This Is The Hour Of The Progressive Man

It is also the hour of the man who saves a part of his earnings--with the realization that his earning power is gradually diminishing with every year of his life. But he is amply rewarded in the evening of life with the consolation of knowing that he has wisely accumulated a competence for this period.

Confidence

It is truer of a bank than of any other business enterprise, that its success depends upon the confidence of those who deal with it. Confidence in the integrity of its officers, Confidence in their judgment, Confidence in their conservatism. We believe that we may fairly say that the officers of this bank have well earned the confidence of the business people of this community.

FIRST STATE BANK

Is a cinch and its charter has been granted with a paid up Capital of \$50,000 and will have as its stockholders R. B. Provine, P. G. Peters, Geo. L. Ulrich, F. J. Sager, Geo. A. Titsworth, Louis England, W. H. Fisher, Fred Flinstone, J. V. Tully and H. B. Dawson and probably Peter Echeverry but we are not sure as to whether the last named gentleman will be a stock holder, but it is thought that he will be. This bank will be a strong one, the combined resource of the stock holders represent probably a million dollars. As we see it, a bank will be the forerunner of many other good and substantial enterprises for our town. We presume the organization of proposed First National Bank will go, and if so, "the more the merrier" and ought to make it easier for our people to get money.

Killing at Carrizozo.

Last Monday Night a young Mexican man, a son of Eusebio Carbajal a wealthy sheep man of the Ancho Country came home and it is said found his wife in company with two Spanish Speaking Gentlemen and he at once opened fire with a pistol and shot his wife she being instantly killed and then he opened up on the two men, one of which he shot through the stomach and is still alive, the other fellow made his getaway without a scratch. Young Carbajal and his wife had not been married very long and we have not learned whether he was really justified or whether he just deliberately killed his wife and shot the man because he was unduly jealous, any way it was bad, very bad.

Agricultural Meeting.

On the 5th and 6th there will be an Agricultural Meeting at the School House every body are urgently requested to be there on that date. The County Agent Mr. Stewart Stirling will be on hand and Professor Fabian Garcia of A. & M. College will lecture on the spraying and grafting of fruit trees and of potatoe growing and gardening. Prof Johnson of A. & M. will also lecture on the diseases of live stock and of plant poisons. Miss Tura Hawk of the same Institute will lecture on household problems and canning of fruits, vegetables etc. Mr. R. S. Trumbull the E. P. & S. W. Ry Agt Cultural Agent will deliver an interesting address on the grafting of the English Walnut. Your attention is called to their advertisement in this issue. Come out and bring the ladies with you and swell the audience for these useful and public spirited people and learn something from them that will enlighten you. You know food will more than powder and bullets to whip the Dutch and their crazy Kaiser.

Red Cross Dance At Lincoln A Success.

The members of the Lincoln Auxillary of the American Red Cross, gave a dance last Friday night February 22 at the old Lincoln Court House, the proceeds to be used for the Red Cross. A large crowd was in attendance from all the adjoining towns. Refreshments were served at 11 o'clock and dancing did not cease till the wee small hours of morning. During the evening a Red Cross Cake was raffled off, said cake to be given to the prettiest girl at the dance. Miss Clara Peppin of Lincoln was the happy recipient. The cake sold for \$23.10. The net proceeds of the dance were \$65.02. Music was rendered by The Hightower Orchestra from Hondo and the Old Court House was decorated with flags and Red Crosses in honor of Washington's Birthday and the National Cause which the dance represented. Every one reported a perfectly grand time.

The Importance of The Newspaper to the Community

In the minds of thinking the country newspaper is a reflector of the community which it represents and which is very true. If your Local Newspaper enjoys a liberal advertising patronage people abroad when reading it say to themselves, "Well that is a live place, its business men patronize their local paper and advertise their wares--they are not waiting for people to come in and find what they have for sale." Sears-Roebuck & Company and Montgomery Ward & Company send their catalogues and other literature to the purchasing public and now days most merchants advertise purely as a business proposition trusting to receive returns, and he does. In fact when he turns loose a dollar for advertising he knows that he will receive many in return, if not directly he will indirectly. We do not believe we have a single advertiser who is advertising with us because they want to be charitable, we hope not at least we want to and propose to give value receive for every dollar invested with us, it is a business with us pure and simple, our space is our stock in trade just as much as the merchants goods on the shelf are. Yes the day is gone when the "moss back" business man who did not believe in patronizing the newspapers saying it was money thrown away, and when he did so it was with the idea of being charitable to the Local Paper.

All such old fashion ideas have mostly been relegated to the rear. It was Phinas T. Barnum who said, "If I were a young man and had \$1000 to engage in business, I would spend \$500.00 of it in advertising." Barnum was a great show man and a very successful business man. Take the Jews for instance, they are great advertisers in their respective communities whether it be a city or a hamlet, they sell the goods too, they would not if they did not let the public know what they had. They are generally speaking successful business men, pauperism is at a low ebb among them. Take all successful merchants abroad, they are liberal advertisers and sign up contracts with the newspapers of their towns or cities.

