying for 30 years to quash these rumors and find the erroneous letter's author or authors.

Insurance dividends are payable only on policies that are kept in force.

So, if you're a veteran and you receive one of these "official" forms in the mail, telling you to write the VA and claim your dividend on a lapsed insurance policy, be wary.

It's somebody's idea of a very unfunny joke.

### editorial

The News has publicized the "dog problem" in Ruidoso and Ruidoso Downs for years. We have editorially supported dog control. We still do. The latest efforts of the people charged with finding solutions to the problem are the strongest evidence we've seen yet that the "dog problem may not always be with us.

That is, except for one solution.

Traps.

First, we think it'd be more humane to gut-shoot a wild dog with a .22 hollow point, than to trap him.

Second, we don't think it's terribly wise to encircle a popular resort area with traps.

One of the reasons folks come here or live here is to enjoy walks in the area. Small children roam the area freely, especially during the summer months. One child caught in a trap would cause the Village a lot more headaches than the dogs. We've already heard one local attorney say he'd happily take the first case.

Traps are not the answer to the "dog problem." — kg

### ON NUCLEAR WASTE

The attention of lots of people ... here in Harmony Valley, as well as in Pennsylvania ... has been focused on radioactivity ... and accompanying factors ... since the Three Mile Island nuclear plant mishap ... and interest's really running high around Harrisburg ... 'cause those Pennsylvanians there are mighty concerned ... what with the possibilities of control of radiation being more important than what happened to the groundhog.

'Cause those folks back east can take succor in the fact that Our Jimmy personally eyeballed the situation ... 'cause his qualifications include being a nuclear engineer on a Navy submarine ... and he did pronounce ... to the relief of everyone ... that everything's being done that can be done to see the damage's undone ... or whatever.

Which brings to mind the WIPP hassle ... and the question as to why nuclear waste can't be buried in the remote reaches of White Sands Missile Range ... or up on the mountain where abortive missions to find missing gold won't be scheduled again ... 'cause nothin's been said about salt deposits there ... and the Army don't want us'n's traipsing around their firing range nohow ... so, who'd be hurt? Besides, it's a cinch no Army personnel'd go prowling around buried deposits of radioactive material ... and if'n they did, that'd be their problem ... no?

### A YOUNG MAN'S DEMISE

I was, at the last, on speaking and brief conversational terms with the young man ... aged 18, he was ... that died ... allegedly ... of knife wounds early Sunday morning ... and I'm much better acquainted with some of his young friends ... and they're, as an understatement, shook.

Armando Cardenas ... to me ... was a pleasant and uninhibited young man ... somewhat reserved at times ... relaxed and gregarious at others ... but never did I see any exhibitions of temper ... or hear, from his close friends, that he was prone to have a short fuse.

With no facts at hand on the incident ... it's impossible to know of the circumstances leading to his death ... but it seems a shame ... 'cause, at age 18, he'd really hardly had time to assess his

potential ... of which, in my opinion ... he gave every evidence of having plenty of.

Perhaps ... in the final analysis ... his close friends can benefit from his mistakes ... because he certainly must have made some ... one, at least ... in being where he was.

Tragedy, it seems, occurs ... and should his death be an inspiration to his friends to improve their lot in life, I'm certain that would be as Armando would have wished ... because, if a friend needed a helping hand ... Armando always had two that were not only available, but willing.

### ON LOOKING AHEAD

In just 29 days ... by the calendar ... at 1:30 p.m. ... it'll be Post Time! ... and the ponies'll be off and running for 68 race days ... with ... after the May 11-13 opener ... action Thursday through Sunday ... right up until the wind up of the thrills on Labor Day. Gadzooks ... Post Time's just a short month away ... and it ain't even February ... yet.

Now there's many and several problems that'll be facing all of us here ... as all of those from other parts descend upon us ... for the "season" ... with perhaps one comforting thought being all of them'll be having to put up with what all of us'n's'll be ... 'cause inconveniences aren't known to differentiate much between sufferers.

