

Party of Chicago Capitalist Here.

Come to Look at Nogal Mines. All Heavy Stockholders in the New American and Eagle Companies.

This morning there arrived over the Rock Island a distinguished party of Chicago capitalists, all stock holders in the new American Gold Mining Company of Nogal, and the Eagle mining Company of Parsons.

The party is composed of R. C. Sturgen and O. T. Olsen, directors; Capt. J. H. Lloyd a mining expert; Holden Bissett, Chas. Holdenworth, D. J. Gilder and Peter DeTemble, stockholders.

The party is here on a tour of inspection of their mining property and will remain for several days.

Their visit means much to the Nogal mining district, in as much as it is principally their money that is being spent to develop our best mines.

The American and the Eagle Companies have plenty of money back of them and the visit of these stockholders will determine the extent of their operations here for the present.

The Nogal district has no boom. It's the genuine article, all wool and several yards wide.

The old chronic croakers and sidewalk whittlers have about lost their occupation here. It's either go to work or hunt other excuses for damning the country.

Nogal now has a first class butcher shop. A. T. Roberts is the proprietor.

The New Mexico Fuel Co., are prospecting for coal four miles north of Nogal, but with what success we are unable to say.

The B. L. Berkley Machinery company, of El Paso, have an advertisement in this paper. This is a good reliable house and if you want mining machinery give them a trial.

"The good things come to those who wait." This old, but truthful saying certainly will apply to those who have held their mining claims in the Nogal and Bonito mining districts.

H. B. White, manager of the New Mexico and Iowa Mining Company will arrive here soon from Waterloo Iowa. He will bring his family here and locate permanently. Mr. White is an experienced and careful mining man and we are glad to see such men locating among us.

Lincoln county will soon have another railroad. The Santa Fe Central is building south from Santa Fe to a junction with the Rock Island at Torrance, near the Camelion mountains on the northern border of Lincoln County. The ties for this new road will come from the Gallina mountains.

The Nogal Mercantile Co., have just received a new stock of summer goods in all the newest fabrics, suitable for summer wear. Don't fail to call and see their spring line. No trouble to show goods.

Owing to limited space in our columns, the amount of news matter published this week is not what we would desire. The paper starts out with an unusual amount of advertising which has agreeably surprised us. It will be our aim to improve the paper from week to week, so do not accept this issue as "the best."

Phoenix like, Nogal has arisen from the ashes to become a bright star in New Mexico's crown of jewels.

While there are hundreds of good mining claims already located in Lincoln county, yet there is plenty of good mineral lands open to the prospector. There is no better field for the prospector in New Mexico than west Lincoln county.

Chas. Hinton, A. Corn and W. E. Johnson have located a placer claim on the Nogal townsite and are putting up machinery for washing out the gold. The townsite was worked years ago for its placer gold and the laborers made good wages.

John M. Rice and his Eagle Mining Company have secured control of about all the land and mining claims from Parsons to Angus, on the Bonito. Mr. Rice is an energetic gentleman and he and the wealthy company back of him have our best wishes, for the present prosperity of our mining interests are in a great measure due to them.

It is gratifying to see the old timers who have held on to their mining claims so long, now selling them for good prices. Thousands of dollars are being paid out here every month for mining prospects, many of which will soon pay handsome dividends to the owners with a small expenditure of money for labor.

The Iowa and New Mexico Mining and Milling Company operating near Nogal, have ordered a lot of new machinery for their mines at both Scheelerville and Turkey Creek. This company has some promising mines and are taking hold with a business like grip, and we predict will, under its present management, soon have paying producers.

The Free Gold Mining Company have a force of men at work on their placer claims near Walnut station, three miles north of Nogal. They encountered a strong flow of water at a depth of seventy feet and are now putting in a large plant for washing out the gold. There are nine claims in this group owned by the Free Gold Company and the dirt pans well, the scarcity of water having heretofore been the only drawback to working the claims. The flow of water was in sandstone and is said to be soft and extra good quality.

