The Nogal Republican.

Vol. 1. No, 4. Nogal, Lincoln County, New Mexico. Thursday, May 8, 1902. $1.50 A Year, in Advance.

Mining and Prospecting.

There was a rich strike in the shaft of the American mine this week. A ten inch vein of quartz carrying free gold in plentiful quantity was encountered. It is the richest gold ore heretofore found in the American. The Clipper is in richer ore than ever before and the Cashier is already in shipping ore. A contract has been let for two hundred feet of work on the Rockford and it is showing up well. The new rails have arrived for the Helen Rae and are being put in place, and manager Reed is busy doing preliminary work on this property. Capt. Lloyd is busy over at Parsons, getting things ready for the largest mining enterprise ever undertaken in New Mexico, and general manager Rice is busy as can be. In fact everything in the mining business is going along just as nice as could be asked.

Low Grade Ores.

Black Hills Mining Review.

During the month of January the Alaska-Mexican mined and milled 20,015 tons of ore, the gross receipts for the month were $43, 198, the ore averaging only $2.15. a profit of only 70 cents per ton, still their total profit for the month was $14,079.

The Alaska-United company mined and milled 19,710, tons of ore during the same month, giving a total value of $33,440, the ore averaging only $1.70 per ton, while the working expenses were $20,699, or $1.05 per ton leaving a net profit of only 65 cents per ton, still their total profit for the month was $12,741.

The great Homestake mine produced in the year 1901 $3,039, 232, and this was obtained from ore of no greater value than $5 per ton, yet from the proceeds secured this company pays in dividends 50 cents per share every month in the year.

Three car loads of mining machinery for Nogal mines arrived at Carrizozo this week.

The vast tracts of virgin timber in Lincoln county are sufficient to supply the local demand for such for years to come.

Latest geological surveys place the altitude of White Mountain at 14268 feet, this is the highest mountain in New Mexico.

The Free Gold Mining Company are waiting on a boiler for their mill to strive and be put in in place and hope to be ready to go to work by June 1.

W. A. McIver is expected home from the east in about two weeks. He will be accompanied by some mining investors who are coming to examine some property near Nogal.

A demand has sprung up for molybdenite, and inquiries are being made by a London, England firm as to the possible supply. Its great value can be appreciated when it is known that its selling price is $600 ton. As an electrode it ranks very high and is a good substitute for platinum in electrical work.

Big things are in store for the Bonito country in a mining way, which we will give to the public soon. The Eagle Mining and Development Co. will spend about one million of dollars in this section within the next two years. Their enterprise is the grandest undertaking in New Mexico and will be a success for it has the necessary capital and push to make it.

A New Telephone Line.

J. M. Rice general manager for the American Gold Mining company and the Eagle Mining and Development company, arrived home from Chicago Monday.

While in Chicago Mr. Rice purchased a complere telephone outfit for the mines. The line will be twentyfive miles in length, connecting with the telegraph station at Carrizozo, thence to Nogal, American mine, Parsons, Bonito City, Angus and Eagle, and perhaps a little later a line to Capitan. The line will be equipped with the latest improved Stowger Automatic telephone instruments.

Men will be put to work at once getting out the poles for the line, all of which will be White mountain spruce.

A big mining deal has just been closed on mining property in the last few days of which we hope to give particulars next week.

Every mining man in this section should subscribe for the El Paso Industrial Record and there by assist a good paper published in a good cause. The Record is a first class mining journal and it treats all sections alike.

It may not be generally known but it is nevertheless true that there are now a dozen mining companies operating in the Nogal and Bonito minig districts and some of them on a large scale.

W. M. Ferguson, general manager, D. Sanders, secretary and treasurer, of the Sunflower Copper Mining company, left Tuesday with men and supplies to begin work on their copper claims near Estes City.

The county has donated one hundred dollars and the Eagle Mining and Development Company will pay the balance for the construction of a wagon road from Parsons over the mountains to Nogal Canon. The road will be put on a grade and will be first class for hauling heavy loads.

T. F. Chapman and son, C. C Chapman, from Oakland, California, were here Friday and gave us a call. These gentlemen have charge of the oil drilling outfit now at work near White Oaks. Mr. Chapman confidently expects to strike oil at a depth of less than one thousand feet. The well is down now over one hundred feet.

