Village's fire enforcement heating up

Police citations catch smokers on the street

BY SANDY SUGGIT

RUIDOSO NEWS STAFF WRITER.

Fire prevention rules in Ruidoso are being enforced stringently, the incident log maintained by the Ruidoso Police Department reveals.

An officer on forest fire prevention patrol June 23 cited David S. Gonzales, 40, of Tularosa, charging him with wrongful use of public property for fishing on the southeast side of Grindstone Lake

To get to that area, the report states, a person would have to travel through the portion of the forest closed due to extreme fire hazard.

Police cited Bryce H. Kennedy, 23, of Ruidoso on June 22, charging him with improper handling of fire after officers saw him walk across. Sudderth Drive from Quarters Bar smoking a cigarette. Outdoor smoking and fires are prohibited due to extreme fire danger.

On the same day, Corey D. Courts, 22, of Ruidoso, was cited for smoking a cigarette on the sidewalk in front of 1240 Sudderth Drive, and, in the Arby's parking lot on Sudderth Drive, Shawn Patton, 21, of Ruidoso, and Brandon Elliott Taylor, 20, of Katy, Texas, were cited for flicking ashes out of the front and back passenger windows of a vehicle, with their hands protruding from the windows

Michael S. Branum, 21, of Lubbock, Texas, and Matthew G. Branum, 25, of Fort Worth, Texas, were cited for mishandling of fire on June 23. Officers saw them throwing ashes from cigarettes out of their vehicle at Sudderth and Eagle drives, the report states. Michael R. Randle, 23, of Roswell, also was cited for walking from Win Place & Show Bar while smoking a cigarette on June 23.

Rain, smoke tantalize, but officially it's '0'

Arizona fires put a haze over the Sacramentos while thunderstorms rattle windows, leave spotty moisture

BY DIANNE STALLINGS

RI ILOSO NEWS STAFF & RITER

The Ruidoso area received slightly more than a half inch of rain in spots over the weekend, but not a drop was recorded at Sierra Blanca Regional Airport.

The official record book at the National Weather Service in Albuquerque will reflect the zero because the airport is its reporting source. But the

rain gauge at the Ruidoso Police Department collected .13 of an inch on Saturday and .38 of an inch on Sunday.

The moisture may have helped ground some of the ash and smoke blowing into the area Monday from two fires in Arizona and one near

"If you ... smell the smoke, go back in... and turn on the air conditioning"

LCMC respiratory therapist

Durango, Colo. On Sunday, a heavy haze blocked the sun in Raton from the same fires.

Les Nielson, a respiratory therapist with the Lincoln County Medical Center, said that anyone who is sensitive to air quality should exercise common sense and stay indoors.

"If you walk outside and smell the smoke, go back in, close the windows and doors and turn on the air conditioning," he said.

Joggers should keep physical exertion to a minimum outdoors when smoke is present, he said. Anyone who experiences difficulty breathing, should contact their physician.

U.S. Reps. Tom Udall, D-N.M., and Mark Udall, D-Colo., last week asked leaders of the House Committee on Appropriations to provide emergency supplemental money for fighting wild fires in New Mexico, Colorado and throughout the

"While the wild fires still are burning in our states and lives are at stake, it is important that we be certain our fire fighting agencies have the resources and personnel to do their job," Tom Udall said. "Our most pressing need is to adequately fund wild life management activities so that the loss to families, businesses and the environment are addressed swiftly."

If approved, the money would be part of the 2002 supplemental spending bill that provides additional funds to federal agencies for the current fiscal year.

Job title critical to LCSWA supervisor

BY DIAMNE STALLINGS

RUTINOSO NEWS STAFF WRITER

What's in a title? Plenty, apparently, if you're the operations supervisor for the Lincoln County Solid Waste Authority.

If Debra Ingle was called manager, she could be fired without cause by the authority board. As operations supervisor, she is a salaried, classified employee and termination would require docu-

mentation of a job performance

Angelo Vega, who represents the town of Carrizozo on the authority board and is police chief, wants to see the authority run by a manager as it was when it was formed in the early 1990s to handle garbage collection in the county. He also wants the board involved in determining raises for all employees.

"I can't see allowing an operations supervisor to make changes without coming to the board," he said Tuesday during an authority meeting. But authority members decided not to tamper with suc-

Chairman Don Coleman, who represents Ruidoso Downs, said the board's responsibility is to

Small fires quickly quenched; DA investigates one incident

BY DIANNE STALLINGS

RUIDOSO NEWS STAFF WRITER

The cause of a three-acre fire off Sierra Blanca Airport Road last week was ruled human-caused, but at least four others in Lincoln County were sparked by lightning.

Bill Duemling of the state Forestry Division said Monday that the person who reported the fire about 10:15 a.m. June 18, apparently previously started two small fires he was able to extinguish, but continued to work with welding equipment.

"Our investigative division has referred the information to the district attorney for possible prosecution," Duemling said.

The main fire started in grass, but burned into some pifion juniper, he said.

The heavy fuel sent a plume into the air carrying embers that started spot fires as much as a quarter-mile away and across the highway, he said.

Fire fighters worked most of the day and returned on Wednesday to check for any hot spots, Duemling said.

Six loads of fire retardant were dropped by two singleengine air tankers. A bulldoz-

er, a 20-person hand crew from Mescalero, two engines and a command unit from the Ruidoso Fire Department and three units from the Bonito Volunteer Fire Department responded to the Little Creek Fire, as did two units from the state forestry division and one from Capitan for structural protection.

About 1 p.m. Thursday, a blaze called the Dunovan Fire

was reported in the steep terrain of Nogal Canyon, part of the initial attack area of the U.S. Forest Service.

A contract helicopter dumped water at the top of the ride while two 20-person hand crews rotated in fighting the fire. The crews stayed on the fire until Saturday. Two acres burned.

Three other small fires - each about 1/10th of an acre

and also lightning caused, were fought near the Bogle Ranch, on Forest Service land in the Jicarilla Mountains and near the Hubbard Ranch on Forest Service land.

Duemling reminded the public that because of the prevailing high winds and the lack of rain, extreme fire danger exists in Lincoln County

WEEDS: Noxious weeds a danger to all life

FROM PAGE 1A

them about the negative effects of invasive species. They crowd out natural grasses and plants that are forage for wildlife.

Hoary cress is considered a noxious Class A type, which means, "If you can find them, do whatever you can to get rid of them," Canning said.

Often called a whitetop, the hoary cress is a perennial member of the mustard family inadvertently introduced into the United States from Europe and Asia.

The plant is one of the earliest to emerge in the spring with flowers produced in late April and May.

It thrives in waste places, cultivated fields and pastures, and seems to like the alkaline soils of the West, growing from 3,500 to 8,500 feet above sea level.

The type of treatment depends on the situation and which plant is targeted, Canning said. In the case of Culligan, owner Jack A. Bartlett was cooperative, but Canning knew using chemicals at a business where children and pets may wander right off Mechem Drive wasn't a good idea.

She decided on solarization. "These particular plants already had gone to seed and

the wind was ready to pick them," Canning said. "These them up and send them to new locations," Canning said. "Solarization will keep the seeds confined."

After cutting down the plants, she spread sheets of heavy black plastic sheeting over the lawn area, which will heat the ground to as high as 175 degrees.

A charge may be involved with a large job, but smaller areas may qualify for a free treatment because of the benefits to the county, she said.

The money comes from a grant written by Canning last fall to the National Fish and Wildlife Foundation targeted for noxious weed control.

With the sponsorship of the Upper Hondo Water and Soil Conservation District, the county weed management group hired Canning, who also chairs the committee, to handle the job.

A sign is posted at each project warning not to disturb the treated area. A plastic pouch attached containing Canning's card for future ref-

the plastic is After removed, the soil next year still will require a small-chemical treatment, she said.

out and the natives come back One plant can produce 10.000 seeds, she said.

Members of the county weed management area hope to enlist more eyes and manpower in their hunt of noxious weeds. The group is sponsoring a Vegetation Management Workshop July 29 at the Ruidoso Convention Center.

They'll cover identification of plants and how to kill them. The license enables a person to receive training and to buy restricted chemicals, she said.