It is but a just and fitting tribute for us to say that the present prosperity of the Nogal and Bonito mining districts is in a great measure due to the energy of such experienced mining men as W. A. McIver, John M. Rice, M. D. Gaylord, A. R. Byrd, Geo. W. Harbin, S. S. Doak, H. B. White, M. M. Duke and others who came here and could see the future possibilities of the country. These men have all shown their faith in the country, spending hundreds of thousands of dollars purchasing good mining prospects and all are now busy getting ready to do development work. The whistle is already blowing at the American, and within a short time there will be a dozen or more producing mines in this locality. Men of experience and plenty of capital are behind all these enterprises and it is no idle boast to say that Nogal is the center of the greatest mining activity at present in the southwest.

THE VERA CRUZ MINE SOLD.

Forty Thousand Dollars is the Price Paid—More Chicago Capital for Nogal Mines.

W. A. McIver who has promoted the big Iowa and New Mexico mining Company, has made another big mining deal, whereby a big Nogal mining property passes into the hands of more Chicago capitalists.

Mr. McIver left for Chicago Sunday night to complete a deal on the Vera Cruz group of mines. The price paid is \$40,000 and the purchasers are well known Chicago capitalists.

The Vera Cruz property is located three miles north of Nogal and was discovered over twenty years ago but has never been worked to any considerable extent. It is a low grade property of extensive deposits of free milling gold ores. The new company will erect a large cyanide plant at the mine to treat the ores.

The New Era of Prosperity.

The question has often been asked "Why has the mining interests of Lincoln county not prospered before if there are such prospects as you claim?"

Way, back, more than twenty years ago Lincoln county had her first mining excitement which came with the discovery, first of the American, then of the Homestake, Hollen Rae, Old Abe, Parsons or Hopeful, Vera Cruz and others that are paying producers to-day. But all of these properties are free gold producers, for the prospector who ventured into this then isolated country never looked for only just such rock as would carry the "yellow metal in chunks" and which he could grind out with some crude process and carry it away on his pack animal. The long distance to a railroad and the inaccessibility of the place made the lower grade free milling and the base ores unprofitable to mine, and even then ore that would "pan colors" were left untouched. With the advent of a railroad into the country new life and new energy came with it. The lower grade ores are being sought for and the development of many of those veins, that are low grade on the surface, show them to be very rich a few feet down. Old prospects that were worked years ago have been relocated and with the improved and cheaper methods of treatment of ores can be made profitable mines.

The country has simply been awakened from its "Rip Van Winkle" sleep with the advent of the new order of things and in a short time Nogal has changed from an "old sleepy hamlet" to a bustling mining center. The sound of the hammer and drill have taken the place of solitude, and the echo of the blast reverberates from every hill. The shallow ten foot prospect hole is being supplanted by deeper shafts, and leads that heretofore gave only "a trace" are assaying "pay ore;" new and improved machinery is being put in to take the place of the old.

The present activity around Nogal will answer the question asked. The Nogal and Bonito mining districts are the richest and most promising in New Mexico and offer the best inducements to the capitalist and prospector.

A fifty dollar gold nugget was taken out of the drift at the American mine Saturday.

Lincoln County has a bright future, but that future depends in a great measure upon the development of her mineral resources. While our agricultural, fruit growing and stock industries are great yet our greatest source of wealth is in our mines which are just begun to be developed. We need capital to develop these mines and capitalists are coming this way.

The Redemption of our "Dead Lands."

In the United States are some hundred million acres of arid land that may be made fertile and fruitful. President Roosevelt in his first message to Congress urged the necessity of irrigation in the waterless west.

By building of great reservoirs in the mountains the rain and snow water now running useless to the ocean may be made effective and beneficent.

In ancient Babylon and in Algeria the ruins of gigantic reservoirs stand as a monument to the people of the past, and a reproach to the present generation. In India and Egypt to-day the British government is expending vast sums in reclaiming desert lands with a view to producing sustenance for an additional five million of people.