Rev. Geo. Boyd of Capitan and Rev. Sells of Las Cruces are holding a revival meeting in Nogal this week.

A. E. Williams and wife came up from Las Cruces this week, where Arthur had been looking after some engineering work.

J. T. Price, manager for the Jackson-Galbraith Lumber Co. at Capitan was over Saturday looking after some mining interests in Tortalita Canon.

The book file now in the office of the probate clerk at Lincoln is a very neatly arranged affair as well as economical. The office is a credit to Mr. Analla, the clerk who has spent much time and money to systematically arrange it. The book case or file alone cost $534,10. The county records are all so arranged that it takes but a short time to find what formerly required days, and perhaps fruitless searching among a lot of debris.

LOCAL NEWS.

There is not a vacant house in Nogal.

The Nogal Public school will close may 16th.

District court will close one week from next Friday.

Andy Mayes and family came up from the Mal Pais to visit with Mrs. Moore this week

Mrs. Boone and mother, Mrs. Ermenger, were visiting with Mrs C. H. Brown, Friday.

Mrs. Annie Reed of White Oaks was visiting with Mrs. Woodland, Saturday and Sunday.

Charlie White of Parsons writes that it is a girl, arrived last week. By careful nursing he hopes to recover.

Fred Pingeton has been chosen foreman of the grand jury now in session at Lincoln. No better selection could have been made.

Miss Jessie Coe, daughter of J. N. Coe of the Ruidoso, is visiting with her sister, Mrs. C. H. Brown for a few days.

Geo. B. McIntosh, J. W. Salmon of Capitan and S. B. Vincent of Thurber, Texas, were here last Saturday.

Rev. R. P. Pope, of Alamogordo, the pioneer preacher of Southern New Mexico, and one of the most respected of ministers preached here last Saturday and Sunday.

A lawyer named Truth recently died in Kansas and here is what his friends had inscribed on his tombstone: Here lies Truth. God gave it to him but he used it not.

Two more miners were killed by a cavein at the Capitan coal mines last week. This thing is becoming quite common and should be thoroghly investigated.

The last grand jury found thre indictments against Henry Pfaff for violation of the Sunday law.

Fray Smith, son of Mr. and Mrs. Fred Smith of this place, has returned home from Mesilla Park where he has been attending college.

It's a long lane that don't turn, is an old adage which applies to the Nogal and Bonito mining districts. We have turned the corner and are coming down the home stretch with head up and colors flying. Watch our smoke!

A move is on foot to put in a telephone line from Parsons and Nogal to connect with the Postal Telegraph station at Carrizozo. The line is to come from Parsons by way of the American mine to Nogal and thence to Carrizozo.

A party of Nogal young men among them being Alvis Russel, J. O. Cochran, Bud Russel, Seph Brown and Ernest Henley were out serenading their sweethearts and other people saturday night. They were treated to wine and cake and a little side dash of hot water. The music was all right and so are the boys.

The following is a list of the grand jury at this term of the district court: Fred Pfingst a, foreman. G. L. Bradford, Robert Bourne, James Cooper, Leslie Ellis, W. C. Hyde, Andres Herera, John H. Philippe, A. N. Price, Frank J. Sager, E. T. Collier, Patricio Miranda, Macorio Chavez, Juan de La Garcia, Samuel Farmer, Leopold Gonzales. Up to Monday night twenty one indictments had been returned. The grand jury adjourned Tuesday.

Miss Lucilla Peters of Angus was visiting friends in Nogal Saturday.

Go to Welch & Titsworth, Capitan for Sheepshears, Marking Paint, Screen doors, Chicken Netting, etc. 3tf

O. C. Davis, a former resident of Nogal but now of Pine Ridge, Cal., will return about May 10, accompanied by Mrs Davis. They will reside here.

Owing to a burned bridge on the Rock Island near Santa Rosa, the trains have been late this week and Nogal was without mail two days.

Mrs. L. H. Rudisell of White Oaks was a guest of the Brown Hotel Friday. She was en route home from Angus where she had been visiting with Mrs. P. G. Peters.

T. B. Wilson, agent for O. C. Davis, last week sold the old O. K. restaurant building to Dr Davideon who will move here in a short time. This is probably the first transfer of Nogal town property made in ten years.