A large job just finished by Canning includes spraying 45 miles of road easements in Ranches of Sonterra to control musk thistle, another noxious weed.

Some of the noxious weeds also are poisonous to livestock and humans, she said.

"But most of those have some unusual characteristic such as a bad odor or dots on the stems," she said. "I think God was saying, 'Folks, I'm going to give you a clue and if you're not paying attention, too

CORRECTION

During a Lincoln County Commission discussion of improvements on Mora Avenue in Nogal, Jim Crouse said a portion of a ramp around a swimming pool owned by Sue and Robert Moeller intrudes into the right-of-way. A story last week attributed the remark to another person

INGLE: 'Willing to take a chance' at lower pay

evaluate Ingle's performance, not other employees.

Leo Martinez, a county commissioner who serves on the authority board, said Ingle puts a flat amount for raises in the budget, which the board can approve or reject. But how that money is awarded in respect to merit increases is up to her.

Martinez said he didn't want to get involved in the operation of this authority other than if it goes into the red. "I think if Angelo had somebody watching his police department so he couldn't do his job, he wouldn't like it. I've seen that happen too many times ... and department heads couldn't function."

To Ingle he said, "It's your responsibility to keep the operation in the black, keep customers and employees happy -

TODAY! We also have a couple

that's a big job. I've seen some real good numbers in the last year and I will support you all I can, but I won't, if we slip into

the red." Later, during a workshop on the next fiscal budget, Vega again brought up his dissatisfaction with Ingle's title. He and John Whitaker, who represents Capitan and is a member of that village's board of trustees, questioned whether the authority was fair to other applicants for the manager's

"My problem is that the others who applied for a manager's job at \$20,000 might not have known that if they took the position, at mid-year, another \$20,000 would be added to the salary," Whitaker

Ingle said when the manager's position was advertised, only \$20,000 was included in

the budget because of the tight finances of the authority.

When no one seemed willing to work for that amount, authority board members changed the job to operations supervisor and said they would look at the budget mid-year for another \$20,000.

The board hired Ingle and at mid-year review, found the extra money. Ingle pointed out the amount still is less than the \$64,000 paid to one manager.

"I was willing to take the: chance," she said.

Ingle agreed in the future to: notify the board of how many employee evaluation she does each month and the results. If someone disagrees with her recommendation, they can appeal to the board, she said

Authority attorney Don-Dutton said the title of operations supervisor accurately describes Ingle's job.

OUR OPINION

A touch of noisy relief in an arid world

And those automatic sprinklers still squirt

Tirst Lincoln County's own destructive fires of May, and then, as this week began, a smoky haze fed by distant firestorms in Arizona...

But last weekend, after weeks of seasonable heat, a special kind of relief came to our mountains. How those rumbling, grumbling masses of cloud did lift the soul and delight the senses.

And when God unzipped those clouds and let the hard rain pound upon dusty flats and scraggly lawns and thirsty pine trees, all sentient beings delighted in breathing deeply.

Those flashing thunderstorms were scattered and brief, but nevertheless were precursors of monsoon rains to come.

But they didn't cut off the "extreme danger" fire restric-tions, nor did they lift the restrictions watering Ruidoso.

Those watering restrictions remain in effect for all except, apparently, for those absentee homeowners who sometime in the distant past set their lawn sprinklers to turn themselves on every day.

Maybe, just maybe, when the monsoon rains do start, those automatic sprinklers finally will be turned off.

Right now, they provide a green-with-envy touch in the otherwise brown neighborhoods of water-conscious residents who do try to be good citizens and good neighbors.

We didn't do a very good job

hope. How I remember high school graduation those 45 years

The Class Song, a subject of great mirth to 2002 graduates whose song, or the one I heard, horrible, was just horrible. It was some kind LOOKING whose words were unintelligible.

NED CANTWELL

Christian or not, I just don't get it. Our song was "Somewhere Over The Years You'll Reach Your Goal," sung to the melody of "Somewhere Over The Rainbow." Now, that's a Class Song.

I remember the graduation message, too. They told us we were inheriting the world. Guess what? We screwed it up. Where do we go to give it back?

Here's what happened to the world I inherited:

I live in a world where there is so much bad stuff going on they had to invent 24-hour all-news channels just to keep track.

I live in a world where they anchor these broadcasts with guvs so dumb or so insensitive, or both, that one asks Mr. and Mrs. Smart, just days after their teenage girl went missing, if they thought maybe she just didn't run off with her boyfriend. Hey, clown, her little sister saw the sicko with the gun take her away.

I live in a world where a news story warns parents to teach their kids, if they are ever abducted and placed into a car trunk, how to cut the wires to the taillights so maybe the cops will stop the vehicle.

I live in a New Mexico world where I can put beautiful plants into the ground, but I may be significantly fined for watering them. It is a world where a Ruidoso lady I know puts a bucket in the shower to catch the runoff so as to water her plants. It is a world where in Las Vegas, N.M., you are not allowed to wash your car at home. So goes another great American tradition.

I live in a world where I might be the recipient of one of 40 million unwelcome telemarketing calls in any given day. Amazingly,

Eighteen years old and full of I live in a world where huge corporations can find the money to pay these people to hunt me down in my home, but should I do business with any one of them, the same corporations will reward me by making me talk to a voice mail system when I have a problem. Where are all those persistent humans who so badly craved my patronage?

I live in a world where many of the professional sports figures, idols in my youth, are now thugs who beat and rape women. I live in a world that compensates these guys hugely despite such conduct.

I live in a world where people line up to get pills to counteract radioactivity should some guy with a name I can't pronounce blow up my local power plant.

I live in a world that makes me fondly remember Fonz and the Happy Days.

I recently spent the better part of a week with high school kids who attended the New Mexico Association Summer Journalism Camp at New Mexico State University.

Those kids give me hope.

But it occurs to me they will soon inherit the world. They've just got to handle it better than we did.

GUEST COMMENTARY

A parallel track to fire safety is critical for Ruidoso

BY BEH Y. MASON

RETURED AND LIVING IN RUIDOSO

Because of an extraordinarily dedicated and efficient fire department, Ruidoso has historically enjoyed a low rate of loss from fire and low fire insurance rates. The performance record of our fire department has made most of us confident that a fire initiated within the village will not go out of control and become a large-scale menace. Even if my neighbor's house burns, mine will probably be saved. But no municipal fire department can stop an invading wildfire originating in the national forest outside the village.

The stark contrast between the massive peril of a fire originating in neighboring Lincoln National Forest and the statistically modest hazard of uncontrollable fire arising inside the village suggests that money spent on thinning a buffer zone within the forest perimeter would deliver far more security per dollar than money spent to make every individual municipal property defensi-

Both the perimeter and in-village thinning are necessary, but the benefit payout rate of the two approaches is strikingly different. Individual property compliance will proceed randomly and slowly because of economic, legal, and equity issues. When half of the local properties reach compliance, true fire safety will not be advanced by 50 percent; more likely about 15 percent, because of the remaining checkerboard of noncompliant lots. Perimeter thinning and opening, on the other hand, might advance fire safety 50 percent by completing the first 15 percent of total planned thinning. This is because the effort could be targeted at eliminating the worst hazards first.

For all practical purposes, we have only one perimeter landowner - the Lincoln National Forest. The forest is within a half mile of virtually every property in Ruidoso because it infiltrates the village in innumerable slots

The Forest Task Force recommendations (or something like them) will have to be imposed, but gradually and with great care because urban tree removal can be enormously expensive. If the schedule of compliance can be stretched, and if it can be somewhat evolutional (falling first on new construction and vacant areas where costs can be controlled), then we can probably make it

If hardball methods are used, it will fail. because the first lien filed will create an implicit lien on every property in town, and no appraisal will be worth the paper it is written on without an estimate of the overhanging compliance

At the perimeter, however, no more than three years of serious thinning of the Lincoln National Forest might reduce our risk tenfold. A recent evaluation of the Lincoln forest recommended immediate pilot programs to return plots to pre-settlement condition by thinning and creating open areas. It states that "There is no reason why we cannot bring annual wildfire acreage losses back below 10,000 a year, as they were in the 1920s - 1940s." This would be a 90 percent reduction from the 1991-2000 wildfire acreage.

