W. G. Brown Endorsed for Register Roswell Land Office.

Elsewhere in this paper will be seen a report of the Chaves County Republican Central Committee held last Saturday for the purpose of considering and endorsing applications for federal offices to be awarded by the Harding administration. It is to presumed that all applicants endorsed are good and competent people, but speaking from personal knowledge we can say that one man endorsed is especially deserving of recognition from his party. That man is W. G. Brown, endorsed for Register of the Land Office at Roswell. Mr. Brown is an ardent Republican, a first recommendation to political preferment, but in his particular case there are other merits of a more essential character that fit him for the important position of Registrar of the Land Office. He first entered the Goverment employ through the civil service about fifteen years ago, and was assigned to duty as a clerk in the General Land Washington Later he was transferred to the Land Office at Roswell, where he has been for the last ten years, and is chief clerk in the office. He not only thoroughly understands all the work and intricacies of the the land office, but is familair with the public land situation throughout this land district. Personally, Mr. Brown is one of the most manly, likable men to met anywhere; always courteous and obliging, gives information and extends favors in a way that people feel it is a pleasure to him to serve them. His appointment to that position would be for the good of the public service, and we hope that the Lincoln county Republican Central Committee will give him a unanimous and hearty endorsement.

Liquor Seizures Large Month of December.

Three thousand gallons of liquor valued at $30,000 was seized in New Mexico by federal prohibition agents during the month of December, Capt. K. E. Perkins, head of the prohibition forces of the state with headquarters at Albuquerque, has announced with with the completion of his monthly report.

The liquor seized consists mostly of whiskey, although there are many gallons of tequila, brandy and wine. Besides the 3,000 gallons, agents also seized 155 bottles of patent medicine, containing from 15 to 18 per cent alchol. Two stills were also seized during the month.

The liquor is the largest quantity ever seized in New Mexico in one month, and rivals that seized in some other states for the same period.—New Mexico State Record.

Endorsed for Federal Offices.

The Republican Central committee of Chaves county met at the court house Saturday afternoon to consider applications for appointments to federal offices under the administration to come to charge March 4.

The committee endorsed the following applications for these offices:

For assistant attorney general of the United States, Capt. Chas. A. Reynolds of this city. Captain Reynolds is engaged in the practice of law here at present.

For marshal of the Panama Canal Zone, C. L. Parsons, of this city.

For internal revenue collector of the district of New Mexico, Colonel Thompson, of the New Mexico Military Institute of this city.

For receiver of the land office, A. V. Flowers of Lake Arthur.

For registrar of the land office, W. G. Brown, of Roswell. Mr. Brown is at present chief clerk in the land office.

For postmistress, Miss Mary L. White of this city. Miss White is the daughter of Eliza White, and a teacher in the Washington avenue school at present.

The committee also passed a resolution to this effect: That the Republican Central Committee of Chaves county is opposed to any non-resident of this district holding a federal office in this district. There are several applications for position in this land office from Portales which is outside the jurisdiction of this land office hence this resolution.—Roswell Daily News.

Mr. Sears Buys City Garage.

Mr. Witt Sears bought the City Garage in Capitan this week from W. R. Read and has taken charge of the business. Mr. Sears' short residence here has convinced the people that he is a man of enterprise and will lend a helping hand towards the up-building of the town and community. He is well pleased with the country and bought a desirable home here and is a permanently located among us. He is likely to induce others of his old friends and acquaintances to come where they can find a more enitenial climate and other advantages which this country offers to the home seeker. We are glad he came as he and his family will be desirable accessions to this community.

To the Public.

I have purchased the City Garage from W. R. Read and will endeavor to serve the public in the best manner possible. Owing to present financial conditions we will be obliged to run our business on a strictly cash basis—everything being cash. Will endeavor to keep the best oils and gas obtainable. All work guaranteed, and you can expect the most courteous treatment.

Yours Very Respectfully,
Witt Sears

The delay from one single puncture may result in the loss of thousands of dollars worth of property; or worse, the loss of human life. Compression Inner Tubes keep moving when ordinary tubes go flat on nails and tacks. They make every road a SAFE road every mile a happy one.

Compression Tubes are about three times as thick as ordinary tubes. Their circumference is greater than the inside circumference of the tire. They are moulded with deep side and tread corrugations which conform to the smooth surface of the casing when inflated. The air pressure, instead of stretching the tube, COMPRESSES it. Thus nail holes close automatically as the nail is witedrawn. No air is lost!

Save Tires as Well as Close Punctures

By maintaining a uniform air pressure, Compression Tubes practically eliminate pinching and rim-cuts They add 20 to 50 per cent to the life of the casings. They make your car ride easier. They should last as long as a car is driven by the average owner, or about 10,000 miles. The use of this long lasting, puncture closing tube is REAL motoring economy. Lecture Next Tuesday Night.

Clarence C. Miller, who was wounded twenty-seven times in the world war, will lecture at the School House in Capitan next Tuesday night. Mr. Miller is a Pennsylvanian and was in Canada visiting a friend when the war commenced in 1914, and not being permitted to return home, volunteered in a Canadian regiment and went to France. He was in many of the most important battles of the war; had a bayonet run through him breaking his back bone, which necessitates wearing a steel jacket; lost one eye from the fragment of a shell, and received another serious wound in one leg, the others being slight wounds. Not serving in the United States army, Mr. Miller is unable to get a pension from our Government, though he greatly deserves is, and is paid none by the English Government. In this lecture Mr. Miller will tell you a great many things about the war which you have never heard and everybody should turn out and hear it. No admission fee, but a free offering will be taken up, and those donating will assist in helping a worthy man who needs help.