The good words of encouragement that are coming in for our little paper assist us very much. We want to make the THE REPUBLICAN the best paper is the county and with a little assistance from the public can do so. But a little cash mixed with the good cheer will help out an allmighty lot.

Last week Geo. Sligh was over at White Oaks and while there saved two little children from being devoured by wolves. As two little fellows were returning home from school at the noon hour they were attacked by two lobo wolves on one of the public streets of the town and would perhaps have been killed but for the timely arrival of Mr. Sligh, who succeeded in frightening the wolves away.

He was a beautiful domineque rooster plump and fat, and belonged to the well filled fowl yard of our neighbor, Geo. E. Sligh. We had fed and petted him long in order to have barbecued chicken the first picnic; but he has gone and busted our fondest desires—his clarion voice is no longer heard. He read in the REPUBLICAN that a protracted meeting would begin at Nogal on May 6th, and, being on the alert, mistook John Canning for a preacher and ran himself to death trying to get away. He was fooled (and so were we) but was on to his job.

Arthur E. Williams of Capitan has been appointed Deputy U. S. Mineral Surveyor for this district by Surveyor General Morgan O. Llwellyn. Mr. Williams is a graduate of the New Mexico A. and M. college at Las Cruces, graduating in the class of '97. For the past three years he has been with the Southwestern Mercantile Company, having had charge of their store at Carrizozo a part of the time, resigning the position as manager at that place to accept the appointment. Arthur is competent, active and energetic and will give satisfaction in his line of work of which there will be quite a lot of in this section.

To the people interested in church services—Owing to the meeting that is in progress at Nogal I will not fill my appointment at Bonito and Angus on the second Sunday, but will be there on the third Sunday.

Geo. M. Boyd, P. C.

LUMBER IS GOING:

To win a bet a Kansas man ate a box of axle grease. Now his wheels are greased.

Cecil Rhodes did pretty well with his $30,000,000, but wait till Russel Sage's will is read.

King Edward is going to work the press by knighting a lot of newspaper men at the coronation.

Boston papers, forgetful of John L. Sullivan, are now alluding to Dr. Hale as "Boston's Grand Old Man."

The New York man who prayed for strength to beat his wife evidently did not believe in faith without works.

If the meat trust shall succeed in getting control of the hennaries and truck patches, the country will be done for.

Emperor William has written a play. Not only this, but he has compelled the public to applaud and the critics to praise it.

It is doubtful, if under the law, adequate punishment can be given the man who spends his Sunday shooting song birds.

Susan B. Anthony is doubtless of opinion that the tour of Kubelik in this country has done the cause of female suffrage no good.

A San Francisco man named Dennis swallowed carbolic acid. There were no doubts as to the man's name by the time a doctor arrived.

The czar will probably be obliged to recall some of his troops from China to assist in subjugating the obstreperous Russian students.

Santos-Dumont enthusiastically says America is the greatest country on earth. Can he be foolish enough to believe that this is news to us?

To the Berlin charge about the paste diamonds worn at Prince Henry's ball at Chicago the Windy City retorts that, anyway, they were not Rhine stones.

It was the same old Fort Sumter that frowned down upon President Roosevelt at Charleston, but the times have changed since the days of the siege.

The czar has massed 10,000 fresh troops in China. The force will be inadequate, however, unless one Russian is equal to a full regiment of Chinamen.

The great powers of the world are not so much concerned for the territorial integrity of China as they are about the prompt payment of indemnity claims.

If the packing interests of the country continue to advance prices, the genius of man will have to be called upon to invent a substitute for sirloin and porterhouse.

While there is room for improvement in modern burial customs, the evening funeral is not likely to become what the society reporters would call "deservedly popular."

Future reception committees for royal visitors will do well to remember that after Prince Henry boarded the Deutschland, he slept almost continuously for forty-eight hours.

The press is an educator whose claims are beginning to be recognized. The superintendent of the public schools of Evanston, Ill., has advised children to read the newspapers.

If the charmed shirts that the Filipinos are wearing can go through an American steam laundry without fading or ripping it is high time Uncle Sam imported a lot for home use.

Mrs. Harry Payne Whitney says she finds that New York high society is silly. Mrs. Whitney is a young woman who doesn't regard the biggest string of pearls as the greatest thing on earth.

