CAPITAN, N. M., FRIDAY, JANUARY 7, 1916.

NO. 37

STEAMER PERSIA IS SUNK; NO WARNING

POSSIBLY 150 SAVED OUT OF 400, ONLY FOUR LIFE BOATS GOT AWAY.

AMERICAN CONSUL IS LOST

Robert McNeely, on Way to Post at Aden, Arabia, Believed to Have Been Drowned.

London—Unofficial dispatches from Cairo state that the British steamship Persia, sunk in the Mediterranean on Thursday, was torpedoed without warning and sank within five minutes. Between 150 and 160 survivors have been landed at Alexandria, Egypt.

Robert N. McNeely, recently appointed American consul at Aden, Arabia, and on his way to that post, is believed to have been drowned. Reuter's Cairo correspondent makes the unreserved statement that Mr. McNeely lost his life. Charles H. Grant of Boston, was saved.

Details of Disaster Come Slowly.

Details of the sinking of the Persia come in slowly, but such information as was received made it appear that the number of persons who escaped in the four boats which were put off was larger than was hoped when the first news was received. The Peninsular and Oriental company, which owned the Persia, announce that 168 survivors had arrived at Alexandria. The survivors comprise the chief officer, second officer, seven engineers, 27 seamen, 63 lascars and 69 passengers.

A Lloyd's dispatch gives the number as 155, made up of 59 passengers, and 94 members of the crew.

Ship Sank in Five Minutes.

"The ship was struck amidships on the port side at 1:10 p. m.," says Reuter's correspondent. "She had disappeared completely at 1:15."

Survivors say it was little short of a miracle that anyone was saved. There was no panic. Four boats were launched with the utmost promptitude.

"The captain was drowned. When last seen he was swimming after the liner had plunged beneath the surface."

Both the Peninsular and Oriental company and Reuter's Cairo correspondent say Mr. Grant has been landed at Alexandria. The steamship company had received no news of Mr. McNeely's fate. Edward Rose of Denver left the Persia at Gibraltar.

Anxiety in Washington Increased.

Washington—Anxiety over the news of the sinking of the British steamship Persia increased in official circles here, when a consular dispatch brought the information that the ship had been torpedoed, without warning and that at least one American citizen, Robert N. McNeely, now consul at Aden, Arabia, was missing. At the same time officials were much gratified at the indication, emanating from Baron Erich Zwiédick, charge of the Austro-Hungarian embassy here, that the Vienna government would be quick to "satisfactorily adjust" the matter, should it develop that an Austrian submarine commander had disobeyed instructions in regard to torpedoing passenger-carrying ships without warning.

The Illinois attorney general will take no further steps to question the action of Dr. Harry J. Haiselden, who declined to perform an operation on the Bollinger baby on the ground that it was hopelessly defective.

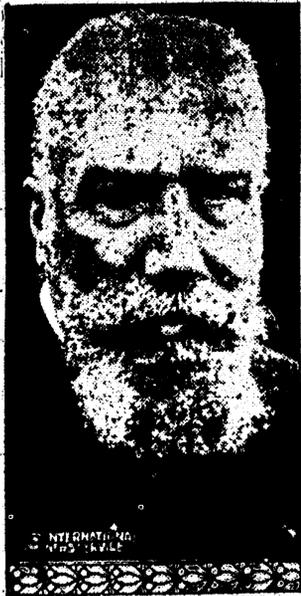

Britain's Blacklist of Ships Increased.

London—The blacklist of neutral shipping issued by the government for the guidance of British shippers, who are advised not to charter ships appearing on it, as they are suspected of actual trading with Great Britain's foes or other unneutral service or as representing German capital, now includes steamers with a total gross tonnage of 20,000, which means a carrying capacity of 200,000 tons unavailable to British shippers and neutral charterers in any way dependent on British shipping.

Fairbanks Indorsed for President.

Indianapolis, Ind.—At a love feast here Indiana Republicans indorsed Charles W. Fairbanks, former vice president, for the Republican nomination for president of the United States. At the same meeting, Edwin P. Morrow pledged to Mr. Fairbanks the delegation from Kentucky at the national Republican convention at Chicago, June. "The people have tried Democracy," said Mr. Fairbanks, "and Democracy has tried them. The result has been a re-baptized, re-baptized party of opposition."

DENYS COCHIN

Denys Cochin is the French cabinet minister who went to Greece to persuade that nation to maintain an attitude of friendly neutrality toward the allies.

AUSTRIA YIELDS TO AMERICA'S DEMANDS

SUBMARINE CAPTAIN WHO SANK ANCONA PUNISHED—INDEMNITY TO BE PAID.

SOME AMERICANS ARE HELD

Penfield Reports Citizens Without Birth Certificates or Naturalization Papers Are Detained.

London—The Austrian reply to the second American note on the Ancona states that the commander of the Austrian submarine has been punished for not sufficiently taking account of the panic aboard the Ancona which rendered disembarkation more difficult.

The Austrian reply further expresses the hope that Washington will be able to supply the particulars of how the American citizens were affected, but in the event of such evidence being lacking and the United States being unable to state how the American citizens came to their death, the Austro-Hungarian government "is ready to pass lightly over this deficiency and indemnify for damages, whose proximate cause can not be fixed and hopes thereby that the incident will be regarded as ended."

The note declares that the government "can not admit responsibility for damage caused by the justifiable firing on the fleeing vessel or by the capsizing of the boats before the torpedo was fired."

Some Americans Detained.

In a separate dispatch, Ambassador Penfield reported that Americans in Vienna not having certificates of birth or naturalization were unable to leave, because German consular officers were refusing to vize their passports for travel through Germany en route for Holland and embark for home. Whether this dispatch reflected a state of tension in Vienna over the negotiations was not made clear.

The ambassador said he had made representations on the subject to the German embassy in Vienna and had asked the American embassy at Berlin to secure a modification of the regulations which prevents Americans from returning to their homes and excludes American-born or naturalized citizens who have not the required additional documents from Germany. The regulation, the ambassador said, made it practically impossible for American citizens so situated to embark from Holland for home.

British Home Secretary to Retire.

London—The Chronicle announces definitely that Sir John A. Simon, secretary of state for home affairs, retires from the cabinet, "thus breaking his brilliant ministerial career for conscience's sake." Sir John A. Simon enjoyed a rapid and brilliant career after a remarkable success at the bar. He entered parliament in 1906 and joined the ministry, first as solicitor general, afterward as attorney general. He is so strong a pacifist that he had almost decided to resign with Viscount Morley and John Burns when the war broke out. It was only the German violation of Belgian neutrality that induced him to remain.

AN EPITOME OF EVENTS

DOMESTIC AND FOREIGN HAPPENINGS SERVED UP IN ATTRACTIVE STYLE.

EUROPEAN WAR HAPPENINGS

Everything Important That Could Be Confined to a Small Space is Found Here.

It is reported from German sources that Emperor William has summoned a great war council and a similar naval council to be held in Berlin on his birthday, January 27.

British casualties reported in lists published during the month of December amount to 1,001 officers and 17,548 men. These are the returns from all fronts.

One hundred five-pound cans of milk powder, equivalent to three tons of milk, were packed by the New York citizens' committee for food shipments to be sent by registered mail to German and Austrian babies. The postage on the shipment is \$348.

Germany's experiments with substitutes for cotton in making gunpowder have been so successful that for eight months no cotton has been used. This statement was made by the president of the Bremen chamber of commerce to a convention of merchants.

President Poincare of France and the kings of Belgium, Italy and Serbia have exchanged telegrams of New Year's greetings and expressing unabated confidence in the final triumph of the entente allies. "Nineteen hundred and sixteen will be our year of victory," says President Poincare in his message to officers and soldiers of France.

Fire destroyed the South Chicago plant of the American Linseed Oil company, causing the death of six men believed to have been killed by an explosion or burned in the resulting flames, and occasioned a property loss of \$2,000,000.