The evaluation group estimates that by thinning and opening mixed conifer forest from its present density to presettlement conditions might save 2 inches of precipitation annually from our current loss to evapotranspiration. Two inches over 12,000 acres would amount to 2,000 acre-feet of "new" water. Some would increase runoff, improving instream flows, some would reappear as springs and seeps, and the balance as aquifer recharge, raising the water table.

Myriad other benefits would accrue: improved forest health and wildlife habitat and diversity; stabilized soil as grasses and forbs (broad-leaved plants) are released from competition of deep

rooted trees and brush; greatly reduced loss of soil and restoration costs after wildfires.

The Forest Service has been thinning a buffer for some time, but not to presettlement standards, nor deeply enough; certainly not quickly enough. If sufficient money has not been allocated for urban interface protection, then we should go to work finding it! The average cost of forest fires in our district is over \$57 million per year and that figure would have been much higher if significant structures had burned.

Forest thinning and opening must obviously be done anyway; the benefits from increased water storage plus the savings on fire suppression and losseswould vastly offset the cost.

Why not press hard for immediate large-scale action Ruidoso/Lincoln Forest interface? No better demonstration site could be found in the West. We are a community that faces the national forest on every boundary, and we may house as many as 30,000 people during peak tourist periods. We have a critical water shortage, and we know that we have no other means of achieving wildfire security in a relatively short time.

We should also address the matter of insurability. Insurance is a compact, between an insurer and a policyholder. to treat risk in an actuarial manner, averaging the risk over time and overpopulation, not changing rates and conditions to suit every new weather forecast. Insurers do not like policyholders who cheat by making false or inflated claims, and policyholders do not like insurers who try to weasel out of the actuarial compact by cherrypicking the best risks and redlining the rest. That kind of firm should have its licenserevoked, and that is what insurancecommissions are for.

Ben Y. Mason is a retired consulting firm owner and chemical engineer. He lives in Ruidoso.

Get the crews out

To the editor:

The village of Ruidoso water shortage is acute; our fire hazard is extremely dangerous. Sometimes the complete cooperation of our citizens is the only reasonable solution to these problems.

Our streets are lined with tons of highly combustible material, increasing dail as people clear their lots and yards of accumulating brush and undergrowth.

The use of a city truck and two employees cruising our streets, handing out warnings and citations for water violations is a fine effort; however, in this time of extreme emergency, why not haul some trash — authorize personnel and equipment for a good cause.

> Margie Thompson Ruidoso

Where are the other voices?

To the editor:

What is it with this "news paper?" Glenn Remington seems to have a real problem with accepting what has happened. Why is it that he is so often

Quarantined dog found not to be infectious: ordinance isn't violated.

Wednesday, June 26, 2002

BY SANDY SUGGITT

RUIDOSO NEWS STAFF WRITER

The Akita dog who attacked a 70-year-old man at the condominiums at 106 Granite on June 13 and had been placed in quarantine was released to its owner June 19 on orders of Ruidoso Police Chief Lanny Maddox.

"Our ordinance states that the reason for that quarantine is to see if the dog has something that can be given to the victim through that bite," Maddox said.

Pamela Ann Mills, 43, the owner of the dog, supplied more than sufficient paperwork proving that the dog had the proper vaccinations, he

Maddox said he told the dog owner that she will assume liability if the dog bites someone else, since this incident serves as notice that the dog might be vicious.

"The court's going to have to make a determination as to what type of restrictions it's going to place on the dog and the owner of the dog," Maddox

A Silver City man in a timecondominium had noticed the dog barking, tangled in its cable with only about two feet of leeway, and with no water.

Hugh E. Bearup and his wife gave the dog water and then attempted to untangle the leash, at which point the dog allegedly attacked the man. Police found Bearup bleeding from both arms.

The dog was subsequently taken to the Humane Society of Lincoln County for a 10-day quarantine, and staff there said the dog was vicious with them when they attempted to feed

"Dogs don't know who's friendly and who's not."

Lanny Maddox Ruidoso police chief

him. Bearup was taken to the emergency room at Lincoln County Medical Center and two stitches were made in one arm. He returned to the hospital for a check-up before returning to Silver City, where he reportedly noticed white streaks, swelling and a "red hot" feeling in his right arm, and went to his physician there.

Mills, the owner of the 12year-old dog, wrote in a statement that "the animal is not known to be vicious and did not attack anyone. He was approached, was friendly until Mr. Bearup hurt him. I know he must have been stuck by cactus several times

because he has sores around his neck, chest and head."

Mills claims that the dog was tied out on the private roadway of the condominium. in a "remote, wooded area away from the condos, with full permission of the manag-

Maddox said all the people with condominiums had legal access to the place where the dog was tied.

Mills wrote that the dog was not tied out there from 6:30 a.m. until 12:30 p.m., as Bearup had stated, but from 11 a.m. until 12:30 p.m.

For future reference, Maddox said, anyone who sees a dog that appears to be without proper food or water or tangled up in a tether should call Ruidoso Animal Control at 258-7365 or attempt to locate the owner. "Don't attempt to approach the dog," he said. "Dogs don't know who's friendly and who's not."

Capitan seeks to fill school board vacancy

The Capitan Municipal Schools' Board of Education is taking applications for board position No. 4, which became vacant by the recent death of member Glen Crane. This position is up for election in February of 2003.

Interested applicants may submit a letter of application addressed to Board President Gary R. Tregembo, Capitan Municipal Schools, P.O. Box 278, Capitan, NM 88316.

Letters of application must be delivered in person or by mail to the administrative office of the district by 4 p.m. July 8, and include current home address, home phone number. reason(s) for applying and what you believe are the responsibilities of a school board member.

Applicants must be registered voters and reside in the geographical boundaries of the Capitan Municipal School District.

With the collegians

Chassidy Gonzales, a Hondo High School graduate, was named to the Dean's Honor List for the 2002 spring semester at New Mexico State University at Alamogordo. Gonzales, the daughter of Vivian Salas and granddaughter of Mr. and Mrs. Gilbert Salas of Hondo, will enter her third year at NMSU this fall.

Denise Rodela of Lubbock, Texas, a 1998 Ruidoso High School graduate, has successfully completed the registered nursing program at Covenant School of Nursing in Lubbock. Graduation ceremonies were on May 31 at the First United Methodist Church in Lubbock. Graduates also were honored at a breakfast the next day, hosted by American State Bank of Lubbock. Rodela is the daughter of Ralph and Mary Rodela of

Talia Wood, daughter of Mr. and Mrs. Jimmy P. Wood of Ruidoso Downs, left recently to continue her studies at Harding University's overseas program in Florence, Italy.

Wood, a senior dietetics major, is among 33 students to participate in Harding University's Florence program. The group's curriculum will focus on the architecture, art, music and theater history of Florence. Their studies will be supplemented with educational tours to Rome, Pompeii, Naples and

:Unit value up slightly

The New Mexico State Department of Education cannounced that the 2002-2003 iprogram unit value has been restimated at \$2,896.01, an increase of .87 percent or \$25

over last year.

These are funds appropriated for public schools by the 2002 Legislature. The unit value determines the amount of state funds provided for each public school student in the state for programs and services.

The final determination of the unit value will be announced in January 2003.

The units are based on programs in the schools and enrollment, and the estimate is based on the total units generated last year plus anticipated units as a result of implementation of fullday kindergarten and the initiation of new formula-based programs, such as start-up charter schools and grades added to existing charter schools.

"New Mexico's unit value ensures equity for all students and is the basis of our state's funding formula for public schools," said Kathleen Forrer, the SDE's chief financial officer. "The unit value allows us to address the individual needs of students and provide maximum opportunity."

The appropriated program cost for New Mexico's public schools for 2002-2003 is about \$1.715 million, an increase of 0.88 percent over last year, or \$14,941,400.

New Mexico received a grade of B+ in the area of equity in an Education Week/Pew Charitable Trusts report released in January, placing third nationally and joining Hawaii, Utah, Nevada and Florida in the top five. New Mexico received a C for how it distributes its spending for all students.