The New York World agrees that it is not a bad precedent that Boston sets for letting a good man know how warmly his work has been appreciated while he is still living to enjoy the compliment.

King Edward, it is announced, will give a dinner to half a million poor persons in London as a feature of the celebration following his coronation. After the parade and the rejoicings are over it might be well for the king to give serious consideration, if he is capable of it, to the question why there are 500,000 persons in London so poor as to be glad of a dinner from the royal bounty.

After all, there may have been a little affectation in Dr. Reginald's strenuous objection to being called the author of "Ben Bolt." The poet Kemy professed to think lightly of his immortal "Song." But Gen. Webb said, just before he fell on the Plains of Abraham, "I would rather have written that poem than capture Quebec."

King Alfonso is reported to be [illegible] of King Edward. Yet this [illegible] Americans by [illegible] the young lad [illegible] as A. E. ever [illegible]

IMPURE BAKING POWDER SEIZED

The New York Board of Health Find It Containing Alum and Rock, Declares It Dangerous to Health and Dumps It Into the River.

The New York papers report that the Health Department of that city has seized as dangerous to health nearly two tons of cheap mixtures sold for baking powder and dumped them into the offal scow to be destroyed. More of the powder was found in a Sixth ave. department store. The report of the analysis of the Health Department stated that it was "an alum baking powder" containing alum and pulverized rock.

The different Health Authorities seem to have different ways of repressing the sale of bad baking powders. In England they have prosecuted the grocers under the general law and broken up the traffic. In Missouri the sale of alum baking powder is actually prohibited by law. In New York they seize the unwholesome stuff and cast it into the river without any discussion. The latter way is certainly effective.

The alum baking powders are usually offered at a low price, ten to twenty cents a pound, or with some prize, as a temptation to the housewife.

Consumers can protect themselves by buying only high-grade baking powder of established name and reputation. Do not be tempted by the grocer to take something else as "just as good" or "our own brand," for the trials show that the grocer himself is often deceived by unscrupulous makers, and is selling an alum powder without knowing it.

There are several good powders on the market; let the housekeeper insist on having what she knows is right, and not be induced to risk the life of the family for an imaginary saving of a few cents.

Hard on New England Cats.

The Paris Journal reassures the women of the French capital that their pet cats are not in danger of the furrier, as Massachusetts promises to supply the trade in that line. "In that Yankee state," says the Journal, "it has been decided to enact a law imposing an annual tax of 50 cents on every cat. The cats whose owners fail to pay will be taken up and turned over to the furrier. Their release cannot be obtained without the payment of a forfeit of $1."

Wanted an Easter Bonnet.

A Brooklyn woman endeavored to have her husband arrested for non-support, the special charge being that he had refused to buy her a $4.98 Easter hat and that she had not had a new one since the previous Easter. On learning that her husband's income was $8 per week, the magistrate advised her to make the best of the situation. He said he had seen bonnets in shop windows nice enough for a poor woman at $1.98.

Noises Which Attract Snakes.

It is a curious fact that there are certain kinds of noises which attract snakes. For instance, the whirr of the mowing machine, instead of scaring these reptiles, as might be supposed, seems both to allure and enrage them, and they almost invariably dart toward it, rearing themselves in front of the machine, which, of course, promptly chops off their heads. In six months as many as 120 cobras alone have been slaughtered on one grass farm in India.

First Real Negro Minstrels.

Sam Hague, who first introduced real negroes as minstrels in Europe, died a short time ago in England. While running a saloon in Syracuse, N. Y., some thirty-five years ago he conceived the idea of taking a company of darkies abroad. He did so and "Hague's slave troupe" made a tremendous hit. Hague became wealthy but was worth little or nothing at the time of his death.

Rich Man and Expert Theologian.

It may not be generally known that Amzi Lorenzo Barber, notwithstanding the $36,000,000 made in asphalt in the last nineteen years, is one of the most expert secular theologians of the age. As professor of philosophy in Howard university he seemed as far from manufacturing streets to order as if he had been nourished on manna in the wilderness of Hepsidam and did not know that Pitch Lake existed.

A Postmaster's Discovery.

Lancaster, N. Y., April 21st.—Mr John Reuers, postmaster of this village, was taken with Diabetes four years ago. For two years he doctored with local physicians as well as several specialists from Buffalo, but got no better. Indeed he was gradually growing worse.