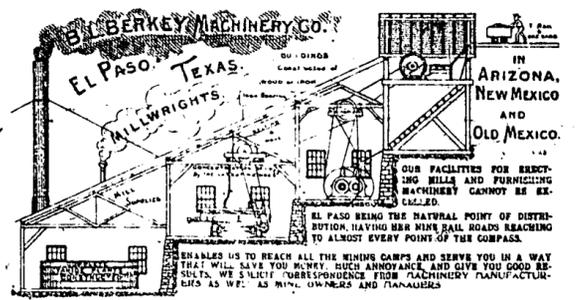

The ordinary conception of a reservoir basin is a deep gorge ending in a narrow exit capable of being dammed. This, however, is not the ideal site in the eyes of the trained engineer. He knows that a barrage of dangerous height built across such a canon will retain only a moiety of the necessary supply. The experienced engineer chooses a location such as will obtain the widest possible catchment area and for his reservoir desires a wide extent of land where a vast shallow lake may be formed with a wide reaching dam of no considerable height. From such shallow lake he obtains the greatest quantity of water with the least possible danger to lands lying at a lower level.

Almost every stream has a number of possible storage sites and it requires careful investigation to decide upon the most feasible and economical. From Montana to Mexico along the Rocky Mountain Range and among the foot hills are hundreds if not thousands of such storage basins, each capable of fertilizing the farms of a prosperous community.

It is to capture the flood waters, to hold them fast against the time of necessity, that the advocates of irrigation plead for government aid. The careful farmer lays his surplus money away against a "rainy day." It seldom occurs to him to lay away his surplus water against a "dry day." The economy is the same, the spend-thrift principle identical.

By reservoiring the fickle streams of the west millions might garner rich returns from land that to-day is a desert waste and our arid sands would blossom like the rose. Moreover, under existing conditions millions of dollars are annually lost through floods. This loss would be greatly diminished if not obviated by proper storage systems.

The advocate of irrigation is an expansionist within our own territorial limits, a patriot fully as valuable as he who urges national development beyond the sea. Guy Elliott Mitchell in Munsey's Magazine, April, 1902.

The best way to punish the burglars will be to cut off their missionary supply.

Wealth doesn't always bring happiness, but it can generally furnish a pretty good imitation.

With Paderwick's wife along, do the girls think his playing is quite as heavenly as it used to be?

They are going to levy a tax on novels in Paris. It might well be a prohibitive one on some of them.

As a rule, stockholders do not kick so long as the dividends hold out. Then they want to know, you know.

Another Spanish crisis has been averted by blocking the wheels that kept the Chamber of Deputies in motion.

New rules have been adopted for the government of golf tournaments this season. The game heretofore has been too exciting.

Mr. J. W. Happy has just been appointed postmaster at Mayfield, Ky. It ought to be easy for him to live up to the name now.

Hurgar's second attempt in the safe of the Standard Oil company at San Jose. Now watch the price of coal oil take an aerial voyage.

A new woman has been discovered in Chicago. The defendant in a divorce suit is described as a combination of a cat and a dog.

The price of seats in the New York exchange has fallen to \$60,000. This extravagant sum is never secured by a way back.

Legislation is now being introduced to enable the owners of property to restrain the passing of bulls. This has the appearance of a bear movement.

The American Indian has not been completely tamed, but he rarely gets the worst of the bargain, exchanging his wares for the white man's wampum.

California prisons are to be utilized in the manufacture of alkali. The fraternity of lawless boys is reported on the point of a new purpose to sour the sea.

Hypnotism is the name of one of the horses entered for the Amerian Derby that are in nearly regarded presumably on the theory that it never fails to connect.

A New York man has been chosen as chief of the fire department at Manila. This is believed to be the forerunner of an Irish police force at the Philippine capital.

But little notice was taken in Holland of the anniversary of Queen Wilhelmina's wedding, and no reference to it whatever appeared in the leading Dutch papers. Why?

An explorer has found some water in Kansas that is said to bear a close resemblance to that of the Dead Sea. Probably it represents the remains of some prehistoric joint.

The average number of inmates in Bellevue hospital, New York, is equal to that of a good sized town—that is, it is from 2,000 to 3,000, and of these a good many are unable to help themselves.

Poor Leo, who once flourished a tomahawk, now meekly surrenders before the first sally of the barber's shears, and yet there are some persons who do not approve of our methods of subjugating the Indian.

Snowballs extinguished a fire at Georgetown, Pa., and prevented the destruction of the entire village. The villagers probably will keep snow in icehouses during the summer season for fire-fighting purposes.

With the football fiend, the empty pistol jester, the thin-ice skater, the boat rocking idiot, the kerosene fire-maker and the reckless coaster rounded up, there would be great encouragement given the national census.

