THE CORPORATION TAX LAW UNCONSTITUTIONAL.

The Framers of the Law Understood Their Job and Made Ample Provision For The Continental Oil Company.

The Las Vegas Opio of Sept. second contains the following concerning Mr. Wilson's prosecution, acquittal, &c.

The decision of the territorial supreme court in the habeas corpus proceedings instituted on behalf of B. G. Wilson, manager in New Mexico for the Continental Oil Company, is less sweeping than the Opio has been led to believe. Wilson, it will be remembered, was placed under arrest by order of Judge Crumpacker of Albuquerque for refusing to comply with the law passed by the last legislature, requiring all corporations doing business in the territory to take out a license.

The supreme court, the Albuquerque Citizen says, decided that the law was unconstitutional to the extent that it referred to the case under consideration and therefore ordered the discharge of Mr. Wilson from Sheriff Huppell's custody.

Continuing the Citizen says: It appears that Solicitor General E. L. Bartlett, who represented the territorial commerce commission, and Hon. Neil B. Field, the attorney for the prisoner, entered into a stipulation, the effect of which was that the prosecution conceded that the Continental Oil company produced no oil in New Mexico, but imported its entire supply and disposed of it here in the original packages.

The United States supreme court held in the whisky cases, from the prohibition states of Kansas and Iowa, that states cannot interfere with the shipment of goods from one state to another, so long as the goods remain in original packages. In the face of the above stipulation, the court could not very well have done otherwise than declare the law, in so far as it related to the oil trust unconstitutional.

The constitutionality of that portion of the law, which relates to corporations who did not dispose of their goods in the original packages, imported from another state, was not passed upon and will be "good law" until another adverse and more sweeping decision is handed down by the court. A comment might be made on

the last quoted sentence to the effect that it is hardly probable that the territorial supreme court will hand down a "more sweeping decision." Should it do so, however, it cannot base such decision upon the precedents established in Kansas and Iowa. Those who passed the New Mexico law evidently understood their job and made it wide enough for the Continental Oil company to drive through.

General Otis has become a victim of melancholy and insomnia. His physicians have advised him not to read his home papers. The General, it seems, cannot understand what he has done to merit the reprimand given him by the press of his ungrateful country. That is just the situation with the newspapers, it is not what Otis has done that has caused the trouble, it is what he has left undone, and there will likely be other victims of melancholy and insomnia whose walks of life are around Washington, should Otis be retained in command of our army in the Philippine Islands.

FENCEOLOGY.

An exchange furnishes the following little story, which points a very clear moral: Said a local merchant the other day: "Have you noticed the fine advertisements I have on the fence out west of town?" "No," replied the customer, "but if you'll send the fence around to my house I will read it over and see what you are dealing in. Fact is, I'm reading newspapers and don't get much time, to study fenceology."

Trusts have raised the price of hard coal 25 cents a ton. When the thermometer registers at 20 degrees below this winter the consumer will understand how the trusts benefit the people, and when the next presidential election rolls around he will vote for McKinley and trusts.

A special feature of the Dallas Fair is a proposed democratic carnival and a dollar dinner, the proceeds of which are to go to the democratic campaign fund for 1900. W. J. Bryan and many other prominent democrats are to be heard at the carnival.

The state democratic convention of Ohio nominated John R. McLean for governor and declared for silver and against imperialism. The convention adjourned on the 30th, ult.

A Word to Mothers.

Mothers of children affected with croup or a severe cold need not hesitate to administer Chamberlain's Cough Remedy. It contains no opiate nor narcotic in any form and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise it has received throughout the United States and in many foreign lands. A WONDERFUL CURE OF DIARRHOEA.

A PROMINENT VIRGINIA EDITOR Had Almost Given Up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

READ HIS EDITORIAL.

From the Times, Hillsville, Va.
I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and also some testimonials stating how some wonderful cures had been brought by this remedy, I decided to try it. Attacking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to day and feel as well as I ever did in my life.