However ... look on the bright side ... one day, if'n unforeseen entanglements stay that way ... there'll be no more polluting of our beautiful, merrily gurgling, Rio Ruidoso ... there'll be water aplenty ... so that none have to suffer for want of a glass of ice tea ... and ... again if'n all things are equal ... there may be a shortage of pot holes on our streets ... which may, or may not, result in fewer drug busts.

Anyhow ... as Our Jimmy says ... in due course things will improve ... and let us hope no one decides to import an advisor from Georgia.

So hang tough ... keep your fingers crossed ... vote for the new sewer system ... and hope that we're overrun with tourists/horsey types this summer ... all aching to continue to enjoy our wonderful brand of hospitality.

BRIEF BIT: In the event you harbor any doubts as to who is in the driver's seat as Governor ... you might ask Lieutenant Governor Roberto Mondragon ... CD

### APPLIANCE INSTALLATION . . . Home appliances

can make a big difference in your utility bill, so they are an important checkpoint in the Energy Checked Efficiency Program. Locate the washer and dryer in areas away from air conditioned parts of your home. Heat and moisture from these appliances cause air conditioning to work harder. In the kitchen, install an exhaust vent to remove excess cooking heat and moisture from the range. Select appliances such as a refrigerator, dishwasher and washing machine with economy of operation in mind. The lower the wattage requirement for an appliance, the less it will cost to use that appliance. Save on utility bills by making your home an Energy Checked Home. To learn how, just give us a call.

## Sunland Park Hoofbeats

By Karen Halloran  
**THE WEEKEND WAGERING** pace got off to a quick start when Friday's handle hit \$206,608. That was the highest Friday afternoon handle in track history. Saturday was another corker, as \$327,819 went through the mutual machines. Sunday, a hefty crowd wagered \$375,987 — setting a seasonal record. The previous mark of \$373,048 was carved out February 4. The peppy weekend business trend swelled the daily average up to \$259,095 and that's the highest average ever posted at Sunland. It's also a gain of 11.4 percent over the \$232,542 at this point last year. Sunland patrons are currently betting an average of \$21,858 per race. Last year at this time, the per race average was \$20,886.

**NATIVE BUX**, a gelding from Los Alamitos, dominated his West Texas Derby trial heat by a neck Saturday to establish the top qualifying time for the upcoming \$43,458 finale. The son of Heisanative, who holds a career money line of \$13,714, went wire to wire as a 12-1 outsider for a clocking of 19.85 seconds. He's owned by Western Slope Air Drilling, Incorporated of Odessa, Texas.  
**OTHER WEST TEXAS DERBY** qualifiers: Larkin Royal (19.89), Miss True Truckle (19.90), The First Edition (19.92), Domintos (19.96), Master Kit (19.97), Mr. Rocket Seeker (19.99), Trucklin' Moon (19.99), Tour De Force (20.00), Pass Em Boy (20.01).  
**THE TOP MONEY LINE** of the West Texas qualifiers and the probably favorite

is The First Edition. The impressive colt triumphed in both the West Texas Futurity and the Sun Country Futurity last year and remains undefeated at Sunland. His career earnings stand at \$119,687. Billy Rex Hardy owns and trains the sophomore who outdid his trial competition with a half-length win.  
**LARKIN ROYAL**, the second top qualifier, went through the 1977 All-American Yearling Sale for \$50,000 and has never finished out of the money. The colt, by Thermos out of Larking Kit, is owned by Darrell Kisse of Miami, Oklahoma trained by Donnie Stewart and ridden by Jerry Burgess — the same team behind top West Texas Futurity qualifier Easy. Larkin Royal knocked over his trial division by a breezing 1/4 length margin. Donnie Stewart also trains two other Derby qualifiers — Miss True Truckle and Master Kit.