We are in a small town and have been patronized quite liberally and we have managed to get along and issue the paper without missing a single week, but now what we want is the moral support of the community and Eastern Lincoln County in particular which is our field of business. Now the idea is this when you can send in any news items of interest and communications from your respective community, try to make them as brief and to the point as possible to state facts. We are you might say, a very public institution we want to particularly impress it on you that we want to be a public benefactor, we want to be of genuine service to the people of this community, and we want you to help us print a lively newsy paper, and when you do that you and the rest of the vicinity benefit as well as us. A newspaper is a barometer of the public pulse, a molder of public sentiment, it aids more in proportion to its capital in the encouragement and support to the various beneficial public enterprises and reforms etc. than any other one institution, an undisputable fact realized by leading people every where.

Secondary Marriages in Germany.

Lost

Germany anticipating the draft on her population early in the war, urged her soldiers to marry, enjoining marriage upon the women as a patriotic duty. The government is now going further in its endeavor to arrest the diminishing birthrate which has continuously fallen since the war began. Pamphlets advocating "secondary" marriages are being circulated among the troops with the tacit approval of the officers. These have been translated and commented upon by papers of other countries, although the German papers are silent about the subject. Thus it appears, says the Detroit Free Press, that the circumstances which followed the Thirty Years War are to be repeated in order to fill the empty cradles in Germany.

The percentage of illegitimate has been high in Germany, owing to the financial restrictions as to marriage imposed upon military officers and the higher classes. It is now proposed to give the women equal connection a social standing. One of these pamphlets says married men should contract unions with unmarried women, who are not only a burden, but called upon to care for such minors. Part of the propagandists' military treatise. Germans would make the women of the race mere vehicles of reproduction, breeding animals, to provide for the future needs of a German army, thus dedicating children born to the Moloch of war.

Germany, as we know, has violated every rule of international law and humanity in the present conflict. Carrying out her theories at any means toward the designed end is justifiable. Now her "kultur" would violate every convention of religion and civilized conduct, although one of these pamphlets takes the ground that "good morals are only what the upper classes of society approve." Morality must be at a low ebb in German upper circles! Here is Protestant Germany sanctioning bigamy as a "duty," while Catholic Austria forbids the circulation of this form of German propaganda in her armies.

Mrs. Gertrude Atherton in "The White Morning," a book her publishers announce as "prophetic," pictures an uprising of the women of Germany against militarism, resulting in the downfall of the kaiser and the coming of peace. The author, who knows the mood of the German women, declared her vision no impossibility. The advanced freedom of the women of other nations has kindled a spark in German women's hearts inspiring revolt against their present subjection. And surely if the crowning ignominy of plural marriage is to be added to those already endured, no resolution could more justifiable or more desirable. —El Paso Times.

Entertainment At The Tucson School House.

On Friday February 22nd the pupils of the Tucson School gave a program. Mrs. Chinholm assisted with programs by furnishing music on her phonograph. The house was beautified in honor of the occasion. The program was enjoyed by a number of the patrons of the school.

A special meeting of the Commissioner's Court was held last week to canvass the returns from the newly created Precinct No. 17. Jim Gaines was elected Justice of the Peace and Mr. Burleson, Constable.

CAN AND WILL SELL YOU

Dry Goods, Clothing, Hats, Shoes, groceries, Hardware, Leather Goods Etc., at astonishing low prices taking into consideration that these are the days of unparalleled high prices on every commodity that used brought about directly by the mighty conflict--THE HORRORS OF WAR--which every American sternly realizes is now transpiring in unhappy Europe--we would gladly rectify these deplorable conditions if were in our power, but on the other hand it behoves us as loyal Americans to manfully accept the situation.

We buy wool, mohair, hides, pelts, etc.

The War in One Respect
Has Brought About
Very Beneficent
Results.

The World War now raging has as every thinking person knows brought great disaster and untold suffering. The last account we had there had been something like seven million men killed in all, not to mention the maimed, crippled and wounded. Women have been ruthlessly and wantonly outraged and dishonored, little children have been foully murdered and every conceivable cruelty and indignity has been practised by the Germans.

We have in a very limited and feeble way mentioned the worst side of this cruel war--a war that our own beloved country has been forced into for its own preservation and its very existence. Now we will take the benevolent side of this mighty conflict into consideration. It has caused a great many of the ideal rich to step down off their lofty perch of arrogance and to employ their time and money towards aiding the Red Cross and other patriotic causes who are so magnanimously endeavoring in their might to render every aid and assistance to win the world war and that Democracy and freedom will be paramount so that the humblest and highest in their respective stations shall share alike and that Kings and Plutocracy with all their cohorts shall be forever banished from civilization. These ideal rich formerly as the most of us know killed valuable time playing cards, fondling fancy dogs, drinking shampagne having pink teas and dressing ex ravagantly, living in brown stone mansions and other swell buildings, rode around in the very finest of Packard and Pierce-Arrow Automobiles and enjoyed other luxuries and a great many times the base of all this wealth wrung from the poor who were unable to bear it. And in addition Mr. Reader you have seen these wealthy snobs turn up their nose at people who they thought were not in their class. The writer is talking of the rich loafers of the larger places and not of the little hair-brained society snob of the small town or village. When we say small town or village we do not have any particular place in mind, as far as Capitan is concerned it is a very Democratic Village, its people are nice and pleasant and make themselves very agreeable. But we do know in the little towns there are people who are as poor as Job's Turkey and those of a few thousand dollars in property wealth that try to patron after the four hundred of New York and other Cosmopolitan places and make themselves dispensable as well as showing their ignorance. What are the benefits to be derived?

We are created here on earth and every man and woman should strive to be a real benefit to all mankind, to be a producer of some kind and not try to be an emulater of idleness.