Fifteen persons were instantly killed, a score more injured, some probably fatal; many railroad cars were destroyed and other property damage effected in Monterey, Mexico, when box cars containing dynamite and hand grenades for the Carranza army were exploded.

San Patricio county was moved into the prohibition column by precincts two and four, composed of the towns of Sinton, St. Paul, Aransas Pass, Tatt, Gregory, Portland and Ingleside voting a total prohibition majority of 147. The other precincts of the county were already dry, with the exception of the old town of San Patricio, but in that town no saloon ever has been able to do any business.

Eight men, including a congressman and a former attorney general of Ohio, were indicted by a federal grand jury in New York on a charge of conspiracy to foment strikes in American munition factories as part of a campaign financed by the German government to check the exportation of munitions to the entente allies. The men indicted were Congressman Frank Buchanan of Illinois, former Congressman H. Robert Fowler of Illinois, Frank S. Monnett, former attorney general of Ohio; H. B. Martin, Herman Schulteis, Franz von Rintelin, David Lamar and Jacob C. Taylor.

Vienna—Austro-Hungarian and German submarines sank in the Mediterranean eight troop ships, 25 transports and 34 merchantmen with a total tonnage of about 225,325 in the last two weeks of October and the month of November, according to claims made in authoritative quarters here. The loss of life is said to have been very heavy in the case of troop ships, and the estimate is made that it amounts to at least 5,000 men. Thirty-eight of the vessels were of British register.

Washington—American Minister Reinsch at Peking has cabled the state department that the recent uprisings against Yuan Shi-Kai and the return to monarchical government in China were not considered at present as serious. A paraphrase of the dispatch says: "The opposition movement is confined to the province of Yunnan. The other provinces in the south are quiet. If the movement should spread, however, it is not anticipated that there will be danger to foreign life or property."

The Gypay gas well at Fox, Ok., has been shut in. It was making 29,000,000 feet from the last sand.

Permission to purchase 1,500 steel underframe coal cars and five air-dump maintenance cars were granted by the federal district court at St. Louis, Mo., to Charles E. Schaff, receiver for the Missouri, Kansas & Texas railroad.

One million five hundred thousand dollars was stolen in Chicago during 1915, according to figures compiled from police records. This was \$300,000 more than the tribute levied by thieves on Chicago's public during the year preceding.

In 1915 the total miles of new railroad constructed in the United States were 932, as compared with 1,532 in 1914 and 3,071 in 1913. There were also a reduction in the second trackage built. The largest mileage of new road in one state was built in Pennsylvania, which constructed 98 miles.

Fifty men, women and children, soldiers and camp followers of the Mexican de facto army were left huddled in a pathetic group beside the railroad track when 1,200 Carranza soldiers on route from Sonora state to Juarez detained at Pelea, N. M. Pelea is six miles from El Paso.

Four negroes were shot and killed, two burned to death in a negro cabin, two white possemen seriously wounded and several others were slightly hurt in a series of battles near Blakeley, Ga., growing out of the assassination of Henry Villipigue, an overseer on the E. H. Coachman plantation, according to reports.

An unsuccessful attempt to dynamite the state house at Boston, Mass., was made Saturday. A bomb containing four pounds of explosives was attached to a basement door and a fuse had been lighted, but the same apparently died before reaching the detonator.

A decree establishing a minimum wage for 10,000 women and girls employed in retail stores in Massachusetts went into effect Jan. 1. The decree was issued by a minimum wage commission, and while not mandatory, it has been accepted by nearly all of the retail stores in the state. The weekly wage for experienced employees is fixed at \$8.50.

Farmers from all parts of the cotton-growing states are preparing to go to Washington and demand from their senators protection of cotton seeking a market as noncontrolled of war in the parts of Germany and the neutral countries of Europe, provided his mission of H. N. Pope, president of the Texas Farmers' Union, with Secretary of State Lansing is not a success.

Governor W. S. Hammond of Minnesota died suddenly in a hotel in Clinton, La., from a stroke of apoplexy, which physicians stated apparently had been superinduced by a recent attack of ptomaine poisoning. He died before physicians who were summoned could arrive. Gov. Hammond had arrived in Clinton three days ago to inspect his extensive land and lumber interests in East Feliciana parish.

The substitution of silver for gold and the issue of paper money in its place has caused a serious shortage of silver in London. Banks are still able to obtain silver in moderate amounts from the bank of England, but it is growing scarcer. The silver held by the bank of England in normal times amounts to about five million dollars. The latest returns show only \$750,000.

The White Star liner Baltic has arrived from Liverpool bringing \$35,000,000 in specie consigned to New York banks from England.

Twenty persons were injured, six seriously, two of whom will die, in a fire that destroyed the Bellevue apartments in Philadelphia. Some of the victims were hurt in heroic efforts to save others, while many leaped from windows in the upper stories of the building and were more or less seriously injured.

Another advance in the price of crude oils was announced by the South Pennsylvania Oil company, Pennsylvania crude, the base of the list, being advanced 10 a barrel to \$2.25.

Notice of wage increases affecting probably 75,000 employees have been posted in cotton mills of various cities in New England. It is understood that the advance will average 5 percent for all employees receiving \$10 a week or under.

Why You Should Have a Bank Account

and pay with checks: First, your check is a receipt for bills paid. Second, you have no difficulty in making change. Third, your money is absolutely safe from loss, robbery and fire. Fourth, it gives you a credit that is of great value in times of need. Fifth, the depositor can borrow money in hard times, when others cannot. Open an account today with—

PUBLISHED WEEKLY. BY NEIL H. BIGGER, Editor and Proprietor. Subscription per year \$1.00 Six months .50

Entered as second class matter May 14, 1915, at the postoffice at Capitan, N. M., under the Act of March 3, 1879.

Notes from Luke's Corners.

Horace Witherspoon's wife washed his breeches this week and ground up a five dollar bill in the pockets, and now Horace is trying to spread the bill out so it can be identified that he can get his money back.

The character here known as "Slop Bucket Dick" went home last night with a whole sheet of sticky fly paper stuck fast to the seat of his pants.

A peddler came through the Corners this week selling "Indian Herb Life," but said it so fast it sounded like "Indian Rubber Life" and so confused the audience till they bought none.

Nigger Lassus and his boy Kero passed through the Corners Monday with a load of freight for the "Tarripin" ranch.

The Hines boys, who live away down on Caney, passed through the Corners last Monday on their way back from a big bear hunt over in the brakes.

The postmaster here is sick this week with the Pejaritan, but the Old Needle Doctor thinks an operation can be avoided.

As ever yours truly, RUBE WHITE, Official Correspondent from Luke's Corners.

Deputy Sheriff John B. Baird was over from Carrizozo Tuesday, which was his first visit to Capitan since his return home from El Paso.

Frank Andrews, of Santa Fe, a Forest Service man, is here inspecting the boundary of Lincoln National Forest.

The Mountaineer made a serious mistake last week in stating that Mrs. Zumwalt had died at Nogal.

The Mountaineer made a serious mistake last week in stating that Mrs. Zumwalt had died at Nogal. It was Mrs. Henley who died. We made the statement on mistaken information.

Retains Its Popularity

We were reminded one day this week, when we saw a car load of Studebaker wagons being unloaded by the Tittsworth Co. and trailed to one of their warehouses, of our boyhood days.

Baca Canyon Ripples.

After an absence of two weeks we make our reappearance and beg to say that when that dread disease, la grippe, had done its worst in Carrizozo, the gentle minds of that town waited all the extra germs over this way.

Mr. Benton Yates first had an attack of the gripp, which then turned into the measles. We hope he won't be generous enough to give them to all of us.

Mr. Paul Dean and family, of Seminole, Texas, who have been visiting relatives here, left for their home Jan. 1, 1916.

The J. W. Yates family have all been quite ill with the gripp, but are recovering slowly.