A man in Quincy, Ill., kicked at a cat and broke his own neck. The attempt merited some punishment, but we are disposed to consider this a trifle too severe. A broken leg or an arm should have proved a sufficient lesson.

Now that typhoid has been found to have remarkable qualities that encourage friendly vessels 3,000 yards away from the enemy's ships, it appears to be rather more of a boomerang than is needed in the gentle art of modern warfare.

The Granite Falls Tribune tells of a young man in that town who can drink half a pint of clear alcohol without a recess. One of these days there will be a dash of blue flame and that young man's relatives will have to furnish him to pay.

12 HOTELS BURN

FIRE LOSS OF \$1,500,000 AT ATLANTIC CITY, NEW JERSEY.

THE ENTIRE CITY WAS THREATENED

Help Was Sent from Philadelphia and Camden, N. J. Besides the Hotels, a Score of Buildings Burned—Hotels Were All of Frame Construction and Mostly Cheap Affairs.

ATLANTIC CITY, N. J. (Special.) Twelve hotels and more than a score of small buildings adjoining the board walk which is built along the ocean edge were destroyed by a fire which swept the beach front for two long blocks from Illinois avenue to New York avenue. The loss, it is believed, will exceed \$1,500,000. In this respect the conflagration is the most disastrous that has ever visited the city. The loss will be only partially covered by insurance as the rate of 5 per cent charged by insurance companies on property here is regarded as almost prohibitive.

Fortunately no lives were sacrificed, though probably 500 persons were slightly injured and burned during the progress of the fire. It was reported early in the afternoon that six men had perished in the flames, but the rumor was without foundation. The origin of the fire is unknown, but it is said to have started in either Brady's bath or the Tarlton hotel, which adjoins the bath at Illinois avenue and the Board Walk. The city is guarded by a company of militia who were requested by the municipal authorities to aid the police in the prevention of looting. About a dozen men were arrested during the day for robbery. The hotels destroyed and their estimated losses are:

The Murray and annex, the latter for many years known as the Normand, owned by J. B. White & Son, \$12,000,000.
The New Holland, Mrs. M. J. Lee, \$300,000.

Stratford, Arnold W. Waldner, \$10,000.

Berkley, New Brothers, \$200,000.

Byrn Maw, J. & E. Ketter, \$2,000,000.

Hickox, Mrs. L. V. Stickney, \$20,000.

Kvard, James T. Gorman, \$20,000.

Rio Grande, J. P. Kilpatrick, \$30,000.

Mervine, J. Keis, \$1,000,000.

Academy hotel and Academy of Music, Charles Fralinger, \$2,000,000.

Windsor, G. Jason Waters, partly destroyed, \$2,000,000.

Charles W. Keeler, who conducted a drug store on the Board Walk at Kentucky avenue, estimates his loss at \$60,000, and Victor Kreisinger, proprietor of an art store at St. James place and the Board Walk, says his loss is \$50,000.

Other victims whose losses range from \$500 to \$10,000 are: James A. Brady bath house; David John, drugist; Nathan & Kazan, Oriental goods; Haines, floral; Shimanova & Co., Japanese novelties; China Hop Hing, Chinese novelties; John F. Platt, art store; Partridge & Richardson, millinery and dry goods; Woman's Exchange; K. P. Quinn, hair dresser; Moyer & Bro., jewelry; Richard Binder, barber.

In addition to the foregoing there were numerous other smaller losses and several cottages on inland thoroughfares in the rear of the Board Walk were either partially or completely destroyed.

The fire was extinguished by the fire department, which worked well with the firemen, and it was found necessary to send to Philadelphia and Camden for aid. The former city sent three engines, and two came down from Camden.

MET DEATH IN PULPIT.

Fatal Had in Pennsylvania Church.

GREENVILLE, PA. (Special.) The Easter services being held in the United Presbyterian church at Jamestown, this county, six miles north of here, came to an abrupt ending. The sky became overcast and a funnel shaped cloud was seen approaching from the northwest. The congregation became uneasy but the pastor, Rev. J. M. Jamison, continued the services. Suddenly there was a terrific crash and part of the south end of the church crashed in, burying the ministers beneath bricks and timbers. The men of the congregation rushed to the pulpit and when the minister was removed from the debris it was found that he had received fatal injuries.