Two middle schools now 'high improving'

Carrizozo and Capitan middle schools are on the State Department of Education's "High-improving Schools" list, and will share, with 99 other schools, \$1.843 million in incentive award funding.

The 101 schools on the list have shown the most improvement in test scores from 1999-2000 to 2000-2001, according to a SDE release. The listing is available on the SDE's Web site at www.sde.state.nm.us under "New This Month."

Capitan Middle School, with 141 students, will receive \$10,473.50, and Carrizozo Middle School, with 73 students, will receive \$7,351.53.

All the high-improving schools will receive at least \$4,000, with increases above that amount based on the number of students in each school. Clovis High School will receive **\$75,042.89**.

The average award is \$18,247.52. Schools can use the funding to provide incentives to students and purchase materials and supplies to continue improved learning.

SANDY SUGGITT/STAFF

Artists J.D. and Brett Knight-Mark explain to the children how they came up with the corn-based sculpture idea "Moonlight Cornata."

It may be corny, but it's educational

The public schools' summer enrichment program under the RASCAL Club focuses on art in its many forms.

BY SANDY SUGGETT RUIDOSO NEWS STAFF WRITER

hildren in the RASCALs summer enrichment program conducted by the Ruidoso schools spend their days making "corny" plays on words and creating a five-foot sculpture called "Moonlight Cornata: New Mexico Symphony."

Drawing on the plans of J.D. and Brett Knight-Mark, owners of the Backdoor, the children gather and paint pine cones for the giant corn kernels, glue them onto the wooden forms Brett Knight Mark makes and starch fabric for the corn husks.

The RASCAL (Ruidoso After School Care and Learning) Club operates during the school year for chilgarten

dren from kinderthrough sixth grade from 7 to 8 a.m. and 2:45 to 5:30 p.m., offering indoor and outdoor activities, a homework center and academic enrichment.

In the summer program, May 28-Aug. 2, children maintain and develop early literacy, reading, writing, math and science skills, participate in field trips, and in the Museum of New Mexico's Bridging to the Arts Program, said Anne K. Flaherty, coordinator of the club. Funds are provided through a grant to 13 sites in New Mexico through the Museum of New Mexico and the Department of Education.

Last year's summer project was a quilt children made that was then exhibited at all the Ruidoso school sites, to the Legislature in Santa Fe and in

Region IX's board room. This year's project is "Stories of Corn," as a theme to tie the 13 school district sites in the state together. Funds were provided for local artists, and in Ruidoso, the Knight-Marks were chosen because they're "compositionally inclined, and create sculptures, leather designs, and fine art and decorating" pieces, J.D. Knight-Mark said.

The children are also compiling a corn recipe book from family recipes and making covers for their own copies of it. On July 15 they will have a "CORNbration" picnic dinner using some of the recipes, Flåherty said.

Lincoln County commissioners, who give the club grant funds, school board members, principals, families

of the children, the artists and community people who have donated materials to the project will be invited for the dinner and the first viewing of the sculpture. The sculpture will then make the rounds of the schools, and later the Hubbard Museum of the American West will exhibit it.

Brett Knight-Mark assembled a "CORNference" one day so he and his wife could explain to the children how they came up with the design of "Moonlight Cornata." They chose a design that would use -local marshall by charmacine.

The gathering, painting, starching and gluing the children do is integrated into literacy activities, explained teacher Deanna Wright. Besides reading and writing about the culture of corn, children use their math skills to design color patterns on graph paper.

We had a math lesson on sequencing and patterns and the kids' patterns will be used for coloring the corn." Wright said. "The theme of the project is using literacy and showing how art can support literacy and be used to express knowledge of culture ... We (teachers) learned through the Kennedy Center program workshops how to teach academics through the

arts." Jessica Schoenwald, 13, said the children gathered pine cones around the golf course, en route to the library

and up Jack Little Drive.

To play on the musical theme for their sculpture, children listen to recordings of music featuring the individual instruments. The RASCALs also are reading books on corn and advising their parents on corn recipes to include the cookbook. Some of them will cook a corn recipe for the CORNbration and families will sign up to bring a dish to the picnic dinner, while the program will supply the meat.

"We sorted them by size and how we're working on color - spray-painting them blue, yellow and red," Jessica

As they work, the children have given names to the giant corn cobs they're creating: Maiz for the bass playing yellow corn; Cornsuela for the blue flautist corn; Knee-high for the red cellist corn. "Cornelia the Cornductress," will be a scarecrow dressed in a white tuxedo and tails.

On the morning of the CORNbration, children from Tularosa, who are also participating in the Bridging to the Arts program through Region IX, will come to Ruidoso to give a "CORNcert."

"Kids are so into the theme that when Deanna asked them what their favorite snack was because they'd worked so well, Branden Atchley (age 5) asked, 'Corn?" Flaherty said.

The corn sculpture upon which a summer class project is based.

Three 'corrective options' ordered for schools

SANTA FE - The New Mexico State Board of **Education has directed State** Superintendent of Public Instruction Michael J. Davis to consider three options when considering corrective action for schools in 2002-2003 - contracted management with a state-approved entity, an SBE-approved joint department and district agreement for operation of a school, and special services intervention that is proposed by the New Mexico state Department of Education and SBE-approved.

SBE President Margaret A. Davis formed an ad hoc committee to include diverse experts to consider immediately how testing data from the TerraNova, second edition, might be used in rating public schools.

The deadline for recommendations from the ad hoc committee is Aug. 1.

In addition to the five accountability indicators (student achievement. dropout, student attendance, parent and community involvement and school safety), the SBE told Davis to consider additional information on each potential corrective action school in recommending an option for corrective action. Included would be the experience and extent

of ongoing professional development of teachers, quality of school leadership, district involvement in school improvement efforts and other data available about the status of the school and its students.

Districts with corrective action schools may enter into voluntary agreements with the SDE that will permit their input into corrective action.

said he would involve tribal governments in discussions regarding corrective actions for schools with predominately Native American popula-

LCSWA asks Simpson to pay up

RUIDOSO NEWS STAFF WRITER

In a unanimous vote last week, members of the Lincoln **County Solid Waste Authority** agreed they must insist that former authority manager Rick Simpson satisfy a auditor's criticism.

Following a closed-door executive session, the board instructed authority attorney Don Dutton to write to Simpson that payment of \$3,450 cited by auditor Dan Austin is due. Failure to pay could result in legal action.

Austin reported in January that Simpson, who also is District 5 county commissioner, was paid \$3,450 without verifying his expenses. Simpson should either produce the documentation or repay the money, he said.

Dutton contacted Simpson, but nothing was resolved. Contacted Thursday, Simpson said he had no comment at this

time other than, "We're still working on it."

Money owed also was an issue Tuesday with the village of Capitan, which fell behind in monthly payments to the authority when newly elected Mayor Steve Sederwall decided to keep the money in escrow until he determined if higher rates approved by the authority board were legal.

Sederwall cited a June 1999 village ordinance setting the rates at a lower amount. But Dutton said the village attorney serving that year was unaware of a 1991 ordinance that approved a joint-powers agreement between the village and the authority that gave the coalition board the power to set

He advised authority board members not to overreact and allow attorneys to come back with their legal research, which may settle the issue. He noted that because he repre-

Village OKs 'backup' site purchase

sents both entities, he could advise neither. The conflict of interest resulted in the village and the authority hiring different attorneys for that issue.

However, Leo Martinez, a county commissioner who serves on the authority board, said Capitan or any other member that doesn't pay should be charged a 1.5 percent late fee, just as the authority does regular residential customers.

Dutton said to avoid the appearance of being "out after somebody," the board should schedule consideration of the late fee at its meeting next

Martinez agreed to wait, but said the board needs a policy in place in case payments are withheld again.

Two Capitan residents at the meeting lauded the authority leadership of operations supervisor Debra Ingle.

RUIDOSO POLICE

Defending Ruidoso

A woman who reportedly overheard a fellow customer at Chef Lupe's Restaurant, 1501 Sudderth Drive, "talking about Ruidoso in a derogatory manner ... became enraged ... and started throwing cups and sugar holders and making a mess ... (and) tried to fight with customers," police report.

The incident occurred about 2:30 a.m. June 22.