The high wind last Tuesday the 29th ult. did considerable damage in this canyon, blowing down many big trees.

Mr. and Mrs. Luther Keeling and children visited friends on the north side Xmas, all returning with a bad case of the gripp.

Mr. and Mrs. B. F. Nabours returned home Wednesday after spending Xmas with Mr. and Mrs. Nabours, sr., whom they had recovered from their recent illness.

W. C. Shafer

Will do any kind of Blasting and Cement work; will build and repair cisterns and short notice and guaranteed work. Can be found in Capitan by those wanting such work, if not employed elsewhere. If not at home, leave word at residence. W. C. SHAFER.

Notes from Mountain View

There was church at this place Sunday and Sunday night by our neighbor, Bro. Webb.

There was also Sunday school and the Christian Endeavor work, which was led Miss Vera King. The leader next Sunday will be Miss Myrtle Gunnells.

There will be services here Saturday night and Sunday at 11 o'clock and Sunday night by Bro. Dick Fryor.

These will be church at this place every first Sunday and Sunday night by Bro. Webb.

Charley Dale's baby, Gladie, has been very sick, but is now getting all right.

Boston Wright was through here one day the past week peddling apples.

Mrs. H. D. King is on the sick list with the la grippe.

Essie Lee Gunnells is staying at Capitan with her aunt, Mrs. R. C. Hammitt, attending school.

They are talking of having a dance at the Block Ranch on the 10th.

James Hipp and sister Miss Lula attended the dance at Garland Coor's, in Paradise Valley, Thursday night.

Mr. Rufus Coor and family and Mr. Frank Barton attended the dance at Garland Coor's.

Miss Hattie Sturgis failed to get off Monday as she expected on account of the bad weather. Oscar Patterson took her to Capitan Friday.

Mr. H. D. King and sons have moved the house, Miss Hattie Sturgis lived in to their place.

A. H. Hayes went to Marilla Tuesday.

Ranch Wanted.

Will exchange improved revenue bearing property in best town in eastern New Mexico and cash for a good mountain ranch in Lincoln or Otero counties, three to twenty sections. Don't write unless you have a bargain to offer. Address Lock Box 32, Clovis, New Mexico.

Applications Grazing Permits

Notice is hereby given that all applications for permits to graze cattle, horses, hogs, sheep and goats within the LINCOLN NATIONAL FOREST during the season of 1916 must be filed in my office at Capitan, New Mexico, on or before January 15, 1916.

J. H. KINNEY, Supervisor.

To Sell or Trade.

A good 120-acre home for sale for \$500 at Alto, N. M.

Some choice property, both business and residence property, in the city of Roswell to trade for ranch property.

A fine large well bred Jack for sale or trade for other suitable stock.

I have buyers for a class of ranch property, none of which I have listed. I am getting up a list to advertise and if you have a bargain to offer I would like it in the list.

C. C. MERCHANT, Capitan, N. M.

An X marked on the margin or wrapper of your paper means that your subscription has expired.

Wanted—50 to 100 young hares; state what you have and lowest price. See or write J. A. Adams, Tucson, Capitan post office.

Wanted—To borrow \$1,000 for three or five years on improved place, valuation \$3,000. Will pay 10 per cent interest per annum. C. A. Perkins, Capitan, N. M.

Wanted—Hides, Goat skins and Sheep pelts. Welch & Tittsworth.

STATE OF NEW MEXICO

Certificate of Comparison United States of America, State of New Mexico, ss. It is Hereby Certified, that the annexed is a full, true and complete transcript of the

Amendment to Certificate of Incorporation of Welch & Tittsworth, changing name to

THE TITSWORTH COMPANY (No. 3319) with the endorsements thereon, as same appears on file and of record in the office of the State Corporation Commission.

In Testimony Whereof, the State Corporation Commission of the State of New Mexico has caused this certificate to be signed by its Chairman and the seal of said Commission, to be affixed at the City of Santa Fe on this 18th day of November, A. D. 1915.

M. S. GROVES, Chairman. Attest: EDWIN F. COARD, Clerk.

Amendment to Certificate of Incorporation of Welch & Tittsworth.

George A. Tittsworth, President, and Will Tittsworth, Secretary, of Welch & Tittsworth, a corporation, do hereby certify that the principal office of said company in the State of New Mexico is at the town of Capitan, New Mexico, and the name of the agent therein and in charge thereof and upon whom process may be served is George A. Tittsworth; and that at a meeting of the Board of Directors of said Company duly held, a resolution was unanimously adopted declaring it to be advisable to change the name of said corporation to "THE TITSWORTH COMPANY" and calling a meeting of the stockholders to take action thereon; that pursuant to such call a meeting of the stockholders was duly held upon the notice provided by the By-Laws; all the stockholders being present and voting in favor of such change of name.

In Witness whereof, we have hereunto set our names and affixed the corporate seal of the said corporation on this 18th day of November, 1915.

[Signed] GEO. A. TITSWORTH, President, Welch & Tittsworth. [Signed] Will Tittsworth, Secretary.

[SEAL.] State of New Mexico, County of Lincoln, ss.

On this 18th day of November, 1915, before me personally appeared George A. Tittsworth and Will Tittsworth, each to me personally known, and being by me first duly sworn, did state that said George A. Tittsworth is President, and said Will Tittsworth is Secretary, of Welch & Tittsworth, a corporation, and that the seal affixed to the foregoing instrument is the corporate seal of the said corporation, and that said instrument was signed and sealed in behalf of said corporation by authority of its Board of Directors. And said George A. Tittsworth, President, and Will Tittsworth, Secretary, each upon his oath did state that the asset of each of two-thirds in interest of each class of stock holders was given to the amendment set forth in the foregoing certificate.

In Testimony Whereof, I have hereunto set my hand and notarial seal the day and year last above written.

[Signed] John W. Norton, Notary Public. My commission expires August 24th, 1919.

MEL IS MERCURY, IT SICKENS! STOP USING SALIVATING DRUG

Don't Lose a Day's Work! If Your Liver Is Sluggish or Bowels Constipated Take "Dodson's Liver Tone."—It's Fine!

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated, breath bad, stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your

sluggish liver better than a dose of nasty calomel and that it won't make you sick. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine; your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful, full of vigor and ambition. Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children! Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.

Purely a Defensive Measure.
"Hear how old Wogram got even with the war?"
"No. How'd he do it?"
"Well, when the war cut off the dyestuffs Wogram cut off his whiskers."—Judge.

RUB RHEUMATIC, ACHING JOINTS

Rub pain away with a small trial bottle of old "St. Jacobs Oil."

Rheumatism is "pain only." Not one case in fifty requires internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and can not burn the skin.

Linger up! Quit complaining! Get a small trial bottle of "St. Jacobs Oil" at the store and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains. Adv.

Tit for Tat.
The young couple were dawdling over a late breakfast after a night at an ultra smart party.
"What you kissed in the conservatory last night?" hubby inquired.
She looked at him reminisciently: "About what time was it?"

Important to Mothers
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the signature of *W. C. Little* in Use For Over 30 Years. Children Cry for Fletcher's Castoria

A Question.
Nurse—The new patient in our ward is light-headed.
Doctor—Delirious or blind?

ANURIC!

The Newest Discovery in Chemistry

This is a recent discovery of Dr. Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric" manufactured by Dr. Pierce, or even write Dr. Pierce for a large trial package (10c). If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Dr. Pierce's chemist will examine it, then Dr. Pierce will report to you without fee or charge. NOTE—"Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Dr. Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Rheumatism!

How is rheumatism recognized? Some have said—
Rheumatism is a dull pain.
Rheumatism is a sharp pain,
Rheumatism is sore muscles,
Rheumatism is stiff joints,
Rheumatism is a shifting pain.