**WILLIE LOVELL** is already making quite a name for himself as a trainer in the top quarter horse stakes at the meet. The retired jockey qualified That Lady in the \$114,122 West Texas Futurity finale and Saturday qualified Trucklin' Moon for the West Texas Derby. Trucklin' Moon has already earned \$40,227.  
**THE FASTEST SEASONAL TIME** for four furlongs was set at a brisk 45 2/5 seconds by a pair of two-year-old contenders over the weekend. I Fool Around, a 10-1 outsider, prevailed with a four length margin in Saturday's second race for the clocking. Then Dino's Dynamd squeezed out a nose in Sunday as the 4-5 favorite in an identical time. The former seasonal mark was set by Battle Blade January 14 at 45 3/5 seconds.  
**THE SIRE KITAMAN** had plenty of offspring in the winner's circle in the three days of racing. Friday, the bay filly Kitalfa swept to a head victory in the West Texas Futurity Second Consolation to pick

# Our natural resources — what do Indians control?

BY DR. MICHAEL L. OLSEN  
CHAIRMAN, DEPARTMENT OF  
HUMANITIES  
NEW MEXICO HIGHLANDS  
UNIVERSITY

In a famous cartoon, two Indians are regarding the arrival of Columbus' ships. One turns to the other and says, "Well, there goes the neighborhood!" This cartoon, while reflecting our own times, also touches a major point of conflict between Indians and non-Indians since 1492: who will control the land and its resources? This question is still of major importance. Although Indians occupy only a fraction of the land they once had, that fraction contains a significant portion of America's last reserves of petroleum, uranium, coal and other resources.

A recent development involving water rights in Taos is an example of this problem. In April, 1977, Interior Secretary Cecil Andrus removed Bear Lake from Carson National Forest and added it to the Taos Indian Reservation. This action could have meant that the Pueblo would control water from the lake, a development of great concern to non-Indians who had long used this water.

Last October this transfer was reversed by Attorney General Griffin Bell on the grounds that Andrus did not have jurisdiction. Court action may result. This conflict emphasizes that water rights in the West are among the most important resources controlled by Indians.

Nationally, as of 1976, Indians held in reservations about 52,400,000 acres, or territory the size of Kansas, the 14th largest of the 50 states. In New Mexico reservation lands total about 7,600,000 acres, or an area the size of Connecticut plus Massachusetts.

Under present United States law most Indians do not own these reservations. The federal government does. This does not mean Indians have no right to the land. In the past their occupation could be ended only by treaty or conquest.

The United States' legal claim to ownership of the land rests on several arguments. One is the "right of prior discovery." The various European nations which explored the New World agreed among themselves that the first nation to "discover" a territory owned it. No Indians were consulted. This doctrine has been upheld in numerous Supreme Court decisions since 1823.

Religion also played a role in the acquisition of Indian lands. The Christian Europeans felt their god had given them, and not the "pagan" Indians the land. Among others, John Winthrop, first governor of Massachusetts, quoted Genesis 1:28 as proof. "... and God said unto them, Be fruitful and multiply, and replenish the earth, and subdue it."

For Theodore Roosevelt, "subduing" the land was the key to ownership. He believed that Europeans had a right to the land because they put it to better use as farms

and for industry. As he remarked, and many people in his day agreed, "... this great continent could not have been kept as nothing but a game preserve for squalid savages."

As a result of these doctrines Indians lost most of their land. The government took much of it by treaties, often forced on the Indians. Even so, as late as 1887, Indians controlled about 140 million acres.

Then Congress passed the General Allotment Act which allowed the President to divide reservations among individual Indians, giving each approximately 160 acres. All land left reverted to the government. By 1934, when this policy ended, Indians had lost nearly 100 million acres.

Since 1934 major inroads on Indian land have been largely halted. But the basic doctrine still remains: the government owns the land and most Indians only occupy it.

The Pueblo peoples of New Mexico are the only major group to have escaped this process. They have title to their lands. They have been protected by actions taken during Spanish rule in the Southwest.

The King of Spain granted various pueblos title to all lands one league from their church, or about 17,000 acres each. Later some pueblos acquired more. After Mexico gained independence in 1821, these titles were reconfirmed. At the same time, all Indians also became citizens of the new country.

In 1848 the United States added the Southwest and California to its territory. Under the terms of the Treaty of Guadalupe-Hidalgo, all Mexican citizens who so chose, which included the Pueblo peoples, became citizens of the United States. In addition, a controversial clause of the treaty promised that they would "be maintained and protected in the free enjoyment of their liberty and property"

A Congressional act of 1858 confirmed what the treaty had promised and the Pueblos got title to their lands. Later court decisions have upheld this title.