CINCINNATI, O. (Special.)

The Pike building on Fourth between Vine and Walnut streets, in which the Pike opera house is located, is partially destroyed by fire. Standing room had been taken at the matinee, which was proceeding when the flames broke out. The audience retired in good order, but some women fainted after reaching the street.

Recruits of a Reprimand.

NASHVILLE, TENN. (Special.) After being slightly reprimanded by a teacher at Edmont college, Miss Henrietta Ligon, a student, disappeared. Later her body was recovered from a pond in the college yard. Miss Ligon was 13 years old and a daughter of E. H. Ligon, of Fulton, Ky., who has been here since her disappearance, anxiously searching for the missing girl. The reprimand administered was regarded very lightly by the teacher, who held the young girl in high esteem.

MAGGEE GETS FOURTEEN YEARS.

Barred Wife, Child and Mother-in-Law to Death Last May.

WATSEKA, ILL. (Special.) Burt A. Maggee, accused of causing the deaths of three of his own family, has been convicted of murder and sentenced to fourteen years in the penitentiary.

The crime was committed on May 28, 1901, at the home of Mrs. Mary Herzhberger, his mother-in-law. The house of Mrs. Herzhberger was burned down and Mrs. Herzhberger, Mrs. Hattie McGee, wife of the accused man, and Calvin Maggee, aged 5, were found dead in the house after the fire was put out. Burt A. Maggee and a 2-year-old daughter escaped.

Maggee asserted at the time that he had made every effort to save his wife and the other two who were burned, and for a time his statement was not openly questioned. Later the insurance companies became suspicious and relatives of Mrs. Herzhberger took up the inquiry and swore out warrants for the arrest of Maggee for murder.

LION AND BULL WILL FIGHT.

Beasts Will Engage in Mortal Combat to Please a Mexican Audience.

EL PASO, TEX. (Special.) Arrangements are being made here for one of the most remarkable contests that ever took place in an arena on the North American continent. A monster lion from South Africa will be pitted against a splendid bull from Sanagayaca and the two beasts will battle to the death in the presence of thousands of spectators.

The fight will take place just across the bridge on Mexican soil in the bull ring at Juarez, and the spectacle, the like of which has not been seen since the days of Nero, will undoubtedly attract people from far and near.

The lion to be used is a beautiful specimen recently brought to the city from South Africa by his owner, A. J. Morrison of Los Angeles. He is years old and is valued at \$5,000.

ROCKEFELLER MUST PUT UP.

He Offered \$250,000 to Harvard College if as Much More Was Raised.

NEW YORK (Special.) The treasurer of Harvard college has announced that the full amount of \$200,000 which is to be donated by John D. Rockefeller had been subscribed. In addition to this amount the treasurer received an additional donation of \$50,000. This brings the subscription to \$250,000 and as Mr. Rockefeller pledged himself to double \$200,000 and up to \$250,000, the Harvard college will now have an additional endowment of \$500,000. The \$50,000 last subscribed came in a letter from Nicholas Murray Butler, president of Columbia university, who stated that the subscription came from an anonymous donor and the amount was to be used as President Butler might designate.

DEPOSED FROM MINISTRY.

Formerly of Kansas Preacher Confesses to Charges.

MINNEAPOLIS, MINN. (Special.) Rev. Louis Richter, a Presbyterian minister, was deposed from the ministry and expelled from the church after a trial before the Minneapolis presbytery. He was charged with publishing in pamphlet form articles in the interest of the saloons and also with receiving pay from a Minneapolis brewing company. The pastor admitted the charges and charged but denied that by such action he had done anything that was not consistent with his position as a minister of the Gospel. The deposed minister, who is 68 years of age, held a pastorate in Kansas before coming to Minnesota.

Michigan Miners to Strike.

RAGINAW MICH. (The United Mine Workers of Michigan were called out for a general strike, to begin April 1, on account of the failure of the operators and miners to adopt a wage scale and adjust differences during their recent meeting here. The call affects twenty-one unions throughout Michigan, with a membership of 2,500.

Are Manifestly Paid Now.