All have declared—*Rheumatism is Pain.*

Sloan's Liniment applied:—
The blood begins to flow freely—the body's warmth is renewed—the congestion disappears—the pain is gone.

Sloan's Liniment

KILLS PAIN (GUARANTEED)

Rheumatism and allied pains yield to the penetrating qualities of this warming liniment.

THE EUROPEAN WAR A YEAR AGO THIS WEEK

Jan. 3, 1915.
French completed capture of Steinbach and gained near Reims and St. Mihiel, but were repulsed near Ste. Menesville.
Floods hindered the fighting in Flanders.
Germans captured Bollnow from Russians, but their advances on Kielce and between the Bura and Rawka rivers failed.
Russians took thousands of Austrian prisoners and swept through Bukovina.
Germans rushed to defense of Craoow.
Ghent taxed bachelors to meet German demands for money.
Day of intercession and prayer throughout British empire.
Second Australian expeditionary force sailed for England.
Shipment of food for Albanians left United States.

Jan. 4, 1915.
Russians occupied Suzawa and again threatened Craoow.
Turks ravaged Persian territory. British ships shelled Dar-es-Salaam, German East Africa.
French aviators dropped bombs near Brussels.
Germans put Young Turks under oath to support existing regime.

Jan. 5, 1915.
Germans began moving big guns from Ostend.
French forces made advance toward Cernay.
Russians defeated Austrians in Uzak Pass and prepared for invasion of Transylvania.
Germans renewed activities along the Vistula.
Pope obtained release of French Catholic missionaries held in Syria. Belgian food ship sent by state of Kansas sailed.

Germany agreed not to hinder sending of food to Belgians by America.

BRIEF INFORMATION

Homing pigeons can travel 70 miles an hour.
The skeleton is one inch shorter than the measurement of the living person.
Louis XVI drank the first cup of coffee made in France. It was then worth \$29 a pound.
To protect winged motorists from injury there has been invented a suit of pneumatic armor, covered with rubber tubes into which air can be pumped.
A Kentucky man has invented an electric fan to be mounted under an umbrella to circulate air, so designed that it can be folded as the umbrella is closed.
After ten years experimenting a Liverpool man has perfected a product from seaweed for the manufacture of non-inflammable motion picture films and paper claimed to be water, flame and germ proof.

THIS IS THE AGE OF YOUTH.
You will look ten years younger if you darken your ugly, grizzly, gray hairs by using "La Croix" Hair Dressing.—Adv.

The Boporus is about 17 miles long with a breadth of a third of a mile to two miles.

Whoever You Need a General Tonic Take Grove's
The Old Standard Grove's Tasteless Chilli Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

After a man has had occasion to employ a first-class lawyer you can't tell him that talk is cheap.

Ec-Zene Kills Eczema.
Let us prove it. Take no substitute. If your Druggist does not have it, write to Ec-Zene Co., St. Paul, Minn.—Adv.

The United States used one-fifth of the 49,000,000,000 pounds of sugar produced in the world last year.

AVOID A DOCTOR'S BILL.
At the first of the month by taking now a bottle of Mansfield Cough Balsam for that hacking, hollow cough. Price 25c and 50c.—Adv.

A muscle from a frog's leg is utilized by a French inventor to receive and record wireless signals.

CARE FOR YOUR HAIR
Frequent Shampoos With Cuticura Soap Will Help You. Trial Free.
Precede shampoo by touches of Cuticura Ointment if needed to spots of dandruff, itching and irritation of the scalp. Nothing better for the complexion, hair, hands or skin than these super-creamy emollients. Also as preparations for the toilet.
Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Swiss Develop Toy Industry.
In Switzerland the toy industry has recently been developed to a considerable extent. Various organizations in different parts of the country have joined hands with a view of increasing its efficiency and of encouraging and facilitating the exportation of its products. Important orders have already been filled for France and England. Some firms alone have produced hundreds of new models in wood and in pasteboard, and more are being added daily. The industry is to be now in a position to take care of a large foreign demand and to supply many of the needs of the United States.

What Was the Attraction?
"What's become of that young man who used to call on you, Ethel?" asked one bosom friend of another.
"George Macpherson, do you mean?" answered Ethel coldly.
"Yes, he was always calling at your house, wasn't he?"
"I can't understand him," said Ethel, with a confidential air. "He came around every night for three weeks."
"Yes, and then—"
"Then he stopped coming, and I can't decide whether he came to see me or simply to hear all our graphophone records."

Natural Conclusion.
He—I see the West fears a horse famine.
She—Why? Haven't their automobiles out there?
A Russian is not of age until his twenty-sixth year.

ONEIDA COMMUNITY SILVERWARE

Save the Trade-Mark Signature From SKINNER'S Macaroni and Spaghetti Products

and get a complete set of Oneida Community Par Plate Silverware free. Guaranteed 10 years. Beautiful Bridal Wreath pattern. Send us the coupon below and we will tell you all about it.

Nine Kinds Skinner's Products
1 Macaroni 4 Cut Macaroni 7 Soup Plates
2 Spaghetti 5 Cut Spaghetti 8 Alphabet
3 Egg Needles 6 Eggs 9 Veraloni

These delicious foods can be prepared 58 different ways to take the place of high-priced meat dishes. An economical, hearty food, perfectly balanced.

Skinner's Macaroni Products are made from the finest durum wheat, in the largest and cleanest macaroni factory in America.

Get a complete set of Oneida Community Par Plate Silverware with Skinner's Macaroni Products. Send the coupon for full details. No obligation whatever. In the meantime buy Skinner's products at your grocer's (cheaper if you get them by the case—24 packages) and save the circle containing the signature. All good grocers sell Skinner's Macaroni Products. FREE with Skinner's Macaroni Products.

Harm Done by Hertzian Waves.
Ever since the extensive commercial employment of wireless telegraph, there have been many who believe that the powerful Hertzian waves seriously affect organic life. In fact, some have even suggested that laws or regulations should be enacted to protect organic life against wireless waves. With a view to determining the extent and nature of the radio waves' influence on organic life and climate, Dr. C. Abel-Musgrave recently asked several questions on the subject to be answered by a number of prominent German scientists. The summary of their answers was that wireless waves have no influence on organic life, nor do they alter climatic conditions, although it is true that certain electrical stresses are capable of accelerating rainfalls.

Domestic Drama.
"Where are the papers?" he demanded.
She looked him fearfully in the eye. "I have hidden them," she said calmly.
"Woman! You dare to defy me? Produce those papers instantly, or I—"
"That will do, Henry. Sit down and eat your breakfast, and I'll give you the morning papers after you are through. I'm tired of seeing you so absorbed in the war news in the morning that you haven't time to say a word to me or the children."

Extremes Meet.
She—My dear, the coal's all out.
He—And I'm all in!

WHY DONKEY WAS IN CLOVER.

Punishment That Surely Might Be Classed as "Unusual," Though Possibly Not "Cruel."

Not very long ago there lived in England an old man who always rode on a donkey to his daily work, and tethered him while he labored on the roads or wherever else he might be. It had been pretty plainly hinted to him by one of the local landowners that he was suspected of putting it in the fields to graze as other people's expense.

"Eh, squire, I cud na do such a thing, fer my donkey won't eat newt but nettles an' thistles."
One day the gentleman was riding along the road, when he saw the old fellow at work and the donkey up to his knees in one of his clover fields feeding luxuriously.
"Halloo, John!" said he. "I understood you to say your donkey would eat nothing but nettles and thistles!"
"Aye," said John, "but he's been misbehavin' himself, sir. He nearly kicked me 't' the chest just now, so I put him there to punish him!"

Familiar Surroundings.
Grace—I've been trying for years to get my brother to take a vacation.
Harry—And he won't do it, eh?
Grace—No; says he'd be lonesome away from his work. He's a chiropractor, you know.
Harry—A chiropractor? Why don't you suggest his spending a few days at the foot of a mountain?

