## Gov. Mechem's Inaugural.

Gov. Mechem's inaugural is just such a one as could be expected coming from a good, honest man who is entrusted with a great office and is determined to administer it to best interests of the people. We quote below what he says on the subject of taxation which is is true and which he promises will corrected so as possible.

"We have heard a good deal recently," said the new governor, "about defects in our tax system and while these will doubtless receive the attention they deserve, there is a vastly more important question to be considered, and that is, does the present high cost of government produce benefit in proportion to its use? And further, are those benefits enjoyed by the great majority of the people? There is no warrant in law to tax any individual for what does not directly or indirectly benfilt him; and that benefit must be real and not merely speculative. Such will be the chief policy of this administration and every effort will be made to carry it into full effect." Governor Mechem's entire speech was devoted to the subject of reduced taxes, economy in government and retrenchment so far as compatible with the actual needs of the state.

"In these hard times," said the speaker, "it must be with the state, as it is with provident individuals—not a question of what we would like to have, but what we cannot 'get along without."

Governor Mechem became very specific in assuring performance of the party pledges. "In regard to the pledges of reform," he said "continued in the platform of the party we represent, they are each and every one of them to be kept to the letter, and in the spirit of complete fulfillment."

"The recommendations of the special revenue commission are entitled to careful and intelligent consideration," the governor continued. "What is desired is to put special emphasis on the fact that a reduction of taxation is the paramount obligation resting upon us at this time. The method is simple and single. It can only be done by reducing the levies which the taxing authorities are by law empowered to make and cutting down appropriations."

Governor Mechem made special reference to the demands of state institutions saying that "while their growth must be fostered, yet at this time the taxpayers cannot afford to spend any more money on them than is necessary to keep them at their present efficiency. "Levies and appropriations must be cut to the last cent possible."

## BIG EGG YIELD

"From a small flock of hens I now get 20 to 25 eggs per day, whereas before giving them Dr. LeGears Poultry Prescription, I only received three or four. Its cost has been repaid to me over and over." So writes Mrs. J. W. Montgomery, Tunnel Hill, Ga.

You should increase your yield now, while prices are high, through Dr. LeGears Poultry Prescription. It is a tonic which builds up the hens strength and vitality, and stimulates the egg producing organs.

For 28 years Dr. LeGear has been recognized as America's foremost Expert Poultry Breeder and Veterinarian. Any time your poultry or stock are ailing it will pay you to get the proper Dr. LeGear Remedy from your dealer. It must give satisfaction or your dealer will refund your money.

## San Patricio News

Christmas and new years very good.

General thrift of the community is good.

Clifford Curry and wife have just returned from Dona Ana where Mrs. Curry Curry was called to the funeral of her Father who died after suffering a long period of illness.

Mr. and Mrs. J. J. Reeves have returned from Alamogordo where they have been visiting the parents of Mr. Reeves.

Tommie Jones and Charles Fritz have a gravel contract up at Ruidoso. They are moving camps up to their job today.

Our schools are doing nicely, and we are glad to send in the reports if our Editor will be kind enough to publish same.

## San Patricio Consolidated School Notes

The school program and Xmas tree last Thursday evening Dec. 23 was a great success. The tree was beautiful with its wealth of decorations. The program deserves special credit as it was well rendered, and the pupils showed excellent training.

The program was as follows:

"Welcome Song", Mrs. Coe's room; Reading. "Welcome," Rosalia Lara; Song, Xmas Greeting, Carmenlita Lara; Play "The Photograph Gallery," Mrs. Coe's room; Song, Jolly old Santa Claus, Miss Cozier's room; Reading "Scaring Santa", Enrique Saunberry; "Jack in the Box", Jessie Reeves and Max Sanchez; Telephone to Santa Claus, Orilla Bonnell; Star Drill. Twelve Girls Reading, Elsie Wilson; "Old Mother Goose, Helen Rose; Pantomime, "Holy Night," six girls 'Good Night' song, Mrs. Lucas's Room.

The dance which followed was enjoyed by many and the proceeds go for the expense of the Basket Ball grounds and a new Basket Ball. Both a girls and boys teams have been organized and we hope to play some interschool games this term.

The people of the San Patricio community showed their appreciation of their first Xmas program and Xmas tree by splendid attendance, as the house was so crowded that Santa Claus had a hard time getting in with his bags of candy and apples which were given to all the children.

The enrollment of the school at present is 103, and average daily attendance about 85.

School will be in session Jan. 3d

## DISCIPLES OF OMAR THRONG JUAREZ DURING CHRISTMAS SEASON

(By Homer A. Stuart)

"C'mon! lo'sh have 'nother li'l' drink," was the slogan in Juarez during the Christmas season. The "oasis of the border" was thronged until far into the night with disciples of Omar Khayyam the Persian Poet of ancient days who sang of—

"The grape that can with logic absolute,
The two and seventy jarring sects confute,
The sovereign alchemist, that can in a trice,
Life's leaden metal in to gold transmute."

The majority of the revelers, however, deviated from the teachings of the ancient philosopher in that they invariably called for the "cord product" in preference to the juice of the grape.

Officials issueing the ten day tourist permits at the El Paso Chamber of Commerce, say they issued an average of from six to eight hundred permits daily, in addition to the regular passports

# AT LAST!—A TUBE THAT CLOSES PUNCTURES

**You pull the Nail and Keep Moving**

With the Compression Inner Tube there are no long waits on the road—no dirty, back-breaking tire changing—nothing to do but pull out the nail and keep moving. Here's why: Compression tubes are about three times as thick as ordinary tubes. Their circumference is greater than the inside circumference of the casing. They are moulded with deep corrugations which conform to the smooth surface of the casing when inflated. The air pressure, instead of stretching the tube, COMPRESS it. Thus when the nail is removed the hole closes up automatically. No air is lost!

**It Adds 20 to 50 per cent to the Casing's Life**

Compression Tubes—once inflated—are always them—the proper air pressure is constantly maintained. They add many miles to the life of the casing—practically eliminate pinching and rim cuts—make the car ride easier. You are not only able to say—GOOD-BYE PUNCTURE—when your car is equipped with Compression Tubes—but you save money on tires, gasoline, etc. You owe it to your sense of motoring economy to investigate Compression Tubes. Come in and let us SHOW you this puncture-closing tube TODAY.
