Democratic Candidate for Governor.

It has been announced that Col. D. K. E. Sellers, of Albuquerque is a candidate for the Democratic nomination for Governor of New Mexico. Col. Sellers came to this State from California in 1900, and has been active citizen of New Mexico ever since, but this is the first time he has permitted his name to go before the people of the state for office. He has been a hard worker for public improvement ever since he came to the state. Among the things he has done, he organized the wholesale grocery of the state in 1905; in 1912 he was president of the state fair; he was elected president of the Ocean-to-Highway association, in 1913. He also served the people of Albuquerque as Mayor, and is very popular with the people of his home town and the people wherever he is known. It is said Col. Sellers has toured the state more than any other man residing in it, and knows exactly the needs of the people. He is in close touch with the sugar industry, the mining business, the farmers, and needs to be in the way of good roads and everything else which concerns the welfare of the state. Those who know him best think he is in every way fitted to be the state's best broad minded business-like administrator, and they feel confident he will do this if the good people of New Mexico see their way to place him in the gubernatorial chair.

Prof. J. E. Koonce.

In this issue of the Mountaineer appears the announcement of J. E. Koonce for the position of Superintendent of Schools of Lincoln county, New Mexico, subject to the action of the Democratic party. Mr. Koonce needs no introduction to most of the people of this county, in as much as he has been Superintendent of schools since January 1, 1917. Mr. Koonce is a native of Mississippi, and completed his academic course at West Mountain, Texas. He then attended the Texas State Normal College for two years, graduating from that institution. After teaching school two years; he attended the Peabody Normal College at Nashville, Tenn., for two years, from which institution he graduated with distinction. Since coming to New Mexico, he has been connected with the school interests of the county for the last seven years. He attended the New Mexico Normal University Summer term, giving particular attention to Spanish and professional studies. He is thoroughly acquainted with the needs of the schools of Lincoln county, and if he is nominated and elected to the position to which he aspires, he will endeavor, as in the past, to devote his entire time and energies to the duties of the office.

New Registration.

The new registration bill has become a law. Next Thursday September the 12th is registration day. All men between the ages 18 and 45 are required to register. This is a very important matter and should not be overlooked nor neglected, because there would be a severe penalty attached.

Attended, Town People!

There is a war going on and there is great need of immediate action in this town. It is known that there are already many cases typhoid fever in Capitan and you all know what that means in a community. This dread disease is carried from place to place by flies and every possible means should be employed to destroyed. Let time be freely used where it should be used; let the rubbish where flies breed and from where they carry disease germs be removed as speedily as it can be done. Another thing should be done. There are rank weeds growing all about town. It is said that some of these weeds produce certain kinds of fever, and they should be mowed down, raked and burned. Let us get busy and look after these things before serious results follow.

Sugar Consumption.

Albuquerque, New Mexico, August 31.—The normal consumption of sugar in New Mexico for all purposes under normal conditions is approximately seven pounds per month. During the month of July the sugar consumption took effect so severely that consumption appears, from figures at hand, averaged about 2 1/2 pounds per month. This is practically one-half of normal but it does not include candies and confections shipped into the State in that form with the domestic use of sugar will hardly reach an average of two pounds per person. Manufacturers, hotels and restaurants are urged to conserve sugar by using less in their products. It is estimated that the average consumption of sugar in all forms for this month will not exceed two and a half pounds even in the light of heavy demands for canning.

While home canners are restricted to twenty-five pounds at a single purchase, they may, with the approval of the County Administrator, procure such additional allotments for sugar as may be necessary by a showing through their regular merchant that their first sugar has been used in good faith in actual canning operations.

The Food Administration desires to encourage home canning to the utmost and it urges producers of fruit to distribute their fruit at reasonable prices and house-wives to preserve the same by those methods which will use the least amount of sugar possible. Nothing could be more gratifying than the state-wide response to this propaganda.

Yours very truly,
Ralph C. Ely,
Federal Food Administrator.

Lincoln Items.

School opened Monday with a very good attendance, about 60 being enrolled. The following teachers will have charge; Miss Mabel Smith 7th and 8th Grade, Miss Mary Frits 5th and 6th, Miss Olara Peppia 3rd and 4th, and Miss Susie Chaves the Primary Grades. The people are looking for a big improvement in school work over former years. We hope they will not be disappointed.

Word came through all our county papers that Tom Burleson had been wounded in action somewhere in France, but up to date can not be confirmed, as the casualty list does not show

his name nor has his parents received any official notification. Your correspondent would suggest to the editors of all the county papers to withhold all such news until they are officially confirmed and then save the parents and other relatives a lot of unnecessary worry, and to others not editors, be sure what you are telling in those war times. Us people who have boys "over there," or in training here only want the truth. Our nerves are on edge anyway and these false reports are not good medicine for them. Mrs. English and family returned to their home in Carrizozo after a week's visit at the Burleson home.