Madam, Allow Me To Introduce the New Post Toasties

You may have eaten "corn flakes" but you have never tasted any that equal the New Post Toasties.

These new flakes, madam, are crisp and flakey, and have a substance and toasty flavour, a snap and zest that make them distinctive.

Dainty to be sure in their sweetness, the New Post Toasties have a body and firmness that don't mush down when cream or milk is added; and a true ripe-corn flavour that makes one feel that here, at last, is something really new and good to eat.

New Post Toasties—selected Indian corn, prepared for the table as it was never prepared before.

Your grocer has them now.

Buy and Try and Smile Awhile

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headaches, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your druggist or at the store. It is inexpensive and almost tasteless, except a sourish tinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks fool; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.—Adv.

He Knew. "Oh, it must be terrible to be starving in the midst of abundance." "You bet it is. I carved the turkey for a party of twenty people at my house on Christmas day, and I thought I never would get anything to eat myself."

INDIGESTION, GAS OR SICK STOMACH

Time!!! Pape's Diapain ends all stomach misery in five minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapain digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

You feel different as soon as "Pape's Diapain" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food. Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapain from any store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or bad stomach. Adv.

Such is Life. "Life is just one darned thing after another." "What's the matter now?" "I've been taking dancing lessons for six months just to please my wife, and now I've got to begin all over, again and learn to dance on skates."

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by sending at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of the famous old recipe for about 50 cents.

Don't pay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Adv.

Diverting the Funds. "Jack's father sent him money to hire a tutor." "Well?" "He hired a chauffeur—said that was the kind of tutor he needed." A hot temper warps a man's better judgment.

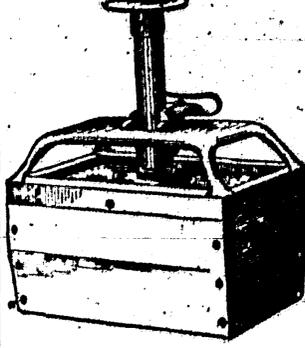

DAIRY FACTS

MAKING BUTTER FOR MARKET

Among Other Things Necessary is Up-to-Date Equipment—Absolute Cleanliness is Essential.

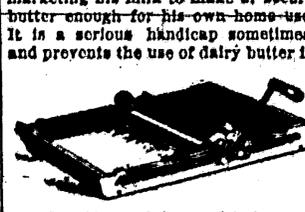

As the great body of farmers more and more take up the production and sale of milk to be shipped out of the country, there will be an ever-widening opportunity for those who prefer to do that kind of work, and are competent to do it, to make butter for sale in town and even right around among their neighbors.

There are some parts of the country which dispose of nearly all their milk

One-Pound Butter Printer.

to the condensaries or else sell it for shipment to the large business and residence sections. This, of course, makes it practically impossible for any farmer who follows this method of marketing his milk to make or secure butter enough for his own home-use. It is a serious handicap sometimes, and prevents the use of dairy butter in

One Type of Butter Worker.

great measure, forcing people to use imitations of butter, much as they dislike to do so.

One young farmer is making a good thing of it, producing choice dairy butter, putting it up in flats or jars as desired by his customers.

A few things need all the time to be in the mind of the man who sets out to do a business of this kind. First, the necessary up-to-date equipment; second, the ability to make good butter; third, absolute cleanliness at every step; fourth, good butter cows, and fifth, cold water for washing and otherwise caring for butter.

DAIRY COWS REQUIRE SALT

Important Item Often Overlooked in Management of Herd—Essential to Health of Cattle.

(By E. V. MLLINGTON, Professor of Dairying, Idaho Experiment Station.) An important item that is often overlooked in the management of the dairy herd is the necessity of providing salt in the ration of the cow. All animals that consume large quantities of vegetable food require salt. Babcock, of the Wisconsin experiment station, found in his experimental work that the cattle, when deprived of salt, became emaciated and were of low vitality and finally suffered a complete breakdown. He recommended that they should be fed three-fourths of an ounce per day live weight with an additional 3-10 ounces for each 20 pounds of milk produced.

While salt may be provided in the daily ration by mixing it with the grain, an equally satisfactory method in practice is to keep it in a convenient place where the animals may have ready access to it when they so desire. It may be used in the form of rock salt or placed in boxes in the feed lot. However, it should be borne in mind that salt is very essential to the economical handling and health of dairy cattle.

TWO Sires FOR DAIRY HERD

Plan is Advocated by Minnesota Expert for Purpose of Eradicating Infectious Abortion.

(By DR. M. H. REYNOLDS, Minnesota Agricultural College.) We do not encourage anyone to think that there is an easy, quick or sure method of eradicating infectious abortion from a herd of cattle. Success usually involves a very considerable amount of work and trouble, although the money expense is not large. It is a very good plan to keep two sires for breeding service in a valuable herd affected with this trouble. One sire should be used exclusively with infected or suspected animals and the other with those that are quite certainly uninfected. This is unquestionably more effective than disinfection before and after service.

Up-to-Date Methods. Belong to a dairy cattle breeders' association; a cow-feeding association and every organization that will help to keep you posted and in touch with the best up-to-date methods of managing your dairy herd.

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

Two Styles. "I believe in the mailed fist." "And I in the pacifist."—Baltimore Sun.

Please Cured in 6 to 14 Days. Druggists refund money if Pazo Ointment fails to cure itching, blind, bleeding or protruding piles. First application gives relief.

FOUND FAIR CLIENT'S HUSBY

Blauth's Methods Took Time, but Once on the Trail He Was Certain of Success.

After the third injection of lead the great detective turned to his fair visitor and said: "You say your husband used to be a baseball umpire and all you know of his whereabouts or other belongings is that he is employed as a waiter at one of the city restaurants?"

"Exactly," replied his visitor with a slight foreign accent, according to the Detroit Free Press.

"I will find him for you, but it may take all day," said the great detective. And going to the telephone he called up the proprietor of every restaurant in the city and extracted from each a promise not to allow any flagpoles to be made that day.

"Now come with me," said the great detective, and they began a tour of the city's 213 restaurants. Not until the one hundred and fifteenth did the great detective genius find his reward.

"A plate of flagpoles with two straws, please," he ordered for the one hundred and fifteenth time.

The waiter threw back his head and a strange mystic light shone in his eyes as he intoned loudly: "Batter is out!"

"Your umpire!" cried the great detective, and, leaping to his feet, he stripped the waiter's false mustache from his face.

It was his fair client's husband.

A Wife's Work

"I'm afraid Dubwaite is inclined to look down on his fellow man."

"Oh, that isn't his fault!" "No?"

"He was as modest a fellow as you ever met until he married Mrs. Dubwaite. She's made him think he's a celebrity."

LACK OF MONEY

Was a Godsend in This Case.

It is not always that a lack of money is a benefit.

A lady in Ark. owes her health to the fact that she could not pay in advance the fee demanded by a specialist to treat her for stomach trouble. In telling of her case she says: "I had been treated by four different physicians during 10 years of stomach trouble. Lately I called on another who told me he could not cure me; that I had neuralgia of the stomach. Then I went to a specialist who told me I had catarrh of the stomach and said he could cure me in four months, but would have to have his money down. I could not raise the necessary sum and in my extremity I was led to quit coffee and try Postum.

"The results have been magical. I now sleep well at night, something I had not done for a long time; the pain in my stomach is gone and I am a different woman.

"Every time I had tried to stop coffee I suffered from severe headaches, so I continued to drink it, although I had reason to believe it was injurious to me. But when I had Postum to shift to it was different.

"To my surprise I did not miss coffee when I began to drink Postum.

"Coffee had been steadily and surely killing me and I didn't fully realize what was doing it until I quit and changed to Postum." Name given by Postum Co., Battle Creek, Mich. Postum comes in two forms: Postum Cereal—the original form—must be well boiled. It's and 20c package.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 20c and 50c tins.