He stopped taking the doctors' medicine and commenced a treatment of Dodd's Kidney Pills. He used in all about ten boxes and is as strong and well to-day as ever he was.

He attributes his recovery to nothing but Dodd's Kidney Pills, and says:

"If I could only talk five minutes to every one who has Diabetes I am sure I could convince them that they need not suffer a moment longer when Dodd's Kidney Pills are on sale in every drug store.

"I will cheerfully answer any letters from sick men or women, as I think every Diabetes sufferer should be told of Dodd's Kidney Pills, the remedy that saved my life."

Swindlers Most Inventive.

ALTON RESUMES FAST ST. LOUIS TRAIN SERVICE.

Passengers destined to St. Louis and points east should go via the Kansas City gateway, thereby securing the advantage of the Chicago & Alton's fast night train, leaving Kansas City at 7 p. m., arriving in St. Louis at 7:05 a. m. Chair cars free of extra charge. Compartment sleeping cars. The Alton keeps their light a-shining just ahead of the rest. Write to L. D. Cooper, Traveling Passenger Agent, Chicago & Alton Railway, Kansas City, Mo., for lowest rates.

The Kansas City Southern railway has now inaugurated for the season its new through service from Kansas City to Hot Springs via Belleaw and the St. L. I. M. & S. Ry. Through Pullman sleeping cars run direct between Kansas City and the great Health Resort via Little Rock.

This is the only company offering its patrons such service, and judging from the liberal patronage given last year, there is every reason to believe that this service is highly appreciated and what the public desires.

For rates and other information, write S. G. Warner, G. P. A., Kansas City Southern Railway, Kansas City, Mo.

When unseasoned love develops into affectionate companionship it becomes quite durable.

To the housewife who has not yet become acquainted with the new things of everyday use in the market and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to any other brand, but because each 10c package contains 16 ozs., while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

It's the privilege of a woman's best friend to abuse her other friends to her.

Spring Fever is simply "that tired feeling," a lassitude caused by a sluggish condition of the blood. The liver and bowels need a cleaning out in the Spring and nothing is so effective and at the same time so pleasant to take as Dr. Caldwell's Syrup Pepsin, which is sold by all druggists.

Man is known by the company he keeps and woman is known by her husband's folks.

Try me just once and I am sure to come again. Defiance Starch.

Impoverished Blood,

Whether due to inheritance or caused by a depleted condition of the system, is the cause of much agony.

Vogeler's Curative Compound, when taken for this trouble is a means of salvation. It creates new fresh tissues and pure red blood corpuscles and by giving strength and tone to the great vital energies of the body, it enables them to perform their natural functions. The reader should not lose sight of the fact that Vogeler's Curative Compound is made from the formula of one of the most eminent physicians.

Send at once to St. Jacobs Oil, Ltd., Baltimore, for a free sample bottle.

Miss Mary Silverley, 26 Court, Gosport Street, Coventry, writes:—"Several years ago I met with an accident through a fall, fracturing my hand so badly that I was unable to use the same for five weeks. I tried everything I knew of but did not receive any benefit. Finally, as a last resource, I applied St. Jacobs Oil and after using the first bottle I could move my fingers, after the second bottle I could open my hand and finally I regained the use of my hand and all pain left me. It was only by the use of St. Jacobs Oil that I am now able to follow my employment."

CHANUTE, KANSAS.

IS ALL AFFECTED

PRACTICALLY THE ENTIRE COUNTRY IN NEED OF RAIN.

THE SEASON IS VERY BACKWARD

Winter Wheat Has Lost Ground During the Past Few Weeks—Corn Acreage Be Unusually Large Throughout the Central States—Cold Follows Heat.

WASHINGTON, D. C.—(Special.) The weather bureau's weekly summary of crop conditions is as follows:

The past week was warmer than the average in the Pacific Coast and Rocky Mountain regions, in the Missouri valley and the northern districts to the eastward; it was too cool in the Middle Atlantic and Southern states and decidedly dry over the greater part of the central valleys and Middle Atlantic states. Rain is badly needed throughout the Rocky Mountain districts and Central valleys, and would prove beneficial in the Middle Atlantic states, while excessive moisture hindered farm work in portions of the Central Gulf states. The latter part of the week was marked by abnormally high temperatures in Kansas and Nebraska, intensifying the drouth conditions in those states. The general weather conditions, although not conducive to rapid advance of vegetation, were very favorable to farming operations in nearly all parts of the country.