Besides the right to occupy the land, many Indian peoples control the water and mineral resources contained on and under it. The specific rights of each tribe are often outlined in the treaties they have with the government, or in any court decisions or Congressional actions affecting them.

The basis of Indian water rights is a Supreme Court decision of 1908. In *Winters vs. United States* the court declared that waters which originate on a reservation or flow through it belong to the reservation. Later the court clarified this doctrine asserting that Indians had a right to as much water as they needed to irrigate all of the land on their reservations which could be irrigated, even if they had not used the water for this purpose previously. For many non-Indians in the West, city

dwellers as well as farmers and ranchers, this means that they could lose water they now depend on. So important is this question that President Carter, in a policy statement on water use in June, 1978, specifically discussed it.

He proposed that in the next 10 years the future water needs of all Indian reservations in the West be studied. In particular, Indian lands would be classified on the basis of criteria "which reflect and make allowance for water use associated with the maintenance of a tribal homeland."

This could mean that water might be reserved to develop agriculture or industry in the future. The President said he hoped disputes between Indians and non-Indians over water could be negotiated, but if not they would have to be settled in court.

Indians also claim great amounts of coal, natural gas, uranium and other resources vital to the American economy. Again, various Supreme Court decisions extending back as far as 1853 have confirmed that unless Indians specifically gave up the mineral rights to their lands in treaties, they have retained them. A number of Congressional acts have verified this position, including one which states that the Indians had a claim on the land "to the center of the earth."

Today there is a great deal of controversy over the development of Indian mineral deposits. For many Indians even the thought of mining these minerals is wrong since it would disturb sacred lands. Other Indians complain that the Bureau of Indian Affairs, which manages nearly all aspects of Indian land, including water and mineral affairs, has consistently favored the huge corporations which utilize the resources. They assert the Bureau has not obtained enough money for the resources nor protected the environment as adequately as it could have.

Recent legislation such as the Surface Mining Control and Reclamation Act of 1977 reflects this concern. This act contains specific language referring to mining on Indian lands and gives tribes hope that they may eventually be able to make their own regulations about strip mining.

All of this will ultimately affect consumers in the United States — Indian and non-Indian. Agricultural produce from irrigated lands, natural gas, electricity from nuclear power or coal could cost more and more as Indians demand rights which have been honored legally but not in practice in the past.

On the other hand, Congress still retains final authority over Indian land and as resources dwindle the legal protection Indians have enjoyed could be reversed. Such a development would threaten them not only economically but culturally as well. The last lands which remain to them, their final homelands, could once again be invaded.

## Social Security information

People who received at least one social security check in 1978 and who earned more than the annual exempt amount last year have until April 16 to file an annual report of their 1978 earnings, Don Austin, social security district manager in Roswell said recently.

The 1978 annual exempt amount was \$4,000 for people 65 or over and \$3,240 for people who were under 65 all of last year. A person who was 72 or older all of 1978 does not have to make a report, Austin said. Neither do people who receive benefits because of disability, as different rules apply.

A person who did not receive any checks in 1978 because of expected earnings does not have to make a report of his or her earnings. But, Austin said, if those earnings were less than expected, it would be in that person's best interest to make a report.

This is because just \$1 in social security benefits is withheld for every \$2 of earnings above the annual exempt amount. It could be that some benefits may be due: if they are, Austin said, they will be paid after the annual report is reviewed.

Most people who have to make a report of their 1978 earnings have already received a form for this purpose in the mail. Those who did not receive an annual report form or those who misplaced the one they did can get a copy at the Roswell social security office, located in the Federal Building, 5th at Richardson. The telephone number is 622-7780. The people there will be glad to answer any questions about the annual report of earnings.

## The Silver Lining

BY DANIEL AGNEW STORM

### Our Spirits Rise Up With Joy In April

Now after the long winter, we are over in the beloved and sacred month of April and as we see on every hand the miracle of renewing life, our hearts beat high with gratefulness and joy. This April is especially wonderful, because the new life of grass, leaf and blossom is springing forth with great delight and eagerness after waiting through so long a winter. And this same long winter with its heavy snow has given new strength to all the growing things.