The Yaqui outbreak in northern Mexico is proving to be much more stubborn than was at first anticipated by the Mexican government. Several lively engagements have been reported and Mexican soldiers have suffered heavily, and it is now thought Yaqui subjugation will occupy much time and expense on the part of that government.

Official Paper of Lincoln County

Tom Ketchum, the real simon pure Black Jack, who has for several weeks been languishing a prisoner in the territorial penitentiary, suffering from the effects of a shot-gun wound in the arm, has had the arm amputated and is said to be rapidly recovering.

There are three applicants for the position of sheriff of Otero county to take the place of George Curry, who resigned in order to accept a lieutenancy in the 11th regiment of Volunteers for service in the Philippine Islands. The candidates are: Riley Baker, George Richardson and Ben Webster.

Oliver Leo and James Gilliland have received notice from Judge Parker that their case charging them with the killing of sheriff Korney at the Wildy Well fight, will not be tried at this term of court now in session at Silver City. The reasons given by the court for this action are that there are a great number of cases which have been standing on the docket which have been carried over from one court to another and cannot well be put off to another term.

FREIGHT RATES.
 Freight rates on the E. P. and N. E. are so high that the majority of business men in this county are compelled to ship via San Antonio which is a hundred mile haul by wagon. A very small percentage of freight is shipped over the Northeastern except that which comes from El Paso. The White Oaks country should have rates which would enable them to ship over the E. P. and N. E. and be relieved of ordering thirty days ahead all the time in order to keep certain lines of merchandise in stock. When will we get it?

The Dreyfus Court Martial is ended, and the decree of the court is ten years imprisonment. Again Dreyfus has been declared guilty of complicity in a machination to convey secret documents to the German government. All England and America think Dreyfus innocent. And guilty or innocent he has been tried according to the customs of the courts of his country and presumably by his peers; and if he is innocent it is the fault of his country and not his own; if he is guilty his sentence is not too severe. Dreyfus has already been confined to solitary imprisonment for five years which in France is equal to ten years of ordinary imprisonment and it is thought that he will soon be released, but unless he is pardoned in the meantime by the president of the republic it is probable that he will be compelled to suffer a second degradation.

Jicarilla Items.
 Jicarilla, Sept. 10, 1899.
 Correspondence.
 The Jics. are on a boom. There is quite a change here since my last.
 Geo. Tomkins and wife and son with a Mr. Rice have returned to the camp, and I understand Mr. T. is going to do some work.
 Mr. Dubs of Nueva Casas Grandes, Mexico, visited the camp last Saturday for the purpose of securing ore for the smelter which he represents.
 The work on E. H. Talbot's claim is progressing very nicely.
 There is now quite a lot of work being done in this camp. W. S. Peters and A. N. Price visited here two days last week, looking over their property with expectation of doing some development work this winter.
 It is rumored that there will be ore shipped from the Jack Mountains in the near future.
 Mr. Sanders is sinking for water in the Zulu Gulch with fair prospects of finding same, and hopes to supply the camp with a good quantity of that liquid.
 Mr. Johnson, of Eagle Creek, was in the camp two days this week with a petition for a pardon for Hightower, which was signed by most all of the people of the camp.
 E. L. Ozampo is doing his annual assessment on the Star in Warner gulch.
 Joe. Ross and family are again in the camp from Colorado springs.
 Mr. Phillips leaves Sunday for Roswell with his niece and nephew, the one to join her husband in Denver, the other to go to school.
 We have had a fine rain out here for two days which assures winter feed, and water for stock; everything is looking fine.

Prevented A Tragedy.
 Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles free at M. G. Paden's Drug store.

Miss Lulu McDonald of Burnet, Texas, left yesterday for home where she will resume her labors as teacher in the Burnet high school, October 1st. A Chicago Syndicate Sending Prospectors to New Mexico.

Ward Vandervort Will Direct Their Operations and Will Prospect the Blossburg Gold Mining Region and the White Oaks Country—Going to the Oscuras for Copper.