BETHLEHEM, PA. (Special.) An increase of 10 per cent has been made by the Thomas Iron Company in the wages of the men employed at the company's furnaces at Hollertown. After April 20 laborers will receive \$1.20 a day, the highest rate paid them in many years. The 10 per cent increase includes also the men employed in the mines which furnish ore for the furnaces.

Two Boys Rob Their Mother.

BEATRICE, NEB. (Special.) William and Frank Skrabie were arrested and brought to this city, charged with robbing their mother, Mrs. Josephine Skrabie, of \$2,700. Frank has confessed that he and his brother took the money, but says his brother persuaded him to participate in the theft.

Illustrated the Doctrine.

There is a certain small girl who illustrated very clearly the advantage of augmenting the efficacy of prayer by uniting her faith with works. She was pained to find that her brother was setting traps to catch birds. Questioned as to what she had done in the matter she replied: "I prayed that the traps might not catch the birds."

AS THE WORLD REVOLVES

BAT ON THE THRONE OF A KING.

American Girl Has Novel Experience in Turkestan.

Miss Mary Pangborn, daughter of Major and Mrs. Joseph G. Pangborn of Baltimore, has had many unique and some rather thrilling experiences as her father's companion on a tour he has just completed of Afghanistan, Turkestan, Persia and other Asiatic countries for the purpose of getting specimens for the Field Columbian Museum. One of her adventures was to handle the throttle of the engine while the train was rushing across the desert of Persia. Miss Pangborn's friends are confident her experiences on the trip would make an entertaining tale of adventure under the title "From Moscow to Samarkand, in Central Afghanistan, and Return."

Major and Mrs. Pangborn and their daughter traveled in three private cars especially tendered by the czar of Russia. The party were entertained by the Russian officials at every point at which they touched.

At Bakharra, in the absence of the Ameer of Turkestan, Miss Pangborn

assumed his office for a temporary period by seating herself on his royal throne and having tea served.

English Crime Statistics. The British home office report for the year 1900, just issued, shows that out of a million Britishers, seventy-four were guilty of crimes against a person, fifty-five were guilty of robbery with violence, 159 were convicted of stealing or defrauding, seven of maliciously injuring property, eight of forging or coining, and twelve of other offenses which brought them to the courts. The proportion of persons previously convicted continued to rise. In 1893 it was 550 per thousand, and now it is 612 per thousand, the total numbering 4,385. The increase in the arrests of previously convicted persons is said to be due chiefly to improved methods of identification.

HE PROVED HIMSELF A FIGHTER.

Met an Expert Mathematician, but a Real American Soldier.

Lieut. L. J. Van Schaick, who failed to pass his examination in mathematics at West Point in 1899 and was dropped from the academy, has just returned from the Philippines with a shattered arm and a mark for remarkable bravery in a single-handed fight with over a score of bolomen, of whom he killed three and held the others at bay until the arrival of reinforcements. A number of the bolomen were armed with rifles. Lieut. Schaick's arm was nearly severed by

man of scarcely twenty years, a native of Wisconsin and a graduate of the high school of Racine, where she was born. Miss Anderson's subject was "The Iconoclast in History," and her judges expressed the greatest admiration for the matter and manner of her oration. Teachers and students alike are very proud of their young comrade.

Codes for Royal Phones.

Buckingham palace is being fitted with a complete telephone service, communicating with the nearest police and fire stations, the king's apothecary and the residence of the prince of Wales. When a confidential message is sent by telephone between royalties it is invariably transmitted in a cipher code known only to members of the royal family and a few privileged officials. The codes are kept in small books, metal mounted and with patent locks.

FAMOUS IRISHMAN IS SUSPENDED.

John Dillon, Who Referred to Chamberlain as Unparliamentary Language.

John Dillon, M. P., chairman of the Irish nationalist party in the house of commons, who has been suspended for a breach of parliamentary rules in applying the epithet "blank liar" to Joseph Chamberlain, knows how it

Women Has "Cross of Iron."

Madame von Otenhausen of Massachusetts is the only woman in America who wears the "Cross of Iron," that rare German decoration, and she is the only woman in America whom the military officers composing the suite of Prince Henry of Prussia would be officially obliged to salute with the German salute of honor.

Farmer O'Neals' Hard-Wood Teeth.

