GRAN QUIVIRA.

About thirty miles north from
White Oaks, and about fifteen
miles west of the Gallinas moun-

tains, in rolling plain, but bare
of water, the scene of desolation,
lie the ruins of Gran Quivira, the
theme of many an Indian romance,
legend and story, as well as
the speculation of the modern
archaeologist. The walls of a
large church, some thirty feet
high built of blue limestone in a
mortar of clay, and the remains
of a number of other large build-
ings, indicate the former pre-
sence of a great population. The
nearest water is fifteen miles away
in the Sierra Gallinas. Sur-
rounding the Gran Quivira at vari-
ous distances, are the ruins of
other towns almost of equal ex-
tent. Among these are the ruins
of Abo, built of red sandstone im-
bedded in clay mortar, with a town
wall surrounding it, part of which
running in one direction, is 950
feet long. Quarra, another In-
dian town of similar dimensions,
was not far distance. All of
these have the ruins of churches,
showing that at one time the
Spaniards held possession. South-
erly, extending along the Mal-
pais, from Gran Quivira to Tres
Rios, opposite the Sierra Blanca,
and in the numerous canons of
this range and of the Sacramento
mountain range, and in the
Salado, were a number of towns
and villages, now in ruins, indica-
ting that there must have been
concentrated here a population
running into the thousands. The
strangest feature about nearly all
of these towns is the absence of
water near them and in some in-
stances it is many miles off. A
casual observer followed the
general course of the lines of
towns and villages can reach no
other conclusion but that the
face of the country has gradually
changed since these towns were

built and occupied.
The Gran Quivira proper is
situated in Socorro county in the
eastern foothills of the Oscura
mountains and about three miles
west of the Lincoln county line.

The ruins of the Abo pueblo and
others in that vicinity are in
Valencia county, while the ruined
pueblos and the Mal-Pais to the
south and southeast are in Lin-
coln county. A description of
Gran Quivira is included in this
bulletin as it is easiest reached
from the highway running from
Santa Fe to Lincoln and will be
easy to access from Progreso
station on the Santa Fe Central
railway, bout thirty miles dis-
tant.

In the Malpais, the lava fields,
are the ruins of great rectangular
buildings, sometimes built of
dressed stone. Into some of
these the lava has run and partly
submerged them, others are filled
with volcanic ashes. Among the
ruins is a triangular building 400
feet long on one side and 300 feet
on the other two, also the ruins
of a circular building 150 feet in

gan to be perceived, and it ap-
pears to be a well peopled coun-
try, with plants and fruits similar
to those of Spain, such as plums,
grapes, mulberries, rye grass,
oats, flax, etc."

Don Antonio Eapejo (1581)
says: Many of the people wore
long gowns of cotton tastefully
painted, and of the tribe, the Jin-
manes, painted the face arms and
legs. They had great bows and
arrows, and sharp cutting swords,
with sharp stones on both sides,
similar to those of the Aztecs,
and they were very expert in the
use of the sword and could cut a
man in two at one blow. Their
shields were covered with un-
tanned bull's hide, and some of

the tribes lived in houses of stone
four stories high."

Repeated attempts have been

made to lift the legendary trea-
sures of the Gran Quivira.

TOWNS AND SETTLEMENTS.

Lincoln county has no large
cities but possesses a number of
prosperous and pretty mining
camps and agricultural settle-
ments.

springs.

White Oaks is located in a
beautiful valley or natural amphitheater in the White Oaks
range of mountains surrounded on
all sides by high peaks covered
with the evergreen pine, cedar
and juniper. While several large
cattle, sheep and goat ranches
are located in the immediate vic-
inity of White Oaks from which
it derives an extensive and profit-
able trade, the principal sources
of the town's business—that
which induced the establishment
of the town at this point—are the
mining operations. Something
more than thirty-two years ago
quartz veins, carrying visible
gold in surprisingly large quanti-
ties, were discovered in what
are now known as the North and
South Homestake mines, and out
of these discoveries and the
"boom" created thereby grew
the necessity for a trade center
and White Oaks was the result.
It is inhabited by an enterprising
class of citizens who believe in
good schools, churches and res-
idence.

WHITE OAKS.

The best known town is White
Oaks with a population according
to the census of 804. It was lo-
cated in 1880 and its fame rests
upon its gold mines, principally
the Old Abe. It is six miles from

the El Paso-Rock Island railway
and twelve miles from Carrizozo
on the El Paso and Northeastern
railway from where twice a day
stage coach runs to White Oaks.
The town has three churches,
Congregational, Methodist Epis-
copal and Baptist, and a \$10,000
school house with an excellent
school system. White Oaks is
6,400 feet above the sea level.
There are two hotels, a planing
mill, a weekly newspaper and one
saloon in the town. Excellent
water is secured from nearby

springs.