The EAGLE is in receipt of a mining publication, published in Chicago, The Mining Advocate, in which Ward Vandervort is given much prominence as a mining expert in the employ of a Chicago Syndicate. Mr. Vandervort is employed by this syndicate to direct a corps of prospectors into New Mexico. They will go to the Blossburg gold mining region and when they have finished there will proceed to this place where they prospect for gold, and from here they will go to the Oscura country for copper.

Mr. Vandervort is well known here, having been in the employ of the Old Abe Mining Company for several years, and is unquestionable in possession of the necessary information to successfully prospect this section of New Mexico for any class of mineral to be found here. He is a brother of Jesse Vandervort and Mrs. L. W. Stewart of this place and has many friends here, who with them, will be pleased to learn that he intends to return to White Oaks.

Contracts have been entered into with Vandervort by this syndicate for one year, the greater portion of which is to be spent in the White Oaks country, or at White Oaks and in the Oscura copper region. Should this enterprise meet with satisfactory results, as it is almost sure to do, it will be of incalculable benefit to the development of the mineral resources of the country, and such enterprises should have the greatest encouragement from our people.

The Oscura country which was prospected during the gold excitement here in the 80s, was not thought of as a copper mining region. Although copper was then found in many places, it had no value in the market, and rail road transportation, which is indispensable in the development of a copper region, was so far distant that the rich copper leads opened by the prospector for gold, were passed over as valueless and in many instances forgotten before copper began to take a rise in the metal market. Within the last few months, however, with rail road transportation so near the Oscuras as a copper mining district. Many rich claims have been located and assays running as high as 70 per cent copper and \$1 to the ton gold with traces of silver and lead have been obtained.

These reports have reached the outside and many prospectors are now on the ground in the Oscuras, Burros and San Andres mountains. The richest finds yet reported are 17 to 25 miles from Malagro station on the E. P. and N. E. road, and should the ore hold out as the sinking continues on some of these properties shipments will soon begin to the El Paso smelters.

It is already current rumor that the Santa Fe is going to build a rail road through some portion of this region to connect with the Pecos Valley and Northeastern in the Pecos Valley, and should Chicago capital, through Mr. Vandervort and his prospectors open up some shipping properties there it will not long remain a rumor as in that event it would be a paying line of railway from the start. Prospectors in this region are wild with excitement and confidently expect it to be the greatest mining region in New Mexico.

BELSHAZZAR.

By Rev. Jno. A. Hollars.

Text:—Daniel 5:24-27.

Then was the part of the hand sent from before him, and this writing was inscribed: MENE MENE TEKEL UPHARSIN. This is the interpretation of the thing: MENE; God hath numbered thy kingdom, and brought it to an end. TEKEL; thou art weighed in the balances and found wanting. PERES; thy kingdom is divided and given to the Medes and Persians.

The above named person was engaged in giving an elegant supper to a thousand of his lords. I presume that these men were the very best to be found in all the kingdom. Think what a feast to sit at the table with so many elegant and accomplished men.

There was the artist who could discourse learnedly upon art, there was the politician who could speak of the affairs of state, there was the musician who could speak wisely of the technique of music, there the great general who could discuss the affairs of war, there the philosopher with the mind of a master.

What a great and wise company of people, so wise, so great, yet, they could not stay the hand of God, all their combined wisdom had no power with the great Jehovah. The wisdom of man is foolishness to God. The simplest prayer of a child, has more power with God than all the logic of great logicians. Their talents could not save them, their philosophy could not save them, their wisdom could not save them. God numbered the kingdom, found it wanting and brought it to an end.

This great king was cut off, we may say, in the height of life. He was very selfish, in his day men lived simply to eat, drink and be merry. Perhaps his motto read something like this: Get all you can, and enjoy all you get. The man who lives for self cannot enjoy life.

God watched the career of this man for some time, and then said to him; thou hast been weighed in the balances and found wanting. This statement from Jehovah was a great surprise to the king, he did not expect anything of the kind, it is always the unexpected that comes to pass. How many people go on and on in life with not a thought of the future; we give much time to the present, but not much to the future.