Farmer, Foley O'Neal, is said to have a set of false teeth he made himself out of a piece of seasoned apple tree root with 20 other fool than his pocket knife. The teeth are of perfect shape and regularity, and are of the same piece of wood, as his mouth as well as if fashioned by a plaster imprinter. He saw crack corn with these teeth—Chicago's later O'Neal.

BEFORE THE PUBLIC EYE

KAISER'S SON TO VISIT AMERICA.

Prince Adalbert Coming Over in the Training Ship Charlotte.

Now the Kaiser's son is to visit the United States. The Imperial German training ship Charlotte will arrive at New York April 28, and among her

crew of naval cadets will be the third son of the German emperor, Prince Adalbert.

This scion of royalty was born July 14, 1884. He is 18 years old, and in his tenth year was entered in both the army and navy as an officer. He is a lieutenant of the First Regiment of the Imperial Foot Guards, and at present holds active rank in the navy as a lieutenant of the Charlotte.

Small Pay for Great Invention.

Everyone is familiar with the hook eyelet now commonly used on boots and shoes. The man who invented it could dispose of it only by selling the complete title to a shoe company. Even the shoe company did not fully appreciate the value of the invention which they had acquired, for the hook and eyelet was regarded as an eccentricity and would require expensive machinery in its manufacture. It is said that the inventor realized \$600 for his hook and eyelet.

HAS GREAT ORATORICAL TALENT.

Miss Anderson Carries Off Honors at Wisconsin State University.

Miss Julia Marjorie Anderson, who has just won the annual oratorical contest at the Wisconsin state university against six of the best young men orators who could be pitted against her, is a modest young woman of scarcely twenty years, a native of Wisconsin and a graduate of the high school of Racine, where she was born. Miss Anderson's subject was "The Iconoclast in History," and her judges expressed the greatest admiration for the matter and manner of her oration. Teachers and students alike are very proud of their young comrade.

Holland and Its Colonies.

The hold that Holland has on its East Indian colonies is rather precarious. The Archon war stretched over well-nigh thirty years, is having a period of recrudescence that will sadly try Dutch resources. The Jambli war has also kept the Hollanders busy. Strange to say in both districts the Dutch troops are doing what the Dutch condemn in South Africa—burning farms. They are even destroying whole villages.

Illegal Taxes in Malta.

The business of the council of government of Malta is now transacted by the vice president and six official members, the thirteen elected representatives having withdrawn as a protest against alleged illegal taxes.

Good Water.

This phrase was first used by Dr. Johnson, who said of Bathurst, a physician: "He was a man to my very heart's content. He hated a fool, and he hated a rogue, and he hated a whig; he was a very good hater."

Bright's Disease Cured.

Sullivan, Ill., March 31st, Mrs. Kitty F. Seaney was very ill for months and notwithstanding the best possible medical attendance she got no better. The doctors said she had Bright's Disease, and gave her little or no hope of ever being well again.

Women Has "Cross of Iron."

Madame von Otenhausen of Massachusetts is the only woman in America who wears the "Cross of Iron," that rare German decoration, and she is the only woman in America whom the military officers composing the suite of Prince Henry of Prussia would be officially obliged to salute with the German salute of honor.

Farmer O'Neals' Hard-Wood Teeth.

Farmer, Foley O'Neal, is said to have a set of false teeth he made himself out of a piece of seasoned apple tree root with 20 other fool than his pocket knife. The teeth are of perfect shape and regularity, and are of the same piece of wood, as his mouth as well as if fashioned by a plaster imprinter. He saw crack corn with these teeth—Chicago's later O'Neal.

THE REPUBLICAN.

NOGAL, NEW MEXICO.

Published Every Thursday.

\$1.50 a Year in Advance.

Application made to the Postoffice, Nogal, New Mexico for transmission through the mails as Second Class matter.

According to a late ruling of the Post Office department, all subscriptions to newspapers must be paid for in advance in order for the publisher to receive the benefit of the law.

Postage at the rate of one cent a copy must be paid on all papers sent through the mails and not paid for.

C. H. BROWN, BUSINESS MANAGER.

SALUTATORY.

In establishing this paper we have no apology to offer or excuse to make.