They have erected a public
school house at a cost of more
than \$10,000, and have two creditable
church buildings, which
with the balls in use are ample
for the accommodation of the
church goers of the community.
Many substantial and com-
munity residences are seen, while
the business houses would be
creditable anywhere in a small
town of 800 or 1,000 people. No
place can boast of a more ideal
climate than this. The winters
are mild, though light snowfalls
are experienced each season, the
streets are free from it except at
short periods and at rare inter-
vals, while the summers and
autumns are charming, a few
weeks during the spring months
being the only period of the year
when this locality has any climatic
drawback. This is due to the
dust and wind storms so com-
mon in the arid portions of the
country. The nights here are
always cool and in the hottest
season one under a canopy or in
the shade never suffers from the
heat. In fact, it is the universal
assertion of those who have lived
here for years, that this is the
most perfect, all around, climate
they have ever found.

Mammoth Dancing Carnival.

The contractor who is building the Varied Industries Palace at the World's Fair has suggested the holding of a dancing carnival upon a magnificent scale to celebrate the completion of the floor of the building. In the construction of these mammoth places the floor are built first and then the superstructures put in place. In the Varied Industries building the main floor area is about 14 acres. The contractor proposes to have a mammoth brass band occupy a stand in the centre of the floor and play tunes suitable for dancing while 100,000 dancers join in the piroquette. The contractor expressed the opinion that he will have no trouble in securing permission from the directors of the Fair to carry out his carnival idea.

Rock Island Business.

An examination of the March statement of the Rock Island road, containing as it does a statement for the fiscal year, shows wonderful advance in the earning capacity of the road.

The company reports for the twelve months a gross gain of \$1,920,710 and a gain in net earnings of \$2,869,283 and an increase in the surplus after charges of \$3,000,951. The surplus for the year is stated at \$7,197,972. The company now has outstanding \$60,000,000 capital stock, and in June stockholders will vote to authorize an additional \$15,000,000.

The company has lately issued \$24 million collateral trust 4 per cent bonds to be used in payment for Choctaw, Oklahoma & Gulf stock already purchased. The surplus reported by Rock Island proper, therefore, for the twelve months ended March 31 is equivalent to almost 12 per cent on the outstanding stock for the year. The indications are that the operating expenses contain a certain amount of betterment expenditure although in the last few months the company has been cutting down its expenses very materially.

The company needs in order to pay 6 per cent dividends gross earnings of about \$5,250 a mile, while the gross this year is undoubtedly in the neighborhood of \$7,500 a mile, so that there is a handsome margin over dividend. The Rock Island secured the Choctaw road at a net cost of \$960,000 a year, as representing the interest on \$24,000,000 of 4 per cent bonds. In the year ended October 31, 1901, the Choctaw had had a surplus over its charges of all sorts of \$1,400,000, so there

is a connection with the past of the property.

On anything like present earnings Choctaw will, of course, prove a profitable acquisition for the Rock Island road. The system however has had a very rapid growth, as may be judged from the fact that last year it was earning \$7,000 a mile gross, which is very large for a new property.

The Choctaw road is making these earnings on an average ton-mile revenue of 1.33 per cent. Kansas City Journal.

The World's Fair Flag.

The selection of a flag for the Louisiana Purchase Exposition has been narrowed down to two designs, and these have been submitted to the board of directors so that a choice may be made. The size of the flag is 9x18 feet. One has a blue bar next the staff, covering one fourth the flag, and carrying a giant fleur de lis. The remainder of the flag consists of three longitudinal red, white and yellow stripes, the white stripe, in the middle, having blue stars, one for each state in the Louisiana Territory. The other design is all blue with the exception of a broad cross which divides the fields into equal sections. The horizontal bars of this cross are yellow, the vertical red, with a large fleur de lis at the intersection.

Thence Var. 12° 05' E. S. 81° E., 516.57 feet to corner No. 2, a limestone 6x12x12 ins. above ground, chiseled 2, A. 675 on w. face.

Thence Var. 12° 30' E. N. 13° 27' E., 576.4 feet to corner No. 3, a juniper post with mound of stones around it, and marked 3, A. 675.

Thence Var. 12° 27' E. N. 81° w., 516.57 feet to corner No. 4, a juniper post with mound of stones around it, and marked 4, A. 675 on E. face.

Thence Var. 12° 30' E. N. 13° 27' E., 576.4 feet to corner No. 1, place of beginning.

Waiving and excepting from this the Hancock Lode claim, all that portion thereof in conflict with survey No. 572 B, Texas Girl Millsite, which excepted portion is bounded as follows:

Beginning at a point 129.3 feet N. 10° 04' E. from corner No. 5 of said Texas Girl Millsite; thence N. 10° 04' E. 297.38 feet; thence S. 81° E., 17.01 feet to corner No. 3 of this survey, thence S. 13° 27' w. 288.2 feet to place of beginning, containing .05609 acres. Also excepting from this claim all that portion thereof in conflict with survey No. 576 A, Correction Lode, which is bounded as follows:

Beginning at a point 474 feet N. 28° 50' E. from corner No. 3 of said survey No. 696; thence N. 81° w. 476.12 feet to corner No. 4 of Hancock Lode; thence S. 13° 27' w. 435.7 feet; thence S. 63° 06' E., 50 feet to place of beginning, containing .00258 acres.

