Ocean Travel Again Is Heavy

Steamers Are Carrying More Passengers This Season Than Any Time Since 1914.

STEERAGE SHOWS BIG LOSS

First and Second Class Passengers 20 Per Cent Greater Than Last Year—Channel and German Ports Most Popular.

New York—Passenger traffic to Europe for the 1922 season, which is now well under way, is the heaviest since 1914. The number of tourists going abroad in first and second class quarters is about 20 per cent greater than last year, but there is a considerable drop in the third class. The "steamer class" ships, English as well as others, as the Majestic, Mauritania, Paris, Homeric, Britannia, Aquitania, Olympic, and booked heavily for the summer trade. The one-class cabin ships are also proving to be extremely popular. In nearly all cases, however, space can be obtained and many of the companies declare that their medium-class vessels are suffering from the widespread belief that it is difficult to obtain accommodations here to Europe.

The public interest in passenger traffic to Europe this season reaches the big-water mark for eight years, but there is not the same competition that was felt immediately after the war. The difference is due to the fact that the trans-Atlantic service is served now by more and larger liners than at any previous time in history. This present year is remarkable for the great number of new liners put into service. The advance in traffic has not kept pace with the gain in tonnage.

The current season presents several unusual aspects. Enforcement of the United States immigration law, so shifting the entrance of aliens to 5 per cent of the nationals of each country here in 1919, has thrown the steamer business into turmoil. In past years the ship lines relied upon the strength of the backbone of their services, with the first and second classes as heavyweights. This situation is now reversed. The day of the liner has come to an end, but only in cargo traffic.

No change for Oct. 1 rates.

There seems to be no chance for further decrease in rates this season. Most of the lines have virtually completed their bookings for the next two months, including round trips, and while numerous vessels will sail partly full there is no disposition to cut rates in an effort to stimulate traffic. The outlook for next spring is a different story.

Officials of several lines, who were interested in the status of the passenger traffic, were obviously embarrassed in making the firing reply. They were too sure with the desire to say that their ships were sailing nearly or entirely full, as against the certainty that such statements would aggravate financial optimistic forecasts, which have resulted in disrupting truck, general business. The company usually was that "we are doing a big business, but prospective travelers can be accommodated."

The heaviest traffic this summer is flowing to German and Channel ports. Most traffic is available on the Mediterranean and American routes. This is due partly to an inequitable distribution of tonnage.

Official figures on traffic from United States ports show that 23,000 first-class passengers have sailed this year, up to May 23, against 28,000 for the same period last year; 30,000 have sailed second class, compared with 36,000 in 1921. Steerage business shows the great reversal resulting from the restriction of immigration, with only 20,200 leaving this country against 31,400 last year.

Travel from Europe to the United States is far behind.

Moderately good business was reported from the Royal Mail, the Holland-American, the French line, and other trans-Atlantic companies.

The increase in passenger tonnage this year has been enormous. As an instance, the Cunard has added 11 new vessels of about 150,000 tons and also has the *Delticaria* of 62,000 tons in constant service now. The International Mercantile Marine has added the Majestic, the Homeric, Regia, Pittsburgh, and has brought out the St. Paul again. The United States line has a number of new combination cargo and passenger ships running to Germany and Britain. The United American line has for the first time become a factor in the high class passenger trade. The French line has added the Paris. Seafarers are calling full, carrying four times as many passengers as last year. Cabin spaces are also proving to be extremely popular. In nearly all cases, however, space can be obtained and many of the companies declare that their medium-class vessels are suffering from the widespread belief that it is difficult to obtain accommodations here to Europe.

The most favorable report was received from the United States lines, operating shipping, board vessels, where it was said that all ships on the British and London service, are practically full in first and second classes, but that in some instances accommodations can be obtained. Medium Ships Do Good Business.

At the offices of the United American line it was said that the Resolute and Reliance are calling nearly full in first and second cabin, while the third-class quarters are fairly well booked. The medium ships of the United American and the Hanseatic-American were reported to be doing a good business.

The Cunard-Anchor lines reported an increase in traffic and pointed that as a result of heavy additions of new tonnage this year it can accommodate a still greater gain in travel.

Cottage Grove, Ore.—It was festo-nate for Mrs. Frank Henderson's curly parrot that the Mexican tongue is spoken to this north.

The parrot played hooky and was discovered perched atop the adipocarp of the Western Export and Lumber company's cannery. And efforts to bring it down were unsuccessful. Every language book in town was brought out, but their authors claimed that the monkey tongue treated between their covers could be understood by natives of Oberlin who were greatly disconcerted.

Then Mrs. Esther Galindo, who had given fire. Henderson the parrot was hastily called and the bird responded to the magic charms of her mistress by abiding down the palm tree roof and onto her shoulder.