The progress of corn planting has been rather slow, except in Missouri and the Southern states, this work being about finished in the Central and West Gulf districts. A large acreage of ground is prepared for planting in the states of the Central valleys and some planting has been done in Southern Illinois, but none elsewhere northward of the Ohio. The early planted is coming up in Southern Kansas, where cultivation has begun.

Winter wheat has continued to make slo wgrowth and on the whole is in less promising condition in the principal winter wheat states of the central valleys than at the close of the previous week. Moisture and milder temperatures are generally needed for this crop throughout these districts and also in the Middle Atlantic states. The outlook in California continues promising and the crop has experienced improvement on the North Pacific coast.

The germination of early sown spring wheat over the southern portion of the spring wheat region has been slow and reeding has been retarded by freezing in North Dakota. The Red river valley lands in Minnesota are drying nicely and seeding began on the 10th. Some re-seeding will be necessary in Minnesota as a result of the dust storm of April 10 and 11. Seeding has progressed favorably on the North acific coast.

In the Missouri and Central Mississippi valley states oats are making slow growth and are much in need of rain and warm weather. In the Southern states a very general improvement is indicated. Seeding is well advanced in the Northern districts, excepting New England and the northern portion of the Middle Atlantic states.

Very good progress has been made in cotton planting, except in portions of Tennessee, the Carolinas and Florida, and planting is nearing completion over the southern portion of the cotton belt. Over most of Texas cotton is up to satisfactory stands and plowing and chopping are well under way.

In Maryland and Tennessee tobacco plants are doing well, but in Virginia, the Carolinas and Kentucky they are small and in places irregular. Some transplanting has been done in South Carolina. The general outlook for fruit, except for peaches, in portions of the Ohio and Central Mississippi valleys, continues promising, no injury having resulted from the frost in the districts east of the Rocky mountains.

Grass is very backward generally throughout the Central valleys and is in need of warmth and moisture.

For Cruelty to Animals.

DENVER, COL.—(Special.) Frank Cheatly, John S. aBrbaro, David Mecont and Charles McParlin, promoters of the rabbit coursing meet held at Union Park, in this city, on March 2, were found guilty of cruelty to animals by a jury in the criminal court. A motion for a new trial was entered and sentence was deferred. The complaint on which the prosecution was based was made by the Humane Society.

WASHINGTON.—(Special.) Major Octavius L. Pruden, one of the assistant secretaries of the president, died from an affection of the heart, aged 60. Major Pruden occupied a confidential position at the White House for many years.

After Richardson Life Insurance.

ST. JOSEPH.—(Special.) Suit has been filed by Addie E. Richardson against the Royal Court, seeking to collect $5,000 on a policy of life insurance held by Frank W. Richardson at the time of his death. Richardson, it will be remembered, was murdered by three negroes. The Royal Court was [illegible]

WORKED AN AIR SHIP GRAFT.

Inventor of a Flying Machine Arrested for Gulling the Public.

BERLIN.—(Special.) Herman Gans Windt, whose so-called flying machine has attracted wide attention here and abroad has been arrested for protracted deception and forgery and gulling the public into subscribing for shares of an aeroplane company. He obtained money in small sums from hundreds of persons. Gans Windt recently flooded the papers here with immense advertisements of flying machines containing the indorsements of clergymen and other persons inexperienced in business from all parts of Germany. It transpires that some of the names were forged, including the name Duke Ernest Guenther, of Schleswig-Holstein, Emperor William's brother-in-law. The police had long suspected Gans Windt, and detectives had been working on the case for five months. He recently offered to the war minister, for 20,000,000 marks, a flying machine which he said would reach the planet Mars. The prisoner also claimed to have invented a motor, having multiplying power, resulting in a sort of perpetual motion.

Gans Windt, who was originally a lawyer and then a farmer, had been experimenting for ten years with various visionary inventions, none of which practically realized his expectations.

ONE DEAD, THREE WOUNDED.

In a Fight Over Land, Indian Territory Farmers Used Their Guns.

MUSKOGEE, I. T.—(Special). One man dead, two mortally wounded, one seriously wounded and two men in jail at this place, are the result of a quarrel over land four miles north of Collinsville.