Both kinds are equally delicious and cost about the same per cup. "There's a Reason" for Postum.—said by Green.

Gales of GOTHAM and other CITIES

St. Louis Society Women Are Good Fire Fighters

ST. LOUIS.—Signal Hill, the exclusive residence suburb between East St. Louis and Belleville, produced a feminine fire brigade of society women on a moment's notice when a blaze was discovered in the home of A. B. Hall.

Signal Hill during the middle of the day is an Adamless Eden. The resident men all leave in the morning for their offices and do not return until late in the afternoon.

The only man in the rescue party was George Wainwright, chauffeur.

Three lines of garden hose were played on the fire, which was on the roof. The women formed a bucket brigade, carrying water into the building and up a ladder to throw on the roof. The heroine of the occasion was Miss Cora Brethi, who climbed the ladder and handled the hose.

One of the women of Signal Hill who was among those present says it was real thrilling. "We get into careless habits up here," she said, "because it is strictly a woman's settlement during the mornings and afternoons, so when the fire alarm sounded the costumes that were placed on view were very striking."

"We all ran to the fire," said one Smart Set belle, her nose smutty and hair tousled, "without caring a hoot what we looked like, and got busy. I could tell you what some of the women wore without taking up much of your time, but what's the use? We were out to fight fire and save a home, not on a fashion parade."

"When we finished we were all drenched to the skin, but proud of our work and thankful it was not a windy day, for with such a gale as we had two days ago the fire would have spread to other homes, and possibly have destroyed every house on the hill."

Tulsa Man Raises Rabbits on Skyscraper's Top

TULSA, OKLA.—On top of one of the tallest buildings in Tulsa is a rabbit ranch, perhaps the most unique enterprise in Tulsa. The level roof of the Pioneer building, fenced in by a wall three feet high, makes an ideal place for such a business as this, but for some reason Mr. "Scotty" McPherson was the first to stumble upon the idea, although there are several square miles of such roof space inside the city limits.

He could hardly have found a better hiding place for his little "stock farm" than on top of the Pioneer building. It is not the tallest structure in town by five stories, but it is situated on a hill and the roof is slightly lower than that of the Hotel Tulsa.

From the top floor of the Clinton building across the street is the only way you can see Scotty's rabbits unless he should consent to let you make his plant a visit. The roof is Scotty's sanctum sanctorum, however, and few there be that ever pass the fourth floor of the Pioneer building.

Mr. McPherson is a man of between forty and fifty years old. He is not married, and his life is as much for his pets as for anything. In the summer time he stretches his tent on top of the building and lives among his rabbits and ducks. In the winter time he visits them several times a day and sees to it that they do not suffer from hunger and cold. Four large mother rabbits, each with a very large family, are now nesting on alfalfa and cabbage leaves and sleeping in a very cozy little apartment house built by Scotty's own hands.

The ranch is not a paying institution the way Scotty runs it. He did not enter upon this project for gain. He owns, manages and controls the rabbit ranch for fun. One day not very long ago Scotty chanced to be down on the river, near the West Tulsa bridge, and saw a white rabbit about the middle of the span. Whether he had escaped from some passing wagon or wandered out on the bridge from a nearby farm, Scotty never stopped to inquire. He simply took the rabbit. Now the white one, the only blonde in the village, is the favorite of the whole household.

How Fortune Mocked at Happy John of Chicago

CHICAGO.—John Felix pursues the illusive jade of fortune by way of being an oyster opener in the Automobile club of Chicago. John always will take a chance, for his motto is "nothing ventured, nothing gained." Hence he oftentimes lays a coin on the poles.

But luck has not been abiding with him. With him money talks, but all he ever heard it say was "good-by."

The other day he was opening some oysters, and as he pried the shells he determined to be of good cheer—that the worm would turn; that opportunity knocks once at every man's door; that a rolling stone gathers no moss; but gets around a good bit anyhow; that all is not gold that glitters, but there's money in it if you can make somebody believe it's gold. And he laid the half-shell oysters on an iced plate.

Out in the grillroom F. Y. Low, who lives at 5166 Hyde Park avenue, looked with epicurean glee at the succulent bivalves. (Oysters always are succulent bivalves in stores of this sort—School of Journalism, rule 4.) Then he set himself about his luncheon.

Out in the kitchen John Felix was idly wondering how much he could get for the kitchen range, if it belonged to him, and if it was made of platinum and—

"Say, Johnny," broke in the waiter who had taken the plate of oysters from Felix and served them to Mr. Low, "why didn't you clean these oysters. They're for Mr. Low, and they're full of spots."

"I did try to pick out them spots," said Johnny, "but they stuck tight, so I let 'em go."

"Well, you're sold ivory," sneered the waiter. "Them spots were eight pearls, and they're worth \$600."

Battery Park, New York, Becomes a Cow Pasture

NEW YORK.—The first corral ever seen in Battery park was improvised some evenings ago by Policemen Timmins and Fitzpatrick with benches placed end to end, backs inward, forming a circle about forty feet in diameter. In this metropolitan grazing field 13 steers, calves and sheep contentedly browsed on the grass, that had still some hint of the green of summer.

The cattle and sheep were castaways from the wreck of the two-storied barge El Paso, sunk off of Battery, several hundred feet east of the aquarium by the Eastern Steamship company's steamship North Star.

When the barge left the Erie freight yard in Jersey City in the afternoon she had aboard 120 cattle, 125 calves and 225 sheep, all alive, but destined to early death in an abattoir on the East river.

The rent made by the prow of the North Star let a large number of cattle and sheep flow into the bay. Many were drowned, but more than a hundred swam toward the Battery wall. Captain Lyon of the fireboat William L. Strong went to the rescue and his crew saved a number of the animals.

While the wretched firemen were tussling with the bovine and mutton castaways the policemen on the Battery wall, assisted by civilian talent, were lassoing sheep and lambs.

It was then that the park beach corral was constructed. But all the lambs did not get into the corral. At least one man was seen going aboard a Staten Island ferry boat leading a lamb. Later reports from Staten Island said that 20 commuters leading lambs were seen going on a ferry boat at St. George.

"HELP WANTED"

When the APPETITE IS POOR, DIGESTION BAD, LIVER LAZY, BOWELS CLOGGED

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Danderine Right Now—Also Steps Hoping Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scour.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a (frenziedness and itching of the scalp), which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any store, and after the first application your hair will take on that luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. Adv.

Foiled! He Br. "Yes, I told father that white poker chip I dropped was a peppermint tablet."

"Did he swallow it?"

Sometimes Apply It Lightly. For cuts, burns, scalds, sores and open wounds always apply Hasford's Balsam lightly, but be sure that it covers and gets to the bottom of the wound. A few light applications are generally all that is needed to heal this class of difficulties. Adv.

Painless Method. DeAuber—I wonder why the art committee failed to hang my picture? Critic—Perhaps they thought it would be less painful to electrocute it.

R. E. Ferris, of Mountain View, came over Monday to bring his father, who left Tuesday for El Paso.

To Sell—A good second hand Spaulding hack, at a bargain. For particulars inquire at this office.

Mrs. De Nilsen, primary teacher in the Capitan school returned Sunday from her home near Carrizozo, where she spent the holidays.

Billy Seyler was up a few days ago from his place on the Bonita. He said that he will be back next Monday to take his place at the Capitan Bar.

C. C. Merchant will be absent several days next week, but will be here on Friday and Saturday to attend to any business as U. S. Commissioner or Justice of the Peace that be required.

Crescencio Corrallo and Manuel A. Aguilar, two native citizens of Paradise Valley, were in Capitan Tuesday making final proof on their homestead entries.

Dr. C. E. Smith and Mr. A. V. Sittin, of Fort Stanton, were looking after business in Capitan Wednesday afternoon.

W. H. Keller and wife were down Thursday from their place on the Nogal Mesa. Mr. Keller is just getting out from a long spell of la grippe and this was the first time he had been to Capitan for a month or more.

