They came there from the Davis mountains, Texas, and are looking for any good mining property that is for sale. They are well equipped with mining tools and outfit, and will undoubtedly find a satisfactory proposition in the country adjacent to Nogal.

Everything at present points to the building of a new railroad connecting Roswell and the north with El Paso, via the pass between the Sacramento and Guadalupe mountains in Otero county. The Record says: "Everything pertaining to the El Paso branch of the Pecos system points to the early building of the road. As told two weeks ago, the money has been raised and the contract for the steel let. The construction company, under the name of the El Paso, Roswell & Eastern Railway company, has been formed and will have charge of the building. General Manager Nichols is now out on the line of the survey. Everything indicates that actual work will begin just as soon as the preliminary arrangements can be completed."

## BASE BALL.

### Capitan Comes to the Front with a Strong Organization.

That the lovers of the national game in Lincoln county will be afforded an opportunity of witnessing their favorite sport this summer is now assured. Last Saturday the players of this place met and organized at the club rooms and elected Cas. McCoy captain and T. P. Caswell treasurer, the office of manager being left vacant for the present. Much interest was manifested and the material that is necessary to a winning aggregation was present and all will do their share towards making the team one that will make a creditable showing against all comers. Several members have been members of clubs and leagues in the western states that have been winners in former years, and Captain McCoy is confident that with a little practice he will be able to put a nine in the field that will keep pace with the thriving mountain city and maintain its reputation as an up to date winner.

Henry Pfaff offered to uniform and fully equip the nine with all the paraphernalia necessary to place the members in the field in approved base ball costume, and his offer was accepted. Suits, gloves, masks, protectors, balls, et cetera, were ordered yesterday from Spaulding Bros., and are expected to arrive here by the first of June. Meanwhile practice will be indulged in daily. The new suits will be maroon in color.

With teams at Fort Stanton and White Oaks, some good home games can be had, and it is hoped they will be in shape to play here the latter part of May during the races. Spring weather has been pretty cold for practice, but it is warming up now and the probability is that it will be good ball weather next week.

### Block Ranch Case.

There is now pending before Hon. C. A. Leland an important suit styled M. E. Richardson et al. vs. H. K. Thurber and the board of directors of El Capitan Land and Cattle company. It is charged in the complaint that the Thurbers, being majority stockholders, secured control of the board and are seeking to enforce the collection of certain debts against the company for which the company is not liable; that the Thurbers while in control of the board procured in their favor two demand notes, one for the sum of over $64,000 and another for the sum of $62,000; also that the affairs of the company have been mismanaged by the present board. All of which charges the defendants deny. The complainants bring the suit as minority stockholders for the alleged objects of securing an accounting between H. K. Thurber and wife and the company, of canceling the two demand notes on the ground that they do not represent valid indebtedness of the company and of appointing a receiver to wind up the affairs of the company, pay up its legitimate debts and divide the remainder of the assets among the stockholders. Judge H. B. Hamilton of El Paso and Hon. G. A. Richardson of Roswell represent the complainants, and Henry Aplington of New York City and Col. G. W. Pritchard of White Oaks the defendants. The matter was referred by the court to F. G. Bartlett of Magdalena as referee to take an accounting. The hearing came up Monday, but the parties not being ready further hearing was postponed until July 24, before the referee.—Socorro Chieftain.

## AWFUL MINING ACCIDENT.

### Three Hundred Coal Miners Perish in an Explosion.

The most terrible holocaust that has ever occurred west of the Pennsylvania fields, was that of the Pleasant Valley Coal company at Scofield Utah., which is described in the press dispatches of May 2nd and 3rd. Over 300 men are known to have been killed in the explosion or afterwards burned and suffocated.

The scene at the mines is one beyond description, and the agonized mothers, children and relatives of the doomed men, are crowded round the shafts in vain expectancy of receiving some of their loved ones alive. The enormous loss of life, is unparalelled in the history of western mines. A feature emphasizing the conception of the vast number of victims, is that there were not enough coffins in the state of Utah to bury the unfortunate men. And an order for one hundred was wired to Denver, and all available carpenters were put at work upon more in Salt Lake City.

CAPITAN, N. M., MAY 4, 1900

According to correspondents, the peach crop of New Mexico has been completely killed four times the past month. It will show up in July, however, with heavy shipments from nearly all the orchards in the territory, and if there is a smaller yield than usual there will be a larger market. With many flourishing mining camps, horticulturists are assured good prices for all their products.

Lincoln county occupies a unique position among New Mexico counties. It is Republican in politics and consequently in accord with the national and territorial administrations. No citizen is a federal or territorial office holder. None of them are in the employ of either in any capacity high or low. None of them are members of any territorial board. There is no territorial institution located within her borders. And further, there is no desire on the part of the Republican citizens to secure individual honors in those lines, or to place an additional burden on the taxpayers by securing an institution supported by the territory. The Democratic orators who cry "pie" next fall won't have a dried apple, one crust, cooking school conglomeration to seduce voters in this county.