The time has come when the rich Nogal and Bonto mining districts need an advertising medium to make known to the outside world what they offer to capital seeking investment in rich and paying mines of gold, silver, copper and other valuable minerals.

The Republican party of Lincoln County, being the majority party, needed an organ, and this paper, as its name implies, will be Republican in politics; but we shall endeavor to so conduct it as not to mar the feelings of any one.

The principal mission of this paper will be to advertise the resources of the entire country and no particular spot will be specially favored by us.

Lincoln County needs just such a paper as we intend to publish and we shall spare no pains to merit the patronage of all.

There are several reasons why we have chosen Nogal as a location for the paper and such reasons will become more apparent further on.

We want the support of all who have a desire to see the country prosper, and the hearty co-operation of the public will assist us in making the paper a worthy champion of their interests.

LOCAL NEWS.

Reports from all the orchards in Lincoln county indicate a big fruit crop.

Geo. E. Sligh, A. R. Byrd and Hunter Byrd were in White Oaks Tuesday.

A new forty horse power boiler is being put in place at the American mine.

There are forty men at work now on the American mine taking out rich free gold ore.

Rango stock never looked better at this season of the year and the per cent of loss for the winter is unusually light.

Mrs. Amanda E. Moore has arrived from Las Vegas and is visiting with Mrs. U. Moore of this place.

M. D. Gaylord, superintendent of the American Mining Company made a business trip to both Lincoln and El Paso the past week.

Mrs. Lillie B. Moore has been appointed postmistress at this place vice Ed. B. Homans resigned.

Everybody should know Clark Hunt, one of the jolliest good fellows ever met. When in Nogal call at his place and we will insure you a hospitable reception.

W. E. Johnson, of the Johnson Machinery Company, of Joplin, Mo., is here putting in a lot of machinery for the Free Gold placer mines.

The Nogal Mercantile Co. have just unloaded a car of barbed wire, and are making close prices on quantities.

Have you seen the new stock of spring millinery that the Nogal Mercantile Co. are showing? It is all right, purchased by Mr. Sligh while east, and is by far the most stylish and up to date line ever shown in Nogal.

A good thing—The Republican—help to push it along.

Extra copies of this paper are five cents each or \$1.50 a year.

One dollar and fifty cents pays for this paper one year.

Freit Smith is fencing and otherwise improving a fine stock ranch four miles north of town.

Every house in Nogal is occupied and there are numerous calls for more.

Dame nature is donning her now spring clothes. We smilingly blush.

G. H. Bond, section foreman at Walnut, is improving a ranch west of Church mountain.

John M. Rice returned home from Chicago Sunday where he has been on mining business.

M. M. Duke and Rich Hust Jr. are sinking a hundred foot shaft on a prospect northwest of town.

George Dillard and Bob Corn have gone to Cook county, Texas, to prospect for a lost copper mine.

T. W. Henley will have charge of the commissary store at the American mine. His blacksmith outfit is for sale.

Uncle Geo. Dillard has charge of the boarding house at the American mine, which means that the boys will be well fed.

THE REPUBLICAN has the best equipped plant in Lincoln county. We can print anything from a visiting card to a full sheet poster.

On coming to Nogal you need not go hungry. The town has a good hotel run by the Browns and a Restaurant run by the Henleys.

The public school of Nogal will close for the term on May 16. The term has been a very successful one under the instructions of Prof. W. E. Dudley.

Frank May is the "Hank Monk" that handles the lines on Clark Hunt's stage and mail line to and from Walnut and will get you there on time.

At the last election, Lincoln county gave Rody, Republican, for congress, 211 majority; Lewis Republican, for council, 100 majority, and Hervey, Republican, for representative, 227 majority. Even in the face of this fact some men will claim that Lincoln county is "Safely Democratic."

While this paper will be Republican in politics, because we believe the principals of that party correct, yet this does not imply that we shall say anything of a political nature that will insult or ruffle the feelings of any one. We are here to do what we can to build up Lincoln county and we ask the assistance of all who have the interest of the county at heart.

W. T. "Skeeter" Henley is the proprietor of the Nogal saloon where you can find all kinds of drinks on tap.

His place is kept neat and clean and he will treat you right. Mr. Henley also keeps some first class heavy teams and will carry passengers to all parts of the country.