This message is being sent to you on the second day of April, and it seems Jack Frost has sent us a playful little April Fool joke. Because beginning on the evening of April first the north wind came in with a cold snap after all the day was warm and balmy. And now today, the second, the north wind has been blowing all day, and clouds have been hovering overhead. The snow birds are feeding and drinking from their Metates, the hollowed-out stones in which the Indians ground their grain in years past.

Last night at nightfall I heard the chirping of many robins settling for the night down amongst the walnut and oak and box elder trees along the river. They seemed very cheerful and happy, even though the north wind had brought them a message to camp over night on their way back to the north.

Now in the mid afternoon, the north wind has calmed down and is singing a gentle song of Spring. And although there was ice on the Metates this morning, you can see that many of the apricot blooms have come smiling through. The old-time fruit growers used to talk of a white frost and a black frost. The white frost is a frost that falls in the light of the moon; and the black frost in the dark of the moon. They said that the white frost did not harm the blossoms nearly as much as the black frost.

Through the years I have noticed that in the light of the full moon, the blossoms have survived a heavy frost; and in the very dark of the moon, even a light frost is too much for the blossoms. This time the new moon shone most of the night; then just before day-break, the coldest hour of the twenty-four, the moon dipped below the mountain. So the apricot blooms had a battle on their hands.

Yet I notice that some of the hardy little

infants made it through, and some of the infant apricots are green and bright, protected under their blossom cover.

Easter Falls On The Birthday Of Our Brother, John.

The birthday of our brother John, eldest of the Storm brothers, is April Fifteenth; and this year Easter falls on the fifteenth. So the blessed season of Easter in bright and flowery April will be a blessing in many ways. The happy days of the family in our childhood will return, as I remember our beloved brother, John, during his birthday month and on his birthday the same day that we celebrate the resurrection of Our Lord and Saviour. John's blessed spirit will be close to me as Easter approaches ever near, and I send up a prayer of thanks to God for his love and care for John and our loved ones — yours and mine — in Heaven.

Cool Weather Holds The Snow

Still mid afternoon on the second of April, and it is much cooler than on most days at this time of the Spring. To the north you can hear a new band of Robins chirping and singing as they try to decide amongst themselves whether to stay over or continue north or go further south. Now it begins to look as if they will stay over for the night, because the clouds are forming gray and solid all in the north.

The robin is a great favorite in America and across the seas, and he likes it here very much in the land of the Pinon and Pine. You will find him here much of the year, and the robins love to raise their young, building their nests in the oak walnut and other of our trees. They seem to love the walnut trees, maybe because the branches sway gently so that their nests are safe in the winds, and the baby robins are rocked to sleep.

Soon we will be hearing that serenade of Spring, the robin's song at sunrise and in the gloaming.

For right now, the robins are on the move — journeying from their winter homes in the south, and traveling according to the weather, which right now is colder than usual.

The cold weather is keeping the snow from melting too fast. The river is running at just the right pace, and the snow water is melting into the ground feeding the springs and underground lakes and ponds.

Let us all thank God and look forward to a joyous Easter season and beautiful Spring time.

## Soil testing beneficial for gardeners

Gardeners across New Mexico are sending soil samples to be analyzed at the New Mexico State University Soil and Water Testing Laboratory. In return, they will obtain a summary of the nutrient requirements of their landscape plants or vegetable gardens.

"A soil test costs only \$5 and can help you keep an attractive landscape or a highly productive garden," Rick Gomez said. "However, before you send a sample to the lab, check for other things that could have damaged your plants last year."

Could the damage be caused by insects, diseases, herbicides or mismanagement? Were the correct varieties planted at the correct time? Were plants thinned to the proper distances? Was fertilizer added in the correct amounts and at the proper time?

If you decide that the soil is the cause of your problems then get a sample kit from your county extension agent. Gomez says gardeners must remember

that a very minute quantity of soil is used for the analysis and the recommendations are based on the analysis report. Therefore, it is extremely important that a sample contain representative samples of the entire garden.

The analysis includes the amounts of soluble salts and sodium in the soil — important factors in a plant's growth and management. Salts and sodium can accumulate and poor management. The higher the amount of salts and sodium, the fewer the number of plants which can grow on the soil.