Also excepting from this claim all that portion thereof in conflict with survey No. 696, John Brown Lode, which is bounded as follows:

Beginning at a point 474 feet N. 28° 50' E. from corner No. 3 of said survey No. 696; thence N. 81° w. 476.12 feet to corner No. 4 of Hancock Lode; thence S. 13° 27' w. 435.7 feet; thence S. 63° 06' E., 50 feet to place of beginning, containing 1.15 acres.

The net area claimed by this application being 6.75603 acres.

The location of this mine is recorded in the recorder's office of Lincoln County, New Mexico in Book "P" of mining records at page 66. The adjoining claims are North, Eighty-seven placer-survey No. 697; East, Texas Girl Millsite-survey No. 572 B, and public lands; South, public lands and Correction Lode-survey No. 576 A, and West, Copper Claim Lode-Survey No. 575 A, and John Brown Lode Survey No. 696.

Any and all persons claiming adversely to the portion of said Hancock Lode Mine or surface ground

are required to file their adverse claims with the Register of the

United States Land Office at Roswell, in the Territory of New Mexico, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the statute.

For the Complexion.

The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruption. DeWitt's Little Early Risers keep the liver and bowels in healthy conditions and remove the cause of such troubles. C. H. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe through and gentle. The very best pills. Robt. Hurt.

His Boast.

"Money," said the philosopher, "is a great power for promoting human happiness."

"Yes," answered Senator Sorgum, "and I am proud to say that when I give money away it is not necessary that a man shall have to belong to the intellectual aristocracy that knows how to read. I make no class distinction. All a man has to know is how to vote."

Between the hours of eleven o'clock a. m. and closing time at night on Jan. 25th 1901, A. F. Clark, druggist, Glade Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says,

"I never handled a medicine that sold better or gave better satisfaction to my customers." This remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a reliable medicine for a cough or cold, or attack of the grip use Chamberlain's cough remedies and you are certain to be more than pleased with the quick cure which it affords. For Sale by Robt. Hurt.

Fractionally Starving.

"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Holly, real estate, insurance and loan agent, of Macomb, Ill. "Before using Kodol Dyspepsia cure she could not eat an ordinary meal without intense suffering. She is not entirely cured. Several physicians and many remedies had failed to give relief." You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. Robt. Hurt.

Railroad Men Getting Married.

The El Paso Herald says: "Capitan is in the midst of a matrimonial boom and if it don't stop all the Capitan girls will be married. Last Friday Engineer Robt. Gibson of the E. P.R. I. went up to Capitan and surprised all the boys by getting married to Miss Sarah Richards, one of Capitan's charming belles. No sooner had the ceremony been said than they returned to Alamogordo where they will make their future home."

"This afternoon (Thursday) at four thirty o'clock John Cody, another E. P.R. I. engineer, will be married to Miss Bell Stephen-son of Capitan. They will take the night train to Indianapolis, Ind., where they will spend their honeymoon among his people. Alamogordo will be their home when they return.

"Cards are out announcing the marriage of C. D. StClair, the E. P.R. I. operator at Capitan, to Mrs Beatrix Richards on the 24th of this month. Miss Richards is a sister to Mrs. Gibson.

"Brakeman T. S. Anderson of the E. P.R. I. has also announced to his friends that he will be married on the Fourth of July to Mrs. Edith Gray of Capitan. These are only a few, others are to follow the most excellent example set by the Rock Island boys."

Last Thursday on the Mescalero Apache reservation in Otero county, an Indian named Tobacco was killed by two Indians named Macketa Negro and Jack Tertier. Macketa, years ago, when Major W. H. H. Llewellyn was Indian agent at Mescalero, took a shot at Llewellyn, but failed to hit him. Tobacco was an ex-chief. The murderers have fled into the mountains.

J. W. Whitesides Complimented.

The following letter has been handed to The Progress for publication and as it speaks in such high terms of one of Capitan's citizens it is gladly given a place in these columns. The writer, Judge T. H. Conner, is Chief Justice of the Civil Court of Appeals of the Second Supreme district of Texas:

Mr. Frank B. Coe,
Glencoe, N. M.

Dear Sir:-

In answer to yours of the 5th inst. inquiring if I am acquainted with Mr. Joe Whitesides, and whether he ever served as sheriff in Texas, etc., is at hand.

In answer thereto I beg to assure you that Mr. Joe Whitesides was sheriff of Eastland county, Texas, while I was District Judge of the District which included that county, I have known him for many years, and of course as

Judge was brought into very intimate relations with him as one of the very best sheriffs in my district, I regard him as one of the very best sheriffs in my district. I found him to be prompt, vigorous, and efficient in the execution of process and in the performance of all other duties as sheriff, and I never at any time heard him charged with any kind of improper conduct or mal-administration of the affairs of his office; nor did I ever hear questioned his honesty or integrity as a man.

Trusting that I have given sufficiently full answers to your inquiries, I am,

Very respectfully,

T. H. CONNER.