John Norton and his baby have been very sick this week with the galppe. Dr. Johnson reports them much better at this writing.

W. O. Norman and John M. Penfield, of Lincoln, and H. Doyle Murray and Stephen Raymond, of Tinnie, four leading merchants of the Bonita-Hondo Valley were all in Capitan Tuesday.

Our Nogal correspondence only reached us this afternoon—too late for this week's paper, and will have to be held over until next week. By some oversight it slipped by here and came back from Roswell.

As a precaution against a scarlet fever epidemic in school, Prof. Belknap is having every room in the school building thoroughly fumigated. With such precautionary measures adapted it is not probable that Capitan will have an epidemic of scarlet fever.

J. L. Goodall was in town Monday and reported that Jesse Leslie, a neighbor living in Paradise Valley, had the misfortune to get his house and all its contents burned a few nights previous. Jim was circulating a subscription paper for relief of the young man in his misfortune and we are glad to state that Capitan people contributed liberally.

We have a few names on the Mountaineer subscription book of parties who subscribed for six months. Some of these subscriptions are now expiring and we would be glad to have them renewed as we feel justified in the belief that the paper is of general interest and worth the subscription price. That these parties may know when the time expires, we are marking an X on the wrapper or margin of their paper, and unless they are renewed soon thereafter they will be discontinued.

Services at Catholic Church.

Rev. J. H. Cirma will hold services at the Catholic church in Capitan next Sunday morning at 10 o'clock. He will also solemnize the rites of matrimony between Yensesa Herrera Miss Reguel Silva.

J. H. McMillan, one of the ranchmen near Alto, was in Capitan Wednesday looking after business matters. While here he obtained license to carry a gun; he says that coyotes are numerous about his place and he has seen many lobo tracks since the snow while riding in his range, and he wants to be prepared to get some of these depredators should an opportunity be presented.

We formed the acquaintance of Mr. Stephen Ramond, one of the prominent merchants of Tinnie, while he was here Tuesday attending to business matters. Mr. Ramond was a former business man of Capitan and we learn was very successful in his enterprises. He still has holdings here, among which is a valuable little farm just north of town.

W. H. Mitchell and son Oscar arrived here some ten days ago from Taylor county, Texas, and located for the winter in the Wilson house. Mrs. Mitchell and daughter came in Tuesday, and their household goods, farming tools, work stock, etc., also, came in several days ago. They have come among us to make this country their home, and will take their time in prospecting for a location to their liking.

On last Thursday morning Dr. Jonsson was called to the home of F. C. Duran to see his infant son, but the child died before the Doctor got there. The doctor states that from the information he got from the family the child died of pneumonia. F. C. Duran is the son of Mr. Frank Duran, a prominent ranchman in the Tucsons.

Walter Breunig, well known to nearly everybody in this portion of the country as head cook at Fort Stanton for several years, sends the Mountaineer an advertisement this week of his own business in Roswell. He and his partner, Mr. Preston, formerly the baker at the Fort, are running a short order house and cigar store at No. 120 North Main street. We have been told by those who have visited their place that you can find no better place to eat in Roswell for your money's worth than they are keeping. Read their advertisement elsewhere in this paper.

The editor of the Mountaineer took dinner with Mr. and Mrs. Newt Kemp last Sunday. Other guests were Mr. S. W. Hale and family, J. A. Scott and family and Mr. Fred Ferguson. The dinner was an excellent one, and another thing that was particularly enjoyed by all was one of the best egg-nogs we ever got up against.

Willis Hightower is establishing a dairy business in Capitan. He will move out on his place just north of town next week which he is fixing up for that purpose. He will have several first-milk cows and will be prepared to furnish his customers with sweet and sower milk as well as butter. He will put in a cooler and will use bottles for most of his milk. Mr. Hightower has had several years experience in this line of business; was head-dairyman for nearly four years at Fort Stanton and thoroughly understands every part of the business, and will guarantee to give his customers satisfaction.

Dr. Johnson was called in to see the little son of Mr. and Z. T. Lowrie early in the week and found that the boy had a case of scarlet fever. The family is quarantined and Dr. Johnson is taking every possible precaution to prevent a spread of the disease and does not anticipate an epidemic.

CAPTAN BARBER SHOP.

JEFF JOHNSON, Proprietor:
Have just opened a new barber shop in the Capitan Hotel building and am prepared to do all kinds of tonsorial work, at customary prices. Also, cleaning and pressing of clothes done in good style. Everything returned, except the dirt.

Barley Hay for Sale.

I have at my ranch a fine lot of barley hay for sale, at \$12 per ton at the ranch.
H. E. KELLER.

We are carrying an ad on the front page of the Mountaineer for the Carrizozo Exchange Bank. It will appear in each issue of the paper during the coming year, but will be changed every two weeks. Each change has a new suggestion or a good reason why every one who handles, no matter how small the amounts, should do their business through a bank. These advertisements are well gotten up from a practical business standpoint, and many valuable ideas can be gathered from reading them.

LINCOLN COUNTY, NEW MEXICO

DESCRIPTION OF THE RESOURCES AND INDUSTRIAL RELATIONS, ETC.

Captain a Trading and Shipping Point for a Large Territory.

Lincoln county is just a little south-east of the center of the state. Its altitude ranges from about 5,000 feet...

Lincoln county has an area of 4,659 square miles, approximately 3,000,000 acres...

Lincoln county has a population of about 10,000. Settlers are furnished free of charge from the National forest...

The soil of the mountain valleys is a dark, rich alluvium, almost bottom-lands...

There are many springs in the mountains, running streams in some of the valleys and in many of the others...

There is a flowing artesian well one and one-half miles northwest of Captain, depth 300 feet.

Lincoln county has 95 miles of railroad, one line passing through the county from north to south...

The Lincoln county high school is located at Captain. The building is a two-story brick. In addition to the regular course, domestic science, manual training and the commercial branches are taught.

All schools in the county run seven months or longer.

There are two church buildings in Captain which have just been completed.

Captain is surrounded by rolling prairie and forested mountains, the nearest point of Lincoln National forest being four miles out.

The office of the supervisor of the Lincoln National forest is located at Captain.

We have no hot winds, cyclones, nor sand storms here.

Where running water may be had, irrigation is practiced and in such districts apples and alfalfa are the principal crops...

The extent of the stock industry of the county can best be estimated by the number given in for taxation (it is safe to say that this will not be an over estimate), which is as follows: 4,223 horses, 259 mules, 32,118 head of cattle, 230,547 sheep, 17,120 head of goats...

Climatic-Health Conditions: Altitude, aridity and preponderance of sun shine, combined with its latitude, gives Lincoln county one of the best climates to be found anywhere.

From observations taken at Ft. Stanton covering a period of 25 years are taken the following facts concerning temperature, rainfall, snowfall, etc.: Annual mean temperature, 53 degrees; highest temperature, 95 degrees; lowest temperature, 29 degrees; annual rainfall, 22 inches; annual precipitation, 17 inches. Average date of first...

In spring, May 6th; average date of first snow, October 5th. Average hourly wind velocity, 6-10 miles.

The altitude at Ft. Stanton is 5,221 feet. The figures taken here will perhaps be a fair estimate of conditions over the county at that altitude, the lower the altitude the lighter the precipitation, and at the higher altitudes the heavier the precipitation...

We have from reliable sources the following data on the annual average yield of some of the non-irrigated crops grown in the mesa district, west of Captain, for the past five years: Corn, 25 bushels per acre; beans, 600 pounds per acre; barley hay, (fed on the farm not weighed) estimated at two tons per acre.

There are instances of a much heavier yield than that given above, one farmer producing on 28 acres of land 25,200 pounds of beans one year, and another producing 5,000 pounds of four acres last fall.