We do not know when God will say to us, your time is up. We do not like to talk about death because life is so beautiful—it is beautiful to live thoughtful helpful lives.—But we all know that our days are numbered, death is inevitable, we cannot escape the cup. Life is run on borrowed time, just a breath between man and eternity.

God gave Belshazzar a kingdom. He gave him power and prosperity, but the old canker worm of pride got in its work. I believe that our heavenly father would trust us if he could.—God would like to trust us but we prove false to our charge.—Life is given to every man as a sacred trust, and if we betray the trust we must suffer the consequences.

The secret of a happy life, is the constant preparation for its termination: We have a lease upon this life to fit it for the life to come. The day will come when we will be weighed in the balances of God's justice, let us be ready for the great day.

EMBALMED BEEF GAUSES TROUBLE

Another Riot at Honolulu.

A Honolulu dispatch, August 26, says:

Soldiers aboard the Senator, which sailed today enroute to the Philippine Islands, are causing much trouble.

The second day after from San Francisco they discovered that a considerable part of the beef aboard for their consumption was the time variety which has acquired the name of "embalmed beef."

Trouble arose immediately. The soldiers refused to eat it or allow it to be served. They insisted that it be thrown over board, and finally this was done.

The steamer remained here four days. Just before sailing one hundred soldiers became intoxicated and engaged in a general fight with the result that when the steamer sailed many were in irons.

The very fact that republican papers all over the country give W. J. Bryan so much prominence is the greatest evidence that they fear his nomination, and the more they parade the weakness of the silver policy, as they term it, the more convincing it is to democrats that instead of desiring the democratic party to reaffirm the platform of 1896, in order that the public mind may have a walk over as republicans put it, they are wild with the fear that such will be the action of the democrats in the next national convention, and that a few millions more of voters will cast a vote for Bryan this time than had voted for him in 1896.

The democratic platform of 1896 with an anti-trust and anti-imperialistic plank added is just exactly what they do not want to see, and all this anxiety they are manifesting with reference to an easy victory, if the democrats stay by Bryan and the Chicago platform is only a pull which will rebound as a boomerang to themselves, as democracy is on to the scheme. All this bluff and hurraing is prompted by the hope that the democratic party will compromise the silver question and thereby lessen its chances of success in the next presidential election. They would like to see Mr. Bryan turned down as they had a measure of this strength in 1896. A division of democracy on silver is the basis of republican hope for victory in 1900.

The New and Original Songs Which Can Be Had Free.

What will the great metropolitan papers do next? This is the question some one asks nearly every day. But there is one which leads all others. It has gained the sobriquet of "America's greatest newspaper" by just such remarkable pieces of enterprise as the one which has just now attracted the attention of the press all over the country. Last week the New York Sunday World announced that it would give away an album of new and original music, consisting of ten up-to-date class of songs that are now so popular, such as songs of sentiment, "coon" songs, "canta-bellas," etc. These ten songs the Sunday World proposes to distribute one each week, with every copy of the Sunday World. When it is considered that the average price of new music, written and composed by popular authors, is from 20 to 45 cents, the unparalleled enterprise of the World in giving the song away with a big Sunday newspaper, for which only 5 cents is charged, is apparent. The World requests that we publish the following announcement:

A Music Album free. From Sept. 3 to Nov. 5, The Sunday World will issue weekly a song in sheet music form, with handsome colored cover. The entire set will be mailed, postage paid, for 30c. Remittance received after Sept. 3 will get the book numbers and each new number issued. Besides the songs, The World will also send a colored Art Portfolio, which is a marvel of journalism; its Sunday Magazine, which is the most popular magazine, and its Comic Week, which contains every comic weekly in the United States, except two, and in its comic scope it has two 13-cent publications. Write a postal card to the Sunday World Music Editor, Pulitzer Building, N. Y., for a list of the songs.