Misses Velma and Lois Dudley spent last week visiting friends in Lincoln and vicinity.

Mr. Ed Roberts and family left Saturday for Mesilla Park where they expect to make their future home. Ed has secured work in the dairy at the Agricultural College.

Mr. and Mrs. F. S. Hulbert received a card Saturday stating that the ship on which their son sailed had landed safely. The Hun better look out now.

Save your money to buy U. S. S. and for the 4th Liberty Loan and help the boys over there. The most you can do will be compared to what they are doing for you.

Capitan Schools Open.

The Capitan school opened under very favorable conditions. Harmony prevailed in everything pertaining to the school. The school board, superintendent and teachers seem to work in perfect accord.

A well equipped school building, trained and experienced teachers, cooperative patrons, and responsive pupils give promise of a successful year for the Capitan school.

The Primary Department in charge of Miss Annie Harris, enrolled forty-three; Miss Florida Harris enrolled twenty-five in the Intermediate Department.

Mr. Edward G. Brantner has charge of the Commercial Course, Manual Training and Athletics for boys.

Miss Hazel M. Howard will teach Art, Domestic Science and Athletics for girls.

Mrs. Mary Howard Price is in charge of the English and History.

Miss Mildred V. Peters is teacher of Spanish and Algebra. Prof. L. B. Baughman, in addition to supervising the entire school, teaches certain selected branches.

From 20,000 to 25,000 German prisoners constitute America's portion of the great allied haul of 112,000 captives since July 1. On the whole there is an inclination to believe that the German casualties, including prisoners, run 500,000 or more since July 1.

Official reports assert that the British have captured the important town of Bapaume, where for days there has been bitter fighting. The Germans exerting their utmost strength to keep Hitler's men from gaining control of the railways and the high road leading to Cambrai.

The fighting British armies again smashed their way forward Friday all along the line. There was heavy fighting almost everywhere between the Somme and Scarpe rivers, and under the force of repeated blows, de livered with machine-like precision, the foe has been forced to abandon many more town positions and large strips of ground.

The French and Americans, under orders by General Mangin, advanced on the plateau north of Soissons to the western edge of Crouy, taking (uffles and Chagny after hard fighting. Further north between the All ette and the road from Coucy to Chagny the struggle was equally severe. The French occupied Champs, the Daast Wood, Praast and Villette.

"I do this for two reasons," he said. "One of these is the country from which our guest comes—a country cradled and nurtured in freedom. In the second place, we welcome Mr. Gompers and his friends for their own sake."

It is estimated by experts in London that the German losses in killed alone now reach a total of more than 2,000,000, and probably approach 3,000,000. The total entente allied captures on the western front since July 18 now approach 120,000 prisoners and 2,000 guns. The British captured more than 21,000 prisoners between Aug. 21 and Aug. 26, while the British total losses in the same period, including all killed, wounded and missing, were only slightly in excess of that figure.

Instructions for Men Who Are to Be Called On to Serve Their Country.

"To Insure a Safer World for Our Children.

"Since the beginning of our government it has been the law of this country that every able-bodied male citizen and declarant between eighteen and forty-five is subject to be summoned to its defense.

"The occasions have happily been rare when such a summons has had to be issued. We face the need now, over 10,000,000 of our men of fighting age have already registered for selection for service. Out of this number many have been chosen, trained, and sent to battle across the sea, while others are in training or on the way. They have made us very proud of them, these splendid soldiers, and some have already given their lives for us. We shall not fail to support them and to re-enforce them.

"The remaining 13,000,000 are now called upon to register for selection. The only purpose of this extension of the selective service law is to bring a speedier end to the war and to insure a safer world for our children.

"Since the enemy has compelled the abandonment of force, force let it be, force overwhelming. The registration of the entire man-power of the United States will be our unmistakable pledge to humanity that democracy is to be the regime of the future."

"NEWTON D. BAKER, Secretary of War."

Mrs. Gumm's Announcement

Mrs. W. L. Gumm makes an announcement this week through the columns of the Mountaineer for the Republican nomination for County Superintendent of Schools. Mrs. Gumm has long been a resident of Lincoln county and during all that time has been closely identified with its school interests. She spent many years as teacher in some of the best schools in the county and is said to have made an excellent record. She served the county as Superintendent of Schools for five years, and filled the office in a business like manner, giving it duties her undivided attention. During the time she filled the office the educational reached a much higher standard of interest and efficiency. Mrs. Gumm's qualifications to fill this important office are well known to the people of the county, and her candidacy deserves a careful consideration at the hands of the Republicans of the county in the selection of a candidate for County School Superintendent.