We have a good local market for all farm products grown here, the price of beans ranging from \$2.50 to \$7.00 per cwt., with an average price of \$4.00, and corn ranging from \$1.85 to \$2.00, with an average price of \$1.65, and other farm products in proportion.

MILITARY MAN'S COOPER PET

Spider Proved Mascot in Hot Fight in Egypt, and Subsequently Made Long Voyage in Safety.

An English military officer has told of a spider of his acquaintance that went through several battles and proceeded on a long journey by sea and land, and all without any mishance.

It appeared that the first time this spider came into public notice was just before the fight at Albara in Upper Egypt. It had quartered itself in the ventilator of the helmet of the officer. It was an energetic and busy little spider, but always returned to its quarters in the helmet, where the good-natured officer left it unmolested.

When the officer reached London it was, he says, with considerable compunction that he opened the helmet box, fully expecting to see the dead body of the spider. Instead, however, he was rejoiced to find his friend alive and vigorous—and not even lonely, since, upon the voyage the occupants of the helmet had increased in number, and now two young spiders shared the strange retreat.

Messages by Searchlight. Although searchlight signaling between battleships was a means of communication at sea long before the introduction of wireless telegraphy, it is still utilized.

The moral of a dog's tail always points to the past. Missouri's law code is to be revised by a commission of 15 persons. Ho who starts out to meet trouble has a short journey.

Nine thousand Scotchmen went to Canada last year.

Expensive Military Shoes. English military officers have long been noted for their smart uniforms. There seems to be no lack of money to pay for such equipments, judging from recent advertisements of expensive accoutrements in some of the London papers.

Adulterated Bread. Whole-meal bread or brown bread is supposed to contain the whole grain of wheat, kernel, germ and bran. It requires greater mastication and has the advantage of retaining much that is lost to white bread.

BILIOUS, HEADACHY, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excessive bile from the liver and carry out all the accumulated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your liver clear, stomach sweet and your liver and bowels regular for months. Adv.

HE WANTED TO LIVE IN CITY

Trials of Farmer Who Moved to Town and Was Sorry He Made the Change.

In Farm and Fireside is the story of a farmer who sold his property to live in the city, because his city friends "wore good clothes, had money jingling in their pockets, went to the movies, belonged to clubs, and enjoyed a yearly vacation."

"We came to know," he said, "that it was just as hard for the city man to get up at seven o'clock in the morning as it was for the country man to get up at five. Why so? Because he must not relax; he is ever on duty. He may smile at this person and at that person. He dares not notice anybody's peculiarities, or oddities or unreasonableness. The result is he must find his relaxation in the evening; therefore, the family rarely gets to bed before ten or eleven o'clock, and seven in the morning finds him just as sleepy and far less refreshed than five found him on the farm."

"We found going to work for somebody else every day in the week, except Sunday and perhaps a two weeks' vacation, under somebody else as manager, didn't exactly suit our country spirit of freedom. We came to know that our friends saved scarcely a cent; and, furthermore, one couldn't exactly see how they were extravagant. In the city it seems unbelievably hard to separate luxuries from necessities."

Missouri's law code is to be revised by a commission of 15 persons.

Ho who starts out to meet trouble has a short journey.

Nine thousand Scotchmen went to Canada last year.

Even gods sometimes do ill.

DON'T GAMBLE that your heart's all right. Make sure. Take "Resovine"—a heart and nerve tonic. Price 50c and \$1.00.—Adv.

The chestnut came from Italy.

More than half the newspapers published in the world are printed in the English language.

Even the worm will turn—perhaps into a butterfly.

Love and coins can be tested by the ring.

Pneumonia? Apply Hanford's Balm. Rub it on and rub it in thoroughly, until the skin is irritated. Adv.

Eyes to Business. The Agent—I am selling a remarkable combination kitchen utensil. Housewife—What is it for? "See this little blade?" "Yes."

"That's a can opener." "Indeed?" "And this book is an appliance for hitting pans from the fire." "What's this?" "That's a tack puller."

"But suppose I want the girl to open a can of soup and my husband to pull some tacks while I attend to the pans on the stove?" "Easiest thing in the world. All you have to do is to buy three of the utensils. Anything else, please?"—Rehebe both Sunday Herald.

Advancement in China. Agricultural experiment stations have been established in China, during the present year, at considerable cost. There are now in operation three cotton farms, one sugar plantation, two forestry stations, and three pasturage farms. The government also has a model ranch at Chu Chow, in northern Anhui, under the direction of an American ranchman. A corps of lecturers and demonstrators is being trained for agricultural extension work throughout the country.

Dog Guards Master's Clothes. Faithfully guarding a cornfield scarecrow arrayed in one of his master's suits, a pet dog belonging to a farmer who resides near Newville, Pa., almost starved recently before he would leave the figure. When the dog's master left home on a journey the animal appeared griefed and finally wandered off. He was found three days later in a cornfield, patiently guarding the scarecrow.

Must Use Latin Characters. Latin characters must in the future be used in Boemts instead of the present Cyrillic, according to a recent decree of the Austrian government. In Serbo-Croatian official affairs Latin characters must be used exclusively, and these must also be employed in the schools, even in teaching the Serbo-Croatian language. The only exception permitted is in the Serbian Orthodox theological colleges, where the use of the Cyrillic alphabet will not be interfered with.

How He Described It. The newly arrived citizen from Italy was trying his best to buy colander, but could not make the clerk understand what he wanted. The clerk showed him several kinds of pans, but at each he shook his head. Finally he got an idea. "Giv-a me dis-a kind," he said. "Z water go ahead, ze macaroni stop."

Heiny—I see by the papers this morning there was another tie-up of one of the western railways yesterday. Omar—That so? What was the cause? Heiny—Oh, a silly couple thought it would be romantic to get married in a parlor car.

A woman is always perfectly sure she is in the right until it comes to backing her opinion with real money.

Some men spend so much time boosting the other fellow's game that they forget their own.

Over 15,000,000 visited the Panama-Pacific exposition.

TAKE SALT FOR BACK PAIN

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasional else we have backache and dull aches in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless, flushes clogged kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

Economical. Economy was the text of Mr. Jones' discourse one evening after he had been settling some household bill while Mrs. Jones listened with truly wifely interest.

"I don't want to make you unhappy, darling," finished the husband, "but really we must be a bit more careful in future. For instance, look at this bill for petrol. That motor car is costing us rather too much for the time being."

"Yes, Henry, dear," agreed Mrs. Jones. "I'm afraid it is." Then her sweet young face brightened as she went on: "But just think what it saves us in carfares and boilerfares!"

How He Described It. The newly arrived citizen from Italy was trying his best to buy colander, but could not make the clerk understand what he wanted. The clerk showed him several kinds of pans, but at each he shook his head. Finally he got an idea. "Giv-a me dis-a kind," he said. "Z water go ahead, ze macaroni stop."

Heiny—I see by the papers this morning there was another tie-up of one of the western railways yesterday. Omar—That so? What was the cause? Heiny—Oh, a silly couple thought it would be romantic to get married in a parlor car.

A woman is always perfectly sure she is in the right until it comes to backing her opinion with real money.

Some men spend so much time boosting the other fellow's game that they forget their own.

"I Feel Like A Real Day's Work" Most men do who have good digestion, steady nerves and a clear brain. Right living—particularly right eating—makes for energy and ambition. The sound nourishment that gives "punch" to wade right into work, is richly supplied by the field grains. But some grain foods are lacking in certain mineral elements, which are all-important for physical and mental vigor. Grape-Nuts FOOD —made of selected whole wheat and malted barley, furnishes one all the nutriment of the grain, including their vital mineral salts—phosphate of potash, etc.—necessary for the balanced rebuilding of body, brain and nerves. Grape-Nuts is easily digested; has a delicious nut-like flavour; is ready to eat direct from package; and with cream or good milk is a splendidly balanced food. "There's a Reason" for GRAPE-NUTS Sold by Grocers everywhere.