A great-hearted hero, when the sparks fly and the work comes hard and fast, is Black Joe, but Sargeant something for life needs as well as for the hands and brain. Incubation took the high-spirited Black-fisted hero so he has killed one friend and injured a dozen or more. After his first "hand-to-hand" fight, he was transferred from the Salem, Mass., fire department to the Lawrence department. And in Lawrence, he continued his grisly killing, regardless of what or who might lie behind him. And to his satisfaction he did not care if he was sentenced to death. But at the crowded hour, Mrs. Henry G. Keiths of Methuen, Mass., raced off the smoky roads to Lawrence in her auto and pleaded with the City Marshal. As a result Black Joe has been paroled in her care and he will be "imprisoned" on her farm for life.

New York record for National Felt
esta.

Denver.—The rank of tourists through the Colorado national forests is unprecedented for the time of year according to G. W. McBeth, general agent of the Denver Interurban Railroad, who declared that the season is now in full blast with the promise of breaking all records of former years. All trails are open to the mountaineering狂热者, he stated, and with no state banks to characterize, motorists need not worry about the use of rubber.

A woman may always help her husband by what she knows, however little; by what she half knows, or maybe, she will only tease him—just like.

HOT WEATHER GOOD THINGS

The following drink is especially cooling and a great favorite on the farm. Take one quarter of a pound of oatmeal, one cupful of sugar and the strained juice of two lemons. Add one-half cupful of boiling water to the oatmeal, mix the other ingredients and pour into a gallon of boiling water, stir well, but through a sieve and chill before serving.

Chiffonade Tea Punch—Prepare four cupfuls of strong tea, let it cool, then add to the juice of six lemons and one pineapple cut in bite, one pound of cooked cherries, one cupful of sugar. Stir until the sugar is dissolved, add one quart of carbonated water, a pint at a time. Serve with a sprig of mint and chopped ice in glasses.

Boston Cream—Take three quarts of water and one and one-half pounds of sugar, two teaspoonfuls of lemon extract, two quarts of tartaric acid, and the whites of two eggs. Boil the water and allow it to get cold, then stir in the other ingredients, heating the whites until stiff. Mix well and pour into bottles and keep in the ice chest. When serving put a pinch of soda in a glass, half fill the glass with cream and fill with the cream. Drink immediately.

Chocolate Syrup—This will keep if kept in the ice chest until it is used: Take three squares of chocolate, one ounce of coco, one and one-half pounds of sugar and a pint of water, one and one-half teaspoonfuls of vanilla. Boil the coco in one-half cupful of water in a double boiler ten minutes, grate the chocolate and mix it with one-third of its measure in sugar; add this to the boiling coco, stirring constantly, then add the remainder of the sugar and boil for ten minutes. Remove from the fire, strain and cool and add the vanilla. Add a tablespoonful of the syrup to cold milk or evaporator, top with a marshmallow or spoonful of cream.

Blackberry Sherbet—Strain the juice from a quart of preserved blackberries; add half an equal amount of water as juice and sugar. If not sweet enough, add a tablespoonful of lemon juice. Freeze so a mush, then add the whites of two eggs beaten stiff, and freeze hard. Grape juice, raspberry juice or other fruit juices may be prepared in the same way.

Coffee Frappe—Melt a strong infusion of coffee, strain, cool, sweeten and mix in ice and salt. Serve garnished with whipped cream. Chocolate or coco may be served in the same way.

Good food habits are an important part of personal hygiene, and there is no better method of having suitable amounts of suitable foods served to them and then being expected to eat what is set before them.

WORTH WHILE DIETING

The following dish is one much prized by our Belgian friends and is most tasty.

Belgian Hash—Cook one-half cupful of prunes, one-half cupful of currants over night, add two finely chopped onions of a pig cocked until the meat drops from the bones, one-half cupful of sugar and three-fourths of a cupful of vinegar with one-fourth of a cupful of water, a half cupful of oil and a little salt. Put into the oven and cook until the liquid is absorbed. Melt sugar to taste, mix to the person not used to sweet foods the above will be plenty.

Holland Doughnuts—Take three cupfuls of bread dough, add one-fourth of a cupful of butter, one cupful of sugar, with nutmeg and cinnamon for flavoring. Mix well, then add two eggs slightly beaten, milk and roll out rather thin, cut in rounds, put a teaspoonful of jam or jelly in the middle, then fold the edges together, smooch into a tail and fry in deep fat. Roll in powdered sugar when cool and serve with coffee.

English Crumpets—Dissolve one-half a yeast cube in one-quarter of a cupful of warm water, adding half a teaspoonful of sugar. Mix together one cupful each of water and milk, one tablespoonful of flour and yeast. Cover and add to the yeast with cream to make a soft batter. The thickness of the batter determines the success of the crumpet. Cover the bowl containing this mixture and let rise in a warm place until double its bulk. Break a griddle and grease it with pork fat. Grease muffin rings and place them on the griddle. Fill about one-third full of very soft sponge and let the crumpets bake slowly until double their height, then increase the heat to make the griddle very hot and continue baking until the crumpets are brown on the bottom.

When done they are white, soft and full of holes on top. Lay away in paper, top together, until cold. Then toast and spread them with butter, serving them piping hot.