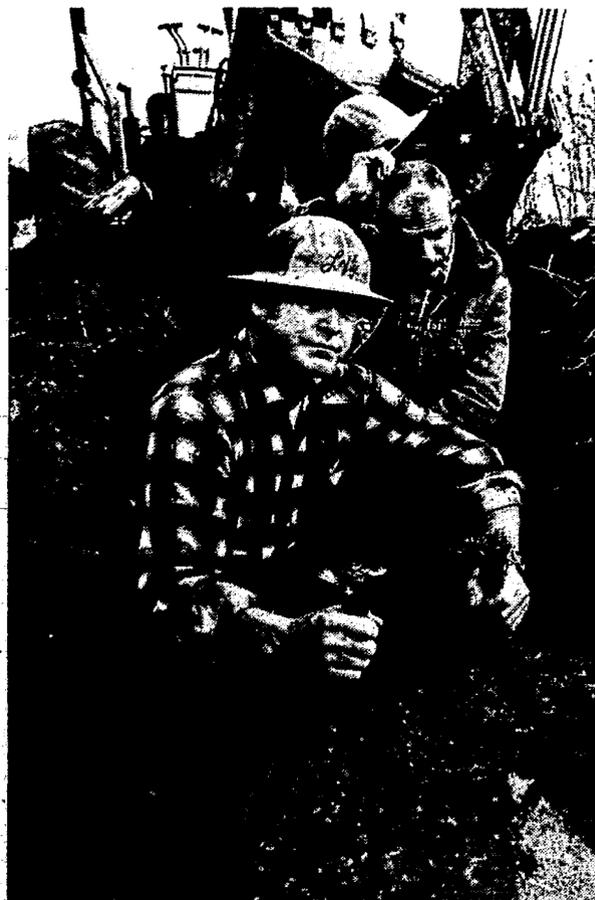

The test results also include the soil's organic matter and texture. These results determine which nutrients to add and recommended watering practices. Organic matter helps sandy soils retain more moisture and gives clay-type soils better physical characteristics. The nutrient holding ability of soils is also enhanced by the addition of organic matter.

The phosphorus level in the soil will be determined and recommendations will be made. The lab will ask for information on past cultural practices, symptoms of plant disorders and a list of the plants you intend to grow.

You can get the results of your soil sample within a week or two, depending on the laboratory and personnel loads. "Therefore, if you are planning to submit a soil sample, you should do it now," Gomez said. "Remember, a soil test can answer your questions and solve your problems only if they are related to the soil."

## ONE CALL COULD HAVE KEPT THEM FROM CUTTING OFF HUNDREDS OF TELEPHONES.

They've just cut through an underground telephone cable. And you could too, unless you call Continental Telephone before you dig.

By calling our local Business Office you can find out where the cable is and how to avoid it.

A cable can be costly to repair. And it can be costly for those whose telephone service is interrupted.

So don't take unnecessary chances. The next time you're planning any digging, call Continental Telephone before you start.

One telephone call from you can insure uninterrupted telephone service to hundreds of others.

## INFLATION FIGHTING ideas

**"Unit Pricing"**

Unit pricing, according to the United States Office of Consumer Affairs, is one of the most useful tools available to shoppers for comparing prices and determining the most economical buy. Safeway, recognizing the benefits to customers, was one of the first chains to introduce unit pricing.

In Safeway, shelf labels show the price of an item and, breaking the price down into a basic unit, also show the price per pound, quart, ounce or other even unit of measure. We have done the arithmetic for you. All you need to do is compare the Unit Price of brands of the same product to help determine the most economical brand and size.

Next week's Inflation-Fighting Idea: **"BAG IT"**

together, we can be **INFLATION FIGHTERS!**

ENTERTAINMENT

A whole weekend of great entertainment. It's just a sampling of what you'll find. This Ernest is all about. (And movies-uncensored-are just part of it. These are fantastic nightclub specials and exclusive sports programs, too!) Here's what you can see for free this weekend:

**SATURDAY APRIL 7**

12:30 PM "Harper Valley PTA." Based on the hit song, this hilarious comedy starring Barbara Eden tells the real story.

2:30 PM "Standing Room Only: Barry Manilow." Two hours of great entertainment-the kind you find every month on HBO!