O. S. Skidmore is an intermarried citizen, farmer and cattle raiser. Ed Phillips, Joe Heady, M. J. Pace and John Pace are renters of Skidmore, and Will Mayfield is a cowboy in Skidmore's employ. Skidmore lives at Colagah and has had trouble with Phillips. Skidmore, the two Paces and Mayfield lay in wait for Phillips and Heady. When the men appeared the Skidmore crowd opened fire. In the ensuing battle Ed Phillips was immediately killed; Heady and Mayfield were mortally wounded and Skidmore was seriously wounded. The Paces were captured and brought here. Late reports say all the three wounded men will die.

Skidmore has an immense tract of land near Colagah and Phillips had leased it from another citizen who claims to have selected it as his "reasonable share."

FOR MURDER DONE IN 1874.

James Noonan, of Helena, Mont., Arrested for a Crime 26 Years Old.

HELENA, MONT.—(Special.) James Noonan, who has lived in Helena fifteen or twenty years has been arrested on the charge of having committed a murder in Preston township, Fillmore county, Minn. It is charged that Noonan, whose name in Minnesota was Patrick Noonan, killed John Skinner in Preston township, October 18, 1874, and fled. The authorities had given up ever finding the murdered until recently, when there arrived in Preston a man from Minnesota, a former resident of the township, who had been working here. He told of having met a man by the name of Noonan who corresponded in appearance with the Patrick Noonan who killed Skinner. The grand jury met soon afterward and the man from Montana was called before the jury. An indictment was returned charging murder in the first degree.

Noonan is about 57 years of age and is well known.

Noonan denies his guilt and says a mistake has been made.

THREE BROTHERS MUST DIE.

To be Electrocuted for the Murder of Their Uncle.

HUDSON, N. Y.—(Special.) The jury in the case of Burton, Willis and Frederick Vanwormer, charged with the murder of their uncle, Peter A. Hallenbeck, returned a verdict of murder in the first degree against all three of the accused.

The prisoners were sentenced to be electrocuted at Clinton prison, Dannemora, during the week beginning May), next. The case will be carried to the court of appeals, notice of which will act as a stay of execution.

The crime was committed last Christmas eve. Early in the evening of that day the three brothers and Harvey Bruce, their cousin, who is also under indictment for participation in the murder, drove to Hallenbeck's home at Greenport, Columbia county. The young men wore false faces, and also wore their coats turned inside out. Hallenbeck, who was a very old man opened the door in response to their knocking and, as he did so, they fired upon him, inflicting wounds of which he died in a short time. At their trial, which lasted about two weeks, the accused men declared they went to Hallenbecks house merely for the purpose of frightening him, with no thought of injuring him. Bruce, who secured a separate trial, testified against the brothers.

Found Evidence of Crime.

DENVER.—(Special.) The body of Albert Gabris, a member of the Colorado legislature, whose death in January last was declared by a prominent physician who analyzed the contents of his stomach to have been from accidental poisoning, has been exhumed by Coroner Harsen. The will hold an inquest. Chief of Police Armstrong said that he has evidence upon which arrests will be made as soon as the coroner's report is made. Additional [illegible]

A SENATOR'S LITTLE JOKE.

Senator Hoar received word the other day that a friend who had been supposed to have appendicitis was suffering not from that ailment, but from acute indigestion. "That is good news," said the senator. "I rejoice that the trouble lies in the table of contents rather than in the appendix." Dr. Caldwell's Syrup Pepsin cures indigestion and constipation. All druggists.

This would be a far more desirable world to live in were it not for the fact that too many people are always doing their best to do their worst.

Do Your Feet Ache and Burn?

Shake into your shoes, Allen's Foot-Ease, a powder for the feet. It makes tight or New Shoes feel Easy. Cures Corns, Bunions, Swollen, Hot and Sweating Feet. At all Druggists and Shoe Stores, 25c. Sample sent FREE. Address Allen S. Olmsted, LeRoy, N. Y.

Necessity is not the only mother of invention but the divorced wife of plenty.

YELLOW CLOTHES ARE UNSIGHTLY.

Keep them white with Red Cross Ball Blue. All grocers sell large 2 oz. package, 5 cents.

