Democratic Ticket.

Lincoln, Chaves, Eddy and Eddy Counties.

For Commission, A. A. RICHARDSON, of Roswell.

For Representative, W. C. McDONALD, of White Oaks.

CHAVES COUNTY TICKET.

For Commissioners, E. T. BYRNE, A. E. ALLEN, WALTER P. CHISUM.

For Sheriff, C. C. FOUNTAIN.

For Treasurer, JAMES SUTHERLAND.

For Assessor, C. B. MCGARTY.

For Sup't. of Schools, JAMES W. MULLENB.

For Probate Clerk, PHANK H. LEA.

For Probate Judge, F. WILLIAMS.

For Coroner, T. A. MCKINNEY.

To the Directors of the Pecos Valley E. N. Greeting

GENTLEMEN: The Executive would like to respectfully suggest a few things for your consideration...

In the first place we wish to call your attention to the fact that Lincoln county, and particularly the country adjacent to White Oaks, has vast resources of wealth...

This section cannot possibly awaken from its lethargy until railroad connection is had with the outside world.

Few people outside of the best posted inhabitants of this section realize what grand resources are here, nor do they now dream what a grand future lies before them.

Here are vast bodies of the finest coal, great forests of magnificent timber, millions of tons of all kinds of low-grade ores, grand quarries of beautiful marble and almost every variety of choice building stone.

But all of these grand resources are practically worthless without the long-looked-for and long-delayed railroad connection.

Do you see the point? Surely you do, and if you reflect, you will certainly come to the conclusion that now is your grand opportunity.

But we are not done. There are other considerations. It is a conceded fact that the immense bodies of low-grade ores already discovered in the White Oaks, Nogal, Boyito, Jarrilla and Gallina districts cannot be successfully reduced or smelted at home.

Why? Because they have not at hand sufficient quantities of the proper fluxing material.

Because they have not a sufficient and permanent water supply.

Because they cannot procure the necessary labor with which to profitably do the work.

But however, here all the necessary qualifications to enable us to consider this as a proper point for the location of the smelting plants for the millions of tons of ores from the mountainous country.

Why? Because the easy grade would allow the ores to be delivered at the Roswell smelters in long trains at the lowest possible expenditure of engine power.

The fueling could be brought here easily and cheaply from Old Mexico and from Northern New Mexico.

There is an unlimited and inexhaustible water supply.

Here is a fine climate, and here labor will be cheap, because the laborer will be enabled to live cheaper than anywhere else in the territory.

You can readily see what an immense amount of business would thus be developed for your road if you should complete to build through Lincoln county from Roswell.

There are other points: With railroad connection completed the White Oaks and Lincoln country would enjoy the benefits of mines and industries in developing its coal, silver, gold, copper, lead and iron mines, its timber resources, its beautiful scenery and its fertile soil.

When you see the best supplies for these things come from?

From the Pecos Valley, where the best supplies must be obtained in preparing these supplies, which cannot be produced near the mines.

The Great Pecos Valley, as you know, has a grand future in store for it. It is almost a paradise of a food and timber supply.

These supplies you can furnish us very cheap if you build your road through Lincoln county.

this than it would to build over the plains to Albuquerque direct. But there are millions of dollars waiting for you if you do build through Lincoln county, and the extra cost of building will be more than repaid to you in the first year after the road is completed.

In a letter received this week by Mr. Scott Truxtun from A. A. Mermod, of Eddy, he said that the latest advices from Washington were to the effect that land matters concerning the Pecos Valley have been satisfactorily arranged. This is significant of unbounded prosperity for the Pecos Valley as well as the entire territory.

ADDITIONAL LOCALS.

John Campbell, the surveyor, has returned from Las Vegas.

G. W. Donaldson came down from the mountains Tuesday to attend the barbecue.

Rev. Mr. Mid Hill, a Missionary Baptist minister from Eddy was here with Mr. Milligan this week.

A telegraph line will not be built to Eddy until the Western Union is convinced that the line will pay.

Mr. Chris Wilson is under the weather this week from a severe cold. Hope to see him around again soon.

Wm. Brooks, who had his leg broken about two weeks ago, is improving rapidly and expected to be out again in a few days.

Miss Louise Truxtun entertained her many little friends in Roswell at the M. E. church last Wednesday. Refreshments were served and the children had a general good time.

Regarding The Pecos Valley.

The following is an extract from a letter written by Mr. C. L. Hubbs to the White Oaks Leader:

My mission to the new county to the south of Lincoln, Chaves, was not to view the country but to institute a lodge of Odd Fellows, the best organization without politics or creed this side of H— My mission was consummated and the new lodge, Samaritan, No. 12, composed of the best brains and the best morals among the "male" population of promising Roswell. I use the word "male" advisedly. I had the pleasure of making a meeting of the "superior" halves of some of the aforesaid "best brains and best morals" of that town after having kept the "worse" halves caged in the lodge room till 5 o'clock in the morning, and do not propose a second time to place my earthly existence in jeopardy.

What have you people of Lincoln County, and now of Chaves been thinking of these many years that you have not enlightened the world relative to the magnificent Valley of the Pecos? Right there in the southern central portion of this Territory, without the curve of a rail, or a road, laid grant within a half hundred miles, lies not only the richest but one susceptible of being made the richest and most productive valleys in the west.

I have some acquaintance with the surface features and resources of several of the States, and I speak advisedly when I say that Kansas, Nebraska or the States of the North do not contain within their borders a valley so uniformly level, so rich in its possibilities and so extensive in acreage as that of the lower Pecos. When you have a valley, in broken width from seven to thirty miles, so nearly level that the incline cannot be detected by the unaided eye, only awaiting the water from the great canal just completed, and the hand of the thrifty farmer to make of it a veritable garden. Yet it has not been advertised. The world knows not of it.

There is hope for the future of Roswell, the county-seat of the new county of Chaves. It's people have no word of disparagement for any other town or city, and they are a unit in their good words and their good acts in behalf of their handsome little village.

People must not go there, however, expecting to find the town lighted by electricity, its streets encumbered with cable roads or water works, or "beer" works. They have not these as yet, but they have room for and will have them in reasonable time—they have the country surrounding to make and support a city capable of these things.

The people of Roswell have the intelligence to know that a word of disparagement of any other town in the Territory is a word against themselves, and believe that a good word for others is a credit of fifty per cent in their behalf. Other towns might profitably profit by their example. Will they?

Awake, ye sons of Lincoln, of Chaves and of Eddy counties, and herald to the world your manifold resources of mines of gold, silver, coal and copper, of your vast and unequalled cattle ranges, and your great extent of rich, level agricultural and horticultural lands, open to settlement under the magnificent liberal public land laws of the government, and you are assured of a prosperous future.

Let us PATRIOTS interested in the New Land Office and awaiting Disposition.