When police arrived, customers had helped to remove Elizabeth Padilla, 25, of Ruidoso Downs, who was taken into custody by police and transported to the police station for booking.

She was then charged with criminal damage, disorderly conduct and two counts of battery on a peace officer, the latter for kicking the officer in the legs and groin.

Cash register short

The manager of Subway, 148 Sudderth Drive, reported to police that the cash register was short \$149.36 June 19 and \$106.41 June 20.

Commercial burglary

Someone pulled part of the fence down on the back of Rio Trading Company, 2200 Sudderth Drive between 6 p.m. June 21 and 9:45 a.m. June 22, entering the store through the back door and removing \$7,306.70 worth of jewelry, pistols, shackles,

knives, daggers and other items, damaging the back gate and the door, which, the report states, was unsecured.

Cash taken at motel

Police arrested Aloyantonio Garcia, 48, of Ruidoso, June 20, charging him with larceny over \$250 and tampering with evidence in the theft of \$1,300 in 100-dollar bills stolen from Holiday House Motel, 310 Sudderth Drive.

Miscommunication

Nelwyn B. Germany, 67, of Ruidoso was cited for interference with communications after police responded to a non-emergency 911 call from her. The report states that this was the seventh such call since January 2000.

School vandalized

The principal of White Mountain Intermediate School reported three exterior windows broken at the school. The windows were valued at \$1,000 for all three. A hole the size of a marble was found in one of the windows, and another was broken in two places by what appeared to be a rock or a dirt clod, the report states.

Cash, cards taken

A resident of the 100 block of Geneva Drive reported \$600 in cash, 20 credit cards and a purse valued at \$100 taken from her dining room table between 10 p.m. June 22 and 8 a.m. June 23. Her sliding screen door had unlocked, the report states.

Bicycle stolen

A green Huffy BMX trick bike valued at \$160.79 was reported stolen from the 100 block of Robin Road between 10 p.m. June 20 and noon June 21.

Cited for possession

Ruidoso police cited Joseph Lee Britton, 19, of Ruidoso, for possession of drug paraphernalia subsequent to executing a search warrant at 1811 Sudderth Drive June 23.

Ruidoso Village Council.

A funeral Mass for Marjorie Lester, 70, of Mescalero was Monday, June 24 at St. Joseph's Mission. Burial followed at the Mescalero Cemetery, with the Rev. Alfred Galvan officiating.

Mrs. Lester died Friday, June 21, 2002, in Ruidoso.

She was born March 10. 1932.

She had lived in Mescalero all of her life. She was a homemaker and a member of St. Joseph's Mission.

Survivors include a daughter, Pilar Herrick, \mathbf{of} Alamogordo: half-sisters Sadie Comanche and Lorena Lester, both of Mescalero; grandchildren Eric Herrera, Corvin Lester Jr. and Crystal Lester; and seven great-grandchildren.

Arrangements were under the direction of LaGrone Funeral Chapel of Ruidoso, 341 Sudderth Drive, Ruidoso, NM 88345, 257-7303.

Madeline Becker

The funeral for Madeline Becker, 90, of Ruidoso will be at 3 p.m. Saturday, June 29, in the Vona Baptist Church, Vona, Colo., with burial to follow at the Vona Cemetery.

Mrs. Becker died Thursday, June 20, 2002, in Ruidoso.

She was born Sept. 13, 1911, in Vona.

She had lived in Vona all of her life until moving to Ruidoso a year and a half ago, She was member of the Vona Baptist Church.

She was married to Leander A. Becker, who preceded her in death on Aug. 20, 2000.

Survivors include a son, Doug Becker, of Ruidoso; daughters Arlene Wigton of Stranton, Colo., and Donna Marie Becker of Highland, Calif.; a sister, Lucille Thompson of Lompoc, Calif.; 10 grandchildren; and 19 greatgrandchildren.

Arrangements are under the direction of LaGrone Funeral Chapel of Ruidoso, 341 Sudderth Drive, Ruidoso, NM 88345, 257-7303.

Rosa Vega Garcia

Funeral services for Rosa "Mama Mia" Vega Garcia, 84, of Arabela, were June 22 at Anderson-Bethany Funeral Home Chapel in Roswell, with the Rev. Gilbert Arreola, officiating. Burial followed in the Arabela Cemetery.

Mrs.Garcia died Wednesday, June 19, 2002, at her home, with her husband and daughter at her side.

She was born in Salamaca, Chile, on May 13, 1918, to Francisco Vega and Loida Silveria Rondelli Vega.

King Rick Rack, far left and ridden by Tomey Swan, speeds to a 5 1/4-length victory in the Master Salls Handicap Saturday at Ruidoso Downs.

King Rick Rack wins Master Salls Handicap

BY KRISTIAN LOVELACE FOR THE RUIDOSO NEWS

King Rick Rack overtook the field after the turn and won the 870-yard Master Salls Handicap for quarter horses and Thoroughbreds Saturday at Ruidoso Downs. King Rick Rack, who posted a speed index of 101 by running the race in :45.191, won his last out handily in the Fine Loom Handicap on May 26 by five and a quarter lengths. Saturday was no different, as King Rick Rack won the race three lengths ahead of Bad Boy Willy.

King Rick Rack was in top form with regular jockey Tomey Swan aboard. Swan, who was unable to ride King Rick Rack in the Fine Loom Handicap due to prior arrangements in Remington Park, was happy to be back aboard King Rick Rack.

"I missed him, it was tough," Swan' said. "I did not actually get to watch the race, but my husband called on the cell

Ruldeso's Nick Page, left, dribbles against Maylield's Matt Madrid during the Warrior basketball camp Saturday

ran. When King Rick Rack took the lead I told my husband, he was going to win. This horse won't let anyone pass him."

King Rick Rack went five wide coming out of the turn, once in the home stretch he was able to pull away. Bad Boy Willy was on the rail and drifted off, causing King Rick Rack to go wide.

"The horse inside of me went a little, and I did not think to drop in, so I let him (King Rick phone and called the race as it Rack) go a little wide in the

turn," Swan said.

Swan enjoyed her win on top of King Rick Rack.

"He is absolutely the most fun horse to ride," she said.

King Rick Rack is owned by Lewis B. Allen of Bokchito, Okla. and is trained by Patrick E. Swan.

Saturday's earnings of \$11,400 in the \$19,000 Master Salls Handicap brings King Rick Rack's lifetime earnings to \$96,918, and marks his second consecutive stakes win at

Ruidoso Downs. King Rick Rack, the post time favorite, paid \$3.60 to win, \$3.60 to place and \$3.20 to show. Bad Boy Willy paid \$12.20 to place and \$5.20 to show. The exacta paid \$59.60, quinella said \$42.40 and Screen Trick completed the trifecta by paying \$176.80.

The complete order of finish was as follows: King Rick Rack, Bad Boy Willy, Screen Trick,

Basketball on the minds of several teams this summer

BY TODD FUQUA - 19 . ALLOWER RATER THE TODAY TO THE TODAY OF THE TODAY TO THE TODAY RUIDOSO NEWS SPORTS EDITOR

Ah summer. A chance to kick back, relax and play a few strenuous games of basketball at high altitudes.

Three local high school programs, and more than 20 programs total, took advantage of a basketball camp held Friday and Saturday at Ruidoso High School and Ruidoso Middle School.

Four teams from RHS, as well as the varsity squads from Mescalero and Hondo, took to the courts for six "pick-up" games each, which gave their coaches a good indication of how their programs are coming along.

"I saw improvements at all levels at this camp," said Ruidoso coach Billy Page. "There's no pressure here at all, you're here to learn and to have a good time."

The Warriors had teams from the varsity, junior varsity, sophomore and freshman levels playing in this tournament, and were facing some stiff competition from the likes of traditional powerhouses Alamogordo and Tularosa, as well as Las Cruces Mayfield, runner up in last year's Class 5A state tournament.

"We ask our kids if they can play at the 5A level, that's what we want," Page said. "That's the whole idea behind this and other summer camps."

Hondo toach Eddie Chavez was quick to got a lot of heart."

"We will primarily have young kids next season, so you can't beat this experience," Chavez said shortly after his team's loss against an Alamogordo sophomore squad. "We're playing some tough schools, and when you play the better competition, it always makes you better.