If there is anything worse than the man who whistles it is the woman who tries to.

Piso's Cure is the best medicine we ever used for all affections of the throat and lungs.—Wm. O. Endsley, Vanburen, Ind., Feb. 10, 1900.

A man loses lots of money experimenting with schemes to make money without work.

Superior quality and extra quantity must win. This is why Defiance Starch is taking the place of all others.

Bloobs—"Miss Oldgirl actually cried when I kissed her." Slobbs—"Cried for more, I suppose."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

Every sensible man always makes his wife an allowance so he can have some one to borrow from and not pay back.

THE SURGEON'S KNIFE

Mrs. Eckis Stevenson of Salt Lake City Tells How Operations For Ovarian Troubles May Be Avoided.

"DEAR MRS. PINKHAM:—I suffered with inflammation of the ovaries and womb for over six years, enduring aches and pains which none can dream of but those who have had the same experience. Hundreds of dollars went to the doctor and the druggist. I was simply a walking medicine chest and a physical wreck. My sister residing in Ohio wrote me that she had been cured of womb trouble by using Lydia E. Pinkham's Vegetable Compound, and advised me to try it. I then discontinued all other medicines and gave your Vegetable Compound a thorough trial. Within four weeks nearly all pain had left me; I rarely had headaches, and my nerves were in a much better condition, and I was cured in three months, and thus avoided a terrible surgical operation."—MRS. ECKIS STEVENSON, 250 So. State St., Salt Lake City, Utah.—$5000 forfeit if above testimonial is not genuine.

MRS. ECKIS STEVENSON.

Remember every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass.

C. H. BROWN, BUSINESS MANAGER.

Announcement.

FOR PROBATE CLERK.

We are authorized to announce the name of L. L. ANALLA for re-nomination to the office of Probate Clerk of Lincoln County, subject to the choice of the Republican County Convention.

Providence has done more for Lincoln county than for any other section of New Mexico. Here is natures storehouse of precious metals. A farming and fruit country unequalled; a stock county unexcelled; a climate that is incomparable and scenery that outrivals the fabled Alps of Switzerland.

J. W. Whitesides, a furniture and hardware dealer of Capitan, has announced as a candidate for the democratic nomination for sheriff. P. W. Thompson, a saloon keeper of North Capitan has done likewise

Lincoln county is the most healthful climate in the southwest for the cure of consumption; at least so says the United States government authorites. After looking over the entire county they located the U. S Marine Hospital for the care of consumptives at Ft. Stanton near the geographical center of Lincoln county.

The names of John H Canning, of White Oaks, and W Q Fawcett, of Capitan, are mentioned as being two of the most acceptable men for the Republicans to nominate for county commissioners from the second and third districts. Both Mr Canning and Mr Fawcett are good business men, thoroughly competent and honest, and no better men could be named.

In this issue will be found the announcement of Mr I. L. Analla for the office of Probate Clerk subject to the will of the Republican county convention. Mr. Analla is our present probate clerk and that he is a most competent and obliging official can not be truthfully contradicted. He keeps his office neat and well arranged, and is ever ready to furnish information from his office. Mr. Analla has filled the office with credit to himself and his constituents and deserves to be re-elected.

Whenever you hear a representative of one party boosting a candidate of the opposing party for an office you may put it down as a piece of political strategy. A Democrat or a Republican either as for that matter is interested in seeing the weakest man nominated on the opposing ticket and will always be found working and talking accordingly. —Capitan Progress.

We will take it for granted that the Progress has reference to our article concerning the candidacy of Mr. John Owens. We said that if we must have a Democrat for sheriff, give us Mr. Owens; that he was active and made a good officer, but he being a Democrat we could not support him if he should be nominated. If that is what the Progress terms "political strategy," well and good. It is so seldom that a Republican newspaper can honestly endorse a Democratic candidate that we were not going to miss what might prove to be the only opportunity of a lifetime.

The Progress man appears to be jealous of something. The editor need not worry. There are too many Republicans in the county who will vote at the coming election to suppose that a single Democratic candidate will be elected.

If the Progress man's theory hold good, there is one man who has announced himself as a candidate in the columns of that paper who we would laud sky-high; he's a Democrat, too, and an allmighty sorry one at that.

Now we trust that the Progress will not construe this last statement as a "piece of political startegy."