The deficit of $8,000 in the Hatch and Morrill funds of the Agricultural college at Las Cruces has all been subscribed and will be returned to the government before July 1st. This is good news to all friends of the institution, as any temporary embarrassment of the college would be a serious blow to the educational interests of the territory. The United States government now appropriates $40,000 per year to the maintenance of this school, of which a small portion only can be used for building purposes, according to the construction of the Hatch and Morrill acts, through which the money is appropriated. The salary of professors and instructors and the purchase of apparatus for the various class rooms, the past year, did not require the total appropriations of the government, and through a misconstruction of the above acts the board used the balance in the building and repairing of the different laboratories of the college and were informed that such expenditure was illegal and that any balance remaining from the government funds must be returned at the end of each fiscal year. The institution is to be congratulated upon the subscription of this amount. It is today the leading educational institution of New Mexico, and has an earnest capable board of regents who are using their best efforts to place it in a prosperous condition. The territorial legislature should appropriate all money necessary to enable them to use all of the government appropriation in the proper manner. It is the one educational institution of our territory that can be of inestimable value to young people at a comparatively small expense to the taxpayers.

Hon. G. A. Richardson, president of the Southeastern New Mexico Fair association, received a letter this week from Mr. J. V. Tully giving an account of a meeting held for the purpose of electing officers for that county. The following were those chosen: Vice-presidents, George Ulrich, White Oaks; Charles Fox, Capitan; J. N. Coe, Ruidoso. Board of directors, P. G. Peters, Bonito; J. V. Tully, Hondo.—Record.

## LAS CRUCES BANK R' BBERS.

### Two Sentenced to the Penitentiary and Two Acquitted.

A great deal of interest was manifested in the trial of the men who held up the cashier of Bowman's bank in Las Cruces a few weeks ago and who were tried at the last term of court there. The verdict of the jury last week was that Wilbur and Wilson, the principals, were guilty, and that Rhodes and Cravens, indicted as accessories, were not guilty.

Wilbur and Wilson, who were caught in San Antonio, Texas, by Deputy Sheriff Ben Williams of Dona Ana county, were the two men who rode up to the bank in the middle of the afternoon and at the point of a pistol compelled Cashier Freeman to hand over $1,200 in cash. After securing this they rode out of town towards the Organ mountains, and although closely pursued succeeded in eluding the sheriff's posse; eventually getting to El Paso and from there going through Mexico, made their way back to San Antonio, where the arrest was made.

Wilson, who had been a miner in New Mexico for some time, turned state's evidence and implicated Cravens and Rhodes, who had been arrested on suspicion shortly after the robbery, but turned loose for lack of sufficient evidence to hold them at the preliminary trial. Wilson told that they furnished Wilbur and himself with horses and assisted them to escape, receiving one hundred dollars apiece for their services, and also told where he and Wilbur had shaved their beards after the robbery and hidden the notes and other bank papers, which were found later at the place designated. On his statement Cravens and Rhodes were indicted. On the witness stand Wilbur confessed his own and Wilson's connection with the robbery, but denied that the other two parties had anything to do with it. Pat Garrett, Ben Williams and others gave strong corroborative evidence of the guilt of Rhodes and Cravens, but the verdict of the jury was "not guilty."

Judge Parker sentenced Wilbur to ten and Wilson to five years in the penitentiary.

**A Word to the Wise,**

**PRACTICAL** economy lies in getting what you want and that which will please you. It is false economy to buy anything because it is cheap, when it is not what you want. Such a course brings dissatisfaction and in the end is extravagance. Here you can get exactly what you want. Our stock is so large and varied that we can please everyone in any line they may wish to purchase, whether it is hardware, groceries, dry goods, notions, boots or shoes. It is not boasting to say we carry the largest and best selected stock of general merchandise ever brought to southern New Mexico.

**DRY GOODS** The people of Capitan and the surrounding country can find an immense stock of ladies dress goods, notions, hats, boots, shoes and clothing in our store to select from, which we invite all to call and inspect.

**HARDWARE** Our stock of hardware, including stoves, cooking utensils, table and pocket cutlery, carpenter's tools, builder's material, etc., has been greatly increased by the arrival of a carload of goods for this department.

**No trouble to show goods, 1000 Door locks just rec'd.**

**GROCERIES** The housewives of Capitan will find in our large line of staple and fancy groceries everything that is needed in the culinary department, including canned goods, dried fruits, preserves, pickles, etc., etc.

**Ranchmen supplied in job lots.**

## The Future PITTSBURG OF THE SOUTHWEST

### The Great Capitan Coal Fields

Have already become famous, although on railroad only since October 1st, 1899, and with its other great resources of iron, coke, timber, precious metals, farming, grazing, and its beautiful climate, recognized by establishing the U. S. Government Consumptive sanitarium at Fort Stanton, five miles distant, must make of Capitan one of the most important cities of the Southwest.