"If you play someone at your level or lower, you don't learn anything," he continued. "You have to play those tough teams to learn how to play with the rest of them."

Hondo had a rough outing against that competition, as did the Ruidoso varsity, which went 1-5, including losses to Alamogordo, Mayfield and Roswell High.

That's just fine with Page, he's just happy to get some playing time for his kids.

"I don't want to play teams I know we can beat," Page said. "I want to play teams that are a challenge and will make us better."

All other Ruidoso teams were at least .500 for the camp. The freshmen were 3-3, the JV did well at 4-2, while the sophomores went undefeated.

"We had a few kids that grew up a lot in this camp, both in ability and maturity," Page said. "We're still having problems getting the older kids to come out, but the kids we do have, they have a lot of talent and a lot of 'want to.' They've

TODD FUQUA/STAFF

Page finishes his team's summer season this weekend, when he takes the Warriors to a big camp in Lubbock on the campus of Texas Tech University.

They begin this Friday with Guymon, Okla., and continue with contests against Taos, Whitehouse, Texas, Michael's and Savage, Minn.

"I may have got us in over our heads in this one," Page

"We will primarily have young kids next season. so you can't beat this experience. We're playing some tough schools. and when you play the better competition, it always makes you bet-

Lincoln National Forest stamp projects approved

BY TODD FUQUA

RUBIOSO NEWS SPORTS EDITOR

With one unanimous vote, the state Game and Fish Commission passed a series of proposed Habitat Stamp programs in Lincoln county and throughout the state designed to improve and rehabilitate the health of New Mexico wildlife.

The commission meeting, held Friday at the Ruidoso village hall, covered numerous topics affecting the state wildlife and wildlife control, but only two directly affected the immediate area.

In addition to the stamp program hearing, the commission also voted to pass a proposed shooting preserve application for the Felix River Ranch in Chaves County south of Roswell.

Stamp Projects

The Habitat Stamp program, a joint venture between sportspersons and agencies that manage wildlife and their habitat, is supported primarily by hunters, anglers and trappers who purchase a stamp or validation when they purchase a license. This generates about \$1 million per

Those funds are then dedicated to habitat conservation and rehabilitation projects throughout the state.

Among the projects already underway in the Lincoln National Forest is a reforestation and improvement of the area affected by the Cree fire in 2000. There are currently close to 50 separate projects planned for the forest for 2003-04. Almost half of those projects focus on improving habitat for area deer.

In other business, the commission:

• Upheld a previous decision on Las Lunas hunter Lonnie Barber, whose license was suspended for two years for elk hunting violations;

 Passed an amendment to the rule considering forage lease value considerations in order to create a permanent intervention method to head off big game damage of private property.

The amendment places a \$5,000 cap on all compensation to be given out to land and cattle owners in the state, rather than viewing each monetary agreement on a case-by-case

According to Game and Fish director Larry Bell, that cap will encourage everyone on all sides to come up with a more permanent solution to big game destruction of private land and ranches:

 Voted to adopt upland game rules as presented for the 2002 03 wearons

 Voted to remove an item considering sale of warehouse property in Santa Fe to raise funds for the Game and Fish Department's headquarters construction.

Due to an unforeseen amount of funds being spent on the purchase of property at Eagle Nest Lake in northeast New Mexico, it was decided this

building phase would be too expensive to pursue;

· Heard recommendations for waterfowl hunting rules for the 2002-03 seasons. The commission will have a final vote on the rules at its next regularly scheduled meeting Aug. 23 in Farmington:

 Heard recommendations for the 2003-05 trapping and furbearer seasons, with a final vote anticipated at the October commission meeting:

 Passed a resolution to open the preventative lion control rule for amendment, based on an agreement to transplant Rocky Mountain sheep to Arizona:

• Agreed to \$74,450 in funding for Share with Wildlife projects for 2003-

 Passed a proposal for the recovery of the Aplomado Falcon using captive bred birds; Passed a proposal to transplant

Rocky Mountain bighorn sheep from New Mexico to Arizona in exchange sheep enhancement licenses:

 Passed a proposal to utilize \$500,000 from the bond interest retirement fund for the purchase of Eagle Nest Lake, and:

 Approved a renewal of the Game and Fish Department's lease with the state Land Office.

Local duffers to hit the links

Several local golfers will take to the links in the next two weeks for a chance at a Sun Country sectional championship and the right to represent the section on the national stage.

The action begins Friday when 63 amateurs take on the Championship golf course at the University of New Mexico for the Sun Country Amateur championship.

Over three days and 54 holes, the contestants, who entered the tournament with an active Sun Country Amateur Golf Association handicap number, will battle each other for the right to travel to San Diego Country Club Aug. 6-9 for the Pacific Coast Championship.

Among those golfers will be Jeffery Chapman, representing the Links at Sierra Blanca. Chapman is scheduled to tee off at 10 a.m. Friday with Lee Sanchez, Jr. of the Links De Santa Fe, Gordon Rowe from Four Hills Country Club and Bob Basham of New Mexico Tech golf course.

Junior Qualifying

A pair of Ruidoso area youth — both seniors at Ruidoso High School — will face a two-day tournament July 1-2 in a fight for three total qualifying berths in

the Junior World championships. Ryan Shaver will face off against 38 other players for only one berth for the USGA and Junior World qualifier. The 36-hole tournament will be played on the Paa Ko Ridge golf club in Sandia Heights near Albuquerque.

Pas Ko Bidge is also the site for the girls Meridian Comment will feature Ruidoso's LeeAnne Henson among 16 other young ladies fighting for two spots in the USGA Junior Championship and one Junior World qualifying position.

Shaver is scheduled for an 8:26 a.m. tee time July 1, while Henson will go off at 8:08 a.m. July 1.

The USGA Junior Boys Championship will be held July 23-27 at the Atlanta Athletic Club in Georgia, while the USGA Girls Junior Championship will be July 22-27 at Echo Lake Country Club in Westfield, N.J.

The Junior World Championship is scheduled for July 16-19 in San Diego.

Fishing report for Ruidoso area, June 26, 2002

Ruidoso River: The water level in the River is still at the lowest flow reported for the past year. We are under 1 CPS and dropping. Special note: The Ruidoso River has a new bag limit as of April 1. In the past a five fish limit was in effect. The new limit is three fish, a good move by the NMGF Department to help conservation and a quality fishery. Concentrate efforts between Gavilan

Carryon bridge and the Chamber of Commerce building. In this stretch of water you should find a fair amount of fish. Toss Pheasant tail nymphs and bead head Prince Nymphs. Tie a Parachute Adams or Humpy dry fly on as a lead fly, then tie a nymph dropper about 12-18 inches behind. Use the lead fly as your strike indicator. This is an effective and fun way to fish small waters. Remember to always wear eye protection. Southforic Closed due to fire hazard.

Bonito Lake: Closed due to fire hazard, Eagle Lakes: Eagle Lakes are open for the

season. Reports are that there are lots of hungry fish. The scenery here is an 11 on a 10' scale. Great place for teaching kids or beginners alike...Toss what you've got. Wear long pants and shirts and use bug dope, it's deer fly season.

Grindstone: This lake was stocked with rainbows this past week. Wooly Buggers, Zonkers and Streamers fished fairly deep have produced fish the past weeks. For spin casters, tie on a propeller fly behind a bub-ble rig and enjoy catching fish with a fly. The hot ticket for propeller flies has been purple

or black strip. The take is once again open to non-motorized craft. Dig out your float tube, air it up and go fishing.

Please remember to squeeze the barbs down on all hooks; this will reduce injury to any fish caught and returned to the water. Please, if you pack it in, pack it out. Litter continues to plague the area lakes and streams.

Lake Mescalero: The lake level is quite low. but is fishing well. Dark wooly buggers continue to take fish late in the day. A few folks have been successful with Parachute Adams, Mosquito, or Hendrickson patterns and casting to rising fish. Remember to get your day pass at the front desk.

Please practice catch and release wherever and whenever you can.

Check out our improved and expanded website for community information

Fly Fishing Tip of the week: Use a touch of a birthday candle on the Ferrell portion of you multi-piece rods. The natural lubrication will help the rod pieces hold together and come apart easier.

