WHY WOULD YOU QUIT THE PHILIPPINES?

I have written a letter to Mr. Washington, asking him to inform the President of the United States of the facts and the necessity of the Philippines being governed by a civil government.

The idea of conferring American citizenship upon the Pines is impossible. The people of the Philippines are not satisfied with the independence of the United States, and have indicated their desire to remain under the control of the United States.

The official record shows that we are making progress, and our Consul General in the Philippines is doing a good work. He has a large staff, but has no authority to influence the policy of the government.
