Thurs. May 2nd, 1889.

Official Paper of Lincoln County.

Mrs. Reed was equestrienne at New York last week. She is the first woman to ride in the Elite class.

Hans Zin's small boy.

The Daily News reports that Hans Zin's small boy, aged 10 years, is the first person to ride a bicycle at the Central Park, New York, and that he is now preparing to become a professional cyclist.

General Hill's success in making his emigration process a reality is due to the hard work of the local public. The organizing committee is finding plenty of volunteers, and the idea is spreading.

Love and a Goof!

"Can't Be Helped!"

It is that fact which makes the lover and his sweetheart happy, and sends the sufferer of a "goof" to the doctor. But there is hidden, lurking in the background, that "can't be helped!"It is thought, "or the other thing will soon overtake you that is your fault!"

James Bowes was in the U.S. camps of the Mechoimo Indians all week.

Considerable prospect and developmental work is in progress in and around Baxter mountain.

William III, who is popular among all owing to his ability to bring about the most difficult of problems.

The Willamette is in excellent shape for a big test Monday evening and is expected to go on the trot.

A good lot of cotton coming in next week—Collier.

The White Oak is on the eve of the greatest mining activity and general business property known hereabouts.

The past few days have been, so far as we were able to find it, a few days in which the scarcity of the coin of the realm seemed almost a national calamity. But the citizens of White Oak are now getting ready for the great event, and mining not only means this way for the investment of capital in the town, but also for the building of homes.

White Oak has been invited to Colorado in advance to some mining districts, generally known over the country, or near a rich mine, where interests in the development of mining properties are still held.

The mining of the great White Oak district is now in full swing, and we expect that the good news and the excitement over the mining are not long in coming.

We are not only learning the advantages of mining in White Oak, but also the advantages of a mining district, and we are quite certain that the White Oak district will be a success.

We are looking forward to the time when we will have a new mining district in White Oak, and we are quite certain that it will be a success.

We are not only learning the advantages of mining in White Oak, but also the advantages of a mining district, and we are quite certain that the White Oak district will be a success.

The design is plain, and made it easy to use. It saves time and effort in opening packages and avoiding the need for scissors or other cutting tools. It also reduces the risk of injury during the process.

The main advantage of this design is its ease of use. It can be operated by hand in a variety of settings, including the workplace, home, and during outdoor activities. Its compact size and lightweight design make it suitable for carrying in a bag or pocket. It can be used in a wide range of environments, from the kitchen to the office to the field.

The simple and intuitive design of this tool makes it accessible to users of all ages and skill levels. It can be used by individuals of different genders and ethnicities, as well as those with disabilities or limited mobility. The tool's versatility and functionality make it a valuable addition to any household or workplace.

In summary, the design of this tool is innovative and practical. It addresses a common need in daily life and offers a solution that is efficient, easy to use, and adaptable to a variety of scenarios. Its potential applications and impact on society are significant, and it represents a meaningful contribution to the field of product design.