4:30 PM "SportScene." Joe Namath is the host of this "magazine" special, with previews of the baseball season and of the basketball and hockey playoffs.

5:30 PM "The Great Brain." G-rated family fun, starring Jimmy Osmond-Donny & Marie's little brother.

7:00 PM "Revenge of the Pink Panther." Peter Sellers is as hilariously incompetent as ever, as he's joined by Dyan Cannon, star of "Heaven Can Wait."

9:00 PM "Wild Geese." This drama of mercenary soldiers in Africa offers he-man action starring Richard Burton, Roger Moore, and Richard Harris!

11:15 PM "Mean Dog Blues." Oscar winner George Kennedy portrays a sadistic warden in this story of a young man falsely convicted.

11:00 AM "The Goodbye Girl." Richard Gere and Faye Dunaway. This Ernest is nominated for Best Actor.

1:00 PM "The Untouchables." The screen stars Robert Montgomery, John Hodiak, and James Cagney. In 1977, including Best Picture.

3:00 PM "Honey, We Shrunk Ourselves." The stars are Glenda Jackson and Victor Serrano, both of whom have received Oscar nominations.

5:00 PM "Upclose-Academy Awards." Film-clip samplings of this year's nominees, plus interviews with Nick Nolte, Jane Fonda, Warren Beatty.

6:00 PM "The Goodbye Girl." Richard Gere and Faye Dunaway. This Ernest is nominated for Best Actor.

8:00 PM "Coma." Terrifying science-fiction tale of a time when the demand for organ transplants has outstripped the supply.

10:00 PM "Julia." Vanessa Redgrave won Best Supporting Actress and Jason Robards Best Supporting Actor in this story of a friendship between two women.

Of course, to receive HBO, you must be a cable TV subscriber. So if you are, don't miss your free preview. This weekend is the perfect time to see what you've been missing!

### THE LION, THE WITCH AND THE WARDROBE

'The Lion, the Witch and the Wardrobe,' the first of C.S. Lewis' *The Chronicles of Narnia*, is a modern parable about four children who step by chance through an old wardrobe closet in an ancient country house into the strange, fearful, enchanting fantasy land of Narnia. Part two of the animated special will be presented Monday, April 2 on CBS-TV.

The story, which began as "pictures" in Lewis' mind when he was a teenager and was written 25 years later as a legacy to his goddaughter, was hailed following its publication as "an exceptionally good new 'fairy tale,'" "beautifully written," "wise and nonsensical" and "captivating with or without its parable."

The special, produced by the Children's Television Workshop, keeps as close as possible to the original Lewis text in recreating the mysterious Narnia, a land which can cast a spell on children of all ages, as well as the child at the core of every sensitive adult.

### THE DUKE

On Thursday, April 5, NBC-TV will telecast a new hard-hitting "limited" series entitled "The Duke." Robert Conrad (pictured) stars in this multi-part action series as Duke Ramsey, a once-ranked middleweight boxer whose loss to a younger fighter convinces him to hang up his gloves and become a private investigator.

Red West co-stars as a Chicago police detective and Larry Manetti plays a flashy underworld figure who is one of Ramsey's helpful connections. West and Manetti starred with Conrad in "Black Sheep Squadron" which aired on NBC last year.

## BEAUTY AND THE BEAST

The award-winning and widely acclaimed Hallmark Hall of Fame presentation of the classic story, "Beauty and the Beast," starring George C. Scott and his wife, Trish Van Devere (pictured), will be rebroadcast Friday, April 6 on NBC-TV.

Scott portrays The Beast, a strong figure of a man with the face of an animal, who is considerate, sensitive and intelligent. Van Devere appears as Belle, the beauty of the story, who unwittingly enters the domain of The Beast and comes to learn the real meaning of truth and love.

Featured in the cast are Virginia McKenna as Lucy, one of Belle's sisters, and Bernard Lee as Beaumont, Belle's father. Other performers include: Patricia Quinn as Susan, Belle's other sister; Michael Harbour as Anthony, Susan's husband; William Reiton as Nicholas, Belle's devoted brother.

Sherman Yellen adapted the famous story, which first appeared during the 1500's.