Aspen Cup Handicap

WEDNESDAY, JUNE 26, 2002

Espeedytoo won the Aspen Cup Handicap Saturday in the final stretch for owners Jan Bowers & Bruce Dunmore.

The 3-year-old filly was able to win the Aspen Cup three-quarters of a length ahead of Miss Hadley. With jockey Miguel Fuentes aboard, Espeedytoo coasted through the backstretch in the middle of the pack and then made her move in the stretch to win the race.

Espeedytoo's last out was at the Downs at Albuquerque, where she was caught in the stretch. She posted the win for trainer Robert Bowers.

"Miguel rode her perfectly, he did not take her to the front immediately, luckily she had the rail so she did not have to run extra. She ran a perfect race," Bowers

Espeedytoo was able to out finish Miss Hadley in the stretch. Miss Hadley, ridden by Mike Clark, was able to take the lead midstretch but was not able to hold on to the win and was overtaken in the final yards. Miss Hadley is owned by Wardlaw Ranch and is trained by Jim N. Brock.

TODD FUQUA/STAFF

Espeedytoo, right, is ridden by jockey Miguel Fuentes to a win in the Aspen Cup Handicap Saturday at Ruidoso Downs, Espeedytop overtook Miss Hadley (11), ridden by Mike Clark, on the final turn of the 6-furlong race to pull out the victory.

Espeedytoo paid \$7.80 to win, \$3.80 to place and \$3.20 to show. Miss Hadley paid \$4.80 to place and \$3.60 to show. The exacta paid \$60.80, the quinella paid \$36.40 and Slim's Secret rounded out the trifecta paying \$743.00.

Saturday's earnings of \$13,260 in the \$22,100 Aspen Cup Handicap brings Espeedytoo's lifetime earnings to \$67,379.

The complete order of finish is as follows: Espeedytoo, Miss Hadley, Slim's Secret, Solid Brick, Dancing Promise, Shaggar Rhaughton, Devious Ways, Suspender, E Bar Prospect and Continental Spice. The final time in the Aspen Cup Handicap was 1:11.60

Free Spirits Handicap

Unless you were part of the connections of Gee Wally, you did not see the bay gelding come from mid pack to win the \$21,800 Free Spirits Handicap on an off track Sunday.

Arthur's Dream took the early lead but tired in the turn at the same time Sky Diver tried to make a move in the turn but went wide coming out of the turn. JW Jet stalked the pace and

made a move through the home stretch and had to battle out Live Show while Gee Wally overtook the race in the middle of racetrack splitting

four horses down the middle to win by a length. "Mike Clark is a heck of a rider to be able to put Gee Wally through the hole," said Gee Wally owner Jay Battersheli. "I just kept my eye on the horse's number."

Gee Wally was claimed by Jay Battersheli of Corrales, N.M. in Sunland Park for \$8,000. Battersheli gave Gee Wally to trainer Terry A. Walker and the rest is history.

Gee Wally, with jockey Mike Clark aboard, won the race by a length over JW Jet. JW Jet stalked the pace through the turn before making his move in the stretch and was able to out duel Live Show for place. JW Jet is trained and owned by L. Gene Wasson and was ridden by Carlos Rivas.

Sunday's earnings of \$13,020 in the \$21,700 Free Spirits Handicap brings Gee Wally's lifetime earnings to \$100,473.

Centaur Challenge Trials

Royaltime Classic turned in a time of 19.82 to become the fastest qualifier for the 400-yard Centaur Challenge during trials run on Friday. The three-year-old filly outdistanced Mena Magic by less than two-tenths of a second to qualify for the Centaur Challenge final, to be run at the Downs July 7.

The final field of horses for the finals, listed in order of times, is: Royaltime Classic, 19.82; Mena Magic, 19.99; Houstons Medallion, 20:08; Special Crys, 20:08; Dust Em Dusty, 20.10; Sorority Serenade, 20.13; Feature The Streaker, 20.16; The Way You Want Me, 20.21; Elans Lucky Charm, 20.21; Ladys Streaker, 20.23.

Track Notes: One person at Ruidoso Downs won the \$46.912.90 twin trifecta carryover Sunday. The person was reported to be happy over their win but did not want to be interviewed.

Village of Ruldoso Annual Drinking Water Quality Report for 2001

7:00

We're pleased to to you 2001's present Annual Drinking Water Quality Report. This report is designed to inform you about the quality of the drinking water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment

process and protect our water resources. We are quality of your water. Our water sources include: North Eagle Creek Wells #1, #3, #4, Brown Well, Green Well, Eagle Creek, Alto Lake Reservoir, Alto Well #1, Alto Well #2, Fault Well, Apple Orchard Well. These water sources are treated at the Alto Crest Water Treatment Plant.

Grindstone Lake Reservoir
is the only source treated
by Grindstone Water
Treatment Plant. Cherokee Well supplies a portion of the system with water as well as Hollywood Well. The Village of Ruidoso is pleased to report that our

drinking water is safe and meets or exceeds State and Federal requirements. If you have any questions about this report or concerns about your water utility, please contact: Larry Grasmick, c/o Village of Ruidoso, 313 Cree Meadows Dr., Ruidoso, NM 88345, 505-257-2386. The Village of Ruidoso has a regularly scheduled meetregularly scheduled meet-ing the second Tuesday of January, April, July, and October (each quarter). This meeting is held 9:00am at the Water Shop, 419 Wingfield, Ruidoso.

The Village of Ruidoso routinely monitors for constituents in your drinking water according to Federal and State laws. The table below shows the results of our monitoring for the period of January 1st to De-cember 31st, 2001. An asterisk (*) indicates that the results shown are prior to year 2001, but not more than 5 years old. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not neces health risk. necessarily pose

In this table you will find many terms and abbreviations you might not be fa-miliar with. To help you better understand terms we've provided the following definitions:

Not Available (N/A) - indicates that information is not available or not applicable at this time. Non-Detects (ND) - labora-tory analysis indicates that the constituent is not pres-

Parts per million (ppm) or Milligrams per liter (mg/l) one part per million corre-sponds to one minute in two years or a single pen-ny in \$10,000. Parts per billion (ppb) or Micrograms per liter - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000. Parts per trillion (ppt) or Nanograms per liter (nanograms/l) - one part per tril-lion corresponds to one

minute in 2,000,000 years, or a single penny in \$10,000,000,000 Parts per quadrillion (ppq) or Picograms per liter (pi-cograms/l) - one part per quadrillion corresponds minute

Microbiological Contami-,

nants: (1) Total Coliform. Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful, bacteria may be present. Coliforms were found in more sam-ples than allowed and this was a warning of potential problems.

(2) Fecal coliform/E.Coll. Fecal coliforms and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Microbes in these wastes can cause short-term effects, such as diarrhea, cramps, nausea, headaches, or other symp-toms. They may pose a special health risk for infants, young children, and people with severely com-promised immune sys-

tems.
(3) Turbidity. Turbidity has no health effects. However, turbidity can interfere with disinfection and provide a medium for microbial growth. Turbidity may indicate the presence of disease-causing organisms. These organisms include bacteria, viruses, and parasites that can cause symptoms such as nausea, cramps, diarrhea, and associated headaches.

Radioactive Contami-

(4) Alpha emitters. Certain minerals are radioactive and may emit a form of radiation ƙnown as alpha radiation. Some people who drink water containing alpha emitters in excess of the MCL over many years may have an increased

risk of getting cancer.
(5) Combined Radium
226/228. Some people
who drink water containing radium 226 or 228 in excess of the MCL over many years may have an increased risk of getting

Inorganic Contaminants: (6) Arsenic. Some people who drink water containing arsenic in excess of the MCL over many years could experience skin could damage or problems with their circulatory system, and may have an increased risk of getting

ceased risk of getting cancer.

(7) <u>Barium</u>. Some people who drink water containing barium in excess of the MCL over many years could experience an increase in their blood pres-(8) Chromium. Some peo-

ple who use water containing chromium well in excess of the MCL over many years could experience allergic dermatitis.

(9) Fluoride. Some people who drink water containing fluoride in excess of the MCL over many years could get bone disease, including pain and tenderness of the ones. Children may get mottled

dren may get mottled teeth.

(10) Nitrate. Infants below the age of six months who drink water containing nitrate in excess of the MCL could become seriously ill and, if untreated, may die. Symptoms include shortless of breath and blue-

baby syndrome.

(11) Selenium. Selenium is an essential nutrient. However, some people who drink water containing selenium in excess of the MCL over many years could experience hair or fingernail losses, numb-ness in fingers or toes, or problems with their circula-

(12) Thallium. Some peo-ple who drink water con-taining thallium in excess of the MCL over many years could experience hair loss, changes in their blood, or problems with their kidneys, intestines, or

Volatile Organic Contam-inanta: (13) Benzene. Some people who drink water containing benzene in excess of the MCL over many years could experience anemia or a decrease in blood platelets, and may have an increased risk of petting cancer.

ole who drink water containing xylenes in excess of the MCL over many years could experience years could experience damage to their nervous

Infants and young children are typically more vulnera-ble to lead in drinking wable to lead in drinking water than the general population. It is possible that lead levels at your home may be higher than at other homes in the community as a result of materials used in your home's plumbing. If you are concerned about elevated lead levels in your home's water, you may wish to have your water tested and flush your tap for 30 seconds to 2 minutes before using tap water. Additional information is availational information is available from the Safe Drinking Water Hotline (1-800-426-

As you can see by the ta-ble, our system had no vi-olations. We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected. The EPA has determined that your water IS SAFE at these levels.

All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. nants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-

MCL's are set at very stringent levels. To understand the possible health effects described for many regu-lated constituents, a per-son would have to drink 2 likers of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.

Total Coliform: The Total Coliform Rule requires wa-ter systems to meet a stricter limit for coliform bacteria. Coliform bacteria are usually harmless, but their presence in water can be an indication of disase-causing bacteria When coliform bacteria are found, special follow-up tests are done to deter-mine if harmful bacteria are present in the water supply. If this limit is exceeded, the water supplier must notify the public by newspaper, television or redio. radio. To comply with the stricter regulation, we have increased the average amount of chlorine in the distribution system.

Nitrates: As a precaution we always notify physi-cians and health care providers. In this area if there is ever a higher than normal level of nitrates in the water supply.

Lead: Lead in drinking water is rarely the sole cause of lead poisoning, but it can add to a person's total lead exposure. All po-tential sources of lead in the household should be identified and removed, replaced or reduced.

Some people may be more vulnerable to contaminants in drinking-water than the general population. Immuno-compromised persons such as persons such as persons with cancer un-dergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system dis-orders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidi-um and other microbiologi-cal contaminants are avail-able from the Safe Drink-ing Water Hotline (800-426-4791).

We at the Village of Ruido-so Water Department work around the clock to pro-vide top quality water to every tap. We ask that all our customers help us pro-tect our water sources, which are the heart of our community, our way of life and our children's future.

POOP SCOOP

BY DIANNE STALLINGS

RUIDOSO NEWS STAFF WRITER Because of overcrowding, the shelter operated by the Humane Society of Lincoln County is trying to create more holding kennels and donations to that specific project are needed. The donation could help save the life of a dog who otherwise wouldn't find room at the shelter on Gavilan Canyon Road.

Contact executive director Sandra Ford at (505) 257-0550 for more information or send a check to the society at 430 Gavilan Canyon Road, Ruídoso, NM 88345.

The organization's new web site can

The organization's new web site can be viewed at www.humanesocietyoffincolncounty.org.
In the society's latest Wet Nose News publication to members, ten top reasons were listed for having a

dog.
They are:
10. I love hair in my coffee.
9. Never did like having a full night's sleep.
8. Wanted my vet to get a new BMW.
7. Thought the furniture looked too

nice.

6. Loved the sound of puppies in the morning, noon, afternoon, evening, midnight and pre-dawn.

5. Garden and backyard needed renovation and I didn't want to pay a gardener.

4. Neighbors didn't complaine anough

enough. 3., Kinds weren't enough of a chal-

lenge.
2. If you can train one dog, why not

Wanted to see if spouse really meant those vows.
Congratulations society officials on

an entertaining and informative newsletter. newsletter.
Back to some bits from Judith Halliburton's "Rising Rover" book on breed-specific training. Her observations about the unique qualifies of certain breeds include:

• Cocker spaniel – "They want to be dominant. I yell this at you because I don't ever want you to say you weren't warned."

• Collies – They are very clean and

Collies - They are very clean and intelligent, but be warned, they're also barkers, she wrote.

 Dalmatians - Incredibly clean, but

they "always take advantage of a weakness" and are not good with

weakness" and are not good with children.

• Golden retrievers – "I get more calls about serious destruction problems from golden and Lab owners than any other breeds." But she added, "Because of their wonderful temperament, they are used in almost every job a dog can have."

• Chow chow – "One of the few dogs that I recommend as a latchkey dog (able to spend eight to 10 hours maximum alone).

"Rover will be affectionate and incredibly loyal, but you must be at all times his master."

because they all think they're mastiffs."

tiffs."
• Labradors – "The word 'cautious'

is not a working part of a Labrador's vocabulary.

· Rottweilers - "Like Dobermans, Rots can get far too serious and totally wrapped up in their duties. affection.

· Lhasa Apos - "Stubborn in every sense of the word. You really haven't seen back talk until you've seen it from a Lhasa.'

• Blue and red heelers - "These dogs are totally devoted to their families. If for some reason Rover has to be given away, he's going to have a heck of a time adjusting to a new family.

· Border collie is second only to the poodle in ease of house training, she wrote. "Along with being the best herd dogs, border collies are one of the best dogs around, period."
• American Staffordshire terrier (pit

bull) - "One of the neatest things about this Rover is that he can do a job very well, but still be a fun pet. They are not bred to fight. Unfortunately, (some) have been trained to fight."
you sit on the couch so that he can at least lay across your lap.

PSYCHIC PREDICTIONS

Judith L. Christopher

Week of June 26 - July 2

GEMINI:
(May 21 - Jun 20)

Time wise, you may feel like your falling behind, your not. Just do the best you can do with what you've got. The Lesson is learning to the best was a second or the best you've got. The Lesson is learning to the best you've got.

CANCER:
(Jon 21 - Jol 22)
You will find out that what you think your doing is not what others want you to really do. Ask questions about the situation, be for it gets out of index.

LEO:
(Jul 23 - Aug 22)
Watch your temper! It will only be for a short while, until it blows over. Don't waste valuable energy on something or someone that doesn't count. EO

VIRGO:
(Aug 23 - Sep 22)
You might find that someone thinks that your not pulling your share of the load. Let them know, that you are no including to help pull their hardings.
because you can!

LIBRA:
(Sopt 23 - Oct 22)
Just when you think that you have everyone right where you want them to be, they go and mess up you good plans. Like little chicks, running everywhere!

SCORPIO:
(Oct 23 - Nov 21)
This is not the time to be fickle! Do what you say your going to do. You can't make both parties happy.
Just be true to yourself, do the best you can't

SAGITTARIUS:
(Nov 22 - Dec 21)
Your in a good running
mode! Don't get elde track.
When you lose time, you'll
lose money! Keep a record
of the days to come. Keen a
steady pace.

CAPRICORN: (Doc 22 - Jan 19)
Your out of whack! Don't fight it, just flow through this time, until it's over!
Get good sleep, and eat right. Rest in and regain your good many.

AQUARIUS:
(Jan 20 - Feb 18)

This could be a real funtime, if you'll let yourself have fun! Don't worry about cleaning, it'll be there when you get back.
Laugh out loud.

PISCES: (Feb 19 - Mar 20)
Your taking two steps forward, and two steps backwards! Your fear will not allow you to rake up and make your drams come true. Make a choice.

ARIES:
(Mar 21 - Apr 19)
You will find out, once you take charge of the situation, People, Places & Things, will fall into your hands. Take the time to run with the belief.

TAURUS:
(Apr 20 - May 20)

Now, Now! Don't give out what you can't take back!

Words can cut like a knife.

Just don't let your own words come back to cut your own thought like age-ful
